Occurrences During Printing.

SOME weeks are occupied in printing a volume so bulky as THE WORLD ALMANAC, and it is necessarily put to press in parts or "forms." Changes are in the meantime occurring. Advantage is taken of the going to press of the last form of the First Edition to insert information of the latest possible date, which is done below. The readers of the ALMANAC are requested to observe these additions, corrections and changes, and it would be well to make note of them on the pages indicated.

70. Opening and Closing of Navigation—Navigation closed on the Hudson in 1909 on December 15.
130. The Constitutionality of the Torrens System of Land Title Registration was upheld December 11 in a unanimous decision of the Appellate Division of the Supreme Court, Brooklyn, N. Y. The case, the first brought in the State to test the Torrens law, will be taken to the Court of Appeals.
602. Supreme Court of the United States—Horace H. Lurton, Tennessee, born 1844, was appointed to succeed the late Rufus W. Peckham, December 13.
239. Justices of the Supreme Court—Horace H. Lurton, Tennessee. Appointed 1909; born 1844.
325. Farm Productions in the United States—The Secretary of Agriculture announced in his thirteenth annual report the following values of farm products in 1909: Corn, \$1,720,000,000; cotton, \$850,000,000; wheat, \$725,000,000; Hay, \$665,000,000; oats, \$400,000,000; potatoes, \$212,000,000; tobacco, \$100,000,000.
189. Panama Canal Commission—J. C. S. Blackburn has resigned.
270. Stock Exchange Seats, Cost of—A sale was made November 29 of a seat in the New York Stock Exchange for \$94,000.
616. Navy—The Secretary of the Navy on November 29 appointed an Advisory Council composed of Rear-Admiral William Swift, for material; Rear-Admiral William P. Potter, for personnel; Rear-Admiral Richard Wainwright, for operation and management of the fleet, and Rear-Admiral Aaron Ward, for inspections. Capt. Reginald F. Nicholson was appointed Chief of the Bureau of Navigation.
561. Reigning Families, Denmark—Princess Maria of Orleans, wife of Prince Waldemar, brother of the King, died December 4 at Copenhagen. Belgium—King Leopold died December 17, and was succeeded on the throne by his nephew, Prince Albert.
228. Woman Suffrage—Women vote in Connecticut for members of Boards of Education and Boards of Directors of Public Libraries.
278. Principal Railroad Systems—November 26, consolidated under one management the Chicago & Alton and the Toledo, St. Louis & Western (Clover Leaf) roads with the Minneapolis & St. Louis and the Iowa Central Railroads.
744. Hospital for Nervous Diseases—The Neurological Institute for the treatment of nervous and mental and allied diseases. Opened November 28 at 151 East Sixty-seventh Street.
240. United States Department Officials—Commissioner of Pensions, 1909, James L. Davenport.
299. Railroad Speed—New York Central and Hudson River Railroad, special train for Samuel Newhouse, December 6-7, Chicago to New York City, in 17 hours and 46 minutes, straight time. The 540 miles from Chicago to Buffalo were made in 535 minutes.
336. The Prohibition Movement—The Prohibition amendment to the State Constitution of Alabama was defeated by the people of that State November 29 by a large majority.
170. Death Roll, Additional Deaths in 1909—Patrick F. Sheely (59), sporting man, heart disease, New York, December 12; Ludwig Moud (79), chemist, scientist, London, England, December 10. King Leopold of Belgium (75), embolism, Brussels, December 17. State Senator John Raines (69), gastritis, Canandaigua, N. Y., December 16.
679. Election Returns, New York—All four of the proposed State Constitutional amendments were carried at the November, 1909, elections, although the vote on them was small. They are as follows: No. 1—Increasing the salaries of up-State Justices of the Supreme Court from \$7,500 to \$10,000 per year. No. 2—Permitting the Legislature to alter the rate of interest paid on State bonds. No. 3—Designed to make the acts of Boards of Supervisors subject to the veto power of County Auditors or other fiscal officers. No. 4—The so-called debt limit amendment.
345. Marriage and Divorce—A summary of the report of the Census Office on marriage and divorce states that at present rate of increase the proportion of divorces to marriages in the United States will soon be one to twelve. Two-thirds of the divorces in this country between 1887 and 1906 were granted to the wife. Desertion was the cause in 39 per cent. of the cases. The marriage rate is larger in Southern than in Northern States. With the exception of Japan, the divorce rate is greater in the United States than any other country. The divorce rate is three times greater than forty years ago. Only 15 per cent. of cases in the courts are contested. Three out of every four applications are granted. The United States has the highest marriage rate in the world, rivalled only by West Australia, Hungary and Saxony. The fewest marriages occur in Ireland, with Sweden next.
579. Population of Largest Cities of the Earth—Latest census: Tokio, 2,168,151; Osaka, 1,217,765; Kyoto, 441,460; Yokohama, 392,871; Kobe, 175,936.
712. Guaranty Trust Company, New York City—A. J. Hemphill was elected president. Union Trust Co.—No president as yet selected to succeed John W. Castles, deceased.
343. Benefactions of 1909—Additional bequests and gifts: George Crocker, of New York and California, to Columbia University, \$1,500,000 for special research as to cure of cancer. John M. Burke, of New York, \$4,500,000 for the establishment of a rest home for convalescents. Wilder estate, \$2,200,000 to charity in St. Paul, Minn. Charles H. Farnham, Jr., of Connecticut, \$500,000 to Yale University. Charles N. Crittenton, of New York, about \$2,000,000 to Florence Crittenton Missions. Victor F. Lawson, of Chicago, \$100,000 to Y. M. C. A. Otto Beit, of London, \$825,000 for benefit of medical research.
644. New York State Legislature—Senator John Raines died December 16.
559. Rulers of Nations—King Leopold of Belgium, died, and was succeeded on the throne by his nephew, Prince Albert. President Zelaya, of Nicaragua, resigned. Robert Comtesse was elected President of Switzerland for 1910.
424. Automobile Record—Several new motordrome records were established at the two-day time trial meet at Indianapolis, December 17 and 18. Lewis Strang drove five miles

OCCURRENCES DURING PRINTING—*Continued.*

- in a Fiat car in 3 minutes 17.7 seconds. John Aitken, in a National car, did fifteen miles in 12 minutes 17.01 seconds.
412. Baseball—National League official batting averages. First, Honus Wagner, Pittsburgh, .339 for 137 games; second, Mitchell, Cincinnati, .310 for 145 games, and Seymour, New York, for 73 games; third, Hohlitzel, Cincinnati, .308 for 142 games; fourth, Wheat, Brooklyn, .304 for 24 games; fifth, Doyle, New York, .300 for 144 games.
33. Anniversaries—Dr. Fred. A. Cook's claim that he reached the North Pole was rejected by the University of Copenhagen December 21, 1909, to which tribunal he submitted his data for examination and judgment.

The International Language.

The following statement on this subject has been prepared for THE WORLD ALMANAC by Andrew Kangas:

"An international auxiliary language is intended as an artificial means of communication between persons whose native tongues are not the same. The first to attract general attention among the numerous attempts at an artificial language was Volapuk, invented in the eighties by Father Martin Schleyer, of Geneva, which practically failed because of its intrinsic defects and the obstinate refusal of its author to accept reforms. Esperanto, invented in 1887 by Dr. L. Zamenhof, of Warsaw, has been more successful owing to several good features it possesses, among them being its system of prefixes and suffixes and methods of word-combination, its considerable proportion of words common to European languages and phonetic spelling.

"In November, 1908, it was announced that the New York society had decided to abandon Esperanto for a simpler form of artificial language, called Ido, the International Language of the Delegation. The reason given was that Esperanto had been found, after experience in its use, to be too full of defects for practical use and ultimate universal acceptance.

"Esperanto was invented to serve as an international auxiliary language, i. e., a means of communication between persons whose native tongues are not the same. It is an artificial language resembling, to some extent, a Latin dialect, but also containing chords of Anglo-German origin, as well as a large percentage of frequently occurring 'arbitrary' words, i. e., ones not borrowed from or resembling living languages. Its pronunciation is strictly phonetic. The success of Esperanto, which is now known over the entire world, and the comparative facility with which it can be mastered are chiefly due to its system of prefixes and suffixes and methods of word-combination, by means of which its rather limited vocabulary is considerably amplified.

"The international language offers an immediate advantage by laying open to its possessor the whole world. It breaks down the barriers of speech, and procures for one in every land a multitude of persons who understand one's language and are ready to exchange ideas and service with him. If one wishes to correspond with people of different nations, with whose language he is not conversant, for the purpose of commerce, science, information or amusement, this can be easily accomplished by the help of the 'Linguo Internaciona.' Where travelers of different nations may only with difficulty understand each other by means of a few written Latin words, the pronunciation of Latin being different in different nations, with the international language they would be able to speak together and help one another.

"The Delegation for the Adoption of an Auxiliary International Language, founded in 1901, having received the adhesion of 310 societies of all countries and the approval of 1,250 members of academies and universities, elected in 1907 an International Committee consisting of eminent scientists, Esperantists and linguists, who, after examining all past and present schemes for an international language, adopted Esperanto with a few alterations, so calculated as to preserve the principles and essential qualities of the language invented by Dr. Zamenhof, while applying those principles more consistently and doing away with unnecessary complications. The following are the chief alterations effected:

"Suppression of all accented letters (making it possible to print the language anywhere), while preserving phonetic spelling and often restoring the international orthography; suppression of adjectival declension and accusative (very troublesome for most nations, and chiefly for people with little knowledge of grammar); regularization of word-building, (thus preventing the influx of national idioms and giving a solid basis to the scientific and technical vocabulary, without which the international language cannot obtain a footing in the world of science); enrichment of the vocabulary by adoption of new roots selected according to the principle of the 'maximum internationality,' i. e., roots found in most European languages; rejection of all arbitrary forms, unpronounceable sounds, etc. The resultant, called Simplified Esperanto, or 'Ido,' (Linguo Internaciona), is a language understood without previous study by every fairly educated man, owing to its being the quintessence of European languages. It is a marvel of simplicity and regularity—no unnecessary rules, no exceptions. It is learned by reading; when you can read it, you can write it; when you can write it, you can speak it. And experience has proven that people from the most different countries pronounce it so nearly alike as to make any differences as trifling and as little troublesome as dialects of English in this country—less so, in fact.

"The following are the officers of the New York Ido Society: Andrew Kangas, President and Corresponding Secretary, 43 White Street, New York; Alexander Smith, Vice-President; Dr. Max Talmey, Treasurer; John Ed. Hearn, Recording Secretary.

The South African Union.

A federation was formed in 1909 under one colonial government by the South African British colonies of Cape Colony, Natal, the Transvaal and Orange River Colony. A Closer Union Convention of delegates representing these colonies was held at Cape Town during January and February, and its action was afterward confirmed by the Legislature of each of the colonies. A constitution was formulated the previous year at Bloemfontein. In general its provisions are similar to those of the Canadian constitution, except that it leaves no exclusive powers to the provincial authorities. Provision is made for the future admission of Rhodesia to the Union. English and Dutch will be the official languages on exactly legal terms. The total area of the Federation is 473,465 square miles and the total population 4,656,777. On August 16, 1909, the South African Union bill was passed by the British Parliament, following which the first assembly of the Union, consisting of 121 members, convened at Cape Town. On November 19, Herbert John Gladstone, Secretary of State for Home Affairs, accepted the post of Governor-General of United South Africa.

The World.

JOSEPH PULITZER.

Still achieving, still pursuing, having long since learned to labor and to wait patiently and with confidence for results, THE WORLD through 1909 held its peerless position in the newspaper world. Unawed by influence and unbribed by gain, and governed only by its established principles, it continued during the year to put into action the wish of Joseph Pulitzer, uttered twenty years ago when the corner stone of THE WORLD'S home was laid: "God grant that THE WORLD may forever strive toward the highest ideals, be both a daily schoolhouse and a daily forum, both a daily teacher and a daily tribune, an instrument of justice, a terror to crime, an aid to education, an exponent of true Americanism."

There are no new planks in THE WORLD'S platform for 1910. It stands squarely on the pledges of Mr. Pulitzer, made through his son, Mr. Ralph Pulitzer, at the dedication of the enlarged Pulitzer Building on May 9, 1908: "THE WORLD will remain forever independent, detached from party. THE WORLD will persevere with burning zeal in fighting corruption and privilege, regardless of party. But it will also fight humbugs and demagogues, faithless office-holders and shameless office-seekers, who, under the pretense of hating corruption, posing as friends of the people, pursue their own personal, political and pecuniary ambition." "THE WORLD will continue to expose all fraud and sham, fight all public evils and abuses."

INCOME TAX VICTORY IN SIGHT.

It was a proud day for THE WORLD when on August 2, 1909, Alabama went on record as the first State in the Union to give her indorsement to the sixteenth amendment of the Constitution of the United States, to wit:

"That Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States and without regard to any census or enumeration."

Every other State in the Union will decide through its Legislature whether the Constitution shall be so amended. If thirty-five or more of the forty-six States vote in favor of the amendment, an income tax—for which THE WORLD has been steadily battling for more than twenty-six years—may be legally levied.

On May 10, 1883, THE WORLD passed into the possession of Joseph Pulitzer. The first issue of THE WORLD under his management was published on May 11, 1883.

Six days later, on May 17, 1883, THE WORLD editorially declared itself in favor of an income tax, and ever since then it has consistently and continuously maintained that contention.

The editorial of May 17, 1883, has since become a classic. It announced the policies of THE WORLD under the new ownership and management. It was headed "New WORLD Doctrines" and was as follows:

- | | |
|-------------------------------------|---|
| 1. Tax luxuries. | 7. Reform the civil service. |
| 2. Tax inheritances. | 8. Punish corrupt office-holders. |
| 3. Tax large incomes. | 9. Punish vote-buying. |
| 4. Tax monopolies. | 10. Punish employers who coerce their employees in elections. |
| 5. Tax the privileged corporations. | |
| 6. A tariff for revenue. | |

This is a popular platform in ten lines. We recommend it to the politicians in place of long-winded resolutions.

That was the first declaration ever printed in an American newspaper in favor of an income tax. Though the circulation of THE WORLD at that time was insignificant the editorial announcement aroused interest in a question which was then absolutely new to a great majority of the population of the United States. The editorial caught the eye of Gen. "Ben." Butler then Governor of Massachusetts, and what he said of it was touched upon in an editorial headed "A Short Platform," printed in THE WORLD May 20, 1883. That editorial warmly and enthusiastically advocated THE WORLD'S ten-line platform and Gen. Butler declared that the political keynote of 1884 had been sounded.

On July 11, 1883, THE WORLD began its campaign in earnest for an income tax. On that date it printed an editorial of some length headed "A Just Tax," the first paragraph of which read: "An income tax is the fairest and most democratic tax a government can impose. With an exemption limit placed at a proper sum and a graduated rate, increasing with the amount of income, it does what all wise and just taxation ought to do—it falls on those who are most able to bear the burden. It relieves the poor man. It prevents the rich man from evading his share in the cost of maintaining the Government, which he often does under the present system of taxation."

THE WORLD kept the need and justice of an income tax before the people and the lawmakers year after year. When Mr. Cleveland took office the first time in 1885 THE WORLD seized the opportunity that presented itself in the first Democratic President since the civil war and urged the enactment of an income tax. The proposition was too new for the country at that time; its opponents, and they were many, denouncing it as extreme radicalism.

Undiscouraged, THE WORLD continued the agitation, which grew in effectiveness as the circulation of the newspaper increased. When Mr. Cleveland was elected the second time, in 1892, THE WORLD redoubled its efforts in behalf of an income tax. By that time, as a result of THE WORLD'S constant agitation of such a law, the whole country was well informed on the subject. It had become an issue of the widest national importance and Representatives and Senators at Washington heard unmistakably from tens of thousands of their constituents who favored it.

Up to then THE WORLD had been conducting a single handed fight. Then other newspapers in the West and South urged the enactment of a Federal income tax, but for

the most part the newspapers in the money centres of the East combated the movement. The Republican party was solidly against it.

The income tax fight in the House and Senate in 1894 was a notable one. THE WORLD sent an army of reporters to Washington and polled Congress on the issue. The result showed a sufficient number of votes to insure the passage of the measure. THE WORLD had previously printed a page list of New York's millionaires, showing how an income tax would operate in this city and the return it would yield the Government.

The income tax measure was made a section of the Wilson Tariff bill. It passed the House with a large majority and won its way through the Senate in August of 1894. It was in operation less than a year when, on May 20, 1895, it was declared unconstitutional by the United States Supreme Court, five Justices voting against it and four voting to sustain it. Of the five who voted against it Justice Shiras had previously declared in its favor, but finally changed his vote, thereby rendering the statute void.

On May 21, 1895, the day following the decision of the United States Supreme Court at Washington declaring the Income Tax law unconstitutional, THE WORLD in an editorial headed "The Escape of Wealth," said:

"The overthrow of the income tax is the triumph of selfishness over patriotism. It is another victory of greed over need. Great and rich corporations by hiring the ablest lawyers in the land and fighting against a petty tax upon superfluity as other men have fought for their liberties and their lives have secured the exemption of wealth from paying its just share toward the support of the Government that protects it. * * * If the Constitution really prevents equal and just taxation, the people can amend their Constitution. And they will! This great democracy is not to be converted by legal hair-splitting into a plutocracy. In the long run, Men are mightier than Money. The Republic stands for justice, and in the end justice will prevail."

The prophetic character of the editorial is shown by the fact that fourteen years later the individual States have begun to amend the Constitution along lines which will make an income tax constitutional.

After the nullifying of the Income Tax law THE WORLD started the fight anew and kept the agitation alive. William J. Bryan became an advocate of it and it was made a conspicuous part of the platforms of subsequent Democratic conventions. President Roosevelt declared himself in favor of it.

MILLIONS WON FOR THE CITY.

As the result of a decision handed down at Albany on October 19, 1909, by the Court of Appeals, New York City will soon be able to gather in \$27,000,000 of special franchise taxes which have accumulated since the enactment of the Special Franchise Tax law in 1901, as a result of agitation by THE WORLD. The sum which the up-State localities will collect under the decision is \$14,000,000. Some of the big New York City corporations brought to time by the highest court in the State are the Consolidated Gas Company, the New York Mutual Gas Light Company, Metropolitan Street Railway, Third Avenue Railroad, New York Edison Company and Brooklyn Rapid Transit system. The decision was given in the Jamaica Water Supply case, which was brought after long filibustering by the public service corporations in their effort to tie the hands of the State Board of Tax Commissioners and further delay the payment of this enormous sum due New York City. Efforts have since been made to reopen the case, but ultimate victory for THE WORLD seems now assured.

This decision marks the end of a contest begun by THE WORLD ten years ago to compel corporations to make some return in taxes for the privileges conferred by public franchises. The corporations fought the demand stubbornly from the beginning. When THE WORLD exposed bribery in the Legislature and the law was enacted the opposition took the fight into the courts with every legal device they could employ and did not resist until the Supreme Court of the United States upheld the law.

Even the decision was not accepted by some of the railroad companies, who held that money paid by them for car license fees and percentages paid to the city must be deducted from the franchise tax.

THE WORLD began the movement alone. It interested every newspaper in the State and the most important civic and commercial bodies and sent to Albany a petition signed by more than 50,000 citizens. Senator Ford introduced the bill. At THE WORLD'S instance the fight was made on non-partisan lines.

Exposure of the relations of corporation lobbyists with members of the Legislature broke down the avowed opposition of the leaders of both party machines. Richard Croker sent Corporation Counsel Whalen to Albany to force four Tammany members who had originally opposed the bill to change their votes. In its desperation the lobby offered the tempting sum of \$25,000 a vote. There was only twenty minutes left of that session when the bill was passed. Senator Ford then paid this tribute to THE WORLD:

"THE WORLD more than any other agency caused the passage of the Franchise Tax bill. The first suggestion of the justice and necessity of such a measure was made by THE WORLD. The service it rendered in compelling the Legislature to pass it in the face of the most powerful opposition was a great and brilliant achievement."

Generally the corporations affected have been laying aside set sums each year to meet this tax, realizing that the courts would finally compel payment. So there is no reason why the present decision should affect unfavorably the market price of securities in any of the properties. Following the Washington decision in 1905 there was a pronounced advance in these prices, showing that the corporations had anticipated and discounted the court's action. The \$27,000,000 now to be collected for the city will be used to retire revenue bonds.

THE FIGHT FOR SUBWAYS WON.

Insistent demands made by THE WORLD for more subways bore fruit on March 8, 1909, when Theodore P. Shonts, President of the Interborough Rapid Transit Company, appeared before the Public Service Commission and announced that in a few days his company would file plans with the commission for new subways to cost \$50,000,000. Of this sum the company is to furnish \$49,000,000 and the city \$1,000,000. The debt limit bugaboo could not be raised, therefore this proved to block an enterprise that means so much for the comfort of the public and the city's growth.

THE WORLD has always contended for more subways, but on March 7, 1908, it launched a movement unique in the history of struggles for municipal betterment. It brought together in a harmonic whole the best forces of the five boroughs to fight for ad-

ditional subways. In each borough, under the guidance of THE WORLD, a committee of fifteen able, earnest citizens was organized. The five committees acted as a unit in the struggle for better transit facilities.

Innumerable obstacles were placed in the way of the committee, not a few of them originating with interests friendly to the existing subway company. One argument was that the debt limit forbade the large outlay the city must make for more subways. THE WORLD showed that new subways could be built in sections on the pay-as-you-go plan. The magnates of the Interborough declared private capital could never be induced to venture millions in another subway enterprise. THE WORLD showed the plea to be nonsensical. The fact that President Shonts publicly announced the willingness of private capital to furnish \$49,000,000 for a \$50,000,000 subway thus proved the accuracy of the contentions made by THE WORLD in March, 1908.

Opponents of the campaign for more subways declared suitable routes could not be laid out. THE WORLD answered this by employing Caccavajo, Fryn & Calhoun, consulting engineers, who worked out a comprehensive plan for a subway system that would meet the wants of all boroughs for many years. A large map of this plan was submitted to the Public Service Commission and met with the approval of many of its engineers.

President Willcox, of the Service Commission, gave hearty support to the pay-as-you-go plan. The map, prepared by THE WORLD'S engineers, was deposited in Corporation Counsel Pendleton's office at his request.

The creation of subway committees in all boroughs served to keep the matter constantly before the public and the aggressive campaign initiated by THE WORLD was never permitted to lag. Citizens who joined forces with THE WORLD eighteen months ago never faltered in their belief that the Interborough would be compelled to surrender. The offer made by President Shonts was accepted by them as the hoisting of the white flag.

THE WORLD continued its fight for the pay-as-you-go plan. On March 27 the Board of Estimate by a vote of 10 to 6, approved the plans for the Fourth avenue subway in Brooklyn, over the heads of Mayor McClellan and Comptroller Metz and authorized the Public Service Commission to begin advertising at once for bids. On October 29 the Board of Estimate approved contracts for six sections at a cost of approximately \$15,000,000. On November 9, 1909, the last of these contracts was signed. On Sunday, November 13, in the presence of happy thousands of sightseers, Chairman Willcox, of the Public Service Commission, turned the first spadeful of earth at Flatbush and Dekalb avenues—and now the dirt is flying!

On November 10, 1909, THE WORLD said editorially: "The first shovelful of earth from a publicly built subway falls cold on the grave of private monopoly. The ruinous rule of the Interborough-Metropolitan was broken by the entrance of the McAdoo tunnels into Manhattan, soon to be extended to Forty-second street. The new company bidding for Lexington avenue promises more competition, but the best competitor of all is public ownership and control; for the people can neither be bought off, nor merged, nor brought into 'harmony of interests' with stock watering exploiters. The debt-limit bogey is no more. All reasonable present needs are supplied by the Court of Appeals decision. More borrowing power can be gained by equalizing assessments. What is most important now is economy in the city government, and the elimination of waste, so that the interest of the expanding debt shall not press too heavily upon the taxpayers and rentpayers."

THE PANAMA CANAL LIBEL CASE.

The dawn of 1909 found the press of the country denouncing an attack made upon THE WORLD by President Roosevelt, in a special message to Congress, because THE WORLD had called for a Congressional investigation of the financial proceedings in connection with the purchase of the Panama Canal. Mr. Roosevelt, in his message, informed Congress that certain statements printed in THE WORLD "are wholly and in form partly a libel upon the United States Government;" that the proprietor of THE WORLD "should be prosecuted for libel by the Governmental authorities," and that "the Attorney-General has under consideration the form in which the proceeding against Mr. Pulitzer shall be brought." To this THE WORLD replied editorially:

"Such being the case, Congress certainly has a right to know when it became possible to commit a libel upon the United States Government and under what statute proceedings to punish a newspaper for lese majesty can be brought at the instigation of the President. There has been nothing quite like it in the country for the last 109 years—not since the Federalist party went to wreck and ruin under the infamy of the Alien and Sedition laws and Thomas Jefferson became President of the United States. The real issue involved in this case is not one that affects merely THE NEW YORK WORLD. It is not an issue that affects merely the freedom of the press. It affects freedom of speech as well and reaches out to the constitutional rights of every citizen of the United States."

THE WORLD urged a prompt, impartial and just punishment of itself or anyone else who has violated any penal statute of the United States; but it added that it had been unable to ascertain what law it had been guilty of violating. Hundreds of papers and thousands of intelligent citizens saw a vicious precedent in this Government attempt to muzzle the press, and the entire country was agitated.

THE WORLD showed its readers that no precedents exist for these libel actions and that an exhaustive search of laws and court decisions proved that the Government's brief presented to the Senate, supporting the President's position in Grand Jury proceedings aimed at THE WORLD, was in error and that the citations in it were garbled and distorted. In brief, it made clear that no such crime as libelling the Government or the President of the United States ever existed except during a short period under the Presidency of the first Adams. And from that day to this there has been no such crime as libelling the Government or the President of the United States, and there has been no such crime as sedition within the United States, except in the army or navy and among the officers and men thereof.

On February 17 the Grand Jury of the Supreme Court of the District of Columbia, sitting in Washington, returned an indictment against the Press Publishing Company (THE NEW YORK WORLD), Joseph Pulitzer and two of the editors of THE WORLD, charging criminal libel in the publication of various articles having to do with the publications regarding the Panama Canal purchase scandals. The United States Government brought the proceedings under a Federal statute which continued in the District of Columbia, with very slight modifications, the odious libel laws of England which were in force in the province of

Maryland in pre-Revolutionary days. The proprietors of the Indianapolis News were then indicted on charges identical with or similar to those made against THE WORLD.

On March 4 the Grand Jury for the Southern District of New York also brought in an indictment against the Press Publishing Company (THE NEW YORK WORLD), and another against C. M. Van Hamm, the managing editor, charging on the same articles that a criminal libel had been published in Federal territory, to wit: The United States Post Office in New York City and the United States Army reservation at West Point. This proceeding, purported to have been brought under a statute of 1825, which was passed for the purpose of extending State police regulations over Federal reservations within such State limits.

The Government's next effort was to bring the defendants to trial in Washington, the defense in each instance being that if an offense had been committed the trial should be in the State where the publication had occurred.

On March 5, United States District-Attorney Keating, of Indianapolis, resigned rather than to prosecute the case against the News, which he said he could not conscientiously do.

On October 13, Judge A. B. Anderson, of the United States District Court of Indianapolis, dismissed the proceedings against Delevan Smith and Charles R. Williams, proprietors of the Indianapolis News, who were resisting removal to the District of Columbia for trial under a Federal Grand Jury indictment, charging them with having committed criminal libel in publishing articles alleging that there was a corrupt profit in the sale of the Panama Canal to the United States.

In concluding his decision Judge Anderson said:

"That man has read the history of our institutions to little purpose who does not view with apprehension the success of such a proceeding as this, to the end that citizens could be dragged from their homes to the District of Columbia, the seat of government, for trial, under the circumstances of this case. The defendants are discharged."

Judge Anderson also said, among other things:

"I have had occasion to say before that a newspaper has a sort of duty to perform. It was well stated by a former judge of the United States, 'It is the duty of a newspaper to print the news and tell the truth about it.' It is the duty of a public newspaper, such as is owned and conducted by these defendants, to tell the people, its subscribers, its readers, the facts that it may find out about public questions or matters of public interest. It is its duty and its right to draw inferences from the facts known; to draw them for the people.

"I might just digress long enough to suggest that it is not everybody that can draw inferences. Now here was a great public question. There are many very peculiar circumstances about the history of this Panama Canal or Panama Canal business. I do not wish to be understood as reflecting upon anybody in office or out in connection with that matter, except such persons as I may name in that way.

"The revolution in Panama, the circumstances surrounding it, were unusual. It was unusual and the circumstances were unusual and peculiar. The people were interested in the construction of a canal. It was a matter of great public concern. It was much discussed. A large portion of the people favored the Nicaragua route. Another portion of those who were interested in it officially or personally, or just interested, preferred the Panama route.

"A committee was appointed to investigate the relative merits of the two routes. They investigated and reported in favor of the Nicaragua Canal. Shortly afterward—I do not recall just how soon afterward—they changed to the Panama. Up to the time of the change, as I gather from the evidence, the lowest sum that had been suggested at which the property of the Panama Canal Company could be procured was something over a hundred million dollars. Then, rather suddenly, it became known that it could be procured for forty millions of dollars.

"Now, there were a number of people who thought there was something not just exactly right about that transaction, and I will say for myself that now I feel a natural curiosity to know what the real truth was. Thereupon a committee of the United States Senate was appointed to investigate these matters—about the only way that that matter could be investigated.

"So we have this situation here. Here was a matter of great public interest, of public concern. I was interested in it; you were interested in it; we all were interested in it. Here was a newspaper printing the news, or trying to. Here was this matter up for discussion, and I cannot say now, I am not willing to say, that the inferences are too strongly drawn.

"I am not approving of the inferences. I am simply saying that I am not able to say that they were too strongly drawn. Now, if that is the situation—and as I understand the truth, that is the way it stands—the question is, did these defendants under the circumstances act honestly in the discharge of this duty which I have spoken of, if the law recognizes it, or they were prompted by a desire to injure a person who was affected by their acts?

"If it were necessary to decide this case upon the question of privilege, the lack of malice, I would hesitate quite a while before I would conclude that it was my duty to send these people to Washington for trial."

Almost without exception the newspapers of the United States applauded Judge Anderson's rulings on a matter of such vast importance, not only to the press, but to every citizen of the country.

THE WORLD, of course, makes no predictions as to what will happen in its own case, which is yet to be heard. The story of its fight for the freedom of the press and the right of every man to honestly, fairly criticize what he believes to be wrong in governmental affairs must be continued in 1910.

TEN THOUSAND DOLLARS FOR AERONAUTS.

The civilized world took notice when on January 31, 1909, THE WORLD, looking forward to the Hudson-Fulton celebration and realizing the universal interest felt in aeronautics, announced:

"To make this anniversary notable, to encourage the science of aerial navigation, to inspire effort to invention, to reward pioneer endeavor in aviation, to demonstrate beyond all question the commercial and scientific practicability of the dirigible balloon and the aeroplane, THE NEW YORK WORLD makes the following offer:

"Ten thousand dollars will be paid by THE WORLD to the person who makes the journey from New York to Albany in an airship or flying machine, mechanically propelled, thus duplicating in the air Fulton's famous steamboat trip of a century ago. If two or more competitors perform the journey on the same day, the one making the fastest time will receive the prize. This offer of THE WORLD, which is open to the aeronauts of Europe

as well as America, has been accepted by the Aero Club of America, the recognized American and international authority in aerial matters."

THE WORLD was immediately encouraged by many entries, and its offer was widely praised by aeronauts at home and abroad. Keen interest was instantly manifested. The first man to qualify was Capt. Thomas S. Baldwin. Others who entered were Clement-Bayard, dirigible; Morris Boxor, George T. Tomlinson, Carl E. Myers, William Van Sleet, Johnny Mack, Frederick Howden, A. Lee Eversen, Charles Giddon, Mark O. Anthony and R. M. Viniello. As the time for the flights approached hundreds of thousands of people eagerly awaited the attempts. On September 29, while more than a million eyes looked upward, Capt. Baldwin and George T. Tomlinson started. Baldwin flew out over the British warships, and was but ten minutes in air when the frame of his dirigible balloon buckled from excessive weight of the motor and he was forced to drop into the Hudson. Tomlinson was compelled to land at White Plains, about twenty-six miles distant, because of a leaking and unsafe oil tank. Both these men say they will yet make the trip to Albany.

THE WORLD'S offer is still open and conditions have been simplified. On October 10, 1909, THE WORLD printed this announcement: "To the first person who makes the Fulton flight from New York to Albany, or from Albany to New York, by a continuous trip in a mechanically propelled airship, either lighter or heavier than air, THE WORLD will pay \$10,000. This offer holds good until October 10, 1910, and is made without any conditions whatsoever, except that the starting point must be somewhere in the limits of New York City and the finish somewhere in the limits of Albany, or vice versa, and that intending competitors must give at least twenty-four hours' notice to THE WORLD and the Secretary of the Aero Club of America of their intention to start."

So, while during the Hudson-Fulton celebration the limitations of time and adverse weather conditions prevented any of the contestants from completing the course, THE WORLD encourages further effort. It still believes that no better test of the capabilities of airships, no higher trial of the skill and daring of aviators, no more significant achievement in aeronautics, no more symbolic course is possible than the Fulton flight. THE WORLD hopes it will be called upon in 1910 to pay the promised \$10,000 to the man who will also win a fame and glory as great as that of Hudson and Fulton—for he will have demonstrated beyond question the practicability of the airship in travel.

DENOUNCED THE SECRET DIVORCE EVIL.

When early in November a divorce was granted to Mrs. Ava Willing Astor, wife of Col. John Jay Astor, from her husband, without the name of Astor being mentioned in court, and the papers were ordered sealed, THE WORLD devoted many columns day after day to pointing out the evils of secret divorces. Many lawyers and judges, including Justice Mills, who ordered the Astor papers sealed, agreed with THE WORLD that the practice may often lead to bad results. THE WORLD'S argument was that the suppression of evidence tends to make divorce easy for the rich and galling for the poor, and that it was never the intent of New York State laws to suppress evidence or have private hearings, except when publicity would be obviously detrimental to public morals. THE WORLD also showed that there is still another evil attaching to the sealing of the papers in divorce suits. The intent of the law providing for the issuance of an interlocutory decree three months before the final decree is signed is largely nullified when the papers are sealed. The purpose of allowing this time between the granting of the interlocutory decree and the signing of the final decree, lawyers say, is to give an opportunity to co-respondents or others interested to intervene. Property rights are very often affected by divorces, and title companies, insurance companies and similar business concerns may have a vital interest in the matter. THE WORLD'S fight for a betterment of divorce court conditions will be ended until such remedial legislation has been enacted as will give rich and poor, innocent and guilty, their right standing in the eye of the law.

CASH AND HONOR FOR DRAMATISTS.

In June, 1909, THE SUNDAY WORLD aroused widespread interest among playwrights and all others ambitious to pen a drama by offering to award \$1,000 in cash to the originators of six ideas for plays—\$500 for the best one and \$100 each for the next best five. Furthermore, THE SUNDAY WORLD guaranteed a professional production under the direction of Mr. Henry E. Harris at a first class New York theatre, and within one year from the close of the competition, of the play resulting from such a scenario. It was prescribed that the scenario, or 2,000-word story, must outline a serious play of modern life in which the leading character is a woman. Ninety days after the close of the contest was allowed to the winner to convert his or her scenario into an acting play. If such play be afterward accepted as of proper standard of excellence these royalties were guaranteed: Four per cent. on the first \$4,000 paid into the box office, 5 per cent. of the next \$3,000 and 7 1-2 per cent. of all receipts over \$7,000. The Committee of Judges was Martha Morton, playwright; Wilton Lackaye, actor; Henry E. Harris, theatrical manager; Maurice Campbell, stage director, and Louis V. De Foe, dramatic critic.

Manuscripts of scenarios, good, bad and indifferent, soon poured into THE SUNDAY WORLD from all parts of the country. Every State in the Union is represented in the list of competitors. Thousands of manuscripts were received, and were submitted to the judges in series of twenty-five each. An enormous amount of labor resulted, and as these pages of THE ALMANAC go to press the names of the winners have not yet been announced. The contest, however, has proved to be one of the most successful in newspaper annals, and may bring to the contestant whose play is published a substantial fortune.

NIGHT COURT ABUSES ABOLISHED.

On January 8, 1909, just one year lacking one day after THE WORLD began its investigation of rumors of graft in his court, Otto H. Droege was removed from the City Magistrates' bench by unanimous decision of the Appellate Division of the Supreme Court.

Against the charges that Droege, in attempting to bribe representatives of THE WORLD not to expose the traffic in justice in the Night Court, committed an act unworthy of a Judge, and that his release of numerous women from the workhouse was illegal, the Appellate Division wrote: "Charges sustained and respondent removed from office."

The smoking out of the system of traffic in police court justice was accomplished by THE WORLD only after weeks of patient and persistent work, in which it received the hearty co-operation of District-Attorney Jerome and his staff, and Police Commissioner Bingham. When Magistrate Droege got wind of the inquiry he attempted to purchase suppression of THE WORLD'S story with a bribe. When the first bribe offer was made Dis-

trict-Attorney Jerome was taken into confidence immediately by THE WORLD, and a \$100 instalment of the bribe was accepted, with two of Jerome's men watching the transaction. Later, under pressure, Droege admitted the attempt at bribery, with the explanation that his effort to suppress the publication was "an act of folly." Mayor McClellan demanded that Droege resign from the bench. Droege refused. The Mayor then preferred charges before the Grievance Committee of the Bar Association, with the final result that Droege was removed by the courts. THE WORLD'S victory for the purity of the city bench was complete.

CHAMPION OF THE CHILDREN.

In July THE WORLD'S showing of the amazing number of arrests of children for petty offenses brought about speedily a needed reform. City youngsters were in terror of the Children's Society officers, whose dragnets ensnared many a child for the "heinous" crimes of selling newspapers, peddling chewing gum and playing games in the streets. THE WORLD came to the rescue. The Grand Jury soon filed a presentment with Judge Otto A. Rosalsky in General Sessions recommending that no bail be required for the release of a child taken on a misdemeanor charge. Supt. Maxwell of the Board of Education threw open all schoolyards in Greater New York for the children to use during the day instead of playing on the streets and Police Commissioner Baker announced that he was not in favor of arresting youngsters on petty charges. Plans are under way to frame bills to be presented at the coming session of the Legislature remedying the laws so that children will be immune from molestation.

When the Estimate Board in February, 1909, approved plans for a large athletic field near Two Hundred and Seventh street it was a victory for THE WORLD in the long fight which it has made for more playgrounds and athletic fields for the school children.

AN EDUCATION WITH FLAGS.

Taking the initiative upon a suggestion made by Ervin Pratt, the Superintendent of the Pulitzer Building, THE WORLD begun in October a custom not observed elsewhere, but which at once met with popular approval. From the dome of the Pulitzer Building THE WORLD now flies the flags of all the nations of the globe, and of such States of the Union as have State flags on their various holidays. By this means THE WORLD enables men from lands bordering the seven seas to see their own beloved standards flung to the breeze on the birthday of a ruler or on some day of general observance in the land the foreigner came from.

More than a hundred flags are used in carrying out the plan. The Consular representatives of forty-five foreign countries have hailed the idea as a splendid one, and in some instances have furnished the flags to be displayed. The hearts of thousands have already been gladdened by these banners, and the people are being educated to learn the different flags of nations and of States.

So, while THE WORLD stimulates patriotism, brings sunshine into the hearts of alien races and promotes good feeling between them and those who were born here, it will also be maintaining a sort of history class which all who have eyes to see may take advantage of.

LIGHT ON THE REBATE EVIL.

One of the most successful of THE WORLD'S fights during the year was its battle against rebating. During the summer it presented to United States Attorney Wise a mass of documentary evidence collected by THE WORLD to prove that the Interstate Commerce law had been grossly violated by a number of railroad and steamship companies. The Federal Grand Jury investigated, and as a result the general agent in New York of the Holland-America Steamship Company was indicted, he being charged with receiving rebates from railroad companies on consignment of foreign freight shipments. The indicted official pleaded not guilty. The two indictments against him contain thirty counts in all. The maximum penalty in case of conviction is \$20,000 fine and two years' imprisonment on each count, or a total of \$600,000 fine and sixty years' imprisonment. More indictments followed. The proceeding is the more notable because in this case the individual, not the corporation, is being prosecuted by the Government. It is certain that a great reform will follow THE WORLD'S rebating expose. An international governmental control of ocean traffic rates is already planned by experts.

EXPOSED MILK TRUST METHODS.

Early in November, when the milk dealers' combination raised the price of milk from eight to nine cents a quart, THE WORLD immediately and with exhaustive facts and figures pointed out that the price was jacked up to insure the resumption of 10 per cent. dividends on enormous capitalization. The result of the exposure was a commercial sensation. Citizens whose large families make milk an important item in the weekly list of expenses, mothers whose first consideration in the day is the arrival of the milkman with the baby's greatest necessity, were aroused over the situation, and in letters to THE WORLD and other newspapers they denounced the dealers who thus sought arbitrary profits.

Brooklyn, "the City of Homes," where Borden's Condensed Milk Company, the leader in the price rise, has ten delivery depots to the nine it has in Manhattan and the Bronx, was deeply interested in THE WORLD'S exposure of the real conditions leading up to dear milk. The members of the Twenty-eighth Ward Board of Trade in Brooklyn sent a letter to Attorney-General O'Malley asking him to investigate the milk situation. The letter drew to Mr. O'Malley's attention the facts that THE WORLD had printed concerning the absorption of smaller concerns by the big milk retailing corporations, the uniform and arbitrary increase in price by all the dealers, and the presence on the Board of Directors of Borden's men whose names are usually associated with Standard Oil and its affairs.

In the letter to Attorney-General O'Malley the independent dealers said, among other convincing statements: "As THE WORLD has pointed out, the increased expense to the New York milk market due to the one cent rise will amount to \$6,120,000 a year—approximately \$17,000 a day. This enormous sum would pay 6 per cent. dividends, the fair return of a commercial corporation, on a capitalization of \$102,000,000, which is many times the fair value of all the investment by milk dealers supplying this market. The increased capitalization of Borden's, which is equal to more than half the total capitalization of the business, and which is believed to represent a good deal of water, is only \$30,000,000, and much of that represents interests in which milk is but a secondary consideration. Yet at eight cents a quart Borden's has paid 8 and 10 per cent. dividends for several years. At nine cents a quart it should be able to distribute much better quarterly remembrances among its stockholders."

On November 27, eighteen days after the publication of the first of THE WORLD'S

articles exposing the injustice of the increase in price, Attorney-General O'Malley appointed John B. Coleman as a Special Deputy Attorney-General to inquire fully into the facts of the milk situation, and take such steps to wipe out the combination of dealers as might seem advisable. Mr. Coleman immediately set to work to prepare a petition to the Supreme Court for the appointment of a referee to hear testimony, and for the issuing of summonses to the principal dealers and officers of milk corporations throughout the city. William Grant Brown was appointed referee December 6.

THE WORLD AND WALL STREET.

THE WORLD scored a signal triumph when at the close of 1908 Gov. Hughes appointed a representative committee of notable men to probe Wall Street. Throughout 1909 Wall Street has remembered it. Recently one of the best known jurists in the country said: "THE WORLD is the only paper that Wall Street really fears and that it knows to be independent." In June, 1909 Gov. Hughes's committee reported the results of its six months' investigation, generally suggesting that Wall Street purify itself, and placing the responsibility for fair play upon the governors of the big stock and other exchanges. A sharp line was drawn between gambling and legitimate speculation, the latter being vigorously indorsed. THE WORLD has continued to warn the public against many nefarious Wall Street schemes and has kept many lambs from being sheared.

SUNDAY WORLD FIELD DAYS.

The great series of athletic games for boys in the grammar schools of New York City known as THE SUNDAY WORLD Field Days, increased their success of previous years in 1909. One hundred and forty-seven schools of the city held these meets last spring, and 34,000 boys competed in the games. These field days were instituted by THE WORLD in 1906 by an offer to the grammar schools of the city made by THE WORLD through the Public Schools Athletic League. In four years more than 100,000 boys have enrolled as contestants in the games, and the grand final meet, to which all the schools send representatives, is the great event of the year in New York public school athletics. In the final meet of 1909, held at the American League Baseball Park, the contestants numbered 1,500, and 20,000 spectators viewed the games.

In 1909 THE SUNDAY WORLD also gave a series of prizes for baseball games played in the Summer vacation. It was the second year of THE SUNDAY WORLD Baseball League of the Parks and Playgrounds Association of New York City. Two hundred baseball teams of boys in the thirteen years of age competed in the League's preliminary games, of which more than 600 were played, affording healthful recreation to more than 2,000 boys in the congested parts of the city. THE WORLD gave gold, silver and bronze medals to all members of the victorious teams in the final games played in September.

THE CATSKILL WATER EXTRAVAGANCE.

Persistently THE WORLD has continued to point out the enormously wasteful features of the building of the Catskill water system, the extravagances being without parallel in the city's history. A report made by Comptroller Metz in April not only confirmed THE WORLD'S figures, but also showed that instead of being checked the waste was worse than ever. This report proved all THE WORLD'S charges. It showed that for every \$100 which the city had until then paid for land acquired the expenses were between \$40 and \$68. Out of a total of \$2,220,000 paid for land \$888,057.19 was expended in expenses of advertising, fees to commissioners at the rate of \$10 a c. y. and to counsel and for stenographic reports. THE WORLD'S long battle to prevent the robbery of taxpayers by incompetence or extravagance in the operation of the Catskill water scheme is too well known to the public to require rehearsal. And THE WORLD will continue to keep the people informed as to how their money is being expended.

On November 29, 1909, THE WORLD reviewed the entire aqueduct graft scandal, pointing out to Mayor-elect Gaynor and his Corporation Counsel how they can if they will save the city \$10,000 a day on Catskill watershed proceedings and smash the wasteful condemnation proceedings. In this review THE WORLD showed how it had cost \$1,975,334 to condemn to date aqueduct land valued at \$1,422,050, an excess of \$553,284 of expenses over awards. It showed other enormous disbursements, such as \$252,913.41 to "Special Counsel" John J. Linson of Kingston, a lawyer, in two and a half years; \$99,890.41 to "Special Counsel" Everett Fowler, this year; \$22,839 to "Special Counsel" Henry T. Dykman this year, and so on. THE WORLD called attention to the 129 commissioners at work at \$50 a day and expenses. It showed how some lawyers searched titles for 4.0.0 years, the pay being five cents for each year covered in the searches. In brief, THE WORLD fully informed Mayor-Elect Gaynor of the conditions he would find on January 1, 1910, in aqueduct affairs.

HELPED JUDGE GAYNOR TO VICTORY.

Sturdily and unswervingly Democratic and opposed to bossism, THE WORLD supported Judge William J. Gaynor for Mayor in the municipal campaign of 1909, because it believed that of all the candidates he best represented the people's interests. It then and now took him at his word that no man or set of men would rule him if elected. In brief, he stood for all that is best in city government. Although Tammany's candidate, he in no sense represented Tammanyism or Murphyism. THE WORLD and the Press were the only two important daily papers in New York that supported Judge Gaynor. Judge Gaynor was elected, but the rest of the Tammany ticket, weighted with men obnoxious to voters, suffered inglorious defeat at the hands of the Fusion candidates, many of the latter having had THE WORLD'S editorial aid. THE WORLD deplored the mud slinging and other disgraceful features of the campaign, and did its best to make issues clear. Its triumph on Election Day showed that it was right. It will support the incoming administration when it thinks it is serving the people, and will not hesitate to criticize it when it does not live up to THE WORLD'S standards. THE WORLD is independent of all administrations.

OTHER EXAMPLES OF MANY PUBLIC SERVICES IN 1909.

During the Summer of 1909 the war on the House fly, a campaign inaugurated by THE WORLD a year before, spread throughout the country. Health Officer Woodward, of the District of Columbia, took up the fight and health officers in all the big cities of the United States became interested in the extermination of the breeding places of the millions of flies which carry all sorts of disease germs. This battle must continue in 1910.

A previous humane public service of THE WORLD was recalled in March, 1909, when Hangman Jacob Van Hise, of New Jersey, for the last time sprung a gallows trap in that

State, at New Brunswick, at the execution of Fred Lang. It was THE WORLD'S efforts that substituted the electric chair for the gallows in New Jersey. Van Hise, who had been hangman for more than twenty-five years, and who hanged ninety-eight persons, lobbied hard against the bill. The law became effective in 1907, but as Lang had been sentenced to death on the gallows that method of execution was restored for the occasion and the final appearance of a hangman in New Jersey.

As a result of THE WORLD'S efforts to end taxicab extortion the Board of Aldermen, on April 27, 1909, passed an ordinance regulating taxicabs and prescribing fares. The maximum charges under the new tariff became much lower than the former rates, while other regulations have made taxicab travelling less of a financial burden and uncertain proposition to patrons.

In April THE WORLD printed a story regarding the evil wrought by the illegal use and sale of cocaine. This started a crusade against the evil. At THE WORLD'S suggestion the Department of Health had placed at its disposal by Mrs. Charles A. Spofford, of New York, a sum sufficient to enable Bayard C. Fuller, Supervising Inspector of Foods, to carry on an effective campaign. Numerous arrests and convictions have followed. In a public address, Dr. Walter Bensei, Sanitary Superintendent of the Health Department, in acknowledging Mrs. Spofford's wise philanthropy, praised the wide publicity given by THE WORLD to the evil, which publicly had brought forth the financial support which had so long been hoped for.

When Mayor McClellan and Police Commissioner Bingham planned to make Sunday a day of gloom at Coney Island by enforcing the Blue Laws, THE WORLD so voiced public opinion that the million-voiced cry of wrath reached the ears of the Mayor and Commissioner. The Puritan Sunday idea was found to be so unpopular that it was not applied to the people's playground. THE WORLD was deluged with letters praising it for its stand in behalf of innocent Sunday recreation.

OTHER WORLDS AND THEIR WORK.

With news-gathering and news-handling facilities possessed by but few papers and surpassed by none, THE EVENING WORLD in 1909 continued to easily lead all its competitors in Greater New York and the suburbs. Its numerous regular editions and sporting extras, always dependable, were never supplanted in public favor by others. Its magazine pages, brighter than ever, carried good cheer and education into countless thousands of homes. In the sharp Mayoralty campaign it opened its columns freely to all campaign managers to set forth their claims for their respective candidates, thus giving its readers daily a tabloid expression of divergent sentiment. Always characterized by the same independence which has ever marked THE WORLD, THE EVENING WORLD sturdily fought for whatever it believed to be right and thus held the people's confidence.

Some of the principal efforts of the great SUNDAY WORLD, easily America's leading Sunday newspaper, are elsewhere referred to at length. But, after all, the greatest worth of THE SUNDAY WORLD to its millions of readers was its 2,500 to 4,000 pages of news, illustrations, special stories, advertising and everything else that has made it welcome to every member of an intelligent family. It is one of the greatest educators on the American continent—a public forum in which famous men and women discuss problems of human interest, often speaking exclusively in its columns. The Magazine Section alone would mark THE SUNDAY WORLD as great. The Metropolitan Section is the only one in Greater New York. The Funny Section carries humor all over the land. The news sections glean material from the four corners of the globe.

Every other day the THRICE-A-WEEK WORLD goes to countless country homes, giving to farmers and others the best of the features of the daily WORLD. It is a winner on its merits.

Thus THE WORLD still flies its banner with "PUBLICITY" inscribed thereon. It enters 1910 undaunted and with increased power born of well-won popularity. The people trust it and it trusts the people. To keep that mutual faith unshaken will ever be its aim.

Army Pay Table.

GRADE.	PAY OF OFFICERS IN ACTIVE SERVICE.					PAY OF RETIRED OFFICERS.				
	Yearly Pay.					Yearly Pay.				
	First 5 years' Service.	After 5 years' Service.	After 10 years' Service.	After 15 years' Service.	After 20 years' Service.	First 5 years' Service.	After 5 years' Service.	After 10 years' Service.	After 15 years' Service.	After 20 years' Service.
Lieutenant-General	\$11,000	10 p. c.	20 p. c.	30 p. c.	40 p. c. a	\$8,250
Major-General	8,000	6,000
Brigadier-General	6,000	4,500
Colonel (b)	4,000	\$4,400	\$4,800	\$5,000	\$5,000	3,000	\$3,300.00	\$3,600	\$3,750.00	\$3,750
Lieutenant-Colonel (b)	3,500	3,550	4,200	4,500	4,500	2,025	2,087.50	3,150	3,375.00	3,375
Major (b)	3,000	3,300	3,600	3,900	4,000	2,250	2,475.00	2,700	2,924.40	3,000
Captain	2,400	2,640	2,880	3,120	3,350	1,800	1,980.00	2,160	2,340.00	2,520
First Lieutenant	2,000	2,200	2,400	2,600	2,800	1,500	1,650.00	1,800	1,959.00	2,100
Second Lieutenant	1,700	1,870	2,040	2,210	2,380	1,275	1,402.50	1,530	1,657.44	1,785

Chaplains have the rank and pay of major, captain and first lieutenant, respectively.

(a) Service increase of pay of officers below rank of brigadier-general cannot exceed 40 p. c. in all.

(b) The maximum pay of a colonel is \$5,000, of a lieutenant-colonel \$4,500, and of a major \$4,000.

The pay of non-commissioned officers is from \$21 to \$99 per month, and of privates from \$15 to \$25 per month.

Service outside the United States, except in Porto Rico and Hawaii, 10 per cent. additional for officers and 20 per cent. for enlisted men.

The total amount appropriated by Congress for the United States Military establishment, including the Military Academy, for the current fiscal year is \$103,727,000, and for the Naval establishment, including the Naval Academy, \$136,000,000.

Halley's Comet.

(By Dr. J. Morrison.)

This remarkable body as a permanent member of our Solar System, completing its revolution around the sun in about 77 years, but in consequence of the acceleration or retardation of its motion by the planets its period may vary from about 75 to 79 years. It was so called from Sir Edmund Halley, the second Astronomer Royal of England, who saw it in 1682. Halley, however, did not compute its orbit, for the reason that the method of computing the orbits of comets and planets was not then known. He was led to make the prediction from the fact that remarkable comets appeared in 1531 and 1607, two dates so nearly 75 years apart that he suspected that they might be one and the same comet and identical with the one then visible. A closer examination revealed the fact that their paths through the celestial vault were almost identical and accordingly he ventured to predict that the comet would return in 1758, and being impressed with the conviction that he would not live to see it, he expressed the hope that the scientific world would bear in mind that an English Astronomer Royal was the first to predict the return of a comet. Halley's prediction was fully verified, for on Christmas night of 1758 a German farmer first found it, notwithstanding all the astronomers of Europe were on the lookout for it. Its next return was in 1835, and it is now (November, 1909) again on time, and before the end of the year it will doubtless be visible to the naked eye, but its glory and splendor will attain their maximum in the early part of 1910, when it will form a very conspicuous object in our evening sky.

Without detracting in the least from Halley's prediction, it must be admitted that it was not much more than a happy and fortunate guess. His examination was rather superficial, for if he had gone back farther he would have found that the comets of 1066 and 1456 fully satisfied the period of 75 years. The visitations of this comet have been traced back to B. C. 240 and the next two records we have of it are A. D. 451 and A. D. 760.

Between B. C. 240 and A. D. 1066 several gaps exist, but this is probably due to the loss of the records in that disturbed and unscientific period.

From 1066 to 1910 there is an unbroken series of returns, although by reason of the comet's passing near some of the larger planets its periodical time has varied about two years.

The comet visited us in 1145, 1222, 1301, 1378, 1456, 1531, 1607, 1682, when Halley saw it, 1759 and 1835. From B. C. 240 to A. D. 1910—a period of 2,150 years—the comet made 28 revolutions, which give a periodic time of very nearly 77 years, which is very close to its mean or average value.

The returns of the comet in 1066, 1456 and 1759 require more than a passing notice. The first was associated in the minds of the English people with the invasion of William the Conqueror. The comet was regarded by the people as the symbol of his military achievements, and they stood alarmed and dismayed at the magnificent celestial spectacle.

The alarm it caused in 1066 fades into insignificance compared with the universal consternation which it caused throughout Europe in 1456. The Turks had two or three years before got possession of Constantinople and were threatening to overrun Europe when the comet arrived, confirmed their fears and spread terror and alarm everywhere.

In that ignorant and unscientific age no one for a moment thought or imagined that the comet was merely a periodical visitor whose appearance just then was a mere coincidence and nothing more. It was at this time that the then Pope issued his famous bull against the "Turks, the Devil and the comet." Special prayers were prepared and the church bells ordered to be rung at noon—a practice which continues to the present time. The return of 1759 was associated in the minds of the French people with the war between England and France, when the latter lost Canada. Such is the brief history of this remarkable comet, which is destined to greet the vision of generations for ages to come, but which will ultimately be disintegrated and disappear forever from human sight.

In our issue for 1911 we purpose to give newly computed elements and a map of its orbit showing the respective positions of the earth and comet during the entire period of its visibility to the naked eye, together with some remarks on the destiny and physical constitution of cometary bodies.

Star Table.

FOR IDENTIFYING THE PRINCIPAL FIXED STARS.

NAME OF STAR.	Declination	On Meridian.				NAME OF STAR.	Declination	On Meridian.

To find the time of the star's transit add or subtract, according to the sign, the numbers in the second column of figures to the date of the transit of the pole star given above. Thus, for α Andromedæ February 1. Lower Transit of Polar Star is 4 h. 42 m. 9 s. A. M., to which add 10 h. 40 m. and we have 3 h. 22 m. 9 s. P. M.; for December 1, we find 6 h. 9 m. 18 s. P. M., etc.

APPROXIMATE PARALLAX AND DISTANCE IN LIGHT-YEARS OF SOME OF THE PRINCIPAL FIXED STARS.

By light-years is to be understood the number of years light requires to travel from the star to us.

	Parallax.	Light-Years.		Parallax.	Light-Years.
Polaris (Pole Star).....	// 073	45	α Lyræ (Vega).....	// 0140	23
α Aurigæ (Capella).....	0.046	71	β Cygni.....	0.348-0.564	6-8
α Canis Majoris (Sirius).....	0.233	15	β Cassiopeiæ.....	0.137	17
α Canis Minoris (Procyon).....	0.123	27	γ Draconis.....	0.127	26
α Bootis (Arcturus).....	0.127	28	β Pegasi.....	0.054	60
α Centauri.....	0.216	3.6			

The determination of stellar parallax is one of the most difficult and refined problems in practical or observational astronomy. It is to find the angle which the semi-diameter of the earth's orbit subtends at the star—an angle always very small as seen from the above table and which cannot be measured directly but by various processes too complicated to be explained here.

Fire Engine Companies in Brooklyn and Queens.

Ocean Marine Insurance.

EIGHTEEN marine insurance companies reporting to the New York State Insurance Department had on January 1, 1908, assets of \$24,044,493, net surplus of \$7,225,687.11 and premiums received in preceding year \$10,004,917, losses paid \$5,612,362, risks written \$5,048,664,399.

New York State Probation Commission.

THE State Probation Commission, created by Chapter 430, Laws of 1907, consists of seven members. Four are appointed by the Governor for terms of four years each; one is appointed by the State Board of Charities from among its members; one is appointed by the State Commission of Prisons from among its members; and the State Commissioner of Education is a member ex-officio. The first appointments by the Governor were for terms of one, two, three and four years, respectively. Commissioners serve without compensation, but are entitled to necessary travelling expenses.

The general duties of the Commission are to exercise general supervision over the work of probation officers and to keep informed as to their work; to collect and publish statistical and other information as to the operations of the probation system; to inquire from time to time into the conduct and efficiency of probation officers, and when advisable to conduct a formal investigation of the work of any probation officer; and to secure the effective application of the probation system and the enforcement of the probation law in all parts of the State. The Commission makes an annual report to the Legislature showing its proceedings and the results of the probation system as administered in the various localities in the State, and making suggestions and recommendations. The Commission in the discharge of its duties has access to all offices and records of probation officers, and may direct formal investigation of the work of any probation officer.

President, Homer Folks, New York; *Vice-President*, Charles F. McKenna, New York; *Secretary*, Arthur W. Towne. The Commission has its office in the Capitol, at Albany.

National Democratic League of Clubs.

CHAIRMAN, William C. Liller, Indianapolis, Ind.; General Treasurer, Cotter T. B. Budge, Washington, D. C.; General Secretary, Frank S. Clark, Indianapolis, Ind.; Chairman Press Bureau, H. B. Darling, La Porte, Ind.

National Republican League of the United States.

THE National Republican League of the United States was organized in Chickering Hall, New York City, December 15-17, 1887, by delegates from about 350 Republican clubs of the United States, assembled in national convention, pursuant to a call issued by the Republican Club of New York City. It is composed of the Republican clubs of the United States, organized by States and united in a national organization. Its purpose is "Organization and Education." It aims to enlist recruits for the Republican party, particularly the younger men and the "first voters." National conventions have since been held at Baltimore, 1889; Nashville, 1890; Cincinnati, 1891; Buffalo, 1892; Louisville, 1893; Denver, 1894; Cleveland, 1895; Milwaukee, 1896; Detroit, 1897; Omaha, 1898 (biennial sessions afterward); St. Paul, 1900; Chicago, 1902; Indianapolis, 1904; Philadelphia, 1906; Cincinnati, 1908. At the close of the campaign of 1908, the League, including the Taft campaign clubs, comprised approximately 4,000 clubs, with a membership of 1,500,000. *Officers*—President, John Hays Hammond, Gloucester, Mass.; Secretary, Snell Smith, Union Trust Building, Washington, D. C.

THE WORLD ALMANAC FOR 1910. 27

THE astronomical calculations in this work were expressly made for it by Dr. J. Morrison, and are given in local *Mean Time*.

Chronological Eras.

The year 1910 corresponds to the year 7418-19 of the Byzantine era; to 5670-71 of the Jewish era, the year 5671 commencing at sunset on October 3; to 2663 since the foundation of Rome according to Varro; to 2686 of the Olympiads (the second year of the 672d Olympiad commencing July 1, 1910); to 2570 of the Japanese era, and to the 43d of the Meiji; to 1327-28 of the Mohammedan era, the year 1328 commencing on January 13, 1910. The 135th year of the Independence of the United States of America begins on July 4, 1910.

Church Fasts.

THE Roman Catholic Days of fasting are the forty days of Lent, the Ember Days, the Wednesdays and Thursdays of the four weeks in Advent, and certain vigils or evenings prior to the greater feasts. In the American Episcopal Church the days of fasting or abstinence to be observed, according to the Book of Common Prayer, are the forty days of Lent, the Ember Days, the three Rogation Days, and all the Fridays of the year except Christmas Day. In the Greek Church the four principal fasts are those in Lent, the week succeeding Whitsuntide, the fortnight before the Assumption, and forty Days before Christmas.

Divisions of Time.

THE interval between two consecutive transits of a fixed star over any meridian or the interval during which the earth makes one absolute revolution on its axis is called a *Sidereal Day*, and is invariable, while the interval between two consecutive transits of the Sun over any meridian is called an *Apparent Solar Day*, and its length varies from day to day by reason of the variable motion of the earth in its orbit, and the inclination of this orbit to the equator on which time is measured.

A *Mean Solar Day* is the average or mean of all the apparent solar days in a year. *Mean Solar Time* is that shown by a well-regulated clock or watch, while *Apparent Solar Time* is that shown by a well-constructed sun-dial; the difference between the two at any time is the *Equation of Time*, and may amount to 16 minutes and 21 seconds. The *Astronomical Day* begins at noon and the *Civil Day* at the preceding midnight. The *Sidereal* and *Mean Solar Days* are both invariable, but one day of the latter is equal to 1 day, 3 minutes, and 56.555 seconds of the former.

The interval during which the earth makes one absolute revolution round the Sun is called a *Sidereal Year*, and consists of 365 days, 6 hours, 9 minutes, and 9.6 seconds, which is invariable.

The *Tropical Year* is the interval between two consecutive returns of the Sun to the Vernal Equinox. If this were a fixed point, the *Sidereal* and *Tropical Years* would be identical; but in consequence of the disturbing influence of the Moon and planets on the spheroidal figure of the earth, the Equinox has a slow, retrograde mean motion of $50''$.26 annually, so that the Sun returns to the Equinox sooner every year than he otherwise would by 20 minutes 23.6 seconds; the *Tropical Year*, therefore, consists of 365 days, 5 hours, 48 minutes, and 46 seconds. The *Tropical Year* is not of uniform length; it is now slowly decreasing at the rate of .595 second per century, but this variation will not always continue.

Julius Caesar, in B. C. 45, was the first to reform the calendar by ordering that every year whose date number is exactly divisible by 4 contain 366 days, and all other years 365 days. The intercalary day was introduced by counting the *sexta* day before the Kalends of March *twice*; hence the name *bissextile*, from bis, twice, and sex, six. He also changed the beginning of the year from 1st of March to the 1st of January, and also changed the name of the fifth month (Quintilis) to July, after himself. The average length of the Julian year is therefore 365 $\frac{1}{4}$ days, which, however, is too long by 11 minutes and 14 seconds, and this would accumulate in 400 years to about three days. The Julian Calendar continued in use until A. D. 1582, when the date of the beginning of the seasons occurred 10 days later than in B. C. 45, when this mode of reckoning time was introduced.

The *Gregorian Calendar* was introduced by Pope Gregory XIII. with the view of keeping the Equinox to the same day of the month. It consists of 365 days, but every year exactly divisible by 4 and the centennial years which are exactly divisible by 400 contain 366 days; and if in addition to this arbitrary arrangement the centennial years exactly divisible by 4,000 contain 366 days, the error in the Gregorian system will amount to only one day in about 20 centuries. If, however, 31 leap years were intercalated in 123 years, instead of 32 as at present, the calendar would be practically exact and the error would not amount to more than a day in 100,000 years. The length of the mean Gregorian Year may therefore be set down at 365 days, 5 hours, 49 minutes, 12 seconds. The Gregorian Calendar was introduced into England and her colonies in 1752, at which time the Equinox had retrograded 11 days since the Council of Nice in A. D. 325, when the festival of Easter was established and the Equinox occurred on March 21; hence September 3, 1752, was called September 14, and at the same time the commencement of the legal year was changed from March 25 to January 1, so that the year 1751 lost the months of January and February and the first 24 days of March. The difference between the Julian and Gregorian Calendars is now 13 days. Russia and the Greek Church still employ the Julian Calendar for civil and ecclesiastical purposes.

Standard Time.

PRIMARILY, for the convenience of the railroads, a standard of time was established by mutual agreement in 1883, by which trains are run and local time regulated. According to this system, the United States, extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour, commencing with the 75th meridian. The first (eastern) section includes all territory between the Atlantic Coast and an irregular line drawn from Detroit to Charleston, S. C., the latter being its most southern point. The second (central) section includes all the territory between the last-named line and an irregular line from Bismarck, N. D., to the mouth of the Rio Grande. The third (mountain) section includes all territory between the last-named line and nearly the western borders of Idaho, Utah, and Arizona. The fourth (Pacific) section covers the rest of the country to the Pacific Coast. Standard time is uniform inside each of these sections, and the time of each section differs from that next to it by exactly one hour. Thus at 12 noon in New York City (eastern time), the time at Chicago (central time) is 11 o'clock A. M.; at Denver (mountain time), 10 o'clock A. M., and at San Francisco (Pacific time), 9 o'clock A. M. Standard time is 16 minutes slower at Boston than true local time, 4 minutes slower at New York, 8 minutes faster at Washington, 19 minutes faster at Charleston, 28 minutes slower at Detroit, 18 minutes faster at Kansas City, 10 minutes slower at Chicago, 1 minute faster at St. Louis, 28 minutes faster at Salt Lake City, and 10 minutes faster at San Francisco.

Table of Days Between Two Dates.

A TABLE OF THE NUMBER OF DAYS BETWEEN ANY TWO DAYS WITHIN TWO YEARS.

The above table applies to ordinary years only. For leap year, one day must be added to each number of days after February 28.

EXAMPLE.—To find the number of days between June 3, 1900, and February 16, 1901: The figures opposite the third day in the first June column are 154; those opposite the sixteenth day in the second February column are 412. Subtract the first from the second product—i. e., 154 from 412, and the result is 258, the number of days between the two dates.

Easter Sunday.

A TABLE SHOWING THE DATE OF EASTER SUNDAY IN EACH YEAR OF THE NINETEENTH AND TWENTIETH CENTURIES.

1801—April 5.	1835—April 19.	1869—Mar. 28.	1902—Mar. 30.	1935—April 21.	1968—April 14.

Legal Holidays in the Various States.

JANUARY 1. NEW YEAR'S DAY: In all States (including District of Columbia, Arizona, and New Mexico), except Kansas and Massachusetts. (In Maine a bank holiday only legally).

JANUARY 8. ANNIVERSARY OF THE BATTLE OF NEW ORLEANS: In Louisiana.

JANUARY 19. LEE'S BIRTHDAY: In Florida, Georgia, North Carolina, South Carolina, Virginia, Alabama, and Arkansas.

FEBRUARY. MARDI-GRAS: In the parish of Orleans, Louisiana.

FEBRUARY 12. GEORGIA DAY: In Georgia.

FEBRUARY 12. LINCOLN'S BIRTHDAY: In California, Colorado, Connecticut, Delaware, Florida, Illinois, Iowa, Indiana, Kansas, Michigan, Minnesota, Montana, Nevada, New Jersey, New York, North Dakota, Pennsylvania, South Dakota, Utah, Washington, West Virginia, and Wyoming.

FEBRUARY 22. WASHINGTON'S BIRTHDAY: In all the States, District of Columbia, Arizona and New Mexico.

FEBRUARY (Third Tuesday) SPRING ELECTION DAY: In Pennsylvania.

MARCH 2. ANNIVERSARY OF TEXAN INDEPENDENCE: In Texas.

MARCH 4. INAUGURATION DAY: In District of Columbia in years when a President of the U. S. is inaugurated.

MARCH 25, 1910. GOOD FRIDAY: In Alabama, Connecticut, Delaware, Florida, Louisiana, Maryland, Minnesota, New Jersey, Pennsylvania, Tennessee.

APRIL 12. HALIFAX INDEPENDENCE RESOLUTIONS: In North Carolina.

APRIL 13. THOMAS JEFFERSON'S BIRTHDAY: In Alabama.

APRIL 19. PATRIOTS' DAY: In Maine and Massachusetts.

APRIL 21. ANNIVERSARY OF THE BATTLE OF SAN JACINTO: In Texas.

APRIL 26. CONFEDERATE MEMORIAL DAY: In Alabama, Florida, Georgia, and Mississippi.

MAY 10. CONFEDERATE MEMORIAL DAY: In North Carolina and South Carolina.

MAY (Second Friday) CONFEDERATE DAY: In Tennessee.

MAY 20. ANNIVERSARY OF THE SIGNING OF THE MCKENZIEBURG DECLARATION OF INDEPENDENCE: In North Carolina.

MAY (last Friday) PIONEER DAY: In Montana, observed in public schools.

MAY 30. DECORATION DAY: In all the States and Territories (and District of Columbia), except Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Texas.

JUNE 3. JEFFERSON DAVIS'S BIRTHDAY: In Florida, Georgia, Alabama, Mississippi, Tennessee, Texas, and South Carolina. In Louisiana known as "Confederate Memorial Day." In Virginia, in public schools.

JULY 4. INDEPENDENCE DAY: In all the States, District of Columbia, and Territories.

JULY 10. ADMISSION DAY: In Wyoming.

JULY 24. PIONEERS' DAY: In Utah.

JULY (Fourth Saturday) PRIMARY ELECTION DAY: In Texas.

AUGUST. PRIMARY ELECTION DAYS: In Missouri.

AUGUST 1. COLORADO DAY: In Colorado.

AUGUST 16. BENNINGTON BATTLE DAY: In Vermont.

SEPTEMBER 5, 1910. LABOR DAY: In all the States and Territories (and District of Columbia), In Louisiana, observed in Orleans Parish. In Wyoming by proclamation of the Governor.

SEPTEMBER (First Tuesday) PRIMARY ELECTION DAY: In Wisconsin. In Michigan in even years.

SEPTEMBER 9. ADMISSION DAY: In California.

SEPTEMBER 12. "OLD DEFENDERS' DAY": In Baltimore, Md.

OCTOBER 12. COLUMBUS DAY: In California, Colorado, Connecticut, Illinois, Maryland, Michigan, Missouri, Montana, New Jersey, New York, Pennsylvania.

OCTOBER 31. ADMISSION DAY: In Nevada.

NOVEMBER 1. ALL SAINTS' DAY: In Louisiana.

NOVEMBER — GENERAL ELECTION DAY: In Arizona, California, Colorado, Delaware, Florida, Idaho (Illinois in Chicago, Springfield and East St. Louis only), Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Michigan, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio (from 5.30 A. M. to 9 A. M. only), Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, West Virginia, Washington, Wisconsin, and Wyoming, in the years when elections are held therein. In 1910 in States holding such elections the date is November 8.

NOVEMBER — 1910. THANKSGIVING DAY (usually the fourth Thursday in November): Is observed in all the States, and in the District of Columbia, Arizona, and New Mexico, though in some States it is not a statutory holiday.

DECEMBER 25. CHRISTMAS DAY: In all the States, (except Kansas), District of Columbia, and Territories.

Sundays and Fast Days are legal holidays in all the States which designate them as such.

There are no statutory holidays in Mississippi, but by common consent the Fourth of July, Thanksgiving, and Christmas are observed. In New Mexico, Washington's Birthday, Decoration Day, Labor Day, Flag Day (June 14), and Arbor Day are holidays when so designated by the Governor. In South Carolina, Thursday of Fair Week is a legal holiday.

ARBOR DAY is a legal holiday in Arizona, Florida, Maryland, New Mexico, Wisconsin, and Wyoming, the day being set by the Governor; in Texas, February 22; Nebraska, April 22; Utah, April 15; Rhode Island, second Friday in May; Montana, second Tuesday in May; Georgia, first Friday in December; Colorado and Maine (school holiday only), third Friday in April; in Oklahoma, the Friday following the second Monday in March; in Arkansas, first Saturday in March.

Every Saturday after 12 o'clock noon is a legal holiday in California in public offices, Illinois (in cities of 200,000 or more inhabitants), Maryland, Michigan, New York, New Jersey, Ohio, Pennsylvania, Rhode Island, Virginia, the District of Columbia (for banking purposes), and in New Orleans, La., and Charleston, S. C.; in Louisiana in all cities exceeding 15,000 inhabitants; in Missouri in cities of 100,000 or more inhabitants; in Tennessee, for State and county officers, and in Colorado during June, July, and August; in Indiana, first Saturday in June to last Saturday in October, inclusive, for all public offices in counties having a county-seat of 100,000 population or more.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays for commercial purposes, but, with the exception named, there is no general statute on the subject. The proclamation of the President designating a day of Thanksgiving only makes it a legal holiday in the District of Columbia and the Territories.

Ember and Rogation Days.

EMBER and Rogation Days are certain periods of the year devoted to prayer and fasting. Ember Days (twelve annually) are the Wednesday, Friday, and Saturday after the first Sunday in Lent, after the feast of Pentecost (Whit Sunday), after the festival of the Holy Cross, and after the festival of St. Lucia. Ember Weeks are the weeks in which the Ember Days appear.

Rogation Days are the three days immediately preceding Holy Thursday or Ascension Day.

 (d) "PACIFIC" includes: San Francisco, Portland (Oregon), Victoria, Vancouver, Tacoma, Seattle, etc.

Old English Holidays.

THESE holidays, with their names, had their origin in mediæval England when the State religion was that of the Church of Rome, and they are still observed generally or in some parts of Britain.

JANUARY 6. TWELFTH DAY, or Twelfth-tide, sometimes called Old Christmas Day, the same as Epiphany. The previous evening is Twelfth Night, with which many social rites have long been connected.

FEBRUARY 2. CANDELMAS. Festival of the Purification of the Virgin. Consecration of the lighted candles to be used in the church during the year.

FEBRUARY 14. OLD CANDELMAS. St. Valentine's Day.

MARCH 25. LADY DAY: Annunciation of the Virgin. April 6 is old Lady Day.

JUNE 24. MIDSUMMER DAY: Feast of the Nativity of John the Baptist. July 7 is old Midsummer Day.

JULY 15. ST. SWITHIN'S DAY. There was an old superstition that if rain fell on this day it would continue forty days.

AUGUST 1. LAMMAS DAY: Originally in England the festival of the wheat harvest. In the Church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13.

SEPTEMBER 29. MICHAELMAS: Feast of St. Michael, the Archangel. Old Michaelmas is October 11.

NOVEMBER 1. ALL-HALLOWMAS: All-hallows, or All Saints' Day. The previous evening is All-hallow-e-en, observed by home gatherings and old-time festive rites.

NOVEMBER 2. ALL SOULS' DAY: Day of prayer for the souls of the dead.

NOVEMBER 11. MARTINMAS: Feast of St. Martin. Old Martinmas is November 23.

DECEMBER 28. CHILDERMAS. Holy Innocents' Day. Lady Day, Midsummer Day, Michaelmas, and Christmas are quarter (rent) days in England, and Whitsunday, Martinmas, Candiemas, and Lammas Day in Scotland.

Shrove Tuesday, the day before Ash Wednesday, and Maundy Thursday, the day before Good Friday, are observed by the Church. Mothering Sunday is Mid-Lent Sunday, in which the old rural custom obtains of visiting one's parents and making them presents.

The Magnetic Poles.

THE geographical poles of the earth are the extremities of the imaginary line passing through its centre of gravity and about which it revolves, and are therefore symmetrically located with regard to the equator.

The magnetic poles, however, are not coincident with the geographical poles, nor are they diametrically opposite to each other. Prior to the recent attempt of Amundsen to determine the north magnetic pole, the only other was by Capt. James Ross in June, 1831, who found the dip of the magnetic needle to be 89° 59' .5, in latitude 70° 5' .2 N. and longitude 96° 45' .8 W., which is in northern Canada, in King William Land. The result of Amundsen's observations has not yet been published by the Norwegian authorities.

The position of the south magnetic pole has been located in latitude 72° 23' S. and longitude 154° E. by Prof. Edward David and Mr. Douglas Marson, members of Lieut. Shackleton's expedition to the South Pole, which left New Zealand on January 1, 1908.

By reason of the annual variation of the magnetic needle, it is believed that the magnetic poles are not stationary, but have a slow motion around the geographical poles. The subject is shrouded in mystery and constitutes one of the many as yet unsolved problems in terrestrial physics.

Table of Memorable Dates.

B. C.	A. D.	A. D.
1183 Fall of Troy.	1682 Pennsylvania settled by William Penn.	1846 Sewing machine completed by Howe.
1082 Era of the Great Pyramid.	1685 Revocation of the Edict of Nantes, Oct. 22.	1846 The Irish Potato Famine.
878 Carthage founded.	1688 James II. abdicated, Dec. 11.	1846 British Corn laws repealed, June 26.
776 Olympic Era began.	1690 Battle of the Boyne, July 1.	1846 War with Mexico began.
753 Foundation of Rome.	1690 First newspaper in America; at Boston.	1848 French Revolution. Republic succeeded.
588 Jerusalem taken by Nebuchadnezzar.	1704 Gibraltar was taken by the English.	1848 Gold discovered in California, Sept.
536 Restoration of the Jews under Cyrus.	1713 Peace of Utrecht, April 11.	1851 Gold discovered in Australia, Feb. 12
509 Expulsion of Tarquins from Rome.	1714 Accession of House of Hanover, Aug. 1	1851 First International Exhibit'n., London.
480 Xerxes defeated Greeks at Thermopylae.	1715 First Jacobite Rebellion in Great Britain.	1852 Louis Napoleon became Emperor.
65 Cesar conquered Britain.	1720 South Sea Bubble.	1853 Crimean War began.
4 Birth of Jesus Christ.	1745 Battle of Fontenoy, April 30.	1854 Japan opened by Commodore Perry.
A. D.	1745 Second Jacobite Rebellion in Great Britain.	1857 The Great Mutiny in India.
29 The Crucifixion.	1756 Black Hole Suffocation in Calcutta.	1857 The Dred Scott decision.
70 Jerusalem was destroyed by Titus.	1757 Clive won Battle of Plassey in India.	1857 First Atlantic cable message, Aug. 4.
313 Constantine converted to Christianity.	1759 Canada was taken from the French.	1859 John Brown's raid into Virginia.
410 The Romans abandoned Britain.	1765 Stamp Act enacted.	1860 South Carolina seceded, Dec. 20.
827 Egbert, first king of all England, Oct. 14.	1773 Steam engine perfected by Watt.	1861 Emancipation of the Russian serfs.
1066 Battle of Hastings, Norman Conquest.	1773 Tea destroyed in Boston Harbor, Dec. 16.	1863 Lincoln's Emancipation Proclamation, Jan. 1.
1096 The Crusades began.	1775 Battle of Lexington, April 19.	1863 Battle of Gettysburg, July 1-3.
1172 Ireland was conquered by Henry II.	1775 Battle of Bunker Hill, June 17.	1865 Lee surrendered at Appomattox, April 9.
1215 King John granted Magna Charta, June 15.	1776 Declaration of Independence, July 4.	1865 President Lincoln assassinated, April 14.
1265 First Representative Parliament in England.	1777 Burgoyne's surrender, Oct. 17.	1866 Battle of Sadowa. Prussia beat Austria.
1415 Battle of Agincourt, Oct. 25.	1779 Capt. Cook was killed, Feb. 14.	1867 Emperor Maximilian of Mexico executed.
1431 Joan of Arc was burnt, May 30.	1781 Cornwallis' surrender at Yorktown, Oct. 19.	1867 The Dominion of Canada established.
1453 Constantinople taken by the Turks.	1788 First settlement in Australia, Jan. 26.	1870 Franco-German War began, July 19.
1455 The Wars of the Roses began.	1789 The French Revolution began, July 14.	1870 Capitulation of French at Sedan, Sept. 1.
1462 The Bible was first printed at Mentz.	1789 Washington first inaugurated President.	1870 Rome became the capital of Italy.
1471 Caxton set up his printing press.	1793 Cotton-gin invented by Whitney.	1871 The German Empire re-established.
1486 The funds of York and Lancaster ended.	1793 Louis XVI. of France executed, Jan. 21.	1871 The Irish Church was disestablished.
1492 Columbus discovered America, Oct. 12.	1796 Vaccination discovered by Jenner.	1871 The great fire in Chicago, Oct. 8-11.
1517 The Reformation began in Germany.	1798 The Irish Rebellion.	1872 The great fire in Boston, Nov. 9.
1519 Cortez began the conquest of Mexico.	1799 Battle of Seringapatam; death of Tippee.	1876 Prof. Bell patented the telephone.
1535 The first English Bible printed.	1799 Bonaparte declared First Consul, Nov. 10.	1876 Centennial Exposition at Philadelphia.
1539 Monasteries were closed in England.	1801 Union of Great Britain and Ireland, Jan. 1.	1881 President Garfield shot, July 7.
1558 Accession of Queen Elizabeth, Nov. 17.	1803 Louisiana purchased from the French.	1889 Brazil became a Republic.
1565 Revolt of the Netherlands began.	1804 Bonaparte became Emperor of France.	1888 Johnstown, Pa., flood, May 31.
1572 The St. Bartholomew Massacre, Aug. 24.	1805 Battle of Trafalgar, death of Nelson.	1888 World's Fair at Chicago.
1588 The Spanish Armada defeated, July 30.	1807 Fulton's first steamboat voyage.	1894 Chinese-Japanese War began.
1600 East India Company first chartered.	1812 Second war with Great Britain.	1895 Cuban Revolution began, Feb. 20.
1603 The Gunpowder Plot in England.	1812 The French expedition to Moscow.	1897 The Turkish-Greek War.
1607 Jamestown, Va., was settled.	1813 Perry's victory on Lake Erie, Sept. 10.	1898 The Spanish-American War.
1609 Hudson River first explored.	1814 The printing machine invented.	1899 Universal Peace Conference.
1610 Shakespeare died, April 23.	1814 Scott's "Waverley" published.	1899 The South African War began.
1618 Thirty Years' War in Germany began.	1815 Battle of New Orleans, Jan. 8.	1900 Boxer insurrection in China.
1620 Pilgrims by the Mayflower landed.	1815 Battle of Waterloo, June 18.	1900 The Galveston tornado, Sept. 8.
1623 Manhattan Island settled.	1819 First steamship crossed the Atlantic.	1901 Death of Queen Victoria.
1634 Maryland settled by Roman Catholics.	1820 Missouri Compromise adopted.	1901 Assassination of President McKinley.
1636 Rhode Island settled by Roger Williams.	1823 Monroe Doctrine declared, Dec. 2.	1902 Martinique destroyed by volcanic eruption.
1640 Cromwell's Long Parliament assembled.	1828 First passenger railroad in U. S.	1903 Republic of Panama established.
1649 Charles I. was beheaded, Jan. 30.	1830 Revolution in France, Orleansist succession.	1904 The Great Fire in Baltimore, Feb. 7.
1653 Oliver Cromwell became Lord Protector.	1832 South Carolina Nullification Ordinance.	1904 The Russo-Japanese War began.
1660 Restoration of the Stuarts.	1835 Morse invented the telegraph.	1906 San Francisco earthquake and conflagration.
1664 New York conquered from the Dutch.	1835 Seminole War in Florida began.	1908 Emperor and Dowager Empress of China died. Pi Yu ascended throne.
1664 The great plague of London.	1837 Accession of Queen Victoria, June 20.	1908 American Battleship fleet nearly circumnavigated the Globe.
1666 The great fire of London began Sept. 2.	1845 Texas annexed.	1908 Great Earthquake in Southern Italy.
1679 Habeas Corpus Act passed in England.		1909 The North Pole discovered.

The French Revolutionary Era.

In September, 1793, the convention decreed that the common era should be abolished in all civil affairs, and that the new French era should begin on September 22, 1792, the day of the true autumnal equinox, and that each succeeding year should begin at the midnight of the day on which the true autumnal equinox falls. The year was divided into twelve months of thirty days each. In ordinary years there were five extra days, from the 17th to the 21st of our September, and at the end of every fourth year was a sixth complimentary day. This reckoning was first used on November 22, 1793, and was continued until December 31, 1805, when it was discontinued, and the Gregorian calendar, used throughout the rest of Europe, was resumed. The following were the dates for the year 1804, the last complete year of this style of reckoning:

Vendemiaire (Vintage),	September 23 to October 22.	Germinial (Budding),	March 22 to April 21.
Brumaire (Foggy),	October 23 to November 22.	Floreal (Flowery),	April 21 to May 20.
Frimaire (Sleety),	November 22 to December 21.	Prairial (Pasture),	May 21 to June 20.
Nivose (Snowy),	December 22 to January 21.	Messidor (Harvest),	June 20 to July 19.
Pluviose (Rainy),	January 21 to February 20.	Thermidor (Hot),	July 20 to August 19.
Ventose (Windy),	February 20 to March 19.	Fructidor (Fruit),	August 19 to September 18.

The months were divided into three decades of ten days each, but to make up the 365 five were added at the end of September. Primid, dedicated to Virtue; Duod, to Genius; Tridi, to Labor; Quartidi, to Opinion, and Quintidi to Rewards. To Leap Year, called Olympic, a sixth day, September 22 or 23, Sextidi, "the day of the Revolution," was added.

To each tenth day, thirty-six in all, were assigned thirty-six "Fetes Decadaires," decreed by the National Convention on the eighteenth Prairial, in honor of the Supreme Being and Nature, the Human Race, the French People, Benefactors of Humanity, Martyrs for Liberty, Liberty and Equality, the Republic, Liberty of the World, Love of Country, Hatred of Tyrants and Traitors, Truth, Justice, Modesty, Glory and Immortality, Friendship, Frugality, Courage, Good Faith, Heroism, Disinterestedness, Stoicism, Love, Conjugal Fidelity, Paternal Love, Maternal Tenderness, Filial Piety, Infancy, Childhood, Manhood, Old Age, Sickness, Agriculture, Industry, Our Ancestors, Our Posterity, Goodness.

NOTE.—The letters in the list of "Years from 1753 to 1952," refer to the table headed with the Months, the figures in which refer to the same figures at the head of the table of Days. For example. To know on what day July 4, 1910, will fall look for 1910 in the table of Years. The letter 'c' is attached. Look for the same letter in the table of Months and in a parallel line under July is the figure 5, which directs to column 5 in the table of Days below, in which it will be seen that July 4 falls on Monday,

Ritualistic Calendar.

COLORS FOR THE ALTAR IN USE IN RITUALISTIC EPISCOPAL CHURCHES IN THE UNITED STATES.

White.—From the First Service (First Vespers) of Christmas Day to the Octave of Epiphany, inclusive (except on the Feasts of Martyrs); on Maundy Thursday (for the celebration); from the First Service of Easter Day to the Vigil of Pentecost (except on Feasts of Martyrs and Rogation Days); on Trinity Sunday, Conversion of St. Paul, Purification, Annunciation, St. John Baptist, St. Michael, St. Luke, All Saints, Saints who are not Martyrs, and Patron Saints (Transfiguration and Dedication of Church).

Red.—From First Vespers of Pentecost to the First Vespers of Trinity Sunday (which includes Ember Days), Holy Innocents (if on a Sunday), and Feasts of all Martyrs.

Violet.—From Septuagesima to Maundy Thursday (Easter Eve); Advent Sunday to Christmas Eve; Vigils, Ember Days (except in Whitsun Week), and Rogation Days; Holy Innocents (unless on Sunday).

Black.—Good Friday and at funerals. *Green.*—All other days.

These regulations as to colors are general. A more minute code changing with each year is published in the church almanacs.

