PROPOSALS for opening, bridging and improving the road laid out under the direction of the Secretary at War, between Nashville in Tennessee and Grindstone Ford on Pierre river in the Mississippi territory, will be received at the General Post Office until the 15th day of December next.

For the convenience of contractors the road will be divided into three parts, and separate proposals received for each.

First. From Nashville to the Tennessee river, 112 miles.

2. From Tennessee river to Loonachitto creek, a branch of the Big Black river, 115 miles.

3 From Loonachitto creek to Grindstone Ford, 155 miles.

NOTES.

Note 1. The road is to be cleared of all tree logs and brush, twelve feet in width and made passable for a waggon. All streams not over forty feet wide are to be bridged, and the banks of other streams are to be sloped or sloped down so that they may be passable for a waggon.

Note 2. The bridges are to be twelve feet broad supported by proper abutments, the bridge part to be composed of four pieces of timber not less than 10 inches in diameter at the smallest end, and covered with halved logs whose original diameter was not not less than 8 inches, the piers or supports of the bridge not to be more than twenty feet apart

Note 3. Some parts of the road will require causewaying, these will be pointed out by the Post Master General's agent. The causewaying is to be done with logs, 10 feet in length and not less than 6 nor over 9 inches in diameter, earth is to be thrown upon them to render them passible, and where the places to be causewayed are subject to be overflowed the causeway is to have a rider on each side keyed down by forked stakes or stones and gravel.

Note 4. It is supposed that there is already a cleared waggon path on some part of the distance, no clearing is to be done where that is the case. The work is to be completed by the first day of October 1807. Reasonable advances will be made at the commencement of the work, and the balance paid as soon as the work is compleated. Mr. R. J. Meigs, and Mr. Thomas Wright are to decide whether it be executed conformable to contract.

Note 5. The proposals should state the price by the mile for clearing, the price by the yard in length for causewaying, the price by the foot in length for the bridgework, and the price by the cubic yard for sloping or shelving the banks of watercourses.