The number of asteroids discovered up to present date is about 465. A number of these small planets have not been observed since their discovery, and are practically lost. Consequently it is now sometimes a matter of doubt, until the elements have been computed, whether the supposed new planet is really new, or only an old one rediscovered.

Our Moon.

Of all the secondary planets the earth's satellite is by far the most interesting and important. The moon completes her circuit around the earth in a period whose mean or average length is 27 days 7 hours 43.2 minutes; but in consequence of her motion in common with the earth around the sun, the mean duration of the lunar month, that is, the time from new moon to new moon, is 29 days 12 hours 44.05 minutes, which is called the moon's synodical period. If the earth were motionless in space the moon's orbit would be nearly an ellipse, having the earth in one of the foci; hence her distance from the earth varies during the course of a lunar month. Her mean distance from the earth is 238,850 miles. Her maximum distance, however, may reach 252,830 miles, and the least distance to which she can approach the earth is 221,520 miles. Her diameter is 2,162 miles, and if we deduct from her distance from the earth the sum of the two radii of the earth and moon, viz., 3,962 and 1,081 miles respectively, we shall have for the nearest approach of the surfaces of the two bodies 216,477 miles. Her orbit is a very intricate one, because the earth in moving around the sun carries the moon along with it; hence the latter is sometimes within and sometimes without the earth's orbit. Its form is that of a serpentine curve, always *concave* toward the sun, and inclined to the plane of the earth's orbit at an angle of 5° 9', in consequence of which our satellite appears sometimes above and sometimes below the plane of the earth's orbit, through which she passes twice in a revolution. These points or positions are called nodes, and no two consecutive nodes occupy positions diametrically opposite on the lunar orbit. The nodes have a retrograde motion, which causes them to make an entire revolution in 18 years, 218 days, 21 hours, 22 minutes and 46 seconds. This motion was well known to the ancients, who called it the Saros, and was made use of by them in roughly predicting eclipses.

The moon always presents the same face to us, as is evident from the permanency of the various markings on its surface. This circumstance proves that with respect to the earth she revolves on an axis, and the time of rotation is exactly equal to the time of revolution around the earth, viz., 27.32166 days. The moon's axis is not perpendicular to the plane of her orbit, but deviates therefrom by an angle of about 6° 41'. In consequence of this fact, and of the inclination of the lunar orbit to that of the ecliptic, the poles of the moon lean alternately to and from the earth. When the north pole leans toward the earth we see somewhat more of the region surrounding it, and somewhat less when it leans the contrary way. This displacement is known by the name of libration in latitude.

The moon's motion on her axis is uniform, but her angular velocity in her orbit is subject to slight variations by reason of the form of her orbit; hence it happens that we sometimes see a little more of the eastern or western edge at one time than at another. This phenomenon is known as libration in longitude.

The moon's surface contains about 14,685,000 square miles, or nearly four times the area of Europe. Her volume is 1.49 and her mass 1.81 that of the earth, and hence her density is about 3.5 that of the earth, or about 3.25 that of water. At the lunar surface gravity is only 3-20 of what it is at the earth, and therefore a body which weighs 20 pounds here would weigh only 3 pounds there.

The centre of gravity of the earth and moon, or the point about which they both actually revolve in their course around the sun, lies *northward* the earth; it is 1,063 miles below the surface.

The attractive force of the moon acting on the water of our oceans is mainly instrumental in raising them into protuberances or tides in such a manner as to give the total mass a spheroidal figure whose principal axis would continually coincide with the line joining the centres of the earth and moon, but in consequence of the resistance which this movement of the water encounters from continents and islands, as well as from the liquid molecules themselves, the tidal wave can never arrive at any place until about one hour after the moon has crossed the meridian of the place.

The moon has no atmosphere and no water. The suddenness with which stars are occulted by the moon is regarded as a conclusive proof that a lunar atmosphere does not exist, and the spectroscopic furnishes negative evidence of the same character.

In remote ages the lunar surface was the theatre of violent volcanic action, being elevated into cones and ridges exceeding 20,000 feet high, and at other places rent into furrows or depressions of corresponding depth. The lunar volcanoes are now extinct. A profound silence reigns over the desolate and rugged surface. It is a dead world, utterly unfit to support animal or vegetable life.

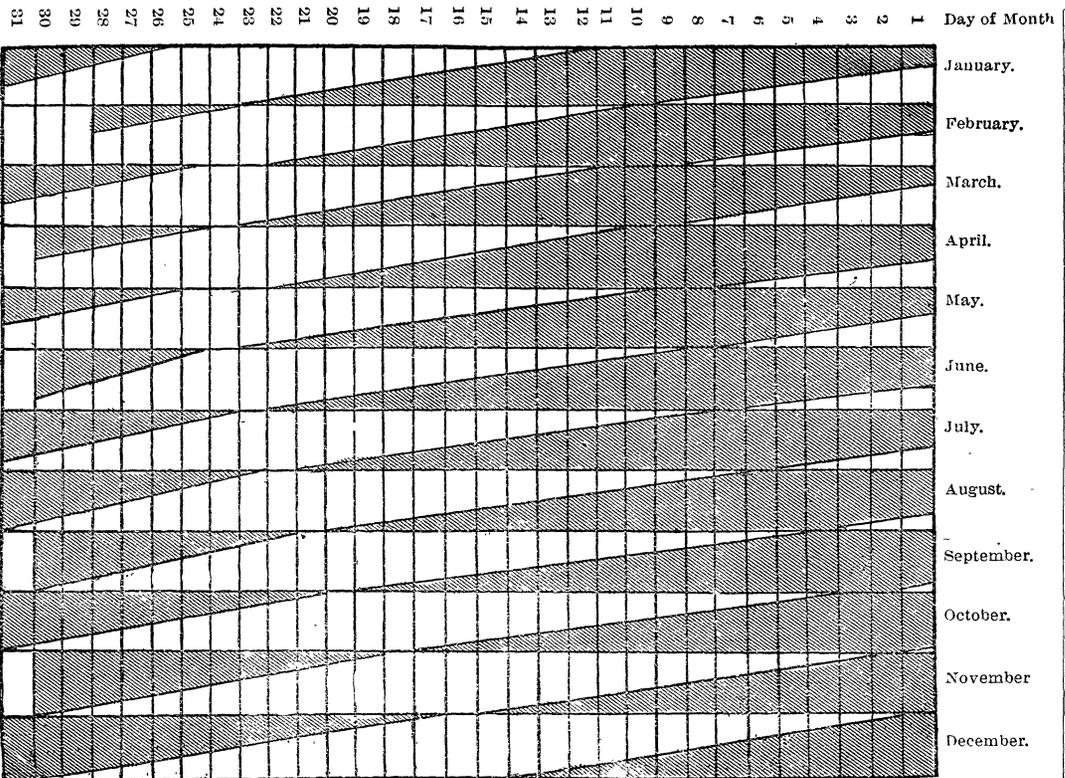

THE EARTH'S ATMOSPHERE.

The earth's sensible atmosphere is generally supposed to extend some forty miles in height, probably further, but becoming at only a few miles from the surface of too great a tenuity to support life. The condition and motions of this aerial ocean play a most important part in the determination of climate, modifying, by absorbing, the otherwise intense heat of the sun, and, when laden with clouds, hindering the earth from radiating its acquired heat into space. — *Whitaker*.

Moonlight Chart, 1910.

EXPLANATION.—The white spaces show the amount of moonlight each night. January 3, February 1, etc., the moon rises near midnight, and the latter half of the night has moonlight; January 10, February 9, etc., new moon, when there is no moonlight the whole night; January 18, February 7, etc., moon sets at or near midnight, when the former half of the night has moonlight; January 26, February 24, etc., full moon, moonlight the whole night.

Astronomical Phenomena for the Year 1910.

ASTRONOMICAL SIGNS AND SYMBOLS.

☉	The Sun.	♂	Mars.	♄	Conjunction.
☾	The Moon.	♃	Jupiter.	♁	Quadrature.
☿	Mercury.	♅	Saturn.	♊	Opposition.
♀	Venus.	♁	Uranus.	♈	Ascending Node.
♁	The Earth.	♆	Neptune.	♏	Descending Node.

Two heavenly bodies are in "conjunction" (♄) when they have the same *Right Ascension*, or are on the same *meridian*, *i. e.*, when one is due *north* or *south* of the other; if the bodies are near each other as seen from the earth, they will rise and set at the same time; they are in "opposition" (♁) when in opposite quarters of the heavens, or when one rises just as the other is setting. "Quadrature" (♁) is half way between conjunction and opposition. By "greatest elongation" is meant the greatest apparent *angular* distance from the sun; the planet is then generally most favorably situated for observation. Mercury can only be seen with the naked eye at this time. When a planet is in its "ascending" (♈) or "descending" (♏) node it is crossing the plane of the earth's orbit. The term "Perihelion" means nearest, and "Aphelion" furthest, from the sun. An "occultation" of a planet or star is an eclipse of it by some other body, usually the moon.

I.—ECLIPSES.

In the year 1910 there will be four eclipses, two of the sun and two of the moon as follows:

1. A total eclipse of the sun May 8, invisible in America; visible in Australia, Tasmania, New Guinea, Java and the southern portions of Sumatra, Borneo and Celebes.

2. A total eclipse of the moon May 23-24, visible in the United States.

	30	1	♂, ♀	stationary.

OCCULTATION.

4. There will be an occultation of Saturn by the moon December 12, 2 h. 54 m. P.M., to 3 h. 48 m. P.M. (Washington mean time) but occurring during daylight, will be visible only through a telescope with a tolerably high power.

The Sun's Right Ascension and Declination.

From June 16 to August 1 both the upper and lower transits take place during daylight. The azimuth at the time of greatest eastern or western elongation can be easily computed from the formula:

$$\sin A = \frac{\sin p}{\cos l}$$

where *A* denotes the azimuth. *p* the polar distance, and *l* the latitude of the place.

DATE OF GREATEST ELONGATION.

To find the time of greatest eastern or western elongation, let *H* denote the hour angle, and *l* and *p* as before, then we shall have

$$\cos H = \tan p \tan l.$$

And the hour angle in mean time is

$$H_m = H^e \times 0.0664846.$$

This quantity, *H_m*, added to or subtracted from the time of transit given above, according to the elongation required, will give the mean time of the greatest elongation at any place whose north latitude is *l*.

Rules for Foretelling the Weather.

ADAPTED FOR USE WITH ANEROID BAROMETERS.

A RISING BAROMETER.
A RAPID rise indicates unsettled weather.
A gradual rise indicates settled weather.
A rise with dry air and cold increasing in Summer indicates wind from the northward; and if rain has fallen, better weather may be expected.
A rise with moist air and a low temperature indicates wind and rain from the northward.
A rise with southerly winds indicates fine weather.

A STEADY BAROMETER.
With dry air and seasonable temperature indicates a continuance of very fine weather.

A FALLING BAROMETER.
A rapid fall indicates stormy weather.
A rapid fall with westerly wind indicates stormy weather from the northward.
A fall with a northerly wind indicates storm, with rain and hail in Summer, and snow in Winter.
A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.
A fall with dry air and cold increasing in Winter indicates snow.
A fall after very calm and warm weather indicates rain with squally weather.
The barometer rises for northerly winds, including from north-west by north to the eastward for dry, or less wet weather, for less wind, or for more than one of these changes, except on a few occasions, when rain, hail, or snow comes from the northward with strong wind.
The barometer falls for southerly wind, including from south-east by south to the westward, for wet weather, for stronger wind or for more than one of these changes, except on a few occasions, when moderate wind, with rain or snow, comes from the northward.

The above printed rules are in use by the Seawanhaka Corinthian Yacht Club of New York.

DURATION OF DIFFERENT KINDS OF WEATHER IN THE SEVERAL STORMS—VICINITY OF NEW YORK.

WEATHER WISDOM.

SUNSET COLORS.—A gray, lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise, with clouds lowering later in the morning, also indicates rain.

HALO (SUN DOGS).—By halo we mean the large circles, or parts of circles, about the sun or moon. A halo occurring after fine weather indicates a storm.

CORONA.—By this term we mean the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

RAINBOWS.—A morning rainbow is regarded as a sign of rain; an evening rainbow of fair weather.

SKY COLOR.—A deep-blue color of the sky, even when seen through clouds, indicates fair weather; a growing whiteness, an approaching storm.

FOGS.—Fogs indicate settled weather. A morning fog usually breaks away before noon.

VISIBILITY.—Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars, indicate rain.

FROST.—The first frost and last frost are usually preceded by a temperature very much above the mean.

OBJECTS VISIBLE AT SEA-LEVEL IN CLEAR WEATHER.

The following table shows the distance at sea-level at which objects are visible at certain elevations:

ELEVATION—FEET.	Miles.	ELEVATION—FEET.	Miles.	ELEVATION—FEET.	Miles.

The lowest point of dry land in the United States is in Death Valley, Cal. 278 feet below sea level.

NOTE—The above table was prepared for THE WORLD ALMANAC by the Geographic Branch of the United States Geological Survey. It should be stated in connection with this table that it presents only points whose heights are matters of record, and that in several cases in the high mountain region of the far West and the Pacific Slope it is well known that there are higher points within the State or Territory whose heights are not yet known with accuracy, and consequently cannot be given.

This table was revised by the United States Geological Survey to September 1, 1909.

Weather Flags**OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.**

THE Weather Bureau furnishes, when practicable, for the benefit of all interests dependent upon weather conditions, the "Forecasts" which are prepared daily at the Central Office in Washington, D. C., and certain designated stations. These forecasts are telegraphed to stations of the Weather Bureau, railway officials, postmasters, and many others, to be communicated to the public by telegraph, telephone and mail or by means of flags or steam whistles. The flags adopted for this purpose are five in number, and of the forms and colors indicated below:

EXPLANATION OF WEATHER FLAGS.

When number 4 is placed above number 1, 2, or 3, it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary. During the late Spring and early Fall the cold-wave flag is also used to indicate anticipated frosts.

WHISTLE SIGNALS.

A warning blast of from fifteen to twenty seconds duration is sounded to attract attention. After this warning the longer blasts (of from four to six seconds duration) refer to weather, and shorter blasts (of from one to three seconds duration) refer to temperature; those for weather are sounded first.

Blasts.	Indicate.	Blasts.	Indicate.
One long.....	Fair weather.	One short.....	Lower temperature.
Two long.....	Rain or snow.	Two short.....	Higher temperature.
Three long.....	Local rain or snow.	Three short.....	Cold wave.

By repeating each combination a few times, with intervals of ten seconds, liability to error in reading the signals may be avoided.

As far as practicable the forecast messages are telegraphed at the expense of the Weather Bureau; but if this is impracticable, they are furnished at the regular commercial rates and sent "collect." In no case are the forecasts be sent to a second address in any place, except at the expense of the applicant.

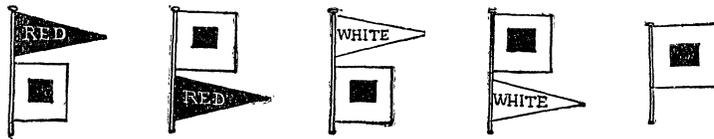

Persons desiring to display the flags or sound the whistle signals for the benefit of the public should communicate with the Weather Bureau officials in charge of the central stations of their respective States, which are as follows:

Alabama, Montgomery. Arizona, Phoenix. Arkansas, Little Rock. California, San Francisco Colorado, Denver. Florida, Jackson v Georgia, Atlanta. Idaho, Boise. Illinois, Springfield. Indiana, Indianapolis. Iowa, Des Moines. Kansas, Topeka. Kentucky, Louisville. Louisiana, New Orleans. Maryland, Baltimore (for Delaware and Maryland).	Massachusetts, Boston (for New England). Michigan, Grand Rapids. Minnesota, Minneapolis. Mississippi, Vicksburg. Missouri, Columbia. Montana, Helena. Nebraska, Lincoln. Nevada, Reno. New Jersey, Atlantic City. New Mexico, Santa Fé. New York, Ithaca. North Carolina, Raleigh. North Dakota, Bismarck. Ohio, Columbus.	Oklahoma, Oklahoma. Oregon, Portland. Pennsylvania, Philadelphia. South Carolina, Columbia. South Dakota, Huron. Tennessee, Nashville. Texas, Galveston. Utah, Salt Lake City. Virginia, Richmond. Washington, Seattle. West Virginia, Parkersburg. Wisconsin, Milwaukee. Wyoming, Cheyenne.
--	--	--

The Ancient and Modern Year.

THE Athenians began the year in June, the Macedonians in September, the Romans first in March and afterward in January, the Persians on August 11, the ancient Mexicans on February 23, the Mohammedans in July. The Chinese year, which begins early in February, is similar to the Mohammedan in having 12 months of 29 and 30 days alternately; but in every nineteen years there are seven years which have 13 months. This is not quite correct, and the Chinese have therefore formed a cycle of 60 years, in which period 22 intercalary months occur.

Storm and Hurricane Warnings
OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.
STORM WARNINGS.

Northeasterly winds. Southeasterly winds. Northwesterly winds. Southwesterly winds. Red, black centre.

Storm Warnings.—A red flag with a black centre indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from northeast to south); white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from the southerly quadrants.

By night a red light indicates easterly winds, and a white light below a red light, westerly winds. **Hurricane Warnings.**—Two red flags with black centres, displayed one above the other, indicate the expected approach of a tropical hurricane, and also one of those extremely severe and dangerous storms which occasionally move across the Lakes and Northern Atlantic Coast.

Velocity of Winds in the United States.

AVERAGE hourly velocity of the wind at selected stations of the United States Weather Bureau, also the highest velocity ever reported for a period of five minutes. (Prepared by W. L. Moore, Chief of the U. S. Weather Bureau, and revised to January 1, 1909, for THE WORLD ALMANAC.)

Loss by Lightning in the United States.

THE Weather Bureau of the United States Department of Agriculture in October, 1900, issued a bulletin giving these facts: In 1899 the total number of strokes of lightning which caused damage was 5,527; number of buildings injured, 6,256; value of property lost, \$3,016,520; number of deaths by lightning during the year, 563; number of persons injured, 820; number of live stock killed in the fields, 4,251; value, \$129,955. These are the latest available statistics.

The Chronicle Fire Tables record 3,012 fires caused by lightning in the United States in 1902, the property loss occasioned thereby being \$3,396,810. These are the latest reported statistics on the subject.

High-Tide Tables.

EXAMPLE.—To find the approximate time of high tide at Atlantic City, N. J., on any day, find first the time of high water at New York under the desired date, and then subtract 20 minutes, as in the above table; the result is the time of high water required.

AVERAGE RISE AND FALL OF TIDE.

The Geological Strata.

THE strata composing the earth's crust is divided by most geologists into two great classes: 1. Those generally attributed to the agency of water. 2. To the action of fire; which may be subdivided as follows: (a) Aqueous formations, stratified, rarely crystalline (sedimentary or fossiliferous rocks; metamorphic or unfossiliferous). (b) Igneous formations, unstratified, crystalline (volcanic, as basalt; plutonic, as granite).

The geological record is classified into five main divisions or periods: 1. The Archean, lifeless and dawn of life. 2. The Palæozoic (ancient life). 3. The Mesozoic (middle life). 4. The Cenozoic (recent life). 5. Quaternary, the age in which man's first appearance is indicated.

PERIODS.		Eras.	Series.	Subdivisions.	
Quaternary Period.	Age of Primeval Man.	Quaternary or Post Tertiary.	3. Recent.	Pleistocene.	
			2. Champlain.		
Cenozoic Period.	Age of Mammals.	Tertiary Era.	1. Glacial.	English Crag.	
			4. Pliocene.	Upper Molasse.	
Mesozoic Period.	Age of Reptiles.	Cretaceous Era.	3. Miocene.	Rupelian and Tongrian of Belgium.

Races of Mankind.

THE following is compiled from the arrangement by Ethnologist Figuer and others:

		WHITE RACE.	
European Branch.	{	Teutonic Family.....	Scandinavians, Germans, English.
		Latin Family.....	French, Spaniards, Italians, Moldo-Wallachians.
		Slavonian Family.....	Russians, Finns, Bulgarians, Servians, Magyars, Croats, Tchecks, Poles, Lithuanians.
Aramean Branch.	{	Greek Family.....	Greeks, Albanians.
		Libyan Family.....	Egyptians, Berbers.
		Semitic Family.....	Arabs, Jews, Syrians.
		Persian Family.....	Persians, Afghans, Kurds, Armenians, Ossetines.
		Georgian Family.....	Georgians.
Circassian Family.....	{	Circassians, Mingrelians.	
		YELLOW RACE.	
Hyperborean Branch.	{	Lapp Family.....	Samolede, Kamtsehadale, Esquiman, Tenissian, Jukaghirite, and Koriak Families.
		Mongol Family.....	Mongols, Kalmycks, Buriats.
Mongolian Branch.	{	Tunguse Family.....	Tunguses, Manchus.
		Turk Family.....	Turcomans, Kirghis, Nogays, Osmanlis.
		Yakut Family.....	Yakuts.
Sinaic Branch.	{	Chinese Family.....	Chinese.
		Japanese Family.....	Japanese.
Indo-Chinese Family.....	{	Japanese, Siamese.	
		BROWN RACE.	
Hindoo Branch.	{	Hindoo Family.....	Sikhs, Jats, Rajpoots, Mahrattas, Bengalese, Cingalese.
		Malabar Family.....	Malabars, Tamals, Telingas.
Ethiopian Branch.	{	Abyssinian Family.....	Abyssinians, Berabras, Gallas.
		Fellan Family.....	Fellans.
Malay Branch.	{	Malay Family.....	Malays, Javanese, Battas, Bougis, Maccassars, Dyaks, Togals.
		Polynesian Family.....	Maoris, Tongas, Tahitians, Pomotouans, Marquesans, Sandwichians.
Micronesian Family.....	{	Ladrone, Caroline, and Mulgrave Islanders.	
		RED RACE.	
Southern Branch.	{	Andian Family.....	Quichuas (or Incas), Antis, Andians, Araucanians.
		Pampean Family.....	Patagonians, Fueches, Charruas, Tobas, Moxas, Abipous, etc.
Northern Branch.	{	Guarani Family.....	Guaranis, Bocotudos.
		Southern Family.....	Aztics, Mayas, Lenças, Othomis, Tarascas, etc.
		Northeastern Family.....	Cherokees, Hurons, Iroquois, Sioux, Apaches, Comanches, Creeks, etc.
		Northwestern Family.....	Chinooks, Digger Indians, Nootkans, etc.
		BLACK RACE.	
Western Branch.	{	Caffre Family.....	
		Hottentot Family.....	
Eastern Branch.	{	Negro Family.....	
		Papuan Family.....	Fijians, New Caledonians, etc.
Andaman Family.....	{	Andamans, Australians.	

The American Indian.

THE annual reports of the various Indian superintendents showed as of June 30, 1909, that the Indian population was 299,293, distributed in the several States as follows:

Arizona.....	37,236	Kansas.....	1,351	New Mexico.....	18,627	South Dakota.....	20,221
California.....	19,942	Maine.....	410	New York.....	5,455	Texas.....	470
Colorado.....	306	Michigan.....	6,743	North Carolina.....	1,896	Utah.....	1,777
Florida.....	358	Minnesota.....	10,008	North Dakota.....	7,990	Washington.....	8,494
Idaho.....	4,073	Montana.....	10,426	Oklahoma.....	117,370	Wisconsin.....	10,031
Indiana.....	243	Nebraska.....	3,744	Oregon.....	3,680	Wyoming.....	1,670
Iowa.....	352	Nevada.....	5,870	South Carolina.....	60	Total.....	299,293

The expenditures of the United States on account of the Indians in the fiscal year ending June 30, 1909, were \$9,253,347; The expenditures from 1789 to 1909, inclusive, have been \$474,163,917.

The appropriation made by Congress for Indian schools for the fiscal year ending June 30, 1909, was \$4,008,825. The Government supports 109 boarding schools, and 194 day schools. In addition to these there are 59 mission schools conducted by various churches and religious societies.

The five civilized tribes, Oklahoma—Cherokee, 41,805; Chickasaw, 11,055; Choctaws, 26,771; Creeks, 18,714; Seminoles, 3,124. Total 101,469.

This total of 101,469 includes 23,382 colored freedmen and 2,604 intermarried whites.	
Pueblos of New Mexico.....	9,188
Six Nations, St. Regis, and other Indians of N. Y.....	5,455
Eastern Cherokees of North Carolina.....	1,896
Indians under control of the War Department, prisoners of war (Apaches at Fort Sill, Oklahoma.).....	248

A Table of Principal American Rivers.

NAMES.	Sources.	Mouths.	LENGTH MILES.
Alabama	Junction of Coosa and Tallapoosa, Ala.	Mobile River	175
Alleghany	Alleghany Co., N. Y.	Ohio River	460
Androscoquina	Umbagog Lake, Maine.	Atlantic Ocean	140
Appalachicola	Junction of Chattahoochee and Flint R. Ga.	Gulf of Mexico	110
Arkansas	Rocky Mountains, Col.	Mississippi River	2170
Black	Adirondack Lakes, N. Y.	Lake Ontario	125
Black Warrior	Formed by Locust and Mulberry, Forks, Ala.	Tombigbee River	300
Brazos	Highlands, Texas	Gulf of M. xico	750
Cape Fear	Junction of Haw and Deep Rivers, N. C.	Atlantic Ocean	250

Facts About the Earth.

ACCORDING to Clark, the equatorial semi-diameter is 20,926,202 feet=3963,296 miles, and the polar semi-diameter is 20,854,895 feet=3950,738 miles. One degree of latitude at the pole=69,407 miles. One degree of latitude at the equator=68,704 miles.

POPULATION OF THE EARTH BY CONTINENTS.

CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.		CONTINENTAL DIVISIONS.	Area in Square Miles.	INHABITANTS.	
		Number	Per Sq. Mile.			Number.	Per Sq. Mile.
Africa	11,514,000	127,000,000	11.00	Australasia	3,288,000	5,200,000	1.58
America, N.	6,446,000	115,000,000	17.80	Europe	3,555,000	380,200,000	106.90
America, S.	6,837,000	45,000,000	6.50	Polar Reg.	4,888,800	300,000	0.07
Asia	14,710,000	850,000,000	57.70	Total	51,238,800	1,522,700,000	29.60

The above estimate is based upon one made by Ernest George Ravenstein, F. R. G. S., the geographer and statistician in 1890, with the additions in population since that date in the Americas and Australasia bringing it down to 1910.

Ravenstein's estimate of the earth's fertile region, in square miles, is 28,269,200; steppe, 13,901,000; desert, 4,180,000; polar regions, 4,888,800.

The population of the earth at the death of the Emperor Augustus, estimated by Bodio, was 54,000,000. The population of Europe hardly exceeded 50,000,000 before the fifteenth century.—*Mulhall*.

The area and cubic contents of the earth, according to the data of Clark, given above, are: Surface, 196,971,984 square miles; cubic contents, 259,944,035,515 cubic miles.

Murray (Challenger expedition) states the greatest depth of the Atlantic Ocean at 27,366 feet. Pacific Ocean, 30,000 feet; Indian Ocean, 18,582 feet; Southern Ocean, 25,200 feet. Arctic Ocean, 9,000 feet. The Atlantic Ocean has an area, in square miles, of 24,536,000; Pacific Ocean, 50,309,000; Indian Ocean, 17,084,000; Arctic Ocean, 4,781,000; Southern Ocean, 30,592,000. The highest mountain is believed to be Deodhunga or Everest, one of the Himalayas, 29,002 feet.

For population of the earth according to creed, see RELIGIOUS STATISTICS.

POPULATION OF THE EARTH ACCORDING TO RACE.

(Based on estimate by John Bartholomew, F. R. G. S., Edinburgh, revised to 1910.)

RACE.	Location.	Number.	RACE.	Location.	Number.
Indo-Germanic or Aryan (white).....	Europe, Persia, etc.....	625,000,000	Hottentot and Bushman (black).....	South Africa	150,000
Mongolian or Turanian (yellow and brown).....	Greater part of Asia.....	630,000,000	Malay and Polynesian (brown).....	Australasia & Polynesia	35,000,000
Semite or Hamitic (white).....	North Africa, Arabia.....	65,000,000	American Indian (red).....	North & So. America.....	15,000,000
Negro and Bantu (black).....	Central Africa.....	150,000,000	Total.....		1,520,150,000

The human family is subject to fifty principal governments. As to their form they may be classified as follows: *Absolute monarchies*, Abyssinia, Afghanistan, China, Korea, Morocco, Siam; *Limited monarchies*, Austria-Hungary, Belgium, British Empire, Bulgaria, Denmark, Germany, Greece, Italy, Japan, Montenegro, Netherlands, Norway, Persia, Portugal, Roumania, Russia, Serbia, Sweden, Spain, Turkey; *Republics*, Argentine Republic, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, France, Guatemala, Hayti, Honduras, Liberia, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Switzerland, United States of America, Uruguay, Venezuela. Besides these are the undefined despotisms of Central Africa, and a few insignificant independent States.

The average duration of human life is about 33 years. One-quarter of the people on the earth die before age 6, one-half before age 16, and only about 1 person of each 100 born lives to age 65.

Table of Magnetic Declinations,

OR VARIATION OF COMPASS FOR JANUARY, 1910—WITH THE ANNUAL CHANGE BETWEEN 1905 AND 1910 FOR THE PRINCIPAL PLACES IN THE UNITED STATES.

A plus (+) sign to the annual change denotes that the declination is increasing, and a minus (−) sign the reverse.

(Specially prepared for THE WORLD ALMANAC in the Office of the United States Coast and Geodetic Survey.)

STATE OR TERRITORY.	STATION.	Approximate Latitude.		Approximate Longitude.		Variation January, 1910	Annual Change.	STATE OR TERRITORY.	STATION.	Approximate Latitude.		Approximate Longitude.		Variation January, 1910	Annual Change.

* At Buffalo. The record in the above table is kept by the State Superintendent of Public Works.

Metric System of Weights and Measures.

THE METRIC SYSTEM has been adopted by Mexico, Brazil, Chile, Peru, etc., and except Russia and Great Britain, where it is permissive, by all European nations. Various names of the preceding systems are, however, frequently used: In Germany, $\frac{1}{16}$ kilogram = 1 pound; in Switzerland, 3-10 of a metre = 1 foot, etc. If the first letters of the prefixes *deka*, *hecto*, *kilo*, *myria*, from the Greek, and *deci*, *centi*, *milli*, from the Latin, are used in preference to our plain English, 10, 100, etc., it is best to employ capital letters for the multiples and small letters for the subdivisions, to avoid ambiguities in abbreviations: 1 dekametre or 10 metres = 1 dm.; 1 decimetre or 1-10 of a metre = 1 dm.

The METRE, unit of length, is nearly the ten-millionth part of a quadrant of a meridian, of the distance between Equator and Pole. The International Standard Metre is, practically, nothing else but a length defined by the distance between two lines on a platinum-iridium bar at 0° Centigrade, deposited at the International Bureau of Weights and Measures, Paris, France.

The LITRE, unit of capacity, is derived from the weight of one kilogram pure water at greatest density, a cube whose edge is one-tenth of a metre and, therefore, the one-thousandth part of a metric ton.

The GRAM, unit of weight, is a cube of pure water at greatest density, whose edge is one-hundredth of a metre, and, therefore, the one-thousandth part of a kilogram, and the one-millionth part of a metric ton.

The Metric System was legalized in the United States on July 28, 1866, when Congress enacted as follows:

"The tables in the schedule hereto annexed shall be recognized in the construction of contracts, and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system, and the tables may lawfully be used for computing, determining, and expressing in customary weights and measures the weights and measures of the metric system."

The following are the tables annexed to the above:

MEASURES OF LENGTH.

Metric Denominations and Values.		Equivalents in Denominations in Use.
Myriametre	10,000 metres.	6,2137 miles.
Kilometre	1,000 metres.	0.62137 mile, or 3,280 feet 10 inches.
Hectometre	100 metres.	328 feet 1 inch.
Dekametre	10 metres.	39.37 inches.
Metre	1 metre.	39.37 inches.
Decimetre	1-10 of a metre.	3.937 inches.
Centimetre	1-100 of a metre.	0.3937 inch.
Millimetre	1-1000 of a metre.	0.0394 inch.

MEASURES OF SURFACE.

Metric Denominations and Values.		Equivalents in Denominations in Use.
Hectare	10,000 square metres.	2.471 acres.
Are	100 square metres.	119.6 square yards.
Centare	1 square metre.	1,550 square inches.

MEASURES OF CAPACITY.

METRIC DENOMINATIONS AND VALUES.			EQUIVALENTS IN DENOMINATIONS IN USE.	
Names.	Number of Litres.	Cubic Measure.	Dry Measure.	Liquid or Wine Measure.
Kilolitre or stere.	1,000	1 cubic metre.....	1 308 cubic yards.....	264.17 gallons.
Hectolitre.....	100	1-10 of a cubic metre.	2 bush. and 3.35 pecks...	26.417 gallons.
Dekalitre.....	10	10 cubic decimetres.....	9.08 quarts.....	2.6417 gallons.
Litre.....	1	1 cubic decimetre.....	0.908 quart.....	1.0567 quarts.
Decilitre.....	1-10	1-10 of a cubic decimetre.	6.1022 cubic inches.....	0.845 gill.
Centilitre.....	1-100	10 cubic centimetres.....	0.6102 cubic inch.....	0.338 fluid ounce.
Millilitre.....	1-1000	1 cubic centimetre.....	0.061 cubic inch.....	0.27 fluid dram.

METRIC SYSTEM—Continued.

WEIGHTS.

METRIC DENOMINATIONS AND VALUES.			EQUIVALENTS IN DENOMINATIONS IN USE.
Names.	Number of Grams.	Weight of What Quantity of Water at Maximum Density.	Avoirdupois Weight.
Miller or tonneau.....	1,000,000	1 cubic metre.....	2204.6 pounds.
Quintal.....	100,000	1 hectolitre.....	220.46 pounds.
Myriagram.....	10,000	10 litres.....	22.046 pounds.
Kilogram or kilo.....	1,000	1 litre.....	2.2046 pounds.
Hectogram.....	100	1 decilitre.....	3.5274 ounces.
Decagram.....	10	10 cubic centimetres.....	0.3527 ounce.
Gram.....	1	1 cubic centimetre.....	15.432 grains.
Decigram.....	1-10	1-10 of a cubic centimetre.....	1.5432 grains.
Centigram.....	1-100	10 cubic millimetres.....	0.1543 grain.
Milligram.....	1-1000	1 cubic millimetre.....	0.0154 grain.

TABLES FOR THE CONVERSION OF METRIC WEIGHTS AND MEASURES INTO CUSTOMARY UNITED STATES EQUIVALENTS AND THE REVERSE.

From the legal equivalents are deduced the following tables for converting United States weights and measures:

THE METRIC SYSTEM SIMPLIFIED.

The following tables of the metric system of weights and measures have been simplified as much as possible for THE WORLD ALMANAC by omitting such denominations as are not in practical, everyday use in the countries where the system is used exclusively.

TABLES OF THE SYSTEM.

Length.—The denominations in practical use are millimetres (mra.), centimetres (cm.), metres (m.), and kilometres (km).
 10 mm. = 1 cm.; 100 cm. = 1 m.; 1,000 m. = 1 km. NOTE.—A decimetre is 10 cm.
Weight.—The denominations in use are grams (g.), kilos* (kg.), and tons (metric tons).
 1,000 g. = 1 kg.; 1,000 kg. = 1 metric ton.
Capacity.—The denominations in use are cubic centimetres (c. c.) and litres (L.).
 1,000 c. c. = 1 l. NOTE.—A hectolitre is 100 l. (seldom used).
 Relation of capacity and weight to length: A cubic decimetre is a litre, and a litre of water weighs a kilo.

APPROXIMATE EQUIVALENTS.

A metre is about a yard; a kilo is about 2 pounds; a litre is about a quart; a centimetre is about 1/8 inch; a metric ton is about same as a ton; a kilometre is about 3/4 mile; a cubic centimetre is about a thimbleful; a nickel weighs about 5 grams.

PRECISE EQUIVALENTS.

1 acre.....	= .40 hectar	4047 1 mile.....	= 1.6 kilometres.....	1.609

* Contraction for kilogram. † Centimetres.

Minimum Weights of Produce.

The following are minimum weights of certain articles of produce according to the laws of the United States:

Per Bushel.	Per Bushel.	Per Bushel.
Wheat.....60 lbs.	White Potatoes.....60 lbs.	Hungarian Grass Seed.....50 lbs.
Corn, in the ear.....70 "	Sweet Potatoes.....55 "	Timothy Seed.....45 "
Corn, shelled.....56 "	Onions.....57 "	Blue Grass Seed.....44 "
Rye.....56 "	Turnips.....55 "	Hemp Seed.....44 "
Buckwheat.....48 "	Dried Peaches.....33 "	Salt (see note below).
Barley.....48 "	Dried Apples.....26 "	Corn Meal.....48 "
Oats.....32 "	Clover Seed.....60 "	Ground Peas.....24 "
Peas.....60 "	Flax Seed.....56 "	Malt.....34 "
White Beans.....60 "	Millet Seed.....50 "	Bran.....20 "
Castor Beans.....46 "		

SALT.—Weight per bushel as adopted by different States ranges from 50 to 80 pounds. Coarse salt in Pennsylvania is reckoned at 80 pounds, and in Illinois at 50 pounds per bushel. Fine salt in Pennsylvania is reckoned at 62 pounds, in Kentucky and Illinois at 55 pounds per bushel.

Measures and Weights of Great Britain.

THE measures of length and the weights are nearly, practically, the same as those in use in the United States. The English ton is 2,240 lbs. avoirdupois, the same as the long ton, or shipping ton of the United States. The English hundredweight is 112 lbs. avoirdupois, the same as the long hundredweight of the United States. The metre has been legalized at 39.37079 inches, but the length of 39.370432 inches, as adopted by France, Germany, Belgium, and Russia, is frequently used. The Imperial gallon, the basis of the system of capacity, involves an error of about 1 part in 1,836; 10 lbs. of water = 277.123 cubic inches.

The English statute mile is 1,760 yards or 5,280 feet. The following are measures of capacity:

NAMES.	Pounds of Water.	Cubic Inches.	Litres.	United States Equivalents.
4 gills = 1 pint	1.25	34.66	0.56793	1.20032 liquid pints.
2 pints = 1 quart	2.5	69.32	1.13586	1.20032 " quarts.
2 quarts = 1 pottle	5	138.64	2.27173	2.40064 " "
2 pottles = 1 gallon	10	277.27	4.54346	1.20032 " gallons.
2 gallons = 1 peck	20	554.55	9.08692	1.03152 dry pecks.
4 pecks = 1 bushel	80	2218.19	36.34766	1.03152 " bushels.
4 bushels = 1 coomb	320	8872.77	145.39062	4.12606 " "
2 coombs = 1 quarter	640	17745.54	290.7813	8.2521 " "

A cubic foot of pure gold weighs 1,210 pounds; pure silver, 655 pounds; cast iron, 450 pounds; copper, 550 pounds; lead, 710 pounds; pure platinum, 1,220 pounds; tin, 455 pounds; aluminum, 163 pounds.
Stone—A measure of weight (avoirdupois) usually equal to half of the quarter of 28 pounds, or one-eighth hundredth weight of 112 pounds (termed the horseman's weight); for butcher's meat, one-fourteenth of a hundred pounds.

Domestic Weights and Measures.

Apothecaries' Weight: 20 grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce; 12 ounces = 1 pound.

Avoirdupois Weight (short ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 25 pounds = 1 quarter; 4 quarters = 1 cwt.; 20 cwt. = 1 ton.

Avoirdupois Weight (long ton): 27 11-32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 112 pounds = 1 cwt.; 20 cwt. = 1 ton.

Troy Weight: 24 grains = 1 pennyweight; 20 pennyweights = 1 ounce; 12 ounces = 1 pound.

Circular Measure: 60 seconds = 1 minute; 60 minutes = 1 degree; 30 degrees = 1 sign; 12 signs = 1 circle or circumference.

Cubic Measure: 1,728 cubic inches = 1 cubic foot; 27 cubic feet = 1 cubic yard.

Dry Measure: 2 pints = 1 quart; 8 quarts = 1 peck; 4 pecks = 1 bushel.

Liquid Measure: 4 gills = 1 pint; 2 pints = 1 quart; 4 quarts = 1 gallon; 31½ gallons = 1 barrel; 2 barrels = 1 hogshead.

Long Measure: 12 inches = 1 foot; 3 feet = 1 yard; 5½ yards = 1 rod or pole; 40 rods = 1 furlong; 8 furlongs = 1 statute mile (1,760 yards or 5,280 feet); 3 miles = 1 league.

Mariner's Measure: 6 feet = 1 fathom; 120 fathoms = 1 cable length; 7¼ cable lengths = 1 mile; 5,280 feet = 1 statute mile; 6,085 feet = 1 nautical mile.

Paper Measure: 24 sheets = 1 quire; 20 quires = 1 ream (480 sheets); 2 reams = 1 bundle; 5 bundles = 1 bale.

Square Measure: 144 square inches = 1 square foot; 9 square feet = 1 square yard; 30¼ square yards = 1 square rod or perch; 40 square rods = 1 rood; 4 roods = 1 acre; 640 acres = 1 square mile; 36 square miles (6 miles square) = 1 township.

Time Measure: 60 seconds = 1 minute; 60 minutes = 1 hour; 24 hours = 1 day; 7 days = 1 week; 365 days = 1 year; 366 days = 1 leap year.

MEDICAL SIGNS AND ABBREVIATIONS.

R (Lat. Recipe), take; aa, of each; lb, pound; ʒ, ounce; ʒ, drachm; ʒ, scruple; ℥, minim, or drop; O or o, pint; ℥ʒ, fluid ounce; ℥ʒ, fluid drachm; as, ʒss, half an ounce; ʒi, one ounce; ʒiiss, one ounce and a half; ʒiij, two ounces; gr., grain; Q. S., as much as sufficient; Ft. Mist., let a mixture be made; Ft. Haust., let a draught be made; Ad., add to; Ad lib., at pleasure; Aq., water; M., mix; Mac., macerate; Pulv., powder; Pil., pill; Solv., dissolve; St., let it stand; Sum., to be taken; D., dose; Dil., dilute; Filt., filter; Lot., a wash; Garg., a gargle; Hor. Decub., at bed time; Inject., injection; Gtt., drops; ss, one-half; Ess., essence.

TEXAS LAND MEASURE.

(Also used in Mexico, New Mexico, Arizona, and California.)

26,000,000	square varas (square of 5,099	varas) = 1 league and 1 labor	= 4,605.5 acres.
1,000,000	square varas (square of 1,000	varas) = 1 labor	= 177.136 acres.
25,000,000	square varas (square of 5,000	varas) = 1 league	= 4,428.4 acres.
12,500,000	square varas (square of 3,535.5	varas) = ½ league	= 2,214.2 acres.
8,333,333	square varas (square of 2,886.7	varas) = ¼ league	= 1,476.13 acres.
6,250,000	square varas (square of 2,500	varas) = ¼ league	= 1,107.1 acres.
7,225,600	square varas (square of 2,688	varas)	= 1,280 acres.
3,612,800	square varas (square of 1,900.8	varas) = 1 section	= 640 acres.
1,806,400	square varas (square of 1,344	varas) = ½ section	= 320 acres.
903,200	square varas (square of 950.44	varas) = ¼ section	= 160 acres.
451,600	square varas (square of 672	varas) = ¼ section	= 80 acres.
225,800	square varas (square of 475	varas) = 1-16 section	= 40 acres.
5,645,376	square varas (square of 75,137	varas) = 4.840 square yards	= 1 acre.

To find the number of acres in any number of square varas, multiply the latter by 177 (or to be more exact, by 177¼), and cut off six decimals.

1 vara = 33¼ inches.

1,900.8 varas = 1 mile.

WEIGHTS AND MEASURES OF THE PHILIPPINES.

1 pulgada (12 lineas)	= .927 inch.	1 libra (16 onzo)	= 1.0144 lb. av.
1 pie	= 11.125 inches.	1 arroba	= 25.360 lb. av.
1 vara	= 33.375 inches.	1 catty (16 tael)	= 1.394 lb. av.
1 gantah	= .8796 gallon.	1 pecul (100 catty)	= 139.482 lb. av.
1 caban	= 21.991 gallons.		

Knots and Miles.

The **Statute Mile** is 5,280 feet.
 The **British Admiralty Knot or Nautical Mile** is 6,080 feet.
 The **Statute Knot** is 6,082.66 feet, and is generally considered the standard. The number of feet in a statute knot is arrived at thus: The circumference of the earth is divided into 360 degrees, each degree containing 60 knots or (360x60), 21,600 knots to the circumference. 21,600 divided into 131,385,456—the number of feet in the earth's circumference—gives 6,082.66 feet—the length of a standard mile.

1 knot = 1.151 miles	4 knots = 4.606 miles	20 knots = 23.030 miles	600 feet = 1 cable
2 knots = 2.303 miles	5 knots = 5.757 miles	25 knots = 28.787 miles	10 cables = 1 knot
3 knots = 3.454 miles	10 knots = 11.515 miles	6 feet = 1 fathom	

Ancient Greek and Roman Weights and Measures,

WITH AMERICAN EQUIVALENTS.

WEIGHTS.
 The Roman libra or pound = 10 oz. 18 pwt. 13 5-7 gr., Troy.
 The Attica mina or pound = 11 oz. 7 pwt. 16 2-7 gr., Troy.
 The Attica talent (60 minæ) = 56 lbs. 11 oz. 0 pwt. 17 1-7 gr., Troy.

DRY MEASURE.
 The Roman modus = 1 pk. 2-9 pint.
 The Attic choenix = nearly 1 1/4 pints.
 The Attic medimnus = 4 pk. 6 1-10 pints.

LIQUID MEASURE.
 The cotyle = a little over 1/2 pint.
 The cyathus = a little over 1 1/4 pints.
 The chus = a little over 6 3/4 pints.

LONG MEASURE.
 The Roman foot = 11 3-5 inches.
 The Roman cubit = 1 ft. 5 1/4 inches.
 The Roman pace = 4 ft. 10 inches.
 The Roman furlong = 604 ft. 10 inches.
 The Roman mile = 4,835 feet.
 The Grecian cubit = 1 ft. 6 1/4 inches.

MONETARY.
 The Grecian furlong = 504 ft. 4 1-5 inches.
 The Grecian mile = 4030 ft.
 The quadran = 1 1-10 mills.
 The as = 1 3-10 mills.
 The sestertius = 3.58 + cents.
 The sestertium (1,000 sestertii) = \$35.80+.
 The denarius = 14.35 + cents.
 The Attic obolus = 2.39 + cents.
 The drachma = 14.35 + cents.*
 The mina (100 drachmæ) = \$14.35+.
 The talent (60 minæ) = \$861.00+.
 The Greek stater = aureus (same as the Roman f) = \$3.58, 79.
 The stater = daricus = \$7.16, 66.

*The modern drachma equals 19.3 cents. † Did not remain, at all periods, at this value, but this is the value indicated by Tacitus.

BIBLICAL WEIGHTS REDUCED TO TROY WEIGHT.

	Lbs.	Oz.	Pwt.	Gr.
The Gerah, one-twentieth of a Shekel	0	0	0	12
The Bekah, half a Shekel	0	0	5	0
The Shekel	0	0	10	0
The Maneh, 60 Shekels	2	6	0	0
The Talent, 50 manehs, or 3,000 Shekels	125	0	0	0

Electrical Units.

NAME.	Symbol.	Unit of	How Obtained.	CGS*	Equivalent.
Ohm	R	Resistance	The electrical resistance of a column of mercury 106 centimetres long and of 1 square millimetre section.	10 ⁹	1 true ohm = 1.0112 British Association ohms.
Ampère	C	Current	Is that current of electricity that decomposes .0009324 gramme of water per second.	10 ¹	Deposits 1.118 milligrams of silver per second.
Volt	E	Electromotive force	One ampère of current passing through a substance having 1 ohm of resistance = 1 volt.	10 ⁸	.926 of a standard Daniel Cell.
Coulomb	Q	Quantity	A current of 1 ampère during 1 second of time.	10 ¹	Deposits 1.118 milligrams of silver.
Farad	K	Capacity	The capacity that a current of 1 ampère for 1 second (=1 coulomb) charges it to potential of 1 volt.	10 ⁹	2.5 knots of D. U. S. cable.
Microfarad	"	"	1-millionth of farad.	10 ¹⁵	
Watt	Pw.	Power	Power of 1 ampère current passing through resistance of 1 ohm.	10 ⁷	.0013405 (or 1/746) of a horse power.
Jou	W. j.	Work	Is the work done by 1 watt of electrical power in 1 second.	10 ⁷	.238 unit of heat (Therm).

*C. G. S. = Electro-magnetic units. Consult technical works in electricity.

Foreign Moneys.

English Money: 4 farthings = 1 penny (d); 12 pence = 1 shilling (s); 20 shillings = 1 pound (£).
 21 shillings = one guinea; 5 shillings = one crown.
French Money: 10 centimes = 1 decime; 10 decimes = 1 franc.
German Money: 100 pfennig = 1 mark.
Russian Money: 100 copecks = 1 ruble.
Austro-Hungarian Money: 100 krentzer = 1 florin.
 For United States equivalents, see table of "Value of Foreign Coins in U. S. Money."

Table of Geometrical Progression.

(WHEREBY any questions of Geometrical Progression and of Double Ratio may be solved by Inspection, the Number of Terms not exceeding 56.)

Standard Newspaper Measure.

THE Standard Newspaper Measure, as recognized and now in general use is 13 ems pica. The standard of measurement of all sizes of type is the "em quad," not the letter "m."

The basis of measurements adopted by the International Typographical Union is the lower-case alphabet, from "a" to "z" inclusive, and the ems used are the same body as the type measured.

The weight of a cubic foot of distilled water at a temperature of 60° F. is 1,000 ounces Avoirdupois, *very nearly*, therefore the weight (in ounces, Avoirdupois) of a cubic foot of any of the substances in the above table is found by multiplying the specific gravities by 10, thus:—one cubic foot of oak weighs 1,170 ounces; one cubic foot of marble 2,700 ounces, and so on.

* Compared with water.

Tensile Strength is the resistance of the fibres or particles of a body to separation. It is therefore proportional to their number, or to the area of its transverse section. The fibres of wood are strongest near the centre of the trunk or limb of a tree.

Seed Planting in the United States.

(Compiled from reports of the Department of Agriculture.)

NEW ENGLAND.

KIND OF CROP.	Date of Planting.	Best Soil.	Amount of Manure per Acre.	Amount of Seed per Acre (1).	Weeks to Maturity.
Corn	May 10 to 30	Sandy or clay loam	8 to 12 tons	8 to 12 qts.	14-17
Wheat	Fall or Spring	Clay loam	18 tons	2 bush	20
Oats	Apr. to May	Strong loam	6 to 8 tons	2 to 3 bush	11-15
Barley	Apr. to June 20	Strong loam	7 to 8 tons	2 to 3 bush	10-15
Rye	Apr. to May, Sept.	Medium loam	7 to 8 tons	5 to 6 pecks	40
Buckwheat	June 1 to 20	Light loam	4 to 6 tons	1 to 1½ bush	10-15
White beans	May to June	Sandy loam	7 to 8 tons	8 to 12 qts.	8-14
Potatoes	Apr. 15 to May 1	Rich loam	15 to 20 tons	8 to 20 bush	12-20
Turnips	July 1 to Aug. 3	Sandy loam	10 tons	1 lb.	10
Mangels	Apr. 15 to May 5	Strong heavy loam	8 to 15 tons	4 to 6 lbs.	17-22

(1) The standard varieties of seed planted in the several sections of the United States are as follows: Corn—New England, leaming, sanford, flint; Middle States, leaming, white dent, yellow dent; Central and Western States, leaming, sanford, flint, white dent; Southern States, hickory king, gourd-seed, Cox prolific. Wheat—Middle States, fultz; Central and Western States, fultz, pool, fire; Southern States, fulcaster. Oats—New England, white; Middle States, white, black; Central and Western States, gray Norway, silver mine, Russian; Southern States, Texas rustproof. Barley—Middle States, mansbury; Southern States, Tennessee Winter. Rye—New England, white; Middle States, white, Winter; Central and Western States, Winter; Southern States, excelsior Winter. Buckwheat—Middle States, silver hull; Central and Western States, silver hull. Potatoes—New England, green mountain, carmen 3, rose; Middle States, rose, carmen 3, rural 2; Central and Western States, hebron, rural, early rose, early Ohio. Tobacco—Central and Western States, yellow prior, Spanish, white burley. Hay, clover—Middle States, medium red. Sweet Potatoes—Middle States, yellow Jersey; Southern States, yellow Jersey. Cotton—Southern States, Texas stormproof. Spring wheat is to some extent grown in Ohio, Indiana, Illinois and many other States. It matures in eighteen to twenty weeks.

(2) In Texas the black loam is a good soil for cotton, corn, wheat and most other field crops.

Constitution of the United States.

Preamble. WE, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this CONSTITUTION for the United States of America.

ARTICLE I.

Legislative powers. SECTION I. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

House of Representatives. SECTION II. 1. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

Qualifications of Representatives. 2. No person shall be a Representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

Apportionment of Representatives. 3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose 3; Massachusetts, 8; Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; Pennsylvania, 8; Delaware, 1; Maryland, 6; Virginia, 10; North Carolina, 5; South Carolina, 5, and Georgia, 3.*

Vacancies, how filled. 4. When vacancies happen in the representation from any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.

Officers, how appointed. 5. The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.

Senate. SECTION III. 1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.

Classification of Senators. 2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the Legislature of any State, the Executive thereof may make temporary appointment until the next meeting of the Legislature, which shall then fill such vacancies.

Qualifications of Senators. 3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

President of the Senate. 4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

5. The Senate shall choose their other officers, and also a President pro tempore, in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

Senate a court for trial of impeachments. 6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.

Judgment in case of conviction. 7. Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.

Elections of Senators and Representatives. SECTION IV. 1. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to places of choosing Senators.

Meeting of Congress. 2. The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

Organization of Congress. SECTION V. 1. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members in such manner and under such penalties as each House may provide.

2. Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds expel a member.

3. Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one-fifth of those present, be entered on the journal.

4. Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

Adjournment of Congress. SECTION VI. 1. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House they shall not be questioned in any other place.

2. No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either House during his continuance in office.

Revenue bills. SECTION VII. 1. All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments, as on other bills.

2. Every bill which shall have passed the House of Representatives and the Senate shall, before it become a law, be presented to the President of the United States; if he approve, he shall sign it, but if not, he shall return it, with his objections, to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered; and if approved by two-thirds of that House it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return; in which case it shall not be a law.

* See Article XIV., Amendments.

- Approval and
veto powers
of the Pres-
ident.
- Powers vested
in Congress.
- Inmigrants,
how admitted.
- Habeas corpus.
- Attainder.
- Direct taxes.
- Regulations re-
garding cus-
toms duties.

drawn.
- Titles of nobil-
ity prohibited.
- Powers of
States defined.
3. Every order, resolution, or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect shall be approved by him, or being disapproved by him, shall be repassed by two-thirds of the Senate and the House of Representatives, according to the rules and limitations prescribed in the case of a bill.
- SECTION VIII. 1. The Congress shall have power:
To lay and collect taxes, duties, imposts, and excises, to pay the debts and provide for the common defence and general welfare of the United States; but all duties, imposts, and excises shall be uniform throughout the United States.
2. To borrow money on the credit of the United States.
3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.
4. To establish a uniform rule of naturalization and uniform laws on the subject of bankruptcies throughout the United States.
5. To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.
6. To provide for the punishment of counterfeiting the securities and current coin of the United States.
7. To establish post-offices and post-roads.
8. To promote the progress of science and useful arts by securing for limited times to Authors and Inventors the exclusive rights to their respective writings and discoveries.
9. To constitute tribunals inferior to the Supreme Court.
10. To define and punish piracies and felonies committed on the high seas, and offences against the law of nations.
11. To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.
12. To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years.
13. To provide and maintain a navy.
14. To make rules for the government and regulation of the land and naval forces.
15. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.
16. To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.
17. To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of Government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dry-docks, and other needful buildings.
18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.
- SECTION IX. 1. The migration or importation of such persons as any of the States now existing shall think proper to admit shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.
2. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.
3. No bill of attainder or ex post facto law shall be passed.
4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.
5. No tax or duty shall be laid on articles exported from any State.
6. No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another, nor shall vessels bound to or from one State be obliged to enter, clear, or pay duties in another.
7. No money shall be drawn from the Treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.
8. No title of nobility shall be granted by the United States. And no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever from any king, prince, or foreign state.
- SECTION X. 1. No State shall enter into any treaty, alliance, or confederation, grant letters of marque and reprisal, coin money, emit bills of credit, make anything but gold and silver coin a tender in payment of debts, pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.
2. No State shall, without the consent of the Congress, lay any impost or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts, aid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.
3. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

ARTICLE II.

- Executive pow-
er, in whom
vested.
- Electors.
- Proceedings of
electors.
- Proceedings of
the House of
Representatives.
- Time of choos-
ing electors.
- SECTION I. 1. The Executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:
2. Each State shall appoint, in such manner as the Legislature thereof may direct, a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be appointed an elector.
3. [The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the vote shall be taken by States, the representation from each State having one vote. A quorum, for this purpose, shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice-President.]*
4. The Congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.

* This clause is superseded by Article XII., Amendments.

Qualifications of the President. 5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States.

Provision in case of his disability. 6. In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly until the disability be removed or a President shall be elected.

Salary of the President. 7. The President shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

Oath of the President. 8. Before he enter on the execution of his office he shall take the following oath or affirmation: "I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States; and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."

Duties of the President. SECTION II. 1. The President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment.

May make treaties, appoint ambassadors, judges, etc. 2. He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of departments.

May fill vacancies by granting commissions. 3. The President shall have power to fill up all vacancies that may happen during the recess of the Senate by granting commissions, which shall expire at the end of their next session.

May make recommendations. SECTION III. He shall from time to time give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

How officers may be removed. SECTION IV. The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors.

ARTICLE III.

Judicial power, how invested. SECTION I. The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for their services a compensation which shall not be diminished during their continuance in office.

To what cases it extends. SECTION II. 1. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers, and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign States, citizens, or subjects.

Jurisdiction of the Supreme Court. 2. In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be a party, the Supreme Court shall have original jurisdiction. In all the other cases before-mentioned the Supreme Court shall have appellate jurisdiction both as to law and fact, with such exceptions and under such regulations as the Congress shall make.

Rules respecting trials. 3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the State where the said crimes shall have been committed; but when not committed within any State the trial shall be at such place or places as the Congress may by law have directed.

Treason defined. SECTION III. 1. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

How punished. 2. The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attained.

ARTICLE IV.

Rights of States and records. SECTION I. Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

Privileges of citizens. SECTION II. 1. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.

Executive requisitions. 2. A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

Laws regulating service or labor. 3. No person held to service or labor in one State, under the laws thereof, escaping into another shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

New States, how formed. SECTION III. 1. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress.

Power of Congress over territory or other property belonging to the United States. 2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

Republican government guaranteed. SECTION IV. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and, on application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic violence.

ARTICLE V.

Constitution, how amended. The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the Ninth Section of the First Article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

ARTICLE VI.

Validity of debts recognized. 1. All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution as under the Confederation.

Supreme law of the land. 2. This Constitution and the laws of the United States which shall be made in pursuance thereof and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land; and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

Oath; of whom required, and for what. 3. The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

ARTICLE VII.

Ratification of the Constitution. The ratification of the Conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

AMENDMENTS TO THE CONSTITUTION.

ARTICLE I.

Religion and free speech. Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

ARTICLE II.

Right to bear arms. A well-regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

ARTICLE III.

Soldiers in time of peace. No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war but in a manner to be prescribed by law.

ARTICLE IV.

Right of search. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

ARTICLE V.

Capital crimes and arrest therefor. No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

ARTICLE VI.

Right to speedy trial. In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defence.

ARTICLE VII.

Trial by jury. In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States than according to the rules of the common law.

ARTICLE VIII.

Excessive bail. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

ARTICLE IX.

Enumeration of rights. The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people.

ARTICLE X.

Reserved rights of States. The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

ARTICLE XI.

Judicial power. The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another State, or by citizens or subjects of any foreign State.

ARTICLE XII.

Electors in Presidential elections. The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

ARTICLE XIII.

Slavery prohibited. 1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.
2. Congress shall have power to enforce this article by appropriate legislation.

CONSTITUTION OF THE UNITED STATES—Continued.

ARTICLE XIV.

- Protection for all citizens.** 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.
- Apportionment of Representatives.** 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male members of such State, being of twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.
- Rebellion against the United States.** 3. No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or holding any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disability.
- The public debt.** 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.
5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

ARTICLE XV.

- Right of suffrage.** 1. The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.
2. The Congress shall have power to enforce the provisions of this article by appropriate legislation.

RATIFICATION OF THE CONSTITUTION.

The Constitution was ratified by the thirteen original States in the following order:

Delaware, December 7, 1787, unanimously.	South Carolina, May 23, 1788, vote 149 to 73.
Pennsylvania, December 12, 1787, vote 46 to 23.	New Hampshire, June 21, 1788, vote 57 to 46.
New Jersey, December 18, 1787, unanimously.	Virginia, June 25, 1788, vote 89 to 79.
Georgia, January 2, 1788, unanimously.	New York, July 26, 1788, vote 30 to 28.
Connecticut, January 9, 1788, vote 198 to 40.	North Carolina, November 21, 1789, vote 193 to 75.
Massachusetts, February 6, 1788, vote 187 to 168.	Rhode Island, May 29, 1790, vote 34 to 32.
Maryland, April 28, 1788, vote 63 to 12.	

RATIFICATION OF THE AMENDMENTS.

- I. to X. inclusive were declared in force December 15, 1791.
- XI. was declared in force January 8, 1795.
- XII., regulating elections, was ratified by all the States except Connecticut, Delaware, Massachusetts, and New Hampshire, which rejected it. It was declared in force September 28, 1804.
- XIII. The emancipation amendment was ratified by 31 of the 36 States; rejected by Delaware and Kentucky, not acted on by Texas; conditionally ratified by Alabama and Mississippi. Proclaimed December 18, 1865.
- XIV. Reconstruction amendment was ratified by 28 Northern States; rejected by Delaware, Kentucky, Maryland, and 10 Southern States, and not acted on by California. The 10 Southern States subsequently ratified under pressure. Proclaimed July 28, 1868.
- XV. Negro citizenship amendment was not acted on by Tennessee, rejected by California, Delaware, Kentucky, Maryland, New Jersey, and Oregon; ratified by the remaining 30 States. New York rescinded its ratification January 5, 1870. Proclaimed March 30, 1870.

The National Flag.

The official flag of the United States bears forty-six white stars in a blue field, arranged in six rows—the first, third, fourth and sixth rows having eight stars each, and the other two rows seven stars each. The garrison flag of the Army is made of bunting, thirty-six feet fly and twenty feet hoist; thirteen stripes, and in the upper quarter, next the staff, is the field or "union" of stars, equal to the number of States, on blue field, over one-third length of the flag, extending to the lower edge of the fourth red stripe from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The "American Jack" is the "union" or blue field of the flag. The Revenue Marine Service flag, authorized by act of Congress, March 2, 1799, was originally prescribed to consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field. The sixteen stripes represented the number of States which had been admitted to the Union at that time, and no change has been made since. Prior to 1871 it bore an eagle in the union of the pennant, which was then substituted by thirteen blue stars in a white field, but the eagle and stars are still retained in the flag. June 14, the anniversary of the adoption of the flag, is celebrated as Flag Day in a large part of the Union.

IN ORDER TO SHOW PROPER RESPECT FOR THE FLAG THE FOLLOWING CEREMONY SHOULD BE OBSERVED:

- It should not be hoisted before sunrise nor allowed to remain up after sunset.
- At "retreat," sunset, civilian spectators should stand at "attention" and uncover during the playing of the "Star Spangled Banner." Military spectators are required by regulation to stand at "attention" and give the military salute.
- When the National colors are passing on parade, or in review, the spectator should, if walking, halt, and if sitting, arise and stand at attention and uncover.
- When the flag is flown at half staff as a sign of mourning it should be hoisted to full staff at the conclusion of the funeral.
- In placing the flag at half staff, it should first be hoisted to the top of the staff and then lowered to position, and preliminary to lowering from half staff, it should be first raised to the top.
- On Memorial Day, May 30, the flag should fly at half staff from sunrise to noon and full staff from noon to sunset. —*Sons of the Revolution in the State of New York,*

Declaration of Independence.

IN CONGRESS JULY 4, 1776.

THE unanimous declaration of the thirteen United States of America. When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislature.

He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefits of Trial by jury:

For transporting us beyond Seas to be tried for pretended offences:

For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow-Citizens taken captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands

He has excited domestic Insurrections amongst us, and has endeavored to bring on the Inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have petitioned for Redress in the most humble terms;

DECLARATION OF INDEPENDENCE—Continued.

Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, IN GENERAL CONGRESS, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly PUBLISH and DECLARE, That these United Colonies are, and of Right ought to be FREE AND INDEPENDENT STATES; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as FREE AND INDEPENDENT STATES, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which INDEPENDENT STATES may of right do. And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, We mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.

SIGNERS OF THE DECLARATION OF INDEPENDENCE.

Washington's Farewell Address.

EXTRACTS FROM HIS ADDRESS COUNSELLING THE MAINTENANCE OF THE UNION.—CONFINEMENT OF THE GENERAL GOVERNMENT TO ITS CONSTITUTIONAL LIMITATIONS, AND AVOIDANCE OF RELATIONS WITH FOREIGN POLITICAL AFFAIRS.

(To the People of the United States on His Approaching Retirement from the Presidency.)

Here, perhaps, I ought to stop; but a solicitude for your welfare, which cannot end but with my life, and the apprehension of danger natural to that solicitude, urge me, on an occasion like the present, to offer to your solemn contemplation, and to recommend to your frequent review, some sentiments, which are the result of much reflection, of no inconsiderable observation, and which appear to me all-important to the permanency of your felicity as a people. These will be afforded to you with the more freedom, as you can only see in them the disinterested warnings of a parting friend, who can possibly have no personal motive to bias his counsel; nor can I forget, as an encouragement to it, your indulgent reception of my sentiments on a former and not dissimilar occasion.

Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or confirm the attachment.

PRESERVATION OF THE UNION.

The unity of government, which constitutes you one people, is also now dear to you. It is justly so; for it is a main pillar in the edifice of your real independence—the support of your tranquillity at home, your peace abroad, of your safety, of your prosperity, of that very liberty which you so highly prize. But as it is easy to foresee that, from different causes and from different quarters, much pains will be taken, many artifices employed, to weaken in your minds the conviction of this truth; as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed—it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness; that you should cherish a cordial, habitual and immovable attachment to it; accustoming yourselves to think and speak of it as of the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a suspicion that it can, in any event, be abandoned; and indignantly frowning upon the first dawning of every attempt to alienate any portion of our country from the rest, or to enfeeble the sacred ties which now link together the various parts.

For this you have every inducement of sympathy and interest. Citizens by birth or choice of a common country, that country has a right to concentrate your affections. The name of America, which belongs to you in your national capacity, must always exalt the just pride of patriotism, more than any appellation derived from local discriminations. With slight shades of difference, you have the same religion, manners, habits, and political principles. You have, in a common cause, fought and triumphed together; the independence and liberty you possess are the work of joint counsels and joint efforts, of common dangers, sufferings, and successes.

ENCROACHMENTS BY THE GOVERNMENT.

It is important, likewise, that the habits of thinking, in a free country, should inspire caution in those intrusted with its administration, to confine themselves within their respective constitutional spheres, avoiding, in the exercise of the powers of one department, to encroach upon another. The spirit of encroachment tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism. A just estimate of that love of power, and proneness to abuse it which predominates in the human heart, is sufficient to satisfy us of the truth of this position. The necessity of reciprocal checks in the exercise of political power, by dividing and distributing it into different depositories, and constituting each the guardian of the public weal, against invasions by the others, has been evinced by experiments, ancient and modern; some of them in our own country, and under our own eyes. To preserve them must be as necessary as to institute them. If, in the opinion of the people, the distribution or modification of the constitutional powers be, in any particular, wrong, let it be corrected by an amendment in the way which the Constitution designates. But let there be no change or usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed. The precedent must always greatly overbalance, in permanent evil, and partial or transient benefit which the use can, at any time, yield.

Observe good faith and justice toward all nations; cultivate peace and harmony with all; religion and morality enjoin this conduct; and can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened, and, at no distant period, a great nation, to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that, in the course of times and things, the fruits of such a plan would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?

ENTANGLEMENTS WITH FOREIGN POWERS.

Against the insidious wiles of foreign influence (I conjure you to believe me, fellow-citizens) the jealousy of a free people ought to be constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy to be useful, must be impartial; else it becomes the instrument of the very influence to be avoided, instead of a defence against it. Excessive partiality for one foreign nation, and excessive dislike for another, cause those whom they actuate to see danger only on one side, and serve to veil, and even second, the arts

of influence on the other. Real patriots, who may resist the intrigues of the favorite, are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people, to surrender their interests.

The great rule of conduct for us, in regard to foreign nations, is, in extending our commercial relations, to have with them as little political connection as possible. So far as we have already formed engagements, let them be fulfilled with perfect good faith. Here let us stop.

Europe has a set of primary interests, which to us have none, or a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves, by artificial ties, in the ordinary vicissitudes of her politics, or the ordinary combinations and collisions of her friendships or enmities.

Our detached and distant situation invites and enables us to pursue a different course. If we remain one people under an efficient government, the period is not far off when we may defy material injury from external annoyance; when we may take such an attitude as will cause the neutrality we may at any time resolve upon, to be scrupulously respected; when belligerent nations, under the impossibility of making acquisitions upon us, will not lightly hazard the giving us provocation; when we may choose peace or war, as our interest, guided by justice, shall counsel.

PARTING COUNSELS.

In offering to you, my countrymen these counsels of an old and affectionate friend, I dare not hope that they will make the strong and lasting impression I could wish; that they will control the usual current of the passions, or prevent our nation from running the course which hitherto has marked the destiny of nations; but if I may even flatter myself that they may be productive of some partial benefit, some occasional good; that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigues, to guard against the impostures of pretended patriotism; this hope will be full recompense for the solicitude for your welfare by which they have been dictated.

United States, September 17, 1796.

GEORGE WASHINGTON.

Lincoln's Gettysburg Speech.

(Address at the Dedication of Gettysburg Cemetery, November 19, 1863.)

Four score and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We are met to dedicate a portion of it as the final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here have consecrated it far above our power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work that they have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to the cause for which they here gave the last full measure of devotion; that we here highly resolve that the dead shall not have died in vain; that the nation shall, under God, have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth.

The Monroe Doctrine.

'The Monroe doctrine' was enunciated in the following words in President Monroe's message to Congress December 2, 1823:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power. * * *

We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

Secretary of State Olney in his despatch of July 20, 1895 on the Venezuelan Boundary Dispute, said: "It (the Monroe doctrine) does not establish any general protectorate by the United States over other American States. It does not relieve any American State from its obligations as fixed by international law, nor prevent any European power directly interested from enforcing such obligations or from inflicting merited punishment for the breach of them."

President Roosevelt in a speech in 1902 upon the results of the Spanish-American war, said: "The Monroe doctrine is simply a statement of our very firm belief that the nations now existing on this continent must be left to work out their own destinies among themselves, and that this continent is no longer to be regarded as the colonizing ground of any European power. The one power on the continent that can make the power effective is, of course, ourselves; for in the world as it is, a nation which advances a given doctrine, likely to interfere in any way with other nations, must possess the power to back it up, if it wishes the doctrine to be respected."

Acts of the Sixtieth Congress.**SECOND SESSION.**

The principal bills of a public nature which became laws during the second session of the Sixtieth Congress, beginning December 7, 1908, and ending March 4, 1909 were:

Chapter 7. An act for the relief of citizens of Italy. The act appropriated \$800,000 to enable the President to procure and distribute among the suffering and destitute people of Italy, victims of the earthquake, provisions, clothing, medicines, &c. [January 5, 1909.]

Chapter 55. An act granting a franking privilege to Frances F. Cleveland and Mary Lord Harrison. [February 1, 1909.]

Chapter 82. An act to provide for the deduction of hatchways and water-ballast space from the gross tonnage of vessels. [February 6, 1909.]

Chapter 100. An act to prohibit the importation and use of opium for other than medical purposes. [February 6, 1909.]

Chapter 131. An act to promote the administration of justice in the Navy. The act provides for navy deck courts for the trial of enlisted men. [February 16, 1909.]

Chapter 144. An act to amend the laws of the United States relating to the registration of trade marks. [February 18, 1909.]

Chapter 146. An act for the organization of the militia in the District of Columbia. [February 18, 1909.]

Chapter 160. An act to provide for an enlarged homestead. [February 18, 1909.]

Chapter 224. An act relating to the use, control and ownership of lands in the Canal Zone, Isthmus of Panama. [February 27, 1909.]

Chapter 264. An act to provide for the repair, maintenance and preservation of public works on rivers, harbors and for other purposes. [March 3, 1909.]

Chapter 265. An act to correct the records and authorize the re-enlistment of certain officers and enlisted men belonging to companies B, C and D of the Twenty-fifth United States Infantry who were discharged without honor under special orders No. 236, War Department, November 3, 1906, and the restoration to them of all rights of which they have been deprived on account thereof. [March 3, 1909.]

Chapter 1,064. An act to authorize the Secretary of Commerce and Labor to co-operate through the Bureau of Coast and Geodetic Survey and the Bureau of Fisheries with the Fish Commissioner of the State of North Carolina in making surveys of the waters of North Carolina where fishing is prohibited by law. [March 4, 1909.]

Chapter 320. An act to amend and consolidate the acts respecting copyright, [March 4, 1909.]

Chapter 321. An act to codify, revise and amend the penal laws of the United States. [March 4, 1909.]

Joint Resolution No. 3. For a special Lincoln postage stamp. [January 22, 1909.]

Joint Resolution No. 4. To enable the States of Mississippi and Louisiana to agree upon a boundary line and to determine the jurisdiction of crimes committed on the Mississippi River and adjacent territory. [January 26, 1909.]

Joint Resolution No. 5. To enable the States of Mississippi and Arkansas to agree upon a boundary line and to determine the jurisdiction of crimes committed on the Mississippi River and adjacent territory. [January 26, 1909.]

Joint Resolution No. 7. To enable the States of Tennessee and Arkansas to agree upon a boundary line and to determine the jurisdiction of crimes on the Mississippi River and adjacent territory. [February 4, 1909.]

Joint Resolution No. 19. Relating to the celebration of the one hundredth anniversary of the birth of Abraham Lincoln and making February 12, 1909, a legal holiday. [February 11, 1909.]

Joint Resolution No. 20. To authorize the Secretary of State to invite the Governments of France and Great Britain to participate in the proposed tricentenary celebration of the discovery of Lake Champlain by Samuel de Champlain. [February 27, 1909.]

Joint Resolution No. 26. To create a joint committee to consider the revision and classification of the laws of the United States. [March 4, 1909.]

Joint Resolution No. 27. Authorizing the selection of a site and the erection of a pedestal for the Alexander Hamilton memorial in Washington, D. C. [March 4, 1909.]

Joint Resolution No. 28. Concerning and relating to the treaty between the United States and Russia. [March 4, 1909.]

Joint Resolution No. 29. Authorizing the President of the United States to invite the International Congress of Applied Chemistry to hold its eighth meeting in the United States of America in the year 1912. [March 4, 1909.]

Acts of the Sixty-first Congress.**FIRST SESSION.**

The principal bills of a public nature which became laws during the first session of the Sixtieth Congress, beginning December 7, 1908, and ending March 4, 1909, were:

An act making appropriations for the Thirteenth Decennial Census. [June 29, 1909.]

An act to provide for the thirteenth and subsequent Decennial Censuses.

An act to provide revenue, equalize duties and encourage the industries of the United States. The new Tariff act. [August 5, 1909.]

An act to raise revenue for the Philippine Islands. [August 5, 1909.]

United States Customs Duties.

A TABLE OF LEADING ARTICLES IMPORTED, GIVING RATES AT ENTRY BY THE NEW TARIFF ACT OF 1909, COMPARED WITH THE DINGLEY TARIFF ACT OF 1897.

(The following table covers only the articles of principal importance imported into the United States. The Tariff Act of 1909 contains 430 paragraphs each relating to an article or a group of articles.)
(ad val.—ad valorem; n.s.p.f.—not specially provided for; n.e.—not enumerated.)

*In the entire Silk Schedule the classification was so changed in the new law as to make tabulated comparison with the classifications under the Dingley Law impracticable. In general increases were made.

SCHEDULE A—CHEMICALS, OILS AND PAINTS.		
Alcoholic compounds, n.s.p.f.	60c. lb. and 45 p.c. ad. val.	60c. lb. and 25 p.c. ad. val.
Alkalies, alkaloïds, distilled oils, essential oils and all combinations of the foregoing	25 p.c. ad val.	25 p.c. ad val.
Ammonia, carbonate of	1½c. lb.	1½c. lb.
Drugs	1¼c. lb. and 10 p.c. ad val.	1¼c. lb. and 10 p.c. ad. val.
Glue, value not above 10c. per lb.	2¼c. lb.	2¼c. lb.
Oil, castor, gals.	35c. gal.	35c. gal.
Oil, cod liver, gals.	15c. gal.	15c. gal.
Oil, olive in bottles, etc., gals.	50c. gal.	50c. gal.
Oil, whale, gals.	8c. gal.	8c. gal.
Opium, crude and not adulterated, containing 9 per cent. and over of morphia, lbs.	\$1 lb.	\$1.50 lb.
Phosphorus, lbs.	18c. lb.	18c. lb.
Perfumery, cosmetics, containing alcohol	60c. lb. and 45 p.c. ad val.	60c. lb. and 50 p.c. ad. val.
Perfumery, cosmetics, not containing alcohol	50 p.c. ad val.	50 p.c. ad val.
Soap, Castile	1¼c. lb.	1¼c. lb.
Soap, perfumed toilet	50 p.c. ad val.	50 p.c. ad val.
Soda, bicarbonate of	¾c. lb.	5-8c. lb.
SCHEDULE B—EARTHS, EARTHENWARE AND GLASSWARE.		
Cement, Roman, Portland, in barrels and sacks, lbs.	8c. 100 lbs.	8c. 100 lbs.
Earthenware, porcelain, decorated	60 p.c. ad val.	60 p.c. ad val.
Earthenware, common	25 p.c. ad val.	25 p.c. ad val.
Glassware, plain and cut, decorated	60 p.c. ad val.	60 p.c. ad val.
Glassware, plain and cut, undecorated	55 p.c. ad val.	55 p.c. ad val.
Marble, in block	65c. cubic foot.	65c. cubic foot.
Marble, manufactures of, except for jewelry	50 p.c. ad val.	50 p.c. ad val.
Sponges	20 p.c. ad val.	20 p.c. ad val.
Sulphur, refined	\$8 ton.	\$4 ton.
Sumac, ground	3-10c. lb.	3-10c. lb.
SCHEDULE C—METALS AND MANUFACTURES OF.		
Iron ore, tons	40c. ton.	15c. ton.
Iron in pigs, wrought and cast, tons	\$4 ton.	\$1 ton.
Iron, bar	6-10c. lb.	6-10c. lb.
Automobiles and finished parts not including tires	45 p.c. ad val.	45 p.c. ad val.
Cast iron pipe, lbs.	4 1-10c. lb.	¼c. lb.
Nails, horseshoe	2¼c. lb.	1½c. lb.
Copper plates, lbs.	2¼c. lb.	2¼c. lb.
Pens, metallic, except gold pens	12c. gross.	12c. gross.
Table and kitchen utensils, metal	40 p.c. ad val.	40 p.c. ad val.
Tin plates	1¼c. lb.	1 2-10c. lb.
Pins, not jewelry	35 p.c. ad val.	35 p.c. ad val.
Iron, manufactures of	45 p.c. ad val.	45 p.c. ad val.
SCHEDULE D—WOOD AND MANUFACTURES OF.		
Timber	1c. cubic foot.	¼c. cubic foot.
Lumber, boards, planks, not planed	\$1 per 1,000 feet.	50c. per 1,000 feet.
Lumber, finished on four sides	\$4 per 1,000 feet.	\$2.75 per 1,000 ft.
Staves	10 p.c. ad val.	10 p.c. ad val.
Shingles	30c. per 1,000.	50c. per 1,000.
Wood, manufactures of, n.s.p.f.	35 p.c. ad val.	35 p.c. ad val.
SCHEDULE E—SUGAR, MOLASSES AND MANUFACTURES OF.		
Sugar (not above No. 16 Dutch standard) beet	95c. lb. to 1.68, 5c. lb.	95c. lb. to \$1.68, 5c. lb.
Sugar (same) cane	95c. lb. to 1.75, 5c. lb.	95c. lb. to \$1.75, 5c. lb.
Molasses, not above 40 degrees	20 p.c. ad val.	20 p.c. ad val.
Maple sugar	4c. lb.	4c. lb.
Glucose or grape sugar	1¼c. lb.	1¼c. lb.
Sugar candy, valued at more than 15 cents per pound	50c. ad val.	50c. ad val.
SCHEDULE F—TOBACCO AND MANUFACTURES OF.		
Tobacco, unmanufactured, lbs.	\$1.85 lb. to \$2.50 lb.	\$1.85 lb. to \$2.50 lb.
Snuff, lbs.	55c. lb.	55c. lb.
Cigars and cigarettes	\$4.50 lb. and 25 p.c. ad val.	\$4.50 lb. and 25 p.c. ad val.

†See note following Free List.

THE FREE LIST.

The following is a list of the principal articles imported, which are put on the Free List by the Tariff of 1909. There are 236 articles in the list:

Aconite, agates, unmanufactured; albumen, n.s.p.f.; amber and ambergris, ammonia, sulphate of arsenic, aniline salts, animals for breeding, exhibition or racing purposes; articles of growth or manufacture of the U. S. returned; barks, quinine; beeswax; birds, land and water fowl; bismuth; books, maps, music, engravings, bound or unbound, and charts, printed more than twenty years at the date of importation, and publications issued for subscribers or exchanges by scientific and literary associations or academies, or publications for gratuitous private circulation, and public documents of foreign governments; books and pamphlets in raised print, used exclusively by the blind; books, maps, music, specially imported, not more than two copies in any one invoice, for the use of any society or institution solely for religious, philosophical, educational, scientific or literary purposes; books, libraries, furniture, and similar household effects of persons or families from foreign countries, used abroad by them not less than one year; bristles, crude; bullion, gold and silver; camphor, crude; chalk, crude; coal, anthracite; coal tar, crude; cocoa, coffee; coins, copper ore; cotton and cotton waste. Diamonds and other precious stones, rough or uncut, and not advanced in condition or value from their natural state by cleaving, splitting, cutting, or other process, including glaziers' and engravers' diamonds not set. Drugs, crude, n.s.p.f.; fans, common palm leaf, not ornamented; fish, fresh, frozen, or packed in ice, caught in fresh waters by citizens of the United States, and all other fish, the products of American fisheries; furs, undressed; glass, enamel, white, for watch and clock cases; guano, manures; hides (see note); ice; India rubber, crude; indigo; iodine, crude; iridium; ivory tusks; kyanite or cyanite; leeches; life boats and life saving apparatus; lithographic stones, not engraved; manuscripts; medals of gold, silver, or copper, and other metallic articles accepted as honorary distinctions; meerschaum, unmanufactured; minerals, crude, n.s.p.f.; models of inventions; needles, hand, sewing and darning, newspapers and periodicals; nuts, Brazil nuts, cream nuts, coconuts in the shell and broken coconut meat or copra, not prepared; nux vomica; oakum; oil cake; oils, almond, amber, crude and rectified ambergris; anise or anise seed, aniline, only for manure, bergamot, caraway, cassia, cinnamon, chamomile, citronella or lemon grass, civet, coconut, (not refined and deodorized), cottonseed, croton, fennel, fenchylol, jasmine, juniper, lavender; lemon, limes, mace; naroll or orange flower; liquid and solid primal flower essences not compounded; nut oil or oil of nuts, olive oil prepared solely for mechanical or industrial purposes by denaturing or process rendering it unfit for any edible use, attar of roses, palm, rosemary, thyme, red or white valerian; and also spermaceti, whale, and other fish oils of American fisheries, and all fish and other products of such fisheries; petroleum, crude or refined, including kerosene, benzine, gasoline, naphtha, and similar oils produced from petroleum.

Ores of gold, silver and nickel; paper stock, crude, of every description; paraffin, parchment and vellum. Personal effects, not merchandise, of citizens of the United States dying in foreign countries. Philosophical and scientific apparatus, specially imported for religious, philosophical, educational scientific, or literary purposes. Phosphates, crude; platinum, unmanufactured; potash, crude. Professional books, implements, instruments, and tools of trade, occupation, or employment, in the actual possession at the time of arrival, of persons emigrating to the United States. Quinia, sulphate of and salts of cinchona bark; radium; statuary and casts for art and educational purposes only; sausages, bologna. Seeds, anise, canary, caraway, cauliflower, cotton, cummin, fennel, hemp, hoarhound, mangelwurzel, mustard, rape, sugar beet, sorghum or sugar cane for seed; bulbs and bulbous roots, not edible and n.s.p.f. Shrimps and other shellfish; silk, raw; silk cocoons and silkworm eggs; skeletons and other preparations for anatomy; spices, when unground; ginger root, unground and not preserved or candied; stamps, foreign postage; stone and sand, n.s.p.f.; sulphur, lac or precipitated; sulphuric acid; tapioca, cassava; tar and pitch; wood; tea; teeth, natural. Tin ore, and tin in bars, blocks, pigs, or grain or granulated. Provided, all but tin ore shall pay 4c. lb. when mines of United States produce 1,500 tons of cassiterite and tin per year. Tobacco stems; turpentine, spirits of; turtles; vaccine virus; wax, vegetable or mineral; wearing apparel, articles of personal adornment, toilet articles, and similar personal effects of persons arriving in the United States not exceeding \$100 in value. Wood, logs and round unmanufactured timber including pulp woods, n.s.p.f.; woods, in the log, rough or hewn only; works of art, and science, brought by professional artists or scientists arriving from abroad, temporarily for exhibition or imported in good faith for exhibition and not intended for sale; works of art productions of American artists residing temporarily abroad or other works of art imported expressly for public institutions; works of art, which are proved to the satisfaction of the Secretary of the Treasury to have been in existence more than twenty years prior to the date of their importation; other works of art, (except rugs and carpets), which shall have been produced more than one hundred years prior to the date of importation.

NOTE—After the Tariff Law of 1909 was passed, but before it was signed by the President, the following concurrent resolution regarding hides was adopted:

Hides of cattle, raw or uncured, whether dry, salted, or pickled, shall be admitted free of duty; provided, that on and after Oct. 1, 1909, grain, buff, or split leather shall pay a duty of 7½ per cent. ad valorem; that all boots and shoes made wholly or in chief value from cattle hides and cattle skins of whatever weight, of cattle of the bovine species, including calf skins, shall pay a duty of 10 per cent. ad valorem; that harness, saddles, and saddlery, in sets or in parts, finished or unfinished, composed wholly or in chief value of leather, shall pay a duty of 20 per cent. ad valorem.

Corporation Tax Law**OF THE UNITED STATES.**

(Being Section 38 of the Tariff Law of 1909.)

Section 38. That every corporation, joint stock company or association, organized for profit and having a capital stock represented by shares, and every insurance company, now or hereafter organized under the laws of the United States or of any State or Territory of the United States or under the Acts of Congress applicable to Alaska or the District of Columbia, or now or hereafter organized under the laws of any foreign country and engaged in business in any State or Territory of the United States or Alaska or in the District of Columbia, shall be subject to pay annually a special excise tax with respect to the carrying on or doing business by such corporation, joint stock company or association, or insurance company, equivalent to one per centum upon the entire net income over and above five thousand dollars received by it from all sources during such year, exclusive of amounts received by it as dividends upon stock of other corporations, joint stock companies or associations or insurance companies, subject to the tax hereby imposed; or if organized under the laws of any foreign country, upon the amount of net income over and above five thousand dollars received by it from business transacted and capital invested within the United States and its Territories, Alaska, and the District of Columbia during such year, exclusive of amounts so received by it as dividends upon stock of other corporations, joint stock companies or associations, or insurance companies, subject to the tax hereby imposed: *Provided, however,* That nothing in this section contained shall apply to labor, agricultural or horticultural organizations, or to fraternal beneficiary societies, orders, or associations operating under the lodge system, and providing for the payment of life, sick, accident, and other benefits to the members of such societies, orders, or associations, and dependents of such members, nor to domestic building and loan associations, organized and operated exclusively for the mutual benefit of their members, nor to any corporation or association organized and operated exclusively for religious, charitable, or educational purposes, no part of the net income of which inures to the benefit of any private stockholder or individual.

Second. Such net income shall be ascertained by deducting from the gross amount of the income of such corporation, joint stock company or association, or insurance company, received within the year from all sources; (first), all the ordinary and necessary expenses actually paid within the year out of income in the maintenance and operation of its business and properties, including all charges such as rentals or franchise payments, required to be made as a condition to the continued use or possession of property; (second), all losses actually sustained within the year and not compensated by insurance or otherwise, including a reasonable allowance for depreciation of property, if any, and in the case of insurance companies the sums other than dividends, paid within the year on policy and annuity contracts and the net addition, if any, required by law to be made within the year to reserve funds; (third), interest actually paid within the year on its bonded or other indebtedness to an amount of such bonded and other indebtedness not exceeding the paid-up capital stock of such corporation, joint stock company or association, or insurance company, outstanding at the close of the year, and in the case of a bank, banking association or trust company, all interest actually paid by it within the year on deposits; (fourth), all sums paid by it within the year for taxes imposed under the authority of the United States or of any State or Territory thereof, or imposed by the government of any foreign country as a condition to carrying on business therein; (fifth), all amounts received by it within the year as dividends upon stock of other corporations, joint stock companies or associations, or insurance companies, subject to the tax hereby imposed: *Provided,* That in the case of a corporation, joint stock company or association, or insurance company, organized under the laws of a foreign country, such net income shall be ascertained by deducting from the gross amount of its income received within the year from business transacted and capital invested within the United States and any of its Territories, Alaska, and the District of Columbia; (first), all the ordinary and necessary expenses actually paid within the year out of earnings in the maintenance and operation of its business and property within the United States and its Territories, Alaska, and the District of Columbia, including all charges such as rentals or franchise payments required to be made as a condition to the continued use or possession of property; (second), all losses actually sustained within the year in business conducted by it within the United States or its Territories, Alaska, or the District of Columbia not compensated by insurance or otherwise, including a reasonable allowance for depreciation of property, if any, and in the case of insurance companies the sums other

CORPORATION TAX LAW.—Continued.

than dividends, paid within the year on policy and annuity contracts and the net addition, if any, required by law to be made within the year to reserve funds; (third), interest actually paid within the year on its bonded or other indebtedness to an amount of such bonded and other indebtedness, not exceeding the proportion of its paid-up capital stock outstanding at the close of the year which the gross amount of its income for the year from business transacted and capital invested within the United States and any of its Territories, Alaska and the District of Columbia bears to the gross amount of its income derived from all sources within and without the United States; (fourth), the sums paid by it within the year for taxes imposed under the authority of the United States or of any State or Territory thereof; (fifth), all amounts received by it within the year as dividends upon stock of other corporations, joint stock companies or associations, and insurance companies, subject to the tax hereby imposed. In the case of assessment insurance companies the actual deposit of sums with State or Territorial officers, pursuant to law, as additions to guaranty or reserve funds shall be treated as being payments required by law to reserve funds.

Third. There shall be deducted from the amount of the net income of each of such corporations, joint stock companies or associations, or insurance companies, ascertained as provided in the foregoing paragraphs of this section, the sum of five thousand dollars, and said tax shall be computed upon the remainder of said net income of such corporation, joint stock company or association, or insurance company, for the year ending December thirty-first, nineteen hundred and nine, and for each calendar year thereafter; and on or before the first day of March, nineteen hundred and ten, and the first day of March in each year thereafter, a true and accurate return under oath or affirmation of its president, vice-president, or other principal officer, and its treasurer or assistant treasurer, shall be made by each of the corporations, joint stock companies or associations, and insurance companies, subject to the tax imposed by this section, to the collector of internal revenue for the district in which such corporation, joint stock company or association, or insurance company, has its principal place of business, or, in the case of a corporation, joint stock company or association or insurance company, organized under the laws of a foreign country, in the place where its principal business is carried on within the United States, in such form as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe, setting forth: (first), the total amount of the paid-up capital stock of such corporation, joint stock company or association, or insurance company, outstanding at the close of the year; (second), the total amount of the bonded and other indebtedness of such corporation, joint stock company or association, or insurance company at the close of the year; (third), the gross amount of the income of such corporation, joint stock company or association, or insurance company, received during such year from all sources, and if organized under the laws of a foreign country the gross amount of its income received within the year from business transacted and capital invested within the United States and any of its Territories, Alaska, and the District of Columbia; also the amount received by such corporation, joint stock company or association, or insurance company, within the year by way of dividends upon stock of other corporations, joint stock companies or associations, or insurance companies, subject to the tax imposed by this section; (fourth), the total amount of all the ordinary and necessary expenses actually paid out of earnings in the maintenance and operation of the business and properties of such corporation, joint stock company or association, or insurance company, within the year, stating separately all charges such as rentals or franchise payments required to be made as a condition to the continued use or possession of property, and if organized under the laws of a foreign country the amount so paid in the maintenance and operation of its business within the United States and its Territories, Alaska, and the District of Columbia; (fifth), the total amount of all losses actually sustained during the year and not compensated by insurance or otherwise, stating separately any amounts allowed for depreciation of property, and in the case of insurance companies the sums other than dividends, paid within the year on policy and annuity contracts and the net addition, if any, required by law to be made within the year to reserve funds; (sixth), the amount of interest actually paid within the year on its bonded or other indebtedness to an amount of such bonded and other indebtedness not exceeding the paid-up capital stock of such corporation, joint stock company or association, or insurance company, outstanding at the close of the year, and in the case of a bank, banking association or trust company, stating separately all interest paid by it within the year on deposits; or in case of a corporation, joint stock company or association, or insurance company, organized under the laws of a foreign country, interest so paid on its bonded or other indebtedness to an amount of such bonded and other indebtedness not exceeding the proportion of its paid-up capital stock outstanding at the close of the year, which the gross amount of its income for the year from business transacted and capital invested within the United States and any of its Territories, Alaska, and the District of Columbia bears to the gross amount of its income derived from all sources within and without the United States; (seventh), the amount paid by it within the year for taxes imposed under the authority

CORPORATION TAX LAW.—Continued.

of the United States or any State or Territory thereof, and separately the amount so paid by it for taxes imposed by the government of any foreign country as a condition to carrying on business therein; (eighth), the net income of such corporation, joint stock company or association, or insurance company, after making the deductions in this section authorized. All such returns shall as received be transmitted forthwith by the collector to the Commissioner of Internal Revenue.

Fourth. Whenever evidence shall be produced before the Commissioner of Internal Revenue which in the opinion of the commissioner justifies the belief that the return made by any corporation, joint stock company or association, or insurance company, is incorrect, or whenever any collector shall report to the Commissioner of Internal Revenue that any corporation, joint stock company or association, or insurance company, has failed to make a return as required by law, the Commissioner of Internal Revenue may require from the corporation, joint stock company or association, or insurance company making such return, such further information with reference to its capital, income, losses, and expenditures as he may deem expedient; and the Commissioner of Internal Revenue, for the purpose of ascertaining the correctness of such return or for the purpose of making a return where none has been made, is hereby authorized, by any regular appointed revenue agent specially designated by him for that purpose, to examine any books and papers bearing upon the matters required to be included in the return of such corporation, joint stock company or association, or insurance company, and to require the attendance of any officer or employee of such corporation, joint stock company or association, or insurance company, and to take his testimony with reference to the matter required by law to be included in such return, with power to administer oaths to such person or persons; and the Commissioner of Internal Revenue may also invoke the aid of any court of the United States having jurisdiction to require the attendance of such officers or employees and the production of such books and papers. Upon the information so acquired the Commissioner of Internal Revenue may amend any return or make a return where none has been made. All proceedings taken by the Commissioner of Internal Revenue under the provisions of this section shall be subject to the approval of the Secretary of the Treasury.

Fifth. All returns shall be retained by the Commissioner of Internal Revenue, who shall make assessments thereon; and in case of any return made with false or fraudulent intent, he shall add one hundred per centum of such tax, and in case of a refusal or neglect to make a return or to verify the same as aforesaid he shall add fifty per centum of such tax. In case of neglect occasioned by the sickness or absence of an officer of such corporation, joint stock company or association, or insurance company, required to make said return, or for other sufficient reason, the collector may allow such further time for making and delivering such return as he may deem necessary, not exceeding thirty days. The amount so added to the tax shall be collected at the same time and in the same manner as the tax originally assessed unless the refusal, neglect or falsity is discovered after the date for payment of said taxes, in which case the amount so added shall be paid by the delinquent corporation, joint stock company or association, or insurance company, immediately upon notice given by the collector. All assessments shall be made and the several corporations, joint stock companies or associations, or insurance companies, shall be notified of the amount for which they are respectively liable on or before the first day of June of each successive year, and said assessments shall be paid on or before the thirtieth day of June, except in cases of refusal or neglect to make such return, and in cases of false or fraudulent returns, in which cases the Commissioner of Internal Revenue shall, upon the discovery thereof, at any time within three years after said return is due, make a return upon information obtained as above provided for, and the assessment made by the Commissioner of Internal Revenue thereon shall be paid by such corporation, joint stock company or association, or insurance company immediately upon notification of the amount of such assessment; and to any sum or sums due and unpaid after the thirtieth day of June in any year, and for ten days after notice and demand thereof by the collector, there shall be added the sum of five per centum on the amount of tax unpaid and interest at the rate of one per centum per month upon said tax from the time the same becomes due.

Sixth. When the assessment shall be made, as provided in this section, the returns, together with any corrections thereof which may have been made by the commissioner, shall be filed in the office of the Commissioner of Internal Revenue and shall constitute public records and be open to inspection as such.

Seventh. It shall be unlawful for any collector, deputy collector, agent, clerk, or other officer or employee of the United States to divulge or make known in any manner whatever not provided by law to any person information obtained by him in the discharge of his official duty, or to divulge or make known in any manner not provided by law any document received, evidence taken, or report made under this section except upon the special direction of the President; and any offence against the foregoing provision shall be a misdemeanor and be punished by a fine not exceeding one thousand dollars, or by imprisonment not exceeding one year, or both, at the discretion of the court.

Eighth. If any of the corporations, joint stock companies or associations, or insurance companies, aforesaid, shall refuse or neglect to make a return at the time or times hereinbefore specified in each year, or shall render a false or fraudulent return, such corporation, joint stock company or association, or insurance company, shall be liable to a penalty of not less than one thousand dollars and not exceeding ten thousand dollars.

Any person authorized by law to make, render, sign, or verify any return who makes any false or fraudulent return, or statement, with intent to defeat or evade the assessment required by this section to be made, shall be guilty of a misdemeanor, and shall be fined not exceeding one thousand dollars or be imprisoned not exceeding one year, or both, at the discretion of the court, with the costs of prosecution.

All laws relating to the collection, remission, and refund of internal-revenue taxes, so far as applicable to and not consistent with the provisions of this section, are hereby extended and made applicable to the tax imposed by this section.

Jurisdiction is hereby conferred upon the circuit and district courts of the United States for the district within which any person summoned under this section to appear to testify or to produce books, as aforesaid, shall reside, to compel such attendance, production of books, and testimony by appropriate process.

Custom House Examination of Baggage.

The following "Notice to Passengers" was issued by the Treasury Department August 13, 1909, and is still in force.

The customs laws and regulations require an examination of all the baggage and effects of passengers upon arrival in the United States from foreign countries. Before such examination can take place passengers are required by law to state what articles they are bringing with them that were obtained abroad. This information must be given upon forms provided for that purpose, which are entitled "Baggage Declaration and Entry." Passengers should observe that there are two forms of declaration, one for residents and the other for non-residents. These forms will be distributed to passengers during the early part of the voyage by an officer of the ship. When a passenger has prepared and signed the declaration, the coupon at the bottom of the form should be detached and the form should be given to the officer of the ship designated to receive the same. Declarations spoiled in the preparation should not be destroyed by the passenger, but should be turned over to the purser, who will furnish a new blank to the passenger. After all the baggage and effects of the passenger are landed upon the pier, the coupon which has been retained by the passenger should be presented at the Inspectors' desk, whereupon an Inspector will be detailed to examine the baggage. Passengers must acknowledge in person, on the pier, their signatures to their declarations.

CLASSIFICATION OF PASSENGERS.

For the purpose of administration, passengers are divided into two classes, viz:

No. 1. Non-residents of the United States.

No. 2. Residents of the United States.

The division of passengers into non-residents and residents in no wise affects citizenship. Non-residents are:

(a) Actual residents of other countries.

(b) Persons who have been abroad continuously for two years or more who elect to declare as non-residents.

Residents are all persons who have been residents of the United States and who have been abroad less than two years.

WEARING APPAREL.

Residents of the United States must declare all wearing apparel, jewelry, and other articles, whether used or unused, on their persons, or in their baggage, which have been obtained abroad by purchase or otherwise, with the foreign cost or value of same. They shall state, as well, all wearing apparel, jewelry, or other articles taken out of the United States, which have been remodelled or improved while abroad so as to increase their value, the said statement to include the cost of such improvement. If the articles so declared are for other use, or to be used in business or for sale, these facts should be stated in the declaration.

Residents of the United States are allowed one hundred dollars' worth of articles at their present foreign value, free of duty, provided they are not for sale or to be used in business, and are properly declared. In the case of minors, the exemption of one hundred dollars' worth of articles obtained abroad is restricted to such articles as are for the bona fide use of such minor.

Use does not exempt from duty wearing apparel or other articles obtained abroad, but due allowance will be made by appraising officers for wear or depreciation.

Residents of the United States may bring with them free of duty all wearing apparel and other personal effects taken by them out of the United States which have not been remodelled or improved abroad so as to increase their value.

Residents of the United States must not deduct the one hundred dollars exemption from the value of their wearing apparel or other articles obtained abroad by purchase or otherwise. Such deduction will be made by customs officers on the pier.

Non-residents of the United States are entitled to bring in free of duty only such articles as are in the nature of wearing apparel, articles of personal adornment, toilet articles, and similar personal effects actually accompanying the passenger and necessary and appropriate for his or her wear and use for the purposes of the journey and present comfort and convenience, and are not intended for other persons nor for sale.

CIGARS.

All cigars and cigarettes must be declared, and are not included within the one hundred dollars exemption.

Each passenger is entitled to bring in free of duty and internal revenue tax 50 cigars or 300 cigarettes.

DESCRIPTION OF ARTICLES.

The senior member of a family, if a passenger, may make entry for the entire family.

Ladies travelling alone should state the fact in their declarations and entries in order that an expeditious examination of their baggage may be made.

The exact number of pieces of baggage, including all trunks, valises, boxes, packages, and hand bags of all descriptions accompanying the passenger must be stated in the declaration.

Whenever practicable passengers should present the original receipted bills of foreign purchases.

DISSATISFACTION AND RE-EXAMINATION.

Passengers dissatisfied with values placed upon dutiable articles by the customs officers on the pier may demand a re-examination, but application therefor should be immediately made to the officers there in charge. If for any reason this course is impracticable, the packages containing the articles should be left in customs custody and application for re-appraisal made to the collector of customs, in writing, within two days after the original appraisement. No request for re-appraisal can be entertained after the articles have been removed from customs custody.

Upon application to the customs officer in charge on the pier, baggage intended for delivery at ports in the United States other than the port of arrival, or in transit through the United States to a foreign country, may be forwarded thereto without the assessment of duty at the port of arrival, by the various railroads and express companies, whose representatives will be found on the pier. Passengers desiring to have their baggage for-

warded in bond should indicate such intention and state the value thereof in their declaration before any examination of the laggage has been made.

PAYMENT OF DUTIES ON BAGGAGE.

Government officers are forbidden by law to accept anything but currency in payment of duties, but if requested, will retain baggage on the piers for twenty-four hours to enable the owner to secure the currency.

GRATUITIES TO OFFICERS FORBIDDEN.

Passengers are advised that to offer or give gratuities or bribes to customs officers is a violation of law, and customs officers who accept gratuities or bribes will be dismissed from the service.

Any discourtesy or incivility on the part of customs officers should be reported to the collector at the Custom-House, the deputy collector or the deputy surveyor at the pier, or to the Secretary of the Treasury.

HOUSEHOLD EFFECTS.

Household effects of persons or families from foreign countries will be admitted free of duty if actually used abroad by them not less than one year, and not intended for any other person nor for sale.

Articles intended for other persons, for use in business, and household effects, must be so declared.

In order to secure prompt identification and thereby facilitate the passage through the customs upon return of valuable personal and household effects taken abroad by persons leaving the United States, the articles may be registered with the collector at the port of departure or the port at which the journey commences.

An act of Congress of 1897 expressly forbids the importation into the United States of garments made in whole or in part of the skins of seals taken in the waters of the North-Pacific Ocean, and unless the owner is able to establish by competent evidence and to the satisfaction of the collector that the garments are not prohibited they cannot be entered.

Montana.....	8	Any rate.	10(b)	8	5										

* Under seal, 10 years. † If made in State; if outside, 2 years. ‡ Unless a different rate is expressly stipulated. § Under seal, 20 years. ¶ Store accounts; other accounts 3 years; accounts between merchants 5 years. †† New York has by a recent law legalized any rate of interest on call loans of \$5,000 or upward, on collateral security. ‡‡ Becomes dormant, but may be revived. §§ Six years from last item. (a) Accounts between merchants 2 years. (b) In courts not of record 5 years. (c) Witnessed 20 years. (d) Twenty years in Courts of Record; in Justice's Court 10 years. (e) Negotiable notes 6 years, non-negotiable 17 years. (f) Ceases to be a lien after that period. (h) On foreign judgments 1 year. (i) Is a lien on real estate for only 10 years. (j) And indefinitely by having execution issue every 5 years. (l) Ten years foreign, 20 years domestic. (m) Not of record 6 years. (n) No limit. (p) Foreign. Domestic 6 years.

Penalties for usury differ in the various States. California, Colorado, Maine, Massachusetts (except on loans of less than \$1,000), Montana, Nevada and Wyoming have no provisions on the subject.

Loss of principal and interest is the penalty in Arkansas and New York. Loss of principal in Delaware and Oregon. Loss of interest in Alabama, Alaska, District of Columbia, Florida, Idaho, Illinois, Iowa, Louisiana, Michigan, Minnesota, Mississippi, Nebraska, New Jersey, North Carolina (double amount if paid), North Dakota (double amount if paid), Oklahoma, South Carolina, South Dakota, Texas, Virginia, Washington (double amount if paid), Wisconsin, and Hawaii. Loss of excess of interest in Connecticut, Georgia, Indiana, Kansas, Kentucky, Maryland, Missouri, New Hampshire (three times), New Mexico, Ohio, Pennsylvania, Tennessee, Vermont, and West Virginia. Loss of principal and interest in Rhode Island, also fine or imprisonment.

(Revised December, 1909, at the New York Post-Office, for THE WORLD ALMANAC.)

DOMESTIC RATES OF POSTAGE.

ALL mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations. (Domestic rates apply to Canada, Mexico, Cuba, Tutuila, Porto Rico, Guam, Hawaii, the Philippines, the "Canal Zone," the Republic of Panama, and Shanghai, China.)

First-Class Matter—This class includes letters, postal cards, "post cards," and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, its possessions, or the above-named countries, *two cents per ounce or fraction thereof*.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, and the addressee cannot be served by rural free delivery carriers, one cent per ounce or fraction thereof.

Rates on **postal cards**, one cent (double or "reply" cards, two cents). Postal cards issued by the Post-Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized will subject the card, when sent in the mails, to postage according to the character of the message—at the letter rate if wholly or partly in writing or the third-class rate if entirely in print. In either case the postage value of the stamp impressed upon the card will not be impaired.

3. Postal cards must be treated in all respects as sealed letters, except that when undeliverable to the addressee they may not be returned to the sender.

4. Postal cards bearing particles of glass, metal, mica, sand, tinsel or other similar substances, are unmailable, except when inclosed in tightly sealed envelopes with proper postage attached, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Cards that have been spoiled in printing or otherwise will be redeemed from the original purchasers at 75 per cent. of their face value if unmailed.

POST CARDS—(Private Mailing Cards)—bearing written or printed messages are transmissible in the mails:

Private mailing cards ("post cards") in the domestic mails must conform to the following conditions:

(a) A "post card" must be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches, nor less than approximately 2 3/4 by 4 inches.

(b) It must in form and in the quality and weight of paper be substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "post card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. Cards, without cover, conforming to the foregoing conditions are transmissible in the domestic mails (including the possessions of the United States) and to Cuba, Canada, Mexico, the Republic of Panama, and Shanghai, China, at the postage rate of 1 cent each.

3. When post cards are prepared by printers and stationers for sale, it is desirable that they bear in the upper right hand corner of the face an oblong diagram containing the words "Place postage stamp here," and at the bottom of the space to the right of the vertical dividing line, the words "This space for the address."

4. Cards which do not conform to the conditions prescribed by these regulations are, when sent in the mails, chargeable with postage according to the character of the message—at the letter rate, if wholly or partly in writing, or at the third-class rate, if entirely in print.

5. Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, are unmailable, except when inclosed in tightly sealed envelopes, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Rates on special delivery letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at post-offices, and must be affixed to such letters. Ordinary stamps to the value of ten cents affixed to a letter or other piece of mail will entitle it to special delivery if it is marked "Special Delivery." The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post-office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more, they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a post-office, the addressee will be notified to remit postage; and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rate is charged on typewriting and carbon or letter press copies thereof, and on all printed imitations or reproductions of typewriting or manuscript obtained by mechanical process unless such reproductions are presented at post-office windows in the minimum number of twenty identical copies separately addressed.

Letters and other matter prepaid at the letter rate—two cents an ounce or fraction thereof—(but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope or wrapper. The limit of weight is four pounds, except for a single book.

POSTAL INFORMATION—Continued.

Prepaid letters will be forwarded from one post-office to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed. Nothing may be added to such letters except the forwarding address without subjecting them to new postage.

Second-Class Matter—This class includes all newspapers and periodicals exclusively in print that have been "Entered as second-class matter," and are regularly issued at stated intervals as frequently as four times a year, from a known office of publication and mailed by the publishers or news-agents to actual subscribers or as sample copies or to news agents for sale, and newspapers and publications of this class mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, organized under the lodge system and having a membership of a thousand persons, and the publications of strictly professional, literary, historical, and scientific societies, and incorporated institutions of learning, trade unions, etc., provided only that these be published at stated intervals not less than four times a year, and that they be printed on and be bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations, societies, and institutions represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, *one cent a pound or fractional part thereof*, prepaid in currency. Publications designed primarily for advertising or free circulation, or circulation at a nominal rate, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay the third-class rate.

Publications sent to actual subscribers in the county where published are free, unless mailed for delivery at a letter-carrier office.

Rates of postage on second-class newspapers, magazines, or periodicals, mailed by others than the publishers or news agents, *one cent for each four ounces or fraction thereof*. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. This rate applies only when a complete copy is mailed. Parts of second-class publications or partial or incomplete copies are *third-class matter*. Second-class matter will be entitled to special delivery when special delivery stamps (or ten cents in ordinary stamps and the words "Special Delivery" placed on the wrapper) are affixed in addition to the regular postage.

Second-class matter must be so wrapped that it may be easily examined. The sender's name and address may be written in them or on the wrapper, also the words "sample copy" when sent as such, or "marked copy" when it contains a marked item or article. Typographical errors in the text may be corrected, but any other writing subjects the matter to letter postage.

Third-Class Matter—Mail matter of the third class includes printed books, pamphlets, engravings, circulars in print (or by the hectograph, electric-pen, or similar process when at least twenty identical copies, separately addressed, are mailed at post-office windows at one time), and other matter wholly in print, proof sheets, corrected proof sheets, and manuscript copy accompanying the same.

The rate on matter of this class is *one cent for each two ounces or fraction thereof* payable by stamps affixed, unless 2,000 or more identical pieces are mailed under special permit when the postage at that rate may be paid in money.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be despatched. New postage must be prepaid for forwarding to a new address or returning to sender.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery when special delivery stamps are affixed in addition to the regular postage, or when ten cents in ordinary stamps are affixed in addition to the regular postage and the words "Special Delivery" are placed on the wrapper.

Upon matter of the third class, or upon the wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation, and residence or business address, preceded by the word "from," and may make marks other than by written words to call attention to any word or passage in the text, and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

Fourth-Class Matter—Fourth-class matter is all mailable matter not included in the three preceding classes which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, *one cent for each ounce or fraction thereof* (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is *one cent for each two ounces or fraction thereof*). This matter must be fully prepaid, or it will not be despatched. Postage must be paid by stamps affixed, unless 2,000 or more identical pieces are mailed at one time when the postage at that rate may be paid in stamps or money. New postage must be prepaid for forwarding or returning. The affixing of special delivery ten-cent stamps in addition to the regular postage entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live or dead animals, insects, fruits or vegetable matter liable to decomposition, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent when it is apparent that they are harmless.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous, or malt, cocaine or derivatives thereof, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine), may be admitted to the mails for transportation within the United States. Samples of altar or communion wine are mailable. When in glass bottles, such bottles must be very strong and must be inclosed in a metal, wooden or papier-mache block or tube, and there must be provided between the bottle and the block or tube a cushion of cotton, felt or other absorbent. The block or tube must be of sufficient strength to resist rough handling and support the weight of the mails piled in bags. If of wood, it

POSTAL INFORMATION—Continued.

must be at least three-sixteenths of an inch thick in the thinnest part; if of papier-mache it must be at least five-thirty seconds of an inch thick for bottles holding from two to four ounces, and at least one-eighth of an inch thick for bottles holding two ounces or less. The block or tube must be rendered water-tight by an application of paraffin or other suitable substance, so that if the bottle be broken in transit the liquid will not escape or the tube become softened and allow the broken glass to be scattered in the mails. When inclosed in a tin cylinder, metal case, or tube, such cylinder, case, or tube should have a lid or cover so secured as to make the case or tube water tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. Manufacturers or dealers intending to transmit articles or samples in considerable quantities should submit a sample package, showing their mode of packing, to the postmaster at the mailing office, who will see that the conditions of this section are carefully observed. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids and single books), four pounds. The name and address of the sender, preceded by the word "from," also any marks, numbers, names, or letters for the purpose of description, such as prices, quantity, etc., may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to notify the sender in case the package is not delivered.

Third or Fourth Class Matter Mailable Without Stamps—Under special permits postage may be paid in money for third or fourth class matter mailed in quantities of 2,000 or more identical pieces. For information concerning the regulations governing such mailings inquiry should be made of the postmaster.

Registration—All kinds of postal matter may be registered at the rate of ten cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all post-offices in the United States.

An indemnity—not to exceed \$50 for any one registered piece, or the actual value of the piece, if it is less than \$50—shall be paid for the loss of first-class registered matter mailed at and addressed to a United States post-office.

Domestic Money Orders—Domestic money orders are issued by money-order post-offices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50 to \$5, 5 cents; over \$5 to \$10, 8 cents; over \$10 to \$20, 10 cents; over \$20 to \$30, 12 cents; over \$30 to \$40, 15 cents; over \$40 to \$50, 18 cents; over \$50 to \$60, 20 cents; over \$60 to \$75, 25 cents; over \$75 to \$100, 30 cents.

Stamped Envelopes—Embossed stamped envelopes and newspaper wrappers of several denominations, sizes, and colors are kept on sale at post-offices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in a substantially whole condition.

Unmailable Matter—Unmailable domestic matter—that is, matter which is not admissible to the United States mails for delivery in the United States or in any of its possessions—includes:

1. All matter illegibly, incorrectly, or insufficiently addressed.
2. All transient second-class matter and all matter of the third or fourth class not wholly prepaid; and letters and other first-class matter not prepaid one full rate—2 cents.
3. All matter weighing over four pounds, except second-class matter, single books, and documents printed and circulated by authority of Congress.
4. All matter harmful in its nature, as poisons, explosive or inflammable articles, matches, live or dead (but not stuffed), animals, and reptiles, fruits or vegetables liable to decomposition, guano, or any article exhaling a bad odor, vinous, spirituous or malt liquors, cocaine or derivatives thereof and liquids liable to explosion, spontaneous combustion, or ignition by shock or jar, such as kerosene oil, naphtha, benzine, etc.
5. All obscene, lewd, or lascivious matter, and every article or thing intended, designed, or adapted for any indecent or immoral purpose, or for the prevention of conception or procuring abortion, or matter of a character tending to incite arson, murder or assassination.
6. Postal, post, or other cards mailed without wrappers and all matter bearing upon the outside cover or wrapper any delineations, epithets, terms, or language of an indecent, lewd, lascivious, obscene, libelous, scurrilous, defamatory or threatening character, or calculated by the terms or manner or style of display, and obviously intended to reflect injuriously upon the character or conduct of another.
7. Post cards, bearing particles of glass, metal mica, sand, flint, or other similar substances, are unmailable, except as provided under "First Class Matter."
8. All matter concerning any lottery, so-called gilt concert, or other enterprise of chance, or concerning schemes devised for the purpose of obtaining money or property under false pretenses.

Applications for the establishment of post-offices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by Members of Congress, or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any Member of Congress, procured from that Department.
3. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
4. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter to any Government official or to any person correspondence, not over four ounces in weight, upon official or departmental business.

All communications to Government officers and to Members of Congress are required to be prepaid by stamps unless inclosed in "penalty" envelopes furnished for replies.

Suggestions to the Public (from the *United States Official Postal-Guide*).—Mail all letters, etc., as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars.

All mail matter at large post-offices is necessarily handled in great haste and should therefore in all cases be so PLAINLY addressed as to leave NO ROOM FOR DOUBT AND NO EXCUSE FOR ERROR on the part of postal employes. Names of States should be written in full (or their abbreviations very

POSTAL INFORMATION—Continued.

distinctly written) in order to prevent errors which arise from the similarity of such abbreviations as Cal., Col., Pa., Va., Vt.; Me., Mo., Md.; Ioa., Ind.; N. H., N. M., N. Y., N. J., N. C., D. C.; Miss., Minn., Mass.; Nev., Neb.; Penn., Penn., etc., when hastily or carelessly written. This is especially necessary in addressing mail matter to places of which the names are borne by several post-offices in different States.

Avoid as much as possible using envelopes made of flimsy paper, especially where more than one sheet of paper, or any other article than paper, is inclosed. Being often handled, and even in the mail-bags subject to pressure, such envelopes not infrequently split open, giving cause of complaint.

Never send money or any other article of value through the mail except either by means of a money order or in a registered letter. Any person who sends money or jewelry in an unregistered letter not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to ruin.

See that every letter or package bears the full name and post-office address of the writer, in order to secure the return of the letter, if the person to whom it is directed cannot be found. A much larger portion of the undelivered letters could be returned if the names and addresses of the senders were always fully and plainly written or printed inside or on the envelopes. Persons who have large correspondence find it most convenient to use "special request envelopes;" but those who only mail an occasional letter can avoid much trouble by writing a request to "return if not delivered," etc., on the envelope.

When dropping a letter, newspaper, etc., into a street mailing-box, or into the receptacle at a post-office, always see that the packet falls into the box and does not stick in its passage, observe, also, particularly, whether the postage stamps remain securely in their places.

Postage stamps should be placed on the upper right-hand corner of the address side of all mail matter.

The street and number (or box number) should form a part of the address of all mail matter directed to cities. In most cities there are many persons, and even firms, bearing the same name. Before depositing any package or other article for mailing, the sender should assure himself that it is wrapped and packed in the manner prescribed by postal regulations; that it does not contain *unmailable* matter nor exceed the limit of weight as fixed by law; and that it is fully prepaid and properly addressed.

It is unlawful to send an ordinary letter by express or otherwise outside of the mails unless it be inclosed in a Government-stamped envelope. It is also unlawful to inclose a letter in an express package unless it pertains wholly to the contents of the package.

It is forbidden by the regulations of the Post-Office Department for postmasters to give to any person information concerning the mail matter of another, or to disclose the name of a box-holder at a post-office.

Letters addressed to persons temporarily sojourning in a city where the Free Delivery System is in operation should be marked "Transient" or "General Delivery," if not addressed to a street and number or some other designated place of delivery.

Foreign books, etc., infringing United States copyright are *undeliverable* if received in foreign mails, or mailed here.

The foregoing rates, rules, and suggestions apply to postal matters in the United States.

Foreign Mails.

POSTAGE RATES AND CONDITIONS.

The rates of postage to all foreign countries and colonies are as follows:

Letters.....	first ounce or less, 5 cents; each additional ounce	3 cents.
Postal cards, each.....		2 cents.
Newspapers and other printed matter, per 2 ounces.....		1 cent.
Commercial papers (such as legal and insurance papers, deeds, bills of lading, invoices, manuscript for publication, etc.).....	Packets not in excess of 10 ounces, for each 2 ounces or fraction thereof.....	5 cents.
	Packets not in excess of 4 ounces, for each 2 ounces or fraction thereof.....	1 cent.
Samples of merchandise.....	Packets in excess of 4 ounces, for each 2 ounces or fraction thereof.....	2 cents.
Registration fee on letters or other articles.....		1 cent.
		10 cents.

On printed matter and commercial papers the limit of weight is 4 pounds 6 ounces, except that single volumes of books to Salvador, Canada, Mexico, Cuba, and Panama, are unrestricted as to weight. Size—The limit of size is 18 inches in any one direction, except that printed matter or commercial papers in rolls may be 30 inches long by 4 inches in diameter.

Ordinary letters for countries of the Postal Union (except Canada and Mexico) will be forwarded, whether any postage is prepaid on them or not. All other mailable matter must be prepaid at least partially. Domestic rates apply to Porto Rico, Guam, Philippine Islands, Cuba, "Canal Zone," Republic of Panama, Tutuila, Hawaii, Shanghai City and U. S. Naval Vessels.

EXCEPTIONS.

GREAT BRITAIN AND IRELAND AND NEWFOUNDLAND.

The rate on Letters for these countries is two cents for each ounce or fraction. The Postal Union rates apply to postal cards, post cards, printed matter, commercial papers and samples.

GERMANY.

The postage rate on Letters for Germany by direct ocean transportation is two cents an ounce. Letters paid at the two-cent rate are despatched only by steamers able to land the mails at a German port. Letters paid at the Postal Union rate are despatched by the quickest route.

A fast steamer sailing for Germany via Plymouth and Cherbourg carries letters for Germany prepaid at the Postal Union rate and at the two-cent rate—the letters paid at the five-cent (Postal Union) rate are landed at Plymouth (the quickest route), whereas the letters paid at the two-cent rate are carried through to Germany by the Trans-Atlantic steamer.

The Postal Union rates apply to postal cards, post cards, printed matter, commercial papers and samples regardless of the route by which sent, also to Letters despatched via England and France.

CANADA.

Matter mailed in the United States addressed to Canada is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States, except that plants, seeds, etc., are subject to the postage rate of one cent an ounce; that "commercial papers" and samples of merchandise are transmissible at the Postal Union postage rates and conditions. Goods and merchandise, not samples, may be sent in unsealed packages, not over 4 pounds 6 ounces in weight, for one cent per ounce. There is no limit of weight to single volumes of printed books or packages of second-class matter. Sealed articles, other than letters in their usual and ordinary form, are unavailable.

FOREIGN MAILS—Continued.

All articles, except the reply half of double postal cards, must be fully prepaid with postage stamps at the rate of postage applicable to similar articles in the domestic mails of this country, and are required to be delivered free of postage to addressees, except that letters upon which only one rate of postage has been prepaid are required to be forwarded, any deficiency being collected on delivery.

Any article of correspondence may be registered. Packages of merchandise are subject to the regulations of either country to prevent violations of the revenue laws; must not be closed against inspection, and must be so wrapped and inclosed as to be easily examined. Samples must not exceed 12 ounces in weight. No sealed packages other than letters in their usual and ordinary form may be sent by mail to Canada.

CUBA AND PANAMA.

Matter for Cuba and the Republic of Panama is available at the same rates of postage and under the same conditions as it would be if addressed for delivery in the United States, except that "Samples" and "Commercial papers" may be sent subject to the Postal Union postage rates and conditions; that articles, other than letters in their usual and ordinary form, must be so wrapped or inclosed that the contents may be readily and thoroughly examined; that packages—except single volumes of printed books—must not exceed 4 pounds 6 ounces in weight, and that (in addition to other prohibited articles) liquids (except samples thereof) fatty substances and those which easily liquefy are unmailable.

Letters and post cards must be despatched even if they do not bear any postage stamps. Other articles must be prepaid at least in part. Postage due on short-paid matter will be collected from the addressees on delivery.

MEXICO.

Matter mailed in the United States addressed to Mexico is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States, except that articles of miscellaneous merchandise (fourth-class matter) other than liquids, not sent as bona-fide trade samples should be sent by "Parcels Post," and that commercial papers and bona-fide trade samples are transmissible in the regular mails at the Postal Union postage rate and conditions. Limit of weight for commercial papers and printed matter, including second-class, 4 pounds 6 ounces, except single volumes of printed books, to which no limit is fixed. Articles, other than letters in their usual and ordinary form, must be so wrapped that the contents can be easily examined.

Matter addressed to Mexico must, in all cases, bear as part of the address the name of the State in which the city or town is located. For example, Acapulco, Guerrero, Mexico; not Acapulco, Mexico.

U. S. NAVAL VESSELS.

Mail matter for officers or members of the crew of United States vessels of war stationed abroad is subject to domestic postage rates and conditions. Articles should be addressed "U. S. S. (name of vessel), care of Postmaster, New York, N. Y.," and be fully prepaid. Mail so addressed will be forwarded to the vessels. *Express packages will not be received at the post-office unless they conform to the Postal Regulations and are placed in the mail with the postage properly prepaid.*

SHANGHAI, CHINA.

Domestic postage rates and conditions apply to articles addressed for delivery in the City of Shanghai, but for other places in China the Universal Postal Union (foreign) rates apply.

SAMPLES OF MERCHANDISE.

Must be bona fide trade samples without any salable value. **Wrapping**—Samples of merchandise must be wrapped so that the contents may be easily examined without injury to wrappers. **Permissible Writing**—They must bear no writing except the name or the social position of the sender, a manufacturer's or trade mark, numbers, prices and indications relating to the weight, size, dimensions and quantity to be disposed of, and words which are necessary to precisely indicate the origin and nature of the merchandise. **Weight**—Packages of samples must not exceed 12 ounces in weight. **Size**—The size must not exceed 12 inches in length, 8 inches in breadth, and 4 inches in depth, except when in the form of a roll, they may be 12 inches in length and 6 inches in diameter. **Postage**—The postage on samples is 2 cents for the first 4 ounces or less, and 1 cent for each additional 2 ounces or fraction of 2 ounces. Register all valuable articles. Registration fee 10 cents.

PARCELS POST.

Postage, 12 cents a pound or fraction thereof; greatest length (unless specially noted below), 3 feet 6 inches; greatest length and girth combined (unless specially noted below), 6 feet; limit of weight (unless specially noted below), 11 pounds; value (unless specially noted below), not limited; registration fee, 10 cents.

Unsealed packages of mailable merchandise may be sent by Parcels Post to Bermuda, Jamaica, including Cayman Islands, Turks Island, including Caicos Islands, Barbados (parcels cannot be registered), the Bahamas, British Honduras, Mexico (limit of size, 2 feet in length, 4 feet in girth; limit of weight for places named in "Postal Guide," 11 pounds; for other places, 4 pounds 6 ounces), Leeward Islands (Antigua, Anguilla, Barbuda, Dominica, Montserrat, Nevis, Redonda, St. Kitts and the Virgin Islands), Colombia (limit of size, 2 feet in length, 4 feet in girth), Costa Rica (limit of size, 2 feet in length, 4 feet in girth), Salvador, (see item "Customs Declarations,") British Guiana, Danish West Indies (St. Croix, St. John and St. Thomas), and the Windward Islands (Grenada, Grenadines, St. Lucia, and St. Vincent), Trinidad, including Tobago; Venezuela (see item "Customs Declarations,") Bolivia, Ecuador (parcels must not exceed \$50 in value), Peru (parcels must not exceed \$50 in value), and Chile, Newfoundland, Honduras (Republic of), Germany, Italy (parcels must not exceed \$80 in value), Netherlands, (parcels cannot be registered, and must not exceed \$80 in value (see item "Customs Declarations,") New Zealand, including Cook and Fanning Islands; Nicaragua, Guatemala, Norway (parcels must not exceed \$80 in value), Japan including Formosa, Karafuto (Japanese Saghalien) and Korea (parcels must not exceed \$80 in value) Hong Kong (parcels must not exceed \$80 in value), Austria (parcels must not exceed \$80 in value), Belgium (parcels must not exceed \$80 in value), France (parcels cannot be registered and must not weigh over 4 pounds 6 ounces, or exceed \$50 in value; (see item "Customs Declarations,") Great Britain and Ireland (parcels cannot be registered), Australia, including Tasmania (parcels must not exceed \$80 in value), Denmark (parcels must not exceed \$80 in value), Sweden (parcels must not weigh over 4 pounds 6 ounces or exceed \$50 in value), China, the following places only: Amoy, Canton, Changsha, Cheefoo, Ching-kiang, Foochow, Hangchow, Hankow, Hoihao (Hoihow), Hong-Kong, Kiankiang, Liu Kung Tau, Nanking, Newchwang, Ningpo, Shanghai, Shanghaikwan, Shasi, Soochow, Swatow, Peking, Tientsin, Fongku and Wuku (parcels must not exceed \$80 in value); Manchuria, the following places only: Antoken (Antung), Choshun (Changchun), Puren (Tairen, Tairen, formerly Dairen), Daiseikio (Tashichiao), Daitoko (Tatungkou), Furanten (Pulantien), Gaihei (Kaiping), Giukaton (Newchatun), Gwaboten (Wafangtien), Hishiko (Pitzuon), Honkeiko (Penhasiku), Hoten (Mukden), Howojio

FOREIGN MATLS—Continued.

(Fenghuangcheng), Kaigen (Kalyuen), Kaijio (Haichaeng), Kinshu (Chinchow), Koshurei (Kungchuling), Riojun (Port Arthur), Riyo (Liaoyang), Riujnton (Liushutun), Senkhusai (Chienchusai), Shiheigai (Sapingchieh), Shinminfu (Shingmingfu), Shoto (Changtu), Sokako (Tsohokow), Sokaton (Suchiatun), Taikoizan (Takushan), Tetsurei (Tiehling), Yendai (Yentai), Yugakujio (Hsiungyocheng) (parcels must not exceed \$80 in value). Parcels must be wrapped so as to permit their contents to be easily examined by postmasters. The presence, in an unsealed parcel, of sealed receptacles containing mailable articles which cannot be safely transmitted in the unsealed receptacles, will not render the parcel unmailable, provided the contents of the sealed receptacles are plainly visible, or are unmistakably indicated by the method of packing or by a precise statement on the covers. But such sealed receptacles will not be admitted to the Parcels Post unless inclosed in an outside cover open to inspection. Any article absolutely prohibited admission to the regular mails for any country is also inadmissible to Parcels Post mails for that country; but no article is excluded from Parcels Post mails solely because it is dutiable in the country of destination. Liquids, poisonous, explosive, and inflammable substances are excluded.

CUSTOMS DECLARATIONS.

A "Customs Declaration" Form 4402 (which will be furnished on application at the post-office or a station) must be properly and fully filled out, stating the actual contents, value, etc., of the parcel. General terms, such as "merchandise" or "samples," will not answer; the contents must be accurately described. "Customs Declarations" must be firmly attached to the cover of the parcel, but not pasted or affixed so that they will seal the package and prevent examination of the contents without damaging the cover. In addition to being tied by means of a cord passing through the eyelet, the tag should be bound flat to the parcel (with the front or "declaration" side facing out), so that the tag cannot be used as a handle to lift the parcel while in transit.

Two (2) copies of the "declaration" (Form 4402) must be attached to each parcel for Netherlands, Salvador and Uruguay, and three (3) copies to each parcel for Venezuela.

France—Two copies of the special declaration, "Form No. 2 Bis" (4402½), showing in addition to the usual entries the gross weight of the parcel and net weight of the contents, must be attached to parcels for France. One copy may be pasted to the package, but the other copy must be affixed in such a manner that it can be readily removed at the exchange office where the mail is prepared for despatch to France.

GENERAL REGULATIONS RESPECTING FOREIGN MAILS.

Rates and conditions to countries not in the Universal Postal Union are now the same as those to Universal Postal Union countries.

Postage can be prepaid upon articles only by means of the postage stamps of the country in which the articles are mailed. Hence articles mailed in one country addressed to another country which bear postage stamps of the country to which they are addressed are treated as if they had no postage stamps attached to them.

Unpaid letters received from the Postal Union and insufficiently prepaid correspondence of all kinds is chargeable with double the amount of the deficient postage.

Matter to be sent in the mails at less than letter rates must be so wrapped that it can be readily examined at the office of delivery, as well as the mailing office, without destroying the wrapper.

Newspapers and periodicals sent in the mails to foreign countries other than those of the Postal Union should be wrapped singly. Those sent by publishers to regular subscribers in Canada, Cuba, Mexico, and Panama are transmissible as in domestic mails, except that packages addressed to Mexico, Cuba, and Panama must not exceed 4 pounds 6 ounces in weight.

The United States two-cent postal card should be used for card correspondence with foreign countries (except Canada, Cuba, Mexico, Panama, and Shanghai city, to which countries the one-cent card is transmissible), but where these cards cannot be obtained, it is allowable to use for this purpose the United States one-cent postal card with a one-cent United States adhesive postage stamp attached thereto. Private cards can now be used if conforming in size, etc., to Government cards, such cards should bear the words "post card."

Mail matter of all kinds received from any country of the Postal Union is required to be reforwarded at the request of the addressee, from one post-office to another, and in the case of articles other than Parcels Post packages, to any foreign country embraced in the Postal Union, without additional charge for postage.

All articles prohibited from domestic mails are also excluded from circulation in the mails to and from foreign countries. Postal cards or letters addressed to go around the world will not be forwarded, being prohibited.

FOREIGN (INTERNATIONAL) MONEY ORDERS.

When payable in Switzerland, New Zealand, Belgium, Sweden, Norway, Japan, Denmark, Orange River Colony, Netherlands, Trinidad, Austria, Hungary, Luxemburg, Chile, Egypt, Bolivia, Liberia, Costa Rica, Peru, Transvaal, Germany, Hong Kong, Portugal, and Apfa, the charge is as follows:

For order not exceeding \$10, 8 cents; over \$10 and not exceeding \$20, 10 cents; over \$20 and not exceeding \$30, 15 cents; over \$30 and not exceeding \$40, 20 cents; over \$40 and not exceeding \$50, 25 cents; over \$50 and not exceeding \$60, 30 cents; over \$60 and not exceeding \$70, 35 cents; over \$70 and not exceeding \$80, 40 cents; over \$80 and not exceeding \$90, 45 cents; over \$90 and not exceeding \$100, 50 cents.

When payable in any other foreign country, the charge is as follows: For order not exceeding \$10, 10 cents; over \$10 and not exceeding \$20, 20 cents; over \$20 and not exceeding \$30, 30 cents; over \$30 and not exceeding \$40, 40 cents; over \$40 and not exceeding \$50, 50 cents; over \$50 and not exceeding \$60, 60 cents; over \$60 and not exceeding \$70, 70 cents; over \$70 and not exceeding \$80, 80 cents; over \$80 and not exceeding \$90, 90 cents; over \$90 and not exceeding \$100, \$1.

The maximum amount for which a money order may be drawn payable in Cape Colony is \$100. There is no limitation to the number of international orders that may be issued, in one day, to a remitter, in favor of the same payee.

Domestic rates and regulations apply to money orders for Canada, Cuba, Hawaii, Newfoundland, Porto Rico, and the Philippine Islands, also Windward Islands, Jamaica, and Leeward Islands, British Honduras, British Guiana, Canal Zone (Isthmus of Panama), Tutuila (Samoa), United States Postal Agency at Shanghai (China), Virgin Islands, Guam, the Bahamas, Bermuda, and Mexico.

The United States Revenue Cutter Service. 105

THE United States Revenue Cutter Service is a military arm of the Government attached to and under the direction of the Treasury Department. The Service was organized in 1790 and constituted the original naval force of the country. There being at that time no Navy Department, the Service was placed under the Treasury Department, where it has remained ever since. It is charged with the enforcement of the navigation and customs laws of the United States, the assistance of vessels in distress, the protection of the sealing industry in Alaska, the enforcement of the quarantine laws, and numerous other duties appropriate to its class of vessels. Each Winter, by direction of the President, a number of the cutters patrol the coast for the special purpose of assisting vessels in distress. The Service co-operates with the Navy when directed by the President and has so co-operated in every war in which the United States has been engaged. The officers of the Service are commissioned by the President and hold rank by law with officers of the Army and Navy as follows:

Captain-Commandant with Colonel in the Army and Captain in the Navy; Senior Captains and Engineer-in-Chief with Lieutenant-Colonels in the Army and Commanders in the Navy; Captains with Majors in the Army and Lieutenant-Commanders in the Navy; First Lieutenants with Captains in the Army and Lieutenants in the Navy; Second Lieutenants with First Lieutenants in the Army and Lieutenants (Junior Grade) in the Navy; Third Lieutenants with Second Lieutenants in the Army and Ensigns in the Navy.

There are now in the Service 238 commissioned officers and cadets on the active list, and 1,500 petty officers and enlisted men. The officers are: 1 Captain-Commandant, 6 Senior Captains, 31 Captains, 37 First Lieutenants, 35 Second Lieutenants, 46 Cadets of the line, 1 Engineer-in-Chief, 6 Captains of Engineers, 28 First Lieutenants of Engineers, 22 Second Lieutenants of Engineers, 11 Third Lieutenants of Engineers, 3 Cadet Engineers and 2 Constructors.

Commissioned officers of the line are appointed from Cadet graduates of the School of Instruction at South Baltimore, Md. The Cadet course covers three years and embraces professional and academic subjects. Cadets are appointed after competitive examinations, conducted by boards of commissioned officers of the Revenue Cutter Service. Candidates must be not less than eighteen nor more than twenty-four years of age.

Appointments to the Engineer Corps are made after competitive examination, and successful candidates are appointed Cadet Engineers for a period of six months prior to being commissioned Second Assistant Engineers in the Service. Candidates for the Engineer Corps must be not less than twenty-one nor more than twenty-six years of age.

The present Commandant of the Service is Captain-Commandant Worth G. Ross, U. S. R. C. S., and Engineer-in-Chief Chas. A. McAllister, U. S. R. C. S., is head of the Engineer Corps.

The Life-Saving Service.

THE ocean and lake coasts of the United States are picketed with the stations of the Life-Saving Service attached to the United States Treasury Department. Sumner I. Kimball is general superintendent, with headquarters at Washington, and there is a corps of inspectors, superintendents, station keepers, and crews, extending over the entire coast line, together with a Board on Life-Saving Appliances, composed of experts selected from the Revenue Cutter Service, the Army, the Life-Saving Service, and civilians.

At the close of the last fiscal year the life-saving establishment embraced 281 stations, 201 being on the Atlantic Coast, 60 on the lakes, 19 on the Pacific Coast, and 1 at the falls of the Ohio, Louisville, Ky. In the following table are the statistics of the service:

	Year Ending June 30, 1909.	Since Introduction of Life-Saving System in 1871, to June 30, 1909.		Year Ending June 30, 1909.	Since Introduction of Life-Saving System in 1871, to June 30, 1909.
Disasters	459	19,787	Shipwrecked persons succored at stations	380	22,133
Value property involved	\$15,449,060	\$281,152,589	Days' succor afforded	779	51,169
Value property saved	\$13,187,840	\$24,934,732	Vessels totally lost on U. S. coasts	50
Value property lost	\$2,261,220	\$56,217,357			
Persons involved	6,377	136,295			
Persons lost	8	1,224			

In addition to the foregoing there were 917 casualties to smaller craft, such as sailboats, row-boats, etc., on which there were 2,523 persons, of whom 22 were lost. The cost of the maintenance of the service during the year was \$2,215,035.52.

National Civic Federation.

OFFICE, 1 MADISON AVENUE, NEW YORK.

AN organization of prominent representatives of capital, labor, and the general public formed as the direct outgrowth of conventions held in Chicago and New York in 1900-1901. Its purpose is to organize the best brains of the Nation in an educational movement toward the solution of some of the great problems related to social and industrial progress; to provide for study and discussion of questions of national import; to aid thus in the crystallization of the most enlightened public opinion; and when desirable, to promote legislation in accordance therewith. At the present time the work of the Federation is carried on through the following agencies:

(1) The Trade Agreement Department which consists of employers and representatives of workmen, who make agreements as to hours, wages and conditions of employment.

(2) The Industrial Conciliation Department dealing entirely with strikes and lockouts, and including in its membership representatives of the general public and the leading organizations of employers and wage-earners. The services of this department have been enlisted in more than five hundred cases involving every phase of industrial controversy.

(3) The Industrial Economics Department organized to promote discussion and to aid in the solution of practical economic and social problems such as "Wages, and the Cost of Living," "The Injunction," "Opened and Closed Shop," "Restriction of Output," "Compulsory Arbitration," "Initiative and Referendum," "The Income Tax," "The Trusts," "Socialism," etc.

(4) Welfare Department composed of employers of labor in stores, factories, mines and on railroads, and officials who have to do with the working conditions of public employes, chairmen of boards of health, heads of departments of public safety, leading physicians connected with public hospitals, heads of charity boards and others. It is devoted to securing improvements in the working and living conditions of the employe by the employer.

(5) The Woman's Department composed largely of women who are themselves stockholders or who are financially interested in industrial organizations through family relationships. The object of this department is to use its influence in securing needed improvements in the working and living conditions of women and men wage-earners in the various industries and governmental institutions, and to co-operate, when practicable, in the general work of the Federation.

(6) Industrial Insurance Commission, appointment authorized at the annual meeting of the Welfare Department, December, 1908. Personnel to be experts who have investigated foreign plans, employers interested in securing benefits for their employes, wage earners and public-spirited citizens. Object, to make a thorough study of pensions, sick, accident and death funds, with a view to securing uniform legislation.

(7) Public Ownership Commission composed of one hundred prominent men representing every shade of public opinion on this subject. The investigation by this commission into the facts of public ownership and operation here and abroad is the most thorough yet undertaken. An inquiry is to be undertaken into the question: "How far can regulation go without interfering with management?"

(8) The Immigration Department composed of men selected to represent all localities in the Union affected by the admission of aliens.

(9) Political Reform Department organized to arouse and promote public interest in representative government in national, State and city politics.

(10) Committee on Uniform Legislation, to promote national conference in January, 1910, a movement looking toward uniform legislation.

(11) Committee on Organization, to organize State councils of 100 members each to provide machinery for securing something approaching uniformity of legislation.

(12) Officers and Executive Committee:

OFFICERS AND EXECUTIVE COUNCIL.

President, Seth Low; Vice-Presidents, Samuel Gompers, Nahum J. Bachelder, Ellison A. Smyth, Benjamin I. Wheeler; Treasurer, Isaac N. Seligman; Chairman Executive Council, Ralph M. Easley; Chairman Welfare Department, William R. Willcox; Chairman Committee on Organization, John Hays Hammond; Chairman Trade Agreement Department, John Mitchell; Chairman Industrial Economics Department, Nicholas Murray Butler; Chairman Industrial Insurance Commission, George W. Perkins; Chairman Committee on Uniform Legislation, Alton B. Parker; Ex-Officio Chairman Conciliation Committee, Seth Low; Chairman Public Ownership Commission, Melville E. Ingalls; Chairman Taxation Department, E. R. A. Seligman; Secretary, D. L. Cease.

Executive Committee.**ON THE PART OF THE PUBLIC:**

William H. Taft (President of the United States), Washington, D. C.; Franklin MacVeagh (Secretary of the Treasury), Washington, D. C.; Elihu Root (United States Senator), New York; Andrew Carnegie (Capitalist), New York; Seth Low (Publicist), New York City; Nahum J. Bachelder (Master of the National Grange), Concord, N. H.; Charles S. Barrett (President Farmers' Educational and Co-operative Union of America), Union City, Ga.; John Hays Hammond (Mining Engineer), Gloucester, Mass.; Benjamin I. Wheeler (President University of California), Berkeley, Cal.; Nicholas Murray Butler (President Columbia University), New York City; Cornelius N. Bliss (Former Secretary of the Interior), New York City; Archbishop John Ireland (of the Roman Catholic Church), St. Paul, Minn.; Right Rev. D. A. Goodsell (Resident Bishop Methodist Episcopal Church), New York City; James Speyer (Speyer & Co.), New York; David R. Francis (Former Secretary of the Interior), St. Louis, Mo.; V. Everit Macy (Capitalist), New York City; John M. Stahl (President Farmers' National Congress), Chicago, Ill.

ON THE PART OF EMPLOYERS:

Henry Phipps (Director United States Steel Corporation), New York City; August Belmont (August Belmont & Co.), New York City; W. C. Brown (President New York Central & Hudson River Railroad Co.), New York; George B. Cortelyou (President Consolidated Gas Co.), New York City; Frank A. Vanderlip (President National City Bank), New York City; Benjamin F. Yoakum (Chairman Executive Committee, Chicago, Rock Island & Pacific R. R. Co.), New York City; Clarence H. Mackay (President Postal Telegraph-Cable Co.), New York City; Marvin Hughitt (President Chicago & Northwestern Ry. Co.), Chicago, Ill.; Frederick D. Underwood (President Erie Railroad Company), New York City; Samuel Mather (Pickands, Mather & Co.), Cleveland, Ohio; Charles A. Moore (President Manning, Maxwell & Moore), New York City; Alexander H. Revell (A. H. Revell & Co.), Chicago, Ill.; Ellison A. Smyth (President South Carolina Cotton Manufac-

turers' Association), Pelzer, S. C.; Marcus M. Marks (President National Association of Clothiers, New York City; Otto M. Eidlitz (Former Chairman Board of Governors, Building Trades Employers' Association), New York City.

ON THE PART OF WAGE EARNERS:
 Samuel Compers (President American Federation of Labor), Washington, D. C.; John Mitchell (Former President United Mine Workers of America), New York City; A. B. Garretson (Grand Chief Conductor, Order of Railway Conductors), Cedar Rapids, Iowa; James Duncan (General Secretary Granite Cutters' International Association of America), Quincy, Mass.; W. G. Lee (Grand Master Brotherhood Railroad Trainmen), Cleveland, Ohio; Warren S. Stone (Grand Chief International Brotherhood of Locomotive Engineers), Cleveland, Ohio; William D. Mahon (President Amalgamated Association of Street Railway Employees of America), Detroit, Mich.; Timothy Healy (President International Brotherhood of Stationary Firemen), New York City; William J. Bowen (President Bricklayers' and Masons' International Union), Indianapolis, Ind.; W. S. Carter (President Brotherhood Locomotive Firemen and Enginemen), Peoria, Ill.; James O'Connell (President International Association of Machinists), Washington, D. C.; John F. Tobin (General President Boot and Shoe Workers' Union), Boston, Mass.; Joseph F. Valentine (President Iron Molders' Union of North America), Cincinnati, Ohio; James M. Lynch (President International Typographical Union), Indianapolis, Ind.; Denis A. Hayes (President Glass Bottle Blowers' Association of United States and Canada), Philadelphia, Pa.; William D. Huber (President United Brotherhood of Carpenters and Joiners of America), Indianapolis, Ind., and Members of Executive Council.

OFFICERS AND JOINT COUNCIL, WELFARE AND WOMAN'S DEPARTMENTS.
 Chairman, William R. Willcox; Vice-Chairmen, Cyrus H. McCormick, Nathan Straus, Ellison A. Smyth; Treasurer, Isaac N. Seligman; Secretary, Miss Gertrude Beeks; Chairman Ways and Means Committee, B. J. Greenhut; Chairman Industrial Insurance Commission, George W. Perkins; Chairman Industrial Employees' Welfare Committee, C. A. Moore; Chairman New York Welfare Committee, V. Everit Macy; Chairman New England Welfare Committee, A. P. Loring; Medical Director, Alexander Lambert; Consulting Architect, Robert D. Kohn; The Honorary Chairman, Mrs. William Howard Taft; Chairman, Mrs. Horace Brock, Lebanon, Pa.; First Vice-Chairman and Chairman of Committee on Welfare Work for Industrial Employees, Mrs. J. Borden Harriman, New York City; Vice-Chairmen, Mrs. John K. Ottley, Atlanta, Georgia, Mrs. William H. Crocker, Burlingame, Cal., Mrs. B. Frank Mebane, Spray, N. C., Mrs. Eva McDonald Valesh, St. Paul, Minn.; Secretary, Mrs. Marcus M. Marks, New York City; Treasurer, Mrs. Mary Hatch Willard, New York; Chairman of Committee on Industrial Economics, Mrs. Cornelius Stevenson, Philadelphia, Pa.; Chairman of Membership Committee, Mrs. Clement Acton Griscon, Jr., New York City; Chairman of Finance Committee, Mrs. Augustus P. Gardner, Hamilton, Mass.

Earnings of Wage-Earners in the United States.

(From Census Bulletin 93.)

WHEN the material for the Federal census of manufactures was collected in 1905, each manufacturing establishment was requested to report, for the week in 1904 during which the largest number of persons was employed, the number of wage-earners, classified by the amount they earned.

The returns are those of earnings or wages and not of rates of pay. Rates are higher than earnings because they are for a full week, whereas earnings shown in the bulletin were reported for the time actually worked, and this in some instances was less than the full week.

The results of this inquiry were published in Bulletin 93 of the Bureau of the Census in May, 1908, which was prepared under the supervision of William M. Stewart, chief statistician for manufactures.

According to this bulletin satisfactory returns were received from 123,703 establishments, 62.9 per cent. of all manufacturing establishments which employ wage-earners. These establishments from which the returns were received, moreover, employed almost one-half of all the wage-earners engaged in factory industries in the United States, and therefore the statistics are sufficiently representative to give fairly accurate results.

The bulletin now published contains the first regular Census report ever made of classified weekly earnings covering a large number of establishments. Of the 3,297,819 wage-earners covered by the present investigation, 2,619,053, or 70.4 per cent., were men; 588,599, or 17.9 per cent., were women; and 90,167, or 2.7 per cent., were children. The pay rolls of the 123,703 establishments for the week covered amounted to \$33,185,791, and of this the men received \$29,240,287, or 88.1 per cent.; the women, \$3,633,481, or 11 per cent.; and the children, \$312,023, or nine-tenths of 1 per cent.

CLASSIFIED EARNINGS, ALL INDUSTRIES.

The important feature of the bulletin is the classification of these wage-earners—men, women, and children—at each amount of earnings. For all wage-earners reported, every industry being represented in the establishments reporting, this classification is as follows:

	NUMBER OF WAGE-EARNERS INCLUDED IN THE INQUIRY.	Percent- age in the group.	Cumula- tive per- centage.		NUMBER OF WAGE-EARNERS INCLUDED IN THE INQUIRY.	Percent- age in the group.	Cumula- tive per- centage.
Less than \$3.....	13,064	4.0	100.0	\$10 to \$12.....	439,208	13.3	44.0
\$3 to \$4.....	150,403	4.6	96.0	\$12 to \$15.....	464,875	14.1	30.7
\$4 to \$5.....	194,301	5.9	91.4	\$15 to \$20.....	390,367	11.8	16.6
\$5 to \$6.....	206,163	6.2	85.5	\$20 to \$25.....	106,700	3.2	4.8
\$6 to \$7.....	262,531	8.0	79.3	\$25 and over.....	1,723	1.6	1.6
\$7 to \$8.....	266,012	8.1	71.3				
\$8 to \$9.....	255,458	7.7	63.2	Total.....	3,297,819	100.0
\$9 to \$10.....	378,009	11.5	55.5				

More than half of all the wage-earners included in the bulletin earned \$9 and over during the week.

The earnings are classified for totals of States and of industries, while twenty-five in-

dustries are shown in detail by States and Territories, and twenty-five States by leading industries. Average earnings are also computed for all the States and industries shown.

AVERAGE WAGE-EARNER GOT \$10 A WEEK.

The figures show that in 1904 the average wage-earner employed in manufacturing received \$10.06 per week. The average man received \$11.16; the average woman, \$6.17; and the average child under 16 years of age, \$3.46.

DIAMOND CUTTERS EARNED LARGE AMOUNTS.

The highest average weekly earnings reported for the men in any manufacturing industry were \$21.68, paid in conducting lapidary work. The principal occupations in this industry—those which cause the high earnings—are connected with the cutting, polishing, and setting of diamonds and other precious stones. Even when power-driven machinery is used, these occupations call for exceptional skill and judgment, and as a result, a successful worker commands high rates.

Other industries which were conspicuous for the high weekly earnings paid to men wage-earners embraced the manufacture of corsets (\$16.99), photolithographing and photo-engraving (\$16.68), the manufacture of statuary and art goods (\$16.45), and the manufacture of watches (\$16.16). The manufacture of watches was also conspicuous for the high average earnings of women (\$8.93). No other industry employing any considerable number of women reported so large an amount.

MEN MAKING TURPENTINE AND ROSIN RECEIVED LOW EARNINGS.

The lowest average earnings for men in any industry were \$5.23, paid to those engaged in the manufacture of turpentine and rosin. Most of the men employed in this industry were engaged in gathering the crude gum, a task which is in some respects the lowest order of employment reported in connection with the census of manufactures. In the cottonseed oil and cake industry, another in which the average weekly earnings of men (\$6.64) were noticeably low, large numbers were engaged in handling the raw material and the finished product, while comparatively few were employed in the operation of machinery and in the actual work of production.

The lowest average earnings for children were \$1.84 per week, received by the 105 children engaged in the manufacture of pickles, preserves, and sauces. Of the industries employing a considerable number of women, the grading, roasting, cleaning, and shelling of peanuts is the one in which the earnings of women were lowest. The average weekly earnings of the 392 women in this industry were but \$2.26.

MEN IN STEEL WORKS AND ROLLING MILLS EARNED \$12.56.

The industries thus far mentioned are of interest, because they were extremes and not because they employed large numbers of wage-earners. The average earnings of the men in some of the more important industries were as follows: Iron and steel, steel works and rolling mills, \$12.56; iron and steel, blast furnaces, \$11.71; foundry and machine shop products, \$11.88; lumber and timber products, \$9.25; furniture, \$10.16; cotton goods, \$7.71; boots and shoes, \$11.88; men's clothing, \$12.23; women's clothing, \$13.52; tobacco, cigars and cigarettes, \$11.14; newspaper and periodical printing and publishing, \$13.13; and glass, \$14.10.

WOMEN IN COTTON MILLS EARNED \$6 A WEEK.

The average weekly earnings of women in some of the industries which employ considerable numbers were as follows: Cotton goods, \$6.03; hosiery and knit goods, \$6.01; silk and silk goods, \$6.11; boots and shoes, \$7.60; men's clothing, \$6.07; women's clothing, \$6.85; shirts, \$5.69; and glass, \$5.08.

The only industries employing considerable numbers of children under 16 years of age were glass, shirts, tobacco, cigars and cigarettes, and the five textile industries. In the cotton industry, which is the most important of the textiles, the average weekly earnings of the children were \$3.21. For glass the average weekly earnings were \$4.22; for shirts, \$2.31; and for tobacco, cigars and cigarettes, \$3.

LOW EARNINGS IN SOUTHERN COTTON MILLS.

In connection with the cotton industry, the bulletin makes an interesting comparison of the earnings in the North with those in the South. By confining the comparison to establishments engaged in the manufacture of plain cloths for printing and converting, it eliminates to a considerable extent the differences between the character of the industry in the two sections, and thus presents a fair basis to measure differences in earnings. This comparison shows that the average earnings of men were in New England \$8.52; in the South, \$5.14—a difference of \$3.38. For women the average was, in New England \$7.23; in the South, \$3.77—a difference of \$3.46; while for children the average was, in New England \$4.45; in the South, \$2.73—a difference of \$1.72. For all classes the average weekly earnings in the North were \$7.62 as contrasted with but \$4.16 in the South.

In explaining the low average earnings prevailing in the Southern States, the Census Bureau calls attention to the recentness of the development of the factory system in that part of the country, to the comparatively large proportion which women and children form of the total number of wage-earners, to the relatively large number of negroes employed, and to the fact that the industries thus far established in the South are those which do not in any part of the country require the most highly paid wage-earners. It is very probable that the further industrial development of the South will result ultimately in a material increase in average earnings.

WESTERN STATES HAD HIGHEST EARNINGS.

The Southern States are moreover generally conspicuous for low average weekly earnings. The rank of the several geographic divisions in respect to the average earnings of all wage-earners included in this inquiry is as follows: Western, \$15.65; North Central, \$10.62; North Atlantic, \$10.11; South Central, \$8.33; and South Atlantic, \$7.31.

NEW YORK RANKED TWENTY-FIFTH.

The leading States with respect to average weekly earnings were: Montana, \$18.10; Nevada, \$17.76; Arizona, \$16.15; and Wyoming, \$15.75. New York was twenty-fifth, with \$10.40; Pennsylvania, twenty-third, with \$10.51; Illinois, fifteenth, with \$11.53; Ohio, twentieth, with \$10.63; and Massachusetts, thirty-second, with \$9.68. North Carolina, with \$4.96, and South Carolina, with \$4.68, reported the lowest averages.

Labor Legislation.

BOYCOTTING, BLACKLISTING AND INTIMIDATION LAWS.

The States having laws prohibiting *boycotting* in terms are Alabama, Colorado, Illinois, Indiana, and Texas.

The States having laws prohibiting *blacklisting* in terms are Alabama, Arkansas, Colorado, Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Minnesota, Mississippi (applies to telegraph operators only), Missouri, Montana, Nevada, North Dakota, Oklahoma, Oregon, Texas, Utah, Virginia, Washington, and Wisconsin.

A number of States have enacted laws concerning *intimidation*, conspiracy against workmen, and interference with employment, viz.: Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Dakota, Oklahoma, Oregon, Pennsylvania, Porto Rico, Rhode Island, South Dakota, Texas, Utah, Vermont, Washington, West Virginia, and Wisconsin.

In the following States it is unlawful for an employer to exact any agreement, either written or verbal, from an employé not to join or become a member of a labor organization, as a condition of employment: California, Colorado, Connecticut, Idaho, Indiana, Kansas, Massachusetts, Minnesota, Nevada, New Jersey, Ohio, Oregon, Pennsylvania, Porto Rico and Wisconsin.

EIGHT-HOUR LAWS.

Arizona.—Eight hours constitute a day's labor in all underground mines and workings.

Arkansas.—Eight hours constitute a day's work on public highways and bridges and for railway telegraph operators.

California.—Unless otherwise expressly stipulated, eight hours constitute a day's work. The time of service of all laborers, workmen, and mechanics employed upon any public works of, or work done for, the State, or for any political sub-division thereof, whether the work is to be done by contract or otherwise, is limited and restricted to eight hours in any one calendar day.

Colorado.—A day's work for all workmen employed by the State, or any county, township, school district, municipality, or incorporated town, and for all employés in underground mines or workings, and in smelting and refining works, is restricted to eight hours.

Connecticut.—Eight hours of labor constitute a lawful day's work unless otherwise agreed. Railroad telegraph operators controlling the movement of trains may work but eight hours, except at stations kept open only in the daytime.

Delaware.—Eight hours constitute a lawful day's work for all municipal employés of the city of Wilmington.

District of Alaska.—Eight hours are a day's labor on the public roads.

District of Columbia.—A day's work for all laborers and mechanics employed by the District of Columbia, or by any contractor or sub-contractor upon any public works of the District, is limited to eight hours.

Hawaii.—For all mechanics, clerks, laborers, and other employés on public works and in public offices eight hours of actual service constitute a day's work.

Idaho.—Eight hours' actual work constitute a lawful day's labor for manual laborers employed by the day on all State, county, and municipal works. Labor in mines and smelters is limited to eight hours per day.

Illinois.—Eight hours are a legal day's work in all mechanical employments, except on farms, and when otherwise agreed; the law does not apply to service by the year, month, or week. Eight hours constitute a day's labor on the public highways.

Indiana.—Eight hours of labor constitute a legal day's work on the public roads, and for all classes of mechanics, workmen, and laborers, excepting those engaged in agricultural and domestic labor. Overwork by agreement and for extra compensation is permitted.

Iowa.—Eight hours constitute a day's labor on the public roads.

Kansas.—Eight hours are a day's work for all laborers, mechanics, or other persons employed by or on behalf of the State or any county, city, township, or other municipality.

Kentucky.—Eight hours constitute a day's work on the public roads.

Maryland.—No mechanic or laborer employed by the Mayor or City Council of Baltimore, or by any agent or contractor under them, shall be required to work more than eight hours as a day's labor.

Massachusetts.—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics employed by or on behalf of the Commonwealth or any county therein, or of any city or town in the Commonwealth upon acceptance of the statute by a majority of voters present and voting upon the same at any general election.

Minnesota.—Eight hours constitute a day's labor for all laborers, workmen, or mechanics employed by or on behalf of the State, whether the work is done by contract or otherwise.

Mississippi.—Eight hours are a day's labor on highways.

Missouri.—Eight hours constitute a legal day's work. The law does not prevent an agreement to work for a longer or a shorter time and does not apply to agricultural laborers. It is unlawful for employers to work their employés longer than eight hours per day in mines and smelters, or as train dispatchers, etc., on railroads, unless the office is open only during the daytime. Eight hours are a day's labor on highways.

Montana.—Eight hours constitute a legal day's work for persons engaged to operate or handle hoisting engines at mines. The law applies only to such plants as are in operation sixteen or more hours per day, or at or in mines where the engine develops fifteen or more horse-power, or where fifteen or more men are employed underground in the twenty-four hours. A day's labor on public works and in smelters and underground mines is limited to eight hours per day.

Nebraska.—Eight hours constitute a day's work on public roads and on all public works in cities of the first class.

Nevada.—For labor on public highways, in underground mines and in smelters, as train dispatchers, etc., on railroads, and on all works and undertakings carried on or aided by the State, county, or municipal governments, the hours of labor are fixed at eight per day.

New Mexico.—Eight hours constitute a day's labor on public roads and highways.

LABOR LEGISLATION—Continued.

New York.—Eight hours constitute a day's work on highways, and on work done by or for the State, or a municipal corporation, whether directly by contractors or sub-contractors; also for all classes of employes, except in farm or domestic labor, though overwork for extra pay is permitted in private employments.

North Carolina.—Train despatchers, etc., on railroads may work only eight hours, unless otherwise permitted by the corporation commission.

North Dakota.—Eight hours are a day's labor on public roads.

Ohio.—Eight hours shall constitute a day's work in all engagements to labor in any mechanical, manufacturing, or mining business, unless otherwise expressly stipulated in the contract.

Oklahoma.—Eight hours constitute a day's labor on all public works.

Oregon.—Eight hours constitute a day's labor on all public works, and in underground mines yielding metal.

Pennsylvania.—Eight hours of labor shall be deemed and held to be a legal day's work in all cases of labor and service by the day where there is no agreement or contract to the contrary. This does not apply to farm or agricultural labor or to service by the year, month, or week. Eight hours constitute a day's labor for all mechanics, workmen, and laborers in the employ of the State, or of any municipal corporation therein, or otherwise engaged on public works. This act shall be deemed to apply to employes of contractors.

Philippine Islands.—Eight hours constitute a day's work on highways.

Porto Rico.—No laborer may be compelled to work more than eight hours per day on public works.

South Dakota.—For labor on public highways a day's work is fixed at eight hours.

Tennessee.—Eight hours shall be a day's work on the highways.

Texas.—Eight hours constitute a day's work on the highways, and by train despatchers, etc., except at stations where but one operator is employed.

Utah.—Eight hours constitute a day's labor on all works carried on or aided by the State, county, or municipal governments, and in all underground mines or workings, and in smelters and all other establishments for the reduction of ores.

Washington.—Eight hours in any calendar day shall constitute a day's work on any work done for the State, or for any county or municipality.

West Virginia.—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics who may be employed by or on behalf of the State, and for telegraph operators directing the movement of trains where three or more passenger or ten or more freight trains pass in twenty-four hours.

Wisconsin.—In all engagements to labor in any manufacturing or mechanical business, where there is no express contract to the contrary, a day's work shall consist of eight hours, but the law does not apply to contracts for labor by the week, month, or year. Eight hours constitute a day's labor on the public highways, and for train despatchers.

Wyoming.—Eight hours' actual work constitute a legal day's labor in all mines and on all State and municipal works.

United States.—A day's work for all laborers, workmen and mechanics who may be employed by the United States, or by any contractor or sub-contractor upon any of the public works of the United States, is limited to eight hours.

THE WORLD ALMANAC is indebted to Commissioner Charles P. Neill of the U. S. Bureau of Labor for this Summary of Labor Legislation revised to date.

General Labor Organizations.**AMERICAN FEDERATION OF LABOR.**

PRESIDENT, Samuel Gompers, 801-809 G Street, N.W., Washington, D.C.; Secretary, Frank Morrison, same address; Treasurer, John B. Lennon, Bloomington, Ill.; First Vice-President, James Duncan, Hancock Building, Quincy, Mass.; Second Vice-President, John Mitchell, 10096 Metropolitan Building, New York City; Third Vice-President, James O'Connell, 402 McGill Building, Washington, D.C.; Fourth Vice-President, D. A. Hayes, 930 Witherspoon Building, Philadelphia, Pa.; Fifth Vice-President, Wm. D. Huber, Carpenters' Building, Indianapolis, Ind.; Sixth Vice-President, Jos. F. Valentine, Commercial Tribune Building, Cincinnati, Ohio; Seventh Vice-President, John R. Alpine, 401 Bush Temple of Music, Chicago, Ill.; Eighth Vice-President, H. B. Perham, Star Building, St. Louis, Mo.

The Federation is composed of 118 national and international unions, representing approximately 27,000 local unions, 4 departments, 38 State branches, 594 city central unions, and 573 local unions. The approximate paid membership is 2,000,000. The affiliated unions publish about 245 weekly or monthly papers, devoted to the cause of labor. The official organ is the *American Federationist*, edited by Samuel Gompers. There are 1,002 organizers of local unions acting under the orders of the American Federation of Labor. The objects and aims of the American Federation of Labor are officially stated to render employment and means of subsistence less precarious by securing to the workers an equitable share of the fruits of their labor.

INTERNATIONAL UNIONS COMPRISING THE AMERICAN FEDERATION OF LABOR.

Actors' International Union. Lew Morton, 8 Union Square, New York, N. Y.
 Asbestos Workers of America, National Association of Heat, Frost, and General Insulators. P. G. Jensen, 330 South Garrison Avenue, St. Louis, Mo.
 Bakery and Confectionery Workers' International Union of America. Otto E. Fischer, 212 Bush Temple of Music, 221 Chicago Avenue, Chicago, Ill.
 Barbers' International Union, Journeymen. Jacob Fischer, Security Trust Building, Indianapolis, Ind.
 Bill Posters and Billers of America, International Alliance of, William McCarthy, Room 15, Broadway Theatre Building, New York.
 Blacksmiths, International Brotherhood of, Charles N. Glover, Suite 570-585 Monon Building, Chicago, Ill.
 Boiler-Makers and Iron Shipbuilders of America, Brotherhood of. W. J. Gilthorpe, Suite 7-12, Law Building, Kansas City, Kan.
 Bookbinders, International Brotherhood of. James W. Dougherty, Room 210, 132 Nassau Street, New York, N. Y.
 Boot and Shoe Workers' Union. C. L. Baine, 246 Summer Street, Boston, Mass.
 Brewery Workmen, International Union of United. Louis Kemper, Vane and Calhoun Streets, Cincinnati, Ohio.
 Brick, Tile, and Terra Cotta Workers' Alliance, International. William Van Bodegraven, Room 409, 56 Fifth Avenue, Chicago, Ill.
 Bridge and Structural Iron Workers, International Association of. J. J. McNamara, 422-424 American Central Life Building, Indianapolis, Ind.
 Broom and Whisk Makers' Union, International. C. T. Dolan, 253-261 West Harrison Street, Chicago, Ill.
 Brushmakers' International Union. R. M. Parks, 717 Washington Boulevard, Chicago, Ill.
 Carpenters and Joiners of America, United Brotherhood of. Frank Duffy, Carpenters' Building, Indianapolis, Ind.
 Carpenters and Joiners, Amalgamated Society of. Thomas Atkinson, Room 76, Bible House, New York City.
 Carriage and Wagon Workers, International. John H. Brinkman, 520 Sixth Street, N. W., Washington, D. C.
 Carvers' Association of North America, International Wood. Thomas J. Lodge, 10 Carlisle Street, Roxbury, Mass.
 Car Workers, International Association of. G. W. Gibson, Rooms 1205-1206 Star Building, 356 Dearborn Street, Chicago, Ill.
 Cement Workers, American Brotherhood of. Henry Ullner, 214 Mechanics' Bank Building, Mason and Market Streets, San Francisco, Cal.
 Chainmakers' National Union of the United States of America. C. R. Stanton, P. O. Box 13, Maxwell, Ind.
 Cigar-Makers' International Union of America. George W. Perkins, Room 823, Monon Block, 320 Dearborn Street, Chicago, Ill.
 Clerks' International Protective Association, Retail. H. J. Conway, 315 Appel Building, Denver, Col.
 Cloth Hat and Cap Makers of North America, United. Max Zuckerman, 62 East Fourth St., N. Y.
 Commercial Telegraphers' Union of America, The. Wesley Russell, 922-930 Monon Building, Chicago, Ill.
 Compressed Air Workers, International Union. William McQuade, 414 East 120th Street, New York City, Kan.
 Coopers' International Union of North America. J. A. Cable, Board of Trade Building, Kansas City, Kan.
 Curtain Operatives of America, Amalgamated Lace. George J. Raiser, 3021 North Fifth Street, Philadelphia, Pa.
 Cutting Die and Cutter Makers, International Union of. Thomas G. Shaw, 211 Hall Street, Brooklyn, N. Y.
 Electrical Workers of America, International Brotherhood of. Peter W. Collins, Pierick Building, Springfield, Ill.
 Elevator Constructors, International Union of. William Young, 1952 North 19th Street, Philadelphia, Pa.
 Engineers, International Union of Steam. R. A. McKee, 606 Main Street, Peoria, Ill.
 Engravers, International Association of Watch Case. Otto F. Altenburg, Box 263, Canton, Ohio.
 Firemen, International Brotherhood of Stationary. C. L. Shamp, Rooms 2-4, 2502 North 18th Street, Omaha, Neb.
 Fitters and Helpers of America, International Association of Steam and Hot Water. W. H. Davies, Room 205, Merrick Building, 351 West 63d Street, Chicago, Ill.

GENERAL LABOR ORGANIZATIONS—Continued.

- Flour and Cereal Mill Employés, International Union of A. E. Kellington, 316 Corn Exchange, Minneapolis, Minn.
- Foundry Employés, International Brotherhood of Geo. Bechtold, 200 South Broadway, St. Louis, Mo.
- Freight Handlers and Warehousemen's International Union of America, Interior. J. J. Flynn, Yondori Building, 210 South Halstead Street, Chicago, Ill.
- Fur Workers of the United States and Canada, International Association of A. V. McCormack, 66 Sussex Avenue, Toronto, Ontario, Can.
- Garment Workers of America, United. B. A. Langer, Rooms 116-117 Bible House, New York, N. Y.
- Garment Workers' Union, International Ladies' John Alex. Dyche, 25-27 Third Avenue, N. Y.
- Glass Bottle Blowers' Association of the United States and Canada. William Launer, Rooms 930-931 Witherspoon Building, Juniper and Walnut Streets, Philadelphia, Pa.
- Glass Workers' International Association, Amalgamated. William Figolah, 55 North Clark Street, Chicago, Ill.
- Glove Workers' Union of America, International. Agnes Nestor, Room 506, Bush Temple of Music, Chicago, Ill.
- Granite Cutters' International Association of America, The. James Duncan, Hancock Building, Quincy, Mass.
- Grinders' and Finishers' National Union, Pocket Knife Blade. F. A. Didsbury, 508 Brook Street, Bridgeport, Ct.
- Grinders' National Union, Table Knife. John F. Gleason, 76 Chestnut Street, Bristol, Ct.
- Hatters of North America, United. Martin Lawlor, Room 15, 11 Waverley Place, New York, N. Y.
- Hod Carriers and Building Laborers' Union of America, International. Eruest Villard, Realty Building, 410-412 East Market Street, Elmira, N. Y.
- Horse-Shoers of United States and Canada, International Union of Journeymen. Roady Kenehan, P. O. Box 1331, Denver, Col.
- Hotel and Restaurant Employés' International Alliance and Bartenders' International League of America. Jere. L. Sullivan, Commercial Tribune Building, Cincinnati, Ohio.
- Iron, Steel, and Tin Workers, Amalgamated Association of. John Williams, House Building, Smithfield and Water Streets, Pittsburgh, Pa.
- Jewelry Workers' Union of America, International. George Bessinger, 19 Morton Street, Newark, N. J.
- Leathers, International Union of Wood, Wire, and Metal. Ralph V. Brandt, 401 Superior Building, Cleveland, Ohio.
- Laundry Workers' International Union, Shirt, Waist and. John J. Manning, 602 Second Avenue, Troy, N. Y.
- Leather Workers on Horse Goods, United Brotherhood of. J. J. Pfeiffer, 209-210 Postal Building, Kansas City, Mo.
- Leather Workers' Union of America, Amalgamated. F. Victor Turnquist, 125 Fifth Avenue, Lowell, Mass.
- Lithographers, International Protective and Beneficial Association of the United States and Canada. John Treanor, 419 Pacific Street, Brooklyn, N. Y.
- Lithographic Press Feeders of United States and Canada, International Protective Association of. Henry Turner, 43 Centre Street, New York City.
- Longshoremen's Association, International. John J. Joyce, 601-4 Elks Temple, Detroit, Mich.
- Machine Printers and Color Mixers of the United States, National Association of. Charles McCrory, 429-42d Street, Brooklyn, N. Y.
- Machinists, International Association of. George Preston, 908-914 G Street, N. W., McGill Building, Washington, D. C.
- Maintenance of Way Employés, International Brotherhood of. S. J. Pegg, Vanol Building, 3900 Olive Street, St. Louis, Mo.
- Marble Workers, International Association of. Stephen C. Hogan, 632 Eagle Avenue, New York, N. Y.
- Meat Cutters and Butchers' Workmen of North America, Amalgamated. Homer D. Call, 801 Cortland Avenue, Syracuse, N. Y.
- Metal Polishers, Buffers, Platers, and Brass Workers' International Union of North America. Charles R. Atherton, Neave Building, Cincinnati, Ohio.
- Metal Workers' International Alliance, Amalgamated Sheet. John E. Bray, 325 Nelson Building, Kansas City, Mo.
- Mine Workers of America, United. Edwin Perry, State Life Building, Indianapolis, Ind.
- Moulders' Union of North America, International. E. J. Denney, 530 Walnut Street, Cincinnati, Ohio.
- Musicians, American Federation of. Owen Miller, 3535 Pine Street, St. Louis, Mo.
- Painters, Decorators and Paperhangers of America, Brotherhood of. J. C. Skemp, Drawer 99, Lafayette, Ind.
- Paper-Makers of America, United Brotherhood of. J. T. Carey, 22 Smith Building, Watertown, N. Y.
- Pattern-Makers' League of North America. James Wilson, Second National Bank Building, Ninth and Main Streets, Cincinnati, O.
- Pavers, Rammermen, Flag Layers, Bridge and Stone Curb Setters, International Union of. Edward I. Hannah, 249 East 57th Street, New York.
- Paving Cutters' Union of the United States of America and Canada. John Sheret, Lock Box 118, Albion, N. Y.
- Photo-Engravers' Union of North America, International. Louis A. Schwarz, 228 Apsley Street, Philadelphia, Pa.
- Piano and Organ Workers' Union of America, International. Charles Dold, 1323 Greenwood Terrace, Chicago, Ill.
- Plasterers' International Association of the United States and Canada, Operative. Joseph McIlveen, 2909 Wylie Avenue, Pittsburgh, Pa.
- Plate Printers' Union of North America, International Steel and Copper. T. L. Mahan, 313 S Street, N. E., Washington, D. C.
- Plumbers, Gas Fitters, Steam Fitters, and Steam Fitters' Helpers, of United States and Canada, United Association of. John M. Love, 401-406 Bush Temple of Music, Chicago, Ill.
- Post-Office Clerks, National Federation of. George F. Pfeiffer, 377 Albion Street, Milwaukee, Wis.
- Potters, National Brotherhood of Operative. Edward Menge, Box 181, East Liverpool, Ohio.
- Powder and High Explosive Workers of America, United. Charles L. Thomas, Olyphant, Pa.

GENERAL LABOR ORGANIZATIONS—Continued.

Print Cutters' Association of America, National. Thos. I. G. Eastwood, 434-436 West 164th Street, New York, N. Y.

Printing Pressmen's Union, International. Patrick McMullen, Rooms 802-807, Lyric Theatre Building, Cincinnati, Ohio.

Pulp, Sulphite and Paper Mill Workers of the United States and Canada, International Brotherhood of. John H. Math, P. O. Drawer K, Fort Edward, N. Y.

Quarryworkers' International Union of North America. P. F. McCarthy, Scampini Building, Barre, Vt.

Railroad Telegraphers, Order of. L. W. Quick, Star Building, St. Louis, Mo.

Railway Clerks, Brotherhood of. R. E. Fisher, 307-310 Kansas City Life Building, Kansas City, Mo.

Leau, Chicago, Ill.; John Fernau, Pittsburgh, Pa.

Passport Regulations.

Rules governing the granting and issuing of passports in the United States:

1. **By Whom Issued and Refusal to Issue.**—No one but the Secretary of State may grant and issue passports in the United States (Revised Statutes, sections 4073, 4078), and he is empowered to refuse them in his discretion. Passports are not issued by American diplomatic and consular officers abroad, except in cases of emergency; and a citizen who is abroad and desires to procure a passport must apply therefor through the nearest diplomatic or consular officer to the Secretary of State. Applications for passports by persons in Porto Rico or the Philippines should be made to the Chief Executives of those islands. The evidence required of such applicants is the same as that required of applicants in the United States.
2. **Fee.**—By act of Congress approved March 23, 1888, a fee of one dollar is required to be collected for every citizen's passport. That amount in currency or postal money order should accompany each application made by a citizen of the United States. Orders should be made payable to the Disbursing Clerk of the Department of State. Drafts or checks will not be accepted.
3. **APPLICATIONS.**—A person who is entitled to receive a passport, if within the United States, must make a written application, in the form of an affidavit, to the Secretary of State. The application must be made by the person to whom the passport is to be issued and signed by him, as it is not competent for one person to apply for another. The affidavit must be attested by an officer authorized to administer oaths, and if he has an official seal it must be affixed. If he has no seal, his official character must be authenticated by certificates of the proper legal officer. If the applicant signs by mark, two attesting witnesses to his signature are required. The applicant is required to state the date and place of his birth, his occupation, the place of his permanent residence and within what length of time he will return to the United States with the purpose of residing and performing the duties of citizenship. The applicant must take the oath of allegiance to the Government of the United States. The application must be accompanied by a description of the person applying, and should state the following particulars, viz.: Age, — years; stature, — feet — inches (English measure); forehead, —; eyes, —; nose, —; mouth, —; chin, —; hair, —; complexion, —; face, —. The application must be accompanied by a certificate from at least one credible witness that the applicant is the person he represents himself to be, and that the facts stated in the affidavit are true to the best of the witness's knowledge and belief.
4. **NATIVE CITIZENS.**—An application containing the information indicated by rule 3 will be sufficient evidence in the case of native citizens. A person of the Chinese race, alleging birth in the United States, must accompany his application with a certified copy of a Chinese return certificate issued by the immigration official in charge at the port of proposed departure, or, in lieu thereof, the duplicate application for such certificate, signed by the immigration official located nearest to his place of residence, who made the preinvestigation of his claim.
5. **A PERSON BORN ABROAD WHOSE FATHER WAS A NATIVE CITIZEN OF THE UNITED STATES.**—In addition to the statements required by rule 3, his application must show that his father was born in the United States, resided therein, and was a citizen at the time of the applicant's birth. The Department may require that this affidavit be supported by that of one other citizen acquainted with the facts.
6. **NATURALIZED CITIZENS.**—In addition to the statements required by rule 3, a naturalized citizen must transmit his certificate of naturalization, or a duly certified copy of the court record thereof, with his application. It will be returned to him after inspection. He must state in his affidavit when and from what port he emigrated to this country, what ship he sailed in, where he has lived since his arrival in the United States, when and before what court he was naturalized, and that he is the identical person described in the certificate of naturalization. The signature to the application should conform in orthography to the applicant's name as written in his certificate of naturalization, or an explanation of the difference should be submitted.
7. **WOMAN'S APPLICATION.**—If she is unmarried, in addition to the statements required by rule 3, she should state that she has never been married. If she is the wife or widow of a native citizen of the United States the fact should be made to appear in her application which should be made according to the form prescribed for a native citizen whether she was born in this country or abroad. If she is the wife or widow of a naturalized citizen, in addition to the statements required by rule 3, she must transmit for inspection her husband's certificate of naturalization, must state that she is the wife (or widow) of the person described therein, and must set forth the facts of his emigration, naturalization, and residence, as required in the rule governing the application of a naturalized citizen. A married woman's citizenship follows that of her husband so far as her international status is concerned. It is essential, therefore, that a woman's marital relations be indicated in her application for a passport, and that in the case of a married woman her husband's citizenship be established.
8. **THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT.**—In addition to the statements required by rule 3, the applicant must state that he or she is the son or daughter, in the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence, as required in the rule governing the application of a naturalized citizen.
9. **A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES.**—In addition to the statements required by rule 3, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other government; and must submit affidavits from at least two credible witnesses having good means of knowledge in substantiation of his statements of birth, residence, and loyalty.
10. **EXPIRATION OF PASSPORT.**—A passport expires two years from the date of its issuance. A new one will be issued upon a new application, and if the applicant be a naturalized citizen, the old passport will be accepted in lieu of a certificate of naturalization, if the application upon which it was issued is found to contain sufficient information as to the naturalization of the applicant.
11. **WIFE, MINOR CHILDREN, AND SERVANTS.**—When the applicant is accompanied by his wife, minor children, or servant who would be entitled to receive a passport, it will be sufficient to state the fact, giving the respective ages of the children and the allegiance of the servant, when one passport will suffice for all. For any other person in the party a separate passport will be required. A woman's passport may include her minor children and servant under the above-named conditions. The term servant does not include a governess, tutor, pupil, companion, or person holding like relations to the applicant for a passport.
12. **TITLES.**—Professional and other titles will not be inserted in passports.
13. **BLANK FORMS OF APPLICATION.**—They will be furnished by the Department to persons who desire to apply for passports, but are not furnished, except as samples, to those who make a business of procuring passports.
14. **ADDRESS.**—Communications should be addressed to the Department of State, Bureau of Citizenship, and each communication should give the post-office address of the person to whom the answer is to be directed.

Section 4073 of the Revised Statutes of the United States, as amended by the act of Congress, approved June 14, 1902, providing that "the Secretary of State may grant and issue passports, and cause passports to be granted, issued, and verified in foreign countries by such diplomatic or consular officers of the United States, as by such chief or other executive officer of the insular possessions of the United States, and under such rules as the President shall designate and prescribe for and on behalf of the United States," the foregoing rules are hereby prescribed for the granting and issuing of passports in the United States. The Secretary of State is authorized to make regulations on the subject of issuing and granting passports additional to these rules and not inconsistent with them.

THE WHITE HOUSE, May 28, 1909.

WM. H. TAFT.

Naturalization Laws of the United States.

The conditions under and the manner in which an alien may be admitted to become a citizen of the United States are prescribed by Sections 2, 185-74 of the Revised Statutes of the United States, as amended by Chapter 3593 of the Acts of the First Session of the 59th Congress and Chapter 2534 of the Acts of the Second Session of the 59th Congress.

DECLARATION OF INTENTIONS.

The alien must declare upon oath before a circuit or district court of the United States or a district or supreme court of the Territories, or a court of record of any of the States having common law jurisdiction and a seal and clerk, of which he is a resident, two years at least prior to his admission that it is, *bona fide*, his intention to become a citizen of the United States, and to renounce forever all allegiance and fidelity to any foreign prince or State, and particularly to the one of which he may be at the time a citizen or subject.

PETITION ON APPLICATION FOR ADMISSION.

At the time of his application for admission, which must be not less than two years nor more than seven years after such declaration of intention, he shall make and file a petition in writing, signed by himself (and duly verified by the affidavits of two credible witnesses who are citizens of the United States, and who shall state that they have personally known him to be a resident of the United States at least five years continuously, and of the State or district at least one year previously), in one of the courts above specified, that it is his intention to become a citizen and reside permanently in the United States, that he is not a disbeliever in organized government or a believer in polygamy, and that he absolutely and forever renounces all allegiance and fidelity to any foreign country of which he may at any time of filing his petition be a citizen or subject.

CONDITIONS FOR CITIZENSHIP.

He shall, before his final admission to citizenship, declare on oath in open court that he will support the Constitution of the United States, and that he absolutely and entirely renounces all foreign allegiance. If it shall appear to the satisfaction of the court that immediately preceding the date of his application he has resided continuously within the United States five years at least, and within the State or Territory where such court is held one year at least, and that during that time he has behaved as a man of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the same, he may be admitted to citizenship. If the applicant has borne any hereditary title or order of nobility he must make an express renunciation of the same. No person who believes in or is affiliated with any organization teaching opposition to organized government or who advocates or teaches the duty of unlawfully assaulting or killing any officer of any organized government because of his official character, shall be naturalized. No alien shall be naturalized who cannot speak the English language. An alien soldier of the United States Army of good character may be admitted to citizenship on one year's previous residence. Any alien in the United States navy or marine corps, who has served five consecutive years in the United States navy or one enlistment in the United States marine corps, and honorably discharged, shall be admitted to citizenship upon his petition, without any previous declaration of his intention to become a citizen. Any American woman that marries a foreigner shall take the nationality of her husband. At the termination of the marital relation she may resume her American citizenship, if abroad, by registering as an American citizen within one year with a consul of the United States, or by returning to reside in the United States, or, if residing in the United States at the termination of the marital relation, by continuing to reside therein.

MINORS.

An alien minor may take out his first papers on attaining the age of eighteen years, but he can only become a citizen after having his first papers at least two years, and having resided within the United States five years, and after having attained the age of twenty-one years.

The children of persons who have been duly naturalized being under age of twenty-one years at the time of the naturalization of their parents, shall, if dwelling in the United States, be considered as citizens thereof.

The children of persons who now are or have been citizens of the United States are, though born out of the limits and jurisdiction of the United States, considered as citizens thereof. Provided, That such naturalization or resumption takes place during the minority of such child: And provided further, That the citizenship of such minor child shall begin at the time such minor child begins to reside permanently in the United States. All children born outside the limits of the United States who are citizens thereof and who continue to reside outside the United States shall, in order to receive the protection of this Government, be required upon reaching the age of eighteen years to record at an American consulate their intention to become residents and remain citizens of the United States, and shall be further required to take the oath of allegiance to the United States upon attaining their majority.

CHINESE.

The naturalization of Chinamen is expressly prohibited by Sec. 14, Chap. 126, Laws of 1882.

PROTECTION ABROAD TO NATURALIZED CITIZENS.

Section 2,000 of the Revised Statutes of the United States declares that "all naturalized citizens of the United States while in foreign countries are entitled to and shall receive from this Government the same protection of persons and property which is accorded to native-born citizens. But when a naturalized citizen shall have resided for two years in the foreign State from which he came, it shall be presumed that he has ceased to be an American citizen, and his place of general abode shall be deemed his place of residence during the said years." It is provided that such a presumption may be overcome on the presentation of satisfactory evidence before a diplomatic or consular officer of the United States. No American citizen shall be allowed to expatriate himself while this country is at war. Any American citizen shall be deemed to have expatriated himself when he has been naturalized in any foreign State in conformity with its laws, or when he has taken an oath of allegiance to any foreign State.

THE RIGHT OF SUFFRAGE.

The right to vote comes from the State, and is a State gift. Naturalization is a Federal right and is a gift of the Union, not of any one State. In nearly one-half of the Union aliens (who have declared intentions) vote and have the right to vote equally with naturalized or native-born citizens. In the other half only actual citizens may vote. (See Table of Qualifications for Voting in each State, on another page.) The Federal naturalization laws apply to the whole Union alike, and provide that no alien may be naturalized until after five years' residence. Even after five years' residence and due naturalization he is not entitled to vote unless the laws of the State confer the privilege upon him, and he may vote in several States six months after landing, if he has declared his intention, under United States law, to become a citizen.

INHABITANTS OF THE NEW INSULAR POSSESSIONS.

The inhabitants of Hawaii were declared to be citizens of the United States under the act of 1900 creating Hawaii a Territory. Under the United States Supreme Court decision in the Insular cases, in May, 1901, the inhabitants of the Philippines and Porto Rico are entitled to full protection under the Constitution, but not to the privileges of United States citizenship until Congress so decrees, by admitting the countries as States or organizing them as Territories.

The United States Census.

THE Constitution requires that a census of the United States shall be taken decennially. The First Census was taken in 1790 under the supervision of the President; subsequent censuses, to and including that of 1840, were taken under the supervision of the Secretary of State. In 1849 the supervision of the census was transferred to the newly organized Department of the Interior, and continued under the control of that department until the passage of the act of 1903 creating the Department of Commerce and Labor; by this act the Census Office was transferred to the supervision of the new department. Congress, by act approved March 6, 1902, made the Census Office a permanent bureau of the Government.

The last census of the United States was taken in 1900, in accordance with the act of Congress approved March 3, 1899. This act divided the statistical inquiry into two classes: Reports of the Twelfth Census, comprising population, manufactures, agriculture, and vital statistics; and special reports, the insane and feeble-minded, deaf, dumb, and blind; crime, pauperism, and benevolence; deaths and births in registration areas, social statistics of cities, wealth, debt, and taxation; religious bodies, electric light and power, telephones and telegraphs, transportation by water, street railways, express companies, and mines and mining. To these were subsequently added annual statistics of cotton production. The series comprising the main reports of the Twelfth Census were by law ordered compiled and published by July 1, 1902, after which the special reports were to receive consideration. In accordance with this law, ten volumes of the main reports, comprising about 10,000 pages, were published within the period specified, and summaries of these reports will be found on other pages of *THE WORLD ALMANAC*.

Since July 1, 1902, the Bureau of the Census has been engaged in securing and tabulating statistics relating to the secondary reports, several of which have been completed or are now approaching completion. By act of Congress the President was empowered to instruct the Census Office to compile the census of the Philippine Islands. In compliance with the President's order the tabulation was made and the reports were published in four volumes. An edition in Spanish was also issued. Numerous minor assignments of statistical work have been made to the Bureau. It is likely, indeed, to become the main producer of, or clearing-house for, Federal statistics, as predicted during the discussion that preceded the establishment of the permanent office. Since the publication of the main reports of the Twelfth Census the Bureau has published the Abstract of the Twelfth Census, the Statistical Atlas of the United States, special reports on Employés and Wages, Occupations, Mines and Quarries, Street Railways, Benevolent Institutions, Electric Light and Power Stations, the Blind and the Deaf; Mortality, 1900 to 1904; Supplementary Analysis of the Twelfth Census; the Insane and Feeble-minded in Hospitals and Institutions; Paupers in Almshouses, Manufactures, 1905; Wealth, Debt, and Taxation; Prisoners; Women at Work; Mortality, 1905; and bulletins on Statistics of Cities, Valuation of Railway Operating Property, and Child Labor. It has also completed the census of Manufactures of 1905, and issued the reports on Wages and Transportation by Water. During 1909 the Bureau will be occupied principally in completing the reports on Marriage and Divorce; Religious Bodies; Criminal Judicial Statistics; Express Companies; the annual reports on Mortality and Cotton Production and Consumption, and preliminary work for the Thirteenth Census.

The Director of the Census is appointed by the President of the United States, and receives a salary of \$7,000 per annum. The present Director is E. Dana Durand of California. The office organization consists of an assistant director, William P. Willoughby, a chief clerk, A. H. Baldwin, an appointment clerk, Robert M. Pindell, Jr., a disbursing clerk, Thomas S. Merrill, five chief statisticians: For population, Wm. C. Hunt; for Manufactures, William M. Steuart; for Agriculture, Le Grand Powers; for Vital Statistics, Cressy L. Wilbur; and for Revision and Results, J. A. Hill; a geographer, Charles S. Sloane; and such administrative chiefs as are required by the demands of the office. The entire number of employés in the Bureau on July 1, 1909, was 621. This number does not include special agents employed intermittently in the Southern States, for the collection of cotton statistics.

Under the terms of the act passed by Congress on July 2, 1909, the Thirteenth Census will be taken as of April 15, 1910, instead of June 1. The office force will be greatly enlarged, and it is estimated that the clerical force will number 3,500 employés. There will be 330 supervisors of the Census, and approximately 65,000 enumerators, and the probable expenditure is estimated at \$14,000,000 for the decennial period, from July 1, 1909 to June 30, 1912.

THE CENSUS OF 1910.

The law providing for the taking of the Thirteenth and subsequent decennial censuses of the United States received the approval of Congress July 2, 1909. It follows, in the main, the provisions of the act for the taking of the Twelfth Census but differs from it in the following important respects:

1. One of the inquiries of the Twelfth Census—that relative to deaths in the general population—has been dropped. The reasons are twofold. Fifty years of experiment, from 1850 to 1900, has established with certainty the fact that not more than seven-tenths of all the deaths which occur in a given community during a year can be obtained by enumerators asking at the close of that year of each family a report of any deaths which had occurred therein during the preceding twelve months. Tables so imperfect have very little statistical or medical value, and are constantly misunderstood by the public. So wide a margin of error in one branch of the Census tends to discredit more accurate results reached in other divisions. Furthermore, the Bureau of the Census, by acting in co-operation with States and cities having trustworthy local systems for the registration of births and deaths, is now annually publishing returns for over one-half of the population of the country, which probably cover 95 per cent. of all deaths occurring within those districts and furnish a far better index to the death rate in the whole country than enumerators' returns for the United States could do. In 1909, the Bureau of the Census likewise inaugurated the system of securing and publishing statistics of births occurring within such districts.

2. While this inquiry into deaths for the whole country has been dropped, another inquiry has been added—that into mines and quarries. This has been done, both because the past experience of the Bureau of the Census shows that the dividing line between manufactures on the one hand, and mines and quarries on the other, is one exceedingly

THE UNITED STATES CENSUS.—Continued.

difficult to draw, and because it is desirable to have the statistics relative to this branch of industry relate to the same date as those relative to manufactures, instead of being covered by a special investigation such as was made in 1902.

3. The enumeration of population and of farms will be had in April instead of June, as formerly, this change being made for the reason that fewer people are absent from their homes in the former than in the latter month.

4. The Census of manufacturing and mining and quarrying will relate to the calendar year 1909, instead of the fiscal year of each concern ending next preceding June, 1900, as was the case in the Twelfth Census. This change will make it possible to put field agents at work collecting the statistics in January, 1910, and will thus facilitate greatly the completion of the report within the time limit fixed by law.

5. The act provides for the appointment of the temporary clerical help required for the tabulation and presentation of the information collected by Civil Service Examination, a requirement not found in previous acts. Although not required by statute, it is also the intention of the Director to provide for the appointment of the special field agents, who will collect the statistics of particular industries by means of a special competitive examination open to all applicants. It is estimated that for performing the work entailed by the taking of the Thirteenth Census the services will be required of 330 supervisors, 65,000 enumerators, and 4,000 temporary employees at Washington.

By act approved June 29, 1909, \$10,000,000 was appropriated to meet the expenses of the Thirteenth Census and that of the current work of the Bureau during the fiscal year 1909-10. It is estimated that a further appropriation of \$4,000,000 will be required during the next two years to complete the Census and continue the Bureau's regular work.

The Census will include Alaska, Hawaii and Porto Rico, but not the Philippine Islands, the Census of the latter having been taken in 1903. The results of the Census must be completed and published by July 1, 1912, the law thus following that providing for the Twelfth Census in respect to insuring prompt publication, instead of permitting the presentation of results to be delayed seven or eight years after the Census day as was the case at certain previous censuses.

The act provides for an assistant director, a fifth chief statistician, and certain other employees to hold office during the three years to be covered by the census work. On July 1, 1912, the Bureau of the Census will revert to its permanent personnel, and thus, so to speak, return to a piece footing.

PROVISIONS OF THE CENSUS ACT.

The following are the provisions of the Census act, which covers some of its most important requirements:

"Section 8. That the Thirteenth Census shall be restricted to inquiries relating to population, to agriculture, to manufactures, and to mines and quarries."

POPULATION.

"The schedules relating to population shall include for each inhabitant the name, relationship to head of family, color, sex, age, conjugal condition, place of birth, place of birth of parents, number of years in the United States, citizenship, occupation, whether or not employer or employee, and, if employee whether or not employed at the date of enumeration and the number of months unemployed during the preceding calendar year, whether or not engaged in agriculture, school attendance, literacy, and tenure of home and whether or not a survivor of the Union or Confederate Army or Navy; and the name and address of each blind or deaf and dumb person; and for the enumeration of institutions, shall include paupers, prisoners, juvenile delinquents, insane, feeble-minded, blind, deaf and dumb, and inmates of benevolent institutions."

AGRICULTURE.

"The schedules relating to agriculture shall include name, color and country of birth of occupant of each farm, tenure, acreage of farm, acreage of woodland and character of timber thereon, value of farm and improvements, value of farm implements, number and value of live stock on farms and ranges, number and value of domestic animals not on farms and ranges, and the acreage of crops planted and to be planted during the year of enumeration, and the acreage of crops and the quantity and value of crops and other farm products for the year ending December 31 next preceding the enumeration."

MANUFACTURES AND MINES.

"The schedules of inquiries relating to manufactures and to mines and quarries shall include the name and location of each establishment; character of organization, whether individual, co-operative, or other form; character of business or kind of goods manufactured; amount of capital actually invested; number of proprietors, firm members, co-partners, stockholders and officers, and the amount of their salaries; number of employees and the amount of their wages; quantity and cost of materials used in manufactures; amount of miscellaneous expenses; quantity and value of products; time in operation during the census year; character and quantity of power used, and the character and number of machines employed.

"The census of manufactures and of mines and quarries shall relate to the year ending December thirty-first next preceding the enumeration of population and shall be confined to mines and quarries and manufacturing establishments which were in active operation during all or a portion of that year. The census of manufactures shall furthermore be confined to manufacturing establishments conducted under what is known as the factory system, exclusive of the so-called neighborhood, household and hand industries.

"The inquiry concerning manufactures shall cover the production of turpentine and rosin and the report concerning this industry shall show in addition to the other facts covered by the regular schedule of manufactures, the quantity and quality of turpentine and rosin manufactured and marketed, the sources, methods, and extent of the industry.

"Whenever he shall deem it expedient, the Director of the Census may charge the

THE UNITED STATES CENSUS.—Continued.

collection of these statistics upon special agents or upon detailed employees, to be employed without respect to locality.

"The form and subdivision of inquiries necessary to secure the information under the foregoing topics shall be determined by the Director of the Census."

DUTY OF CITIZENS TO ANSWER QUESTIONS.

"Section 23. That it shall be the duty of all persons over twenty-one years of age when requested by the Director of the Census, or by any supervisor, enumerator, or special agent, or owner employee of the Census Office, acting under the instructions of the said Director, to answer correctly, to the best of their knowledge, all questions on the census schedules applying to themselves and to the family to which they belong or are related, and to the farm or farms of which they or their families are the occupants; and any person over twenty-one years of age who, under the conditions hereinbefore stated, shall refuse or wilfully neglect to answer any of these questions, or shall wilfully give answers that are false, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not exceeding \$100.

"And it shall be the duty of every owner, proprietor, manager, superintendent, or agent of a hotel, apartment house, boarding or lodging house, tenement, or other building, when requested by the Director of the Census, or by any supervisor, enumerator, special agent, or other employee of the Census Office, acting under the instructions of the said Director, to furnish the names of the occupants of said hotel, apartment house, boarding or lodging house, tenement, or other building, and to give thereto free ingress and egress to any duly accredited representative of the Census Office, so as to permit of the collection of statistics for census purposes including the proper and correct enumeration of all persons having their usual place of abode in said hotel, apartment house, boarding or lodging house, tenement, or other building; and any owner, proprietor, manager, superintendent, or agent of a hotel, apartment house, boarding or lodging house, tenement or other building who shall refuse or wilfully neglect to give such information or assistance under the conditions hereinbefore stated shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not exceeding \$500.

"Section 24. And it shall be the duty of every owner, president, treasurer, secretary, director, or other officer or agent of any manufacturing establishment, mine, quarry, or other establishment of productive industry, whether conducted as a corporation, firm, limited liability company, or by private individuals, when requested by the Director of the Census or by any supervisor, enumerator, special agent, or other employee of the Census Office, acting under the instructions of the said Director, to answer completely and correctly to the best of his knowledge all questions on any census schedule applying to such establishment; and any owner, president, secretary, director, or other officer or agent of any manufacturing establishment, mine, quarry, or other establishment of productive industry, who under the conditions hereinbefore stated shall refuse or wilfully neglect to answer any of these questions, or shall wilfully give answers that are false, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not exceeding \$10,000, or imprisoned for a period not exceeding one year, or both so fined and imprisoned, at the discretion of the court. The provisions of this section shall also apply to the collection of the information required and authorized by the act entitled 'An act to provide for a permanent Census Office,' and by acts amendatory thereof or supplemental thereto."

INFORMATION RECEIVED AS CONFIDENTIAL.

"Section 25. That the information furnished under the provisions of the next preceding section shall be used only for the statistical purposes for which it is supplied. No publication shall be made by the Census Office whereby the data furnished by any particular establishment can be identified, nor shall the Director of the Census permit any one other than the sworn employees of the Census Office to examine the individual reports."

Interstate Commerce Law.

The following is a synopsis of the provisions of the Interstate Commerce law and acts amendatory thereof, prepared for the Official Congressional Directory:

Under "An Act to Regulate Commerce," approved February 4, 1887; as amended March 2, 1889; February 10, 1891; February 8, 1895; the "Elkins act" of February 19, 1903, and the amending act approved June 29, 1906, the Interstate Commerce Commission is composed of seven members, each receiving a salary of \$10,000 per annum. The regulating statutes apply to all common carriers engaged in the transportation of oil or other commodity, except water and except natural or artificial gas, by means of pipe lines, or partly by pipe line and partly by rail, or partly by pipe line and partly by water, and to common carriers engaged in the transportation of passengers or property wholly by railroad (or partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment). The statutes apply generally to interstate traffic, including import and domestic traffic, and also that which is carried wholly within any territory of the United States. Only traffic transported wholly within a single State is excepted.

The Commission has jurisdiction on complaint, and, after full hearing, to determine and prescribe reasonable rates, regulations, and practices, and order reparation to injured shippers; to require any carriers to cease and desist from unjust discrimination, or undue or unreasonable preference, and to institute and carry on proceedings for enforcement of the law. The Commission may also inquire into the management of the business of all common carriers subject to the provisions of the regulating statutes, and it may prescribe the accounts, records, and memoranda which shall be kept by the carriers, and from time to time inspect the same. The carriers must file annual reports with the Commission, and such other reports as may from time to time be required. Various other powers are conferred upon the Commission. Carriers failing to file and publish all rates and charges, as required by

INTERSTATE COMMERCE LAW—Continued.

law, are prohibited from engaging in interstate transportation, and penalties are provided in the statute for failure on the part of carriers or of shippers to observe the rates specified in the published tariffs.

The Commission also appoints a Secretary and clerks, whose duties are not specifically defined by the act.

The act of February 11, 1903, provides that suits in equity brought under the act to regulate commerce, wherein the United States is complainant, may be expedited and given precedence over other suits, and that appeals from the Circuit Court lie only to the Supreme Court. The act of February 19, 1903, commonly called the Elkins law, penalizes the offering, soliciting, or receiving of rebates, allows proceedings in the courts by injunction to restrain departures from published rates, and makes the Expediting act of February 11, 1903, include cases prosecuted under the direction of the Attorney-General in the name of the Commission.

Under the act of August 7, 1888, all railroad and telegraph companies to which the United States have granted any subsidy in lands or bonds or loan of credit for the construction of either railroad or telegraph lines are required to file annual reports with the Commission and such other reports as the Commission may call for. The act also directs every such company to file with the Commission copies of all contracts and agreements of every description existing between it and every other person or corporation whatsoever in reference to the ownership, possession, or operation of any telegraph lines over or upon the right of way, and to decide questions relating to the interchange of business between such government-aided telegraph company and any connecting telegraph company. The act provides penalties for failure to perform and carry out within a reasonable time the order or orders of the Commission.

The act of March 2, 1893, known as the "Safety Appliance act," provides that within specified periods railroad cars used in interstate commerce must be equipped with automatic couplers and standard height of drawbars for freight cars, and have grab irons or hand holds in the ends and sides of each car. A further provision is that locomotive engines used in moving interstate traffic shall be fitted with a power driving-wheel brake and appliances for operating the train-brake system, and a sufficient number of cars in the train shall be equipped with power or train brakes. The act directs the Commission to lodge with the proper District Attorneys information of such violations as may come to its knowledge. The Commission is authorized to, from time to time, upon full hearing and for good cause, extend the period within which any common carrier shall comply with the provisions of the statute. The act of March 2, 1903, amended this act so as to make its provisions apply to Territories and the District of Columbia to all cases when couplers of whatever design are brought together, and to all locomotives, cars, and other equipment of any railroad engaged in interstate traffic, except logging cars and cars used upon street railways, and also to power or train brakes used in railway operation.

The act of June 1, 1898, concerning carriers engaged in interstate commerce and their employes, known as the "Arbitration Act," directs the Chairman of the Interstate Commerce Commission and the Commissioner of Labor to use their best efforts, by mediation and conciliation, to settle controversies between railway companies and their employes. Every agreement of arbitration made under the act must be forwarded to the Chairman of the Interstate Commerce Commission, who shall file the same in the office of that Commission. When the agreement of arbitration is signed by employes individually instead of a labor organization, the act provides, if various specified conditions have been complied with, that the Chairman of the Commission shall, by notice in writing, fix a time and place for the meeting of the Board of Arbitrators. If the two arbitrators chosen by the parties fail to select a third within five days after the first meeting, the third arbitrator shall be named by the Chairman of the Interstate Commerce Commission and the Commissioner of Labor.

The act of March 3, 1901, "requiring common carriers engaged in interstate commerce to make reports of all accidents to the Interstate Commerce Commission," makes it the duty of such carrier to monthly report, under oath, all collisions and derailments of its trains and accidents to its passengers, and to its employes while on duty in its service, and to state the nature and causes thereof. The act prescribes that a fine shall be imposed against any such carrier failing to make the report so required.

The act of March 4, 1907, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is made unlawful to require or permit employes engaged in or connected with the movement of trains to be on duty more than a specified number of hours in any twenty-four.

The act of May 23, 1908, by section 16 thereof, gives the Interstate Commerce Commission limited control over the street railroads in the District of Columbia.

The act of May 30, 1908, directs the Interstate Commerce Commission to make regulations for the safe transportation of explosives by common carriers engaged in interstate commerce. A penalty is provided for violations of such regulations.

The act of May 30, 1908, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is provided that after a certain date no locomotive shall be used in moving interstate or foreign traffic, etc., not equipped with an ash pan which can be emptied without requiring a man to go under such locomotive. A penalty is provided for violation of this act.

Public resolution No. 46, approved June 30, 1906, and the sundry civil appropriation act of May 27, 1908, direct the Commission to investigate and report on the use and need of appliances intended to promote the safety of railway operation.

The act of March 3, 1909, authorizes the Commission to prescribe the form of bookkeeping for the gas and electric companies of the District of Columbia.

Registration of Trade-Marks IN THE UNITED STATES.

The following are extracts from the new "Act to authorize the registration of trade-marks used in commerce with foreign nations, or among the several States or Indian tribes, and to protect the same," passed by the Fifty-eighth Congress, and approved by the President, February 20, 1905, and amended by act passed by the Fifty-ninth Congress, approved March 2, 1907, and by act of the Sixtieth Congress, approved February 18, 1909.

"The owner of a trade-mark used in commerce with foreign nations, or among the several States, or with Indian tribes, provided such owner shall be domiciled within the

REGISTRATION OF TRADE-MARKS—*Cont. mied.*

territory of the United States, or resides in or is located in any foreign country, which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trade-mark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods, and the length of time during which the trade-mark has been used; a description of the trade-mark itself shall be included, if desired by the applicant or required by the Commissioner, provided such description is of a character to meet the approval of the Commissioner. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this act and such regulations as may be prescribed by the Commissioner of Patents.

"A certificate of registration shall remain in force for twenty years, except that in the case of trade-marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payments of the renewal fees required by this act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this act, and when so renewed shall have the same force and effect as certificates issued under this act.

"The registration of a trade-mark under the provisions of this act shall be prima facie evidence of ownership who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of substantially the same descriptive properties as those set forth in such registration, and shall use, or shall have used, such reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof; and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs."

No trade-mark shall be granted which "consists of or comprises the flag or coat of arms or other insignia of the United States or any simulation thereof, or of any State or municipality, or of any foreign nation, nor which is identical with or nearly resembling a trade-mark already registered." "No portrait of a living individual may be registered as a trade-mark except by the consent of such individual, evidenced by an instrument in writing."

By act of Congress approved February 18, 1909, the second section of the trade-mark act was amended so as to read as follows:

"The application prescribed in the foregoing section, in order to create any right whatever in favor of the party filing it, must be accompanied by a written declaration verified by the applicant, or by a member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm, corporation, or association in whose behalf he makes the application to be the owner of the trade-mark sought to be registered, and that no other person, firm, corporation, or association, to the best of the applicant's knowledge and belief, has the right to use such trade-mark in the United States, either in the identical form or in such near resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations, or with Indian tribes, and that the description and drawing presented truly represent the trade-mark sought to be registered. If the applicant resides or is located in a foreign country, the statement required shall, in addition to the foregoing, set forth that the trade-mark has been registered by the applicant, or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration, or the application therefor, as the case may be, except that in the application in such cases it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. The verification required by this section may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, charge d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge, or magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States."

TRADE-MARK TREATIES WITH FOREIGN NATIONS.

The following is a list of the Governments with which conventions for the reciprocal registration and protection of trade-marks have been entered into by the United States:—Austria-Hungary, Belgium, Denmark, France, Germany, Great Britain (including colonies), Italy, Japan (including China and Korea), Luxemburg, Russia, Servia, Spain. The laws of Switzerland and the Netherlands being so framed as to afford reciprocal privileges to the citizens or subjects of any Government which affords similar privileges to the people of those countries, the mere exchange of diplomatic notes, giving notice of the fact, accomplishes all the purposes of a formal convention.

THE political institutions known as Initiative and Referendum are those by which the body of the electorate may initiate measures to be enacted by their own vote into laws, and by which laws enacted by the Legislatures are referred to and approved or rejected by the people. The first appearance of these propositions was in Switzerland about the sixteenth century, but made great strides there in recent years, being in effect in every canton except Freiburg. The Referendum may be divided into Referendums of (a) entire constitutions, (b) amendments to constitutions, (c) of laws affecting the whole State, and (d) of laws affecting parts of States or localities only.

REFERENDUMS OF WHOLE CONSTITUTIONS.

Massachusetts in 1778 was the first State to refer its whole constitution to popular approval, followed closely by New Hampshire (1783), Connecticut (1818), and Maine (1819), Rhode Island (1824, rejected), New York (the first State out of New England, in 1821), Virginia (1829), Georgia (1833), Tennessee (1834), North Carolina and Michigan, in 1835. Since 1835 all new Constitutions except those of Delaware (1895), Mississippi (1890), and South Carolina (1895) have been submitted to popular vote after leaving the hands of the Convention or Legislature.

AMENDMENTS TO CONSTITUTIONS.

Amendments to Constitutions are made by Conventions called on a Referendum in thirty States—Alabama, California, Colorado, Delaware, Florida, Idaho, Illinois, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New York, North Carolina, Ohio, South Carolina, South Dakota, Tennessee, Utah, Virginia, Washington, West Virginia, Wisconsin, and Wyoming—and in fifteen—Arkansas, Connecticut, Georgia, Indiana, Louisiana, Maine, Massachusetts, Mississippi, New Jersey, North Dakota, Oregon, Pennsylvania, Rhode Island, Texas, and Vermont—by the Legislature, and are referable to the people in forty-three States, the exceptions being Delaware and South Carolina.

LAWS AFFECTING THE WHOLE STATE.

1. When the vote of the people is authorized by the Constitution. This is the Referendum in its narrower sense, and in this aspect is now a matter of political interest. The Constitution of South Dakota (1898) provides: "The legislative power of the State shall be vested in a Legislature, which shall consist of a Senate and House of Representatives, except that the people expressly reserve to themselves the right to propose measures (initiative), which measures the Legislature shall enact and submit to a vote of the electors of the State, and also the right to require that any laws which the Legislature may have enacted shall be submitted to a vote of the electors of the State before going into effect." The Constitution of Oregon (1902) contains a similar provision. So far, however, no other State has incorporated this initiative and referendum clause in general terms in its Constitution. Special provisions, nevertheless, are the subject of referendum, as the location of the capital of the State and of State institutions, the limitation of expenditure or of the debt, and in Colorado, Montana, Idaho, and Utah the maximum tax rate, the franchise and many like questions.

2. When no authorization for such vote is contained in the Constitution. The reference of general laws to the people in the absence of express constitutional authority was early attempted, but has generally been held unconstitutional. *Barto vs. Himrod*, 4 Seld (N. Y.) 483, is the leading case. But the reference of a time when a law shall take effect has been held constitutional—upon this many of the State prohibitory Liquor Laws are based, as in Michigan (1852), Vermont (1852), Maine (1858), North Carolina (1881). Other matters of a general nature have been so referred—e. g., the seat of Government (California, 1850), free schools (New York, 1849), minority representation on corporations (New Hampshire, 1880), contract labor in prisons (New York, 1883), Chinese immigration (Nevada, 1880), woman suffrage (Massachusetts, 1895).

LAWS AFFECTING PARTS OF STATES OR LOCALITIES ONLY.

The reference of such laws to the vote of the people of the locality affected is held to be not unconstitutional in legislation determining the area, boundaries, etc., of local political districts; the selection of county seats and sites, the selection of a corporate name, and the choice of a city charter or local government, in which the referendum is made obligatory in some States. So, also, propositions to remove the fire and police departments of Jersey City were referred to the inhabitants in 1885; to reform the Civil Service in any city of Illinois (1895); to increase the number of supervisors in Iowa (1897), Nebraska (1897), North Dakota (1895), and Ohio (1896). Every phase of legislation in which there is danger to the legislator is apt at some time to be so referred, including loan bills and financial proposals of all kinds.

THE INITIATIVE.

The initiative is either a right reserved by the people of a State in their Constitution to originate propositions to be enacted into law by the Legislature and ratified by the vote of the people, or that giving a number of voters in a community the right to cause an election to be held upon a permitted question (as whether liquor shall be sold in the town), and if the vote be in favor of a change then the new condition to obtain under a previously passed statute of the State Legislature. The initiative in its larger aspect has authority only in South Dakota and Oregon, and there its operation excludes only matters of emergency, as the preservation of the public peace, health, or safety. In its local aspect it has been called in to inaugurate a vast variety of matters of local interest,—prohibition, county seats, live stock and fencing laws, high-school laws—finding its greatest development in Oregon, South Dakota, Nebraska, California, and Iowa.

The Initiative and Referendum constitute a political force or medium opposed in action to the Legislature as the delegated authority of the people, and the various labor and people's parties have turned to them as a means of holding in their own hands a larger measure of the sovereign power which, under the older theories of government, was entirely delegated to their representatives.

During the past year the movement has been pronounced in Massachusetts, where proposals for the election of Senators by popular vote and other provisions were proposed, and in the West, especially in Oregon and California. As a cognate issue the direct primary has attained prominence, particularly in New York.

The New York Public Service Act.

PUBLIC SERVICE COMMISSIONERS.

FIRST DISTRICT.

William R. Willcox, Chairman, Manhattan, New York; holds office until February 1, 1913
 William McCarroll, Brooklyn; holds office until February 1, 1912.
 Edward M. Bassett, Brooklyn; holds office until February 1, 1911.
 Milo Roy Maltbie, Manhattan, New York; holds office until February 1, 1910.
 John E. Eustis, Manhattan, New York; holds office until February 1, 1914.

SECOND DISTRICT.

Frank W. Stevens, Chairman, Jamestown; holds office until February 1, 1913.
 John B. Olmsted, Buffalo; holds office until February 1, 1912.
 Thomas Mott Osborne, Auburn; holds office until February 1, 1911.
 Martin S. Decker, New Paltz; holds office until February 1, 1910.
 James E. Sague, New Hamburg; holds office until February 1, 1914.

Chapter 429 of the Laws of 1907, "An Act to establish the Public Service Commissions and prescribing their powers and duties, and to provide for the regulation and control of certain public service corporations and making an appropriation therefor," became a law on June 6, 1907. Two Public Service Commissions of five members each were created by the Act, one with authority in the First District, which included the counties of New York, Kings, Queens and Richmond, and the other in the Second District, which included all the other counties of the State.

The Act abolished the existing State Board of Railroad Commissioners, the State Commission of Gas and Electricity, the State Inspector of Gas Meters, and the Board of Rapid Transit Commissioners of New York City. All the powers of the Railroad Commissioners, of the Commission of Gas and Electricity, and of the Inspector of Gas Meters were conferred upon the Public Service Commissions. All the powers and duties of the Board of Rapid Transit Railroad Commissioners of New York City were conferred upon the Public Service Commission of the First District. Each of the successors of the first Commissioners appointed are to hold office for a period of five years. The Governor is authorized to remove any Commissioner for inefficiency, neglect of duty or misconduct in office, giving to him a copy of the charges against him, and an opportunity of being publicly heard in person or by counsel in his own defence.

The jurisdiction of the Public Service Commission of the First District extends to railroads and street railroads lying exclusively within that district, to any common carrier operating exclusively within that district, and to the manufacture, sale or distribution of gas and electricity for light, heat and power in that district. In addition the Commission of the First District is to exercise the powers heretofore conferred upon the Board of Rapid Transit Railroad Commissions. All jurisdiction not specifically granted to the Public Service Commission of the First District is granted to the Public Service Commission of the Second District. The annual salary of each Public Service Commissioner is to be \$15,000; of their secretary, \$6,000, and of their counsel, \$10,000.

The Act provides that every railway corporation shall furnish with respect thereto such service or facilities as shall be safe and adequate, and in all respects just and reasonable; and, secondly, that all charges made or demanded by any such corporation, person or common carrier for the transportation of passengers, freight or property, for any service rendered, or to be rendered, in connection therewith, shall be just and reasonable, and not more than allowed by law or by order of the Public Service Commission having jurisdiction, and made as authorized by the Act. Every unjust or reasonable charge made or demanded for any such service or transportation of passengers, freight or property, or in connection therewith, or in excess of that allowed by law or by order of the Commission, is prohibited. A railroad corporation, upon the application of any shipper tendering traffic for transportation, must construct upon reasonable terms a switch connection. Every common carrier is to file with the Public Service Commission having jurisdiction, and print and keep open to public inspection, schedules showing the rates, fares and charges for the transportation of passengers and property within the State between each point upon its route and all other points thereon. The schedules are to plainly state the places between which property and passengers are to be carried, the classification of passengers, freight and property in force, all terminal charges, storage charges, icing charges, and all other charges which the Commission may require to be stated, all privileges or facilities granted or allowed, and any rules or regulations which may in any wise change, affect, or determine any part, or the aggregate of the rates, fares or charges, or the value of the service rendered to the passenger, shipper or consignee. Such schedules are to be plainly printed in large type; copies for the use of the public are to be kept posted in two public and conspicuous places in every depot, station and office of every common carrier where passengers or property are received for transportation in such manner as to be readily accessible to and conveniently inspected by the public. No common carrier, the Act says, "shall directly or indirectly by any special rate, rebate, drawback, or other device or method, charge, demand, collect or receive from any person or corporation a greater or less compensation for any service rendered or to be rendered in the transportation of passengers, freight or property, except as authorized in this Act, than it charges, demands, collects, or receives from any other person or corporation for doing a like and contemporaneous service in the transportation of a like kind of traffic under the same or substantially similar circumstances and conditions." The giving of free tickets, free passes, or free transportation for passengers or property, except in the cases of free tickets, free passes, or free transportation for passengers or property, except in certain specified cases, is prohibited. No common carrier is to charge or receive any greater compensation in the aggregate for the transportation of passengers, or of a like kind or property, under substantially similar

THE NEW YORK PUBLIC SERVICE ACT—Continued.

circumstances and conditions for a shorter than for a longer distance over the same line in the same direction, the shorter being included within the longer distance. Upon the application, however, of a common carrier the Public Service Commission may, by order, authorize it to charge less for a longer than for shorter distances for the transportation of passengers or property in special cases after investigation by the Commission. Every railroad corporation and street railway corporation is to have sufficient cars and motive power to meet all requirements for the transportation of passengers and property which may reasonably be anticipated. Every railroad corporation must furnish to all persons and corporations who apply therefor and offer freight for transportation sufficient and suitable cars for the transportation of such freight in car-load lots.

POWERS OF THE COMMISSIONS.

Each one of the Public Service Commissions is to have general supervision of all common carriers, railroads and street railroads, and is directed to keep informed as to their general condition, their capitalization, their franchises, and the manner in which their lines owned, leased, controlled or operated, are managed, conducted and operated, not only with respect to the adequacy, security and accommodation afforded by their service, but also with respect to their compliance with all provisions of law, orders of the Commission and Charter requirements. Each Commission is given power to examine all books, contracts, documents and papers of any person or corporation subject to its supervision, and by subpoena to compel production thereof. Each Commission is to prescribe the form of the annual reports required under the Act to be made by common carriers, railroad and street railroad corporations. Each Commission is to investigate the cause of all accidents on any railroad or street railroad within its district which result in loss of life or injury to persons or property, and which, in their judgment, require investigation. Whenever either Commission shall be of the opinion that the rates, fares or charges demanded by any common carrier, railroad corporation or street railroad corporation subject to its jurisdiction are unjust, unreasonable, unjustly discriminatory, or unduly preferential, or in anywise in violation of any provision of law, it shall determine the just and reasonable rates, fares and charges to be thereafter observed and in force as the maximum to be charged for the service to be performed. And whenever a Public Service Commission is of the opinion, after a hearing, that the equipment, appliances or service of any common carrier, railroad corporation or street railroad corporation is unsafe, its members are required to determine the safe equipment thereafter to be in force, and prescribe the same by an order to be served upon the common carrier, railroad corporation or street railway corporation concerned. The Commissions are granted power to require two or more common carriers owning a continuous line of transportation to establish joint rates, fares and charges. The Commissions may order repairs and improvements to be made to tracks, switches, terminals, and motive powers in order to promote the security or convenience of the public. If, in the judgment of the Commission having jurisdiction, any railroad corporation or street railroad corporation does not run trains enough or cars enough, or possess or operate motive power enough reasonably to accommodate the traffic, passengers and freight transported by it, or it does not run its trains or cars with sufficient frequency, such a Commission may make an order directing any such corporation to increase the number of its trains, or of its cars, or its motive power. A uniform system of accounts for railroad and street railway corporations is authorized. Without first having obtained the permission and approval of the proper Public Service Commission, no railroad corporation may begin the construction of a railroad or street railroad. The Commission within whose district such construction is to be made is authorized to grant its approval when, in its judgment, the exercise of the franchise or privilege is necessary or convenient for the public service. No franchise to own or operate a railroad or street railroad may be assigned, transferred or leased unless the assignment, transfer or lease is first approved by the proper Commission. No railroad corporation or street railroad corporation is to acquire the capital stock of any railroad corporation or street railroad corporation unless authorized to do so by one of the Commissions created by the Act. Every contract for a transfer of stock by or through any person or corporation to any corporation in violation of the Act, it is declared, shall be void. Common carriers, railroads, and street railroad corporations are authorized to issue stocks, bonds, notes and other evidences of indebtedness when necessary for the acquisition of property, provided, that they shall have secured from the proper Commission an order authorizing such an issue. For the purpose of enabling it to determine whether it should issue such an order, the Commission concerned is to make an inquiry, and examine such books or contracts as it may deem of importance in enabling it to reach a determination. The Act says that "any common carrier, railroad corporation or street railroad corporation which shall violate any provision of this Act, or which fails, omits, or neglects to obey, observe, or comply with any order, or any direction, or requirement of the Commission, shall forfeit to the people of the State of New York not to exceed the sum of \$5,000 for each and every offence; every violation of any such order, or direction, or requirement, or of this Act, shall be a separate and distinct offence; and in case of a continuing violation, every day's continuance thereof shall be, and be deemed to be, a separate and distinct offence." It is also made a misdemeanor for the officer of a corporation to violate the Act, or to procure any violation by any such corporation. Summary proceedings in the courts are authorized in the case of offending corporations.

By amendment to the Transportation Company law (consolidated laws of 1909), stage coach companies in cities of over a million inhabitants were designated as common carriers and so brought under the jurisdiction of the Commission.

The Commission for the First District, as the successor of the old Rapid Transit Commission, supervises the construction of new rapid transit routes within its jurisdiction (c 4 L 1891 and amendments) and therein determines the necessity and convenience of new routes, makes plans, obtains consents and makes all preparation for the construction and operation of routes when approved by the Board of Estimate and Apportionment. Prior to 1909 the law required such routes to be built with city money, and placed absolute time limits upon operating leases. The law known as the Robinson law passed at the last

THE NEW YORK PUBLIC SERVICE ACT—Continued.

session of the Legislature, provides that construction may be, where approved by the Commission and the Board of Estimate and Apportionment, done by private parties with private funds; that the grant shall contain a reservation to the city to buy the franchise at any time after ten years on notice and on terms (this is the "Indeterminate Franchise"), and that the net income after all proper charges are met shall be divided equally between the grantee and the city. This law also provides for levying the whole or a part of the cost of construction, property and operation upon such portion of the city as will be benefited, assessment bonds (which do not enter into the debt limit) being sold therefor. Under the provisions of this new law over \$250,000,000 of capital has been offered by private parties to construct subways.

INTERSTATE TRAFFIC.

Either of the Commissions may investigate freight rates on interstate traffic on railroads within the State, and when such rates are, in the opinion of either Commissions, excessive or discriminatory, or are levied or laid in violation of the Interstate Commerce law, or in conflict with the rulings, orders or regulations of the Interstate Commerce Commission, the Commission concerned may apply by petition to the Interstate Commerce Commission for relief.

SUPERVISION OF GAS AND ELECTRICAL CORPORATIONS.

Each Commission within its jurisdiction is given general supervision of all persons and corporations having authority to maintain wires and pipes along or under the streets of a municipality for the purpose of furnishing or distributing gas, or of furnishing or transmitting electricity for light, heat or power. The Commissions may ascertain the quality of the gas supplied, examine the methods employed in manufacturing and supplying gas or electricity for light, heat or power, and order such improvements as will best promote the public interest, preserve the public health, and protect those using such gas or electricity. The Commissions also may fix the standard of illuminating power and purity of gas, not less than that prescribed by law, to be manufactured or sold by persons, corporations or municipalities for lighting, heating or power purposes; prescribe methods of regulation of the electric supply system as to the use for incandescent lighting; fix the initial efficiency of incandescent lamps furnished by the persons, corporations or municipalities generating and selling electric current for lighting, and by order require the gas so manufactured or sold to equal the standard so fixed by it, and, finally, establish the regulations as to pressure at which gas shall be delivered. The Commissions are authorized to determine by investigation whether or not the gas sold is of the purity and quality required. The Commissions may require the corporations manufacturing gas and electricity to keep uniform accounts. The Commission is to require every person and corporation under its supervision to submit to it an annual report showing in detail (1) the amount of its authorized capital stock and the amount thereof issued and outstanding; (2) the amount of its authorized bonded indebtedness, and the amount of its bonds, and other forms of evidence of indebtedness issued and outstanding; (3) its receipts and expenditures during the preceding year; (4) the amount paid as dividends upon its stock and as interest upon its bonds; (5) the name of, and the amount paid as salary, to each officer, and the amount paid as wages to its employees; (6) the location of its plant, or plants, and system, with a full description of its property and franchises, stating in detail how each franchise stated to be owned was acquired; and (7) such other facts pertaining to the operation and maintenance of the plant and system, and the affairs of such person or corporation as may be required by the Commission. Any corporation which shall neglect to make such a report is made liable to a penalty of \$100, and an additional penalty of \$100 for each day after the prescribed time for which it shall neglect to file the same. Every municipality engaged in operating any works or systems for the manufacture and supplying of gas or electricity is to be required to make an annual report to the Commission showing in detail (1) the amount of its authorized bonded indebtedness, and the amount of its bonds and other forms of evidence of indebtedness issued and outstanding for lighting purposes; (2) its receipts and expenditures during the preceding year; (3) the amount paid as interest upon its bonds and upon other forms of evidence of indebtedness; (4) the name of and the amount paid to each person receiving a yearly or monthly salary, and the amount paid as wages to employees; (5) the location of its plant and system, with a full description of the property; and (6) such other facts pertaining to the operation and maintenance of the plant and system as may be required by the Commission.

INSPECTION OF GAS AND ELECTRIC METERS.

Each Commission is to appoint inspectors of gas and electric meters, who are to inspect, examine, prove and ascertain the accuracy of any and all gas meters used or intended to be used for measuring, or ascertaining the quantity of illuminating or fuel gas or natural gas furnished by any gas corporation to or for the use of any person, and any and all electric meters used or intended to be used for measuring and ascertaining the quantity of electric current furnished for light, heat and power by any electrical corporation to or for the use of any person or persons. The law says that "No corporation or person shall furnish or put in use any gas meter which shall not have been inspected, proved and sealed, or any electric meter which shall not have been inspected, approved, stamped or marked by an inspector of the Commission." The law also says that "No gas corporation or electrical corporation incorporated under the laws of this or any other State shall begin construction, or exercise any right or privilege under any franchise hereafter granted, or under any franchise heretofore granted, but not heretofore actually exercised, without first having obtained the permission and approval of the proper Commission." The law further says: "No municipality shall build, maintain and operate for other than municipal purposes any works or system for the manufacture and supplying of gas or electricity for lighting purposes without a certificate of authority granted by the Commission."

(Revised for this issue of THE WORLD ALMANAC by the Secretary of the Civil Service Commission.)

THE purpose of the Civil Service act, as declared in its title, is "to regulate and improve the Civil Service of the United States." It provides for the appointment of three Commissioners, a chief Examiner, a Secretary, and other employees, and makes it the duty of the Commissioners to aid the President as he may request in preparing suitable rules for carrying the act into effect; to make regulations to govern all examinations held under the provisions of the act, and to make investigations and report upon all matters touching the enforcement and effect of the rules and regulations. The address of the Commission is Washington, D. C.

PROVISIONS OF THE RULES.

The act requires the rules to provide, as nearly as the conditions of good administration will warrant, for open competitive practical examinations for testing the fitness of applicants for the classified service; for the filling of all vacancies by selections from among those graded highest; for the apportionment of appointments at Washington among the States upon the basis of population; for a period of probation before absolute appointment; that no person in the public service shall be obliged to contribute service or money for political purposes; that persons in the competitive service, while retaining the right to vote as they please or to express privately their political opinions, shall take no active part in political campaigns; and that no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

EXTENT OF THE SERVICE.

There are about 352,000 positions in the Executive Civil Service, over half of which, or about 225,000, are subject to competitive examination. The expenditure for salaries in the Executive Civil Service is over \$200,000,000 a year. The Civil Service act does not require the classification of persons appointed by the President and confirmed by the Senate or of persons employed merely as laborers or workmen. Many positions are excepted in part from the provisions of the rules for various reasons, the largest single class being those of fourth-class postmasters, of which there were 54,312 on July 1, 1908. By an Executive order of November 30, 1908, about 15,000 of these positions were brought into the competitive service and made subject to examination.

APPLICATIONS.

Persons seeking to be examined must file an application blank. The blank for the Departmental Service at Washington, Railway Mail Service, the Indian School Service, and the Government Printing Service should be requested directly of the Civil Service Commission at Washington. The blank for the Customs, Postal, or Internal Revenue Service should be requested of the Civil Service Board of Examiners at the office where service is sought.

Applicants for examination must be citizens of the United States, and of the proper age. No person using intoxicating liquors to excess may be appointed. No discrimination is made on account of sex, color, or political or religious opinions. The limitations of age vary with the different services, but do not apply to any person honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds or sickness incurred in the line of duty.

EXAMINATIONS.

The examinations are open to all persons qualified in respect to age, citizenship, legal residence, character, and health. During the fiscal year ended June 30, 1908, 39,003 persons were appointed. Of those appointed, 4,088 were rural letter-carriers, 14,631 were mechanics and workmen at navy yards appointed on registration tests of fitness given by a board of labor employment at each yard. Several hundred different kinds of examinations were held, each one of which involved different tests. Two hundred and fifty-six of these examinations contained educational tests, the others being for mechanical trades or skilled occupations and consisting of certificates of employers or fellow-workmen. Examinations are held twice a year in each State and Territory, the places and dates being publicly announced.

By an act of July 2, 1909, relating to the Thirteenth and subsequent decennial censuses, provision was made for competitive examinations to secure eligibles for the temporary clerical force at Washington authorized under that act. The supervisors and enumerators of the census are employed without examination.

APPOINTMENTS.

In case of a vacancy not filled by promotion, reduction, transfer, or reinstatement, the highest three of the sex called for on the appropriate register are certified for appointment, the apportionment being considered in appointments at Washington. In the absence of eligibles, or when the work is of short duration, temporary appointments, without examination, are permitted. The number of women applying for ordinary clerical places is greatly in excess of the calls of appointing officers. The chances of appointment are good for teachers, matrons, seamstresses, and physicians in the Indian Service, for male stenographers and typewriters, draughtsmen, patent examiners, civil, mechanical, and electrical engineers, and for technical and scientific experts.

PREFERENCE CLAIMANTS.

Persons who served in the military or naval service of the United States, and were discharged by reason of disabilities resulting from wounds or sickness incurred in the line of duty, are, under the Civil Service rules, given certain preferences. They are released from all maximum age limitations, are eligible for appointment at a grade of 65, while all others are obliged to obtain a grade of 70, and are certified to appointing officers before all others. Subject to the other conditions of the rules, a veteran of the rebellion or of the war with Spain, or the widow of any such person, or any army nurse of either war, may be reinstated without regard to the length of time he or she has been separated from the service.

INSULAR POSSESSIONS.

Examinations are also held for positions in the Philippines, Porto Rico, and Hawaii, and also for the Isthmian Canal service.

THE UNCLASSIFIED SERVICE.

Under an executive order unclassified laborers are appointed after open, competitive examination upon their physical condition. This action is outside the Civil Service act.

PUBLICATIONS OF THE COMMISSION.

Among the publications of the Commission for free distribution are the following: Manual of Examinations, giving places and dates of examinations, rules by which papers are rated descriptions of examinations, specimen questions, and general information.

The Civil Service act and rules.
The Annual Reports of the Commission, showing its work. These annual reports, of which twenty-five have been issued, may be consulted at public libraries.

Civil Service Rules in the City of New York.

SYNOPSIS of regulations governing the admission of persons into the civil service of the City of New York. Information may also be had by applying to the Secretary of the Municipal Civil Service Commission, 299 Broadway, New York City.

Under the White Civil Service law, Chapter 370, Laws of 1899. April 19, the rules apply to all positions in the service of the City of New York except officers elected by the people, all legislative officers and employes, heads of any department, or superintendents, principals, or teachers in a public school, academy, or college. This requires "examinations, wherever practicable, to ascertain the fitness of applicants for appointment to the civil service of said city." The Constitution requires that these examinations shall be competitive, "so far as practicable."

APPLICATIONS.

Applications of competitors for positions must be addressed to the "Secretary of the Municipal Civil Service Commission, New York City," and must set forth:

Applications are only received when an examination is ordered for a position.

First—The affidavit of the applicant showing his age, whether a citizen of the United States, giving his place of residence, with the street and number thereof, if any; the place, nature, and extent of his education, and of his business training and experience, and stating whether he has ever been in the civil service of the City of New York, or in the military or naval service of the United States, and if so, when and where.

Second—A statement whether such application is limited to any particular office in the service.

Third—The certificate of four reputable persons of the City of New York, that they have been personally acquainted with the applicant for at least one year, and believe him to be of good moral character, of temperate and industrious habits, and in all respects fit for the service he wishes to enter, and that each of them is willing that such certificate should be published for public information, and will upon request give such further information concerning the applicant as he may possess.

Applicants for the following positions must, before being admitted to examination, present satisfactory evidence as to the following facts:

First—If the position to be filled be that of physician, surgeon, medical officer, medical superintendent, or medical inspector, that the applicant is duly authorized by the laws of the State of New York to practise medicine and surgery.

In positions where the duties are professional, technical, or expert, the candidates will be required to present evidences of the preliminary training or technical education they have undergone to qualify them for such situations before they can be admitted to examination.

In all examinations for professional positions, or positions requiring technical knowledge, no person shall be placed on the eligible list who obtains a rating in technical knowledge of less than 75.

CONDUCT OF EXAMINATIONS.

Applicants shall be admitted to examination upon the production of the official notification to appear for that purpose.

All paper upon which examinations are to be written shall be furnished to the applicants by the examining board and shall bear some suitable official indorsement, stamp, or mark, for the purpose of identifying the same.

All examinations shall be in writing, except such as refer to expertness or physical qualities, and except as herein otherwise provided.

The sheets of questions shall be numbered and shall be given out in the order of their numbers, each, after the first, being given only when the competitor has returned to the examiners the last sheet given to him. In general, no examination shall extend beyond five hours without intermission; and no questions given out at any session, to any candidate, shall be allowed to be answered at another session.

Each examiner shall exercise all due diligence to secure fairness and prevent all collusion and fraud in the examinations.

The time allowed for completing the examination shall be announced before the first paper is given out.

The following municipal departments and offices come under jurisdiction of Civil Service rules:

Accounts, Com. of.	City Record, Supervisor of the.	Elections, Board of.	Parks, Dept. of.
Armory, Board of.	Civil Service Commission.	Estimate and Apportionment,	Police Dept.
Assessors, Board of.	College of the City of New York	Board of.	Presidents of Boroughs.
Aqueduct Commission.	Correction, Dept. of.	Examiners, Board of.	Public Works Bureau.
Bellevue and Allied Hospitals.	Coroners.	Finance Dept.	Sinking Fund Commission.
Board of Water Supply.	Court, City.	Fire Dept.	Street Cleaning, Dept. of.
Bridges, Dept. of.	Court, City Magistrate.	Health Dept.	Taxes and Assessm'ts, Dept. of.
Brooklyn Disciplinary Training	Court, Municipal.	Law Dept.	Tenement House Dept.
School for Boys.	Court of Special Sessions.	Mayor's Office.	Water Supply, Gas, and Elec-
Buildings, Dept. of.	Docks and Ferries, Dept. of.	Normal College.	tricity, Dept. of.
Charities, Dept. of Public.	Education, Dept. of.		

The inspectors of elections and poll clerks are exempt from examination. Special patrolmen, appointed pursuant to section 269 of the New York City Consolidation act, are also exempt.

Regents' Examinations in New York State in 1910. 127

REGENTS' EXAMINATIONS under the control of the Education Department of the State of New York (office, Albany, N. Y.) will be held in 1910 at the following times and places: Jan. 24-28 inclusive, at New York, and about 800 academies and high schools; 26 subjects. June 20-24 inclusive, at New York, and about 800 academies and high schools; 37 subjects. Examinations for teachers' certificates are held on the same dates as the Regents, and August 10-12 and 22-25. Sept. 19-21, inclusive, at New York, Albany, Syracuse, Buffalo; 33 subjects. September examinations are for professional and technical students only. Morning session begins 9.15 o'clock. Afternoon session begins 1.15 o'clock.

UNIVERSITY CREDENTIALS—Preliminary (preacademic) certificate—Reading, writing, spelling, elementary English, arithmetic, geography, and elementary United States history and civics. **MEDICAL STUDENT CERTIFICATE**—All matriculates after Jan. 1, 1897, must secure 60 academic counts at 75 per cent, or their full equivalent.

LAW STUDENT CERTIFICATE—For those who filed a clerkship certificate on June 1, 1908, or thereafter, or who began their work in a registered law school on or after that date, the following set subjects passed in Regents' examinations will be accepted: English, 3 years, 10; mathematics, 2 years (algebra and geometry), 10; Latin, 2 years (grammar, composition and Caesar), 10; science, physics, 5; history, 1 year (American history, civics), 5; (1 year, history of Great Britain and Ireland, economics), 5; total, 45. Or any 60 counts passed in Regents' examinations. Four years of High School work in a recognized High School, can also be accepted. Students from countries where English is not the mother tongue must pass an examination in two years of English. For those whose clerkship certificates were filed, prior to June 1, 1908, the following is the requirement—Any 60 academic counts or Regents' examinations in the following set subjects: second year English, Latin first year, elementary algebra, plane geometry, American history, history of Great Britain and Ireland (three hour course), civics, economics and arithmetic.

DENTAL STUDENT CERTIFICATE—Any 60 academic counts at 75 per cent, or their equivalents (for matriculates before Jan. 1, 1905, any 45 academic counts). For set subjects see handbook 3. **VETERINARY STUDENT CERTIFICATE**—Any 60 academic counts at 75 per cent, or their equivalents (for matriculates before Jan. 1, 1905, any 30 academic counts). **PHARMACY STUDENT CERTIFICATE**—Any 15 academic counts at 75 per cent. **NURSES' PRELIMINARY CERTIFICATE**—After January 1, 1906, 15 counts.

ACADEMIC DIPLOMA—For 12 counts. This diploma is based on a four-year curriculum, requiring a student to pursue four subjects of study of at least 18 lesson periods a week. This increase from 15 to 18 lessons a week necessitates a corresponding change in the system of "counts," and 12 counts under the former scheme of values is equal to 15 under the present. For diplomas earned in June, 1909, and thereafter, the requirements are: English 13 counts, mathematics 10, history 8, science 10, elective 31. For the classical academic diploma: English 13, mathematics 10, history 5, science 5, Latin 30, a second foreign language 15, elective 4. There is no time limit, but credentials issued by the Department are good till cancelled for cause. To protect the rights of the weak or of the slowly developing student and at the same time to test the knowledge of the most capable, the following system of differentiated credentials has been adopted: 1. A diploma based on a general average of 85; 2. A diploma, with credit, based on a general average of 75; 3. A diploma, with great credit, based on a general average of 65; 4. A diploma, with highest credit, based on a general average of 50. Answer papers are reviewed in the Department and all papers below stand of returned to the candidates. Candidates attending schools in which these examinations are not held should send notice at least ten days in advance at what time and in what studies they wish to be examined, that required desk room may be provided. Candidates who fail to send this advance notice can be admitted only so far as there are unoccupied seats. [See Handbook 3].

PROFESSIONAL CERTIFICATES WITHOUT EXAMINATION—Candidates having credentials which can be accepted in place of examinations should send them to the Education Department. [See Handbook 23].

MEDICAL EXAMINATIONS—The regents shall admit to any examination any candidate who pays a fee of \$25 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State; 4. Has studied medicine not less than four school years, including four satisfactory courses of at least seven months each in four different calendar years in a medical school registered as maintaining at the time a satisfactory standard. This requirement took effect Jan. 1, 1898, and does not apply to students matriculated before that date who receive their degree before Jan. 1, 1902; 5. Evidence that applicant has received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practise medicine in some foreign country (original credentials). Examinations for license to practise medicine in this State will be held as follows: Feb. 1-4, May 24-27, June 28-July 1, Sept. 27-30, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

DENTAL EXAMINATIONS—The regents shall admit to examination any candidate who pays a fee of \$25 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required preliminary to receiving the degree of doctor of dental surgery in this State. Matriculates in a registered dental school before Jan. 1, 1896, are exempt from the preliminary education requirement for degrees and for admission to the licensing examinations; 4. Subsequently to receiving such preliminary education either has been graduated in course with a dental degree from a registered dental school, or else, having been graduated in course from a registered medical school with a degree of doctor of medicine, has pursued thereafter a course of special study of dentistry for at least two years in a registered dental school, and received therefrom his degree of doctor of dental surgery, or else holds a diploma or license conferring full right to practise dentistry in some foreign country and granted by some registered authority. Dates of dental examinations: Feb. 1-4, May 24-27, June 28-July 1, and Sept. 27-30, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

PHARMACY EXAMINATIONS—Applications for examination, accompanied by the proper fee, must be forwarded to the secretary of the branch of the State Board of Pharmacy in which the applicant resides at least ten days previous to the date of examination. A candidate for the grade of licensed pharmacist must pay a fee of \$10 and submit evidence of: 1. A minimum age of 21 years; 2. At least four years' practical experience in a pharmacy; 3. A diploma from a registered pharmacy school. For the grade of licensed druggist a candidate must pay a fee of \$3, submit proof of three years' practical experience in a pharmacy, and pass examination.

VETERINARY EXAMINATIONS—The regents shall admit to examination any candidate who pays a fee of \$10 and submits satisfactory evidence, verified by oath, if required, that he—1. Is more than twenty-one years of age; 2. Is of good moral character; 3. Has the general education required in all cases after July 1, 1897, preliminary to receiving a degree in veterinary medicine. Matriculates in a registered veterinary medical school prior to Jan. 1, 1896, are exempt from the preliminary education requirement; 4. Has studied veterinary medicine not less than three full years, including three satisfactory courses, in three different academic years, in a veterinary medical school registered as maintaining at the time a satisfactory standard; 5. Has received a degree as veterinarian from some registered veterinary medical school. Dates of examinations: Feb. 1-4, May 24-27, June 28-July 1, Sept. 27-30, at New York, Albany, Syracuse, and Buffalo.

CERTIFIED PUBLIC ACCOUNTANTS—1. The full C. P. A. certificate is to be granted only to those at least twenty-five years of age who have had three years' satisfactory experience in the study or practice of accounting, one of which shall have been in the office of an expert public accountant; 2. Candidates having the required preliminary education and passing the required examinations, but lacking the age or the three years' experience required for the full C. P. A. certificate, may be certified as junior accountants under the same conditions as to residence and character; 3. Two examinations, in January and in June, are held annually. There are to be four sessions as follows: 1. Theory of accounts; 2. Practical accounting; 3. Auditing; 4. Commercial law; candidates must complete all subjects at a single examination as required in medicine; candidates for either the C. P. A. or the junior accountant certificate must be more than twenty-one years of age, and of good moral character. They must pay a fee of \$25, and must have the regents' academic diploma or its equivalent as prescribed for other professional examinations. Dates of examinations: Feb. 1-3 and June 28-30, at New York, Albany, Syracuse, and Buffalo.

REGISTRATION OF NURSES—Who May Practise as Registered Nurses—Any resident of the State of New York, being over the age of twenty-one years and of good moral character, holding a diploma from a training school for nurses connected with a hospital or sanitarium giving a course of at least two years, and registered by the regents of the University of the State of New York as maintaining in this and other respects proper standards, all of which shall be determined by the said regents, and who shall have received from the said regents a certificate of his or her qualifications to practise as a registered nurse, shall be styled and known as a registered nurse, and no other person shall assume such title, or use the abbreviation R. N. or any other words, letters, or figures to indicate that the person using the name is such a registered nurse. Two examinations will be held annually in January and June, respectively. Applications should be made at least ten days in advance to Education Department, Examination Division, Albany, N. Y. Dates: Feb. 1-4, June 28-July 1, at New York, Albany, Syracuse, and Buffalo. (Each candidate is notified as to exact place.)

OPOMETRY EXAMINATIONS—The Regents admit to examination any candidate who pays a fee of \$15 and submits satisfactory evidence, verified by oath, that he is more than 21 years of age, of good moral character, has a preliminary education equivalent

The Single Tax.

The following statement of the single tax principle was written by Henry George, Sr.: We assert as our fundamental principle the self-evident truth enunciated in the Declaration of American Independence, that all men are created equal and are endowed by their Creator with certain inalienable rights. We hold that all men are equally entitled to the use and enjoyment of what God has created and of what is gained by the general growth and improvement of the community of which they are a part. Therefore, no one should be permitted to hold natural opportunities without a fair return to all for any special privilege thus accorded to him, and that that value which the growth and improvement of the community attaches to land should be taken for the use of the community; that each is entitled to all that his labor produces; therefore, no tax should be levied on the products of labor.

To carry out these principles, we are in favor of raising all public revenues for national, State, county, and municipal purposes by a single tax upon land values, irrespective of improvements, and all the obligations of all forms of direct and indirect taxation.

Since in all our States we now levy some tax on the value of land, the single tax can be instituted by the simple and easy way of abolishing, one after another, all other taxes now levied and commensurately increasing the tax on land values until we draw upon that one source for all expenses of government, the revenue being divided between local governments, State government, and the general government, as the revenue from direct tax is now divided between the local and State governments, or by a direct assessment being made by the general government upon the States and paid by them from revenues collected in this manner. The single tax we propose is not a tax on land, and therefore would not fall on the use of land and become a tax on labor.

It is a tax not on land, but on the value of land. Then it would not fall on all land, but only on valuable land, and on that not in proportion to the use made of it, but in proportion to its value—the premium which the user of land must pay to the owner, either in purchase money or rent, for permission to use valuable land. It would thus be a tax not on the use and improvement of land, but on the ownership of land, taking what would otherwise go to the owner as owner, and not as user.

In assessments under the single tax all values created by individual use or improvement would be excluded, and the only value taken into consideration would be the value attaching to the bare land by reason of neighborhood, etc., to be determined by impartial periodical assessments. Thus the farmer would have no more taxes to pay than the speculator who held a similar piece of land idle, and the man who, on a city lot, erected a valuable building would be taxed no more than the man who held a similar lot vacant. The single tax, in short, would call upon men to contribute to the public revenues not in proportion to what they produce or accumulate, but in proportion to the value of the natural opportunities they hold. It would compel them to pay just as much for holding land idle as for putting it to its fullest use. The single tax, therefore, would—

1st. Take the weight of taxation off the agricultural districts, where land has little or no value irrespective of improvements, and put it on towns and cities, where bare land rises to a value of millions of dollars per acre.

2d. Dispense with a multiplicity of taxes and a horde of tax-gatherers, simplify government, and greatly reduce its cost.

3d. Do away with the fraud, corruption, and gross inequality inseparable from our present methods of taxation, which allow the rich to escape while they grind the poor. Land cannot be hid or carried off, and its value can be ascertained with greater ease and certainty than any other.

4th. Give us with all the world as perfect freedom of trade as now exists between the States of the Union, thus enabling our people to share through free exchanges in all the advantages which nature has given to other countries, or which the peculiar skill of other peoples has enabled them to attain. It would destroy the trusts, monopolies, and corruptions which are the outgrowths of the tariff. It would do away with the fines and penalties now levied on any one who improves a farm, erects a house, builds a machine, or in any way adds to the general stock of wealth. It would leave every one free to apply labor or expend capital in production or exchange without fine or restriction, and would leave to each the full product of his exertion.

5th. It would, on the other hand, by taking for public use that value which attaches to land by reason of the growth and improvement of the community, make the holding of land unprofitable to the mere owner and profitable only to the user. It would thus make it impossible for speculators and monopolists to hold natural opportunities unused or only half used, and would throw open to labor the illimitable field of employment which the earth offers to man. It would thus solve the labor problem, do away with involuntary poverty, raise wages in all occupations to the full earnings of labor, make overproduction impossible until all human wants are satisfied, render labor-saving inventions a blessing to all, and cause such an enormous production and such an equitable distribution of wealth as would give to all comfort, leisure, and participation in the advantages of an advancing civilization, in securing to each individual equal right to the use of the earth. It is also a proper function of society to maintain and control all public ways for the transportation of persons and property, and the transmission of intelligence; and also to maintain and control all public ways in cities for furnishing water, gas, and all other things that necessarily require the use of such common ways.

Help in Case of Accidents.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DON'T GIVE UP! People have been saved after hours of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give warm drinks, or spirits in teaspoonfuls, fresh air, and quiet.

Burns and Scalds. Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head. Keep head in elevated position.

Mad Dog or Snake Bite. Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whiskey, brandy, etc.

Stings of Venomous Insects, etc. Apply weak ammonia, oil, salt water, or iodine.

Fainting. Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

Tests of Death. Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead the hole will remain, if alive it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark. If a person is dead decomposition is almost sure to set in after 72 hours have elapsed. If it does not, then there is room for investigation by the physician. Do not permit burial of dead until some certain indication of death is apparent.

Cinders in the Eye. Roll soft paper up like a lamplighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the other eye.

Fire in One's Clothing. Don't run—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woollen rug or blanket. Keep the head down, so as not to inhale flame.

Fire from Kerosene. Don't use water, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woollen rug, table-cloth, or carpet.

Suffocation from Inhaling Illuminating Gas. Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

Antidotes for Poisons.

First. Send for a physician.

Second. INDUCE VOMITING, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalies, and vice versa.

When the Boat Overturns.

DON'T GO out in a pleasure boat without being assured that there are life-saving buoys or cushions aboard sufficient to float all on board in case of an upset or collision. All persons should be seated before leaving shore, and no one should attempt to exchange seats in midstream or to put a foot on the edge or gunwale of the boat to exchange seats. Where the waters become rough from a sudden squall or passing steamers, never rise in the boat, but settle down as close to the bottom as possible, and keep cool until the rocking danger is passed. If overturned, a woman's skirts, if held out by her extended arms, while she uses her feet as if climbing stairs, will often hold her up while a boat may pull out from the shore and save her. A non-swimmer, by drawing his arms up to his side and pushing down with widely extended hands, while stair-climbing or treading water with his feet, may hold himself several minutes, often when a single minute means a life; or throwing out the arms, dog fashion, forward, overhand and pulling in, as if reaching for something—that may bring him in reach of help.

Rules in Case of Fire.

CRAWL on the floor. The clearest air is the lowest in the room. Cover head with woollen wrap, wet if possible. Cut holes for the eyes. Don't get excited.

Ex-Chief Hugh Bonner, of the New York Fire Department, issued the following rules applying to houses, flats, hotels, etc.:

Familiarize yourself with the location of hall windows and natural escapes. Learn the location of exits to roofs of adjoining buildings. Learn the position of all stairways, particularly the top landing and scuttle to the roof. Should you hear cry of "fire," and columns of smoke fill the rooms, above all KEEP COOL. Keep the doors of rooms shut. Open windows from the top. Wet a towel, stuff it in the mouth, breathe through it instead of nose, so as not to inhale smoke. Stand at window and get benefit of outside air. If room fills with smoke keep close to floor and crawl along by the wall to the window.

Do not jump unless the blaze behind is scorching you. Do not even then if the firemen with scaling ladders are coming up the building or are near. Never go to the roof, unless as a last resort and you know there is escape from it to adjoining buildings. In big buildings fire always goes to the top. Do not jump through flame within a building without first covering the head with a blanket or heavy clothing and gauging the distance. Don't get excited; try to recall the means of exit, and if any firemen are in sight DON'T JUMP.

If the doors of each apartment, especially in the lower part of the house, were closed every night before the occupants retired there would not be such a rapid spread of flames.

The Torrens System.

IN NEW YORK AND ELSEWHERE.

THE "Torrens System" or "Torrens Law" is a system of "Registration of Titles to Real Estate." It was devised in its present general form by Robert R. Torrens, and first promulgated in the form of law in South Australia in 1857. The "Registration of Titles to Land," however, was in use as early as 1811 in Austria and in 1855 in Hungary. Denmark registered such titles by judicial decree as early as 1550. The provisions of the later acts, however, differentiate the "Torrens" laws from these earlier forms. From South Australia the law spread to Queensland (1861), Tasmania (1862), New South Wales (1862), Victoria (1862), New Zealand (1870), Western Australia (1874), Fiji (1876) and New Guinea (1889). In all of these the registration of titles is compulsory on the alienation of crown lands, otherwise voluntary; only fee simple titles may be registered. The title obtained by registration is indefeasible.

Almost immediately after the launching of the system in Australia it was adapted in British Honduras (1858), followed by British Guiana (1880), the Leeward Islands (1886), Jamaica (1888). In England a similar law was passed (1862) and Ireland (1865). In these leaseholds for life or for twenty years were brought in. Absolute, qualified or possessory titles may be registered in England; only absolute titles in Ireland.

In Canada the system was adopted in British Columbia (1871), Ontario (1885), Manitoba (1885), Nova Scotia (1904), Alberta (1906) and Saskatchewan (1906). New Brunswick, Prince Edward Island, Quebec and New Foundland have not adopted it. Throughout Canada the act is compulsory on alienation of crown lands, except in British Columbia, and voluntary otherwise except in Ontario. It is wholly voluntary in Ontario and permissive only in parts of that province. An estate of any kind is entitled to registration except in Ontario, which is open only to fee simple and life or twenty-one-year leaseholds, and Alberta and Saskatchewan, which excludes any estate for less than three years.

The registration of land titles under statutes either known as "Torrens acts" or such in fact, has been adopted in many of the States; Illinois was the first to adopt it in 1858, the act, however, being held unconstitutional because under its provisions judicial powers were conferred on the examiners of titles and the recorders. In 1897, however, the law was substantially re-enacted with the objection obviated and this latter act has stood the test of the courts.

Ohio adopted the system in 1898, but, falling into the same error as Illinois in 1897, it was declared unconstitutional and was repealed. The California statute (1897) has obtained a favorable decision from the final court of that State, in what has proved a leading case—Robinson vs. Kerrigan. The system was adopted in Massachusetts in 1898 and from its adoption proceedings have been very active under it and a large number of decisions have fixed its principles there. Minnesota adopted the system in 1901, applying it arbitrarily only to counties of over 75,000 inhabitants. Oregon followed in the same year, shortly followed by the Philippine Islands (1902), Colorado (1903), Hawaii (1903) and the State of Washington (1907). New York (which will be considered separately) adopted the system in 1908.

In all of these States the law is voluntary except in the Philippines (Government grants, compulsory); Hawaii (lands owned by corporations compulsory) and Illinois (decendent's estates). In Illinois there is a referendum to the counties as to its adoption. The unit of registration is the county and generally the Register of Deeds or similar officer is the recorder. The operation of the act is confined to estates in fee simple absolute, except in Hawaii, which, like the English law, includes qualified and possessory titles. In all there is a judicial proceeding which is heard, except in Massachusetts, the Philippines and Hawaii, in the local court having equity jurisdiction. The "suit" is analogous to one to quit title. Massachusetts has a special "Land Court," and the Territories "Courts of Land Registration." The proceedings are declared to be "in rem" in the three latter and in California. The facts are prepared for the court (based upon the petition or other pleadings) by officials generally known as examiners of title. These in California, Massachusetts, Minnesota and Washington must be lawyers. The complaint or petition must set forth the names and addresses of all persons interested—jurisdiction over whom is obtained by service of summons, either personally or by publication (the proceeding being "in rem") and the allegations of the complaint may be traversed by any defendant. The local procedure varies widely, being generally conformed to the general procedure of the locality. In addition to the usual forms of service, the summons must be posted upon the property except in California, Minnesota, Oregon, Colorado and Washington. If there be a contest—a hearing is had in the usual form and in due course a decree is entered by the court directing (or denying) registration of the title subject to whatever encumbrances may have been found existent, and a certificate and duplicate is thereupon issued by the Registrar. The decree after a varying period becomes absolute and conclusive. The time is thirty days in Massachusetts and the Philippines; ninety days in Colorado and Washington; six months in Minnesota; two years in Illinois and Oregon, and five years in California. The title so registered is, generally speaking, indefeasible, the exceptions being by private parties for fraud, for varying periods and under varying conditions; becoming absolutely indefeasible for this cause in Massachusetts, the Philippines and Hawaii after one year. It is indefeasible as to boundaries except in Illinois, Minnesota, Oregon, Colorado and Washington, and in those States where the adjacent property owners have been "brought in." It is also defeasible as to unrecorded leases not required by the law to be recorded. Such a title is defeasible in actions by the State or Federal Government, as for eminent domain, taxes, &c. It is stated to be indefeasible as to adverse possession in Oregon and the Philippines and by implication in the others.

In order to protect the indefeasible quality of the title held under registration, provision has been generally made for an "Assurance Fund," the proceeds of which are used for the reimbursement of any one injured (that is deprived of his property or his rights) by reason of the decree upon which the registration was based. Such a person must bring suit within a fixed period—in Hawaii and Massachusetts within six years; in Minnesota, the Philippines, Colorado and Washington, six years, and in case of any disability an additional two years after its removal; in Illinois and Oregon within ten years, with the same disability clause.

THE LAW IN NEW YORK.

Chapter 444 of the laws of 1908, known as the "Land Title Registration law," became a law May 20, 1908, with the approval of the Governor. It became effective February 1, 1909. Stated in brief, it prescribes: Sec. 2. Any property or interest therein permitted to be registered may be brought under the operation of the act by filing a complaint, as provided by the Code of Civil Procedure; a natural person, a corporation, or person non sui juris may apply under the usual representation. Sec. 3. The application

shall be made to the Supreme Court, Special Term (of the county where the land is situated), and the proceedings shall be "in rem." On an issue raised trial is had in Special Term, but an issue of fact may be tried by a jury as provided by the Code of Civil Procedure; should the business require a "Fair" may be assigned as the "Title Fair" of the Special Term, the Appellate Division shall formulate rules of practice before such part. Sec. 4. The various county clerks, or where there are "registers" then those officials shall be "Registrars" of titles in their respective counties. The Registrars shall be county officers. Sec. 9. Before application is made for the registration of a title it must be examined and certified by an "official examiner of title," who must be a duly admitted attorney and counselor-at-law in the courts of record of the State or a corporation duly incorporated under the laws of the State and duly authorized to guarantee or insure titles to real property in this State. The Court of Appeals shall prescribe rules for ascertaining the fitness of applicants for the office of examiners. An applicant is licensed by the Appellate Division of the Supreme Court. He may be required to give a bond. In counties of not over 300,000 the examiner's certificate may be based upon searches and abstracts made by a domestic corporation organized to make and certify to searches and abstracts of title, such corporation to be not less than two years old.

Sec. 10. Any person or persons holding or claiming a fee simple or some right therein, or holding or claiming a contract to purchase such an estate, or who have or claim the power of appointing or disposing of such an estate, may make application for registry of his title. No lien upon an estate and no estate less than a fee may be registered unless the fee is first registered. All lesser estates to which the fee is found subject must be noted on the certificate.

Sec. 11. The complaint must name all parties having or claiming an interest or lien upon the property as shown by the examiner's certificate of title and such other parties as the court may direct, with their addresses; facts as to marriage age, &c., must be shown; "the People of the State of New York" must be made a defendant; the examiner's certificate is attached to the complaint as an exhibit.

Sec. 12. The examiner's certificate must be sworn to and if the examiner be a corporation, a policy of insurance of the title must accompany it, and shall be recoverable upon for ten years because of any error, fraud, omission or misdescription in the certificates. The certificate shall set forth the exact state of the title to be registered, with names and addresses and rights and interests of all persons in the property or in that adjoining same. Miniments of title must be filed, those affecting property not to be registered being subsequently withdrawn on filing certified copies. The certificate shall include a description, which, after approval by the court, shall be used in the summons, &c. Sec. 13 provides also for a map by a competent surveyor showing adjacent lands and highways; it must be verified.

Sec. 14 provides for the filing of the usual "lis pendens" or notice of pendency of the action, with the usual effect of that notice. Sec. 15. Any person may file a "caution" (in the Registrar's office) requiring notice to him of any application for registration of the title to any piece of property showing his claimed right, in which case he must be served. The Registrar shall keep a locality index of all "cautions" so filed. Sec. 16. A nonresident may apply through an agent duly appointed.

Sec. 17. On the application and the examiner's certificate, if the court determines that plaintiff's title should be registered (for which determination he may require another examination of the title), it shall make an order directing the issuance of a summons and notice, which shall be served in manner as provided in the Code of Civil Procedure.

Sec. 21. Any person interested may appear and defend whether named as a defendant or not.

Sec. 22. The court may find and decree in whom the title is vested; may remove clouds from the title; may determine as to the validity of liens, &c., &c., and may direct the Registrar to register such title either absolutely or as subject to any encumbrance.

Sec. 23. The title to be registered must be free from reasonable doubt and the judgment is conclusive against the world, including infants, lunatics and those not yet in being.

Sec. 24. Any registration may be set aside for fraud (except in the hands of an innocent purchaser) within ten years, but otherwise not after six months.

Sec. 25. The Registrar after final judgment shall register the title and issue a certificate and (Sec. 27) enter same in his records, issuing a duplicate (Sec. 28) to the owner.

Sec. 32. The person holding such a certificate, holds the property described free from all encumbrances except those noted thereon and any of the following: Liens, &c., of the United States not required to be of record; taxes, water rates, &c., laid after initial registration; leases not over one year and actual occupation; easements or servitudes accruing after initial registration and not requiring record. Property registered shall not be subject to adverse possession (23). When once registered property must remain registered. Registered property is transferred by ordinary deed to be filed with the Registrar and a "memorial" agreed on by vendor and vendee entered upon the original certificate and he shall make out a new original and duplicate certificate certifying the ownership in the vendee, where the parties fail to agree on a statement to the Registrar he shall not issue a new certificate. Provision is made (39) for the sale of a part only. A fee having been duly registered a mortgage (48) may present a subsequently executed mortgage and have it registered (upon an agreed statement between the mortgagor and himself) upon the proper certificate in the registration book and upon the owner's duplicate. Judgments, decrees, attachments, executions, mechanics' or other liens must, on filing a transcript with the Registrar (49), be memorialized by the Registrar.

Assignments of mortgages, leases, &c., and releases are similarly treated (50-51). Procedure in foreclosure remains practically the same. Upon the death of the registered owner his heirs-at-law or devisees may obtain a new certificate on a final decree establishing the will or the intestacy and a proceeding, analogous to that for initial registration but relating back only to the time of the death of the former owner (Sec. 55).

The law establishes an assurance fund (Sec. 58) and upon each original registration there shall be paid to the Registrar one-tenth of one per centum of the value as shown by last local taxation, but if applicant takes registry without recourse to such fund, such tax shall not be exacted. Any person damaged (Sec. 59) by the order of registration may bring an action to recover from this fund; such action to be brought within six years (Sec. 61). To fraudulently procure or assist in procuring the registry of a title (or anything incident thereto) is made a felony, punishable by a fine of not exceeding \$500, or imprisonment for five years, or both. The fees of the Registrar are not greatly in excess of the usual court fees in New York County. The Court of Appeals, in addition, requires a bond of \$5,000, to run ten years, from the Examiners of Title. Up to this but few applications have been made for registration.

DAUGHTER OF REVOLUTIONARY SOLDIER ON PENSION ROLLS JUNE 30, 1909.

NAME.	Age.	Name of Soldier.	Service of Soldier.	Residence.
Wooley, Phoebe M., now Palmer.....	88	Wooley, Jonathan.....	N. Hampshire.	Brookfield, N. Y.

Daniel F. Bakeman, the last survivor of the War of the Revolution, died in Freedom, Cattaraugus County, N. Y., April 5, 1869, aged 109 years. Esther S. Damon, the last surviving widow of a Revolutionary soldier, who died at Plymouth Union, Vt., November 11, 1906, aged 92 years, was the wife of Noah Damon, who served at various periods as a private in Massachusetts troops from April 19, 1775, to May 11, 1780.

The last survivor of the war of 1812 who was on the pension rolls was Hiram Cronk of Aya, N. Y., who died May 13, 1905, aged 105 years. He served in the defence of Sacket Harbor in 1814.

The number of enrolled pension attorneys in 1909 was 25,399.

The following are the ratings per month for disabilities incurred in the service:

Army.—Lieutenant-colonel and all officers of higher rank, \$30; major, surgeon, and paymaster, \$25; captain and chaplain, \$20; first lieutenant and assistant surgeon, \$17; second lieutenant and enrolling officer, \$15; enlisted men, \$8.

Navy.—Captain and all officers of higher rank, commander, surgeon, paymaster, and chief engineer, \$30; lieutenant, passed assistant surgeon, surgeon, paymaster, and chief engineer, \$25; master, professor of mathematics, and assistant surgeon, \$20; first assistant engineer, ensign, and pilot, \$15; cadet midshipman, passed midshipman, midshipman, warrant officers, \$10; enlisted men, \$8.

Patent Office Procedure.

The following statement has been revised by the Patent Office for THE WORLD ALMANAC for 1910: Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, or any new original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories, referring to the specification for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent; neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than twelve months prior to the filing of the application in this country, and four months in cases of designs, in which case no patent shall be granted in this country.

APPLICATIONS.

Applications for a patent must be made in writing to the Commissioner of Patents. The applicant must also file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor and attested by two witnesses.

When the nature of the case admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact, and attested by two witnesses. In all cases which admit of representation by model, the applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides, and whether he is the sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more than twelve months prior to his application in this country, or four months in cases of designs. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, chargé d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge or magistrate having an official seal and authorized to administer oaths in that country whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, except that no acknowledgment may be taken by any attorney appearing in the case.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the same is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent or any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

REISSUES.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more than he had a right to claim as new, the original patent is inoperative or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

CAVEATS.

A caveat, under the patent law, is a notice given to the office of the caveator's claim as inventor, in order to prevent the grant of a patent to another for the same alleged invention upon an application filed during the life of a caveat without notice to the caveator.

Any person who has made a new invention or discovery, and desires further time to mature the same, may, on payment of a fee of ten dollars, file in the Patent Office a caveat setting forth the

PATENT OFFICE PROCEDURE—Continued.

object and the distinguishing characteristics of the invention, and praying protection of his right until he shall have matured his invention. Such caveat shall be filed in the confidential archives of the office and preserved in secrecy, and shall be operative for the term of one year from the filing thereof. The caveat may be renewed, on request in writing, by the payment of a second fee of ten dollars, and it will continue in force for one year from the payment of such second fee.

The caveat must comprise a specification, oath, and, when the nature of the case admits of it, a drawing, and, like the application, must be limited to a single invention or improvement.

FEES.

Fees must be paid in advance, and are as follows: On filing each original application for a patent, \$15. On issuing each original patent, \$20. In design cases: For three years and six months, \$10; for seven years, \$15; for fourteen years, \$30. On filing each caveat, \$10. On every application for the reissue of a patent, \$30. On filing each disclaimer, \$10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty cents. For uncertified printed copies of specifications and drawings of patents, five cents each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, \$1; of over three hundred and under one thousand words, \$2; for each additional thousand words, or fraction thereof, \$1. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of any drawing, foreign or domestic, in the possession of the office, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 8x12½ inches, fifteen cents. Fee for examining and registering trade-mark, \$10, which includes certificate. Stamps cannot be accepted by the Patent Office in payment of fees. Stamps and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

PATENT OFFICE STATISTICS.

The receipts of the Patent Office during the year ending December 31, 1908, were \$1,896,847.67 and expenditures, \$1,712,303.42. Receipts over expenditures, \$184,544.25.

The following is a statement of the business of the office for the year ending December 31, 1908:

Number of applications for patents.....	60,142	Number of patents granted, including designs.....	33,514
Number of applications for design patents.....	1,131	Patents reissued.....	168
Number of applications for reissue patents.....	202	Total.....	33,682
Total.....	61,475	Number of trade-marks registered.....	5,191
Number of caveats filed.....	2,110	Number of labels registered.....	618
Number of applications for registration of trade-marks.....	7,685	Number of prints registered.....	220
Number of applications for registration of labels.....	860	Total.....	6,029
Number of applications for prints.....	312	Number of patents expired.....	22,328
Number of disclaimers filed.....	13	Number of patents withheld for non-payment of final fees.....	6,502
Number of appeals on the merits.....	1,228	Number of applications allowed awaiting final fees.....	12,269
Total.....	12,208	Number of trade-mark applications passed for publication.....	5,416
Number of applications, etc., requiring investigation and action.....	16,144		

The total number of applications filed at the Patent Office in seventy-two years, 1837-1908, was 1,536,223; number of caveats filed, 127,253; number of original patents, including designs and reissues issued, 960,952; net surplus in the U. S. Treasury on account of the patent fund, \$6,890,725.89.

The following is a statement of patents and designs issued in 1908 according to residence of patentees:

Alabama, 134; Alaska, 14; Arizona, 50; Arkansas, 112; California, 1,192; Colorado, 455; Connecticut, 785; Delaware, 49; District of Columbia, 250; Florida, 110; Georgia, 239; Hawaii, 11; Idaho, 77; Illinois, 3,056; Indiana, 877; Iowa, 696; Kansas, 434; Kentucky, 281; Louisiana, 167; Maine, 153; Maryland, 230; Massachusetts, 1,837; Michigan, 1,042; Minnesota, 627; Mississippi, 97; Missouri, 955; Montana, 105; Nebraska, 323; Nevada, 29; New Hampshire, 109; New Jersey, 1,427; New Mexico, 25; New York, 4,760; North Carolina, 173; North Dakota, 134; Ohio, 2,277; Oklahoma, 215; Oregon, 232; Panama, 3; Pennsylvania, 3,100; Philippine Islands, 4; Porto Rico, 2; Rhode Island, 259; South Carolina, 65; South Dakota, 127; Tennessee, 244; Texas, 524; Utah, 92; Vermont, 70; Virginia, 251; Washington, 377; West Virginia, 302; Wisconsin, 702; Wyoming, 23; U. S. Army, 7; U. S. Navy, 9. Total, 29,800.

Foreign countries: Austria-Hungary, 109; Belgium, 59; Canada, 444; Cuba, 9; Denmark, 36; England, 734; France, 302; Germany, 1,013; Italy, 49; Japan, 9; Mexico, 16; Russia, 38; Scotland, 46; Sweden, 82; Switzerland, 106; other countries, 296. Total foreign, 3,338.

GENERAL PATENT STATISTICS.

The following table is compiled from the report of the Commissioner of Patents for 1909. It exhibits the number of patents issued by foreign countries and the United States from the earliest records to December 31, 1908:

COUNTRIES.	To 1870 Inclusive.	1871 to 1908.	Total.	COUNTRIES.	To 1870 Inclusive.	1871 to 1908.	Total.

Cigars, weighing not more than 3 pounds per thousand no.	1,009,352,296	1,030,738,500	21,386,204
Cigarettes, weighing not more than 3 pounds per thousand no.	5,383,204,630	6,086,991,908	703,087,278
Cigarettes, weighing more than 3 pounds per thousand no.	19,131,483	19,149,270	17,787
Snuff lbs.	22,547,762	27,019,628	4,471,866
Tobacco, chewing and smoking lbs.	364,109,355	388,757,320	24,647,965
Oleomargarine lbs.	79,107,302	80,691,844	1,584,542
Adulterated butter lbs.	177,123	133,417	43,706
Process or renovated butter lbs.	50,240,708	48,174,216	2,066,492

NOTE.—The quantity of mixed flour withdrawn cannot be stated, owing to the variable number of pounds taxed.
 a Includes 5,152,218,630 at \$1.08 and 934,073,278 at 54 cents per thousand. b Includes 4,228,778 at 10 cents, 86,393,024 at one-fourth of 1 cent, and 42 pounds (imported) at 15 cents per pound.

United States Internal Revenue Taxes.**SCHEDULE OF ARTICLES AND OCCUPATIONS SUBJECT TO TAX.****SPECIAL TAXES AND RATES.**

Rectifiers of less than 500 barrels a year, \$100; rectifiers of 500 barrels or more a year, \$200.
 Wholesale liquor dealers, \$100; retail liquor dealers, \$25.
 Wholesale dealers in malt liquors, \$50; retail dealers in malt liquors, \$20.
 Manufacturers of stills, \$50; and for stills or worms, manufactured, each, \$20.
 Brewers: Annual manufacture less than 500 barrels, \$50; annual manufacture 500 barrels or more, \$100.
 Manufacturers of filled cheese, \$400; wholesale dealers in filled cheese, \$250; retail dealers in filled cheese, \$12.
 Manufacturers of oleomargarine, \$600; wholesale dealers in oleomargarine artificially colored in imitation of butter, \$480; wholesale dealers in oleomargarine free from artificial coloration, \$200; retail dealers in oleomargarine artificially colored in imitation of butter, \$48; retail dealers in oleomargarine free from artificial coloration, \$6.
 Manufacturers of adulterated butter, \$600; wholesale dealers in adulterated butter, \$480; retail dealers in adulterated butter, \$48; manufacturers of process or renovated butter, \$50; manufacturers, packers or repackers of mixed flour, \$12.

DISTILLED SPIRITS, ETC.

Distilled spirits, per gallon, \$1.10; stamps for distilled spirits intended for export, each, 10 cents; except when affixed to packages containing two or more 5-gallon cans for export, 5 cents.
 Case stamps for spirits bottled in bond, 10 cents.

Wines, liquors, or compounds known or denominated as wine, and made in imitation of sparkling wine or champagne, but not made from grapes grown in the United States, and liquors not made from grapes, currants, rhubarb or berries grown in the United States, but produced by being rectified or mixed with distilled spirits or by the infusion of any matter in spirits, to be sold as wine, or as a substitute for wine, in bottles containing not more than 1 pint per bottle or package, 10 cents; same, in bottles, containing more than 1 pint, and not more than 1 quart, per bottle or package, 20 cents (and at the same rate for any larger quantity of such merchandise, however put up or whatever may be the package).

Grape brandy used in the fortification of pure, sweet wine under an act approved June 7, 1906 (to be assessed), per gallon, 3 cents.

FERMENTED LIQUORS.

Fermented liquors per barrel, containing not more than 31 gallons, \$1 (and at a proportionate rate for halves, thirds, quarters, sixths and eighths of barrels); more than one barrel of 31 gallons, and not more than 63 gallons, in one package, \$2.

TOBACCO AND SNUFF.

Tobacco, however prepared, manufactured and sold, or removed for consumption or sale, per lb., 6 cents; snuff, however prepared, manufactured and sold, or removed for consumption or sale, per lb., 6 cents.

CIGARS AND CIGARETTES.

Cigars of all descriptions made of tobacco, or any substitute therefor, and weighing more than 3 lbs. per thousand, \$3; cigars of all descriptions made of tobacco, or any substitute therefor, and weighing not more than 3 lbs. per thousand, 18 cents per lb., 54 cents; cigarettes weighing not more than 3 lbs. per thousand and of a wholesale value or price of more than \$2 per thousand, 36 cents per lb., \$1.08; cigarettes weighing not more than 3 lbs. per thousand and of a wholesale value or price of not more than \$2 per thousand, 18 cents per lb., 54 cents; cigarettes weighing more than 3 lbs. per thousand, \$3.

OLEOMARGARINE.

Oleomargarine, domestic, artificially colored to look like butter, of any shade of yellow, per lb., 10 cents; oleomargarine, free from coloration that causes it to look like butter, of any shade of yellow, per lb., 1/4 of one cent; oleomargarine, imported from foreign countries, per lb., 15 cents.

ADULTERATED BUTTER AND PROCESS OR RENOVATED BUTTER.

Adulterated butter, per lb., 10 cents, process or renovated butter, per lb., 1/4 of one cent.

FILLED CHEESE.

Filled cheese, per lb., 1 cent; same, imported, per lb., 8 cents.

OPIUM.

Prepared smoking opium, per lb., \$10.

MIXED FLOUR.

Mixed flour, per barrel of 196 lbs., or more than 98 lbs., 4 cents; half barrel of 98 lbs., or more than 49 lbs., 2 cents; quarter barrel of 49 lbs., or more than 24 1/2 lbs., 1 cent; eighth barrel of 24 1/2 lbs., or less, 1/2 of one cent. (Mixed flour imported from foreign countries, in addition to import duties, must pay internal revenue tax as above.)

CIRCULATION OF AND NOTES PAID OUT BY BANKS AND BANKERS.

Circulation issued by any bank, etc., or person (except a national bank taxed under Section 5214, Revised Statutes, and Section 13, Act March 14, 1900), per month, 1-12 of 1 per cent.

Circulation (except national banks) exceeding 90 per cent. of capital, in addition, per month, 1-6 of 1 per cent.

Banks, etc., on amount of notes of any person, State bank, or State banking association, used for circulation and paid out, 10 per cent.

Banks, etc., bankers, or associations, on amount of notes of any town, city, or municipal corporation paid out by them, 10 per cent.

Every person, firm, association, other than national bank associations, and every corporation, State bank, or State banking association, on the amount of *their own notes* used for circulation and paid out by them, 10 per cent.

Every such person, firm, association, corporation, State bank, or State banking association, and also every national banking association, on the amount of notes of any person, firm, association, other than a national banking association, or of any corporation, State bank or State banking association, or of any town, city, or municipal corporation, used for circulation, and paid out by them, 10 per cent.

PLAYING CARDS.

Playing cards, per pack, containing not more than 54 cards, 2 cents.

TAXES NOT PAYABLE BY STAMPS.

Tax on deficiencies in production of spirits—On excess of materials used in production of spirits; on circulation of banks and bankers; on notes paid out by banks and others; on brandy used in the fortification of wine. Penalties of 50 per cent. and 100 per cent.

Immigration Into the United States, 1822-1909.

1843	52,496	Fiscal year end g June 30		1890	455,302	1789 to 1821 est.	259,127
1844	78,615	1867	298,967				
1845	114,371	1868	282,189				

Of the whole number of immigrants in the fiscal year ending June 30, 1909, 580,617 came through the customs district of New York, 13,966 through Baltimore, 36,318 through Boston, 14,294 through Philadelphia, 3,103 through San Francisco, and 32,223 through other ports; also 66,265 through Canadian ports.

The reported occupations of immigrants arriving during the fiscal year 1909 were as follows: Laborers, 174,800; servants, 64,568; farm laborers, 171,310; tailors, 10,449; merchants and dealers, 3,643; carpenters, 3,006; shoemakers, 3,592; clerks, 7,825; mariners, 3,763; miners, 6,573. The number of professional immigrants (including 674 actors, 1,397 engineers, 714 musicians, and 1,243 teachers) was 8,086; of skilled laborers 87,160; miscellaneous (including unskilled), 435,247; no occupation (including children), 221,293.

The total number of alien immigrants refused admission to the United States in the fiscal year ending 1909 was 10,411, of which 4,401 were paupers or persons likely to become public charges, 2,382 persons with loathsome or contagious diseases, 1,172 contract laborers, 167 insane, 181 idiots, 273 convicts, 323 prostitutes, 181 persons who attempted to bring in prostitutes, 58 returned in one year after landing, 2,066 returned within three years because here in violation of law.

IMMIGRATION BY COUNTRIES IN FISCAL YEARS 1908 AND 1909.

COUNTRIES.	1908.	1909.	COUNTRIES.	1908.	1909.
Austria-Hungary	168,509	170,191	Wales	2,287	1,584

Spain, inc. Canary and Balearic Islands	3,899	2,616	Central America	1,175	930
Sweden	12,809	14,474	Mexico	6,067	16,251
Switzerland	3,281	2,694	South America	2,315	1,906
Turkey in Europe	11,230	9,015	West Indies	11,888	11,189
England	47,031	32,809	Other countries	17	49
Ireland	39,556	25,033	Grand total	782,870	751,786
Scotland	13,306	12,400			

No statistics of immigration into the United States of citizens of Canada and Mexico were gathered by the Bureau of Immigration and Naturalization prior to July 1, 1907. The fact, however, that the Census of 1900 shows the presence of 1,183,225 persons in the United States born in Canada and 103,445 persons born in Mexico proves that the number of arrivals from those countries has been large.

EMIGRATION FROM UNITED STATES.

For fiscal year ended June 30, 1908, emigrant aliens, 395,073; non emigrant aliens, 319,755; total, 714,828. For fiscal year ended June 30, 1909, emigrant aliens, 225,802; non emigrant aliens, 174,590; total, 400,392.

United States Steamboat Inspection Service. 139

THE Steamboat Inspection Service, by act of Congress approved February 14, 1903, was transferred from the Treasury Department to the Department of Commerce and Labor. The transfer went into effect July 1, 1903. The Supervising Inspector-General of the Steamboat Inspection Service, George Uhler, reported to the Secretary of Commerce and Labor for the fiscal year ended June 30, 1909: Number of annual certificates of inspection issued to domestic steam, motor, sail vessels, and barges, 7,962; number of certificates issued to foreign steamers, 419; total number of annual certificates of inspection issued to domestic and foreign, 8,381. Increase in number of certificates to domestic vessels over previous year, 224; decrease in number of certificates to foreign vessels from previous year, 33; increase in number of certificates of all kinds of vessels over previous year, 191. Gross tonnage of domestic vessels, all kinds, inspected, 4,837,719; gross tonnage of foreign steamers inspected, 2,890,903. Decrease in gross tonnage of foreign steam vessels inspected from previous year, 25,369. Increase in number of all kinds domestic vessels inspected over previous year, 408,996. Number of officers' licenses issued, 15,023. Number of new life-preservers inspected, 161,206, of which number 770 were rejected. Decrease in number of new preservers inspected from previous year, 22,594. Decrease in number of life-preservers rejected from previous year, 1,376. Number of marine boiler plates inspected at the mills by assistant inspectors, 3,059, being a decrease in number inspected from previous year of 632. Number of applicants examined for color-blindness, 1,362, of which number 36 were found color-blind and rejected, and 1,326 were passed. Increase in number of applicants passed over previous year, 535.

CAUSES.	Accidents.	Lives Lost.	CAUSES.	Accidents.	Lives Lost.
Fire.....	2	3	Accidents to machinery.....	.	68
Collision.....	25	37	Snags, wrecks, and sinking.....	9	81
Explosions or accidental escape of steam.....	6	9	Accidental drowning.....	.	73
Breaking of steam pipes, mud drums, etc.....	4	7	Miscellaneous.....	28	.
			Total.....	74	278

Of the total number of 278 lives lost, 81 were from accidents for which the Service cannot in any way be held responsible, and 73 from suicide and other causes beyond the power of the Service to avert; this leaves 124 lives lost that can be fairly chargeable to accident, collision, or foundering, a small ratio of persons carried upon or employed by vessels subject to the inspection laws. During the year ended December 31, 1908, 413,531,305 passengers were carried on steamers which are required by law to make report, an increase of 41,184,026 over the previous calendar year. Increase in number of accidents over previous year, 10. Decrease in number of lives lost from previous year, 107.

UNITED STATES BUREAU OF FISHERIES.

DEPARTMENT OF COMMERCE AND LABOR.

THE work of the Bureau of Fisheries comprises (1) the propagation of useful food fishes, including lobsters, oysters and other shellfish, and their distribution to suitable waters; (2) the inquiry into the causes of decrease of food fishes in the lakes, rivers and coast waters of the United States, the study of the waters of the coast and interior in the interest of fish-culture, and the investigation of the fishing grounds of the Atlantic, Gulf and Pacific coasts, with the view of determining their food resources and the development of the commercial fisheries; (3) the collection and compilation of the statistics of the fisheries and the study of their methods and relations. The Bureau also has jurisdiction over the fur-seal herds and the salmon fisheries of Alaska. Office, Sixth and B Streets, Washington, D. C. The official force of the Bureau is as follows: *Commissioner*, George M. Bowers; *Deputy Commissioner*, Hugh M. Smith; *Chief Clerk*, I. H. Dunlap. *Assistants in Charge of Division: Inquiry Respecting Food Fishes*, B. W. Everman; *Fish Culture*, Robert S. Johnson; *Statistics and Methods*, A. B. Alexander; *Architect and Engineer*, Hector von Bayer.

The United States Light-House Establishment.

THE following are the members of the Light-House Board: Charles Nagel, Secretary of Commerce and Labor and *ex-officio* President of the Board; Rear-Admiral Adolph Marix, U. S. N., Chairman, Washington, D. C.; Col. Walter S. Franklin, Baltimore, Md.; Dr. Henry S. Pritchett, Carnegie Foundation, New York; Col. William T. Russell, Corps of Engineers, U. S. A., New York; Capt. Kossuth Niles, U. S. N., Washington, D. C.; Maj. James B. Cavanaugh, Corps of Engineers, U. S. A., Washington, D. C.; Capt. William B. Caperton, U. S. N., Naval Secretary, Washington, D. C.; Col. Thomas L. Gasey, Corps of Engineers, U. S. A., Engineer Secretary, Washington, D. C.

The establishment is divided into sixteen districts, each in charge of an inspector and engineer, the former being navy and the latter army officers. The Board has supervision of all administrative duties relating to the construction and maintenance of light-houses, light-vessels, beacons, fog-signals, buoys, and their appendages, and has charge of all records and property appertaining to the establishment.

The United States Government Printing Office.

THE Public Printer has charge of all business relating to the public printing and binding. He appoints the officers and employees of the Government Printing Office, and purchases all necessary machinery and material. The foreman of printing has charge of all matter which is to be printed. His department consists of the following divisions: The document, job, specification, press, folding, stereotype, and Congressional Record rooms, as well as the various branch offices. The Superintendent of Documents has general supervision of the distribution of all public documents, excepting those printed for the use of the two Houses of Congress and the Executive Departments. He is required to prepare a comprehensive index of public documents and consolidated index of Congressional documents, and is authorized to sell at cost any public document in his charge the distribution of which is not specifically directed. The following are the official heads of the several departments: Public Printer, Samuel B. Donnelly; Secretary to the Public Printer, William J. Dow; Attorney, Frank E. Elder; Deputy Public Printer, Henry T. Brian; Congressional Record Clerk, William A. Smith; Superintendent of Work, John R. Berg; Superintendent of Documents, August Donath.

United States Secret Service.

THE Secret Service Division of the Treasury Department is under the direction of John E. Wilkie, chief of the division. The service is principally engaged in detecting and prosecuting makers and dealers in counterfeit paper money and coin. Details are also furnished for the protection of the President of the United States, and in the frequent journeyings of the present President he is always accompanied by one or more secret service men.

The arrests of counterfeiters number about 400 annually; other arrests are for bribery, impersonating United States Government officers, perjury, and violating Sections 5,392, 5,414, 5,415, 5,424, 5,432, 5,433, 5,440, 5,459 and 5,479 of the United States Revised Statutes.

United States Geographic Board.

Chairman, Henry Gannett, Geological Survey, Department of the Interior; *Secretary*, Charles S. Sloan, Bureau of the Census, Department of Commerce and Labor; Frank Bond, General Land Office, Department of the Interior; Andrew Braid, Coast and Geodetic Survey, Department of Commerce and Labor; Major Adolph von Haake, Post-Office Department; Arnold B. Johnson, Light House Board, Department of Commerce and Labor; Lieut. Col. Thaddeus W. Jones, Department of War; Dr. C. Hart Merriam, Bureau of Biological Survey, Department of Agriculture; John S. Mills, Department of the Treasury; William McNeir, Chief of the Bureau of Rolls and Library, Department of State; Frank A. Kidd, Editor and Chief, Government Printing Office; Fred G. Plummer, Department of Agriculture; Charles W. Stewart, Department of the Navy; Com. A. G. Winterhalter, Hydrographer, Department of the Navy.

By Executive Order of August 10, 1906, the official title of the United States Board on Geographic Names was changed to United States Geographic Board, and its duties enlarged. The Board passes on all unsettled questions concerning geographic names which arise in the departments, as well as determining, changing, and fixing place names within the United States and its insular possessions, and all names hereafter suggested by any officer of the Government shall be referred to the Board before publication. The decisions of the Board are to be accepted by all the departments of the Government as standard authority. Advisory powers were granted the Board concerning the preparation of maps compiled, or to be compiled, in the various offices and bureaus of the Government, with a special view to the avoidance of unnecessary duplication of work; and for the unification and improvement of the scales of maps, of the symbols and conventions used upon them, and of the methods of representing relief. Hereafter, all such projects as are of importance shall be submitted to this Board for advice before being undertaken.

Income Tax Amendment

TO THE CONSTITUTION OF THE UNITED STATES PROPOSED BY THE SIXTY-FIRST CONGRESS TO THE STATES.

THE following joint resolution was proposed at the first session of the Sixty-first Congress and was passed by the Senate July 5, 1909, by an unanimous vote, and by the House of Representatives July 12, by a vote of 317 to 14, and received the approval of the President.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two-thirds of each House concurring therein), That the following article is proposed as an amendment to the Constitution of the United States, which, when ratified by the Legislatures of three-fourths of the several States, shall be valid to all intents and purposes as a part of the Constitution:

"Article XVI. The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment, among the several States, and without regard to any census or enumeration."

Three State Legislatures have been in session since the adoption of this joint resolution.

August 9. Georgia Legislature refused to consider a report from committee favoring the amendment.

August 10. Alabama Legislature unanimously ratified the amendment.

August 12. Connecticut Legislature postponed action and subsequently adjourned without further proceedings on the amendment.

Commission on Country Life.

IN August, 1908, President Roosevelt, desirous of improving social, sanitary, and economic conditions on American farms, invited Prof. L. H. Bailey, of the New York College of Agriculture, at Ithaca; Henry Wallace, of "Wallace's Farmer," Des Moines, Ia.; Kenyon L. Butterfield, president of the Massachusetts Agricultural College, at Amherst; Gifford Pinchot, of the United States Forest Service; Walter H. Page, editor of "The World's Work," New York; C. S. Barrett and W. A. Beard, to assist him by acting as a committee of investigation, or "Commission on Country Life." "I should be glad," he said, "to have you report before the end of next December," as he proposed to use it in making recommendations to Congress. The commission made its report January 23, 1909, and in transmitting it to Congress, the President said:

PRESIDENT ROOSEVELT'S MESSAGE.

I transmit herewith the report of the Commission on Country Life. At the outset I desire to point out that not a dollar of the public money has been paid to any commissioner for his work on the commission.

The report shows the general condition of farming life in the open country, and points out its larger problems; it indicates ways in which the Government, National and State, may show the people how to solve some of these problems; and it suggests a continuance of the work which the commission began.

Judging by thirty public hearings, to which farmers and farmers' wives from forty States and Territories came, and from 120,000 answers to printed questions sent out by the Department of Agriculture, the commission finds that the general level of country life is high compared with any preceding time or with any other land. If it has in recent years slipped down in some places, it has risen in more places. Its progress has been general, if not uniform.

Yet farming does not yield either the profit or the satisfaction that it ought to yield and may be made to yield. There is discontent in the country, and in places discouragement. Farmers as a class do not magnify their calling, and the movement to the towns, though I am happy to say, less than formerly, is still strong.

Under our system, it is helpful to promote discussion of ways in which the people can help themselves. There are three main directions in which the farmers can help themselves; namely, better farming, better business, and better living on the farm. The National Department of Agriculture, which has rendered services equaled by no other similar department in any other time or place; the State Departments of Agriculture; the State Colleges of Agriculture and the Mechanic Arts, especially through their extension work; the State Agricultural Experiment Stations; the Farmers' Union; the Grange; the agricultural press; and other similar agencies have all combined to place within the reach of the American farmer an amount and quality of agricultural information which, if applied, would enable him, over large areas, to double the production of the farm.

The object of the Commission on Country Life therefore is not to help the farmer raise better crops, but to call his attention to the opportunities for better business and better living on the farm. If country life is to become what it should be, and what I believe it ultimately will be—one of the most dignified, desirable, and sought-after ways of earning a living—the farmer must take advantage not only of the agricultural knowledge which is at his disposal, but of the methods which have raised and continue to raise the standards of living and of intelligence in other callings.

Those engaged in all other industrial and commercial callings have found it necessary, under modern economic conditions, to organize themselves for mutual advantage and for the protection of their own particular interests in relation to other interests. The farmers of every progressive European country have realized this essential fact and have found in the co-operative system exactly the form of business combination they need.

Now whatever the State may do toward improving the practice of agriculture, it is not within the sphere of any Government to reorganize the farmers' business or reconstruct the social life of farming communities. It is, however, quite within its power to use its influence and the machinery of publicity which it can control for calling public attention to the needs and the facts. For example, it is the obvious duty of the Government to call the attention of farmers to the growing monopolization of water power. The farmers above all should have that power, on reasonable terms, for cheap transportation, for lighting their homes, and for innumerable uses in their daily tasks on the farm.

It would be idle to assert that life on the farm occupies as good a position in dignity, desirability, and business results as the farmers might easily give it if they chose. One of the chief difficulties is the failure of country life as it exists at present, to satisfy the higher social and intellectual aspirations of country people. Whether the constant draining away of so much of the best elements in the rural population into the towns is due chiefly to this cause or to the superior business opportunities of city life may be open to question. But no one at all familiar with farm life throughout the United States can fail to recognize the necessity for building up the life of the farm upon its social as well as upon its productive side.

It is true that country life has improved greatly in attractiveness, health, and comfort, and that the farmer's earnings are higher than they were. But city life is advancing even more rapidly, because of the greater attention which is being given by the citizens of the towns to their own betterment. For just this reason the introduction of effective agricultural co-operation throughout the United States is of the first importance. Where farmers are organized co-operatively they not only avail themselves much more readily of business opportunities and improved methods, but it is found that the organizations which bring them together in the work of their lives are used also for social and intellectual advancement.

The co-operative plan is the best plan of organization wherever men have the right spirit to carry it out. Under this plan any business undertaking is managed by a committee; every man has one vote and only one vote; and everyone gets profits according to what he sells or buys or supplies. It develops individual responsibility and has a moral as well as a financial value over any other plan.

I desire only to take counsel with the farmers as fellow-citizens. It is not the problem of the farmers alone that I am discussing with them, but a problem which affects every city as well as every farm in the country. It is a problem which the working farmers will have to solve for themselves; but it is a problem which also affects in only less

degree all the rest of us, and therefore if we can render any help toward its solution, it is not only our duty but our interest to do so. * * *

From all that has been done and learned three great general and immediate needs of country life stand out:

First, effective co-operation among farmers to put them on a level with the organized interests with which they do business.

Second, a new kind of schools in the country, which shall teach the children as much outdoors as indoors and perhaps more, so that they will prepare for country life, and not as at present, mainly for life in town.

Third, better means of communication, including good roads and a parcels post, which the country people are everywhere, and rightly, unanimous in demanding.

To these may well be added better sanitation; for easily preventable diseases hold several million country people in the slavery of continuous ill health. * * *

The only recommendation I submit is that an appropriation of \$25,000 be provided, to enable the commission to digest the material it has collected, and to collect and to digest much more that is within its reach, and thus complete its work. This would enable the commission to gather in the harvest of suggestion which is resulting from the discussion it has stirred up. The commissioners have served without compensation, and I do not recommend any appropriation for their services, but only for the expenses.

REPORT OF THE COMMISSION.

The commission made a very extended report dwelling on the many phases of the problem before it, but it gave the following summary of its conclusions:

The commission finds that agriculture in the United States, taken altogether is prosperous commercially, when measured by the conditions that have obtained in previous years, although there are some regions in which this is only partially true. The country people are producing vast quantities of supplies for food, shelter, clothing, and for use in the arts. The country homes are improving in comfort, attractiveness, and healthfulness. Not only in the material wealth that they produce, but in the supply of independent and strong citizenship, the agricultural people constitute the very foundation of our national efficiency. As agriculture is the immediate basis of country life, so it follows that the general affairs of the open country, speaking broadly, are in a condition of improvement.

Many institutions, organizations and movements are actively contributing to the increasing welfare of the open country. The most important of these are the United States Department of Agriculture, the colleges of agriculture and the experiment stations in the States, and the national farmers' organizations. These institutions and organizations are now properly assuming leadership in country-life affairs, and consequently in many of the public questions of national bearing. With these agencies must be mentioned State departments of agriculture, agricultural societies, and organizations of very many kinds, teachers in schools, workers in church and other religious associations, travelling libraries, and many other groups, all working with commendable zeal to further the welfare of the people of the open country.

THE MOST PROMINENT DEFICIENCIES.

Yet it is true, notwithstanding all this progress as measured by historical standards, that agriculture is not commercially as profitable as it is entitled to be for the labor and energy that the farmer expends and the risks that he assumes, and that the social conditions in the open country are far short of their possibilities. We must measure our agricultural efficiency by its possibilities rather than by comparison with previous conditions. The farmer is almost necessarily handicapped in the development of his business, because his capital is small and the volume of his transactions limited; and he usually stands practically alone against organized interests. In the general readjustment of modern life due to the great changes in manufactures and commerce inequalities and discriminations have arisen, and naturally the separate man suffers most. The unattached man has problems that government should understand.

The reasons for the lack of a highly organized rural society are very many, as the full report explains. The leading specific causes are:

A lack of knowledge on the part of farmers of the exact agricultural conditions and possibilities of their regions;

Lack of good training for country life in the schools;

The disadvantage or handicap of the farmer as against the established business systems and interests, preventing him from securing adequate returns for his products, depriving him of the benefits that would result from unmonopolized rivers and the conservation of forests, and depriving the community, in many cases, of the good that would come from the use of great tracts of agricultural land that are now held for speculative purposes;

Lack of good highway facilities;

The widespread continuing depletion of soils, with the injurious effect on rural life; A general need of new and active leadership.

Other causes contributing to the general result are: Lack of any adequate system of agricultural credit, whereby the farmer may readily secure loans on fair terms; the shortage of labor, a condition that is often complicated by intemperance among workmen; lack of institutions and incentives that tie the laboring man to the soil; the burdens and the narrow life of farm women; lack of adequate supervision of public health.

THE NATURE OF THE REMEDIES.

Some of the remedies lie with the National Government, some of them with the States and communities in their corporate capacities, some with voluntary organizations, and some with individuals acting alone. From the great number of suggestions that have been made, covering every phase of country life, the commission now enumerates those that seem to be most fundamental or most needed at the present time.

Congress can remove some of the handicaps of the farmer, and it can also set some kinds of work in motion, such as:

The encouragement of a system of thoroughgoing surveys of all agricultural regions in order to take stock and to collect local fact, with the idea of providing a basis on which to develop a scientifically and economically sound country life;

The encouragement of a system of extension work of rural communities through all the land-grant colleges with the people at their homes and on their farms;

A thoroughgoing investigation by experts of the middleman system of handling farm products, coupled with a general inquiry into the farmer's disadvantages in respect to

taxation, transportation rates, co-operative organizations and credit, and the general business system;

An inquiry into the control and use of the streams of the United States with the object of protecting the people in their ownership and of saving to agricultural uses such benefits as should be reserved for these purposes;

The establishing of a highway engineering service, or equivalent organization, to be at the call of the States in working out effective and economical highway systems;

The establishing of a system of parcels posts and postal savings banks;

And providing some means or agency for the guidance of public opinion toward the development of a real rural society that shall rest directly on the land.

Other remedies recommended for consideration by Congress are:

The enlargement of the United States Bureau of Education, to enable it to stimulate and co-ordinate the educational work to the nation;

Careful attention to the farmers' interests in legislation on the tariff, on regulation of railroads, control or regulation of corporations and of speculation, legislation in respect to rivers, forests, and the utilization of swamp lands;

Increasing the powers of the Federal Government in respect to the supervision and control of the public health;

Providing such regulations as will enable the States that do not permit the sale of liquors to protect themselves from traffic from adjoining States;

In setting all these forces in motion, the co-operation of the States will be necessary; and in many cases definite State laws may greatly aid the work.

Remedies of a more general nature are: A broad campaign of publicity, that must be undertaken until all the people are informed on the whole subject of rural life, and until there is an awakened appreciation of the necessity of giving this phase of our national development as much attention as has been given to other phases or interests; a quickened sense of responsibility in all country people, to the community, and to the State, in the conserving of soil fertility, and in the necessity for diversifying farming in order to conserve this fertility and to develop a better rural society, and also in the better safeguarding of the strength and happiness of the farm women; a more widespread conviction of the necessity for organization, not only for economic but for social purposes, this organization to be more or less co-operative, so that all the people may share equally in the benefits and have voice in the essential affairs of the community; a realization on the part of the farmer that he has a distinct natural responsibility toward the laborer in providing him with good living facilities and in helping him in every way to be a man among men; and a realization on the part of all the people of the obligation to protect and develop the natural scenery and attractiveness of the open country.

Certain remedies lie with voluntary organizations and institutions. All organized forces, both in town and country, should understand that there are country phases as well as city phases of our civilization, and that one phase needs help as much as the other. All these agencies should recognize their responsibility to society. Many existing organizations and institutions might become practically co-operative or mutual in spirit, as, for example, all agricultural societies, libraries, Young Men's Christian Associations, and churches. All the organizations standing for rural progress should be federated, in States and Nation.

THE UNDERLYING PROBLEM OF COUNTRY LIFE.

The mere enumeration of the foregoing deficiencies and remedies indicates that the problem of country life is one of reconstruction, and that temporary measures and defense work alone will not solve it. The underlying problem is to develop and maintain on our farms a civilization in full harmony with the best American ideals. To build up and retain this civilization means, first of all, that the business of agriculture must be made to yield a reasonable return to those who follow it intelligently; and life on the farm must be made permanently satisfying to intelligent, progressive people. The work before us, therefore, is nothing more or less than the gradual rebuilding of a new agriculture and new rural life. We regard it as absolutely essential that this great general work should be understood by all the people. Separate difficulties, important as they are, must be studied and worked out in the light of the greater fundamental problem.

The commission has pointed out a number of remedies that are extremely important; but running through all of these remedies are several great forces, or principles, which must be utilized in the endeavor to solve the problems of country life. All the people should recognize what those fundamental forces and agencies are.

KNOWLEDGE.—To improve any situation, the underlying facts must be understood. The farmer must have exact knowledge of his business and of the particular conditions under which he works. The United States Department of Agriculture and the Experiment Stations and colleges are rapidly acquiring and distributing this knowledge; but the farmer may not be able to apply it to the best advantage because of lack of knowledge of his own soils, climate, animal and plant diseases, markets, and other local facts. The farmer is entitled to know what are the advantages and disadvantages of his conditions and environment. A thoroughgoing system of surveys in detail of the exact conditions underlying farming in every locality is now an indispensable need to complete and apply the work of the great agricultural institutions. As an occupation, agriculture is a means of developing our internal resources; we can not develop these resources until we know exactly what they are.

EDUCATION.—There must be not only a fuller scheme of public education, but a new kind of education adapted to the real needs of the farming people. The country schools are to be so redirected that they shall educate their pupils in terms of the daily life. Opportunities for training toward agricultural callings are to be multiplied and made broadly effective. Every person on the land, old or young, in school or out of school, educated or illiterate, must have a chance to receive the information necessary for a successful business, and for a healthful, comfortable, resourceful life, both in home and neighborhood. This means redoubled efforts for better country schools, and a vastly increased interest in the welfare of country boys and girls on the part of those who pay the school taxes. Education by means of agriculture is to be a part of our regular public school work. Special agricultural schools are to be organized. There is to be a well-developed plan of extension teaching conducted by the agricultural colleges, by means of the printed page, face-to-face talks, and demonstration or object lessons, designed to reach every farmer and his family, at or near their homes, with knowledge and stimulus in every department of country life.

ORGANIZATION.—There must be a vast enlargement of voluntary organized effort among farmers themselves. It is indispensable that farmers shall work together for their common interests and for the national welfare. If they do not do this, no governmental

activity, no legislation, not even better schools, will greatly avail. Much has been done. There is a multitude of clubs and associations for social, educational, and business purposes; and great national organizations are effective. But the farmers are nevertheless relatively unorganized. We have only begun to develop business co-operation in America. Farmers do not influence legislation as they should. They need a more fully organized social and recreative life.

SPIRITUAL FORCES.—The forces and institutions that make for morality and spiritual ideals among rural people must be energized. We miss the heart of the problem if we neglect to foster personal character and neighborhood righteousness. The best way to preserve ideals for private conduct and public life is to build up the institutions of religion. The church has great power of leadership. The whole people should understand that it is vitally important to stand behind the rural church and to help it to become a great power in developing concrete country life ideals. It is especially important that the country church recognize that it has a social responsibility to the entire community as well as a religious responsibility to its own group of people.

RECOMMENDATIONS OF THE COMMISSION.

The commission recommends all the correctives that have been mentioned under the head of "The nature of the remedies." It does not wish to discriminate between important measures of relief for existing conditions. It has purposely avoided indorsing any particular bill now before Congress, no matter what its value or object.

There are, however, in the opinion of the commission, two or three great movements of the utmost consequence that should be set under way at the earliest possible time, because they are fundamental to the whole problem of ultimate permanent reconstruction; these call for special explanation.

1. **TAKING STOCK OF COUNTRY LIFE.**—There should be organized, as explained in the main report, under Government leadership, a comprehensive plan for an exhaustive study or survey of all the conditions that surround the business of farming and the people who live in the country, in order to take stock of our resources and to supply the farmer with local knowledge. Federal and State Governments, agricultural colleges and other educational agencies, organizations of various types, and individual students of the problem should be brought into co-operation for this great work of investigating with minute care all agricultural and country life conditions.

2. **NATIONALIZED EXTENSION WORK.**—Each State college of agriculture should be empowered to organize as soon as practicable a complete department of college extension, so managed as to reach every person on the land in its State with both information and inspiration. The work should include such forms of extension teaching as lectures, bulletins, reading courses, correspondence courses, demonstration, and other means of reaching the people at home and on their farms. It should be designed to forward not only the business of agriculture, but sanitation, education, home making, and all interests of country life.

3. **A CAMPAIGN FOR RURAL PROGRESS.**—We urge the holding of local, State, and even national conferences on rural progress, designed to unite the interests of education, organization, and religion into one forward movement for the rebuilding of country life. Rural teachers, librarians, clergymen, editors, physicians, and others may well unite with farmers in studying and discussing the rural question in all its aspects. We must in some way unite all institutions, all organizations, all individuals having any interest in country life into one great campaign for rural progress.

THE CALL FOR LEADERSHIP.

We must picture to ourselves a new rural social structure, developed from the strong resident forces of the open country; and then we must set at work all the agencies that will tend to bring this about. The entire people need to be roused to this avenue of usefulness. Most of the new leaders must be farmers who can find not only a satisfying business career on the farm, but who will throw themselves into the service of upbuilding the community. A new race of teachers is also to appear in the country. A new rural clergy is to be trained. These leaders will see the great underlying problem of country life, and together they will work, each in his own field, for the one goal of a new and permanent rural civilization. Upon the development of this distinctively rural civilization rests ultimately our ability, by methods of farming requiring the highest intelligence, to continue to feed and clothe the hungry nations; to supply the city and metropolis with fresh blood, clean bodies, and clear brains that can endure the strain of modern urban life; and to preserve a race of men in the open country that, in the future as in the past, will be the stay and strength of the nation in time of war and its guiding and controlling spirit in time of peace.

It is to be hoped that many young men and women, fresh from our schools and institutions of learning, and quick with ambition and trained intelligence, will feel a new and strong call to service.

The report, after an elaborate discussion of its recommendations as above outlined, concluded as follows:

We have now discussed some of the forces and agencies that will aid in bringing about a new rural society. The development of the best country life in the United States is seen, therefore, to be largely a question of guidance. The exercise of a wise advice, stimulus, and direction from some central national agency, extending over a series of years, could accomplish untold good, not only for the open country, but for all the people and for our institutions.

In the communities themselves, the same kind of guidance is needed, operating in good farming, in schools, churches, societies, and all useful public work. The great need everywhere is new and young leadership, and the commission desires to make an appeal to all young men and women who love the open country to consider this field when determining their careers. We need young people of quality, energy, capacity, aspiration, and conviction, who will live in the open country as permanent residents on farms, or as teachers, or in other useful fields, and who, while developing their own business or affairs to the greatest perfection, will still have unselfish interest in the welfare of their communities. The farming country is by no means devoid of leaders, and is not lost or incapable of helping itself, but it has been relatively overlooked by persons who are seeking great fields of usefulness. It will be well for us as a people if we recognize the opportunity for usefulness in the open country and consider that there is a call for service.

Forests and Forestry.

THE Government now has in National Forests 194,500,000 acres of lands, an area about the same as Texas and Ohio combined, and whose money value is more than two billion dollars. The administration of these National Forests is charged to the United States Forest Service, whose force of men now numbers about 3,000, of whom 250 are professional foresters. Besides administering the Government's timber land, the Forest Service furnishes the chief source of information and assistance to private forest owners and users, who wish to practice forestry.

A little more than 10 years ago when Gifford Pinchot took charge of the Government's forest work the duties of the then called Division of Forestry lay mainly in compiling forest data and statistics, with a usefulness which was necessarily narrow and its discontinuance was in contemplation. The work employed only ten persons, of whom but two were professional foresters.

The great areas contained in the National Forests have now been brought to a condition where they are beginning to serve the purposes of the West. The conservation of timber and forage through wise use and the protection of stream flow is the only insurance of many industries which have contributed materially to the prosperity of the country.

The forage crop of the 194,500,000 acres of National Forests supports cattle, horses, sheep and goats which pay into the pockets of Western stockmen in profits something like \$10,000,000 annually. The annual timber crop which these forests are capable of producing would be worth on the stump, at present prices, perhaps \$10,000,000 more, and probably ten times this amount when prepared for market. In many regions, the National Forests are the only guarantee that the user of the wood will be able to get it at any price.

The movement to conserve for the thousands of people the remaining forests on the public domain has given the natural impetus to the Western movement to conserve all the natural resources of the land, forests, water, soils and minerals.

The estimated total area of privately owned and National Forests in the United States is 600,000,000 acres, 32 per cent. of the total land area, exclusive of Alaska.

The lumber industry is fourth among the great industries of the United States. In normal years about forty billion board feet of lumber are produced, valued at from \$675,000,000 to \$750,000,000.

At the present rate of cutting the forest lands of the United States cannot long meet the enormous demands made upon them. The great pineries of the Lake States have been almost entirely eliminated, and great inroads have been made upon the supply of valuable timber throughout all parts of the country.

The heavy demands for timber have been rapidly pushing the great centres of lumber industry toward the South and West. In consequence the State of Washington has led for several years in lumber production, followed in order by Louisiana, Texas, Mississippi, Wisconsin and Arkansas. The annual production of yellow pine lumber now amounts to over eleven to thirteen billion feet; the increase in the cut of Douglas fir in the Northwest has brought that wood to second place, while white pine has fallen to third place.

A long step forward in the preservation of forests for purposes of permanent timber supply and the protection of watersheds and grazing lands was made when, on February 1, 1905, the administration of the National Forests was transferred from the Department of the Interior to the Department of Agriculture. Under the present system the management of the National Forests, the total area of which on November 1, 1909, was 194,496,594 acres, is undertaken by the Forest Service, in the latter department.

A great saving has been effected to the naval stores industry by the introduction of the cup and gutter system of turpentineing, instead of the old destructive system of boxing, by insuring a larger product of better quality, and prolonging the life of the longleaf pine forests upon which the industry depends.

In 1908, 3,347,000 cords of wood were used in the manufacture of paper, of which 695,000 cords were imported from Canada. The demand for pulpwood is making a severe drain on the spruce forests which furnish the principal supply, and investigations are under way to determine what woods, such as scrub pine, white fir, tupelo, and the like, can be successfully used to insure a continued supply of material. A larger drain upon our forest resources is made by the demand for railroad ties, of which 112,000,000, equivalent to three and three-quarters billions board feet, were used in 1908. White oak, hitherto the chief source of supply, is not plentiful enough to meet this demand indefinitely, and in many parts of the country the supply of chestnut, cedar and cypress is dwindling; however, seasoning and treating methods are being found by which cheaper and more plentiful woods, such as lodgepole pine in the Northwest and loblolly pine in the South, are made fit for use as ties. Timber to the amount of two and one-half billion feet was used in 1907 for mine timbers.

THE FOREST SERVICE.

"Forest Service" has been the name since July 1, 1905, of that branch of the Department of Agriculture which was previously called the "Bureau of Forestry," and, earlier still, the "Division of Forestry."

Since February 1, 1905, the Forest Service has been charged, under the direction of the Secretary of Agriculture, with the administration of the National Forests. About the management of the National Forests, therefore, the work of the Service now centres. The forests, whose area in continental United States on November 1, 1909, was 167,669,018 acres, 26,761,626 acres in Alaska and 65,950 acres in Porto Rico, are of vital importance for their timber and grass and for the conservation of stream flow. They are so managed as to develop their permanent value as a resource by use.

Beginning January 1, 1909, the organization of the Forest Service provided for a central administrative force in Washington and six executive administrative district headquarters, located respectively at Missoula, Mont.; Denver, Col.; Albuquerque, N. Mex.; Ogden, Utah; San Francisco, Cal., and Portland, Ore. Each of the field districts is in charge of a District Forester and an Assistant District Forester and each of the different lines of Service work is directly under an officer in charge of this special line of work. Thus, by far the greater volume of Forest work is handled locally, and only larger questions of policy are referred to the Forester at Washington. The work in Washington is organized under five branches with fourteen offices, with the following branch and office chiefs in charge:

OFFICE OF THE FORESTER.

Gifford Pinchot, Forester; Overton W. Price, Associate Forester; Harry L. Hill, Secretary to the Forester; P. P. Wells, Law Officer; A. C. Shaw, Assistant Law Officer; Herbert A. Smith, Editor; Finley Burns, in charge of Publications; Raymond W. Pullman, in charge of Information; George B. Sudworth, Dendrologist; R. S. Kellogg, Assistant Forester, engaged upon Forest Statistics; Eugene S. Bruce, Expert Lumberman; D. D. Bronson, R. E. Benedict, General Inspectors; E. M. Griffith, Special Inspector, Madison, Wis.

BRANCH OF OPERATION.

Administration—James B. Adams, Assistant Forester in Charge; George G. Anderson, Assistant in Office Methods.
Office of Accounts—H. B. Cramer, Fiscal Agent; E. A. Melzar, District Fiscal Agent.
Office of Geography—Fred G. Plummer, Chief.
Office of Maintenance—George A. Bentley, Chief.

BRANCH OF SILVICULTURE.

Administration—William T. Cox, Assistant Forester in Charge; E. E. Carter, Assistant Forester.
Office of State and Private Co-operation—J. G. Peters, Chief.
Office of Silvics—Raphael Zon, Chief.

BRANCH OF PRODUCTS.

Administration—W. L. Hall, Assistant Forester in Charge.
 The Forest Products Laboratory of the Forest Service is located at Madison, Wis. The supervisory staff is as follows:

McGarvey Cline, Assistant Forester in Charge; H. S. Bristol, in Charge of Wood Chemistry; H. D. Tlemann, in Charge of Technology; H. F. Weiss, in Charge of Wood Preservation; Rolf Thelen, in Charge of Timber Pests; W. H. Kempner, in Charge of Maintenance.

Office of Wood Utilization is located in the Fisher Building at Chicago, with H. S. Sackett in charge. The following are in charge of the six field districts: DISTRICT 1—W. B. Greeley, District Forester; F. A. Silcox, Assistant District Forester. This district includes Montana, northeastern Washington, northern Idaho and northwestern South Dakota.

DISTRICT 2—Smith Riley, District Forester; Paul G. Redington, Assistant District Forester. This district includes Colorado, Wyoming, except most western section, South Dakota, Nebraska, and western Kansas.

DISTRICT 3—A. C. Ringland, District Forester; Earle H. Clapp, Assistant District Forester. This district includes Arizona, Arkansas, New Mexico, Oklahoma, and Florida.

DISTRICT 4—Clyde Leavitt, District Forester; F. W. Reed, Assistant District Forester. This district includes Utah, southern Idaho, western Wyoming, eastern Nevada, and northwestern Arizona.

DISTRICT 5—F. E. Olmsted, District Forester; Coert Du Bois, Assistant District Forester. This district includes California and southwestern Nevada.

DISTRICT 6—Charles S. Chapman, District Forester; Geo. H. Cecil, Assistant District Forester. This district includes Washington, Oregon, a small part of northern California, and Alaska.

The work of the dendrologist includes dendrological studies proper, direction of the Services, forest photograph collection, and charge of the forest exhibits prepared by the Service.

A leading branch of the dendrological studies is the making of an accurate forest map of the distribution of tree species in the United States, to show the extent, composition, and economic possibilities of our forest resources. Others of these studies concern the cedar forests of Texas, and important but little known trees indigenous to the United States, the growth of which may profitably extend to new localities for economic purposes. Prominent among the latter are the desert pines of California. An investigation is being made of the present and probable future supply of western tan bark oak, as well as of other trees the barks of which are used to adulterate tan bark, and the tannin contents of the barks are being determined by the Bureau of Chemistry. Included also is a study of basket willows. Experimental holls are established on the Arlington Experimental Farm, near Washington, D. C. Attention is given especially to the conditions under which high-grade basket rods may be produced. Approved basket willow cuttings are distributed free each Spring to applicants interested in willow culture.

A series of important publications in course of preparation will describe and illustrate the tree species of the different regions of the United States. The first of these bulletins embraces the trees of the Pacific Coast.

The dendrologist also gives technical information about trees, in response to inquiries, including the identification of the wood, seeds, foliage, etc., of native and exotic trees. A large and growing correspondence evidences the public demand for such information.

The Government forest exhibits prepared for State, National, and international expositions explain what forestry is and show its application to the problems with which the Service is dealing. Through these displays much public interest is aroused and information given concerning our forests, their economic importance, and right and wrong methods of using them.

FOREST PLANTING.

The office of extension in the branch of silviculture deals with all phases of forest planting within the National Forests. In the past two important problems have received special attention: (1) The reforestation of denuded watersheds where planting is needed in order to control and regulate the flow of streams directly supplying cities and towns; (2) Planting within the treeless National Forests in the Middle West to provide for timber in the future and to serve as an object lesson to the people.

The trees used in planting are grown at nine Government nurseries in the following National Forests: Angeles, Gila, Nebraska, Pike, Wasatch, Pecos, Pocatello, Kansas and Helena. The combined area of seed and transplant beds at the nine stations is 11 acres. They now contain over 10,000,000 trees, from one to four years old. The seed sown in 1909 will produce not less than 6,000,000 trees.

The planting stations are so situated that in addition to providing plant material for local use they also serve as distributing points for other National Forests.

Any owner who wishes to learn whether forestry might be profitable to him may apply to the Forest Service for an examination of his lands. An agent of the Service is then sent to examine the forest. The cost of this examination is usually borne by the owner of the lands. In a few cases, however, where the results promise to be of unusual interest the examination is made entirely at the expense of the Forest Service. If the piece of woodland is small, as in farm wood lots, and management is practicable, a plan is outlined on the spot and carefully explained to the owner. In the case of large tracts the preparation of a working plan requires a more prolonged study on the ground. The agent sent to examine the tract therefore first finds out whether a sufficiently good opening for paying management exists to justify the outlay. His report is submitted to the owner, with an estimate of the cost of preparing the plan if a plan is found desirable.

If the owner desires the working plan, a force of men is sent to collect the necessary data. A thorough examination of the tract is made both from the Forester's and from the lumberman's points of view.

Similar co-operation with private owners is carried on also in regard to forest planting, either on denuded areas or to assist natural reproduction in reforesting the land.

FOREST PRESERVATION BY THE VARIOUS STATES.

New York has purchased and set aside 1,500,000 acres for a forest reserve. These lands are mainly in the Adirondacks, but partly in the Catskills. Patrol, to guard against theft of timber and especially against fire, is maintained under the Superintendent of Forests, who is the executive officer of the Forest, Fish and Game Commission. The planting of young trees on open places is now going forward at the rate of 500,000 seedlings annually.

Pennsylvania has recently been most active in taking measures for the preservation of its forests. In 1897, this State, to conserve the water supply, provided for the purchase of three forest reserves, of not less than 40,000 acres each, at the heads of the three principal river systems of the State. In accordance with this and other acts, land has been rapidly acquired, until, at the present time, the holdings of Pennsylvania amount to more than 700,000 acres. In 1901 Pennsylvania made its Bureau of Forestry a separate department. A school for forest wardens has been established at Mount Alto, and in connection with the protection and improvement of the forest reserves, the State is engaged in removing the mature timber.

Minnesota long took the lead in the excellence of a forest fire law, it being the first State to appoint a fire warden charged with responsibility for suppressing fires. New York, in 1900, also made provision for a chief fire warden. Maine and New Hampshire are other States possessing excellent fire laws. In 1899 Michigan appointed a commission to study the forest question, and to select land for a State forest reserve.

Under the supervision of a trained Forester, Wisconsin is selling mature timber from its forest reserve of 264,697 acres, which has been surveyed, mapped and placed under management. In co-operation with the office of Indian Affairs and the Forest Service the State Forester supervises the sale and cutting of timber on the Indian reservations in Wisconsin. On June 26, 1906, Congress passed a bill granting to Wisconsin, 20,000 acres of vacant Government lands.

Indiana took an important step forward when the State held forth encouragement to private owners to plant trees. Since 1904, Massachusetts has had a technically trained State Forester, who besides furnishing advice to landowners for the management of forest lands, delivers a course of lectures at the State agricultural college. In 1905, Maryland passed a law providing for a State Forester under much the same conditions.

California has manifested great interest in forest preservation. Under an appropriation of the Legislature of that State a study of its forest resources has been undertaken, and is now in progress in co-operation with the Forest Service. A State Forester has recently been appointed.

The States now having officers charged with the care of forest interests are: California, Connecticut, Indiana, Kansas, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Washington, West Virginia, and Wisconsin.

The Biltmore Forest school, at Biltmore, North Carolina, was established in 1898. Its director is Dr. C. A. Schenck, Forester to the Biltmore estate. The Yale Forest School, established in 1900, is a post-graduate school, whose head is Prof. Henry S. Graves. Harvard has had a forest school since 1903. The University of Michigan has a four-year undergraduate course in forestry. The lecturer is Prof. Filibert Roth.

THE AMERICAN FORESTRY ASSOCIATION.

The American Forestry Association whose headquarters are at 1417 G Street, N. W., Washington, D. C. was organized in 1882, and incorporated in January, 1897, with the following objects:

1. The promotion of a businesslike and conservative use and treatment of the forest resources of this country.

2. The advancement of legislation tending to this end both by the States and the Congress of the United States, the inauguration of forest administration by the Federal Government and by the States, and the extension of sound forestry by all proper methods.

3. The diffusion of knowledge regarding the conservation, management, and renewal of forests, the proper utilization of their products, methods of reforestation of waste lands, and the planting of trees.

The Association desires and needs as members all who are interested in promoting the objects for which it is organized—all who realize the importance of using the natural resources of the country in such a manner as not to exhaust them, or to work ruin to other interests. In particular it appeals to owners of woodlands, to lumbermen and foresters, as well as to engineers, professional and business men who have to do with wood and its manifold uses, and to persons concerned in the conservation of water supplies for irrigation and other purposes.

The Association has over 5,000 members at the present time, residents of every State in the Union, Canada and foreign countries. The annual dues are two dollars; a magazine is published. The officers of the Association are:

President—Curtis, Guild Jr., of Mass.; *Secretary and Treasurer*—Otto Luebker, Washington, D. C.

ARBOR DAY.

Individual States and Territories have striven to encourage the preservation of trees by setting aside a certain day each year for the purpose of tree planting. Every State and Territory, with the exception of Delaware and the Indian Territory, have set apart such an Arbor Day. [See "Legal Holidays."]

NATIONAL PARKS.

The national parks were created during the period from 1872 to 1904. They have a total area of about 3,654,196 acres. The more important are the Yellowstone National Park in Wyoming and Montana; Sequoia National Park, General Grant National Park, and Yosemite National Park in California; Mt. Rainier National Park in Washington, and Crater Lake National Park in Oregon.

The reservation known as the Yellowstone National Park, set apart for public uses by an act of Congress passed in 1872, covers a tract of about sixty-five miles in length, from north to south, and about fifty-five miles in width, from east to west, lying chiefly in Northwestern Wyoming, and overlapping, to a small extent, the boundaries of Montana, on the north, and Idaho, on the west.

This gives an area of 3,312 square miles, a tract that is nearly the area of the States of Rhode Island and Delaware combined, and nearly half as large as the State of Massachusetts. The Rocky Mountain chain crosses the southwestern portion in an irregular line, leaving by far the greater expanse on the eastern side. The least elevation of any of the narrow valleys is 6,000 feet, and some of them are from 1,000 to 2,000 feet higher. The mountain ranges which hem in these valleys are from 10,000 to upward of 11,000 feet in height, Electric Peak (in the northwest corner of the park, not far back of Mammoth Hot Springs) having an elevation of 11,155 feet, and Mount Langford and Turret Mountain (both in the Yellowstone Range) reaching the height of 11,155 and 11,142 feet, respectively.

Conservation of Natural Resources.

THE Joint Committee on Conservation, with headquarters in Washington, D. C., is now acting as the medium of co-operation through which forty-two State Conservation Commissions and fifty-one Conservation Committees of national organizations are working with one another and with the Federal Government. This committee was established at the joint conference between the Governors of States, the State and National Commissions and representatives of national associations in Washington on December 19, 1908. A majority of its members are Chairmen of State Conservation Commissions, and its general purpose is to make plans and to direct work with a view to united action by all organizations in the United States which are concerned with the conservation of natural resources.

The organization of the Joint Committee is as follows:

Gifford Pinchot, Chairman, Washington, D. C.	
Thomas R. Shipp, Secretary, Washington, D. C.	
George C. Pardee, Oakland, Cal.	J. N. Teal, Portland, Ore.
W. H. Milton, Marianna, Fla.	O. J. Salisbury, Salt Lake City, Utah
Newton C. Blanchard, Shreveport, La.	Knute Nelson, Alexandria, Minn.
B. N. Baker, Baltimore, Md.	W. K. Kavanaugh, St. Louis, Mo.
Paris Gibson, Great Falls, Mont.	

An amendment to the Sundry Civil Act, proposed by Representative James A. Tawney, of Minnesota, prohibits the National Conservation Commission from going on with its work under the Government, although the Commission itself, at the wish of President Taft, continues in existence.

Accordingly, the Joint Committee will be national headquarters for the work of co-operation among the State commissions and organization committees until such time as the National Conservation Commission, by authority of Congress, may go on with its work.

NATIONAL CONSERVATION COMMISSION.

The National Conservation Commission came into existence at the direct suggestion of the Governors of the States and Territories assembled in Washington, upon invitation of President Roosevelt, at the conference on natural resources in the White House in May, 1908. It is one part of a scheme of co-operation between the States and the Nation, the other part of which has been provided by the Governors in the appointment of State Conservation Commissions.

The Commission was created by President Roosevelt, June 8, 1908. Under its direction the first inventory of the natural resources of the United States ever made has been accomplished. On this inventory, which was completed December 1, 1908, the Commission made a report to the President, who transmitted it to Congress January 22, 1909.

The inventory of natural resources made by the National Conservation Commission was presented at the meeting of the Commission held in Washington, December 1-7, 1908. This inventory, the compilation of which was made possible only through the vigorous co-operation of State Conservation Commissions, bureaus of the Federal Government, and Conservation Committees representing national industries, comprises practically all information now available regarding the condition and extent of the natural resources of the United States.

JOINT CONSERVATION CONFERENCE.

The report of the Commission was presented to and approved by the Joint Conservation Conference, in Washington, December 8-11, 1908, at which were present Governors of twenty States and Territories, representatives of twenty-two State Conservation Commissions, and the Presidents, Conservation Committees, or other representatives of sixty of the National organizations represented at the White House conference, and others which are co-operating with the National Commission.

NORTH AMERICAN CONSERVATION CONFERENCE.

As an outgrowth of the Joint Conservation Conference in December, 1908, a letter of invitation to Canada and Mexico to join with the United States in a North American Conservation Conference was on December 24, 1908, written by President Roosevelt. It was conveyed in person to Lord Grey and Sir Wilfrid Laurier, Governor-General and Premier of the Canadian Government, respectively, and to President Diaz, of Mexico, by Gifford Pinchot, Chairman of the National Conservation Commission, whom the President selected for this duty. An invitation was likewise extended to the Colony of Newfoundland.

After a session continuing through five days the Conference united in a declaration of principles for the conservation of natural resources of North America, and also in a suggestion to President Roosevelt that a World Conservation Congress be held. This suggestion was as follows:

The conference of delegates, representatives of the United States, Mexico, Canada, and Newfoundland, having exchanged views and considered the information supplied from the respective countries, is convinced of the importance of the movement for the conservation of natural resources on the continent of North America, and believes that it is of such a nature and of such general importance that it should become worldwide in its scope, and therefore suggests to the President of the United States of America that all nations should be invited to join together in conference on the subject of world resources and their inventory, conservation, and wise utilization.

Commissioners Representing the United States—Gifford Pinchot, Robert Bacon, James Rudolph Garfield.

Commissioners Representing the Dominion of Canada—Sydney Fisher, Clifford Sifton, Henri S. Beland.

Commissioners Representing the Republic of Mexico—Romulo Escobar, Miguel A. De Quevedo, Carlos Sellerier.

Commissioner Representing the Colony of Newfoundland—E. H. Outerbridge.

Attest: Robert E. Young, Thomas R. Shipp, Secretaries of the Conference.
Washington, D. C., February 23, 1909.

WORLD CONSERVATION CONFERENCE.

The proposed World Conservation Conference, to which reference is made in the Declaration of Principles, was invited in the following letter, addressed to forty-five nations:

Department of State, Washington, February 19, 1909.
Sir: There is now assembled in Washington, in response to the invitation of the President, a conference of representatives of the United States of Mexico and of the Dominion of Canada to meet the representatives of the United States of America for the

CONSERVATION OF NATURAL RESOURCES—Continued.

purpose of considering the common interests of the three countries in the conservation of their natural resources. The cordiality with which the neighboring governments accepted the invitation is no less an augury of the success of this important movement than is the disposition already shown by the conference to recognize the magnitude of the question before them. While recognizing the imperative necessity for the development and use of the great resources upon which the civilization and prosperity of nations must depend, the American Governments realize the vital need of arresting the inroads improvidently or unnecessarily made upon their natural wealth. They comprehend also that, as to many of their national resources, more than a merely conservative treatment is required; that reparatory agencies should be invoked to aid the processes of beneficent nature, and that the means of restoration and increase should be sought whenever practicable. They see that to the task of devising economical expenditure of resources, which, once gone, are lost forever, there should be superposed the duty of restoring and maintaining productiveness wherever impaired or menaced by wastefulness. In the northern part of the American hemisphere destruction and waste bring other evils in their train. The removal of forests, for instance, results in the aridity of vast tracts, torrential rainfalls break down and carry away the unprotected soil, and regions once abundant in vegetable and animal life become barren. This is a lesson almost as old as the human race. The older countries of Europe, Africa, and the Orient teach a lesson in this regard which has been too little heeded.

Anticipating the wide interest which would naturally be aroused in other countries by the present North American Conference, the President foresaw the probability that it would be the precursor of a world congress. By an aide-memoire of the 6th of January last, the principal governments were informally sounded to ascertain whether they would look with favor upon an invitation to send delegates to such a conference. The responses have so far been uniformly favorable, and the Conference of Washington has suggested to the President that a similar general conference be called by him. The President feels, therefore, that it is timely to initiate the suggested World Conference for the Conservation of National Resources by a formal invitation.

By direction of the President and with the concurrence of Her Majesty, the Queen of the Netherlands, an invitation is extended to the Government of (name of country) to send delegates to a conference to be held at The Hague, at such date as may be found convenient, there to meet and consult the like delegates of the other countries, with a view to considering a general plan for an inventory of the natural resources of the world and to devising a uniform scheme for the expression of the results of such inventory to the end that there may be a general understanding and appreciation of the world's supply of the material elements which underlie the development of civilization and the welfare of the peoples of the earth. It would be appropriate also for the Conference to consider the general phases of the correlated problem of checking and, when possible, repairing the injuries caused by the waste and destruction of natural resources and utilities, and make recommendations in the interest of their conservation, development, and replenishment.

With such a world inventory and such recommendations the various producing countries of the whole world would be in a better position to co-operate, each for its own good and all for the good of all, toward the safeguarding and betterment of their common means of support. As was said in the preliminary aide-memoire of January 6:

The people of the whole world are interested in the natural resources of the whole world, benefited by their conservation and injured by their destruction. The people of every country are interested in the supply of food and of material for manufacture in every other country, not only because these are interchangeable through processes of trade, but because knowledge of the total supply is necessary to the intelligent treatment of each nation's share of the supply.

Nor is this all. A knowledge of the continuance and stability of perennial and renewable resources is no less important to the world than a knowledge of the quantity or the term remaining for the enjoyment of those resources which when consumed are irreplaceable. As to all the great natural sources of national welfare, the peoples of to-day hold the earth in trust for the peoples to come after them. Reading the lessons of the past aright, it would be for such a conference to look beyond the present to the future.

You will communicate the foregoing to the Government of (name of country) with the expression of the President's hope that we may be soon informed of its acceptance of the invitation. You will at the same time inform His Excellency that upon informal inquiry a gratifying assurance of the sympathy of the Government of the Netherlands has been received. I am, sir, your obedient servant,

ROBERT BACON.

The membership of the National Conservation Commission is as follows:

Executive Committee—Gifford Pinchot, Chairman. Thomas R. Shipp, Secretary.
John Dalzell, W. J. McGee, Overton W. Price, G. W. Woodruff, Joseph A. Holmes.
Waters—Theodore E. Burton, Ohio, Chairman; Francis G. Newlands, Nevada; Jonathan P. Dolliver, Iowa; William Warner, Missouri; John H. Bankhead, Alabama; W. J. McGee, Bureau of Soils, Secretary; F. H. Newell, Reclamation Service; Gifford Pinchot, Forest Service; Herbert Knox Smith, Bureau of Corporations; Joseph E. Ransdell, Louisiana; G. F. Swain, Massachusetts Institute of Technology; W. L. Marshall, Brig.-Gen. U. S. Army, Chief of Engineers; Rear-Admiral C. S. Sperry, U. S. N.
Lands—Knute Nelson, Minnesota, Chairman; Francis E. Warren, Wyoming; Swagar Sherley, Kentucky; Herbert Parsons, New York; N. B. Broward, Florida; James J. Hill, Minnesota; George C. Pardee, California; Charles Macdonald, New York; Murdo Mackenzie, Colorado; T. C. Chamberlin, University of Chicago; Frank C. Goudy, Colorado; George W. Woodruff, Interior Department, Secretary.

Forests—Reed Smoot, Utah, Chairman; Albert J. Beveridge, Indiana; Charles F. Scott, Kansas; Champ Clark, Missouri; J. B. White, Missouri; Henry S. Graves, Yale Forest School; William Irvine, Wisconsin; Newton C. Blanchard, Louisiana; Charles L. Pack, New Jersey; Irving Fisher, Connecticut; Gustav H. Schwab, New York; Overton W. Price, Forest Service, Secretary.

Minerals—John Dalzell, Pennsylvania, Chairman; Joseph M. Dixon, Montana; Frank P. Flint, California; Lee S. Overman, North Carolina; Philo Hall, South Dakota; James L. Slayden, Texas; Andrew Carnegie, New York; Charles R. Van Hise, Wisconsin; John Mitchell, Illinois; John Hays Hammond, Massachusetts; I. C. White, West Virginia; J. A. Holmes, Geological Survey, Secretary.

The Public Lands of the United States.

(Prepared for THE WORLD ALMANAC by the General Land Office.)
 TABULAR statement showing area of public lands vacant and subject to entry and settlement in the public land States and Territories, July 1, 1909 :

Statistics of Transportation by Water

IN THE UNITED STATES.

United States Census Bulletin 91, issued March 25, 1908, contained a summary of the main features of a census of transportation by water, which covered the year ending December, 31, 1906, prepared by William M. Stenart, Chief Statistician for Manufacturers.

The bulletin includes the statistics for all American vessels or craft of five tons net register or over operated on the coasts and inland waters of the United States, Porto Rico and the Hawaiian Islands, or between the ports of these and other countries. All craft are included except those owned by the Federal Government, those engaged in fishing, and stationary wharfbuoats and houseboats used largely for residential purpose.

The statistics cover 37,321 active craft with an aggregate gross tonnage of 12,893,420 and 1,762 idle craft with an aggregate gross tonnage of 179,326. In 1889 there were reported 30,485 active craft with an aggregate gross tonnage of 8,359,135 and 1,400 idle craft with an aggregate gross tonnage of 233,639. Of the active craft, the value increased from over \$200,000,000 in 1889 to over \$500,000,000 in 1906. In the same period the gross income increased from about \$162,000,000 to about \$295,000,000, or 82 per cent.; the number of employees, from about 114,000 to about 141,000, or 23.8 per cent.; and the wages paid, from about \$41,000,000 to about \$72,000,000, or 72.7 per cent.

MOST IMPORTANT DIVISION.

By far the largest part of the American shipping, 20,032 vessels with an aggregate tonnage of more than 4,800,000 tons, operates on the Atlantic Coast and Gulf of Mexico. The next greatest number, 9,622 vessels with a tonnage of over 4,400,000, is shown for the Mississippi River and its tributaries. But so many of these vessels reported from the Mississippi River are coal barges and scows, that in spite of the large number and great tonnage the value is only about \$23,000,000, and the income only about \$17,000,000. The smaller number of vessels on the Great Lakes, 2,990, represented a value of over \$130,000,000 and derived an income of over \$65,000,000. Shipping on the Pacific Coast showed a great proportionate increase and did business valued at about \$49,000,000.

DECREASING USE OF SAILING VESSELS.

The substantial increase in American shipping is due entirely to the increase in steam vessels and in unrigged craft, as the number of sailing vessels decreased over 10 per cent., while their tonnage increased but 1.7 per cent.

Between 1889 and 1906 the number of steam vessels increased from 5,603 to 9,927, or 77.2 per cent.; their tonnage, from 1,710,073 to 4,059,521, or 137.4 per cent.; and their value, from \$131,667,427 to \$386,772,727, or 194 per cent. This increase, moreover, was general on all waters except the Mississippi River and its tributaries, where the tonnage actually decreased. The greatest absolute increase, except in gross tonnage, is shown for the steam vessels operating on the Atlantic Coast and Gulf of Mexico. In gross tonnage the largest increase—one of 1,319,973 tons—was reported from the Great Lakes, and resulted from the recent construction of large vessels to carry ore and grain.

If the tugs and other towing vessels are regarded as part of the freight equipment, 67.4 per cent. of the steam vessels were engaged as freight and passenger boats. Yachts, although forming a considerable proportion of the number of steam vessels, are of comparatively little commercial importance. Ferryboats, which numbered 536, formed 5.4 per cent. of all steam vessels.

NEARLY ONE MILLION FERRY PASSENGERS DAILY.

During the year 1906, according to the census, ferryboats carried 330,737,639 passengers; over 63 per cent. of whom were carried by the ferries in and around New York harbor. Of the total number, 309,792,584 passengers rode on regular ferryboats and 20,945,055 on municipal ferryboats. While the income of ferryboats is derived largely from carrying these passengers, in some cases, particularly on the Mississippi River and its tributaries, the ferrying of wagons, teams and cattle and the carriage of freight are in excess of the passenger business.

On railroad ferries carrying passenger coaches, it is estimated, 37,455,512 additional persons were carried. These car ferries form connecting links in railway systems and transport for short distances whole trains of cars without disturbing the passengers or the freight.

FREIGHT MORE THAN DOUBLED.

In 1889 nearly 130,000,000 net tons of freight were carried by vessels of the United States; in 1906 over 265,000,000 net tons were so carried, an increase of over 100 per cent. The proportionate increases for freight carried on the Atlantic Coast and Gulf of Mexico and on the Great Lakes were even considerably larger.

On the basis of tonnage moved, coal is the most important item of freight in the water commerce of the United States. The movement, amounting to over 49,000,000 tons, is composed chiefly of shipments of hard coal from railway terminals on the New Jersey coast for consumption in Greater New York, and of soft coal from Atlantic ports further south. Next to coal the greatest tonnage is for iron ore, the transportation of which is concentrated on the Great Lakes. In 1889 shipments of iron ore amounted to about 8,000,000 tons; in 1906, to over 41,000,000 tons, an increase of over 400 per cent. In the Great Lakes region large quantities of grain—3,689,329 tons—were transported by water.

Considerable decreases are shown in the shipments of lumber and of ice. The decrease in the former is due to the exhaustion of the forests near water courses; that in the latter, to the great increase in the use of manufactured ice.

IRON AND STEEL CONSTRUCTION.

One of the striking facts brought out by the report is the rapid increase in use of iron and steel as materials for the construction of vessels. The first census at which the construction of iron and steel and of wooden vessels was given separately was that of 1880. In that year 20.5 per cent. only of the total value of new construction was of iron and steel; in 1890 the proportion was 47.2 per cent.; in 1900, 71.2 per cent.; and in 1906, 81.7 per cent. Or, to state this increase in terms of tonnage instead of value, in 1906 the gross tonnage

STATISTICS OF TRANSPORTATION BY WATER.—Continued.

reported for vessels constructed of iron and steel exceeded the gross tonnage reported in 1889 by 2,751,505 tons, an increase of more than 520 per cent. More than half of this increase occurred on the Great Lakes, where the tonnage of wooden vessels actually decreased.

A further separation of the statistics for iron and steel vessels shows the great importance of tonnage for steel as compared with that for iron, wood, or composite materials. In 1906 no less than 62.4 per cent. of the tonnage of the steam vessels was reported for steel vessels.

Because of their comparatively small size, wooden vessels still predominate among the sailing vessels and the unrigged craft.

HORSEPOWER AND CHARACTER OF PROPULSION.

Comparative figures to show the increase in horsepower are wanting, but by assuming that the average horsepower per ton was the same in 1889 as in 1906, namely, 85 one-hundredths of a horsepower, the actual increase is found to be nearly 2,000,000 horsepower. Of the total horsepower reported in 1906, 97.9 per cent. was steam and 2.1 per cent. gasoline; the 83 horsepower reported as electric is in the shape of storage batteries on seven small yachts.

With the increased size of vessels has come the more general use of the screw propeller. Introduced into the United States in 1841, the screw propeller in 1906 was the means of propulsion of 80.1 per cent. of all vessels and of 85.5 per cent. of the entire gross tonnage. Stern wheels were in use on the next largest number of vessels, 70.4 per cent. of which were in the Mississippi River district; the side wheel type still predominates among ferryboats.

INCREASED USE OF CANALS.

In 1880 the amount of freight passing through the canals and canalized rivers of the United States was, in round numbers, 21,000,000 tons; in 1889, 49,000,000 tons; and in 1906, 122,000,000 tons, an increase of over 480 per cent. between 1880 and 1906. This increase has resulted wholly from the increased use of Government canals, which are ship canals and canalized rivers; the use of canals under State and corporation control, largely of the smaller type, has steadily decreased. In 1880 only 24.1 per cent. of the canal traffic was on ship canals; in 1889 the percentage was 79.9; and in 1906, 96.5.

In striking contrast to this great increase in the canal freight movement is the comparatively small increase in the length of the canals and canalized rivers. The total mileage of canals constructed and of rivers improved by canalization between 1880 and 1906 was 1,296.53 miles. In the same period, however, 887.71 miles were abandoned, so that the increase in the mileage in use was only 408.82 miles. The whole increase comes practically in the canalized rivers; in canals operated under State or corporation ownership the old canals abandoned exceed the new constructed by somewhat over 700 miles.

BUSIEST CANAL IN THE WORLD.

The busiest canal in the world is the St. Mary's Falls canal connecting Lake Superior with Lake Huron. In 1906 the net tonnage of vessels passing through this canal was three times as great as that through the Suez canal and more than seven times as great as that through the Kaiser Wilhelm, or Kiel, canal. This is the more noteworthy since the St. Mary's Falls canal, on account of the severity of the cold, is open to traffic for only about eight months in the year, while the others are open twelve. The increased use of the St. Mary's Falls canal has been tremendous. In 1880 only 1,244,279 tons went through; in 1889, 7,516,022 tons; and in 1906, 41,276,862 tons, an amount 3,217.3 per cent. greater than in 1880 and 449.2 per cent. greater than in 1889.

YACHTS.

The total number of yachts reported in 1906 was 3,770, of which 2,176 were steam yachts with a gross tonnage of \$2,275 and valued at \$24,281,861, and 1,594 were sail yachts with a gross tonnage of 24,135 and valued at \$4,169,253.

While yachts are, as a rule, of small tonnage, the average for the 3,770 included in the census for 1906 was slightly more than 28 gross tons per vessel; for the steam craft it was 38 tons; and for the sail, 15 tons. The average value per vessel was \$7,547; for steam, \$11,159, and for sail, \$2,616. The steam yachts include the gasoline and electric launches and represent 57.7 per cent. of the total number of vessels included in this class. Yachts propelled by machinery are the only kind reported for the Mississippi River and its tributaries, and they also predominate on all the other waters except the Pacific Coast, where there was a larger number of sail craft.

Of the total number of yachts, 3,439, or 91.2 per cent., were owned by individuals; 246, or 6.5 per cent., by firms; 64, or 1.7 per cent., by corporations; and 21, or six-tenths of 1 per cent. by miscellaneous forms of organizations.

FISHING CRAFT.

Vessels employed in the fishing industry are not included in the census of water transportation. They should nevertheless receive consideration as forming an important element of American shipping. The total number of fishing vessels in the United States, according to statistics collected by the Bureau of Fisheries of the Department of Commerce and Labor, was 4,915, with a net tonnage of 97,367 and valued at \$8,975,626. The number of "transportation vessels" was 1,995, with net tonnage of 98,765 and valued at \$5,077,926. The number of persons employed was 42,319, and were those employed on fishing vessels and in transporting the catch to market and the supplies to the fishing grounds. In addition, 110,494 persons were employed in shore and boat fisheries and 66,756 on shore in canneries and in various other capacities.

The 6,910 vessels reported as fishing and transporting do not include the small boats and launches employed in the industry; these numbered 82,448 and were valued at \$5,656,721. The "outfit" for which the cost or value is shown for both classes of vessels consists of all supplies necessary in the industry except fishing apparatus, including fuel, provisions, preservatives, dories, etc. The value of the fishing apparatus, which includes seines, nets, lobster pots, dredges, etc., amounted to \$8,551,808 for all fisheries in the United States.

American and Foreign Shipping.

UNITED STATES MERCHANT MARINE, 1909.

CLASS.	EMPLOYMENT.						TOTAL.	
	Foreign.		Coastwise.		Fisheries.			
	Num-ber.	Tonnage.	Num-ber.	Tonnage.	Num-ber.	Tonnage.	Num-ber.	Tonnage.

Total.....	1,600	878,523	22,709	6,451,042	1,379	59,190	25,688	7,388,755

The entire number of documented vessels was 25,688, of which 11,641 were steamers and 14,047 were vessels other than steamers, all aggregating 7,388,755 tons.

The estimated value of the whole amount of floating property under the flag, according to the census of 1906, was \$507,973,121. The statistics of the above table are for the fiscal year ending June 30, 1909.

SHIPBUILDING IN THE UNITED STATES.

The following table shows the class, number, and tonnage of the documented vessels built in this country during the last four years reported:

Tonnage of the United States in 1909, 7,388,755.

The above tables have been compiled from the report of the Commissioner of Navigation of the United States. Russia in 1908-9 had a tonnage of 1,350,386, and Spain of 760,446.

*From Bureau Veritas.

State Legislation in 1909.

THE following statement of the more important legislation effected by State Legislatures in 1908 is a summary compiled, by permission, from the appendix to the address of the Hon. F. W. Lehmann, of St. Louis, President of the American Bar Association, at the annual meeting held at Detroit, Mich., in August, 1909.

When this address was prepared the Legislatures of Alabama, Connecticut and Georgia were still in session, and the acts had not yet been published. The following is the summary:

Arizona—In addition to qualifications of electors as heretofore, there was added the following: "And who not being prevented by physical disability from so doing, is able to read the Constitution of the United States in the English language in such manner as to show he is neither prompted nor reciting from memory, and to write his name" (Chap. 13, p. 18.)

Party vignettes on ballots were abolished. (Chap. 9, p. 12.)

A direct primary law was also enacted. (Chap. 24, p. 60.)

Damages for injuries resulting in death heretofore limited to \$5,000, was amended by striking out the amount and allowing the jury to fix damages. (Chap. 16, p. 33.)

A Railway Commission was created. (Chap. 15, p. 23.)

The last Legislature has also created an Arizona historian; a home for aged and infirm Arizona pioneers; a commission to draft a code of laws regulating mining; passed an act relating to construction and maintenance of a territorial highway and creating the office of territorial engineer to look after same. (Chap. 97, p. 241.) Banks other than savings banks are required to keep at least 15 per cent. in cash of the aggregate amount of deposits. (Chap. 90, pp. 228-229.)

Arkansas—Act 34 makes it a misdemeanor, punishable by fine of \$10 to \$50, to send any claim out of this State to be collected by attachment or garnishment when both parties are within the jurisdiction of the courts of this State. Assigning or transferring claims for such purpose is prohibited. This act is intended to prevent the sending of claims against employees of railroads in this State out of the State, attachments or garnishments there being served upon the companies for whom the debtor employee is working.

Act 112 provides that two or more persons uniting for the purpose of doing an unlawful act, or while armed or disguised intimidating another, and all persons who knowingly attend a meeting for such purpose, will be guilty of a felony and punished by confinement in the penitentiary not to exceed five years. If such persons go forth at night or at any time disguised, and intimidate or attempt to intimidate any person by assault, destruction of property, or mail or deliver any written or printed notice calculated to intimidate, they shall be guilty of a felony and punishable by confinement in the penitentiary from two to ten years, and fined not more than \$5,000. If any person seeks to intimidate by writing or token (such as delivering a bundle of switches or matches), or deliver any message purporting to come from such unlawful band, he will be guilty of a felony, and punishable by confinement in the penitentiary from one to seven years. This act is intended to prevent what is known as "night riding."

Act 258 provides that when mob violence is threatened the Sheriff shall notify the Judge of the Trial Court and request a special term of court. The Judge, upon ascertaining that the fear of mob violence is well founded, shall empanel a special Grand Jury and provide the other necessary judicial machinery and begin trial within ten days. In case the Trial Judge is ill, or otherwise unable to hold court, he shall call the special term, and the Bar in attendance upon the Court shall elect a special Judge to preside in the absence of the regular Judge. If the Judge is holding court when called upon to convene a special term, he may adjourn his court for the purpose of holding the special term. If the defendant takes a change of venue, the trial is to be fixed within ten days. The Sheriff failing to call special term when requested so to do by at least seven citizens in writing, may be fined in any sum from \$200 to \$1,000.

California—Public Schools—The governing body of school districts were given the power to establish separate schools for children of Indians, and of Chinese or those of Mongolian descent, and when such separate schools are established, Indian, Mongolian or Chinese children must not be admitted to any other school. (P. 908.)

Anti-Fraternity—It shall be unlawful for any pupil enrolled as such in any elementary or secondary school of this State, to join or become a member of any secret fraternity, society or club, wholly or partly formed from the membership of pupils attending such public schools, or to take part in the organization or formation of any such fraternity, society or secret club, except the Native Sons of the Golden West, Native Daughters of the Golden West, Foresters of America or other kindred organizations not directly associated with the public schools of the State. (P. 332.)

Exclusion of Asiatics—The Senate and Assembly constituting the Legislature, passed a joint resolution, declaring it right and proper that the people of this country should be advised as to the true position of California on the question of exclusion of Asiatics, and resolved that the Congress of the United States be respectfully urged to maintain intact the present Chinese exclusion laws, instead of taking any action looking to the repeal of said exclusion laws, and to extend the terms and provisions thereof so as to apply to and include all Asiatics, including Japanese. (P. 1,346.)

Railroads—Every person, who, without being thereunto duly authorized by the owner, lessee or person or corporation engaged in the operation of any railroad, shall manipulate or in any wise tamper or interfere with any air-brake or other device, appliance or apparatus in or upon any car or locomotive upon such railroad, and used or provided for use in the operation of such car or locomotive, or of any train upon such railroad, or with any switch, signal or other appliance or apparatus used or provided for use in the operation of such railroad, shall be deemed guilty of a misdemeanor, punishable by fine not exceeding \$100, or imprisonment not exceeding three months, or both. (P. 453.)

Asexualization—Whenever in the opinion of the medical superintendent of any State hospital, or the Superintendent of the California Home for the Care and Training of Feeble-Minded Children, or of the resident physician in any State prison, it would be conducive to the benefit of the physical, mental or moral condition of any inmate of said State hos-

STATE LEGISLATION IN 1909—Continued.

pital, home or State prison, to be asexualized, then such superintendent or resident physician shall call in consultation the General Superintendent of State hospitals and the Secretary of the State Board of Health, and they shall jointly examine into all the particulars of the case with the said superintendent or resident physician, and if in their opinion, or in the opinion of any two of them, asexualization will be beneficial to such inmate, patient or convict, they may perform the same.

Other legislation was the regulation of the employment of minor children, the establishment of a Juvenile Court, providing for the distribution by the State Board of Health of information regarding tuberculosis, providing for the sanitation of places used for the production or preparation of food, regulating the occupancy of tenement houses in incorporated places, prohibiting the publication of false and misleading advertisements, limiting labor in mines to eight hours out of twenty-four, prohibiting the desecration of the United States flag, making the birthday of Abraham Lincoln a legal holiday, prohibiting gambling, pool-selling and bookmaking under penalty of imprisonment in the county jail or State prison, regulating primary elections, recognizing osteopathy and naturopathy and providing for a standard form of fire insurance policy to be used in the State; a State dental surgeon for the inmates of the various State hospitals was provided.

Colorado—Acts regulating the practice of architects and the business of barbers, for the inspection of factories, the establishment of county high school districts and the physical examination of school children were passed.

Connecticut—The Legislature was still in session when the Association met, and a full report was, therefore, not possible. A Sunday law presumed to be more liberal than the existing one was enacted, but vetoed by the Governor. Bills were passed and have become laws concerning the sale of adulterated foods, the employment of women and children, spitting in public places, tuberculosis and blackmailing. The act providing for asexualization in certain cases is referred to in the address.

Florida—The practice of osteopathy, optometry and dentistry was regulated. The Board of Health was authorized to enforce rules for the protection of the public health, and to establish and maintain sanitariums for the treatment of tuberculosis. Provision was made for fire protection in public schools, and for the teaching of the elementary principles of agriculture and of civil government. The drinking of liquor on trains was prohibited, and also the sale of certain narcotics. There was a pure food law, and laws for the suppression of contagious diseases in live stock, to prevent the pollution of water, regulating fire insurance companies, prescribing the standard for cotton seed meal, penalizing railroad companies for delay in settling claims, and to prevent corrupt practices at elections.

Georgia—The Legislature had not adjourned in time for a full report. The noteworthy enactments are as follows:

An act to amend the Constitution of the State of Georgia by repealing Section 1 of Article 2, and inserting in lieu thereof a new section, consisting of nine paragraphs prescribing the qualification for electors; providing for the registration of voters, and for other purposes.

The qualifications of the voters are contained in the sub-divisions of Paragraph 4 of Section 1 of the above act, and are as follows:

1. All persons who have honorably served in the land or naval forces of the United States in the Revolutionary War, or in the War of 1812, or in the war with Mexico, or in any war with the Indians, or in the war between the States, or in the war with Spain, or who honorably served in the land or naval forces of the Confederate States or of the State of Georgia in the war between the States; or

2. All persons lawfully descended from those embraced in the classes enumerated in the sub-division next above; or

3. All persons who are of good character and understand the duties and obligations of citizenship under a republican form of government; or

4. All persons who can correctly read in the English language any paragraph of the Constitution of the United States or of this State, and correctly write the same in the English language when read to them by any one of the registrars, and all persons who solely because of physical disability are unable to comply with the above requirements, but who can understand and give a reasonable interpretation of any paragraph of the Constitution of the United States or of this State, that may be read to them by any of the registrars; or

5. Any person who is the owner in good faith in his own right of at least forty acres of land situated in this State upon which he resides, or is the owner in good faith in his own right of property situated in this State and assessed for taxation at the value of \$500.

Idaho—Idaho enacted laws of general interest as follows: Amending law regulating period of employment in underground mines. Regulation of liquor traffic. County local option. Licensing and regulating public warehouses. Employers' liability, restricting defenses of fellow workman and assumption of risk. Provides for recovery in cases of death, of not more than \$5,000, not subject to debts of deceased. Providing for protection and care of orphans, homeless, neglected or abused children. Providing for indeterminate sentence of persons convicted of any felonies except treason and murder in the first degree. Authorizing corporations to hold stock in other corporations. Primary election law, expressing choice for United States Senator. Authorizing highway districts to bond for construction, operation or leasing of wagon roads, railroads and other highways. Regulating operation and equipment of mines. Prohibiting issuance of passes or free transportation to certain State and county officers over electric and steam railroads and steamboats. Prohibiting wholesale liquor dealers from being interested in places doing retail business.

Illinois—An act was passed making it unlawful for any person to follow the occupation of a barber in Illinois unless he should first obtain a certificate of registration. The act provides for a board of examiners of three persons, to be appointed by the Governor, and to consist of practical barbers, and that they shall hold examinations and inspect barber shops, etc., and issue certificates of registration which shall be issued to those having the requisite skill and sufficient knowledge of common diseases of face and skin to avoid the aggravation or spreading thereof.

An act providing that all conveyances and all instruments of writing of whatever nature enforceable in this State that may have been or shall hereafter be executed without the State, whether by a resident of the State or not, without a seal, where the law of the

STATE LEGISLATION IN 1909—Continued.

place where such instrument is executed does not at the date of execution require a seal or scroll to the signature, shall be valid in this State, and given the same force and effect in law and equity as if a seal or scroll had been fixed.

An act requiring the publishers of school books who desire to offer them for sale for use in the public schools of the State to file sample copies of the books in the office of the Superintendent of Public Instruction, together with wholesale and retail prices.

A very important statute was the act to revise the laws relating to charities and corrections. Section 1 states the purpose of the act as follows: The purpose of this act is to provide humane and scientific treatment and care, and the highest attainable degree of individual development, for the dependent wards of the State; to provide for delinquents and prisoners such wise conditions of modern education and training as will restore the largest possible portion of them to useful citizenship; to promote the study of the causes of dependency and delinquency, and mental, moral and physical defects, with a view to cure and ultimate prevention; to secure the highest attainable degree of economy in the business administration of the State institutions consistent with the objects above enumerated, and this act, which shall be known as the code of charities and corrections of the State of Illinois, shall be liberally construed to these ends.

An act providing that no female shall be employed in any mechanical establishment or factory or laundry more than ten hours during any one day.

An act making it the duty of every teacher of a public school in this State to teach to the pupils thereof honesty, kindness, justice and moral courage, for the purpose of lessening crime and raising the standard of good citizenship. The act contains provisions as to the details of such instruction, prescribing not less than one-half hour per week during each term for instruction in kindness and justice, and humane treatment and protection of birds and animals, and the important part they fulfill in the economy of nature. It also prohibits any experiment upon any living creature for the purpose of demonstration in any study in any public school of the State.

A bill was passed amending the law in relation to marriages, as the same was amended in 1905. By the statute of that year so-called common law marriages were prohibited in this State, and this amendment of the statute further prescribes a ceremonial marriage as necessary in order to constitute a valid marriage under the laws of this State.

Indiana—Attention is called to the following chapters: 25. Establishing a maximum passenger rate of two cents per mile on railroads. 34. Restricting brokerage in wages. 46. Regulating sale of feeding stuffs. 47. Tenement house regulation. 48. Bulk sales of merchandise. 64. Elections. 83. Public playgrounds in cities. 163. Sanitation in methods and shops of food producers.

Iowa—This State gave District Courts power to deal with parents and children when the latter are neglected, provided for acquisition of public utilities by cities, firemen's and policemen's pension fund, the removal of county attorneys, sheriffs, mayors and police officers by the District Court for neglect of duty and other causes, established the rule of comparative negligence in railroad cases, prohibited drinking on railroad trains, limited saloons to one for every thousand of population, regulated hotels, appointed an inspector for the prevention of disease among bees, prohibited secret fraternities in public schools, made Lincoln's birthday a holiday, authorized amendments of judgments to correct errors or omissions of form, provided for the parole of convicts, the destruction of noxious weeds, prohibited discrimination in purchase of dairy and poultry products or grain for the purpose of creating a monopoly, and prohibited the use of cigarettes by minors.

Kansas—An act providing for the guaranty of deposits in State banks. This act requires each bank taking advantage of its provisions to deposit with the State Treasurer bonds to the amount of \$500 in value, subject to the order of the State Bank Commissioner, and also cash to the amount of \$500 for every \$100,000 of deposits or fraction thereof. In addition to these sums, each bank must pay into a guarantee fund to be kept by the State Treasurer, and subject to the order of the bank commissioner, one-twentieth of one per cent. of its average deposits. In case of failure of any bank this fund is resorted to to meet any deficiency, after appropriating its assets to the payment of its liabilities.

An act prohibiting children under fourteen years of age from working in any factory or workshop not owned by their parent, and from working in any theatre, packing house, elevators or mills; and prohibiting all persons under sixteen years of age from working before 7 A. M. and later than 6 P. M., or more than eight hours a day.

An act providing for government of cities of the first class (over 15,000), and cities of the second class (over 2,000), by a commission, at the election of the voters within the city (including women.) When adopted the principle of the initiative and referendum may be enforced in the adoption of ordinances, and that of recall of its officers.

An act to protect persons against fire in hotels and other public buildings by requiring the keepers thereof to provide sufficient fire escapes.

An act prohibiting the sale of intoxicating liquors of all kinds, including alcohol, for all purposes, and prohibiting the drinking of such liquors on railroad trains.

An act prohibiting the sale of cigarettes to any person, and prohibiting the use of tobacco in any form by minors.

An act requiring all persons who seek to influence legislation at the capital during a session of the Legislature to register with the Secretary of State.

An act enforcing the sale of pure foods, and an act fixing weights and measures.

An act fixing maximum freight rates.

An act providing for good roads and for the supervision of roads by a State engineer.

An act creating the office of dairy commissioner, and giving him power to enforce the sale of pure butter, cheese, ice cream, etc.

An act for the protection of the people against tuberculosis.

An act for the suppression of tuberculosis in cattle.

An act providing for the dissolution of corporations that abuse their privileges, by district courts on application therefor by the Attorney-General of the State, and for the winding up of their estate.

Maine—Adopted a State flag, provided for the sanitation of dairies, made mileage books absolutely transferable, made provision for the prevention of tuberculosis, prohibited the sale of cigarettes to minors, regulated child labor, created a State board of arbitration for the settlement of labor disputes, regulated optometry, protected forests against fires and made appropriation for the protection of trees against insects.

Massachusetts—Chapter 486. New charter for the city of Boston. This is the result

STATE LEGISLATION IN 1909—Continued.

of the report of a commission which for two years investigated the misgovernment of Boston, and recommended a new charter, which has been substantially adopted. Its general objects are to enable the citizens to know what is being done, and to fix responsibility. The Legislature declined to force the commissioners' charter on the city, but gave the voters a choice of two plans; one, that recommended by the commissioners; and another, which is nearer the present charter. Both plans establish a permanent finance commission, with the right and authority of investigating and reporting, and with power to summon witnesses. Both plans place the government in the hands of the Mayor and one council, the latter to pass regulations and authorize expenditures (usually with the approval of the Mayor), the former to appoint heads of departments, not subject to confirmation of council, but subject to rejection for unfitness by the State Civil Service Commission. The Mayor may also remove heads of departments. Plan two (the commissioners' plan) makes council of nine, and abolishes party nominations for Mayor and council. Plan one makes council of thirty-two and leaves untouched the system of party nominations. Either charter is believed to be a step in the direction of good municipal government. The qualified referendum, giving the citizens a choice between two plans, is an interesting feature of the act.

Chapter 519. Incorporating the Boston and Maine Holding Company. The New York, New Haven and Hartford Railroad Company is the principal railroad in New England, and forms almost the only rail connection with New York and the South. It leases and operates a large mileage in Massachusetts, but by its Connecticut charter a majority of its directors are required to be citizens of that State. It lately acquired a majority of the stock of the Boston and Maine, the other great system of New England, and wished to have the two merged. The political leaders did not wish to give so much power to one railroad which was substantially a foreign corporation, and after a year's consideration a solution suggested by the Governor was agreed upon. A Massachusetts corporation, to hold the stock of the Boston and Maine, was created by charter under the Massachusetts laws. The New Haven will own the stock of this holding company, and will thus control the Boston and Maine through the holding company, but will also through the holding company be under the supervision of the State.

Protection of Buyers and Members of the Public—Chapter 184. Requires the safekeeping of matches in stores. **Chapter 191.** Notices of the price of bread and size of loaves must be posted in the stores where it is sold. **Chapter 199.** Prohibits the sale of air guns to minors. **Chapter 301.** Regulates the practice of dentistry. **Chapter 350.** Regulates the size of blueberry baskets. **Chapter 375.** Further restricts the sale of cocaine. **Chapter 405.** Authorizes the appointment of milk inspectors by the boards of health, etc. **Chapter 423.** Requires a license for selling ice cream, soda, etc.

Further legislation were acts for the encouragement and protection of forestry; amending the game laws, authorizing the Boston and Maine Railroad to adopt a pension system for its employees, requiring the United States flag and the flag of the Commonwealth to be displayed on public buildings, requiring the United States flag to be displayed on school houses on pleasant days and in school houses on stormy days, making railroads liable to towns for the expense of extinguishing forest fires caused by them negligently, requiring commissioners to promote uniformity of legislation between the States to be appointed by the Governor, regulating the speed of automobiles (modifying a harsher law), and regulating the practice of osteopathy.

Michigan—Provided for a department of labor, a bacteriologist, the examination of nurses, the practice of optometry, and taking precautions against tuberculosis and against the spread of disease among babies. The election laws were amended, and so was the law providing for indeterminate sentences. A new and comprehensive railroad law was adopted, and passenger fares were fixed at two cents per mile on first class railroads. A board of commissioners for uniformity of legislation was established. Saloons may not furnish to any person free of charge "any food except crackers and pretzels."

Minnesota—Fixed maximum freight rates, and enacted a number of regulations as to operation of railroads. Restricted liquor licenses to one for every five hundred of population, prohibited the sale of cigarettes, prescribed form of policy for accident insurance, required sanitary places of work, regulated the labor of women and children and levied a tax the proceeds of which are to be used to acquire lands for purposes of reforestation. A commission was appointed to consider the matter of compulsory insurance of employees against accidents, etc.

Missouri—An amendment to the Constitution provided for the initiative and referendum in legislation.

Laws provided for a bureau of dairying and for extension course in agriculture under the direction of the State University. Columbus Day, October 12, was made a holiday. Arbitration clauses in insurance policies were in effect nullified. Railroad employees are to be paid on or before the fifteenth of each month after the month in which the services are rendered. The Judges of the Kansas City Court of Appeals were appointed commissioners to prepare syllabi of their opinions, and for this service they are to receive \$1,000 per annum. A third Court of Appeals was established at Springfield. Juvenile courts were provided for all counties having a population above 50,000. Divorce advertisements were prohibited. A pure food law was adopted. Also a comprehensive law for collecting and preserving vital statistics. Innkeepers were regulated for purposes of sanitation. The subject of education was dealt with at great length.

Montana—Provided for non-partisan judicial nominations, made holidays of Lincoln's and Columbus's birthdays, prohibited rebating and discrimination by life insurance companies, took measures against tuberculosis and other communicable diseases, made operators of coal mines liable to employees in cases of total disability, regardless of the question of negligence, and, after a fashion, prohibited trust and monopolies.

Nebraska—Established a compulsory system of guaranty of bank deposits, imposed an occupation tax upon corporations, provided for "a more certain selection of the people's choice for United States Senators," enacted a pure food law, regulated hotels as to sanitation, prohibited the sale of liquor on Sunday and between the hours of 8 P. M. and 7 A. M. on any week day. Provision was made for the care of indigent consumptives. Railroad companies were penalized for delay in settlement of claims, and provision was made for the physical valuation of all railroad properties. One act looks to the abolition of secret fraternities in the public schools. The Uniform Warehouse Receipts bill was adopted.

Nevada—Regulated the business of the embalmer, prescribed eight hours as a day's

STATE LEGISLATION IN 1909—Continued.

work in mines and plaster and cement works, made it unlawful for employers to receive or demand any consideration for hiring or retaining employees, established a parole system for prisoners, provided for the care of dependent, neglected and delinquent children, endeavored to suppress "wild cat" mining promotions, enacted an elaborate banking law, provided for nominations by primaries instead of by conventions and prohibited faro and other forms of gambling, this last act not to take effect until October 1, 1910.

New Hampshire—Enacted a direct primary nomination law, established a forestry commission, appropriated \$1,000,000 for the improvement of three main highways, required the registration of legislative counsel, adopted a State flag, enacted the negotiable instrument law of the American Bar Association, established dispensaries for the detection and treatment of tuberculosis and provided for the indeterminate sentence and parole of prisoners;

New Jersey—Made Columbus's birthday a holiday, required seats for female employees in shops and stores, extended the liability of the employer for the death of employees, empowered cities to establish and maintain plants for the treatment of sewage, protected its oyster beds from pollution, provided for art, science and industrial museums in cities, forbade rebating in life insurance, appointed a commission on uniform legislation, provided for sanitary conditions in the preparation of foods, established a board of protectors for "the prevention of drunkenness" and prohibited saloonkeepers from displaying on their signs the particular brands of liquors they dispense.

New Mexico—Adopted the Uniform Warehouse Receipts Bill, attempted the repression of contagious diseases among live stock, authorized holding companies, enacted the bulk sales law, the indeterminate sentence and parole, regulated embalmers, prohibited women from loitering about saloons and created a conservation commission for natural resources.

North Carolina—There were acts for the protection of forests and to promote the cultivation of oysters, regulating the sale of feedstuffs and the packing and sale of fish, for the appointment of inspectors of electric, gas and water meters, requiring seats for female employees prohibiting blacklisting, against the evasion of the exemption laws of the State, regulating the practice of optometry and providing for the free treatment of indigent persons having diphtheria.

North Dakota—Authorized the issuance of bonds and warrants to secure seed grain for needy farmers, established a public tuberculosis sanitarium, fixed the capital of the State at Bismarck, prohibited the sale of cigarettes to minors, prohibited the solicitation of orders for intoxicating liquors and also advertisements of liquor, provided for the sanitation of hotels, for a twine plant at the penitentiary and the payment of a small sum for over-time to convicts, regulated child labor, enacted a pure seed law, authorized cities to fix the rates for gas, provided for a non-partisan judiciary and for a legislative reference department.

Ohio—There was a special session of the Legislature. The most noteworthy acts were those providing for the medical inspection of schools and regulations of the liquor traffic.

Oklahoma—Passed the uniform negotiable instrument bill, a child labor law and a law making eight hours a day's labor on all public works, and established a juvenile court.

Oregon—Defined and prohibited corrupt practices at elections, subjected the salaries of public officers to garnishment, provided for sanitation in hotels, regulated the sale of feedstuffs, co-operated with the National Commission in the conservation of natural resources, established State sanitarium for tuberculosis, extended the ten-hour law affecting female employees to telegraph, telephone, express and transportation service, established an insurance department, regulated the insurance business and regulated the use of the public waters of the State.

Pennsylvania—Created a legislative reference bureau; provided that opinions on religious matters shall not affect the competency or credibility of witnesses; for adult probation and the indeterminate sentence; that no money shall be paid out of the State Treasury except under authority of an act in which not only the purpose but the amount to be expended shall be specified; that the receiver of an insurance company or financial corporation appointed at the instance of the State Commissioner shall supersede any previously appointed receiver, assignee or trustee; and that counties may appropriate public moneys for the support of law libraries. A number of acts were passed relating to public health and to the purity of foods and drinks, and a child labor law was enacted.

Porto Rico—Provided for agricultural education, for the suppression of tropical anemia or uncinariasis, for the admission to the practice of the law, for the settlement of certain suits with the Roman Catholic Church, for high school grade instruction in commercial subjects, for a system of irrigation, for the sale or lease of swamp lands, for a bureau of criminal and judicial statistics and for the care of tuberculosis patients.

Rhode Island—Limited the hours of labor for children and women in manufacturing and mechanical establishments to fifty-six hours in any one week; passed the bulk sales bill; provided for commissioners on uniformity of legislation and conservation of natural resources; provided for a survey of the natural resources of the State; undertook to prevent hazing; and submitted to vote a proposed amendment to the Constitution giving to the Governor the power of veto.

South Carolina—Required electric railway companies to equip cars with closed vestibules in the Winter time to protect motormen, established a board of commissioners on uniformity of legislation, regulated the manufacture and sale of commercial fertilizers, made it a misdemeanor to publish the name of any victim of rape or assault with intent to commit rape, and provided that in prosecution for rape and assault with intent to ravish the evidence of the woman may be taken by deposition, the accused being present and having the same rights as if the witness were examined in court, prohibited unfair commercial discrimination between different sections of the State, and unfair competition by selling goods in one locality at a low price to destroy the business of competitors, made it a misdemeanor to solicit orders for liquor and required banks to accumulate a 25 per cent. reserve.

South Dakota—Prescribed a maximum of two cents per mile for passenger fares; penalized railroad companies for delay in adjusting claims; placed telephone companies under the jurisdiction of the Railroad Commissioners; provided for actions for injury by wrongful death and fixed the maximum of recovery at \$10,000; ordained standard forms of fire and life insurance policies; prohibited trusts and monopolies; provided for primary elections; established a live stock sanitary board; distributed hog cholera serum; took measures to prevent

STATE LEGISLATION IN 1909—Continued.

the spread of disease among sheep and "foul brood" among bees; enacted pure food and pure drug laws; regulated hotels; provided for the planting and care of forest trees, and the inspection of nurseries and imported trees to prevent the introduction and spread of injurious insects; allowed an indeterminate sentence in some cases of first offense; and permitted a portion of a convict's earnings to be devoted to the support of his dependent family.

Tennessee—Enacted a number of laws the effect of which is State-wide prohibition, established a board of commissioners on uniformity of legislation, provided for primary nominations for all offices except those of Judges and Attorney-Generals; regulated embalmers; created a library commission, passed a general educational bill and appropriated to its purposes 25 per cent. of the gross revenues of the State, regulated the sale of agricultural seeds provided against the spread of disease among cattle, regulated fire insurance, punished false statements on packages of merchandise as to weight or measure and provided that persons shall not be disqualified as jurors because of opinions based on newspaper reports or rumors.

Texas—Made various provisions for educational purposes. It established a library commission and provided for instruction in manual training, domestic science and agriculture. It created a board of public health, authorized the establishment of a home for lepers, enacted pure food laws, regulated the practice of nursing and provided for the inspection of plumbing. It provided for prospecting its mineral resources, and for agricultural experiment stations and for the protection of plants, shrubs and trees against disease. There were a number of laws regulating railroad operation, among them one prohibiting more than sixteen hours of consecutive service in the operation of trains. Blacklisting was forbidden, and penalties were imposed for delays in adjusting claims. The law of comparative negligence was also adopted in railroad cases. The liquor laws were made more rigorous, and various forms of gambling, including betting on horse races, were prohibited. The "bulk sales" bill was enacted into law. It also provided for the guaranty of bank deposits by either giving a bond or contributing to a deposit fund.

Utah—The State Board of Land Commissioners were authorized to conduct experiments in sinking wells for culinary and domestic purposes on arid land. The right of eminent domain was extended to sites for mills, smelters and other works for the reduction of ores. It was made a misdemeanor for a superintendent, foreman or boss to receive any valuable consideration for employing a person or continuing him in employ. The portrait of a person may not without his consent be used for advertising purposes. Irrigation districts were authorized. A dairy and food bureau was created with power to enforce sanitary measures. A commission for the conservation of natural resources was created, and provision was made for protection against disease among live stock.

Vermont—Created a State board of agriculture and forestry, and provided for the inspection of nursery stock brought into the State. It improved and extended its educational system, made a beginning in manual training schools and provided for the better enforcement of the child labor law. Further help was granted to town libraries. Appropriated \$75,000 a year for permanent highways. The adjustment of fire insurance losses was simplified. A public service commission created to which any person aggrieved by a public service company may appeal. Cities and towns were given power to compel a pure milk supply. Precautions were taken against the spread of tuberculosis. The act to regulate the practice of medicine and surgery was amended to make it more effective against charlatans, but it does not apply "to persons who merely practice the religious tenets of their church without pretending a knowledge of medicine or surgery."

Washington—The Judges of the Superior and Supreme Courts are to wear gowns of black silk when in session. Nominations for judicial offices are to be made at party conventions. Trial Judges must reduce their charges to writing and read them to the jury before argument by counsel. Telegraph and telephone companies are subjected to the jurisdiction of the Railroad Commission. A local option law was enacted, and one giving cities and towns the power to condemn, purchase and operate street railways. The selling, giving away or having in possession a cigarette was made a crime.

West Virginia—Established a department of public roads; created a non-partisan board for the control of public institutions, empowered the United States to acquire land in the State by purchase or condemnation for a national forest reserve; regulated the practice of optometry; made Lincoln's birthday a holiday; prohibited the sale of merchandise in bulk in fraud of creditors; and established a home for the children who may be surrendered to the care or committed to the custody of the West Virginia Humane Society.

Wisconsin—Enacted a number of laws regulating the operation of railroads. Discrimination in premiums on insurance policies was prohibited. There were a variety of enactments relating to sanitation and pure foods. Regulations of child labor were extended to bootblacks and boys and girls selling newspapers in the streets. A day's labor on public work was fixed at eight hours. Tenement, apartment and lodging houses were regulated as to construction in great detail. Provision was made for the care of neglected animals. Art commissions were established in cities of the first class. No judgment in a civil or criminal case may be reversed for any misdirection of the jury, improper admission of evidence or for error as to any matter of pleading or procedure unless in the opinion of the Appellate Court it shall appear, after an examination of the entire action or proceeding, that the error complained of has affected the substantial rights of the party complaining.

Wyoming—The grant of liquor licenses outside of cities and towns was prohibited and the amount of the license was increased from \$300 to \$1,000. A day's work in mines and smelters was fixed at eight hours. A corrupt practices act was passed. Commissioners were appointed to deal with contagious diseases among sheep. The office of Commissioner of Taxation was established. He is to be an expert in matters of taxation, and is to have general supervision over the administration of all assessment and tax laws. Indefinite terms of sentence and the parole of prisoners was provided for. Persons divorced may not remarry, except each other, for a period of one year; violation of this act is a misdemeanor. The desertion by a man of his wife and children without making provision for their care was made a felony. He may at any time, however, before sentence, give bond to make proper provision, and sentence is then suspended. The salaries of public officers were subjected to garnishment. Provision was made for the examination and registration of trained nurses.

National Monetary Commission,

CREATED BY THE CURRENCY ACT OF 1898.

CHAPTER 229 of the acts of the first session of the Sixtieth Congress, entitled "An Act to Amend the National Banking Laws," approved May 30, 1908, created a National Monetary Commission by Sections 17 and 18, as follows:

Sec. 17 A Commission is hereby created, to be called the 'National Monetary Commission,' to be composed of nine members of the Senate, to be appointed by the presiding officer thereof, and nine members of the House of Representatives, to be appointed by the Speaker thereof; and any vacancy on the Commission shall be filled in the same manner as the original appointment.

Sec. 18 It shall be the duty of this Commission to inquire into and report to Congress at the earliest date practicable what changes are necessary or desirable in the monetary system of the United States or in the laws relating to banking and currency, and for this purpose they are authorized to sit during the sessions or recess of Congress, at such times and places as they may deem desirable, to send for persons and papers to administer oaths, to summons and compel the attendance of witnesses, and to employ a disbursing officer and such secretaries, experts, stenographers, messengers, and other assistants as shall be necessary to carry out the purposes for which said Commission was created. The Commission shall have the power through sub-committee or otherwise, to examine witnesses and to make such investigations and examinations, in this or other countries, of the subjects committed to their charge as they shall deem necessary.

The following are the present members of this Commission: Nelson W. Aldrich, Rhode Island, Chairman; Edward B. Vreeland, New York, Vice-Chairman; Julius C. Burrows, Michigan; Eugene Hale, Maine; Philander C. Knox, Pennsylvania; John W. Daniel, Virginia; Henry M. Teller, Colorado; Hernando D. Money, Mississippi; Joseph W. Bailey, Texas; Jesse Overstreet, Indiana; Theodore E. Burton, Ohio; John W. Weeks, Massachusetts; Robert W. Byrnes, Colorado; Sylvester C. Smith, California; Lemuel P. Padgett, Tennessee; George F. Burgess, Texas; Arsene P. Fujo, Louisiana; Arthur B. Shelton, Secretary.

The Commission has held numerous meetings, but has not yet rendered its report to Congress.

National Council of Fine Arts.

In January, 1909, President Roosevelt, acting upon a suggestion of the American Institute of Architects, appointed a National Council of Fine Arts. In accepting the names proposed by the Institute, the President said to that body:

"I shall direct all my Cabinet Officers to refer to the council, for their expert advice, all matters in their charge embracing architecture, selection of sites, and landscape work sculpture, and painting. Moreover, I shall request the council to watch legislation and on its own initiative to make public recommendations to the Executive and to Congress with regard to proposed changes in existing monuments, or with regard to any new project. I earnestly advise your body to take immediate steps to secure the enactment of a law giving permanent effect to what I am directing to be done. The course you advocate, and which I approve, should not be permissive with the Executive. It should be made mandatory upon him by act of Congress."

The members of the Council thus appointed are:

Architects—Cass Gilbert, C. Grant La Farge, Walter Cook, William A. Boring, S. B. P. Trowbridge, John G. Howard, Glenn Brown, Thomas H. Kimball, John L. Mauran, D. H. Burnham, John H. M. Donaldson, George B. Post, Arnold W. Brunner, Robert S. Peabody, Charles F. McKim, William S. Kemes, James Rush Marshall, Abram Garfield, Frank Miles Day, William B. Mundie and C. Howard Walker.
Painters—John La Farge, F. D. Millet, E. H. Blashfield and Kenyon Cox.
Sculptors—Daniel C. French, Herbert Adams, H. A. MacNeil and K. T. Bitter.
Landscape Architect—Frederick Law Olmsted, Jr.

The Chinese Constitution.

ON August 27, 1908, the late Emperor Ta Ch'ing and the late Empress Dowager promulgated Peking the terms of a constitution to take effect after nine successive years of preparation. It was expressly stipulated that the Emperor should have absolute power to be exercised in the constitutional form and "reign supreme over the empire for one thousand generations in succession." The nine years' programme is as follows:

Thirty-fourth year of Kwang Hsu, or 1908—Local self-government; rules for reorganization of finance; fusion of the Manchu and Chinese military; revision of criminal code.

Thirty-fifth year, or 1909—Election of provincial assemblymen; election to constitutional commission; local self-government bureaus established; census; provincial budgets; determination of functions of Peking officials, issuing of school books.

Thirty-sixth year, or 1910—Provincial assemblies opened; local self-government established; census reports, tax rate fixed; organization of provincial officials; courts of law at provincial capitals and treaty ports, publishing criminal code; extension of schools; preparation for organization of sub-prefecture, department and district police.

Thirty-seventh year, or 1911—Local self-government continued; public account, imperial budget; rules on imperial taxation; rules governing appointments and salaries of civil officials; extension of schools, codes of municipal and commercial laws and civil and criminal procedure drawn up.

Thirty-eighth year, or 1912—Completion of general arrangement of urban self-government; census reports, publication of taxation laws of empire; perfection of arrangements for provincial and lesser courts; extension of schools.

Thirty-ninth year, or 1913—Police registration; imperial trial budget of variable expenses; Supreme Court; courts of law in prefectures, sub-prefectures, departments and districts; criminal code promulgated; urban self-government established; rules for rural self-government, rules for urban police.

Fortieth year, or 1914—Imperial trial budget of fixed expenses; publication of system of national accounts, rural self-government established; rules for lower courts.

Forty-first year, or 1915—Imperial household expenses fixed; organization of the Banners' comptroller's office; public accounting enforced; lower courts established; municipal and commercial laws and civil and criminal procedure rules established, police system complete.

Forty-second year, or 1916—Promulgation of full Constitution and the laws of the imperial clan; parliamentary rules and rules for parliamentary elections; budget for consideration of Parliament; reorganized official system; appointment of a Premier.

The document concludes with these words:

In the forty-third year of Kwang Hsu, or 1917, China will be, by following this plan, a parliamentary country like Japan or Russia.

Among the prominent measures of legislation of the New York Legislature during the year 1909 which received the approval of the Governor were a series of statutes consolidating the statutes of the State prepared by a Board of Statutory Consolidation. These acts consolidated the Agricultural law, the Banking law, the Benevolent Orders law, the Business Corporations law, the Canal law, the Civil Rights law, the Civil Service law, the County law, the Debtor and Creditor law, the Decedent Estate law, the Domestic Relations law, the Drainage law, the Education law, the Election law, the Executive law, the Forest, Fish and Game law, the General Business law, the General City law, the General Construction law, the General Corporation law, the General Municipal law, the Highway law, the Indian law, the Insanity law, the Insurance law, the Joint Stock Association law, the Judiciary law, the Labor law, the Legislative law, the Lien law, the Liquor Tax law, the Membership Corporations law, the Military law, the Navigation law, the Negotiable Instruments law, the Partnership law, the Penal law, the Personal Property law, the Poor law, the Prison law, the Public Buildings law, the Public Health law, the Public Lands law, the Public Officers law, the Public Service Commissions law, the Railroad law, the Real Property law, the Religious Corporations law, the Salt Springs law, the Second Class Cities law, the State Boards and Commissions law, the State Charities law, the State Finance law, the State law, the State Printing law, the Stock Corporation law, the Tax law, the Tenement House law, the Town law, the Transportation Corporations law and the Village law.

The sum of \$350,000 was appropriated for the construction of a new State prison in Washington County to be known as "The Great Meadow State Prison."

An act was passed creating a forest reservation in the highlands of the Hudson, west of the Hudson River, to be known as "Highlands of the Hudson Forest Reservation."

The additional sum of \$15,000 was provided for a monument to the New York soldiers of the Union armies in the civil war who were imprisoned in Andersonville, Ga., as prisoners of war.

The sum of \$5,000,000 was appropriated for the construction or improvement of public highways, and the sum of \$1,500,000 for the maintenance and repair of public highways.

An appropriation was made for the obtaining of plans for the alteration and extension of the building in Albany known as "The State House," now occupied by the Comptroller and other State officers, for the use of the Court of Appeals and the several offices connected therewith.

Blackmail was made punishable by imprisonment for not more than fifteen years.

An act was passed making it a misdemeanor to admit to a moving picture show any child actually or apparently under the age of sixteen years, unless accompanied by its parent or guardian.

The twelfth day of October of each year was designated as a holiday to be known as "Columbus Day."

The Compulsory Education act was amended so as to require attendance upon instruction of every child between seven and sixteen years of age, in proper physical and mental condition, to attend school.

The Governor was authorized upon the application of the Attorney-General, upon cause shown, to appoint extraordinary terms of the Supreme Court to be held in any judicial district, and designate a Justice to preside thereat, to try special franchise cases.

An act was passed making kidnapping punishable by imprisonment for not less than five years nor more than fifty years.

Persons who shall take an automobile from a garage, stable or other building without the consent of the owner, it was declared, are guilty of larceny and shall be punishable accordingly.

The law in regard to the employment of children in mercantile or other business concerns was amended so as to provide that a child upward of twelve years of age may be employed therein in villages and cities of the second or third class during the Summer vacation of the public schools of the city or district where such establishment is situated.

The sum of \$20,000,000 was appropriated for the improvement of the Erie Canal, the Oswego Canal and the Champlain Canal; and the additional sum of \$8,227,874.51, appropriated in 1907 for the same purpose, was reappropriated.

An act was passed creating a commission of fourteen persons, six to be appointed by the Governor, three by the President of the Senate from the Senate and five to be appointed by the Speaker of the Assembly from the Assembly, to inquire into the question of employers' liability and also into the causes and effects of unemployment in the State of New York.

The Board of Supervisors of any county was authorized to establish a county hospital for the care and treatment of persons suffering from tuberculosis.

An act was passed increasing the penalty to not less than \$100 nor more than \$10,000 for every violation of the law requiring the semi-monthly payment of employees of corporations.

Permitting an increase of the compensation of various agents of insurance companies under certain restrictions.

The sum of \$1,191,871.96, appropriated in 1907 for the construction of the new Education Department building, was reappropriated for the same purpose.

The Rapid Transit act of New York City was amended so as to authorize the Public Service Commission of the First District, upon its own motion, to proceed from time to time to consider and determine whether it is for the interest of the public that a rapid transit railroad or railroads for the transportation of persons or property shall be established. The plans for such roads, the act declares, are to be submitted to the Board of Estimate and Apportionment and other city boards affected for their approval.

AMENDMENTS TO THE CONSTITUTION.

The Legislature passed, independently of the Governor, an amendment to the Constitution increasing the compensation of Justices of the Supreme Court; an amendment to the Constitution permitting the Legislature to alter the rate of interest on debts authorized under Section 4 of Article 7 of the Constitution; an amendment to the Constitution authorizing the Legislature to confer upon boards of supervisors such further power of local legislation and administration as the Legislature may deem expedient and in the counties which now have, or may hereafter have, county auditors or other fiscal officers, authorized to audit bills against the county, to confer such powers upon the auditors as may be deemed expedient; an amendment amending Section 10 of Article 8 of the Constitution relating to the limitation of the indebtedness of cities and excepting certain kinds of bonds from computation of the debt of a city for purposes of such limitation; and an amendment providing for two additional members of the Court of Appeals.

Mottoes and Popular Names of the States.

State.	Motto.	Translation.	Popular Name of State.	Popular Name of People.
Alabama.....	Here we rest....
Arizona.....	Sitat Deus.....	Founded by God..

Alabama, Arkansas, Colorado, Connecticut, Illinois, Minnesota, Mississippi, Missouri, Ohio, Tennessee, and Wisconsin were named from their principal rivers. Carolina from Charles IX. of France; Georgia from George II.; Louisiana from Louis XIV. of France; Maryland from Henrietta Maria, Queen of Charles I.; New York from the Duke of York, afterward James II.; Virginia from Queen Elizabeth, the virgin queen; Pennsylvania from William Penn, and Delaware from Lord Delaware. Dakota, Massachusetts, and Texas took their names from Indian tribes, and Idaho, Iowa, Kansas, Kentucky, Michigan, Nebraska, Oklahoma, Oregon, Utah, and Wyoming were derived from Indian words.

The Japan-Chinese Treaty.

A convention was signed at Peking on September 4, 1909, between Japan and China in reference to the extension of railway systems and the working of mines in Manchuria. As some misapprehension existed as to whether the treaty rights of Americans were affected by this treaty, the Department of State made inquiries of both the signatory powers, and on November 15, 1909, issued the following official statement:

In view of the widespread publicity of the statement that the recent Chinese-Japanese agreement relating to Manchuria created for Chinese and Japanese subjects a monopoly to carry on mining operations along the South Manchurian Railway and Antung-Mukden Railway, which would exclude Americans from an extensive field of industrial enterprise, inquiry has been made of the two signatory powers and official assurance has been received from each to the effect that no such exclusive claim to mining rights was intended by the agreement, and that, if minerals are found by Americans or others within the designated territories, no objection will be made to their working such mines under concessions granted by China—the whole scope and purpose of the agreement being that any operation by Chinese and Japanese subjects of the mines within the territory mentioned should be joint as between themselves. The above assurance confirms the conclusion already reached by the Department as a result of its careful study of the agreement in the light of related and contextual evidence.

American Growth in a Century.

A bulletin was issued by the Bureau of the Census March 29, 1900, giving a summary of the special report of the Bureau on "A Century of Population Growth from the First to the Twelfth Census of the United States, 1790-1900." From this the following extracts have been taken:

GROWTH IN FIRST TWO CENTURIES FROM 200 TO 3,900,000.

The first population in a decennial year (which may be regarded as continuous) was that of Virginia, in 1610, consisting of 200 souls maintaining a precarious foothold upon an unexplored continent; after the lapse of approximately two centuries, there was an aggregate population of 3,900,000 occupying more than 800,000 square miles of territory. In 1650 more than half of the inhabitants were in the New England colonies and most of the remainder in Virginia; but from that date the proportion in New England steadily declined, and the proportion in the southern colonies increased.

COLONIAL POPULATION OF CITIES.

Three cities—New York, Philadelphia and Boston—have continued to the present time to be leaders, not only in the number of their inhabitants, but also in prosperity and influence. From its foundation in 1630 until the middle of the eighteenth century, Boston was the most populous town in the American colonies. Philadelphia (including suburbs) then took the lead, which it retained until it in turn was passed by New York, after the establishment of constitutional government. Hence each of these three cities at some period has been the leader in population.

LIVING LINKS BETWEEN THE FIRST AND TWELFTH CENSUSES.

Of 3,171,000 white persons enumerated in 1790, approximately two million survived thirty years later. In 1850, 820,000 survived; in 1880, 11,500, and in 1900, 23 persons, reporting their ages as 110 years and over, still survived. It is possible, therefore, that at the Twelfth Census there were still living persons enumerated at the First Census, taken one hundred and ten years before.

WHITES AND NEGROES.

The white population of the United States increased from 3,172,444 in 1790 to 66,800,196 in 1900, or 2,011.6 per cent.; the negro population increased during the same period from 757,373 to 8,833,064, or 1,067.3 per cent. In 1790 the white population formed 80.7 per cent. and the negro, both free and slave, 19.3 per cent. of the total population. In 1900, however, the proportion which the negro formed of the total population had declined to 11.6 per cent. On the basis of the proportions shown in 1790, there would have been in 1900, 61,500,000 whites and nearly 15,000,000 negroes.

RELATIVE INCREASE BY DESCENT AND IMMIGRATION.

From several lines of argument the conclusion is reached in this report that the white inhabitants of the United States who were descended from persons enumerated at the First Census numbered in 1900 approximately 53,000,000. Hence at the last census the white population was about evenly divided between the descendants of persons enumerated in 1790 (35,000,000) and persons or their descendants who had arrived in the United States after that period (31,000,000).

Upon the basis of the analysis presented, the conclusion is reached that by 1900 the white population enumerated in 1800 had increased 686.5 per cent., a figure which may be regarded as comparable with the increase in European countries. Had the percentage of increase of white inhabitants of the United States enumerated in 1800 been only as large as that shown by Belgium (204.3, the largest percentage of increase reported for any European country), the entire white population of the United States in 1900 would have been but approximately 45,000,000, or about the white population of the nation in 1880.

The greater part of the inhabitants of the United States enumerated in 1790 were of British stock. From a bare 6,000,000 of population in 1700 Great Britain peopled the American colonies and increased herself to 16,000,000 by 1800. In the nineteenth century she increased her offspring in America, founded populous colonies about the world, and increased the population of the British Isles to 41,000,000 in 1900; but in the United States alone, by 1900 the original stock nearly equalled the population of the mother country. In magnitude there appears to be no parallel in history for this population achievement of the British nation during the period from 1700 to 1900.

The increase in the number of negroes from 1800 to 1900, after adjusting the additions acquired by accession of territory, was 667.4 per cent.

AVERAGE SIZE OF FAMILY MUCH LARGER IN 1790.

The average size of families in 1790 was 5.8 persons. The variation shown by the States enumerated in 1790 ranged from 5.4 in Georgia to 6.4 in Maryland. In 1900 the average for the area enumerated in 1790 was 4.6, ranging from 4.1 in a number of States to 5.1 in North Carolina.

POPULATION INCREASED NINETEENFOLD AND WEALTH ONE-HUNDREDFOLD.

The total value of all property in the Republic at the period of the First Census was probably not less than \$500,000,000 and not more than \$700,000,000. The standards of value at that time were much less than they are now. Hence, in terms of present values, it is probable that all property in 1790 was worth approximately one billion to one billion and a quarter dollars. The total per capita wealth in 1790 was about \$171—in New England, \$138; in the Middle States, \$145; in the South, \$217; but on the basis of present money tables these figures should at least be doubled.

SLAVES IN 1790.

The number of slaves in the United States in 1790 was approximately 700,000. Slaves were owned in each State and Territory of the Union, except Vermont, Massachusetts, and the District of Maine. About one-fourteenth of all the slaves in the United States were owned outside of the Southern States. As a slave State, Virginia ranked first, reporting nearly 300,000.

The total number of persons directly or indirectly interested, because of family relationship, in slaveholding was 573,000 in 1790 and 2,000,000 in 1850, or 16.5 per cent. and 9.9 per cent., respectively, of the total free population.

NAMES INDICATE PREDOMINANCE OF THE ENGLISH STOCK.

The analysis by nationality as shown by names indicates the fact that the English stock composed 83.5 per cent. of all the white population at the period of the First Census, and, if the Scotch and Irish be added, the British stock represented a little more than 90 per cent., while the Germans contributed slightly less than 6 per cent. and the Dutch 2 per cent.

In fact, so great was the British preponderance in practically all of the New England States that the other nationalities were negligible. In no other section of the Union was the British element so strong as in New England, a fact strikingly in contrast with the conditions which prevail in that section at the present time.

In November, 1907, President Roosevelt issued an invitation to the Governors of the States and Territories of the Union to a conference with him on the subject of the Conservation of the Natural Resources of the country. The conference took place at the White House in Washington May 13, 14 and 15, 1908, and was attended by the Governors of thirty-seven States and Territories. (An account of the transactions of the conference was printed in *The WORLD ALMANAC* for 1909, pages 105-107.)

At the close of the conference, in an adjourned meeting, the Governors appointed a committee to arrange the time and place for a session of the Governors in a body of their own independently of the President. This committee, of which Governor Willson of Kentucky is chairman, has called for a re-meeting of the Governors at Washington on January 18, 19 and 20, 1910. The body thus convened is expected to adopt measures for annual and biennial sessions hereafter, under the probable title of the House of Governors, for the consideration of uniformity in legislation and laws as well as the conservation of the natural resources of the country.

To be coincident with this gathering of State and Territorial executives a meeting has been called for the National Civic Federation, in the following terms:

"Acting upon the suggestion of President Taft and Governor Willson of Kentucky, chairman of the Committee of Governors, appointed at the conference for the conservation of national resources, held at the White House in May, 1908, the conference on uniform legislation called by the National Civic Federation will be held in Washington, D. C., January 17, 18 and 19, 1910. The Governors will meet in Washington January 18, 19 and 20, so the interests of both conventions may be advanced by having them meet at the same time."

It is expected that about 1,000 delegates to this meeting of the National Civic Federation, to be named by the State Governors, will be present. Uniformity in laws will be the object of the meeting.

The Association of Life Insurance Presidents, an organization representing the great life insurance companies of the country, has also called a special meeting in Washington for January 19 and 20, to confer with the Governors, and other national bodies are expected to hold conventions there at the same time.

Movement for Free Trade.

THE ANTI-PROTECTION SENTIMENT TO BE CONSOLIDATED.

A DECLARATION for absolute freedom of trade between the United States and the whole world was made in 1909 in an address to the citizens of the country by a number of well known men who have been prominent in their opposition to the protection theory and its embodiment in the policy of the Government. The announcement of the movement was made through the Tariff Reform Committee of the Reform Club of New York, and was as follows:

TO THE CITIZENS OF THE UNITED STATES:

The apparent acceptance in some degree of the so-called Protective policy by the present Congressional representatives of both the political parties—the Republicans championing Protection with incidental revenue, and the Democrats urging revenue with incidental protection—might beget the impression that our nation contains no men who believe in the absolute and unconditioned freedom of trade between the peoples of the earth.

The undersigned, proclaiming themselves as Free-Traders, contend:

(1.) That Protection erects artificial barriers between nations, preventing that natural and healthful interchange of products which makes for increased comfort, for peace, and for the solidarity of mankind.

(2.) That Protection, by reducing the quantity of incoming foreign goods, reduces the buying-power represented by such goods, and consequently subtracts from the demand for merchandise and labor which would inevitably be fostered by the unrestricted freedom of exchange.

(3.) That Protection, in addition to lessening the demand for labor, and to a consequent reduction of wages, greatly increases the cost of necessities, thus becoming a powerful agent in dragging down the condition of our wage-earning classes.

(4.) That Protection has not only become the Mother of Trusts, but that, by stifling foreign competition, it has granted them a license to prey upon the community.

(5.) That Protection encourages extravagance in national expenditures, which, as they are paid by taxes on what the people consume, are in the main extracted from the pockets of the wage-earning and salaried classes.

(6.) That Protection, by its methods of indirection, cunningly disguises the incidence of taxation, and thus weakens that desirable interest in legislation and in government policies which direct taxation tends to develop.

(7.) That Protection, which is in effect a process of class-enrichment by legislative favor, is a festering source of political corruption.

(8.) That Protection, by engendering special over-production due to excessive profits and widespread under-consumption due to excessive prices, contributes to producing those panics which cause so much human waste and misery.

(9.) That Protection, by conferring on favored classes the right to tax their fellow citizens, and by the consequent unequal and inequitable distribution of the boundless wealth which is created by the energy and natural resources possessed by the American people, has generated resentments which express themselves by dangerous methods intended to wrench from its possessors a portion of the wealth which has been unjustly appropriated.

(10.) That Protection, by the swollen fortunes which it heaps up for its beneficiaries, and by the concentrated, selfish class-interests which it fosters, becomes so powerful through their ability and readiness to debauch public opinion by the expenditure of money, that it can never be dislodged until the great body of our people are brought to realize its wasteful, sinful, anti-social character.

Concurring in such views, the undersigned call on all fellow citizens who are in agreement therewith to join them in an effort to consolidate the Free-Trade sentiment of the nation. Such a consolidation will reveal the true economic opinion of at least a portion of our citizens, and will facilitate co-operation with the Free-Traders of other nations which are also suffering from the evils of a Protective policy.

Names and addresses should be forwarded without delay to any of the undersigned:
John Bigelow, 21 Gramercy Park, New York; Charles Francis Adams, India House, Boston, Mass.; James H. Dillard, 371 Audubon Street, New Orleans, La.; Louis R. Ehrlich, 50 West 77th Street, New York; Bolton Hall, 56 Pine Street, New York; Byron W. Holt, 54 Broad Street, New York; Tom L. Johnson, 2343 Euclid Avenue, Cleveland, Ohio; David Starr Jordan, Stanford University, California; George Foster Peabody, 2 Recor Street, New York; Louis F. Post, Ellsworth Building, Chicago, Ill.; William G. Sumner, Yale University, New Haven, Ct.; Charles D. Williams, 44 Campau Building, Detroit, Mich.

Record of Events in 1909.

- March 4.** William H. Taft was inaugurated President of the United States.
- March 25.** Austria's annexation of Bosnia and Herzegovina was recognized by Russia and later by other powers.
- March 31.** The United States evacuated Cuba.
- April 6.** Commander Peary reached the North Pole.
- April 27.** Revolution in Turkey. Mehmed V. succeeded Abdul Hamid, deposed, as Sultan of Turkey.
- June 1.** The Alaska-Yukon-Pacific Exposition opened at Seattle, closing October 17.
- July 21-Aug. 2.** Anti-Moorish war riots in Spain.
- July 16.** The Shah of Persia was dethroned and the Crown Prince made his successor.
- Aug. 5.** The new Tariff bill was signed by President Taft.
- Oct. 13.** Ferrer, Spanish revolutionist, was executed, causing widespread agitation in Europe.
- Oct. 16.** Presidents Taft and Diaz of Mexico met at El Paso, Texas.
- Dec. 1.** The United States took action against Nicaragua.
- Jan. 2. Widespread relief measures were begun for the sufferers by the recent earthquake in Sicily and Calabria, in which about 200,000 people were destroyed.
- Jan. 3. American battleship fleet reached Suez.
- Jan. 4. United States Supreme Court refused the Government a rehearing in the \$29,240,000 Standard Oil case.
- Jan. 9. Six night riders at Union City, Tenn., were sentenced to death.
- Jan. 10. Explosion in Leiter mine at Zeigler, Ill., killed 119 men.
- Jan. 11. Secretary Root and Ambassador Bryce signed a treaty providing for the settlement of points in dispute between United States and Canada.
- Jan. 12. Turkey accepted Austrian offer of \$10,800,000 compensation for Bosnia and Herzegovina.
- Jan. 12. The Tennessee Legislature passed a State-wide prohibition bill.
- Jan. 12. An explosion at Lick Branch, W. Va., colliery, buried 100 miners.
- Jan. 13. Prof. Lowell was chosen to succeed Dr. Elliot as President of Harvard University.
- Jan. 14. King Victor Emmanuel received Rear-Admiral Sperry, of the returning Atlantic battleship fleet.
- Jan. 18. Secretary Garfield announced the discovery of Western land frauds involving \$110,000,000.
- Jan. 19-20. The Edgar Allan Poe centenary was celebrated.
- Jan. 23. White Star steamship Republic was rammed in fog and sunk by steamship Florida off Nantucket Lightship, two passengers and four of crew being killed. The wireless on the Republic brought relief vessels.
- Jan. 25. Secretary of State Root resigned and Robert Bacon succeeded him.
- Jan. 25. President-elect Taft sailed from Charleston for Panama.
- Jan. 27. Secretary Root and Ambassador Bryce signed the Newfoundland Fisheries Treaty.
- Jan. 28. Jose Miguel Gomez was inaugurated President of Cuba.
- Feb. 3. Ispahan, Persia, was captured by the rebels.
- Feb. 6. The battleship Delaware, the largest war vessel yet constructed, was launched at Newport News.
- Feb. 6. The American battleship fleet left Gibraltar for Hampton Roads.
- Feb. 9. Germany and France signed an agreement on Moroccan affairs.
- Feb. 10. Electoral votes were counted by Congress and Taft and Sherman declared elected.
- Feb. 11. Chancellor von Buelow and Sir Charles Hardinge, in conference, adjusted the relations of Germany and Great Britain.
- Feb. 12. Centenary of the birth of Abraham Lincoln was widely celebrated.
- Feb. 12. The New York Academy of Science celebrated the one hundredth birthday of Charles Darwin.
- Feb. 13. The Turkish Grand Vizier resigned and the Cabinet was reorganized.
- Feb. 15. Theatre fire at Acapulco, Mexico, 350 persons were burned to death.
- Feb. 17. A tariff convention at Indianapolis demanded a permanent commission to adjust schedules.
- Feb. 18. The national conference on the conservation of the natural resources met at Washington.
- Feb. 20. The Grand Duke Vladimir of Russia died.
- Feb. 21. The American battleship fleet anchored in Hampton Roads and was reviewed the next day by President Roosevelt.
- Feb. 23. Patent agreement between United States and Germany was signed at Washington.
- Feb. 24. Thirty riotous suffragettes were arrested in London.
- Feb. 25. An international naval conference in London agreed on new code for naval warfare.
- Feb. 25. Dr. E. S. Bailey, of Chicago, announced the discovery of a substitute for radium.
- Feb. 26. Austria and Turkey signed a protocol settling the compensation for the annexation of Bosnia and Herzegovina.
- March 2. The President named a commission to investigate Liberian conditions.
- March 4. Presidential inauguration ceremonies at Washington, a great blizzard raging.
- March 6. Ex-President Castro was forbidden to re-enter Venezuela.
- March 7. The Italian general elections resulted in a victory for the Ministry.
- March 9. The Supreme Court of Missouri confirmed the decree ousting the Standard Oil Company from that State.
- March 13. Lieut. Joseph Petrosino, New York detective, was assassinated in Palermo, Sicily.
- March 15. Special session of Congress began.
- March 16. The President, in a message to Congress, urged the prompt revision of the tariff.
- March 16. A great strike of telegraph, telephone and postal employees prevailed in Paris.
- March 17. The new Tariff bill was introduced in the House by Mr. Payne.
- March 18. Russia and China reached a modus vivendi in the Harbin dispute.
- March 19. The French Chamber of Deputies, 368 to 211, sustained the Ministry against the demands of striking state employees.
- March 20. Col. Duncan B. Cooper and his son Robin were found guilty of killing Senator Carmack, of Tennessee, and sentenced to 20 years' imprisonment.
- March 23. Theodore Roosevelt sailed from New York for Africa.
- March 23. Governor Hughes dismissed the charges against District-Attorney Jerome of New York.
- March 23. Lieut. Shackleton, of the Brit-

RECORD OF EVENTS IN 1909—Continued.

- Ish Navy, reached New Zealand after having penetrated to within 111 miles of the South Pole.
- March 24. New Zealand offered a battleship to the British Imperial Navy.
- March 25. Russia recognized Austria's annexation of Bosnia and Herzegovina.
- March 25. Crown Prince George of Serbia renounced the succession to the throne.
- March 27. Centenary of Edward Fitzgerald's translation of the "Rubaiyat" was celebrated in England.
- March 29. Mrs. Mary H. Farmer was electrocuted at Auburn State Prison, New York.

At what age does one become "old"? Five centuries ago a man was old at fifty. But the hale and hearty gentleman of to-day who has just turned sixty would probably protest against being classed among old people, even if famous. That his susceptibilities may not be wounded, therefore, a separating dash has been discreetly introduced after age sixty-five.

The American Multi-Millionaires.

THE VANDERBILTS.

DESCENDANTS OF COMMODORE CORNELIUS VANDERBILT.
Born on Staten Island, N. Y., 1794; married, 1st, Sophia Johnson, 1818; 2d, Frances Crawford, 1869; died 1877.

Telephone Statistics.

THE following are the latest statistics made public by the American (Bell) Telephone and Telegraph Company. (See article on "Electrical Progress in 1909" in reference to other telephone companies.) The figures are for January 1 of each year:

	1907.	1908.	1909.		1907.	1908.	1909.
Exchanges and }.....				Miles of wire submarine.....	11,690	6,323	6,549
Branch offices }.....	4,889	5,103	5,043	Total miles of wire.....	6,007,732	6,946,511	8,098,679
Miles wire poles and }.....				Total circuits.....	1,334,175	1,541,737	1,668,211
Buildings.....	2,754,571	3,057,138	3,467,092	Total employes.....	90,324	88,274	98,533
Miles underground.....	3,241,471	3,883,051	4,635,047	Total stations.....	2,727,289	3,035,533	3,215,245

In addition to the total number of stations given in the table there were on January 1, 1909, 1,103,644 stations belonging to independent companies connected by agreement to the Bell toll line system, so that, adding also the telephones employed for private line purposes, there was a total of 4,364,629 stations connected with the Bell system.

The number of instruments in the hands of licensees under rental at the beginning of 1908 was 7,647,022. The number of exchange connections daily in the United States is 13,499,376, or a total per year of about 5,956,800,000. The average number of daily calls per subscriber is six. The capital stock and interest bearing obligations of the company and its associated company in the hands of the public on May 1, 1909, aggregated \$592,475,000.

The independent telephone companies of the country, which are owned and operated entirely apart from the Bell organization, are nearly all represented in the International Independent Telephone Association, which has its headquarters in the Monadnock Building, Chicago. There are about 15,000 of these companies, operating a reported aggregate of over 4,000,000 telephones. The capital invested is approximately \$400,000,000, the number of stockholders over 500,000, and the income is roughly estimated at about \$105,000,000 per annum. The independent companies, which are for the most part financed in the territories which they cover, are particularly strong throughout the middle and far West. They are established in nearly every large city in the United States.

No independent telephone company has yet succeeded in obtaining a foothold in New York City. The Public Service Telephone Company got so far, however, as to file an application with the Empire City Subway Company for space in its subways for telephone wires, claiming the right to such privilege under the franchise of the Longacre Light and Power Company, which it has acquired.

Telephone messages per annum (January 1, 1909): Austria, 163,280,000; Belgium, 88,067,000; Denmark, 148,524,300; Germany, 1,469,805,500; Great Britain, 987,941,300; France, 236,880,400; Netherlands, 92,928,000; Italy, 153,850,000; Spain, 23,868,700; Sweden, 463,700,000; Switzerland, 45,764,000; Hungary, 125,523,500; Norway, 102,940,000; United States—Bell companies, 6,105,893,000; independent companies, 3,000,000,000.

Federal Employees.

The grand total of all Federal employees, according to the Government Blue Book for 1909, was on July 1, 370,065. There were 28,947 persons in the Federal employ in Washington on July 1, the annual payroll for them being \$31,541,225, an average of nearly \$1,100 each.

The Panama Canal.

PROGRESS OF THE WORK IN 1909.

The year ending October 31, 1909, marks the period of greatest activity in the construction of the Panama Canal. For the year 1909 the total excavation amounted to 30,074,264 and in the last twelve months, or since the 1909 Almanac went to press, the total excavated has been 36,230,904 cubic yards. The first full year of the operation on the Canal under the direction of the army engineers, to the exclusion of all civil contractors, has been highly successful. The Chairman of the Isthmian Canal Commission, Col. George W. Goethals, now promises the definite completion of the Canal ready for use by the heaviest ships by January 1, 1915. The more optimistic have expressed the opinion that the Canal might be completed a year earlier. This would be against the Government's present policy, as with the excavation completed the structural work will be built with comparative deliberation, and furthermore, the fortifications at Cristobal and Balboa will hardly be completed before the summer of 1914, even by the exercise of the greatest amount of expedition by the engineers and ordnance officers. A commission has been selected by President Taft to visit the Isthmus and to report early in the Spring of 1910, before the adjournment of Congress, as to the size, type and number of the Canal defenses.

The present composition of the Canal Commission under the reorganization made effective seventeen months ago is as follows:

Chairman and Chief Engineer, Col. George W. Goethals; Assistant to the Chief Engineer, Lieut.-Col. H. F. Hodges; Division Chief Engineer, Central Division, Lieut.-Col. D. D. Gaillard; Chief Engineer, Atlantic Division, Lieut.-Col. William L. Sibert; Comm. H. H. Rousseau, Civil Engineer, U. S. N., Chief Engineer Pacific Division; Col. W. C. Gorgas, Chief Sanitary Officer; Hon. Joseph C. S. Blackburn, in charge of the Department of Civil Administration. The members of the Commission receive salaries of \$14,000 per annum, except the Chairman, who receives \$15,000.

TYPE OF CANAL.

The Canal will have a summit elevation of 85 feet above the sea, to be reached by a flight of three locks located at Gatun, on the Atlantic side, and by one lock at Pedro Miguel, and a flight of two at Miraflores, on the Pacific side; all these locks to be in duplicate—that is, to have two chambers, side by side. Each lock will have a usable length of 1,000 feet and a width of 110 feet. The summit level, extending from Gatun to Pedro Miguel, a distance of about 31.5 miles, is to be regulated between 82 and 87 feet above sea level by means of the spillway in the dam at Gatun. The Gatun Lake, which will have an area of 164.23 square miles, will be maintained by earth dams at Gatun and Pedro Miguel. The Chagres River and other streams will empty into this lake. A small lake, about two square miles in area, with a surface elevation of 55 feet, will be formed between Pedro Miguel and Miraflores, the valley of the Rio Grande being closed by an earth dam on the west side and a concrete dam with spillway on the east side at Miraflores.

The approaches from deep water to the Gatun locks on the Atlantic side, and from deep water to the locks at Miraflores on the Pacific side, will be sea level channels, about seven and eight miles in length, respectively, and each 500 feet wide, with the exception that for a distance of 4,000 feet north of the Gatun locks the channels will be 1,000 feet wide in order to form a waiting basin.

LENGTH, WIDTH AND DEPTH OF CANAL.

The Canal is to be about 50 miles in length from deep water in the Caribbean Sea to deep water in the Pacific Ocean. The distance from deep water to the shore line in Limon Bay is about 4½ miles, and from the Pacific shore line to deep water is about 5 miles; hence the length of the Canal from shore to shore will be approximately 40½ miles.

The channel from mile 0 in the Caribbean to a point 4,000 feet north of Gatun locks will be 500 feet wide; from this point to Gatun locks, 1,000 feet wide; from the south end of Gatun locks to mile 23.50, not less than 1,000 feet wide; from mile 23.50 to mile 26.50, 800 feet wide; from mile 25.50 to mile 27.00, 700 feet wide; from mile 27.00 to mile 31.25, 500 feet wide; from mile 31.25 to Pedro Miguel lock, (mile 39.36), 300 feet wide, and from Pedro Miguel lock to Miraflores locks, and from Miraflores locks to deep water in Panama Bay, 500 feet wide.

The average bottom width of the channel in this project is 640 feet, and the minimum width is 300 feet.

The Canal will have a minimum depth of 41 feet.

GATUN DAM.

The Gatun dam along the crest will be 7,200 feet long, including the spillway, or about 1.4 miles, and 1,900 feet wide at its greatest width.

The crest of the dam will be at an elevation of 115 feet above sea level, or 30 feet above the level of Gatun Lake, and 100 feet wide. The width of the dam at the normal water level of the lake, i. e., 85 feet above sea level, will be 375 feet.

The central part of the dam will be filled by hydraulic process protected by rock toes on both sides of the dam. The upper slope on the lake side of the dam will be further protected by 10 feet thickness of rock. The other parts of the dam will be filled with available material from Canal excavation.

LINE OF CANAL.

In entering the Canal from the Atlantic side a ship will proceed from deep water in Limon Bay to Gatun locks, a distance of about seven miles, through a channel 500 feet wide, except that for a distance of 4,000 feet north of the locks the channel will be 1,000 feet wide; passing into the locks, 6-10 of a mile in length, the ship will be carried up to an elevation of 85 feet above sea level in three lifts to the level of the water in Gatun Lake; thence for a distance of nearly 16 miles the channel will be 1,000 feet or more in width to San Pablo; from San Pablo to Juan Grande, 3.8 miles, the channel will be 800 feet wide; from Juan Grande to Obispo, 3.7 miles, the channel will be 500 feet wide, and it may be said that at this point navigation through the lake will be terminated, and the entrance to the Culebra Cut will begin; from Obispo to Pedro Miguel locks, a distance of about 8.2 miles, the channel will be 300 feet wide. Going through the Pedro Miguel lock and approaches, nearly 3-10 of

THE PANAMA CANAL--Continued.

a mile in total length, the vessel will be lowered to the level of Miraflores Lake, 55 feet above mean tide, through which there will be a channel 500 feet wide and 1.4 miles long to the Miraflores locks; thence through the two Miraflores locks, of a total length, including approach walls, of over 9.10 of a mile, the vessel will be lowered to tide level and proceed through a channel 500 feet wide and 8 miles long to deep water in the Pacific. It is estimated that the time required for the passage of a ship of medium size through the entire length of the Canal would be from 9½ to 10 hours, and for larger vessels from 10½ to 11 hours.

EXCAVATION BY THE FRENCH.

The amount of material taken out by the Old and New Panama Canal Companies was 81,548,000 cubic yards, of which it is estimated 40,000,000 cubic yards will be utilized in the adopted plan of canal.

TOTAL AMOUNT EXCAVATION.

The following is the estimated excavation required, May 4, 1904, based on the present plans for the lock canal:

	Prism.	Diver- sions, Etc.	Locks.	Dams.	Total.
Atlantic Division	36,205,125	1,732,882	5,139,304	43,077,310
Central Division	88,544,493	1,250,000	89,794,493
Pacific Division	86,534,599	5,015,459	244,733	41,794,781
	161,284,215	2,982,882	10,154,763	244,733	174,666,594

COMPARISON BETWEEN LOCK AND SEA LEVEL PROJECTS.

For the purpose of comparison, it may be stated that an estimate has been made from the latest available data which shows that the excavation required in the Canal prism for a sea level canal as of May 4, 1904, would be 319,146,000 cubic yards.

This estimate is for a sea level canal from the 41-foot contour in Limon Bay to the 45-foot contour in the Bay of Panama; the channel in Colon Harbor from the seaward end to Boca Mindi to be 500 feet wide on the bottom, and 41 feet deep; from Boca Mindi to near the Sosa tide lock, 150 feet wide on the bottom and 40 feet deep in earth and 200 feet wide on the bottom and 40 feet deep in rock; approach to the tide lock to be 300 feet wide and the channel from the tide lock to the 45-foot contour in Panama Bay, 300 feet wide. This plan includes a concrete dam at Gamboa and a twin tide lock at Sosa, with chambers 110 feet by 1,000 feet. The average width of channel in this project would be 218 feet and the minimum width 150 feet.

ESTIMATED COST OF LOCK CANAL UNDER CONSTRUCTION.

The cost estimated by the present Commission for completing the Canal is \$325,201,000, which includes \$20,053,000 for sanitation and \$7,382,000 for civil administration.

These figures do not include the \$50,000,000 paid to the New French Canal Company and to the Republic of Panama for property and franchises. Hence, it is estimated that the total cost of the Canal to the United States will approximate \$375,000,000.

TIME OF COMPLETION.

It is thought that the construction of the Canal will be completed by January 1, 1915

MATERIAL EXCAVATED BY THE UNITED STATES.

The amount of material excavated since the Americans took control on May 4, 1904, is as follows:

	Cubic yards.	Monthly Average.
May 4 to December 31, 1904.....	243,472	30,434
January 1 to December 31, 1905.....	1,799,227	149,936
January 1 to December 31, 1906.....	4,948,497	412,375
January 1 to December 31, 1907.....	15,765,290	1,313,774

Amount remaining to be excavated November 1, 1909.....		84,719,109

UNIT COST OF CANAL WORK.

Dry excavation for the first quarter of the fiscal year, 1908-1909, (July 1 to October 1, 1908), cost 63 cents per cubic yard for direct charges, and 12 cents per cubic yard for general administration, making a total of 75 cents. Dredging cost 9 cents per cubic yard for direct charges, and 2 cents per cubic yard for general administration. The average cost per cubic yard for excavation was 40 cents for the direct charges, and 8 cents for general administration, making a total of 48 cents as against an average cost of 57 cents for these two items for the last fiscal year, a reduction of about 15 per cent.

STEAM SHOVEL EQUIPMENT.

There are now on the Isthmus forty-eight 95-ton, forty-two 70-ton, ten 45-ton, and one 38-ton steam shovels, or a total of 101 steam shovels.

FORCE EMPLOYED.

In the month of September, 1909, there were approximately 44,000 employees on the Isthmus on the rolls of the Commission and of the Panama Railroad, about 5,000 of whom were Americans. There were actually at work on November 3, 1909, 35,311 men, 27,672 for the Commission, and 7,639 for the Panama Railroad Company. Of the 27,672 men working for the Commission, 4,512 were on the gold roll, which comprises those paid in United States currency, and 23,160 men on the silver roll, which comprises those paid on the basis of Panamanian currency or its equivalent. Those on the gold roll include mechanics, skilled artisans of all classes, clerks, and higher officials, most of whom are Americans; those on the silver roll include principally the common laborers, who are practically all foreigners. Of the 7,639 Panama Railroad employees, 874 were on the gold roll.

FINANCES OF THE CANAL.

Appropriations and expenditures to June 30, 1909:

RECEIPTS.

Appropriations by Congress:		
Purchase of Canal rights, June 28, 1902.....	\$40,000,000.00	
Purchase of Canal Zone rights, April 28, 1904.....	10,000,000.00	
Construction of Canal, June 28, 1902.....	10,000,000.00	
Construction of Canal, December 21, 1905.....	11,000,000.00	
Construction of Canal, February 27, 1906.....	5,990,786.00	
Construction of Canal, June 30, 1906.....	25,456,415.08	
Expenses in the United States.....	\$368,242.69	
Construction, Engineering and Administration.....	21,018,597.24	
Civil Administration.....	938,200.00	
Sanitation and Hospitals.....	2,101,435.15	
Re-equipment of Panama Railroad.....	1,000,000.00	
Construction of Canal, March 4, 1907.....		27,161,367.50
Expenses in the United States.....	253,000.00	
Construction, Engineering and Administration.....	20,366,000.00	
Civil Administration.....	825,000.00	
Sanitation and Hospitals.....	2,034,000.00	
Re-equipment of Panama Railroad.....	1,385,000.00	
Purchase of Panama Railroad Bonds.....	2,298,367.50	
Construction of Canal, February 15, 1908.....		12,178,900.00
Expenses in the United States.....	18,600.00	
Construction, Engineering and Administration.....	11,990,400.00	
Sanitation and Hospitals.....	169,900.00	
Construction of Canal, May 27, 1908.....		20,187,000.00
Expenses in the United States.....	176,000.00	
Construction, Engineering and Administration.....	23,450,000.00	
Civil Administration.....	241,000.00	
Sanitation and Hospitals.....	1,575,000.00	
Re-equipment of Panama Railroad.....	1,100,000.00	
Purchase of two ships for Panama Railroad Company.....	1,530,000.00	
Relocation of Panama Railroad.....	1,085,000.00	
Payment of P. B. Banton for injuries.....	10,000.00	
Construction of Canal, March 4, 1909—		
Construction, Engineering and Administration.....	5,485,000.00	
*Total appropriations to June 30, 1909.....	176,432,468.58	
Miscellaneous—		
Collections account sale of Government property, etc.....	4,235,141.50	
Rentals collected and returned to appropriations.....	264,393.76	
Collections for individuals and companies.....	1,856.73	
Total receipts.....		180,933,800.57

*In addition to the above appropriations, the Act of March 4, 1909, appropriated \$33,638,000.00 for the fiscal year ending June 30, 1910, making total appropriations by Congress to date \$210,070,468.58.

THE PANAMA CANAL—Continued.

DISBURSEMENTS.

Classified expenditures.....		\$106,795,058.88
Civil Administration.....	\$2,932,951.06	
Sanitation.....	8,741,715.40	
Construction and Engineering—Canal Construction.....	48,311,622.16	
Municipal improvements.....	6,520,917.98	
Cost of plant.....	40,287,851.78	
Rights of way and franchise.....		40,107,914.89
Rights acquired from Republic of Panama.....	10,000,000.00	
Rights acquired from New Panama Canal Company.....	39,107,914.89	
Payment to New Panama Canal Company..\$40,000,000.00		
Less value of French material sold or		
used in construction.....	892,085.11	
Panama Railroad Company stock purchased.....		157,118.24
Loans to Panama Railroad Company for re-equipment and redemption of bonds		4,009,596.03
Paid into U. S. Treasury for sale of Government property, interest on loans, etc.		3,572,141.50
Services rendered and material sold to individuals and companies.....		2,764,001.30
Unclassified expenditures.....		4,877,072.36
Material and supplies.....	4,813,158.37	
Other unclassified items.....	63,913.99	
Advances to laborers for their transportation.....		48,783.26
Bills collectible outstanding.....		517,535.79
Total.....		171,849,271.75
Less amounts included above, but unpaid on June 30, 1909.....		1,694,355.70
Salaries and wages unpaid June 30, 1909.....	181,291.08	
Pay rolls for the month of June, 1909.....	1,513,064.62	
Total disbursements to June 30, 1909.....		170,154,916.05
Balance available June 30, 1909.....		10,778,944.52
Congressional appropriations.....	10,114,087.79	
Miscellaneous receipts of United States funds.....	663,000.00	
Collections from employees account individuals and companies.....	1,856.73	
		\$180,933,860.57

Cost of Maintaining Armies and Navies.

The net cost of the British Army and its operations, according to estimates for 1908-09, will amount to \$137,295,000. The estimates for the Navy for 1910 are placed at \$100,117,517. The United States Army budget for 1908-09 amounted to \$95,935,862, not including the expenditure by the several States on their National Guard or the enormous sums paid for pensions to ex-volunteers. The Navy estimates for 1908-09 were \$124,794,793. The military expenditure of the German Empire entered in the budget for 1909-10 amounts to \$221,500,000. The German naval estimates for 1909-10 amount to \$83,000,000, more than twice the Navy estimates of 1899 and 1900. The military budget of France for 1909 shows an estimated expenditure of nearly \$28,000,000 for the metropolitan army, \$7,160,000 for the colonial troops in France and \$13,250,000 for "new construction." The Navy estimate for 1909 amounted to \$66,580,000. Italy during 1910 expects to spend \$31,927,200 on her Navy. The military budget for this country for 1908-09 amounted to \$55,000,000. The military budget of Russia, ordinary and extraordinary, amounted in 1908 to \$253,750,000. The Russian Navy estimates for 1908-09 are nearly \$49,000,000. The Navy estimate of Austro-Hungary for 1909 is \$13,295,650. The annual military expenditures of Japan since the augmentation of the Army following the war has been between \$35,000,000 and \$40,000,000, and this is increasing. The Naval estimates for 1909-10 amount to \$37,450,000.

DISTANCE PROJECTILES HAVE BEEN THROWN FROM WARSHIPS
OR COAST-DEFENSE GUNS.

THE following table will show the range of guns on board warships at an elevation of 15 degrees, which is, on board ship, the highest projectile range:

Size of Gun.	Distance projectile will be thrown.	Size of Gun.	Distance projectile will be thrown.
3 inch	4.80 miles	7 inch	7.70 miles
4 inch	6.00 miles	8 inch	10.00 miles
5 inch	6.25 miles	10 inch	10.80 miles
6 inch	6.80 miles	12 inch	12.00 miles

All these guns have been fired, and, in a number of instances, the projectile has gone slightly further than indicated above.

The 16-inch gun at Sandy Hook, which is the largest and, in fact, the only gun of this character in the Army, has a muzzle velocity of 2,150 feet per second. Computations indicate that, under the most favorable conditions as to elevation, it would throw a projectile weighing 2,400 pounds a distance of about 21 miles.

The 12-inch rifle of the Army has a muzzle velocity of 2,250 feet per second, and will throw a projectile weighing 1,046 pounds about 8.5 miles at the extreme elevation permitted by the carriage.

NAVY RECRUITING SERVICE.

On November 15, 1909, an information bureau was opened where full information regarding pay, opportunities, etc., of service in the United States Navy can be obtained. Inquiries from all parts of the United States, addressed to the "Navy Recruiting Station, Information Department, No. 130 Maubatan Street, New York City," will be answered by an officer of the Navy.

Insular Possessions of the United States.**THE PHILIPPINES.**

THE Philippine group, lying off the southern coast of Asia, between longitude 120 and 130 and latitude 5 and 20 approximately, number about 2,000 islands, great and small, in a land and sea area of 1,200 miles of latitude and 2,400 miles of longitude. The actual land area is about 140,000 miles. The six New England States, New York, and New Jersey have about an equivalent area. The island of Luzon, on which the capital city (Manila) is situated, is the largest member of the group, being about the size of the State of New York. Mindanao is nearly as large, but its population is very much smaller. The latest estimates of areas of the largest islands are: Luzon, 44,400; Mindanao, 34,000; Samar, 4,800; Panay, 4,700; Mindoro, 4,000; Leyte, 3,800; Negros, 3,300; Cebu, 2,400.

A census of the Philippines was taken by the United States Government in 1903 under the auspices of the Census Office. The population returned was 7,635,426. Of this number almost seven million are more or less civilized. The wild tribes form about 9 per cent. of the entire population. Racially the inhabitants are principally Malays. The civilized tribes are practically all adherents of the Catholic Church, the religion being that introduced into the country by the Spaniards when they took possession of the islands in 1565. The Church has since then been a strong ruling power and the priesthood is numerous. The Moros are Mohammedans and the other wild peoples have no recognized religious beliefs. The total number of non-Christian peoples is 647,740.

The density of population in the Philippines is 67 per square mile. In Continental United States it is 26 per square mile. Foreigners number about 50,000, of whom nearly three-fourths are Chinese. Exclusive of the Army there are 8,135 Americans in the islands, nearly one-half being located in the municipalities. There are thirty different races in the islands, all speaking distinct dialects, the largest tribe being the Visayans, who form nearly one-fourth of the entire civilized population. The Tagalogs, occupying the provinces in the vicinity of Manila, rank second in numbers, and the Ilocanos the third. Education has been practically reorganized by the Americans. The number of persons attending school is 811,715. Six thousand teachers are employed, four-fifths of whom are Filipinos. English is very generally taught, and the next generation of Filipinos will probably speak that tongue. Pauperism is almost unknown in the islands. In 1902 there were only 1,668 paupers maintained at public charge. The average normal death rate in the Philippines is 32 per thousand. The birth rate is 43 per thousand. There were in 1902 41 newspapers published, 12 being in English, 24 in Spanish, 4 in native dialects, and 1 in Chinese. The estimated real estate property value is 469,527,053 pesos, and the personal property 152,716,661 pesos. The reported value of church buildings, mostly Catholic, is 41,698,710 pesos. While there are four towns with more than 10,000 population Manila is the only incorporated city. Its inhabitants numbered 219,928 in 1902. There were 723 miles of railway in January, 1909.

The climate is one of the best in the tropics. The islands extend from 5° to 21° north latitude, and Manila is in 14° 35'. The thermometer during July and August rarely goes below 79° or above 85°. The extreme ranges in a year are said to be 61° and 97°, and the annual mean 81°.

AGRICULTURE.

Although agriculture is the chief occupation of the Filipinos, yet only one-ninth of the surface is under cultivation. The soil is very fertile, and even after deducting the mountainous areas it is probable that the area of cultivation can be very largely extended and that the islands can support population equal to that of Japan (42,000,000).

The chief products are hemp, rice, corn, sugar, tobacco, coconuts, and cacao, hemp being the most important commercial product and constituting two-thirds of the value of all exports. Coffee and cotton were formerly produced in large quantities—the former for export and the latter for home consumption; but the coffee plant has been almost exterminated by insects and the home-made cotton cloths have been driven out by the competition of those imported from England. The rice and corn are principally produced in Luzon and Mindoro and are consumed in the islands. The cacao is raised in the southern islands, the best quality of it at Mindanao. The sugar cane is raised in the Visayas. The hemp is produced in Southern Luzon, Mindoro, the Visayas, and Mindanao. It is nearly all exported in bales. Tobacco is raised in all the islands.

IMPORTS AND EXPORTS.

In the year ending June 30, 1909, the exports of merchandise from the United States to the Philippines were \$11,182,175, and the total imports from the Philippines for the same period were \$9,433,986.

The imports of merchandise from foreign countries, year ending June 30, 1908, were \$23,500,000, and the exports were \$21,600,000. The principal foreign countries trading with the Philippines are Great Britain, French East Indies, China, and Spain.

CIVIL GOVERNMENT FOR THE PHILIPPINES.

On July 1, 1902, Congress passed (chapter 1369) "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands and for other purposes." Under this act complete civil government was established in the Archipelago and the office of Military Governor was terminated. Wm. H. Taft was appointed Governor by the President. Governor Taft was succeeded by Luke E. Wright in Dec., 1903, by Henry Clay Ide in 1905, James F. Smith in 1906, and W. Cameron Forbes, the present Governor, in 1909. The government was composed of a civil Governor and seven commissioners, of whom four were Americans and three Filipinos. By act of Congress approved May 11, 1908, the Commission was increased by one member, to be appointed by the President, making the Commission nine members in all, including the Governor. There were four executive departments—Interior, Finance, and Justice, Commerce and Police, and Public Instruction. There are thirty-nine provinces, each with a Governor, a Supreme Court with seven judges, and fourteen judicial districts. In March, 1907, the President, in accordance with the act of Congress, directed the Commission to call a general election of delegates to a Philippine Assembly. The new Assembly was chosen July 20, and was opened October 16 by Secretary of War Taft. It was politically divided as follows: Nacionalists, 31; Progresistas, 16; Independents, 19; Inmediatistas, 7; Independistas, 4; Nacional Independiente, 1; Católico, 1. The total vote recorded at the election for delegates was 97,803, which is only 1.4 per cent. of the population. At the first session of the Sixty-first Congress an act was passed and approved August 5, 1909, readjusting the customs duties on imports from all countries, including the United States, on the basis generally of reductions.

PORTO RICO.

The island of Porto Rico, over which the flag of the United States was raised in token of formal possession on October 18, 1898, is the most eastern of the Greater Antilles in the West Indies and is separated on the east from the Danish island of St. Thomas by a distance of about fifty miles, and from Hayti on the west by the Mona passage, seventy miles wide. Distances from San Juan, the capital, to important points are as follows: New York, 1,411 miles; Charleston, S. C., 1,200 miles; Key West, Fla., 1,050 miles; Havana, 1,000 miles.

INSULAR POSSESSIONS OF THE UNITED STATES—*Continued.*

The island is a parallelogram in general outline, 108 miles from the east to the west, and from 37 to 43 miles across, the area being about 3,600 square miles, or somewhat less than half that of the State of New Jersey (Delaware has 2,050 square miles and Connecticut 4,990 square miles). The population according to an enumeration made by the United States Government in 1900 showed a population of 953,243, of whom 589,426 are white and 363,817 are colored. The density was 26.4 to the square mile; 83.2 per cent. of the population cannot read.

Porto Rico is unusually fertile, and its dominant industries are agriculture and lumbering. In elevated regions the vegetation of the temperate zone is not unknown. There are more than 500 varieties of trees found in the forests, and the plains are full of palm, orange, and other trees. The principal crops are sugar, coffee, tobacco, and maize, but oranges, bananas, rice, pineapples, and many other fruits are important products. The largest article of export from Porto Rico is sugar. The next largest is tobacco. The other exports in order of amount are coffee, fruits, molasses, cattle, timber, and hides.

The principal minerals found in Porto Rico are gold, carbonates, and sulphides of copper and magnetic oxide of iron in large quantities. Lignite is found at Utuado and Moca, and also yellow amber. A large variety of marbles, limestones, and other building stones are deposited on the island, but these resources are very undeveloped. There are salt works at Guanica and Salina on the south coast, and at Cape Rojo on the west, and these constitute the principal mineral industry in Porto Rico.

The principal cities are Mayaguez, with 15,187, Ponce, 27,952 inhabitants; and San Juan, the capital, with 32,048. The shipments of domestic merchandise from the United States to Porto Rico, year ending June 30, 1909, were \$23,618,545. The exports of domestic merchandise to the United States were \$26,334,312. The foreign trade, year ending June 30, 1909, was: Imports, \$3,500,000; exports, \$4,900,000.

An act providing for a civil government for Porto Rico was passed by the Fifty-sixth Congress and received the assent of the President April 12, 1900. A statement of its provisions was printed in *THE WORLD ALMANAC* for 1901, pages 92 and 93. President Roosevelt in his message to Congress in December, 1906, recommended the granting of United States citizenship to the Porto Ricans.

Under this act a civil government was established, which went into effect May 1, 1900. There are two legislative chambers, the Executive Council, or "Upper House," composed of the Government Secretary, Attorney-General, Treasurer, Auditor, Commissioner of the Interior, and Commissioner of Education, and five citizens appointed by the President, and the House of Delegates, or "Lower House," consisting of 35 members, elected by the people. The island is represented near the Congress of the United States by a Resident Commissioner.

GUAM.

The island of Guam, the largest of the Marianas or Ladrone Archipelago, was ceded by Spain to the United States by Article 2 of the Treaty of Peace, concluded at Paris December 10, 1898. It lies in a direct line from San Francisco to the southern part of the Philippines, and is 5,200 miles from San Francisco and 900 miles from Manila. It is about 32 miles long and 100 miles in circumference, and has a population of about 8,661, of whom 5,249 are in Agana, the capital. The inhabitants are mostly immigrants or descendants of immigrants from the Philippines, the original race of the Ladrone Islands being extinct. The prevailing language is Spanish. Nine-tenths of the islanders can read and write. The island is thickly wooded, well watered, and fertile, and possesses an excellent harbor. The productions are tropical fruits, cacao, rice, corn, tobacco, and sugar cane.

Commander Taussig, of the United States gunboat *Bennington*, took possession of the island and raised the United States flag over Fort Santa Cruz on February 1, 1899.

TUTUILA.

Tutuila, the Samoan island which, with its attendant islets of Tau, Olesinga, and Ofu, became a possession of the United States by virtue of the tri-partite treaty with Great Britain and Germany in 1899, covers, according to the Bureau of Statistics of the Treasury Department, fifty-four square miles, and has 5,800 inhabitants. It possesses the most valuable island harbor, Pago-Pago, in the South Pacific, and perhaps in the entire Pacific Ocean. Commercially the island is unimportant at present, but is extremely valuable in its relations to the commerce of any nation desiring to cultivate transpacific commerce.

Ex-Chief Justice Chambers, of Samoa, says of Pago-Pago that "The harbor could hold the entire naval force of the United States, and is so perfectly arranged that only two vessels can enter at the same time. The coaling station, being surrounded by high bluffs, cannot be reached by shells from outside." The Government is increasing the capacity to 10,000 tons.

The Samoan Islands, in the South Pacific, are fourteen in number, and lie in a direct line drawn from San Francisco to Auckland, New Zealand. They are 4,000 miles from San Francisco, 2,200 miles from Hawaii, 1,900 miles from Auckland, 2,000 miles from Sydney, and 4,200 miles from Manila. Germany governs all the group except the part owned by the United States. The inhabitants are native Polynesians and Christians of different denominations.

WAKE AND OTHER ISLANDS.

The United States flag was hoisted over Wake Island in January, 1899, by Commander Taussig, of the *Bennington*, while proceeding to Guam. It is a small island in the direct route from Hawaii to Hong Kong, about 2,000 miles from the first and 3,000 miles from the second.

The United States possesses a number of scattered small islands in the Pacific Ocean, some hardly more than rocks or coral reefs, over which the flag has been hoisted from time to time. They are of little present value and mostly uninhabited. The largest are Christmas, Gallies, Starbuck, Penrhyn, Phoenix, Palmyra, Howland, Baker, Johnston, Gardner, Midway, Morell, and Marcus islands. The Midway Islands are occupied by a colony of telegraphers in charge of the relay in the cable line connecting the Philippines with the United States and a camp of United States marines, in all about forty persons.

The Santa Barbara group is a part of California and the Aleutian chain, extending from the peninsula of Kamchatka in Asiatic Russia to the promontory in North America which separates Behring Sea from the North Pacific, a part of Alaska.

HAWAII.

Hawaii was annexed to the United States by joint resolution of Congress July 7, 1898. A bill to create Hawaii a Territory of the United States was passed by Congress and approved April 30, 1900.

The area of the several islands of the Hawaiian group is as follows: Hawaii, 4,210 square miles; Maui, 760; Oahu, 600; Kauai, 590; Molokai, 270; Lanai 150; Nihoa, 97; Kahoolawe, 63. Total, 6,740 square miles.

At the time of the discovery of the islands by Captain Cook in 1778 the native population was about 200,000. This has steadily decreased, so that at the last census the natives numbered but 31,019,

INSULAR POSSESSIONS OF THE UNITED STATES—Continued.

which was less than that of the Japanese and Chinese immigrants settled in the islands. A census taken early in 1837 revealed a total population of 109,020, distributed according to race as follows:

	Males.	Females.	Total.		Males.	Females.	Total.
Hawaiians.....	16,399	14,620	31,019	Portuguese.....	8,202	6,898	15,100
Part Hawaiians.....	4,249	4,236	8,485	Americans.....	1,975	1,111	3,086
Japanese.....	19,212	5,195	24,407	British.....	1,406	844	2,250
Chinese.....	19,167	2,449	21,616				

The remainder were Germans, French, Norwegians, South Sea Islanders, and representatives of other nationalities. The American population was 2.73 per cent. of the whole. The American population has increased since annexation.

The first United States census of the islands was taken in 1900 with the following result: Hawaii Island, 46,843; Kauai Island, 20,532; Niihau Island, 172; Maui Island, 25,416; Molokai Island and Lanai Island, 2,504; Oahu Island, 58,504. Total of the Territory, 154,001. The population of the City of Honolulu is 39,306.

The exports from Hawaii to the United States in the twelve months ending June 30, 1909, were valued at \$40,436,595. The imports into Hawaii from the United States for the same period were valued at \$17,133,342. The imports from foreign countries for the same period were \$4,700,000, exports \$620,000.

The new Territorial Government was inaugurated at Honolulu June 14, 1900, and the first Territorial Legislature began its sessions at Honolulu February 29, 1901. The Legislature is composed of two houses—the Senate of fifteen members, holding office four years, and the House of Representatives of thirty members, holding office two years. The Legislature meets biennially, and sessions are limited to sixty days.

The Executive power is lodged in a Governor, a Secretary, both appointed by the President, and hold office four years, and the following officials appointed by the Governor, by and with the consent of the Senate of Hawaii. An Attorney-General, Treasurer, Commissioner of Public Lands, Commissioner of Agriculture and Forestry, Superintendent of Public Works, Superintendent of Public Instruction, Auditor and Deputy, Surveyor, High Sheriff, and members of the Boards of Health, Public Instruction, Prison Inspectors, etc. They hold office for four years, and must be citizens of Hawaii.

The Judiciary of the Territory is composed of the Supreme Court, with three Judges, the Circuit Court, and such inferior courts as the Legislature may establish. The Judges are appointed by the President. The Territory is a Federal Judicial District, with a District Judge, District-Attorney, and Marshal, all appointed by the President. The District Judge has all the powers of a Circuit Judge.

The Territory is represented in Congress by a delegate, who is elected biennially by the people. Provision is made in the act creating the Territory for the residence of Chinese in the Territory, and prohibition as laborers to enter the United States.

Territorial Expansion of the United States.

THERE have been thirteen additions to the original territory of the Union, including Alaska, the Hawaiian, Philippine, and Samoan Islands and Guam, in the Pacific, and Porto Rico and Pine Islands, in the West Indies, and the Panama Canal zone; and the total area of the United States, including the noncontiguous territory, is now fully five times that of the original thirteen colonies.

The additions to the territory of the United States subsequent to the peace treaty with Great Britain of 1783 are shown by the following table, prepared by the United States General Land Office:

ADDITIONS TO THE TERRITORY OF THE UNITED STATES FROM 1800 TO 1900.

TERRITORIAL DIVISION.	Year.	Area Added.	Purchase Price.	TERRITORIAL DIVISION.	Year.	Area Added.	Purchase Price.
		S. Miles.	Dollars.			S. Miles.	Dollars.
Louisiana purchase.....	1803	875,025	15,000,000	Porto Rico.....	1898	3,600
Florida.....	1819	70,107	5,499,768	Pine Islands (W. Indies)	1898	882
Texas.....	1845	889,795	Guam.....	1898	175
Oregon Territory.....	1846	288,869	Philippine Islands.....	1899	143,000	20,000,000
Mexican cession.....	1848	523,802	*18,250,000	Samoan Islands.....	1899	73
Purchase from Texas.....	1850	†	10,000,000	Additional Philippines...	1901	68	100,000
Gadsden purchase.....	1853	36,211	10,000,000	Total.....	..	2,937,613	87,039,768
Alaska.....	1867	599,446	7,200,000				
Hawaiian Islands.....	1897	6,740				

*Of which \$3,250,000 was in payment of claims of American citizens against Mexico. † Area purchased from Texas amounting to 123,784 square miles is not included in the column of area added, because it became a part of the area of the United States with the admission of Texas.

ACQUISITION OF THE PANAMA CANAL ZONE IN 1904.

Article 2 of the treaty between the United States and the Republic of Panama, ratified by the United States Senate February 23, 1904, treaty in effect February 26, 1904, provided for the cession, in perpetuity, by Panama, of a strip of territory adjacent to the canal, as follows:

"The Republic of Panama grants to the United States in perpetuity the use, occupation, and control of the zone of land and land under water for the construction, maintenance, operation, sanitation, and protection of said canal of the width of ten miles, extending to the distance of five miles on each side of the centre line of the route of the canal to be constructed; the said zone beginning in the Caribbean Sea, three marine miles from mean low-water mark, and extending to and across the Isthmus of Panama into the Pacific Ocean to a distance of three marine miles from mean low-water mark, with the proviso that the cities of Panama and Colon and the harbors adjacent to said cities, which are included within the boundaries of the zone above described, shall not be included within this grant. The Republic of Panama further grants to the United States in perpetuity the use, occupation, and control of any other lands and waters outside of the zone above described which may be necessary and convenient for the construction, maintenance, operation, sanitation, and protection of the said canal or of any auxiliary canals or other work necessary and convenient for the construction, maintenance, operation, sanitation, and protection of the said enterprise. The Republic of Panama further grants to the United States in perpetuity the use, occupation, and control of all islands within the limits of the zone above described, and in addition thereto the group of small islands in the Bay of Panama named Perico, Nacs, Culebra, and Flamingo."

Census of Cuba.

A CENSUS of Cuba was taken by the United States Provisional Government in 1907, under the direction of Victor H. Olmstead, of the Department of Agriculture, at Washington. The results, of which the following is an abstract, were published in Spanish and English in 1909.

In 1907 Cuba had a population of 2,048,980, an increase from 1899 of 476,183, or 30.3 per cent. The population of the provinces of Cuba was as follows:

Habana.....	538,010	Pinar del Rio.....	240,372
Santa Clara.....	457,431	Matanzas.....	239,812
Oriente.....	455,086	Camaguey.....	118,269

Over half of the population lived in the rural districts, the 134 towns and cities containing 899,667 inhabitants, or 43.9 per cent. of the total. The population of the six large cities was as follows:

Habana.....	297,159	Cienfuegos.....	30,100
Santiago de Cuba.....	45,470	Camaguey.....	29,616
Matanzas.....	36,009	Cardenas.....	24,280

The area of Cuba is 44,164 square miles and the density of population in 1907 was 46.4 per square mile. Males were more numerous than females, the numbers being 1,074,882 and 974,093, respectively.

Of the total population, 1,369,476, or 66.8 per cent., were single or divorced; 423,537, or 20.7 per cent., were married; 176,509, or 8.6 per cent., were consensually married; and 79,458, or 3.9 per cent., were widowed. The average number of persons to a family was 4.8.

In 1907 over two-thirds 1,428,176, or 69.7 per cent., of the inhabitants were white. The colored population was composed of 274,272 negroes, 334,695 mixed, and 11,837 Chinese. Of the whites, 1,224,539 were native and 203,637 foreign born. Of the latter class, Spain contributed 185,393 and the United States 6,713.

Of the total population, 1,780,628, or 86.9 per cent., were of Cuban and 228,138, or 11.1 per cent., of Spanish citizenship. Of the 551,639 males of voting age, 430,514 were Cuban citizens, and of these, 212,930, or less than one-half, were literate, while 217,584 were illiterate; among those of other citizenship the proportion of literates was much greater, 89,217 being literate and 31,908 illiterate. Among the white males of voting age the literates were in the majority, the numbers being 161,742 literates and 130,944 illiterates for Cuban citizens, and 84,937 literates and 23,056 illiterates for all the others.

Almost one-third, 171,017, or 31.6 per cent., of the children attended school; the corresponding percentage for 1899 was only 15.7. In the six large cities 55,336, or 49.9 per cent. of those of school age, attended school.

Of the population at least ten years of age, 837,958, or 56.6 per cent., could read. For the large cities the percentage was 82.6; for the rest of Cuba it was 47.9.

In 1907, 772,502 persons were engaged in gainful occupations. The 698,982 male breadwinners formed 65 per cent. of all the males, while the 73,520 females gainfully employed formed 7.5 per cent. of all the females. Of the wage-earners, 374,969, or 48.5 per cent., were engaged in agriculture, fishing, and mining; 136,419, or 17.6 per cent., in trade and transportation; 126,021, or 16.3 per cent., in manufacturing and mechanical pursuits; 122,238, or 16 per cent., in domestic and personal service; and 12,805, or 1.6 per cent., in professional service.

There was a decided increase in the foreign commerce of the island between 1899 and 1907. The value of the imports increased from \$75,303,612 to \$97,334,195, or 29.3 per cent., and the value of the exports from \$49,698,772 to \$114,812,846, or 131 per cent. The principal trade has been with the United States, which during the nine years supplied from two-fifths to almost one-half of the imports, and received from two-thirds to over seven-eighths of the exports. The United States takes practically all the exports of sugar, fruit, and minerals, and more than nine-tenths of the raw tobacco. Trade with Spain has fallen off greatly.

In 1907 the values of the principal imports and exports were as follows: Imports—cereals, \$11,060,270; meats, \$9,463,514; cotton and its manufactures, \$8,039,614; and iron and steel \$5,484,378. Exports—raw and refined sugar, \$69,554,419; and manufactured and unmanufactured tobacco, \$28,913,443.

State Flowers.

THE following are "State Flowers," as adopted in most instances by the vote of the public school scholars of the respective States:

Alabama.....	Golden Rod	Michigan.....	Apple Blossom
Alaska.....	Forget-me-not	Minnesota.....	Moccasin
Arkansas.....	Apple Blossom	Mississippi.....	Magnolia
California.....	California Poppy (Eschscholtzia)	Missouri.....	Golden Rod
Colorado.....	Columbine	Montana.....	Bitter Root
Connecticut.....	Mountain Laurel	Nebraska.....	*Golden Rod
Delaware.....	Peach Blossom	New York.....	Rose
Florida.....	Orange Blossoms	North Dakota.....	Wild Rose
Idaho.....	Syringa	Ohio.....	Scarlet Carnation
Illinois.....	*Violet	Oklahoma.....	Mistletoe
Indiana.....	Corn	Oregon.....	Oregon Grape
Iowa.....	Rose	Rhode Island.....	Violet
Kansas.....	Sunflower	South Dakota.....	Anemone Patens
Kentucky.....	Trumpet Flower	Texas.....	Blue Bonnet
Louisiana.....	Magnolia	Vermont.....	Red Clover
Maine.....	Pine Cone and Tassel	Washington.....	Rhododendron
Maryland.....	Golden Rod	West Virginia.....	Rhododendron

In other States the scholars or State Legislatures have not yet taken action.

* Adopted by State Legislature, not by public school scholars.

In England the primrose is worn on the birthday of Lord Beaconsfield. On the anniversary of Parnell's death his followers wear a sprig of ivy. The Jacobites wear white roses on June 10. In France the Orleanists wear white daisies and the Bonapartists the violet.

Permanent Court of Arbitration of The Hague,

**PROVIDED FOR BY THE CONVENTION SIGNED AT THE
HAQUE JULY 29, 1899.**

PRESENT MEMBERS.

Argentine Republic—Mr. Estanislao S. Zeballos, LL. D., Minister for Foreign Affairs and Religion.
Mr. Roque Saenz Pena, LL. D., Envoy Extraordinary and Minister Plenipotentiary at Rome and at Berne.
Mr. Luis Maria Drago, LL. D., formerly Minister for Foreign Affairs and Religion, Deputy.
Mr. Carlos Rodriguez Larreta, LL. D., formerly Minister for Foreign Affairs and Religion.

Austria-Hungary—Count Albert Apponyi, Privy Councilor, Minister of Public Worship and Instruction of Hungary.
Mr. Henri Lammasch, LL. D., Aulic Councilor, Member of the House of Lords of the Austrian Parliament.
His Excellency Albert de Berzeviczy, Privy Councilor, Minister of Public Worship and Instruction of Hungary.
Ernest de Plener, LL. D., Privy Councilor, President of the Supreme Court of Accounts.

Belgium—His Excellency Mr. Beernaert, Minister of State.
Baron Descamps, Minister of Sciences and Arts.
Mr. Ernest Nis, Counselor of the Court of Appeals of Brussels.
Mr. Arendt, Director-General of the Ministry of Foreign Affairs.

Bolivia—Mr. Eliodoro Villazon, LL. D., Vice-President of Bolivia, Envoy Extraordinary and Minister Plenipotentiary at Buenos Aires.
Mr. Severo Fernandez Alonso, LL. D., formerly President of Bolivia.
Mr. Claudio Pihlla, LL. D., Minister for Foreign Affairs.
Mr. Emeterio Cano, LL. D., Minister Plenipotentiary at Asuncion.

Brazil—His Excellency Mr. Lafayette Rodrigues Pereira, LL. D., formerly President of the late Imperial Council of Ministers.
His Excellency Mr. Ruy Barbosa, LL. D., Senator, formerly Ambassador.
His Excellency Mr. Joaquim Aurelio Nabuco de Araujo, Ambassador at Washington.
Mr. Clevis Bevilacqua, Jurisconsulte of the Ministry for Foreign Affairs.

Bulgaria—Mr. Stoyan Daneff, LL. D., formerly President of the Council of Ministers and Minister for Foreign Affairs.
Mr. Dimitri Stancioff, LL. D., formerly Minister for Foreign Affairs, Minister Plenipotentiary at Paris.

Chile—Mr. Carlos Concha, LL. D., formerly Minister of War and Marine.
Mr. Jose Francisco Vergara Donoso, LL. D., formerly Minister for Foreign Affairs.
Mr. Miguel Cruzaga, LL. D., formerly President of the Council, Envoy Extraordinary and Minister Plenipotentiary at Buenos Aires.
Mr. Alejandro Alvarez, LL. D., Technical Adviser to the Ministry for Foreign Affairs.

China—His Excellency Wu Ting-fang, Envoy Extraordinary and Minister Plenipotentiary to the United States of America, formerly Imperial Commissioner for the Revision of Laws.

Colombia—Gen. Jorge Holguin, Publicist, formerly Minister for Foreign Affairs, Financial Delegate in Europe.
General Marcellano Vargas, Minister of the Interior.
Mr. Marcelino Hurtado, Envoy Extraordinary and Minister Plenipotentiary at Rome.
Mr. Felipe Diaz Erazo, Counselor of Legation at Paris.

Cuba—Mr. Antonio Sanchez de Eustamante, LL. D., Senator, Professor of International Public and Private Law at the University of Habana.
Mr. Gonzalo de Quesada, formerly Envoy Extraordinary and Minister Plenipotentiary at Washington.
Mr. Manuel Sanguily, Senator.
Mr. Juan B. Hernandez Barreiro, LL. D., President of the Supreme Tribunal of the Republic.

Denmark—Prof. Henning Matzen, LL. D., Professor of the University of Copenhagen, Counselor Extraordinary of the Supreme Court.

Dominican Republic—Mr. Apolinar Tejera, Rector of the Professional Institute of Santo Domingo.
Mr. Francisco Henriquez I. Carvajal, formerly Minister for Foreign Affairs.
Mr. Rafael J. Castillo, LL. D., President of the Supreme Court of Justice.
Mr. Eliseo Grullon, formerly Minister for Foreign Affairs.

Ecuador—Mr. Luis Felipe Carbo, Envoy Extraordinary and Minister Plenipotentiary at Washington.
Mr. Honorato Vasquez, LL. D., Under Secretary of State at the Department for Public Instruction and Foreign Affairs, Envoy Extraordinary and Minister Plenipotentiary at Lima and Madrid.
Mr. Victor Manuel Rendon, Envoy Extraordinary and Minister Plenipotentiary at Paris and Madrid.
Gen. Julio Andreade, Under Secretary at the Department of War and Marine, Minister of Public Instruction, Envoy Extraordinary and Minister Plenipotentiary at Bogota.

France—Mr. Leon Bourgeois, LL. D., Senator, formerly Minister for Foreign Affairs, formerly President of the Chamber of Deputies.
Mr. A. Decrais, Senator, formerly Ambassador to Italy, to Austria-Hungary, and to Great Britain, formerly Minister of the Colonies.
Baron D'Estournelles de Constant, Minister Plenipotentiary, Senator.
Mr. Louis Renault, Minister Plenipotentiary, Law Officer of the Department for Foreign Affairs.

German Empire—Mr. E. F. Steveking, LL. D., President of the Superior Hanseatic Tribunal at Hamburg.
Mr. Kriege, LL. D., Counselor of Legation, Associate Counsel of the Department for Foreign Affairs.
Mr. von Martitz, LL. D., Privy Councilor.
Mr. von Bar, LL. D., Judicial Privy Councilor.

Great Britain—The Right Hon. Sir Edward Fry, LL. D., formerly of the Court of Appeals, Member of the Privy Council,

PERMANENT COURT OF ARBITRATION OF THE HAGUE—*Continued.*

- The Right Hon. Viscount Selby, formerly Speaker of the House of Commons, Member of the Privy Council.
- The Right Hon. Sir E. Satow, formerly Envoy Extraordinary and Minister Plenipotentiary at Peking, Member of the Privy Council.
- The Hon. Sir Charles Fitzpatrick, Chief Justice of the Supreme Court of the Dominion of Canada.
- Greece**—Mr. Denis Stephanos, Deputy, formerly Minister for Foreign Affairs.
Mr. Georges Streit, Professor of International Law at the University of Athens.
Mr. Michel Kebedgy, Counselor of the Mixed Court of Appeal at Alexandria.
Mr. A. Typaldo Bassia, Deputy.
- Guatemala**—Mr. Antonio Batres, formerly Minister.
Mr. Manuel Cabral, formerly Minister.
- Mr. Jose T. Machado, Charge d'Affaires at London.
Mr. Luis Toledo, Minister Plenipotentiary at Washington.
- Haiti**—Mr. Jaques Nicolas Leger, Barrister, formerly Envoy Extraordinary and Minister Plenipotentiary at Washington.
Mr. Solon Menos, Barrister, formerly Secretary of State for Finance, Commerce, Justice and Foreign Relations.
Mr. F. D. Legitime, Publiciste, formerly President of Haiti.
Mr. Tertullien Guilbaud, Barrister, formerly Member of the Constitutional Assembly, formerly Senator.
- Italy**—His Excellency Commander Jean Baptiste Pagano Guarnaschelli, LL. D., Senator of the Kingdom, First President of the Court of Cassation at Rome.
Mr. Auguste Pierantoni, Senator.
Mr. Guido Fusinato, Deputy Councilor of State.
Mr. Angelo Majorana, Deputy.
- Japan**—Mr. Itchiro Motono, LL. D., Envoy Extraordinary and Minister Plenipotentiary at St. Petersburg.
Mr. Henry Willard Denison, Law Officer of the Ministry for Foreign Affairs at Tokio.
- Luxemburg**—Mr. Henri Vannurus, President of the Council of State, formerly President of the Superior Court of Justice.
- Mexico**—Mr. Jose Ives Limantour, LL. D., Minister of Finance and Public Credit.
Mr. Pablo Macedo, LL. D., President of the Monetary Commission.
Mr. Joaquin Obregon Gonzalez, LL. D., Governor of Guanajuato.
Mr. Joaquin D. Casasus, LL. D., formerly Ambassador at Washington.
- Montenegro**—(No appointments have been made.)
- Netherlands**—His Excellency T. M. C. Asser, LL. D., Minister of State, Member of the Council of State.
Mr. F. E. Coninck Liefsting, LL. D., President of the Court of Cassation.
Mr. Jonkheer A. F. de Savornin Lohman, LL. D., formerly Minister of the Interior.
Mr. Jonkheer G. L. M. H. Ruys de Beerenbrouck, LL. D., formerly Minister of Justice.
- Nicaragua**—Mr. Crisanto Medina, Envoy Extraordinary and Minister Plenipotentiary at Paris.
Mr. Desire Pector, Consul-General at Paris.
- Norway**—Mr. G. Gram, formerly Minister of State of Norway, Provincial Governor.
Mr. George Francis Hagerup, LL. D., formerly Minister of State and President of the Council.
Mr. Sigurd Ibsen, LL. D., formerly Minister of State.
Mr. H. J. Forst, Deputy, formerly President of the Lagthing.
- Persia**—His Excellency Mirza Samad-Khan Montazos-Saltaneh, Envoy Extraordinary and Minister Plenipotentiary at Paris.
His Excellency Mirza Hassan-Khan Muchir ul Devlet, formerly Envoy Extraordinary and Minister Plenipotentiary at St. Petersburg.
- Peru**—Mr. Carlos G. Candamo, Envoy Extraordinary and Minister Plenipotentiary at Paris.
- Portugal**—His Excellency Count de Macedo, formerly Minister of Marine and Colonies, formerly Envoy Extraordinary and Minister Plenipotentiary at Madrid.
His Excellency Antonio Emilio Correa de Sa Brandao, President of the High Court of Justice, formerly Minister of Justice.
His Excellency Fernando Mattoso Santos, formerly Minister of Finances and of Foreign Affairs.
Mr. Francisco Antonio da Veiga Beirao, Counselor of State, Peer of the Realm, formerly Minister for Foreign Affairs and of Justice.
- Roumania**—Mr. Theodore G. Rosetti, formerly President of the Council of Ministers, formerly President of the High Court of Cassation and Justice.

Mr. Jean N. Lahovary, Deputy, formerly Envoy Extraordinary and Minister Plenipotentiary, formerly Minister for Foreign Affairs, Minister of Agriculture, of Industry, of Commerce and of Domain.
Mr. Constantin G. Dissescu, Minister of Worship and Public Instruction, Senator.
- Russia**—(No appointment since the retirement of Mr. de Martens.)
- Salvador**—(No appointment made since the retirement of Messrs. Perez Triana and Matheu.)
- Servia**—Mr. George Pavlovitch, formerly Minister of Justice, President of the Court of Cassation.
Dr. Milovan Milovanovitch, LL. D., Minister for Foreign Affairs, formerly Envoy Extraordinary and Minister Plenipotentiary at Rome.
Dr. Milenko R. Vesitch, LL. D., formerly Minister of Justice, Envoy Extraordinary and Minister Plenipotentiary at Paris.
- Siam**—Mr. Frederick W. Verney, Member of Parliament, formerly Counselor of Legation at London.
Mr. Corragioni d'Orelli, Counselor of Legation at Paris.
- Spain**—Mr. Rafael de Urena y Smenjaud, LL. D., Professor in the Faculte of Madrid.
His Excellency E. Morel, Deputy, formerly President of the Council of Ministers.
His Excellency E. Dato, Deputy, formerly Minister of Justice.
His Excellency R. M. de Labra, Senator, Barrister at the Court of Cassation.
- Sweden**—Mr. Knut Hjalmar Leonard de Hammarskjöld, LL. D., formerly Minister of Justice, formerly Minister of Worship and of Public Instruction, formerly Envoy Extraordinary and Minister Plenipotentiary at Copenhagen.

PERMANENT COURT OF ARBITRATION OF THE HAGUE—Continued.

Mr. Johan Frederik Ivar Afzelius, LL. D., President of the Commission for the Revision of Laws.
 Mr. Johannes Hellner, D. L., formerly Minister, Member of the Supreme Court.
 Baron Carl Nils Daniel Bildt, LL. D., Envoy Extraordinary and Minister Plenipotentiary to Italy.
Switzerland—Mr. Charles Lardy, LL. D., Swiss Minister at Paris.
 Mr. Charles Hilly, LL. D., Member of the National Council (deceased).
 Mr. Eugene Huber, LL. D., Member of the National Council.
Turkey—His Excellency Gabriel Effendi, Minister of Commerce and Public Works.
 His Excellency Hakky Bey, Ambassador at Rome.
 His Excellency Yorghiadis Effendi, Senator.
 Said Bey, Vice-President of the Legislative section of the Council of State.
United States—Mr. Melville W. Fuller, Chief Justice of the United States.
 Mr. John W. Griggs, formerly Attorney-General of the United States.
 Mr. George Gray, United States Circuit Judge, formerly United States Senator.
 Mr. Oscar S. Straus, formerly Secretary of Commerce and Labor, Ambassador Extraordinary and Plenipotentiary at Constantinople.
Uruguay—Mr. Jose Battle y Ordenez, formerly President of Uruguay.
 Mr. Gonzalo Ramirez, LL. D., formerly Envoy Extraordinary and Minister Plenipotentiary.
 Mr. Juan Pedro Castro, LL. D., formerly Envoy Extraordinary and Minister Plenipotentiary at Paris and Brussels.
Venezuela—Dr. Carlos Leon, LL. D., formerly Minister of Public Instruction, formerly Member of the Court of Cassation.
 Dr. Nicomedes Zuloaga, LL. D., formerly Member of the Court of Cassation.
 Dr. Francisco Arroyo Parejo, LL. D., formerly Procurator-General.
 Gen. Manuel Antonio Matos, formerly Senator, formerly Minister of Finance.
Secretary-General—Baron Michiels van Verduynen.
First Secretary of the Court—Jonkheer W. Roell.
The Administrative Council—The Administrative Council consists of the Minister for Foreign Affairs of the Netherlands and the diplomatic representatives at The Hague of the ratifying powers.

The Hall of Fame.

MARCH 5, 1900, the Council of New York University accepted a gift of \$100,000, afterward increased to \$250,000, from a donor, whose name was withheld, for the erection and completion on University Heights, New York City, of a building to be called "The Hall of Fame for Great Americans." A structure was accordingly built in the form of a semi-circle, 170 feet, connecting the University Hall of Philosophy with the Hall of Languages. On the ground floor is a museum 200 feet long by 40 feet wide, consisting of a corridor and six halls to contain mementos of the names that are inscribed above. The colonnade over this is 400 feet long with provision for 150 panels, each about 2 feet by 6 feet, each to bear the name of a famous American.

Only persons who shall have been dead ten or more years are eligible to be chosen. Fifteen classes of citizens were recommended for consideration, to wit: Authors and editors, business men, educators, inventors, missionaries and explorers, philanthropists and reformers, preachers and theologians, scientists, engineers and architects, lawyers and judges, musicians, painters and sculptors, physicians and surgeons, rulers and statesmen, soldiers and sailors, distinguished men and women outside the above classes. Fifty names were to be inscribed on the tablets at the beginning, and five additional names every fifth year thereafter, until the year 2000, when the 150 inscriptions will be completed. In case of failure to fill all the panels allotted, the vacancies are to be filled in a following year.

In February, 1904, the plan was announced of an additional structure in the form of a loggia joining the colonnade on the north, having 30 panels for foreign born Americans, six to be filled in 1905, and beyond this of a Hall of Fame for Women, about 30 by 60 feet, with a museum on the ground floor and a main story above of 28 columns supporting a pedimented roof, with places for 60 tablets.

The rules prescribed that the Council should invite nominations from the public. Every nomination seconded by a member of the University Senate should be submitted to an electorate of one hundred eminent citizens selected by the Council.

In October, 1900, the University Senate received the ballots of the electors. Of the one hundred judges selected ninety-seven voted. The number of names which had been submitted to them was 252. Of these each judge returned a vote for fifty. The rule required that no candidate receiving less than fifty-one votes could be accepted. The returns showed that but twenty-nine candidates received the required number and were chosen. These were as follows: George Washington, Abraham Lincoln, Daniel Webster, Benjamin Franklin, Ulysses S. Grant, John Marshall, Thomas Jefferson, Ralph Waldo Emerson, Henry W. Longfellow, Robert Fulton, Washington Irving, Jonathan Edwards, Samuel F. B. Morse, David G. Farragut, Henry Clay, Nathaniel Hawthorne, George Peabody, Robert E. Lee, Peter Cooper, Eli Whitney, John J. Audubon, Horace Mann, Henry Ward Beecher, James Kent, Joseph Story, John Adams, William E. Channing, Gilbert Stuart, Asa Gray.

In October, 1905, under the rules named above, the Senate received the ballots of 95 Electors out of 101 appointed, of whom only 85 undertook to consider the names of women. A majority of 51 was demanded, but in the case of the names of women, a majority of only 47. The following persons were found to be duly chosen: John Quincy Adams 59; James Russell Lowell, 58; William Tecumseh Sherman, 58; James Madison, 56; John Greenleaf Whittier, 53; Alexander Hamilton, 58; Louis Agassiz, 53; John Paul Jones, 54; Mary Lyon, 58; Emma Willard, 50; Maria Mitchell, 48. Among the names which received less than a majority vote in the 1905 election were those of Oliver Wendell Holmes 48, Phillips Brooks 48, Bryant Parkman and Motlev 46 each; Poe and Cooper 43 each; Bancroft and Greeley 39 each; Nathaniel Green and Mark Hopkins 38 each, Joseph Henry 32; Rufus Choate 31.

The Hall was dedicated May 30, 1901, when twenty-five or more national associations each unveiled one of the bronze tablets in the colonnade, and on May 30, 1907, the eleven new tablets were unveiled, orations being given by the Governors of New York and Massachusetts.

Since the Deed of Gift was amended to admit memorials to famous foreign born Americans, the roll of electors has been amended in like manner, Mr. Andrew Carnegie, a native of Scotland, succeeding to the place of Ex-President Grover Cleveland, deceased.

200 Prosecutions of Trusts by the United States.

COMPARATIVELY few prosecutions under the terms of the Sherman Anti-Trust law were begun during the year 1909.

In 1908 the Standard oil combination held first place in the thoughts of the trust-breaking staff. There were twenty-one cases against it under the rebate section pending in the courts, the chief of which was the \$29,240,000 fine case. That fine, imposed on August 2, 1907, is unpaid. On July 22, 1908, the Circuit Court of Appeals for the Seventh Circuit reversed the case and remanded it to the District Court for further proceedings in accordance with the views of the Appellate Court expressed in the opinion delivered by Judge Peter Grosscup.

The Government, as soon as possible, filed an application for a rehearing of the case by the Circuit Court of Appeals. That application was denied November 10, 1908. Thereupon Attorney-General Bonaparte announced that a petition to have the case reviewed by the Supreme Court would be filed. Such a course was necessary because the jurisdiction of the Circuit Court of Appeals is conclusive in criminal actions and such as this one. There were twenty-one other criminal actions against the Standard and its subsidiaries still pending.

The civil case against it under the Sherman act was prepared for hearing before the Circuit Court at St. Louis. A record bound in fifteen enormous volumes had been made.

The Government achieved its most notable victory since the Northern Securities case on November 7, 1908, when the Circuit Court at New York decided that the American Tobacco Company and its subsidiaries, except the Imperial Tobacco Company and the United Cigar Stores Company, constitute a restraint in trade between the States and foreign nations within the meaning of the Sherman law.

The Court, in this case, issued an injunction which was suspended during appeal to the Supreme Court of the United States, forbidding the tobacco trust to ship goods in interstate commerce while the illegal combination remained in force. That order differed from the usual order in trust cases in that it placed the burden of proving that the illegal practices have ceased upon the defendants. Heretofore, the burden has been on the Government to show that the order of the court has not been obeyed, and that the defendant or defendants should be punished for contempt.

CIVIL SUITS.

United States vs. One Hundred and Seventy-five Cases of Cigarettes—October 28, 1907, information filed in the District Court for the Eastern District of Virginia covering the seizure of 175 cases of cigarettes under Section 6 of the Sherman Anti-Trust act. Case pending.

United States vs. Union Pacific Railroad Company et al—February 1, 1908, a bill in equity was filed in the Circuit Court of the United States for the District of Utah, charging a combination and conspiracy in violation of the Sherman act. Case pending.

United States vs. New York, New Haven and Hartford Railroad Company et al—May 22, 1908, a bill in equity was filed in the Circuit Court of the United States for the District of Massachusetts charging the New Haven company with combining and attempting to combine under one common control the various railroad and electric railway systems in New England, in violation of the Sherman act. Case pending June 26, 1909. Discontinuance filed by United States.

CRIMINAL ACTIONS.

United States vs. H. D. Corbett Stationery Company et al—November 1, 1907, indictment returned in the District Court for the District of Arizona charging a combination in restraint of trade. November 4, 1907, demurrer filed. November 14, 1907, demurrers sustained and defendants referred to next grand jury. November 5, 1908, jury trial. November 6, 1908, not guilty.

United States vs. Union Pacific Coal Company et al—November 20, 1907, indictment returned in the District Court for the District of Utah, charging a conspiracy to violate and for a violation of the Sherman act. January 6, 1908, demurrer filed. March 2, 1908, demurrer sustained as to first count and overruled as to second count. Case pending.

United States vs. Charles L. Simmons et al—January 20, 1908, indictment returned in the District Court for the Southern District of Alabama charging a combination in restraint of trade and commerce in the matter of the manufacture and sale of plumbers' supplies. Pending.

United States vs. E. J. Ray et al—February 14, 1908, indictment returned in the Circuit Court for the Eastern District of Louisiana against seventy-two laborers charging a combination and conspiracy in restraint of foreign trade and commerce, in violation of the Sherman act. Case pending.

United States vs. E. J. Ray et al—February 15, 1908, indictment returned in the Circuit Court for the Eastern District of Louisiana against seventy-two laborers charging a combination and conspiracy in restraint of interstate trade and commerce, in violation of the Sherman act. Case pending.

United States vs. Joseph Stiefvater et al—February 15, 1908, indictment returned in the United States Circuit Court for the Eastern District of Louisiana, charging a combination in restraint of trade and commerce in the matter of the manufacture and sale of plumbers' supplies. Case pending.

United States vs. American Naval Stores Company et al—April 11, 1908, indictment returned in the United States Circuit Court for the Southern District of Georgia, charging a combination in restraint of trade and commerce in the matter of the manufacture and sale of turpentine. Case pending May 10, 1909. Guilty as to certain named defendants. Fines, \$17,500. May 4, 1909, Writ of Error to Circuit Court of Appeals for Fifth Circuit.

United States vs. John H. Parks et al—June 16, 1908, indictment returned in the Circuit Court of the United States for the Southern District of New York, charging a combination in restraint of trade in the matter of the manufacture and sale of paper. June 19, 1908, defendants pleaded guilty and sentenced to pay fines aggregating \$50,000, which were paid. Case against John H. Parks pending.

United States vs. American Sugar Refining Company; Washington B. Thomas, Arthur Donner, Charles H. Senff, John Mayer, George H. Frazier and John E. Parsons. In the Southern District of New York, Circuit Court, July 1, 1909—Indictments returned under Secs. 1 and 2, Sherman Anti-Trust law act, July 2, 1890. Engaging in conspiracy in restraint of interstate trade and commerce in refined sugar, monopolizing such trade and commerce, attempting to monopolize such trade and commerce, conspiring together to monopolize such trade and commerce, engaging in conspiracy in restraint of trade and commerce in purchase and shipment of raw sugar and molasses, materials for manufacture of refined sugar, etc., etc.

National Association of Postmasters
OF FIRST CLASS OFFICES.

THE National Association of Postmasters of First Class Offices was organized at Detroit, Mich., October 8, 1898.

The Association consists of postmasters and assistant postmasters of the first class post-offices in the United States, and presidents and first vice-presidents of State associations of postmasters. Heads of the Post-Office Department and Chiefs of Bureaus at Washington are honorary members.

Article 3 of the Constitution declares that: "The object of this Association is to aid in the improvement of the Postal Service of the United States through the mutual interchange of ideas of members of the Association and officials of the Post-Office Department."

The annual meetings are attended by the heads of Departments and Chiefs of Bureaus of the Post-Office Department who address the conventions and answer questions pertaining to the practical work of the post-office.

The following are the officers for 1909-10: *President*—Edward M. Morgan, New York. *First Vice-President*—F. G. Witholt, Dayton, Ohio. *Second Vice-President*—Edward R. Sizer, Lincoln, Neb. *Third Vice-President*—Isador Sobel, Erie, Pa. *Fourth Vice-President*—E. Woods, Louisville, Ky. *Fifth Vice-President*—George W. Bean, Tampa, Fla. *Treasurer*—D. C. Owen, Milwaukee. *Secretary*—Stephen S. Feehan, New York.

National Municipal and Civic Organizations.

NATIONAL MUNICIPAL LEAGUE.

President—Charles J. Bonaparte, Baltimore, Md. *First Vice-President*—Charles Richardson, Philadelphia. *Second Vice-President*—Thomas N. Strong, Portland, Ore. *Third Vice-President*—Hon. Henry L. McCune, Kansas City, Missouri; *Fourth Vice-President*—Walter L. Fisher, Chicago, Ill. *Fifth Vice-President*—George W. Guthrie, Pittsburgh. *Secretary*—Clinton Rogers Woodruff, 121 South Broad Street, Philadelphia. *Treasurer*—George Burnham, Jr., Philadelphia. *Executive Committee*—Chairman, Horace B. Deming, New York; James Plimney Baxter, Portland, Me.; Albert Bushnell Hart, Cambridge, Mass.; Robert Treat Paine, Jr., Boston; Charles S. De Forest, New Haven, Ct.; Dudley Tibbets, Troy; George Haven Putnam, New York; E. H. Prentice, New York; Norman Hargood, New York; Charles H. Ingersoll, New York; William G. Low, New York; Frederick Almy, Buffalo; Clarence L. Harper, Philadelphia; Thomas Raeburn White, Philadelphia; J. Horace McFarland, Harrisburg, Pa.; Oliver McClintock, Pittsburgh; H. D. W. English, Pittsburgh; W. P. Bancroft, Wilmington, Del.; H. B. F. Macfarland, Washington; Elliott Hunt Pendleton, Cincinnati; Morton D. Hull, Chicago; J. L. Hudson, Detroit; John A. Butler, Milwaukee; David P. Jones, Minneapolis; Dwight F. Davis, St. Louis; Frank N. Hartwell, Louisville; E. C. Kontz, Atlanta; James H. Causey, Denver; Frank J. Symmes, Berkeley; Charles D. Willard, Los Angeles; Harvey S. Chase, Boston, and the officers. The League is composed of associations formed in cities of the United States, and having as an object the improvement of municipal government. It has no connection with State or national parties or issues, and confines itself strictly to municipal affairs. Any association belonging to the League may withdraw at any time.

LEAGUE OF AMERICAN MUNICIPALITIES.

President—David E. Heineman, Detroit, Mich.; *First Vice-President*—John R. Cronin, Joliet, Ill.; *Second Vice-President*—L. A. Lapointe, Montreal; *Third Vice-President*—Millard F. Funkhouser, Omaha, Neb.; *Fourth Vice-President*—William M. O'Bryan, Owensboro, Ky.; *Secretary-Treasurer*—John MacVicar, Des Moines. *Trustees*—Wm. H. Baker, Lockport, N. Y.; Jerome T. Congleton, Newark, N. J.; Harry F. Hooper, Baltimore, Md.; T. E. Knotts, Gary, Ind.; Grant Conrad, San Diego, Cal.; Fred Busse, Chicago, Ill.; W. H. Evanson, Winnipeg, Can.; William J. Hosey, Fort Wayne, Ind. The objects of the League of American Municipalities are as follows—The general improvement and facilitation of every branch of municipal administration by the following means: First—The perpetuation of the organization as an agency for the co-operation of American cities in the practical study of all questions pertaining to municipal administration. Second—The holding of annual conventions for the discussion of contemporaneous municipal affairs. Third—The establishment and maintenance of a central bureau of information for the collection, compilation, and dissemination of statistics, reports, and all kinds of information relative to municipal government. The membership of the League includes nearly all of the important cities in this country and Canada.

NATIONAL GOOD ROADS ASSOCIATION.

President—Arthur C. Jackson, Chicago, Ill.; *Vice-President and Treasurer*—Martin Dodge, Washington, D. C. *Secretary*—H. W. McAfee. This Association was organized by delegates from thirty-eight States in national convention at Chicago November 21, 1900, and an extensive campaign for good roads all over the Union is in progress. Headquarters, Chicago, Ill.; annual membership fee, \$1.

AMERICAN CIVIC ASSOCIATION.

President—J. Horace McFarland, Harrisburg, Pa. *First Vice-President*—Clinton Rogers Woodruff; *Vice-Presidents*—George B. Leighton, Monadnock, N. H.; Robert Watchorn, New York; David P. Jones, Minneapolis; Mrs. Edward W. Biddle, Carlisle, Pa.; Fielding J. Stilson, Los Angeles. *Executive Board*—Mrs. M. F. Johnston, Richmond, Ind.; George Otis Draper, Hopedale, Mass.; Miss Mary M. Butler, Yonkers, N. Y.; Frederick L. Ford, Hartford, Ct.; Outdoor Art, Warren H. Manning, Boston; Press, R. B. Watrous, Milwaukee; Parks and Public Reservations, Henry A. Barker, Providence; Public Nuisances, Harlan P. Kelsey, Salem, Mass.; Railroad Improvement, Mrs. A. E. McCrea, Chicago; Mrs. Edwin F. Moulton, Warren, O.; John Nolen, Cambridge, Mass.; John Quincy Adams, City Hall, N. Y.; Kenyon L. Butterfield, Amherst, Mass.; Mrs. Caroline Bartlett Crane, Kalamazoo, Mich. Social Settlements—Graham Romeyn Taylor, Chicago; *Secretary*—Richard B. Watrous; *Treasurer*—William B. Howland, New York.

The American Civic Association was formed by merger of the American League for Civic Improvement and the American Park and Outdoor Art Association, June 10, 1904. The Association seeks to combine and make efficient the country-wide effort for civic betterment. It has led in the effort to prevent the destruction of Niagara Falls for power purposes; it advocates rational forest treatment; it is inaugurating a campaign for the restraint and reduction of objectionable outdoor advertising as a defacement of nature, and it urges community beauty. It fosters parks, playgrounds, and outdoor recreation; it arouses communities, and leads them toward betterment. A lantern-slide service is maintained, and many bulletins are issued.

SOCIETY OF BUILDING COMMISSIONERS AND INSPECTORS.

President—James G. Houghton, Inspector of Buildings, Minneapolis, Minn.; *Executive Officer*—F. W. Fitzpatrick; *Asst. Secretary*—A. Richardson, Washington, D. C. The International Society of State and Municipal Building Commissioners and Inspectors is an association of the chiefs of the Building Departments of the United States, Canada and Mexico, the principal cities of Europe, Australia and China, to promote the "improvement of building methods; the revision and perfecting of building ordinances and securing their more thorough enforcement; the lessening of our appalling fire losses; mutual assistance, the interchange of ideas, and the binding in closer union of the building bureaus of the several cities with the view of ultimate uniformity of building laws."

INTERNATIONAL REFORM BUREAU.

International Reform Bureau, 206 Pennsylvania Avenue, S. E., Washington, D. C. *President*—Henry W. Blair. *Secretary*—Rev. F. D. Power, D. D. *Superintendent and Treasurer*—Dr. Wilbur F. Crafts. Devoted to the repression of intemperance, impurity, Sabbath-breaking, gambling, and kindred evils, by lectures, letters, legislation, and literature; also giving special attention to anti-opium work in China, and the suppression of liquor selling among native races in Africa and elsewhere. The Bureau has drawn thirteen laws that have passed Congress.

National Platforms of Political Parties.

PLATFORM OF THE DEMOCRATIC PARTY, ADOPTED AT DENVER, COL.,
JULY 10, 1908.

We, the representatives of the Democrats of the United States, in national convention assembled, reaffirm our belief in and pledge our loyalty to the principles of the party.

We rejoice at the increasing signs of an awakening throughout the country. The various investigations have traced graft and political corruption to the representatives of predatory wealth, and laid bare the unscrupulous methods by which they have debauched elections and preyed upon a defenceless public through the subservient officials whom they have raised to place and power.

The conscience of the nation is now aroused to free the government from the grip of those who have made it a business asset of the favor-seeking corporations; it must become again a people's government, and be administered in all its departments according to the Jeffersonian maxim of "equal rights to all and special privileges to none."

"Shall the people rule?" is the overshadowing issue which manifests itself in all the questions now under discussion.

The Misuse of Patronage.—We condemn as a violation of the spirit of our institutions the action of the present Chief Executive in using the patronage of his high office to secure the nomination of one of his Cabinet officers. A forced succession in the Presidency is scarcely less repugnant to public sentiment than is life tenure in that office. No good intention on the part of the executive and no virtue in the one selected can justify the establishment of a dynasty. The right of the people to freely select their officials is inalienable and cannot be delegated.

Publicity of Campaign Contributions.—We demand Federal legislation forever terminating the partnership which has existed between corporations of the country and the Republican party under the expressed or implied agreement that in return for the contributions of great sums of money wherewith to purchase elections they should be allowed to continue substantially unmolested in their efforts to encroach upon the rights of the people.

Any reasonable doubt as to the existence of this relation has been forever dispelled by the sworn testimony of witnesses examined in the insurance investigation in New York and the open admission, unchallenged by the Republican National Committee, of a single individual that he himself, at the personal request of the Republican candidate for the Presidency, raised more than a quarter of a million of dollars to be used in a single State during the closing hours of the last campaign. In order that this practice shall be stopped for all time we demand the passage of a statute punishing with imprisonment any officer of a corporation who shall either contribute on behalf of or consent to the contribution by corporations of any money or thing of value to be used in furthering the election of a President or Vice-President of the United States or of any member of Congress thereof.

We denounce the action of the Republican party, having complete control of the Federal Government, for its failure to pass the bill introduced in the last Congress to compel the publication of the names of contributors and the amounts contributed toward Congress funds, and point to the evidence of their insincerity when they sought by an absolutely irrelevant and impossible amendment to defeat the passage of the bill. As a further evidence of their intention to conduct their campaign in the coming contest with vast sums of money wrested from favor-seeking corporations, we call attention to the fact that the recent Republican National Convention at Chicago refused, when the plank was presented to it, to declare against such practices.

We pledge the Democratic party to the enactment of a law preventing any corporation contributing to a campaign fund, and any individual from contributing an amount above a reasonable minimum, and providing for the publication before election of all such contributions above a reasonable minimum.

The Rights of the States.—Believing, with Jefferson, in "the support of the State Governments in all their rights as the most competent administration for our domestic concerns and the surest bulwark against anti-Republican tendencies," and in "the preservation of the general government in its whole constitutional vigor as the sheet anchor of our peace at home and safety abroad," we are opposed to the centralization implied in the suggestions, now frequently made, that the powers of the general government should be extended by judicial construction. There is no twilight zone between the Nation and the State in which exploiting interests can take refuge from both; and it is as necessary that the Federal Government shall exercise the powers delegated to it as it is that the State Governments shall use the authority reserved to them, but we insist that Federal remedies for the regulation of interstate commerce and for the prevention of private monopoly shall be added to, not substituted for, State remedies.

Tariff.—We welcome the belated promise of tariff reform now affected by the Republican party in tardy recognition of the righteousness of the Democratic position on this question, but the people cannot safely trust the execution of this important work to a party which is so deeply obligated to the highly protected interests as is the Republican party. We call attention to the significant fact that the promised relief was postponed until after the coming election—an election to succeed in which the Republican party must have that same support from the beneficiaries of the high protective tariff as it has always heretofore received from them; and to the further fact that during years of uninterrupted power no action whatever has been taken by the Republican Congress to correct the admittedly existing tariff iniquities.

We favor immediate revision of the tariff by the reduction of import duties. Articles entering into competition with trust controlled products should be placed upon the free list, and material reductions shall be made in the tariff upon the necessities of life, especially upon articles competing with such American manufactures as are sold abroad more cheaply than at home, and graduated reductions should be made in such other schedules as may be necessary to restore the tariff to a revenue basis.

Existing duties have given to the manufacturers of paper a shelter behind which they have organized combinations to raise the price of pulp and of paper, thus imposing a tax upon the spread of knowledge. We demand the immediate repeal of the tariff on

NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

pulp, print paper, lumber, timber and logs and that these articles be placed upon the free list.

Trusts.—A private monopoly is indefensible and intolerable. We therefore favor the vigorous enforcement of the criminal law against guilty trust magnates and officials, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States.

Among the additional remedies we specify three: First, a law preventing a duplication of directors among competing corporations; second, a license system which will, without abridging the right of each State to create corporations or its right to regulate as it will foreign corporations doing business within its limits, make it necessary for a manufacturing or trading corporation engaged in interstate commerce to take out a Federal license before it shall be permitted to control as much as 25 per cent. of the product in which it deals, a license to protect the public from watered stock and to prohibit the control by such corporation of more than 50 per cent. of the total amount of any product consumed in the United States; and, third, a law compelling such licensed corporations to sell to all purchasers in all parts of the country on the same terms after making due allowance for cost of transportation.

Railroad Regulation.—We assert the right of Congress to exercise complete control over interstate commerce and the right of each State to exercise like control over commerce within its borders.

We demand such enlargement of the powers of the Interstate Commerce Commission as may be necessary to compel railroads to perform their duties as common carriers and prevent discrimination and extortion.

We favor the efficient supervision and rate regulation of railroads engaged in interstate commerce; to this end we recommend the valuation of railroads by the Interstate Commerce Commission, such valuation to take into consideration the physical value of the property, the original cost and cost of reproduction and all elements of value that will render the valuation made fair and just.

We favor such legislation as will prohibit the railroads from engaging in business which brings them into competition with their shippers; also legislation which will assure such reduction in transportation rates as conditions will permit, care being taken to avoid reductions that would compel a reduction of wages, prevent adequate service or do injustice to legitimate investments. We heartily approve the laws prohibiting the pass and the rebate, and we favor any further necessary legislation to restrain, control and prevent such abuses.

We favor such legislation as will increase the power of the Interstate Commerce Commission, giving to it the initiative with reference to rates and transportation charges put into effect by the railroad companies, and permitting the Interstate Commerce Commission, on its own initiative, to declare a rate illegal and as being more than should be charged for such service. The present law relating thereto is inadequate by reason of the fact that the Interstate Commerce Commission is without power to fix or investigate a rate until complaint has been made to it by the shipper.

We further declare that all agreements of traffic or other associations of railway agents affecting interstate rates, service or classification, shall be unlawful unless filed with and approved by the Interstate Commerce Commission.

We favor the enactment of a law giving to the Interstate Commerce Commission the power to inspect proposed railroad tariff rates or schedules before they shall take effect, and, if they be found to be unreasonable, to initiate an adjustment thereof.

Banking.—The panic of 1907, coming without any legitimate excuse, when the Republican party had for a decade been in complete control of the Federal Government, furnishes additional proof that it is either unwilling or incompetent to protect the interests of the general public. It has so linked the country to Wall Street that the sins of the speculators are visited upon the whole people. While refusing to rescue wealth producers from spoliation at the hands of the stock gamblers and speculators in farm products, it has deposited Treasury funds, without interest and without competition, in favorite banks. It has used an emergency for which it is largely responsible to force through Congress a bill changing the basis of bank currency and inviting market manipulation, and has failed to give to the fifteen million depositors of the country protection in their savings.

We believe that, in so far as the needs of commerce require an emergency currency, such currency should be issued, controlled by the Federal Government and loaned on adequate security to national and State banks. We pledge ourselves to legislation under which the national banks shall be required to establish a guarantee fund for the prompt payment of the depositors of any insolvent national bank under an equitable system which shall be available to all State banking institutions wishing to use it.

We favor a postal savings bank, if the guaranteed bank cannot be secured, and that it be constituted so as to keep the deposited money in the communities where it is established; but we condemn the policy of the Republican party in providing postal savings banks under a plan of conduct by which they will aggregate the deposits of rural communities and re-deposit the same while under Government charge in the banks of Wall Street, thus depleting the circulating medium of the producing regions and unjustly favoring the speculative markets.

Income Tax.—We favor an income tax as part of our revenue system, and we urge the submission of a constitutional amendment specifically authorizing Congress to levy and collect a tax upon individual and corporate incomes to the end that wealth may bear its proportionate share of the burdens of the Federal Government.

Labor and Injunctions.—The courts of justice are the bulwark of our liberty, and we yield to none in our purpose to maintain their dignity. Our party has given to the bench a long line of distinguished judges, who have added to the respect and confidence in which this department must be jealously maintained. We resent the attempt of the Republican party to raise false issues respecting the judiciary. It is an unjust reflection upon a great body of our citizens to assume that they lack respect for the courts.

It is the function of the courts to interpret the laws which the people create, and if the laws appear to work economic, social or political injustice, it is our duty to change them. The only basis upon which the integrity of our courts can stand is that of un-

NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

swerving justice and protection of life, personal liberty and property. If judicial processes may be abused, we should guard them against abuse.

Experience has proven the necessity of a modification of the present law relating to injunctions, and we reiterate the pledge of our national platforms of 1896 and 1904 in favor of the measure which passed the United States Senate in 1896, but which a Republican Congress has ever since refused to enact, relating to contempts in Federal courts and providing for trial by jury in cases of indirect contempt.

Questions of judicial practice have arisen especially in connection with industrial disputes. We deem that the parties to all judicial proceedings should be treated with rigid impartiality, and that injunctions should not be issued in any cases in which injunctions would not issue if no industrial dispute were involved.

The expanding organization of industry makes it essential that there should be no abridgment of the right of wage earners and producers to organize for the protection of wages and the improvement of labor conditions, to the end that such labor organizations and their members should not be regarded as illegal combinations in restraint of trade.

We favor the eight-hour day on all Government work.

We pledge the Democratic party to the enactment of a law by Congress, as far as the Federal jurisdiction extends, for a general employers' liability act, covering injury to body or loss of life of employees.

We pledge the Democratic party to the enactment of a law creating a department of labor, represented separately in the President's Cabinet, which department shall include the subject of mines and mining.

Merchant Marine.—We believe in the upbuilding of the American merchant marine without new or additional burdens upon the people and without bounties from the public treasury.

The Navy.—The constitutional provision that a navy shall be provided and maintained means an adequate navy, and we believe that the interests of this country would be best served by having a navy sufficient to defend the coasts of this country, and protect American citizens wherever their rights may be in jeopardy.

Protection of American Citizens.—We pledge ourselves to insist upon the just and lawful protection of our citizens at home and abroad and to use all proper methods to secure for them, whether native born or naturalized, and without distinction of race or creed, the equal protection of law and the enjoyment of all rights and privileges open to them under our treaties; and if, under existing conditions, the right of travel and sojourn is denied to American citizens, or recognition is withheld from American passports by any countries on the ground of race or creed, we favor prompt negotiations with the governments of such countries to secure the removal of these unjust discriminations.

We demand that all over the world a duly authorized passport issued by the Government of the United States to an American citizen shall be proof of the fact that he is an American citizen and shall entitle him to the treatment due him as such.

Civil Service.—The laws pertaining to the Civil Service should be honestly and rigidly enforced to the end that merit and ability shall be the standard of appointment and promotion rather than services rendered to a political party.

Pensions.—We favor a generous pension policy, both as a matter of justice to the surviving veterans and their dependants and because it tends to relieve the country of the necessity of maintaining a large standing army.

Health Bureau.—We advocate the organization of all existing national public health agencies into a national bureau of public health, with such power over sanitary conditions connected with factories, mines, tenements, child labor and such other subjects as are properly within the jurisdiction of the Federal Government and do not interfere with the power of the States controlling public health agencies.

Agricultural and Mechanical Education.—The Democratic party favors the extension of agricultural, mechanical and industrial education. We therefore favor the establishment of district agricultural experiment stations and secondary agricultural and mechanical colleges in the several States.

Popular Election of Senators.—We favor the election of United States Senators by direct vote of the people, and regard this reform as the gateway to other national reforms.

Oklahoma.—We welcome Oklahoma to the sisterhood of States, and heartily congratulate her on the auspicious beginning of a great career.

Arizona and New Mexico.—The national Democratic party has for the last sixteen years labored for the admission of Arizona and New Mexico as separate States of the Federal Union, and recognizing that each possesses every qualification to successfully maintain separate State governments, we favor the immediate admission of these Territories as separate States.

Grazing Lands.—The establishment of rules and regulations, if any such are necessary, in relation to free grazing upon the public lands outside of forest or other reservations until the same shall eventually be disposed of should be left to the people of the States respectively in which such lands may be situated.

Waterways.—Water furnishes the cheapest means of transportation, and the National Government, having the control of navigable waters, should improve them to their fullest capacity. We earnestly favor the immediate adoption of a liberal and comprehensive plan for improving every watercourse in the Union which is justified by the needs of commerce, and to secure that end we favor, when practicable, the connection of the Great Lakes with the navigable rivers and with the Gulf through the Mississippi River, and the navigable rivers with each other, and the rivers, bays and sounds of our coasts with each other by artificial canals, with a view to perfecting a system of inland waterways, to be navigated by vessels of standard draught.

We favor the co-ordination of the various services of the Government connected with waterways in one service, for the purpose of aiding in the completion of such a system of inland waterways; and we favor the creation of a fund ample for continuous work, which shall be conducted under the direction of a commission of experts to be authorized by law.

NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

Post Roads.—We favor Federal aid to State and local authorities in the construction and maintenance of post roads.

Arbitrary Power of Speaker.—The House of Representatives was designed by the fathers of the Constitution to be the popular branch of our Government, responsive to the public will.

The House of Representatives, as controlled in recent years by the Republican party, has ceased to be a deliberative and legislative body, responsive to the will of a majority of its members, but has come under the absolute domination of the Speaker, who has entire control of its deliberations and powers of legislation.

We have observed with amazement the popular branch of our Federal Government helpless to obtain either the consideration or enactment of measures desired by a majority of its members.

Legislative government becomes a failure when one member in the person of the Speaker is more powerful than the entire body.

We demand that the House of Representatives shall again become a deliberative body, controlled by a majority of the people's representatives, and not by the Speaker, and we pledge ourselves to adopt such rules and regulations to govern the House of Representatives as will enable a majority of its members to direct its deliberations and control legislation.

Economy in Administration.—The Republican Congress in the session just ended has made appropriations amounting to \$1,008,000,000, exceeding the total expenditures of the last fiscal year by \$90,000,000 and leaving a deficit of more than \$60,000,000 for the fiscal year. We denounce the needless waste of the people's money which has resulted in this appalling increase as a shameful violation of all prudent conditions of government, as no less than a crime against the millions of working men and women, from whose earnings the great proportion of these colossal sums must be extorted through excessive tariff exactions and other indirect methods. It is not surprising that in the face of this shocking record the Republican platform contains no reference to economical administration or promise thereof in the future. We demand that a stop be put to this frightful extravagance and insist upon the strictest economy in every department compatible with frugal and efficient administration.

Officeholders.—Coincident with the enormous increase in expenditures is a like addition to the number of officeholders. During the last year 23,784 were added, costing \$16,156,000, and in the last six years of the Republican administration the total number of new offices created, aside from many commissions, has been 99,319, entailing an additional expenditure of nearly seventy million dollars, as against only 10,270 new offices created under the Cleveland and McKinley administrations, which involved an expenditure of only \$6,000,000. We denounce this great and growing increase in the number of officeholders as not only unnecessary and wasteful but also as clearly indicating a deliberate purpose on the part of the administration to keep the Republican party in power at public expense by thus increasing the number of its retainers and dependents. Such procedure we declare to be no less dangerous and corrupt than the open purchase of votes at the polls.

Natural Resources.—We repeat the demand for internal development and for the conservation of our natural resources contained in previous platforms, the enforcement of which Mr. Roosevelt has vainly sought from a reluctant party, and to that end we insist upon the preservation, protection, and replacement of needed forests, the preservation of the public domain for homeseekers, the protection of the national resources in timber, coal, iron and oil against monopolistic control; the development of our waterways for navigation and every other useful purpose, including the irrigation of arid lands, the reclamation of swamp lands, the clarification of streams, the development of water power and the preservation of electric power generated by this natural force from the control of monopoly; and to such end we urge the exercise of all powers, national, State, and municipal, both separately and in co-operation.

We insist upon a policy of administration of our forest reserve which shall relieve it of the abuses which have arisen thereunder, and which shall, as far as practicable, conform to the police regulations of the several States where they are located, which shall enable homesteaders as of right to occupy and acquire title to all portions thereof which are especially adapted to agriculture, and which shall furnish a system of timber sales available as well to the private citizen as to the larger manufacturer and consumer.

Philippines.—We condemn the experiment in Imperialism as an inexcusable blunder, which has involved us in an enormous expense, brought us weakness instead of strength, and laid our nation open to the charge of abandoning a fundamental doctrine of self-government. We favor an immediate declaration of the nation's purpose to recognize the independence of the Philippine Islands as soon as a stable government can be established, such independence to be guaranteed by us as we guarantee the independence of Cuba, until the neutralization of the islands can be secured by treaty with other powers. In recognizing the independence of the Philippines our Government should retain such land as may be necessary for coaling stations and naval bases.

Pan-American Relations.—The Democratic party recognizes the importance and advantage of developing closer ties of Pan-American friendship and commerce between the United States and her sister nations of Latin America, and favors the taking of such steps, consistent with Democratic policies, for better acquaintance, greater mutual confidence and larger exchange of trade as will bring lasting benefit not only to the United States but to this group of American republics having constitutions, forms of government, ambitions and interests akin to our own.

Telegraph and Telephone.—We pledge the Democratic party to the enactment of a law to regulate the rates and services of telegraph and telephone companies engaged in the transmission of messages between the States, under the jurisdiction of the Interstate Commerce Commission.

Asiatic Immigration.—We favor full protection, by both national and State governments within their respective spheres, of all foreigners residing in the United States under treaty, but we are opposed to the admission of Asiatic immigrants who can-

NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

not be amalgamated with our population, or whose presence among us would raise a race issue and involve us in diplomatic controversies with Oriental powers.

Alaska and Porto Rico.—We demand for the people of Alaska and Porto Rico the full enjoyment of the rights and privileges of a territorial form of government, and the officials appointed to administer the government of all our Territories and the District of Columbia should be thoroughly qualified by previous bona fide residence.

Hawaii.—We favor the application of the principles of the land laws of the United States to our newly acquired Territory, Hawaii, to the end that the public lands of that Territory may be held and utilized for the benefit of bona fide homesteaders.

Panama Canal.—We believe the Panama Canal will prove of great value to our country, and favor its speedy completion.

Foreign Patents.—We believe that where an American citizen holding a patent in a foreign country is compelled to manufacture under his patent within a certain time similar restrictions should be applied in this country to the citizens or subjects of such a country.

Conclusion.—The Democratic party stands for democracy; the Republican has drawn to itself all that is aristocratic and plutocratic.

The Democratic party is the champion of civil rights and opportunities to all; the Republican party is the party of privileges and private monopoly. The Democratic party listens to the voice of the whole people and gauges progress by the prosperity and advancement of the average man; the Republican party is subservient to the comparatively few who are the beneficiaries of governmental favoritism. We invite the co-operation of all, regardless of previous political affiliation or past differences, who desire to preserve a government of the people by the people and for the people, and who favor such an administration of the government as will insure, as far as human wisdom can, that each citizen shall draw from society a reward commensurate with his contribution to the welfare of society.

**PLATFORM OF THE REPUBLICAN PARTY, ADOPTED AT CHICAGO, ILL.,
JUNE 18, 1908.**

Once more the Republican party, in national convention assembled, submits its cause to the people. This great historic organization, that destroyed slavery, preserved the Union, restored credit, expanded the national domain, established a sound financial system, developed the industries and resources of the country and gave to the nation her seat of honor in the councils of the world, now meets the new problems of government with the same courage and capacity with which it solved the old.

Republicanism Under Roosevelt.—In this the great era of American advancement the Republican party has reached its highest service under the leadership of Theodore Roosevelt. His administration is an epoch in American history. In no other period since national sovereignty was won under Washington, or preserved under Lincoln, has there been such mighty progress in those ideals of government which make for justice, equality and fair dealing among men.

The highest aspirations of the American people have found a voice. Their most exalted servant represents the best aims and worthiest purposes of all his countrymen. American manhood has been lifted to a nobler sense of duty and obligation. Conscience and courage in public station and higher standards of right and wrong in private life have become cardinal principles of political faith; capital and labor have been brought into closer relations of confidence and interdependence, and the abuse of wealth, the tyranny of power and all the evils of privilege and favoritism have been put to scorn by the simple, manly virtues of justice and fair play.

The great accomplishments of President Roosevelt have been, first and foremost, a brave and impartial enforcement of the law, the prosecution of illegal trusts and monopolies, the exposure and punishment of evildoers in the public service, the more effective regulation of the rates and service of the great transportation lines, the complete overthrow of preferences, rebates and discriminations, the arbitration of labor disputes, the amelioration of the condition of wageworkers everywhere, the conservation of the natural resources of the country, the forward step in the improvement of the inland waterways, and always the earnest support and defence of every wholesome safeguard which has made more secure the guarantees of life, liberty and property.

These are the achievements that will make for Theodore Roosevelt his place in history, but more than all else the great things he has done will be an inspiration to those who have yet greater things to do. We declare our unflinching adherence to the policies thus inaugurated and pledge their continuance under a Republican administration of the government.

Equality of Opportunity.—Under the guidance of republican principles the American people have become the richest nation in the world. Our wealth to-day exceeds that of England and all her colonies, and that of France and Germany combined. When the Republican party was born the total wealth of the country was \$16,000,000,000. It has leaped to \$110,000,000,000 in a generation, while Great Britain has gathered but \$60,000,000,000 in 500 years. The United States now owns one-fourth of the world's wealth and makes one-third of all modern manufactured products. In the great necessities of civilization, such as coal, the motive power of all activity; iron, the chief basis of all industry; cotton, the staple foundation of all fabrics; wheat, corn and all the agricultural products that feed mankind, America's supremacy is undisputed. And yet her great natural wealth has been scarcely touched. We have a vast domain of 3,000,000 square miles, literally bursting with latent treasure, still waiting the magic of capital and industry to be converted to the practical uses of mankind; a country rich in soil and climate, in the unharnessed energy of its rivers and in all the varied products of the field, the forest and the factory. With gratitude for God's bounty, with pride in the splendid productiveness of the past and with confidence in the plenty and prosperity of the future the Republican party de-

NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

clares for the principle that in the development and enjoyment of wealth so great and blessings so benign there shall be equal opportunity for all.

The Revival of Business.—Nothing so clearly demonstrates the sound basis upon which our commercial, industrial and agricultural interests are founded, and the necessity of promoting their continued welfare through the operation of Republican policies as the recent safe passage of the American people through a financial disturbance which, if appearing in the midst of Democratic rule or the menace of it, might have equalled the familiar Democratic panics of the past. We congratulate the people upon the renewed evidence of American supremacy, and hail with confidence the signs now manifest of a complete restoration of business prosperity in all lines of trade, commerce and manufacturing.

Recent Republican Legislation.—Since the election of William McKinley, in 1896 the people of this country have felt anew the wisdom of intrusting to the Republican party through decisive majorities the control and direction of national legislation.

The many wise and progressive measures adopted at recent sessions of Congress have demonstrated the patriotic resolve of Republican leadership in the legislative department to keep step in the forward march toward better government.

Notwithstanding the indefensible filibustering of a Democratic minority in the House of Representatives during the last session, many wholesome and progressive laws were enacted, and we especially commend the passage of the Emergency Currency bill; the appointment of the national monetary commission; the employers' and government liability laws; the measures for the greater efficiency of the army and navy; the Widows' Pension bill; the child labor law for the District of Columbia; the new statutes for the safety of railroad engineers and firemen and many other acts conserving the public welfare.

Pledges for Future Tariff.—The Republican party declares unequivocally for a revision of the tariff by a special session of Congress immediately following the inauguration of the next President, and commends the steps already taken to this end in the work assigned to the appropriate committees of Congress, which are now investigating the operation and effect of existing schedules. In all tariff legislation the true principle of protection is best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries. We favor the establishment of maximum and minimum rates to be administered by the President under limitations fixed in the law, the maximum to be available to meet discriminations by foreign countries against American goods entering their markets, and the minimum to represent the normal measure of protection at home; the aim and purpose of the Republican policy being not only to preserve, without excessive duties, that security against foreign competition to which American manufacturers, farmers and producers are entitled, but also to maintain the high standard of living of the wage earners of this country, who are the most direct beneficiaries of the protective system. Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will afford adequate protection to domestic interests.

Currency.—We approve the emergency measures adopted by the Government during the recent financial disturbance, and especially commend the passage by Congress at the last session of the law designed to protect the country from a repetition of such stringency. The Republican party is committed to the development of a permanent currency system, responding to our greater needs, and the appointment of the national monetary commission by the present Congress, which will impartially investigate all proposed methods, insures the early realization of this purpose. The present currency laws have fully justified their adoption, but an expanding commerce, a marvellous growth in wealth and population, multiplying the centres of distribution, increasing the demand for the movement of crops in the West and South and entailing periodic changes in monetary conditions, disclose the need of a more elastic and adaptable system. Such a system must meet the requirements of agriculturists, manufacturers, merchants and business men generally, must be automatic in operation, minimizing the fluctuations in interest rates, and, above all, must be in harmony with that Republican doctrine which insists that every dollar shall be based upon and as good as gold.

Postal Savings.—We favor the establishment of a postal savings bank system for the convenience of the people and the encouragement of thrift.

Trusts.—The Republican party passed the Sherman anti-trust law over Democratic opposition, and enforced it after Democratic dereliction. It has been a wholesome instrument for good in the hands of a wise and fearless administration. But experience has shown that its effectiveness can be strengthened and its real objects better attained by such amendments as will give to the Federal Government greater supervision and control over, and secure greater publicity in, the management of that class of corporations engaged in interstate commerce having power and opportunity to effect monopolies.

Railroads.—We approve the enactment of the Railroad Rate law and the vigorous enforcement by the present administration of the statutes against rebates and discriminations, as a result of which the advantages formerly possessed by the large shipper over the small shipper have substantially disappeared; and in this connection we commend the appropriation by the present Congress to enable the Interstate Commerce Commission to thoroughly investigate, and give publicity to, the accounts of interstate railroads. We believe, however, that the interstate commerce law should be further amended so as to give railroads the right to make and publish traffic agreements subject to the approval of the commission, but maintaining always the principle of competition between naturally competing lines and avoiding the common control of such lines by any means whatsoever. We favor such national legislation and supervision as will prevent the future overissue of stocks and bonds by interstate carriers.

Railroad and Government Employees.—The enactment in constitutional form at the present session of Congress of the employers' liability law, the passage and enforcement of the safety appliance statutes, as well as the additional protection secured for engineers and firemen; the reduction in the hours of labor of trainmen and railroad telegraphers, the successful exercise of the powers of mediation and arbitration between interstate railroads and their employees, and the law making a beginning in the policy of

NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

compensation for injured employees of the Government, are among the most commendable accomplishments of the present administration. But there is further work in this direction yet to be done, and the Republican party pledges its continued devotion to every cause that makes for safety and the betterment of conditions among those whose labor contributes so much to the progress and welfare of the country.

Wage Earners Generally.—The same wise policy which has induced the Republican party to maintain protection to American labor, to establish an eight-hour day in the construction of all public works, to increase the list of employees who shall have preferred claims for wages under the bankruptcy laws, to adopt a child labor statute for the District of Columbia, to direct an investigation into the condition of working women and children, and, later, of employees of telephone and telegraph companies engaged in interstate business; to appropriate \$100,000 at the recent session of Congress in order to secure a thorough inquiry into the causes of catastrophes and loss of life in the mines, and to amend and strengthen the law prohibiting the importation of contract labor, will be pursued in every legitimate direction within Federal authority to lighten the burdens and increase the opportunity for happiness and advancement of all who toil. The Republican party recognizes the special needs of wage workers generally, for their wellbeing means the wellbeing of all. But more important than all other considerations is that of good citizenship, and we especially stand for the needs of every American, whatever his occupation, in his capacity as a self-respecting citizen.

Court Procedure.—The Republican party will uphold at all times the authority and integrity of the courts, State and Federal, and will ever insist that their powers to enforce their process and to protect life, liberty and property shall be preserved inviolate. We believe, however, that the rules of procedure in the Federal courts with respect to the issuance of the writ of injunction should be more accurately defined by statute, and that no injunction or temporary restraining order should be issued without notice, except where irreparable injury would result from delay, in which case a speedy hearing thereafter should be granted.

The American Farmer.—Among those whose welfare is as vital to the welfare of the whole country as is that of the wage earner is the American farmer. The prosperity of the country rests peculiarly upon the prosperity of agriculture. The Republican party during the last twelve years has accomplished extraordinary work in bringing the resources of the National Government to the aid of the farmer, not only in advancing agriculture itself, but in increasing the conveniences of rural life. Free rural mail delivery has been established; it now reaches millions of our citizens, and we favor its extension until every community in the land receives the full benefits of the postal service. We recognize the social and economic advantages of good country roads, maintained more and more largely at public expense and less and less at the expense of the abutting owner. In this work we commend the growing practice of State aid, and we approve the efforts of the national Agricultural Department by experiments and otherwise to make clear to the public the best methods of road construction.

The Negro.—The Republican party has been for more than fifty years the consistent friend of the American negro. It gave him freedom and citizenship. It wrote into the organic law the declarations that proclaim his civil and political rights, and it believes to-day that his noteworthy progress in intelligence, industry and good citizenship has earned the respect and encouragement of the nation. We demand equal justice for all men, without regard to race or color; we declare once more, and without reservation, for the enforcement in letter and spirit of the Thirteenth, Fourteenth and Fifteenth amendments to the Constitution, which were designed for the protection and advancement of the negro, and we condemn all devices that have for their real aim his disfranchisement for reasons of color alone, as unfair, un-American and repugnant to the supreme law of the land.

Natural Resources and Waterways.—We indorse the movement inaugurated by the administration for the conservation of natural resources; we approve all measures to prevent the waste of timber; we commend the work now going on for the reclamation of arid lands, and reaffirm the Republican policy of the free distribution of the available areas of the public domain to the landless settler. No obligation of the future is more insistent and none will result in greater blessings to posterity. In line with this splendid undertaking is the further duty, equally imperative, to enter upon a systematic improvement upon a large and comprehensive plan, just to all portions of the country, of the waterways, harbors and Great Lakes, whose natural adaptability to the increasing traffic of the land is one of the greatest gifts of a benign Providence.

The Army and Navy.—The present Congress passed many commendable acts increasing the efficiency of the army and navy; making the militia of the States an integral part of the national establishment; authorizing joint manoeuvres of army and militia, fortifying new naval bases and completing the construction of coaling stations; instituting a female nurse corps for naval hospitals and ships, and adding two new battleships, ten torpedo boat destroyers, three steam colliers and eight submarines to the strength of the navy. Although at peace with all the world and secure in the consciousness that the American people do not desire and will not provoke a war with any other country, we nevertheless declare our unalterable devotion to a policy that will keep this Republic ready at all times to defend her traditional doctrines, and assure her appropriate part in promoting permanent tranquillity among the nations.

Protection of American Citizenship Abroad.—We commend the vigorous efforts made by the administration to protect American citizens in foreign lands and pledge ourselves to insist on the just and equal protection of all our citizens abroad. It is the unquestioned duty of the Government to procure for all our citizens, without distinction, the rights of travel and sojourn in friendly countries, and we declare ourselves in favor of all proper efforts tending to that end.

Extension of Foreign Commerce.—Under the administration of the Republican party the foreign commerce of the United States has experienced a remarkable growth, until it has a present annual valuation of approximately \$3,000,000,000 and gives employment to a vast amount of labor and capital which would otherwise be idle. It has inaugurated through the recent visit of the Secretary of State to South America and Mexico

NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

a new era of Pan-American commerce and comity which is bringing us into closer touch with our twenty sister American republics, having a common historical heritage, a republican form of government and offering us a limitless field of legitimate commercial expansion.

Arbitration and Hague Treaties.—The conspicuous contributions of American statesmanship to the great cause of international peace so signally advanced in The Hague conferences, are an occasion for just pride and gratification. At the last session of the Senate of the United States eleven Hague conventions were ratified, establishing the rights of neutrals, laws of war on land, restriction of submarine mines, limiting the use of force for the collection of contractual debts, governing the opening of hostilities, extending the application of Geneva principles and in many ways lessening the evils of war and promoting the peaceful settlement of international controversies. At the same session twelve arbitration conventions with great nations were confirmed, and extradition, boundary and neutralization treaties of supreme importance were ratified. We indorse such achievements as the highest duty a people can perform and proclaim the obligation of further strengthening the bonds of friendship and good will with all the nations of the world.

Merchant Marine.—We adhere to the Republican doctrine of encouragement to American shipping and urge such legislation as will revive the merchant marine prestige of the country, so essential to national defence, the enlargement of foreign trade and the industrial prosperity of our own people.

Veterans of the Wars.—Another Republican policy which must ever be maintained is that of generous provision for those who have fought the country's battles and for the widows and orphans of those who have fallen. We commend the increase in the widows' pensions made by the present Congress and declare for a liberal administration of all pension laws, to the end that the people's gratitude may grow deeper as the memories of heroic sacrifice grow more sacred with the passing years.

Civil Service.—We reaffirm our declarations that the Civil Service laws, enacted, extended and enforced by the Republican party, shall continue to be maintained and obeyed.

Public Health.—We commend the efforts designed to secure greater efficiency in national public health agencies and favor such legislation as will effect this purpose.

Bureau of Mines and Mining.—In the interest of the great mineral industries of our country we earnestly favor the establishment of a bureau of mines and mining.

Cuba.—The American Government, in Republican hands, has freed Cuba, given peace and protection to Porto Rico and the Philippines under our flag, and begun the construction of the Panama Canal. The present conditions in Cuba vindicate the wisdom of maintaining between that republic and this imperishable bonds of mutual interest, and the hope is now expressed that the Cuban people will soon again be ready to assume complete sovereignty over their land.

Porto Rico.—In Porto Rico the Government of the United States is meeting loyal and patriotic support; order and prosperity prevail, and the wellbeing of the people is in every respect promoted and conserved.

We believe that the native inhabitants of Porto Rico should be at once collectively made citizens of the United States, and that all others properly qualified under existing laws residing in said island should have the privilege of becoming naturalized.

The Philippines.—In the Philippines insurrection has been suppressed, law is established and life and property are made secure. Education and practical experience there advancing the capacity of the people for government, and the policies of McKinley and Roosevelt are leading the inhabitants step by step to an ever increasing measure of home rule.

The Panama Canal.—Time has justified the selection of the Panama route for the great isthmian canal, and events have shown the wisdom of securing authority over the zone through which it is to be built. The work is now progressing with a rapidity far beyond expectation, and already the realization of the hopes of centuries has come within the vision of the near future.

New Mexico and Arizona.—We favor the immediate admission of the Territories of New Mexico and Arizona as separate States in the Union.

The Lincoln Centenary.—February 12, 1909, will be the one hundredth anniversary of the birth of Abraham Lincoln, an immortal spirit whose fame has brightened with the receding years and whose name stands among the first of those given to the world by the great Republic. We recommend that this centennial anniversary be celebrated throughout the confines of the nation by all the people thereof; and especially by the public schools as an exercise to stir the patriotism of the youth of the land.

Democratic Incapacity.—We call the attention of the American people to the fact that none of the great measures here advocated by the Republican party could be enacted and none of the steps forward here proposed could be taken under a Democratic administration or under one in which party responsibility is divided. The continuance of present policies, therefore, absolutely requires the continuance in power of that party which believes in them and which possesses the capacity to put them into operation.

Beyond all platform declarations there are fundamental differences between the Republican party and its chief opponent which make the one worthy and the other unworthy of public trust.

In history the difference between Democracy and Republicanism is that the one stood for debased currency, the other for honest currency; the one for free silver, the other for sound money; the one for free trade, the other for protection; the one for the contraction of American influence, the other for its expansion; the one has been forced to abandon every position taken on the great issues before the people, the other has held and vindicated all.

In experience the difference between Democracy and Republicanism is that one means adversity, while the other means prosperity; one means low wages, the other means high; one means doubt and debt, the other means confidence and thrift.

In principle the difference between Democracy and Republicanism is that one stands

NATIONAL PLATFORMS OF POLITICAL PARTIES—Continued.

for vacillation and timidity in government; the other for strength and purpose; one stands for obstruction, the other for construction; one promises, the other performs; one finds fault, the other finds work.

The present tendencies of the two parties are even more marked by inherent differences. The trend of Democracy is toward socialism, while the Republican party stands for wise and regulated individualism. Socialism would destroy wealth, Republicanism would prevent its abuse. Socialism would give to each an equal right to take; Republicanism would give to each an equal right to earn. Socialism would offer an equality of possession which would soon leave no one anything to possess; Republicanism would give equality of opportunity which would assure to each his share of a constantly increasing sum of possessions. In line with this tendency the Democratic party of to-day believes in Government ownership, while the Republican party believes in Government regulation. Ultimately Democracy would have the nation own the people, while Republicanism would have the people own the nation.

Conclusion.—Upon this platform of principles and purposes, reaffirming our adherence to every Republican doctrine proclaimed since the birth of the party, we go before the country, asking the support not only of those who have acted with us heretofore, but of all our fellow citizens who, regardless of past political differences, unite in the desire to maintain the policies, perpetuate the blessings and make secure the achievements of a greater America.

**PLATFORM OF THE PEOPLE'S PARTY, ADOPTED AT ST. LOUIS, MO.,
APRIL 3, 1908.**

Preamble.—The People's Party of the United States, in convention assembled, at St. Louis, Mo., this 2d day of April, 1908, which increased confidence in its contentions, reaffirms the declarations made by its first national convention at Omaha, in 1892.

The admonitions of Washington's farewell address; the state papers of Jefferson, and the words of Lincoln, are the teachings of our greatest apostles of human rights and political liberty. There has been a departure from the teaching of these great patriots during recent administrations. The Government has been controlled so as to place the rights of property above the rights of humanity, and has brought the country to a condition that is full of danger to our national wellbeing. Financial combinations have had too much power over Congress, and too much influence with the administrative departments of the Government.

Prerogatives of government have been unwisely and often corruptly surrendered to corporate monopoly and aggregations of predatory wealth. The supreme duty of the hour is for the people to insist that these functions of government be exercised in their own interest. Not the giver of life "thirty pieces of silver" has been condemned, but the "Judas" who received them, has been execrated through the ages. The sycophants of monopoly deserve no better fate.

Money.—The issuance of money is a function of government and should not be delegated to corporation or individual. The Constitution gives Congress alone the power to issue money and regulate the value thereof; we, therefore, demand that all money shall be issued by the Government direct to the people without the intervention of banks, and shall be a full legal tender for all debts, public and private, and in quantity sufficient to supply the needs of the country.

The issuance and distribution of full legal tender money from the Treasury, shall not be through private banks, preferred or otherwise, but direct to the people without interest, for the construction and purchase of Federal and internal improvements and utilities, and for the employment of labor.

We demand that postal savings banks be established by the Government for the safe deposit of the savings of the people.

Land.—The public domain is a sacred heritage of all the people and should be held for homesteads for actual settlers only. Alien ownership should be forbidden, and lands now held by aliens or by corporations, who have violated the conditions of their grants, should be restored to the public domain.

Trusts and Monopoly.—To prevent unjust discrimination and monopoly, the Government should own and control the railroads and those public utilities, which in their nature are monopolies. To perfect the postal service, the Government should own and operate the general telegraph and telephone systems and provide a parcels post.

As to those trusts and monopolies which are not public utilities or national monopolies, we demand that those special privileges which they now enjoy, and which alone enable them to exist, shall be immediately withdrawn.

Corporations being the creatures of government, should be subjected to such governmental regulation and control as will adequately protect the public.

We demand the taxation of monopoly privileges while they remain in private hands, to the extent of the value of the privilege granted.

We demand that Congress shall enact a general law uniformly regulating the powers and duties of all incorporated companies doing interstate business.

Initiative and Referendum.—As a means of placing all public questions directly under the control of the people, we demand that legal provision be made under which the people may exercise the initiative and referendum, proportional representation, and direct vote for all public officers, with the right of recall.

We recommend a Federal statute that will recognize the principle of the initiative and referendum, and thereby restore to the voters the right to instruct their national representatives.

Labor.—We believe in the right of those who labor, to organize for their mutual protection and benefit, and pledge the efforts of the People's Party to preserve this right inviolate.

NATIONAL PLATFORMS OF POLITICAL PARTIES—*Continued.*

We condemn the recent attempt to destroy the power of trades unions through the unjust use of the Federal injunction, substituting government by injunction for free government.

We favor the enactment of legislation looking to the improvement of conditions for wage earners.

We demand the abolition of child labor in factories and mines, and the suppression of sweat-shops.

We oppose the use of convict labor in competition with free labor.

We demand the exclusion from American shores of foreign pauper labor, imported to beat down the wages of intelligent American workingmen.

We favor the eight-hour work day, and legislation protecting the lives and limbs of workmen through the use of safety appliances.

We demand the enactment of an employers' liability act within constitutional bounds.

We declare against the continuation of the criminal carelessness in the operation of mines, through which thousands of miners have lost their lives to increase the dividends of stockholders, and demand the immediate adoption of precautionary measures to prevent a repetition of such horrible catastrophes.

We declare that in times of depression, when workingmen are thrown into enforced idleness, that works of public improvement should be at once inaugurated and work provided for those who cannot otherwise secure employment.

We especially emphasize the declaration of the Omaha platform, that "Wealth belongs to him who creates it and every dollar taken from industry without a just equivalent is robbery."

We congratulate the farmers of the country upon the enormous growth of their splendid organizations, and the good already accomplished through them, securing higher prices for farm products and better conditions generally, for those engaged in agricultural pursuits. We urge the importance of maintaining these organizations and extending their power and influence.

Courts.—We condemn all unwarranted assumption of authority by inferior Federal courts, in annulling, by injunction, the laws of the States, and demand legislative action by Congress, which will prohibit such usurpation, and will restrict to the Supreme Court of the United States, the exercise of power in cases involving State legislation.

Gambling in Futures.—We are opposed to gambling in futures.

Conclusion.—We present to all people the foregoing declaration of principles and policies as our deep, earnest and abiding convictions; and now, before the country and in the name of the great moral, but eternal power in the universe, that makes for right thinking and right living and determines the destiny of nations, this convention pledges that the People's Party will stand by these principles and policies in success and in defeat; that never again will the party be the siren songs and false promises of designing politicians, be tempted to change its course, or be drawn again upon the treacherous rocks of fusion.

PLATFORM OF THE INDEPENDENCE PARTY, ADOPTED AT CHICAGO, ILL., JULY 28, 1908.

We, Independent American citizens, representing the Independence party in forty-four States and two Territories, have met in national convention to nominate, absolutely independent of all other political parties, candidates for President and Vice-President of the United States.

Our action is based upon a determination to wrest the conduct of public affairs from the hands of selfish interests, political tricksters and corrupt bosses, and make the Government as the founders intended, an agency for the common good.

At a period of unexampled national prosperity and promise, a staggering blow was dealt to legitimate business by the unmolested practice of stock watering and dishonest financing. Multitudes of defenseless investors, thousands of honest business men and an army of idle workmen are paying the penalty. Year by year, fostered by wasteful and reckless governmental extravagance, by the manipulation of trusts and by a privilege creating tariff, the cost of living mounts higher and higher. Day by day the control of the Government drifts further away from the people and more firmly into the grip of machine politicians and party bosses.

The Republican and Democratic parties are not only responsible for these conditions, but are committed to their indefinite continuance. Prodigal of promises, they are so barren of performance that to a new party of independent voters the country must look for the establishment of a new policy and a return to genuine popular government.

Our object is not to introduce violent innovations or startling new theories. We of the Independence party look back, as Lincoln did, to the Declaration of Independence as the fountain-head of all political inspiration. It is not our purpose to attempt to revolutionize the American system of government, but to restore the action of the Government to the principles of Washington and Jefferson and Lincoln. It is not our purpose, either, to effect a radical change in the American system of government, but to conserve for the citizens of the United States their privileges and liberties won for them by the founders of this Government and to perpetuate the principles and policies upon which the nation's greatness has been built.

The Independence party is, therefore a conservative force in American politics, devoted to the preservation of American liberty and independence to honesty in elections, to opportunity in business and to equality before the law. Those who believe in the Independence party and work with it are convinced that a genuine democracy should exist; that a true republican form of government should continue; that the power of government should rest with the majority of the people, and that the Government should be conducted for the benefit of the whole citizenship, rather than for the special advantage of a particular class.

Direct Nominations.—As of first importance in order to restore the power of

NATIONAL PLATFORMS OF POLITICAL PARTIES.—Continued.

government to the people, to make their will supreme in the primaries, in the elections and in the control of public officials after they have been elected, we declare for direct nominations, the initiative and referendum and the right of recall.

It is idle to cry out against the evil of bossism while we perpetuate a system under which the boss is inevitable. The destruction of an individual boss is of little value. The people in their politics must establish a system which will eliminate not only an objectionable boss but the system of bossism. Representative government is made a mockery by the system of modern party conventions dominated by bosses and controlled by cliques. We demand the natural remedy of direct nominations by which the people not only elect, but which is far more important, select their representatives.

The Referendum.—We believe in the principle of the initiative and referendum, and we particularly demand that no franchise grant go into operation until the terms and conditions have been approved by popular vote in the locality interested.

Recall.—We demand for the people the right to recall public officials from the public service. The power to make officials reside in the people, and in them also should reside the power to unmake and remove from office any official who demonstrates his unfitness or betrays the public trust.

Election Corruption.—Of next importance in destroying the power of selfish special interests and the corrupt political bosses whom they control is to wrest from their hands their main weapon—the corruption fund. We demand severe and effective legislation against all forms of corrupt practice at the elections, and advocate prohibiting the use of any money at elections except for meetings, literature and the necessary travelling expenses of candidates. Bidding for votes, the Republican and Democratic candidates are making an outcry about publicity of contributions, although both the Republican and Democratic parties have for years consistently blocked every effort to pass a corrupt practices act. Publicity of contributions is desirable and should be required, but the main matter of importance is the use to which contributions are put. We believe that the dishonest use of money in the past, whether contributed by individuals or by corporations, has been chiefly responsible for the corruption which has undermined our system of popular government.

Economy.—We demand honest conduct of public office and businesslike and economical administration of public affairs, and we condemn the gross extravagance of Federal administration, and its appalling annual increase in appropriations. Unnecessary appropriations mean unnecessary taxes, and unnecessary taxes, whether direct or indirect, are paid by the people and add to the ever-increasing cost of living.

Overcapitalization.—We condemn the evil of overcapitalization. Modern industrial conditions make the corporation and stock company a necessity, but overcapitalization in corporations is as harmful and criminal as is personal dishonesty in an individual. Compelling the payment of dividends upon great sums that have never been invested, upon masses of watered stock not justified by the property, overcapitalization prevents the better wages, the better public service and the lower cost that should result from American inventive genius and that wide organization which is replacing costly individual competition. The collapse of dishonestly inflated enterprises robs investors, closes banks, destroys confidence and engenders panics. The Independence party advocates as a primary necessity for sounder business conditions and improved public service the enactment of laws, State and national, to prevent watering of stock, dishonest issues of bonds and other forms of corporation frauds.

Labor and Injunctions.—We denounce the so-called labor planks of the Republican and Democratic platforms as political buncombe and contemptible clap-trap unworthy of national parties claiming to be serious and sincere.

The Republican declaration that "no injunction or temporary restraining order should be issued without notice, except where irreparable injury would result from delay," is empty verbiage, for a showing of irreparable injury can always be made and is always made in ex parte affidavits.

The Democratic declaration that "injunctions should not be issued in any case in which injunctions should not issue if no industrial dispute were involved" is meaningless and worthless.

Such insincere and meaningless declarations place a low estimate upon the intelligence of the average American workman and exhibit either ignorance or indifference to the real interests of labor.

The Independence party condemns the arbitrary use of the writ of injunction and contempt proceedings as a violation of the fundamental American right of trial by jury.

From the foundation of our Government down to 1872 the Federal Judiciary act prohibited the issue of any injunction without reasonable notice until after a hearing. We assert that in all actions growing out of a dispute between employers and employees concerning terms or conditions of employment no injunction should issue until after a trial upon the merits, that such trial should be held before a jury and that in no case of alleged contempt should any person be deprived of liberty without a trial by jury.

The Independence party believes that the distribution of wealth is as important as the creation of wealth, and indorses these organizations among farmers and workers which tend to bring about a just distribution of wealth through good wages for workers and good prices for farmers, and which protect the employer and the consumer through equality of price for labor and for product, and we favor such legislation as will remove them from the operation of the Sherman anti-trust law.

We indorse the eight-hour work day favor its application to all Government employees and demand the enactment of laws requiring that all work done for the Government, whether Federal or State, and whether done directly or indirectly through contractors or sub-contractors shall be done on an eight-hour basis.

We favor the enactment of a law defining as illegal any combination or conspiracy to black list employees.

We demand protection for workmen through enforced use of standard safety appli-

NATIONAL PLATFORMS OF POLITICAL PARTIES.—Continued.

ances and provisions of hygienic conditions in the operation of factories, railways, mills, mines and all industrial undertakings.

We advocate State and Federal inspection of railways to secure a greater safety for railway employees and for the travelling public. We call for the enactment of stringent laws fixing employers' liabilities and a rigid prohibition of child labor through co-operation between the State governments and the National Government.

We condemn the manufacture and sale of prison made goods in the open market in competition with free labor manufactured goods. We demand that convicts shall be employed direct by the different States in the manufacture of products for use in State institutions and in making good roads, and in no case shall convicts be hired out to contractors or sub-contractors.

We favor the creation of a Department of Labor, including mines and mining, the head of which shall be a member of the President's Cabinet.

The great abuses of grain inspection, by which the producers are plundered, demand immediate and vigorous correction. To that end we favor Federal inspection under a strict civil service law.

Central Bank.—The Independence party declares that the right to issue money is inherent in the Government, and it favors the establishment of a central governmental bank, through which the money so issued shall be put into general circulation.

The Tariff.—We demand a revision of the tariff, not by the friends of the tariff, but by the friends of the people, and declare for a gradual reduction of tariff duties, with just consideration for the rights of the consuming public and of established industry. There should be no protection for oppressive trusts which sell cheaply abroad and take advantage of the tariff at home to crush competition, raise prices, control production and limit work and wages.

The Railroads.—The railroads must be kept open to all upon exactly equal terms. Every form of rebate and discrimination in railroad rates is a crime against business and must be stamped out. We demand adequate railroad facilities and advocate a bill empowering shippers in time of need to compel railroads to provide sufficient cars for freight and passenger traffic and other railroad facilities through summary appeal to the courts. We favor the creation of an Interstate Commerce Court, whose sole function it shall be to review speedily and enforce summarily the orders of the Interstate Commerce Commission. The Interstate Commerce Commission has the power to initiate investigation into the reasonableness of rates and practices and no increase in rates should be put into effect until opportunity for such investigation is afforded. The Interstate Commerce Commission should proceed at once with a physical valuation of railroads engaged in interstate commerce.

Trusts.—We believe that legitimate organizations in business designed to secure an economy of operation and increased production are beneficial wherever the public participates in the advantages which result. We denounce all combinations for restraint of trade and for the establishment of monopoly in all products of labor, and declare that such combinations are not combinations for production, but for extortion, and that activity in this direction is not industry, but robbery.

In cases of infractions of the Anti-Trust law or of the Interstate Commerce act, we believe in the enforcement of a prison penalty against the guilty and responsible individuals controlling the management of the offending corporations, rather than a fine imposed upon stockholders.

Public Ownership.—We advocate the extension of the principle of public ownership of public utilities, including railroads, as rapidly as municipal, State or National Government shall demonstrate ability to conduct public utilities for the public benefit. We favor specifically government ownership of the telegraphs, such as prevails in every other civilized country in the world, and demand as an immediate measure that the Government shall purchase and operate the telegraphs in connection with the postal service.

Parcels Post; Postal Banks.—The parcels post system should be rapidly and widely extended and Government postal savings banks should be established, where the people's deposits will be secure, the money to be loaned to the people in the locality of the several banks and at a rate of interest to be fixed by the Government.

Good Roads.—We favor the immediate development of a national system of good roads connecting all States, and national aid to States in the construction and maintenance of post roads.

Postal Censorship.—We favor a court review of the censorship and arbitrary rulings of the Post-Office Department.

Statehood of Arizona and New Mexico.—We favor the admission of Arizona and New Mexico into separate Statehood.

Bucket Shop Suppression.—We advocate such legislation, both State and national, as will suppress the bucket shop and prohibit the fictitious selling of farm products for future delivery.

National Health Bureau.—We favor the creation of a national department of public health, to be presided over by a member of the medical profession, this department to exercise such authority over matters of public health, hygiene and sanitation which come properly within the jurisdiction of the National Government, and do not interfere with the right of States or municipalities.

Asiatic Exclusion.—We oppose Asiatic immigration which does not amalgamate with our population, creates race issues and un-American conditions, and which reduces wages and tends to lower the high standard of living and the high standard of morality which American civilization has established.

We demand the passage of an exclusion act which shall protect American workmen from competition with Asiatic cheap labor and which shall protect American civilization from the contamination of Asiatic conditions.

The Navy.—The Independence party declares for peace and against aggression and will promote the movement for the settlement of international disputes by arbitration.

We believe, however, that a small navy is poor economy and that a strong navy is

NATIONAL PLATFORMS OF POLITICAL PARTIES.—Continued.

the best protection in time of war and the best preventive of war. We, therefore, favor the speedy building of a navy sufficiently strong to protect at the same time both the Atlantic and Pacific coasts of the United States.

Waterways and Resources.—We rejoice in the adoption of both the Democratic and Republican platforms of the demand of the Independence party for improved national waterways and the Mississippi inland deep waterways project, to complete a ship canal from the Gulf to the Great Lakes. We favor the extension of this system to the tributaries of the Mississippi by means of which thirty States shall be served and 20,000 miles added to the coast line of the United States. The reclamation of arid lands should be continued and the irrigation programme now contemplated by the Government extended and steps taken for the conservation of the country's natural resources, which should be guarded not only against devastation and waste, but against falling into the control of the monopoly. The abuses growing out of the administration of our forest preserves must be corrected and provision should be made for free grazing from public lands outside of forest or other reservations. In behalf of the people residing in arid portions of our Western States we protest vigorously against the policy of the Federal Government in selling the exclusive use of water and electric light power derived from public works to private corporations, thus creating a monopoly and subjecting citizens living in those sections to exorbitant charges for light and power, and diverting enterprises originally started for public benefit into channels for corporate greed and oppression, and we demand that no more exclusive contracts be made.

Protection of Citizens Abroad.—American citizens abroad, whether native born or naturalized, and of whatever race or creed must be secured in the enjoyment of all rights and privileges under our treaties, and wherever such rights are withheld by any country on the ground of race or religious faith, steps should be taken to secure the removal of such unjust discrimination.

Popular Election of Senators.—We advocate the popular election of United States Senators and of judges, both State and Federal, and favor a graduated income tax and any constitutional amendment necessary to these ends.

Equality and Opportunity.—Equality and opportunity, the largest measure of individual liberty consistent with equal rights, the overthrow of the rule of special interest and the restoration of government by the majority exercised for the benefit of the whole community; these are the purposes to which the Independence party is pledged, and we invite the co-operation of all patriotic and progressive citizens, irrespective of party, who are in sympathy with these principles and in favor of their practical enforcement.

**PLATFORM OF THE SOCIALIST PARTY, ADOPTED AT CHICAGO, ILL.
MAY 13, 1908.**

The Socialist party, in national convention assembled, again declares itself as the party of the working class, and appeals for the support of all workers of the United States and of all citizens who sympathize with the great and just cause of labor.

We are at this moment in the midst of one of those industrial breakdowns that periodically paralyze the life of the nation. The much-boasted era of our national prosperity has been followed by one of general misery. Factories, mills, and mines are closed. Millions of men, ready, willing and able to provide the nation with all the necessaries and comforts of life are forced into idleness and starvation.

Within recent times the trusts and monopolies have attained an enormous and menacing development. They have acquired the power to dictate the terms upon which we shall be allowed to live. The trusts fix the prices of our bread, meat, and sugar, of our coal, oil, and clothing, of our raw material and machinery, of all the necessities of life.

The present desperate condition of the workers has been made the opportunity for a renewed onslaught on organized labor. The highest courts of the country have within the last year rendered decision after decision depriving the workers of rights which they had won by generations of struggle.

The attempt to destroy the Western Federation of Miners, although defeated by the solidarity of organized labor and the Socialist movement, revealed the existence of a far-reaching and unscrupulous conspiracy by the ruling class against the organizations of labor.

In their efforts to take the lives of the leaders of the miners the conspirators violated state laws and the Federal Constitution in a manner seldom equalled even in a country so completely dominated by the profit-seeking class as is the United States.

The Congress of the United States has shown its contempt for the interests of labor as plainly and unmistakably as have the other branches of government. The laws for which the labor organizations have continually petitioned have failed to pass. Laws ostensibly enacted for the benefit of labor have been distorted against labor.

The working class of the United States cannot expect any remedy for its wrongs from the present ruling class or from the dominant parties. So long as a small number of individuals are permitted to control the sources of the nation's wealth for their private profit in competition with each other and for the exploitation of their fellowmen, industrial depressions are bound to occur at certain intervals. No currency reforms or other legislative measures proposed by capitalist reformers can avail against these fatal results of utter anarchy in production.

Individual competition leads inevitably to combinations and trusts. No amount of Government regulation or of publicity or of restrictive legislation will arrest the natural course of modern industrial development.

While our courts, legislatures and executive offices remain in the hands of the ruling classes and their agents, the Government will be used in the interests of these classes as against the toilers.

Political parties are but the expression of economic class interests. The Republican,

NATIONAL PLATFORMS OF POLITICAL PARTIES.—Continued.

the Democratic, and the so-called "Independence" parties and all parties other than the Socialist party, are financed, directed, and controlled by the representatives of different groups of the ruling class.

In the maintenance of class government both the Democratic and Republican parties have been equally guilty. The Republican party has had control of the National Government and has been directly and actively responsible for these wrongs. The Democratic party, while saved from direct responsibility by its political impotence, has shown itself equally subservient to the aims of the capitalist class whenever and wherever it has been in power. The old chattel slave owning aristocracy of the South, which was the backbone of the Democratic party, has been supplanted by a child slave plutocracy. In the great cities of our country the Democratic party is allied with the criminal element of the slums as the Republican party is allied with the predatory criminals of the palace in maintaining the interest of the possessing class.

The various "reform" movements and parties which have sprung up within recent years are but the clumsy expression of widespread popular discontent. They are not based on an intelligent understanding of the historical development of civilization and of the economic and political needs of our time. They are bound to perish as the numerous middle class reform movements of the past have perished.

As measures calculated to strengthen the working class in its fight for the realization of this ultimate aim, and to increase its power of resistance against capitalist oppression, we advocate and pledge ourselves and our elected officers to the following programme.

General Demands. 1—The immediate Government relief for the unemployed workers by building schools, by reforesting of cutover and waste lands, by reclamation of arid tracts, and the building of canals, and by extending all other useful public works. All persons employed on such works shall be employed directly by the Government under an eight-hour work-day and at the prevailing union wages. The Government shall also loan money to States and municipalities without interest for the purpose of carrying on public works. It shall contribute to the funds of labor organizations for the purpose of assisting their unemployed members, and shall take such other measures within its power as will lessen the widespread misery of the workers caused by the misrule of the capitalist class.

2—The collective ownership of railroads, telegraphs, telephones, steamship lines and all other means of social transportation and communication, and all land.

3—The collective ownership of all industries which are organized on a national scale and in which competition has virtually ceased to exist.

4—The extension of the public domain to include mines, quarries, oil wells, forest, and water power.

5—The scientific reforestation of timber lands, and the reclamation of swamp lands. The land so reforested or reclaimed to be permanently retained as a part of the public domain.

6—The absolute freedom of press, speech and assemblage.

Industrial Demands. 7—The improvement of the industrial condition of the workers.

(a)—By shortening the workday in keeping with the increased productiveness of machinery.

(b)—By securing to every worker a rest period of not less than a day and a half in each week.

(c)—By securing a more effective inspection of workshops and factories.

(d)—By forbidding the employment of children under sixteen years of age.

(e)—By forbidding the interstate transportation of the products of child labor, of convict labor, and of all uninspected factories.

(f)—By abolishing official charity and substituting in its place compulsory insurance against unemployment, illness, accidents, invalidism, old age, and death.

Political Demands. 8—The extension of inheritance taxes, graduated in proportion to the nearness of kin.

9—A graduated income tax.

10—Unrestricted and equal suffrage for men and women, and we pledge ourselves to engage in an active campaign in that direction.

11—The initiative and referendum, proportional representation and the right of recall.

12—The abolition of the Senate.

13—The abolition of the power usurped by the Supreme Court of the United States to pass upon the constitutionality of legislation enacted by Congress. National laws to be repealed or abrogated only by act of Congress or by a referendum of the whole people.

14—That the Constitution be made amendable by majority vote.

15—The enactment of further measures for general education and for the conservation of health. The Bureau of Education to be made a department. The creation of a department of Public Health.

16—The separation of the present Bureau of Labor from the Department of Commerce and Labor, and the establishment of a Department of Labor.

17—That all judges be elected by the people for short terms, and that the power to issue injunctions shall be curbed by immediate legislation.

18—The free administration of justice.

Such measures of relief as we may be able to force from capitalism are but a preparation of the workers to seize the whole powers of Government, in order that they may thereby lay hold of the whole system of industry and thus come to their rightful inheritance.

PLATFORM OF THE SOCIALIST LABOR PARTY, ADOPTED AT NEW YORK, JULY, 1908.

The Socialist Labor party of America, in convention assembled, reasserts the inalienable right of man to life, liberty, and the pursuit of happiness.

We hold that the purpose of government is to secure to every citizen the enjoyment of this right; but, taught by experience, we hold furthermore that such right is illusory to the majority of the people, to wit, the working class, under the present system of economic inequality that is essentially destructive of their life, their liberty, and their happiness.

We hold that the true theory of politics is that the machinery of government must be controlled by the whole people; but again, taught by experience, we hold, furthermore, that the true theory of economics is that the means of production must likewise be owned, operated and controlled by the people in common. Man cannot exercise his right of life, liberty and the pursuit of happiness without the ownership of the land on and the tools with which to work. Deprived of these, his life, his liberty, and his fate fall into the hands of the class that owns those essentials for work and production.

We hold that the existing contradiction between the theory of democratic government and the fact of a despotic economic system—the private ownership of the natural and social opportunities—divides the people into two classes—the capitalist class and the working class; throws society into the convulsions of the class struggle, and perverts government to the exclusive benefit of the capitalist class.

Thus labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessities of life.

Against such a system the Socialist Labor party raises the banner of revolt, and demands the unconditional surrender of the capitalist class.

The time is fast coming when, in the natural course of social evolution, this system, through the destructive action of its failures and crisis on the one hand, and the constructive tendencies of its trusts and other capitalist combinations on the other hand, will have worked out its own downfall.

We, therefore, call upon the wage-workers of America to organize under the banner of the Socialist Labor party into a class-conscious body, aware of its rights, and determined to conquer them.

And we also call upon all other intelligent citizens to place themselves squarely upon the ground of working-class interests, and join us in this mighty and noble work of human emancipation, so that we may put summary end to the existing barbarous class conflict by placing the land and all the means of production, transportation and distribution into the hands of the people as a collective body, and substituting the co-operative commonwealth for the present state of planless production, industrial war and social disorder—a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

PLATFORM OF THE PROHIBITION PARTY ADOPTED AT COLUMBUS, OHIO, JULY 16, 1908.

The Prohibition party of the United States, assembled in convention at Columbus, Ohio, July 15-16, 1908, expressing gratitude to almighty God for the victories of our principles in the past, for encouragement at present, and for confidence in early and triumphant success in the future, makes the following declaration of principles, and pledges their enactment into law when placed in power:

1. The submission by Congress to the several States, of an amendment to the Federal constitution prohibiting the manufacture, sale, importation, exportation, or transportation of alcoholic liquors for beverage purposes.

2. The immediate prohibition of the liquor traffic for beverage purposes in the District of Columbia, in the Territories and all places over which the National Government has jurisdiction; the repeal of the internal revenue tax on alcoholic liquors and the prohibition of interstate traffic therein.

3. The election of United States Senators by direct vote of the people.

4. Equitable graduated income and inheritance taxes.

5. The establishment of postal savings banks and the guaranty of deposits in banks.

6. The regulation of all corporations doing an interstate commerce business.

7. The creation of a permanent tariff commission.

8. The strict enforcement of law instead of official tolerance and practical license of the social evil which prevails in many of our cities, with its unspeakable traffic in girls.

9. Uniform marriage and divorce laws.

10. An equitable and constitutional employers' liability act.

11. Court review of post-office department decisions.

12. The prohibition of child labor in mines, workshops and factories.

13. Legislation basing suffrage only upon intelligence and ability to read and write the English language.

14. The preservation of the mineral and forest resources of the country, and the improvement of the highways and waterways.

Believing in the righteousness of our cause and the final triumph of our principles, and convinced of the unwillingness of the Republican and Democratic parties to deal with these issues, we invite to full party fellowship all citizens who are with us agreed.

State Party Platforms of 1909 on National Issues.

THERE were but few State conventions of political parties in 1909. The larger part of the platforms of those which met were devoted to local issues. The following were the references to national affairs.

REVISION OF THE TARIFF.

Massachusetts Democratic—The Democracy of Massachusetts in convention assembled pledges itself to * * * the immediate reduction of the tariff duties on the necessities of life.

Massachusetts Republican—The pledge of the party to revise the tariff was speedily redeemed at the special session of Congress called for that purpose by President Taft. The reductions in duty made by the Paine act so greatly outnumber the increases as to stamp it effectively as a general downward revision. Duties were removed or much reduced upon materials that underlie great industries, and such reductions were amply compensated for by the reduction of duties upon the finished products. We believe that this act is of more value to the laboring interests of the United States than any measure that has ever been enacted, and that it will bring more prosperity and more comfort to more people than were ever before affected by any one act of industrial legislation. We believe the welfare of the country will be better served by giving this legislation a fair trial than by agitation for further changes, and that such agitation can only result in uncertainty and hesitation, more harmful than any evil which it is proposed to cure. Therefore, we would discourage the attempt of those dissatisfied men who have always been hostile to that fundamental principle of the Republican party, the protection of American industries, and who seek to arouse a popular demand for a further revision at the present time.

Nebraska Republican—We approve, commend, and unqualifiedly indorse the stand taken by President Taft in the matter of tariff revision. We are counting on him to see to it that the party's platform promise of revision is redeemed by the enactment of a tariff bill acceptable to the people, and we would approve of his veto of any bill that does not conform to his construction of the platform pledge, which he has said means "revision downward within the limitations of the protective principle." We look to our Senators and Representatives in Congress to sustain the President in this position, and we commend them for their efforts in support of the party pledge and the President's policies.

Pennsylvania Democratic—As an imposition upon the consumer and wage-earner we condemn the pending tariff law passed by the House of Representatives, and declare that its provisions are in direct violation of the promises of the Republican party and its platform, and as framed for the benefit of special interests and against those who purchase the necessities of life. As citizens of the greatest manufacturing and industrial State in the nation we recommend and declare for the establishment of a permanent and expert Tariff Commission, whose tenure of office shall be so fixed as to not be subject to political influence or whim, and whose duties shall be advisory to Congress in regard to changes in existing tariff laws, in order that the tariff system may be expertly equalized, and necessary alterations made from time to time, as existing conditions demand, without subjecting the entire system to reconstruction, which always brings business depression and financial disaster.

Pennsylvania Republican—We stand as we have always stood for the policy of protection to American labor and American industry. The Republican party is fulfilling its promise to revise the tariff and we believe that such revision should be a true revision and not an attempt to merely put rates up and down. Revision should make reductions in rates when they can be wisely made, advances when they are absolutely needed to protect an industry, improvement in classifications, and finally provision for new articles and processes which have come into use since 1897. The position taken by the Republican Senators and Representatives from Pennsylvania and their intelligent, energetic and effective work in the task of revising the tariff meet our most cordial approbation.

Rhode Island Democratic—We condemn the Aldrich tariff law as the most outrageously unfair tariff ever enacted by an American Congress, and to the consumers of the country we acknowledge, with shame, that the author of this law is a representative of this State.

Rhode Island Republican—We congratulate this State and the country on the promptness and efficiency by which the Republican administration in Congress secured the passage of the recent tariff bill, which will assure to the citizens of this country, and especially this State, a season of prosperity more universal and more enduring than they have heretofore enjoyed. This measure protects American labor more directly and exclusively than any enactments heretofore passed. It is criticised only by those who always have been and are opposed to the protection of American labor and American industries. If given a fair trial this measure will add wealth, comfort and happiness to every laborer, farmer, operative and to every industry, great and small. The people of the State of Rhode Island are justly proud of the fact that the enactment of this important measure was largely the result of the efforts of that eminent statesman, Nelson W. Aldrich, senior Senator from this State. In behalf of the people of busy Rhode Island we express our gratitude to Senator Aldrich for his efficient and untiring efforts in advancing American prosperity.

Virginia Republican—We approve the action of the Congress of the United States in adopting an act which increases the taxes laid for revenue purposes upon luxuries and so adjusts the tariff duties laid upon necessities as to promote the development of the national industries; to protect American workmen in the higher scale of wages which they enjoyed over foreign workmen; to keep the American market for American products, and thus ministering to the general welfare to advance the prosperity of all the American people.

FEDERAL TAX ON INCOMES.

Nebraska Republican—We approve and indorse the Brown resolution, adopted by Congress, submitting to the several States for their action a proper constitutional amendment empowering the Federal Government to levy and collect taxes on incomes.

Massachusetts Democratic—The Democracy of Massachusetts in convention assembled pledges itself to * * * the income tax.

Massachusetts Republican—The Republican party of Massachusetts has always

STATE PARTY PLATFORMS OF 1909 ON NATIONAL ISSUES—Continued.

favored an income tax. It has been committed for many years to legislation based on the principle that the burden of taxation should be distributed so as to bear most heavily upon those best able to sustain it. For more than fifty years an income tax has been collected in this State for local uses. A Republican Congress has submitted a constitutional amendment to be voted on by the various State Legislatures to determine whether or not the right to levy an income tax now denied by the Federal Constitution shall be given to the United States Government. The question, therefore, presented to the people of this State is not the question of the imposition of an income tax, but rather of its disposition, or else it is the question of a double income tax. It is a question whether such a tax shall be collected for local uses or for national uses, or else it is a question whether one such tax shall be collected for local uses and another for national uses. We believe that this question is one that should be decided by the Legislature not as a political issue, but as a practical question, after full examination and having due regard to the relative needs and the sources of revenue of the national and local governments.

Maryland Republican—We favor the ratification by the Legislature of an amendment to the Constitution of the United States authorizing Congress to levy a tax on incomes.

Pennsylvania Democratic—Believing that all should pay proportionately for the protection and benefits of a popular government, we favor an income tax as part of our revenue system, and declare for the proposed constitutional amendment specifically authorizing Congress to levy and to collect tax upon individual and corporate incomes, to the end that wealth may bear its due share of the burdens of Federal Government.

Rhode Island Democratic—An income tax is the fairest tax ever devised, and we pledge the vote of every Democratic member of the incoming General Assembly in support of the income tax amendment to the National Constitution.

Rhode Island Republican—We deem it best that the Legislature, without regard to party consideration, take such action as may seem best concerning the Federal income tax. It is a financial question and should not be considered as a question of party politics.

LABOR LEGISLATION.

Massachusetts Democratic—The Democracy of Massachusetts in convention assembled pledges these principles: * * * For the workman wages, conditions and hours of labor, and prices for the necessities of life consistent with the development of the faculties, the preservation of health, the maintenance and education of children, the embodiment of American ideals in citizenship.

Massachusetts Republican—We maintain that the Republican party has been the true friend of labor throughout all its existence, beginning with its initial struggle for the rights of men. We believe that that party is the best friend of labor that makes the conditions such as to create the greatest demand for labor. The Republican party does not endorse every cause advocated in labor's name, but only such as are consistent with labor's actual rather than its alleged welfare. We confidently point to the statutes of Massachusetts, all enacted by Republican Legislatures, as being the most enlightened, the most humane and the most genuinely protective of labor's real interests of those upon any statute book in the Union. We welcome suggestions and measures that will, in fact, tend to further safeguard or to improve the welfare of the worker, upon whose faithful service the prosperity of the State has always rested.

Pennsylvania Democratic—We deplore the continued existence of labor troubles in our Commonwealth, affecting important industries and vast numbers of people, and counsel moderation, concession and arbitration, so that fair dealing and adjustment may be reached. While we concede to capital and employers the utmost protection guaranteed by the Constitution and the laws, we maintain that labor has the right also to that protection which comes through organization and union. Labor unions organized for the betterment of the condition of wage-earners, acting within the limits of the law, and not subversive of public order or individual rights, are not only lawful but commendable, and should be met, recognized and dealt with accordingly. The right of laborers to organize within these limitations is as sacred as any other right of person or property, and we condemn alike all resorts to violence on the one hand or stubborn refusal to arbitrate on the other.

MISCELLANEOUS.

Maryland Democratic (Negro Suffrage)—The Democratic party pledged the people of Maryland in the campaign of 1907 that, if given the power, it would again submit for their adoption an amendment to our Constitution for the purpose of excluding the illiterate negro vote. That campaign resulted in a great Democratic victory, and in redemption of our pledge a suffrage amendment, prepared by a conference of eminent and public-spirited lawyers, was adopted by a Democratic General Assembly and is now before the people. We declare that the adoption of this amendment is the main and vital issue of the coming election. Proposed as a measure of Democratic policy, in obedience to the deliberate expressed sense of the masses of our white people, its adoption is urged upon Democrats and Republicans alike as a distinctively non-partisan reform now imperatively demanded by a just consideration of the best interests of the State. We here emphasize with all possible force that the proposed amendment with the utmost care fully protects the right to vote of the foreign-born citizens of this State, and that all statements which have been made to the contrary are absolutely untrue. The Democratic party is to-day, as it has always been, and especially so in Maryland, the firm and faithful protector of all the civil and political rights of the naturalized American citizens, and we emphatically assert that they will not, and cannot, be disfranchised by any conceivable method whatsoever under this amendment.

Maryland Republican (Negro Suffrage)—Republicans in Maryland claim help from all good citizens, whatever their politics or party; from all sincere friends of honest government and pure politics, in defeating the proposed amendment to our State Constitution, which we accept as the paramount issue in this campaign. Like the amendment rejected by the people four years ago, this measure would make of Maryland a one-party State, subject, with no hope of rescue, to the misuse of those selfish and unscrupulous men, long supreme in the Democratic party organization, against whose methods and aims thousands of Democrats have again and again protested at the polls. It would render powerless for good independent voters, reform organizations and a free press, and thus virtually destroy

STATE PARTY PLATFORMS OF 1909 ON NATIONAL ISSUES—Continued.

the salutary influence of public opinion on our State and city governments. This amendment would rob thousands of worthy citizens of rights solemnly assured them by the supreme law of the land. It is a scheme long meditated and carefully planned to make and keep Maryland under the control of the political party now dominant, and, as now organized, regardless of her people's wishes, and at the same time to insure to the men who make up the political organization now in power perpetual control of their own party, and through it the State Government—a control to be used in the future, as it has been in the past, for their own selfish ambitions and fraudulent aims and purposes, without regard to the fair fame or vital interests of our State. Condemned by enlightened public opinion throughout the Union, its adoption would be a discredit to our State, an insult and a grievance to our foreign-born citizens, and a grave menace to free government in Maryland.

Massachusetts Democratic (Reciprocity with Canada)—The Democracy of Massachusetts in convention assembled pledges itself to * * * a comprehensive reciprocal trade treaty with Canada not confined to any competitive products. (Anti-Imperialism)—To Anti-Imperialism. (Election of United States Senators)—The election of United States Senators by direct popular vote. (Special Privileges)—The Democratic party is unalterably opposed to special privileges; it harbors no hostility to wealth, but demands equal opportunities to all, for the manufacturer, the merchant, the farmer and small firm, from unjust discrimination and the operation of monopolies.

Massachusetts Republican (Conservation of Natural Resources)—We believe in the conservation of the natural resources of the State, and particularly do we favor as a wise economic policy such further legislation as may be necessary for the protection of forests and the encouragement of their cultivation. (Marine Subsidies)—We commend the action of the Senators from Massachusetts and of our Republican Congressmen in voting for the ocean mail bill, which provided for the creation of regular American mail steamship lines, where none now exist, direct from our ports to South America, Australasia and the Philippines, and regret that this bill, which meant so much to the commercial interests of Massachusetts, was defeated through the votes of Democratic Congressmen from this State. We believe legislation should be enacted by Congress that will provide for an effective method of building up a strong merchant marine, thus opening an attractive field for the employment of capital and labor, providing new markets for the country's products and giving to the nation a much-needed reserve of auxiliary ships and seamen.

Pennsylvania Democratic (Pensions)—We hereby declare for liberal pensions to the survivors of the late civil war and their widows, recognizing the service that these men gave to the State and nation.

Pennsylvania Republican (Pensions to Soldiers)—In grateful acknowledgment of our country's debt of gratitude to the soldiers and sailors of our civil war, we commend the pensions heretofore granted them and urge our Senators and Representatives in Congress to support at all times such further appropriate legislation as may be necessary to care for them in the increase of infirmity and suffering which added years may bring.

Rhode Island Democratic (Election of United States Senators)—We reiterate our demand for the election of United States Senators by direct vote of the people, and assert that under such a system Nelson W. Aldrich would not be returned to the Senate from this State.

Virginia Republican (American Navy)—We favor a navy large enough to care for all American interests. (Railroads)—We commend the Republican legislation putting railroads and other inter-State corporations under the control of the Federal law. (Pure Foods)—We favor the enactment of such State laws as will conform to the pure food laws of the United States in protecting the people from impure foods, drugs and drinks. (Confederate Pensions)—We recognize the Confederate veteran as the proper object of the State's tenderest regard. It is a debt due to him by the State to see that his declining years are spent in comfort and personal independence. His courage and his patriotism are the objects of our veneration.

PLATFORM OF THE NEW YORK DEMOCRATIC LEAGUE.

ADOPTED AT THE CONFERENCE OF DEMOCRATS AT SARATOGA, N. Y., SEPTEMBER, 10, 1909.

Equal and uniform taxation, taking no more money from the people than the just needs of government economically administered requires.

The abandonment at the earliest moment practicable of our imperialistic venture in the Philippine Islands, first safeguarding their independence by sufficient guarantees.

Steady adherence to the principle of home rule and local self-government by the State and each of its political subdivisions.

Rigid economy in Government expenditures.

Enforcement of Federal and State laws against criminal trusts and combinations in restraint of trade.

Election of United States Senators by the direct vote of the people.

Reform in our registration and in enrolment laws, so that personal registration and enrolment shall be required in every political subdivision of the State. Reform in our methods of election, so that each elective officer shall be the separate, deliberate and intelligent selection of the voters of the State.

Reform in our methods of nominating candidates for public office, so that nominating conventions shall be composed of representatives directly chosen by the members of the party.

Reform in our primary laws, so as to give to every citizen greater direct influence in naming candidates for office and surrounding the primaries with such safeguards as will insure their honesty and providing the necessary time and legal machinery to insure the choice of a majority of the voters being respected and enforced in convention and committee.

No interference with the personal liberty of any citizen except such as is essential to secure the equal rights of all the citizens.

Taxation of corporations by the States alone.

A constitutional amendment authorizing the levy of a Federal income tax.

Political Record of 1909.

- Jan. 11. Presidential electors met in all the States. There were 321 votes for Taft and Sherman, Republican candidates for President and Vice-President, and 162 votes for Bryan and Kern, the candidates of the Democrats.
- Jan. 12. California Legislature re-elected George C. Perkins (Rep.) United States Senator, by a vote on joint ballot of 88 to 30.
- Jan. 12. Idaho Legislature re-elected Weldon B. Heyburn (Rep.) United States Senator.
- Jan. 13. Ohio Legislature elected Theodore E. Burton (Rep.) United States Senator.
- Jan. 19. Governor Patterson, of Tennessee, vetoed the State-wide Prohibition bill passed by the Legislature. It was afterward passed and went into effect July 1.
- Jan. 19. Arkansas Legislature re-elected James P. Clark (Dem.) United States Senator, the vote on joint ballot being unanimous, except that Harry H. Meyers (Rep.) received 5 votes in the House.
- Jan. 19. Indiana Legislature elected Benjamin F. Shively (Dem.) United States Senator.
- Jan. 19. Iowa Legislature elected Albert B. Cummins (Rep.) United States Senator, the vote on joint ballot being: Cummins, 112; Claude R. Porter (Dem.), 40.
- Jan. 19. New Hampshire Legislature re-elected Jacob H. Gallinger (Rep.) United States Senator, the vote on joint ballot being: Gallinger, 253; Oliver E. Branch (Dem.), 108.
- Jan. 19. North Carolina Legislature elected Lee S. Overman (Dem.) United States Senator, the vote on joint ballot being: Overman, 126; Spencer B. Adams (Rep.), 37.
- Jan. 19. North Dakota Legislature elected Martin N. Johnson (Rep.) United States Senator.
- Jan. 19. Oklahoma Legislature re-elected Thomas P. Gore (Dem.) United States Senator over Dennis T. Flynn (Rep.).
- Jan. 19. Oregon Legislature elected George E. Chamberlain (Dem.) United States Senator, the vote on joint ballot being: Chamberlain, 53; Charles W. Fulton (Rep.), 21; Henry M. Calk, 17. Chamberlain was the choice of the popular primaries, although the Legislature was Republican.
- Jan. 19. Pennsylvania Legislature re-elected Boies Penrose (Rep.) United States Senator, the vote on joint ballot being: Penrose, 198; Dimerling (Dem.), 42; Stuart, 1; Potter, 1; Shertz, 1.
- Jan. 19. South Dakota Legislature elected Coe I. Crawford (Rep.) United States Senator, the vote on joint ballot being: Crawford, 134; Andrew B. Lee (Dem.), 9.
- Jan. 19. Utah Legislature re-elected Reed Smoot (Rep.) United States Senator.
- Jan. 19. Washington State Legislature elected Wesley L. Jones (Rep.) United States Senator, the vote on joint ballot being: Jones, 89; Cottrell (Dem.), 5.
- Jan. 20. Colorado Legislature elected Charles J. Hughes, Jr. (Rep.) United States Senator.
- Jan. 20. Connecticut Legislature re-elected Frank B. Bandagee (Rep.) United States Senator, the vote on joint ballot being: Bandagee, 176; A. Heaton Robertson (Dem.), 41; Ebenezer J. Hill (Rep.), 14.
- Jan. 20. Missouri Legislature re-elected William J. Stone (Dem.) United States Senator, the vote on joint ballot being: Stone, 88; McKinley (Rep.), 81.
- Jan. 20. New York Legislature elected Ellhu Root (Rep.) United States Senator, the vote on joint ballot being: Root, 125; Lewis Stuyvesant Chanler (Dem.), 45.
- Jan. 26. Kansas Legislature elected Joseph L. Bristow (Rep.) United States Senator.
- Jan. 26. Nevada Legislature re-elected Francis G. Newlands (Dem.) United States Senator.
- Jan. 27. South Carolina Legislature elected Edley D. Smith United States Senator.
- Feb. 12. Michigan Republican State Convention at Grand Rapids nominated candidates for Supreme Court Justices, State Regents, Superintendent of Public Instruction and member of the Board of Agriculture.
- March 4. Wisconsin Legislature re-elected Isaac Stephenson (Rep.) United States Senator, the vote being: Stephenson, 63; Brown, 7; Esch, 7; Cooper, 5; scattering, 41.
- March 10. Pennsylvania Legislature elected George T. Oliver (Rep.) United States Senator, to succeed Philander C. Knox, resigned.
- April 22. Florida Legislature elected Duncan Upshaw Fletcher, the choice of the Democratic primaries, United States Senator.
- May 27. Illinois Legislature elected William Lorimer (Rep.) United States Senator, to succeed Albert J. Hopkins (Rep.).
- July 6. Georgia Legislature unanimously re-elected Alexander S. Clay United States Senator.
- July 28. Virginia Republican State Convention at Newport News nominated William P. Kent for Governor, with a State ticket.
- Aug. 4. Pennsylvania Democratic State Convention at Harrisburg, nominated George W. Kipp for State Treasurer and candidates for State Auditor and Supreme Court Justice.
- Aug. 6. Virginia Democratic State primaries nominated William Hodges Mann for Governor over Harry St. George Tucker.
- Aug. 11. Maryland Democratic State Convention at Baltimore.
- Aug. 25. Maryland Republican State Convention at Baltimore.
- Sept. 14. New Jersey held a special election to vote on proposed amendments to the State Constitution, which were defeated.
- Sept. 30. Massachusetts Democratic State Convention at Boston nominated James H. Vahey for Governor and State ticket. The ballot for candidate for Governor was: Vahey, 384; John T. Coughlin, 198; John R. Thayer, 2.
- Oct. 2. Massachusetts Republican State Convention at Boston nominated Eben S. Draper for Governor, with a State ticket.
- Oct. 7. Rhode Island Democratic State Convention at Providence nominated Olney Arnold for Governor, with a State ticket.
- Oct. 13. Rhode Island Republican State Convention at Providence nominated Aram J. Pothler for Governor, with a State ticket.
- Nov. 2. State elections held in Massachusetts, Maryland, Pennsylvania, Rhode Island and Virginia.

American Society of International Law.

OFFICERS: Honorary President, William H. Taft; President, Ellhu Root; Vice-Presidents, Chief Justice Fuller, Justice William R. Day, Andrew Carnegie, John W. Foster, John W. Griggs, Richard Olney, Justice David J. Brewer, Joseph H. Choate, Judge George Gray, W. W. Morrow; Secretaries, P. C. Knox, General Horace Porter, Oscar S. Straus; Recording Secretary, James B. Scott; Corresponding Secretary, Charles Henry Butler; Treasurer, Chandler P. Anderson.

* Committees subject to revision in States marked *.

U. S. Volunteer Life-Saving Corps.

(Incorporated and Organized in most of the States.)

Officers—James R. Howe, President; Ernest H. Luebbers, Jr., Secretary; K. F. Mehrrens, Assistant Secretary; Wm. P. Jackson, Treasurer. W. E. Longfellow, General Superintendent.

The United States Volunteer Life Saving Corps has 2,000 patrolled stations and 22,000 enrolled members, all expert swimmers, yachtsmen and boatmen, with about 6,000 boats, from dories to expensive sail, steam, naphtha and gasoline launches. (It has saved in the Greater City, approximately, 325 lives; rendered "First Aid" in 340 cases; assisted 305 people on the water, and assisted 107 boats in distress.)

The corps is well organized in New York State, Massachusetts, Connecticut, New Jersey, Maryland, District of Columbia, Pennsylvania, Kentucky and other States as far West as California. It has been giving free instruction in swimming in both male and female departments of all the Public Free Baths of Greater New York—1,700 persons having been taught during the season of 1909, and has built 14 life-saving stations, one dock, and placed 45 lifeboats throughout the Greater City.

The corps furnishes its various crews, free of charge, according to the funds available for the various districts and departments, ring life preservers, metallic life preservers, ice balls, medicine chests, flags, signs, charts and boats, and builds life-saving stations at the most dangerous points. It is supported wholly by voluntary contributions, with the exception of the Departments of Greater New York and Rhode Island, which are aided by appropriations from the cities and States, respectively.

The Department of Greater New York is particularly well organized, and is divided into sixteen commodores' and forty-eight vice-commodores' districts, containing 700 patrolled stations, with 7,200 members and 1,200 boats devoted to its life-saving work.

LIFE-SAVING STATIONS IN GREATER NEW YORK.

Officers in command of the Greater New York Districts are as follows:

BOROUGH OF THE BRONX.

District No. 1—Port Morris to Fort Schuyler on the Sound. Commodore, Charles Stahl, 689 East 133d Street, Bronx.

District No. 2—Fort Schuyler to City Line. Commodore, Aug. G. Miller, Tremont Avenue and Theriot Street, Bronx.

District No. 3—All the Harlem River from Port Morris to Spuyten Duyvil, then to Mount St. Vincent or City Line (Bronx shore only). Commodore, E. Harry Seixas, 528 East 149th Street, Bronx.

BOROUGH OF MANHATTAN.

District No. 4—Spuyten Duyvil on Manhattan Island to 100th Street on the Hudson. Commodore, Edw. A. Frede, 662 West 184th Street, Manhattan.

District No. 5—100th Street on Hudson, south to Barge Office, including Governor's Island, Ellis Island and Bedloe's Island. Vice-Commodore, O'Neil F. Berry, 217 W. 104th Street.

District No. 6—Barge Office to 100th Street, East River. Commodore, Henry Mason, 318 East 9th Street, Manhattan.

District No. 7—100th Street, East River through the Harlem River to Spuyten Duyvil on the Hudson River. Vice-Commodore, Ernest Hultgren, 402 East 146th Street, Bronx; Vice-Commodore, Chas. Dow, 235 Broadway, Manhattan.

BOROUGH OF BROOKLYN.

District No. 8—Broad Channel Station on trestle, Jamaica Bay, following the line of trestle (West side) (Hammels excepted) to Ramblersville, then around the Bay, including all the rest of the Bay, Old Mill, Canarsie, Bergen Beach, Plum Island, Barren Island, Breakwater, etc. Commodore John G. Torborg, 1043 Liberty Avenue, Brooklyn, N. Y.

District No. 9—Coney Island in its entirety. Commodore, Jas. Brennan, foot West 32d Street, Coney Island.

District No. 10—End of Emmons Avenue and Knapp Street, on mainland side of Sheepshead Bay to 39th Street Ferry. Commodore, Charles L. Huson, 16 Bay 23d Street, Brooklyn, N. Y.

District No. 11—39th Street Ferry to Newtown Creek, including both shores of the Creek, Gowanus Canal, Erie Basin, etc. Commodore, Hugh F. Doherty, 152 Douglass Street, Brooklyn.

District No. 12—Newtown Creek, up East River through Hell Gate to City Line, including Little Neck Bay. Commodore, J. M. Finch, 137 Main Street, Astoria, L. I.

BOROUGH OF QUEENS.

District No. 13—Jamaica Bay, east side of trestle to City Line, Rockaway shore excepted. Under command of Vice-Commodore Chas. Renz, Jamaica, L. I.

District No. 14—The Rockaways, from Hammels on the trestle, along shore Jamaica Bay side to Rockaway Point, around Point, along Ocean side to point opposite Hammels on trestle. Under temporary command of Commodore Wm. W. Minnis, 36 Kane Avenue, Rockaway, N. Y.

District No. 15—Both shores of Rockaway, east from Hammels to Far Rockaway or City Line, including Arverne, Edgemere, etc. Vice-Commodore W. W. Minnis, 36 Kane Avenue, Hammels, Rockaway.

BOROUGH OF RICHMOND.

District No. 16—Staten Island in its entirety. Commodore, Arthur Krakehl, 120 Gordon Street, Stapleton, S. I.

Prohibition Party National Committee.

<i>Chairman</i>	CHARLES R. JONES, Chicago, Ill.
<i>Vice-Chairman</i>	A. G. WOLFENBARGER, Lincoln, Neb.
<i>Secretary</i>	W. G. CALDERWOOD, Minneapolis, Minn.
<i>Treasurer</i>	FELIX T. McWHIRTER, Indianapolis, Ind.

Arizona—Frank J. Sibley, Tucson; Dr. John Wix Thomas, Phoenix. Arkansas—Henry Hatton, Beebe; H. Brady, Beebe. California—T. K. Beard, Modesto; Wiley J. Phillips, Los Angeles. Colorado—A. B. Taynton, Denver; John W. Carpenter, Greeley. Connecticut—Frederick G. Platt, New Britain; William N. Taft, West Goshen. Delaware—Geo. W. Todd, Wilmington; Lewis W. Erosus, Wilmington. Florida—John P. Coffin, Eustis; Francis Trueblood, Bradentown. Georgia—Geo. Gordon, Atlanta; W. S. Witham, Atlanta. Illinois—Oliver W. Stewart, Chicago; A. E. Wilson, Chicago. Indiana—Felix T. McWhirter, Indianapolis; Charles Eckhart, Auburn. Iowa—O. D. Ellett, Marshalltown; K. W. Brown, Ames. Kansas—Earle R. De Lay, Emporia; J. N. Wood, Ottawa. Kentucky—Mrs. Frances E. Beauchamp, Lexington; T. B. Damaree, Wilmore. Louisiana—E. E. Israel, Baton Rouge; also Walter Miller, New Orleans. Maine—Nathan F. Woodbury, Auburn; Lyman B. Merritt, Houlton. Maryland—Finley C. Hendrickson, Cumberland; George R. Gorsuch, Baltimore. Massachusetts—John M. Fisher, Attleboro; J. B. Lewis, Boston. Michigan—Samuel Dickie, Albion; Fred W. Corbett, Lansing. Minnesota—W. G. Calderwood, Minneapolis; Geo. W. Higgins, Minneapolis. Missouri—H. P. Paris, Clinton; Charles E. Stokes, Kansas City. Montana—Mrs. Kate M. Hamilton, Butte. Nebraska—A. G. Wolfenbarger, Lincoln; D. B. Gilbert, Fremont. New Hampshire—A. H. Morrill, Laconia; John S. Blanchard, Concord. New Jersey—Geo. J. Haven, Camden; Joel G. Van Cise, Summit. New York—Clarence E. Pitts, Oswego; Geo. E. Stookwell, Fort Plain. North Carolina—J. M. Templeton, Cary; Thos. P. Johnston, Salisbury. North Dakota—Theo. E. Ostlund, Hillsboro; M. H. Kiff, Tower City. Ohio—F. M. Mecartney, Columbus; J. B. Martin, Cincinnati. Oklahoma—Charles Brown, Carmen; Rev. J. M. Monroe, Oklahoma City. Oregon—E. McKercher, Portland; W. P. Elmore, Brownsville. Pennsylvania—A. A. Stevens, Tyrone; David B. McCamont, Franklin. Rhode Island—C. H. Tilley, Providence; Bernon E. Helme, Kingston. South Dakota—W. T. Raffety, Miller; Quincy Lee Morrow, Brookings. Tennessee—A. D. Reynolds, Bristol; J. B. Stinespring, Sandford. Texas—J. B. Cranfill, Dallas; Walter C. Swengel, Dallas. Vermont—H. S. Eldred, Sheldon. Dr. Hausen, Montpelier. Virginia—G. M. Smithdeal, Richmond; James W. Bodley, Staunton. Washington—Guy Posson, Seattle; R. E. Dunlap, Seattle. West Virginia—Edward W. Mills, Fairmont; U. A. Clayton, Fairmont. Wisconsin—W. D. Cox, Milwaukee. B. E. Van Keuren, Oshkosh. Wyoming—Lemuel L. Laughlin, Laramie; C. J. Sawyer, Laramie.

People's Party National Committee.

<i>Chairman</i>	JAMES H. FERRISS, Joliet, Ill.
<i>Vice-Chairman and Treasurer</i>	JAY W. FOREST, Albany, N. Y.
<i>Secretary</i>	PAT L. DIXON, Chillicothe, Mo.

Socialist Labor Party National Committee.

PAUL AUGUSTINE, National Secretary, 28 City Hall Place, New York City. The National Executive Committee is composed of Olive M. Johnson, Fruitvale, Cal.; Joseph Marek, New Haven, Ct.; Carl Koechlin, Peoria, Ill.; Joseph Matz, Indianapolis, Ind.; James H. Arnold, Louisville, Ky.; Arthur E. Reimer, South Boston, Mass.; Herman Richter, Hamtramck, Mich.; J. U. Billings, Grand Junction, Col.; G. H. Campbell, Winona, Minn.; Rudolph Katz, Paterson, N. J.; Alexander Kaucher, St. Louis, Mo.; John Kircher, Cleveland, O.; Boris Reinstein, Buffalo, N. Y.; A. S. Dowler, El Paso, Tex.; F. J. Meyer, Seattle, Wash.; Albert Schnabel, Milwaukee, Wis.; Ed. Schade, Newport News, Va.; William H. Thomas, Buena Vista, Pa.

The party is organized in local organizations known as "sections," such sections existing in thirty States. Any seven persons in any city or town of the United States may form a section, providing they acknowledge the platform and constitution of the Socialist Labor party and do not belong to any other political party. In places where no section exists, or where none can be formed, any person complying with the aforesaid provisions may become a member-at-large upon application to the National Executive Committee. Sections are not permitted to charge initiation fees. All questions of importance arising within the party are decided by general vote. At each meeting of the section a chairman is elected, and the same rule holds good with all standing committees.

Socialist Party National Committee.

J. MAHLON BARNES, National Secretary, 180 Washington Street, Chicago. This organization, known nationally as the Socialist Party, is officially known as the Social Democratic Party in Wisconsin, and the Public Ownership Party in Minnesota, to conform to the election laws in those States. The National Executive Committee is composed of seven men, elected by a national referendum of party members. The national secretary is elected in like manner. The term of office is one year. The following are the members of the National Executive Committee: Victor L. Berger, Milwaukee, Wis.; A. H. Floaten, Denver, Col.; John M. Work, Des Moines, Ia.; Morris Hillquit, New York, N. Y.; A. M. Simons, Chicago, Ill.; Robt. Hunter, Noroton Heights, Ct.; John Spargo, Yonkers, N. Y. The National Committee is composed of representatives from each organized State or Territory, of which there are 42. Representation is as follows: "Each State or Territory shall be represented on the National Committee by one member and by an additional member for every one thousand members or major fraction thereof in good standing in the party." The apportionment is made by the national secretary at the beginning of each year, based upon the dues received from the respective States.

Qualifications for Voting in Each State of the Union.

(Communicated to THE WORLD ALMANAC and corrected to date by the Attorneys-General of the respective States.)
 In all the States except Colorado, Idaho, Utah, and Wyoming the right to vote at general elections is restricted to males of 21 years of age and upward. (See also "New York," next page.) Women are entitled to vote at school elections in several States. They are entitled by law to full suffrage in the States of Colorado, Idaho, Utah, and Wyoming. (See article entitled "Woman Suffrage.")

* Australian Ballot law or a modification of it in force. † Indian must have severed tribal relations. § One year's residence in the United States prior to election required. (a) Women can vote in school elections. (c) Ministers in charge of an organized church and teachers of public schools are entitled to vote after six months' residence in the State. (d) Actual residence in the precinct or district required. (e) Who has paid six months before election any poll-tax then due, and can read and write any section of the State Constitution, or can show that he owns and has paid all taxes due the previous year on property in the State assessed at \$300 or more. (f) Or convicted of bribery, embezzlement of public funds, treason, forgery, perjury, felony, and petty larceny, duellists and abettors, unless pardoned by Legislature. (g) Or persons non compos mentis, sentence to State Prison for one year or more takes away right to vote until restored by General Assembly, under guardianship. (h) Also persons excused from paying taxes at their own request, and those unable to read the State Constitution in English, or write. (j) No soldier, seaman, or marine deemed a resident because stationed in the State. (k) Inhabitation not residence. (l) Thirty days in election district. (m) And any person subject to poll-tax who failed to pay same prior to Feb. 1 of year in which he offers to vote. (n) Must be resident of County to vote for County officers. (o) All persons unable to read and write, and whose ancestor was not entitled to vote prior to Jan. 1, 1867. (p) Unless restored to civil rights.

In Virginia.—Voting qualifications. All persons who six months before the election have paid their State poll-taxes for the three preceding years. Also any person who served in time of war in the army or navy of the United States, of the Confederate States, or of any State of the United States or of the Confederate States.

Residents of the District of Columbia never had the right to vote therein for national officers, or on other matters of national concern, after the Territory embraced in it was ceded to the United States and became the seat of the general government.

Requirements Regarding Registration of Voters.

(Continuation of "Qualifications for Voting," on preceding pages.)

The registration of voters is required in the States of Alabama, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi (four months before election), Montana, Nevada, New Jersey, New York, North Carolina, Oregon, Pennsylvania (in cities), South Carolina, South Dakota, Tennessee, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, and the Territories of Arizona and New Mexico.

In Ohio it is required in cities of 11,800 to 100,000 population in presidential years; annually in cities of 100,000 or over.

In Illinois registration of voters is required by law, and in Cook County, where Chicago is located, persons not registered are not entitled to vote; but outside of Cook County generally they can vote if not registered by swearing in their votes, and producing one witness, a householder and registered voter of the voting district, as to their qualifications as electors severally.

In Iowa in cities having 3,500 inhabitants. In Nebraska in cities of over 7,000 inhabitants.

In Kentucky in all cities of the first, second, third and fourth classes, in Kansas in cities of the first and second classes, in North Dakota in cities and villages of 800 inhabitants and over, in Ohio in cities of the first and second classes.

In Missouri it is required in cities of 25,000 inhabitants and over.

In Oklahoma it is required in all cities of the first class.

In Rhode Island non-taxpayers are required to register yearly before June 30.

The registration of voters is not required in Arkansas, Indiana, New Hampshire or Texas.

Woman Suffrage.

In the United States women possess suffrage upon equal terms with men at all elections in four States: In Wyoming, established in 1869; in Colorado, in 1893; in Utah, in 1896, and in Idaho, in 1896.

In Kansas women possess school suffrage established in 1861, municipal suffrage established in 1887 and bond suffrage in 1903. Full suffrage was rejected by the Kansas legislature in 1909.

In 1909 woman suffrage was rejected by the legislatures of Arizona, Iowa, Massachusetts, Missouri, Nebraska, Rhode Island, South Dakota and Wisconsin. It was voted down in the Judiciary Committee of the New York Assembly.

School suffrage for women prevails in some form in twenty-nine States, as follows: Arizona, Colorado, Connecticut, Delaware, Florida, Iowa, Illinois, Indiana, Idaho, Kentucky, Kansas, Michigan, Massachusetts, Minnesota, Mississippi, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Oklahoma, Ohio, South Dakota, Utah, Vermont, Washington, Wyoming and Wisconsin.

In 1887 Montana gave tax-paying women the right to vote on questions submitted to taxpayers; in 1894 bond suffrage was given to women in Iowa; in 1898 the women of Minnesota were given the right to vote for library trustees, and in the same year Louisiana gave women taxpayers the right to vote in person or by proxy on all questions of taxation. In 1903 Michigan adopted a constitutional amendment providing for tax-paying suffrage for women taxpayers.

In 1901 the New York Legislature passed a law providing that "a woman who possesses the qualifications to vote for village or for town officers, except the qualification of sex, who is the owner of property in the village assessed upon the last preceding assessment roll thereof, is entitled to vote upon a proposition to raise money by tax or assessment."

In Great Britain women can vote for all officers except members of Parliament.

In Australia and New Zealand women have full suffrage; also in the Isle of Man, Iceland and Finland.

Women have municipal suffrage in Ontario, Nova Scotia, Manitoba, Quebec, British Columbia and the Northwest Territory, in Iceland, Denmark and Sweden. In France women engaged in commerce have the right to vote for Judges of the Tribunal of Commerce.

Women have some voting privileges in Cape Colony.

The officers of the National American Woman Suffrage Association are: Rev. Anna Howard Shaw, Moylan, Pa., President; Rachel Foster Avery, Swarthmore, Pa., First Vice-President; Mrs. Florence Kelley, New York City, Second Vice-President; Prof. Frances Squire Potter, 505 Fifth Ave., New York City, Corresponding Secretary; Mrs. Ella S. Stewart, Chicago, Recording Secretary; Mrs. Harriet Taylor Upton, Warren, Ohio, Treasurer; Miss Laura Clay, Lexington, Ky., First Auditor; Alice Stone Blackwell, Boston, Second Auditor. National Headquarters, 505 Fifth Ave., New York City.

The New York State Association Opposed to Woman Suffrage has its central office in New York City. Its officers are as follows: Mrs. Francis N. Scott, President; Mrs. Arthur M. Dodge, First Vice-President; Mrs. Elihu Root, Mrs. Richard Watson Gilder, Mrs. William A. Putnam, Mrs. Robert McVickar, Mrs. George D. Miller, and Mrs. William P. Northrup, Vice-Presidents; Mrs. Francis S. Bangs, Treasurer; Mrs. George Phillips, Secretary, Room 819, Engineering Societies Building, 29 West 39th St., New York City. There are also organizations in Massachusetts, Illinois, Oregon, Iowa and Washington. These are founded with the object of testifying to legislative committees and through the medium of the public press that the opposition to woman suffrage is based upon what is claimed to be "the intelligent conviction of the majority of representative women in all lines of social, industrial, and domestic progress." Pamphlets with information as to the objects of the Association may be had from the Secretary.

The Presidential Election of 1912.

The next Presidential election will take place on Tuesday, November 5, 1912.

The President and Vice-President of the United States are chosen by officials termed "Electors" in each State, who are, under existing State laws, chosen by the qualified voters thereof by ballot, on the first Tuesday after the first Monday of November in every fourth year preceding the year in which the Presidential term expires.

The Constitution of the United States prescribes that each State shall "appoint," in such manner as the Legislature thereof may direct, a number of electors equal to the whole number of Senators and Representatives to which the State may be entitled in Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be an elector. The Constitution requires that the day when electors are chosen shall be the same throughout the United States. At the beginning of our Government most of the electors were chosen by the Legislatures of their respective States, the people having no direct participation in their choice; and one State, South Carolina, continued that practice down to the breaking out of the civil war. But in all the States now the electors are, under the direction of State laws, chosen by the people on a general State ticket.

The manner in which the chosen electors meet and ballot for a President and Vice-President of the United States is provided for in Article XII. of the Constitution, and is as follows:

The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom, at least, shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which lists they shall sign and certify, and transmit, sealed, to the seat of government of the United States, directed to the President of the Senate.

The same article then prescribes the mode in which the Congress shall count the ballots of the electors, and announce the result thereof, which is as follows:

The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President the votes shall be taken by States, the representation from each State having one vote: a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed; and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice.

The procedure of the two houses, in case the returns of the election of electors from any State are disputed, is provided in the "Electoral Count" act, passed by the Forty-ninth Congress. The act directs that the Presidential electors shall meet and give their votes on the second Monday in January next following their election. It fixes the time when Congress shall be in session to count the ballots as the second Wednesday in February succeeding the meeting of the electors.

The Constitution also defines who is eligible for President of the United States, as follows:

No person except a natural-born citizen or a citizen of the United States at the time of the adoption of this Constitution shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years.

The qualifications for Vice-President are the same.

American Battle Dates.

The following are the dates of the more important of the conflicts of the French and Indian Wars, the Revolutionary War, and the War of 1812:

FRENCH AND INDIAN WARS.

1754—May 28..... Great Meadows, Pa.	1757—July 6..... Fort William Henry.
1755—July 9..... Braddock's Field.	1758—July 6..... Ticonderoga.
1755—September 8.. Lake George.	1758—August 27.. Fort Frontenac.
1756—August 11.... Oswego, N. Y.	1758—November 25.. Fort Duquesne.
1756—September 8.. Kittanning, Pa.	

REVOLUTIONARY WAR.

1775—April 19..... Lexington and Concord.	1777—October 17.... Burgoyne's surrender.
1775—May 10..... Ticonderoga.	1778—June 28..... Monmouth.
1775—June 17..... Bunker Hill.	1778—July 3..... Wyoming massacre.
1775—December 31.. Quebec.	1778—August 29.... Rhode Island.
1776—June 23..... Fort Mifflin.	1778—December 29.. Savannah.
1776—August 27.... Long Island.	1779—July 15..... Stony Point, N. Y.
1776—October 23.... White Plains.	1779—October 8.... Savannah.
1776—November 16.. Fort Mifflin, N. Y.	1780—May 12..... Charleston captured.
1776—December 26.. Trenton.	1780—May 29..... Waxhaw.
1777—January 3..... Princeton.	1780—June 23..... Springfield, N. J.
1777—August 6..... Brandywine.	1780—August 16.... Camden, S. C.
1777—August 16.... Germantown.	1780—October 7.... King's Mountain.
1777—September 11.. Brandywine.	1781—January 17.... Cowpens.
1777—September 19.. Bemis Heights.	1781—March 15.... Guilford Court House.
1777—October 4..... Germantown.	1781—September 8.. Eutaw Springs.
1777—October 7..... Saratoga.	1781—October 17.... Yorktown.

WAR OF 1812.

1812—August 16.... Detroit (surrendered).	1814—July 25..... Lundy's Lane.
1812—October 13.... Queenstown.	1814—August 15.... Fort Erie.
1813—April 27..... York (Toronto).	1814—August 24.... Bladensburg, Md.
1813—May 9..... Fort Meigs.	1814—September 11.. Plattsburg, N. Y.
1813—May 27..... Fort George.	1814—September 13.. Fort Mifflin, Md.
1813—October 5..... The Thames.	1814—October 19.... Lyons's Creek.
1813—November 11.. Chrysler's Field.	1815—January 8..... New Orleans.
1814—July 5..... Chippewa.	

Presidential Elections

FROM 1789 TO 1908.

AGGREGATE POPULAR VOTE AND ELECTORAL VOTE FOR CANDIDATES FOR PRESIDENT AND VICE-PRESIDENT AT EACH ELECTION.

NOTE.—There is, properly speaking, no popular vote for President and Vice-President; the people vote for electors, and those chosen in each State meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1824 is so meagre and imperfect that a compilation would be useless. In most of the States, for more than a quarter century following the establishment of the Government, the State Legislatures "appointed" the Presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the Legislature. In this tabulation only the aggregate electoral votes for candidates for President and Vice-President in the first nine quadrennial elections appear.

ELECTORAL VOTES.

1789. Previous to 1804, each elector voted for two candidates for President. The one who received the largest number of votes was declared President, and the one who received the next largest number of votes was declared Vice-President. The electoral votes for the first President of the United States were: George Washington, 69; John Adams, of Massachusetts, 34; John Jay, of New York, 9; R. H. Harrison, of Maryland, 6; John Rutledge, of South Carolina, 6; John Hancock, of Massachusetts, 4; George Clinton, of New York, 3; Samuel Huntington, of Connecticut, 2; John Milton, of Georgia, 2; James Armstrong, of Georgia; Benjamin Lincoln, of Massachusetts, and Edward Telfair, of Georgia, 1 vote each. Vacancies (votes not cast), 4. George Washington was chosen President and John Adams Vice-President.

1792. George Washington, Federalist, received 132 votes; John Adams, Federalist, 77; George Clinton, of New York, Republican (a), 50; Thomas Jefferson, of Virginia, Republican, 4; Aaron Burr, of New York, Republican, 1 vote. Vacancies, 3. George Washington was chosen President and John Adams Vice-President.

1796. John Adams, Federalist, 71; Thomas Jefferson, Republican, 68; Thomas Pinckney, of South Carolina, Federalist, 59; Aaron Burr, of New York, Republican, 30; Samuel Adams, of Massachusetts, Republican, 15; Oliver Ellsworth, of Connecticut, Independent, 11; George Clinton, of New York, Republican, 7; John Jay, of New York, Federalist, 5; James Iredell, of North Carolina, Federalist, 3; George Washington, of Virginia; John Henry, of Maryland, and S. Johnson, of North Carolina, all Federalists, 2 votes each; Charles Cotesworth Pinckney, of South Carolina, Federalist, 1 vote. John Adams was chosen President and Thomas Jefferson Vice-President.

1800. Thomas Jefferson, Republican, 73; Aaron Burr, Republican, 73; John Adams, Federalist, 65; Charles C. Pinckney, Federalist, 64; John Jay, Federalist, 1 vote. There being a tie vote for Jefferson and Burr, the choice devolved upon the House of Representatives. Jefferson received the votes of ten States, which, being the largest vote cast for a candidate, elected him President. Burr received the votes of four States, which, being the next largest vote, elected him Vice-President. There were 2 blank votes.

1804. The Constitution of the United States having been amended, the electors at this election voted for a President and a Vice-President, instead of for two candidates for President. The result was as follows: For President, Thomas Jefferson, Republican, 169; Charles C. Pinckney, Federalist, 14. For Vice-President, George Clinton, Republican, 169; Rufus King, of New York, Federalist, 14. Jefferson was chosen President and Clinton Vice-President.

1808. For President, James Madison, of Virginia, Republican, 122; Charles C. Pinckney, of South Carolina, Federalist, 47; George Clinton, of New York, Republican, 6. For Vice-President, George Clinton, Republican, 113; Rufus King, of New York, Federalist, 47; John Langdon, of New Hampshire, 9; James Madison, 3; James Monroe, 3. Vacancy, 1. Madison was chosen President and Clinton Vice-President.

1812. For President, James Madison, Republican, 128; De Witt Clinton, of New York, Federalist, 89. For Vice-President, Elbridge Gerry, of Massachusetts, 131; Jared Ingersoll, of Pennsylvania, Federalist, 89. Madison was chosen President and Gerry Vice-President.

1816. For President, James Monroe, of Virginia, Republican, 183; Rufus King, of New York, Federalist, 34. For Vice-President, Daniel D. Tompkins, of New York, Republican, 183; John Eager Howard, of Maryland, Federalist, 22; James Ross, of Pennsylvania, 6; John Marshall, of Virginia, 4; Robert G. Harper, of Maryland, 3. Vacancies, 4. Monroe was chosen President and Tompkins Vice-President.

1820. For President, James Monroe, of Virginia, Republican, 291; John Q. Adams, of Massachusetts, Republican, 1. For Vice-President, Daniel D. Tompkins, Republican, 218; Richard Stockton, of New Jersey, 8; Daniel Rodney, of Delaware, 4; Robert G. Harper, of Maryland, and Richard Rush, of Pennsylvania, 1 vote each. Vacancies, 3. James Monroe was chosen President and Daniel D. Tompkins Vice-President.

NOTES TO THE TABLES OF THE PRESIDENTS, ON THE TWO PRECEDING PAGES.

* Monroe abandoned the profession of law when a young man, and was afterward, and until his election, always holding public office. † Jackson called himself a South Carolinian, and his biographer, Kendall, recorded his birthplace in Lancaster Co., S. C.; but Parton has published documentary evidence to show that Jackson was born in Union Co., N. C., less than a quarter mile from the South Carolina line. ‡ Or of departure from college.

§ Widows. Their maiden names are in parentheses. ¶ She was the divorced wife of Captain Robards. (a) The Democratic party of to-day claims lineal descent from the first Republican party, and President Jefferson as its founder. (b) Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his Administration took the name of Democrats, and elected Jackson President. (c) Randall, the biographer of Jefferson, declares that he was a believer in Christianity, although not a sectarian. (d) While President Johnson was not a church-member, he was a Christian believer. His wife was a Methodist.

Washington's first inauguration was in New York, and his second in Philadelphia. Adams was inaugurated in Philadelphia, and Jefferson and the Presidents following elected by the people, in the City of Washington. Arthur took the Presidential oath of office first in New York City. John Adams and Jefferson died on the same day, the Fourth of July, 1826, and Monroe died on the Fourth of July five years later. John Quincy Adams was a Representative and Andrew Johnson a Senator in Congress after the expiration of their Presidential terms, and both died while holding those offices. Tyler was a Representative in the Confederate Congress from Virginia, and died in office.

Lincoln, Garfield and McKinley were assassinated while in office. Lincoln at Ford's Theatre, Washington, D. C., April 14, 1865, from a pistol shot fired by John Wilkes Booth, who was killed near Fredricksburg, Va., April 26, 1865, by Sergeant Boston Corbett. Garfield was shot in the Pennsylvania Railroad Depot, Washington, D. C., July 2, 1881, and died at Elberon, Long Branch, N. J., September 19, 1881. The assassin was Charles Jules Guiteau, who was hanged at Washington, D. C., June 30, 1882. McKinley was shot twice September 6, 1901, while in the Temple of Music of the Pan-American Exposition, Buffalo, N. Y., and died from his wounds at the home of John G. Milburn, Buffalo, September 14, 1901. The assassin was Louis Czolgosz, who was electrocuted at Auburn State Prison, New York, October 29, 1901.

Jackson was shot at in the Capitol at Washington, D. C., January 29, 1835, by a house painter named Richard Lawrence, escaping because the pistol of the assassin missed fire.

Cleveland after taking the oath as President, kissed the open bible, his lips touching Psalm CXII, verses 5-10, inclusive. Garfield's first act after taking the oath was to kiss his mother.

The sixth President was the son of the second President, and the twenty-third President was the grandson of the ninth President. William Henry Harrison was the eighth and Benjamin Harrison the tenth in descent from Pocahontas and John Rolfe. Lincoln was the first President wearing a full beard. Grant the first wearing a mustache. Buchanan and Cleveland were bachelors when they entered the White House as Presidents, but Cleveland surrendered during his first term. Washington, Madison, Monroe, Pierce and Hayes were born on Friday. J. Q. Adams, Pierce, Garfield and McKinley (second term), were inaugurated on Friday. Tyler, Polk, Pierce and Arthur died on Friday. Lincoln was assassinated on Friday.

There were remarkable coincidences in the lives of Abraham Lincoln and Jefferson Davis. Both were born in Kentucky; Lincoln in 1809, Davis in 1808. Both removed from their native State in childhood, Lincoln to the Northwest, Davis to the Southwest. Lincoln was a Captain of Volunteers and Davis a Second Lieutenant of Regulars in the Black Hawk War of 1832. They began their political careers the same year, 1844, Lincoln being a Presidential Elector for Clay, and Davis for Polk. They were elected to Congress about the same time, 1845 and 1846. They were called to preside over their respective governments the same year and within a few days; Davis, February 8, 1861, Lincoln, March 4, 1861.

Washington, Monroe, and Jackson were soldiers in the Revolutionary war; Jackson, W. H. Harrison, Tyler, Taylor, and Buchanan in the war of 1812-15; Lincoln in the Black Hawk war; Taylor, Pierce, and Grant in the Mexican war; Grant, Hayes, Garfield, Arthur, B. Harrison, and McKinley in the civil war, and Roosevelt was in the war with Spain. Adams and Jefferson were signers of the Declaration of Independence, and Washington and Madison of the Constitution.

Grant was christened Hiram Ulysses and Cleveland Stephen Grover. W. H. Harrison was the oldest man elected to the Presidency, and Roosevelt the youngest, Grant being the next youngest by six months. Cleveland was the only President married in the White House, and his second daughter the only President's child born therein. Monroe's daughter (Mrs. Gouverneur), Grant's daughter (Mrs. Sartoris), and Roosevelt's daughter (Mrs. Longworth), were the only children of Presidents married therein. Wives of Tyler and Benjamin Harrison died in the White House. W. H. Harrison was father of the largest family, six sons and four daughters.

THE PRESIDENTIAL SUCCESSION.

The Presidential succession is fixed by chapter 4 of the acts of the Forty-ninth Congress, first session. In case of the removal, death, resignation, or inability of both the President and Vice-President, then the Secretary of State shall act as President until the disability of the President or Vice-President is removed or a President is elected. If there be no Secretary of State, then the Secretary of the Treasury will act; and the remainder of the order of succession is as follows: The Secretary of War, Attorney-General, Postmaster-General, Secretary of the Navy, and Secretary of the Interior. The acting President must, upon taking office, convene Congress, if not at the time in session, in extraordinary session, giving twenty days' notice. This act applies only to such Cabinet officers as shall have been confirmed by the Senate and are eligible under the Constitution to the Presidency.

The States in the Presidential Elections, 1864 to 1908.

SALARY OF THE PRESIDENT.

The salary of the President of the United States was the cause of discussion in the First Congress, in view of the fact that the Constitution declared that the President should receive compensation for his services. Washington had notified his fellow citizens that he desired no salary. The limits suggested in Congress ranged from \$15,000 to \$70,000. The salary was finally placed at \$25,000 and this remained the compensation until President Grant's second term (March 3, 1873), when it was increased to \$50,000. Chapter 2918 of the Laws of the Second Session of the Fifty-ninth Congress, Approved March 4, 1907, appropriated "for travelling expenses of the President of the United States, to be expended at his discretion and accounted for by his certificate solely, \$25,000." In the Second Session of the Sixtieth Congress the matter of increasing the President's salary was again considered, and it was decided that the President's salary be fixed at \$75,000 a year. At the First Session of the Sixty-first Congress an appropriation of \$25,000 was made for travelling expenses.

REFERENCE NOTES TO THE TWO FOLLOWING PAGES.

* The candidates starred were elected. (a) The first Republican Party is claimed by the present Democratic Party as its progenitor. (b) No candidate having a majority of the electoral vote, the House of Representatives elected Adams. (c) Candidate of the Anti-Masonic Party. (d) There being no choice, the Senate elected Johnson. (e) Eleven Southern States, being within the belligerent territory, did not vote. (f) Three Southern States disfranchised. (g) Horace Greeley died after election, and Democratic electors scattered their votes. (h) There being a dispute over the electoral vote of Florida, Louisiana, Oregon, and South Carolina, they were referred by Congress to an electoral commission composed of eight Republicans and seven Democrats, which, by a strict party vote, awarded 185 electoral votes to Hayes and 184 to Tilden. (i) Free Democrat. (j) Free Silver Prohibition Party. (k) In Massachusetts. There was also a Native American ticket in that State, which received 184 votes. (m) Middle of the Road or Anti-Easton People's Party. (n) United Christian Party. (o) Union Reform Party.
For popular and electoral vote by States in 1900, 1904 and 1906 consult Index.

Merchandise and specie to 1879, inclusive; merchandise only after 1879.

**Subsidies and Bounties
OF FOREIGN NATIONS.**

Navigation bounties, mail subsidies and admiralty subventions were reported by Commissioner of Navigation Chamberlain to the Secretary of Commerce and Labor in November, 1909, as stated below. The Commission showed that under these heads, including also shipbuilding and fisheries bounties and retainers for naval reserves, these expenditures now amount annually to \$46,900,000. The expenditures of foreign governments are grouped under the following heads, according to the latest returns from foreign governments:

Great Britain and Colonies.....	\$9,689,384	Austria-Hungary.....	\$2,984,530
Subsidies and mail pay (British Postmaster-General, 1908).....	3,320,454	Austrian Lloyd subsidy (1908).....	1,450,400
Cunard Admiralty subvention (1909).....	729,000	Suez Canal refunds (1908).....	375,000
Royal Naval Reserves (1909-10).....	1,783,620	Navigation and shipbuilding bounties (1908).....	880,000
Canadian subsidies and mail pay (1910).....	1,581,800	Hungarian mail contracts (1908).....	279,130
Fisheries and bounties (1909).....	160,000	Germany.....	2,301,029
Australian and New Zealand subsidies and mails (1909).....	1,263,600	Mail subsidies (1908).....	1,706,460
Cape Colony subsidy (1909).....	656,910	Mail pay (1907).....	594,569
Jamaica subsidy (1909).....	194,000	Russia.....	1,878,328
France.....	13,423,737	Subsidies (1908).....	1,543,578
Mail subsidies (1908).....	5,217,037	Suez Canal refunds (1908).....	334,750
Navigation and armament bounties (1908).....	6,079,500	Norway.....	1,192,143
Shipbuilding bounties (1908).....	2,007,200	Mail subsidies (1908-9).....	561,788
Fisheries bounties.....	120,000	Trade subsidies (1908-9).....	513,555
Japan.....	5,413,700	Tariff refunds (1908-9).....	26,800
Mail subsidies (new law).....	4,379,000	Netherlands.....	880,011
Shipbuilding bounties (1908).....	997,700	Mail subsidies (1908).....	841,827
Fisheries bounties.....	37,000	Naval Reserves (1908).....	33,184
Italy.....	3,872,917	Sweden.....	277,752
Mail subsidies (1908).....	2,328,917	South American and Asiatic subsidies (1909).....	140,000
Navigation bounties (1909).....	677,734	Mail pay (1908).....	137,752
Shipbuilding bounties (1909).....	866,266	State loans, not ascertained.....
Spain.....	3,150,012	Denmark.....	145,000
Mail subsidies (new law).....	1,858,186	Trade subsidies (1902):
Navigation bounties (new law).....	1,291,826	Harbor dues exemption.....	145,000
Shipbuilding bounties, not ascertained.....	Belgium.....	55,970
.....	Trade bounties (1908).....	23,160
.....	Pilotage refunds (1908).....	32,810
.....	Portugal.....	50,000
.....	Mail subsidy (1908-9).....	50,000

Grand total.....\$45,224,513
Outside of Europe and Japan subsidies and mail payments have been reported for 1908 to the Bureau as follows: Chile, \$253,795; Mexico, \$75,000; Egypt, \$54,512; Brazil, \$1,200,000; in all \$1,682,707, making with the above a total of \$46,907,220.

*Includes coal shipped for vessels' fuel consumption: 1903, 1,479,778 net tons; 1904, 1,321,619 net tons; 1905, 1,777,837 net tons; 1906, 2,603,453 net tons; 1907, 2,017,231 net tons, and 1908, 1,477,902.

The above figures are exclusive of imports into and exports from domestic lake ports.

Farmers and the New Census.

The Director of the Census, on September 1, 1909, issued the following invitation to the farmers of the United States to send suggestions to the Census Office:

The farmers of the United States are naturally very much interested in the census of agriculture and farms that will be taken April 15, 1910, as one of the subjects to be covered by the Thirteenth Decennial Census. Many are showing their interest by writing to the Census Bureau for the purpose of making comments upon census information regarding agriculture as presented in the past. The Director of the Census welcomes all such suggestions and gives them careful consideration, as he is anxious to have the results of the coming census correspond as nearly as may be to the desires of the people most interested.

In addition to studying carefully these suggestions, the Director has on his own initiative requested certain professors of economics and agriculture of the more important universities of the country, and other persons who have specialized in agricultural matters, to come to Washington for a short time for the purpose of studying carefully and criticising plans now under way. Especially is it desired to obtain their opinion relative to the questions to be asked and their form, as the results to be obtained will so largely depend upon the character of the schedule and the manner in which the questions are propounded. These suggestions, coming from outside experts, are proving to be of great value, and it is believed that in consequence of this preliminary study more valuable and accurate data will be obtained than could otherwise be secured. After these special students and experts have made their preliminary studies, formal conferences are held in the office in which the whole matter of the character of the schedules and the best methods of securing the information are thoroughly gone over.

The Department is also seeking to secure the advice and co-operation, as far as possible, of the officers and experts of the Department of Agriculture, of the State Agricultural colleges, farmers' societies, and like organizations.

Foreign Trade of the United States.

Immigrants arrived [†]no.	369,980	457,267	448,572	751,786

a Exclusive of Alaska and islands belonging to the United States. *b* Census figures; those for intermediate years estimated. *c* True valuation of real and personal property. *d* 1904. *e* Total debt prior to 1855. *f* Figures for the years 1800 and 1850 include the total public debt. *g* Gold and silver cannot be stated separately prior to 1880. From 1862 to 1875, inclusive, gold and silver were not in circulation except on the Pacific Coast, where it is estimated that the average specie circulation was about \$25,000,000, and this estimate is continued for the three following years under the head of gold. After that period gold was available for circulation. *h* Total specie in circulation; gold and silver not separately stated prior to 1880. *i* Includes notes of Bank of United States, State bank notes, demand notes of 1862 and 1863, fractional currency, 1863 to 1873, treasury notes of 1890, 1891 to date; and currency certificates, act of June, 8, 1872, 1892 to 1900. *k* Exclusive of neighborhood industries and hand trades, included in previous years. *l* "Net ordinary receipts" include receipts from customs, internal revenue, direct tax, public lands, and "miscellaneous." *m* "Net ordinary expenses" include expenditures for war, navy, Indians, pensions, and "miscellaneous." *n* Imports for consumption after 1850. *o* Domestic exports only after 1850. *p* Estimate of the Director of the Mint. *s* 1907. *w* Western Union to 1880; includes Postal Telegraph after 1880. *x* Not including messages sent by Western Union over leased wires or under railroad contracts. *y* 1908. *z* Preliminary figures. * After 1850, from Rowell's Newspaper Directory. [†] 1850, includes aliens not immigrants; fifteen months ending December 31; after 1860, fiscal years.

The Capitol at Washington.

The Capitol is situated in latitude 38° 53' 20".4 north and longitude 77° 00' 35".7 west from Greenwich. It fronts east, and stands on a plateau eighty-eight feet above the level of the Potomac. The entire length of the building from north to south is seven hundred and fifty-one feet four inches, and its greatest dimension from east to west three hundred and fifty feet. The area covered by the building is 153,112 square feet. The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds. The dome is crowned by a bronze statue of Freedom, which is nineteen feet, six inches high and weighs 14,965 pounds. It was modelled by Crawford. The height of the dome above the base line of the east front is two hundred and eighty-seven feet five inches. The height from the top of the balustrade of the building is two hundred and seventeen feet eleven inches. The greatest diameter at the base is one hundred and thirty-five feet five inches. The rotunda is ninety-seven feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches. The Senate Chamber is one hundred and thirteen feet three inches in length, by eighty feet three inches in width, and thirty-six feet in height. The galleries will accommodate one thousand persons. The Representatives' Hall is one hundred and thirty-nine feet in length, by ninety-three feet in width, and thirty-six feet in height. The southeast corner-stone of the original building was laid September 18, 1793, by President Washington with Masonic ceremonies. The corner-stone of the extension was laid July 4, 1851, by President Fillmore. The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

American Sociological Society.

President—William Graham Sumner, Yale University, New Haven, Ct. Vice-Presidents—Prof. Franklin H. Giddings, Columbia University, New York City, and Prof. Albion W. Small, University of Chicago. Secretary and Treasurer—Prof. C. W. A. Veditz, George Washington University, Washington, D. C. Organized in 1905 to encourage the scientific study of society. Membership about 250. Holds annual meetings. Publishes an annual volume of "Papers," and the "American Journal of Sociology." Annual dues, \$3.00.

Value of Foreign Coins in United States Money.

(Proclaimed by the Secretary of the Treasury October 1, 1909. *)

COUNTRY.	Standard.	Monetary Unit.	Value in U. S. Gold Dollar.	Coins.
Argent. R.	Gold	Peso	\$0.96,5	Gold: argentine (\$4.82,4) and ¼ argentine. Silver: peso and divisions.
Austria-H.	Gold	Crown	.20,3	Gold: 10 and 20 crowns. Silver: 1 and 5 crowns.
Belgium	Gold	Franc	.19,3	Gold: 10 and 20 francs. Silver: 5 francs.
Bolivia	Gold	Boliviano	.38,9	Gold (†). Silver: boliviano and divisions.
Brazil	Gold	Milreis	.54,6	Gold: 5, 10, and 20 milreis. Silver: ½, 1, and 2 milreis.
Canada	Gold	Dollar	1.00	
Cent. Am.	Silver	Peso	.37,5	Silver: peso and divisions.
Chile	Gold	Peso	.36,5	Gold: escudo (\$1.82,5), doubloon (\$3.65), and condor (\$7.30). Silver: peso and divisions.
China	Silver	Tael	.56,1	Shanghai Hankwan Canton
			.62,5	
			.61,2	
Colombia	Gold	Dollar	1.00	Gold: condor (\$9.64,7) and double-condor. Silver: peso.
Costa Rica	Gold	Colon	.46,5	Gold: 2, 5, 10, and 20 colons (\$9.30,7). Silver: 5, 10, 25, and 50 centimos.
Denmark	Gold	Crown	.26,8	Gold: 10 and 20 crowns.
Ecuador	Gold	Sucre	.48,7	Gold: 10 sucres (\$4.86,65). Silver: sucre and divisions.
Egypt	Gold	Pound (100 piasters)	4.94,3	Gold: pound (100 piasters), 5, 10, 20, and 50 piasters. Silver: 1, 2, 5, 10, and 20 piasters.
France	Gold	Franc	.19,3	Gold: 5, 10, 20, 50, and 100 frs. Silver: 5 frs.
Germany	Gold	Mark	.23,8	Gold: 5, 10, and 20 marks.
Gt. Britain	Gold	Pound sterling	4.86,6½	Gold: sovereign (pound sterling) and ¼ sov'gn.
Greece	Gold	Drachma	.19,3	Gold: 5, 10, 20, 50, and 100 drachmas. Silver: 5 drachmas.
Hayti	Gold	Gourde	.96,5	Gold: 1, 2, 5, and 10 gourdes. Silver: gourde and divisions.
India	Gold	Pound sterling \$	4.86,6½	Gold: sov. (\$4.86,65). Sil.: rupee and div'ns.
Italy	Gold	Lira	.19,3	Gold: 5, 10, 20, 50, and 100 lire. Silver: 5 lire.
Japan	Gold	Yen	.49,8	Gold: 5, 10, and 20 yen. Silver: 10, 20, and 50 sen.
Mexico	Gold	Peso †	49,8	Gold: 5 and 10 pesos. Silver: dollar (or peso)** and divisions.
Neth'lands	Gold	Florin	.40,2	Gold: 10 florins. Silver: 2½, 1 florin and div.
N'foundl'd	Gold	Dollar	1.01,4	Gold: 2 dollars (\$2.02,8).
Norway	Gold	Crown	.26,8	Gold: 10 and 20 crowns.
Panama	Gold	Balboa	1.00,0	Gold: 5, 10, and 20 balboas. Silver: peso and divisions.
Peru	Gold	Libra	4.86,6½	Gold: ½ and 1 libra. Sil.: sol and divisions.
Portugal	Gold	Milreis	1.08	Gold: 1, 2, 5, and 10 milreis.
Russia	Gold	Ruble	.51,5	Gold: 5, 7½, 10, and 15 rubles. Silver: 5, 10, 15, 20, 25, 50, and 100 copeks.
Spain	Gold	Peseta	.19,3	Gold: 25 pesetas. Silver: 5 pesetas.
Sweden	Gold	Crown	.26,8	Gold: 10 and 20 crowns.
Switz'land	Gold	Franc	.19,3	Gold: 5, 10, 20, 50, & 100 francs. Silver: 5 fr's.
Turkey	Gold	Piaster	.04,4	Gold: 25, 50, 100, 250, and 500 piasters.
Uruguay	Gold	Peso	1.03,4	Gold: peso. Silver: peso and divisions.
Venezuela	Gold	Bolivar	.19,3	Gold: 5, 10, 20, 50, and 100 bolivars. Silver: 5 bolivars.

*The coins of silver-standard countries are valued by their pure silver contents, at the average market price of silver for the three months preceding the date of October 1, 1907. † Not including Costa Rica or British Honduras. ‡ Gold standard adopted Dec. 31, 1908; 12½ Bolivianos equal the pound sterling or Peruvian pound (4.866½). § The sovereign is the standard coin of India, but the rupee (₹0.3244½) is the current coin at 15 to the sovereign. ¶ Customs. ¶¶ Seventy-five centigrams fine gold. ** Value in Mexico .498.

MONETARY STATISTICS—Continued.

PRESENT MONETARY SYSTEM OF THE UNITED STATES ILLUSTRATED.

	Gold Coin.	Standard Silver Dollars.	Subsidiary Silver Coin.	Minor Coin.
Weight.....	25.8 grains to the dollar.	412.5 grains.	385.8 grains to the dollar.	5c. piece: 77.16 grains, 75 p. c. copper, 25 p. c. nickel. 1c. piece: 48 grains, 95 p. c. copper, 5 p. c. tin and zinc.
Fineness.....	900-1000.	900-1000.	900-1000.	Needs of the people.
Ratio to gold..	15.938 to 1.	14.953 to 1.	Needs of the people.
Limit of issue..	Unlimited.	Coinage ceased in 1905.	Needs of the people.	Needs of the people.
Denominations	\$20, \$10, \$5, \$2½, \$1.	\$1.	50 cents, 25 cents, 10 cents.	5 cents, 1 cent.
Legal tender..	Unlimited.	Unlimited, unless otherwise contracted.	Not to exceed \$10.	Not to exceed 25 cents.
Receivable....	For all public dues.	For all public dues.	For all dues up to \$10.	For all dues up to 25 cents.
Exchangeable..	For gold certificates, as below, and subsidiary and minor coin.	For silver certificates and smaller coin.	For minor coin.
Redeemable...	In "lawful money" at the Treasury in sums or multiples of \$20.	In "lawful money" at the Treasury in sums or multiples of \$20.

	Gold Certificates.	Silver Certificates.	United States Notes.	Treasury Notes of 1890.	National Bank Notes.
Limit of issue..	Unlimited for gold coin unless gold reserve falls below \$100,000,000.	Quantity of silver dollars coined, \$59,173,630.	\$346,681,016.	No further issues; volume steadily diminishing by redemption with silver dollars.	Not to exceed capital and surplus of banks.
Denominations	\$10,000, \$5,000, \$1,000, \$500, \$100, \$50, \$20, \$10.	\$100, \$50, \$20, \$10, \$5, \$2, \$1.	\$1,000, \$500, \$100, \$50, \$20, \$10, \$5, \$2, \$1.	\$1,000, \$100, \$50, \$20, \$10, \$5, \$2, \$1.	\$1,000, \$500, \$100, \$50, \$20, \$10, \$5.
Legal tender..	Not a tender.	Not a tender.	For all debts, public and private, except customs and interest on public debt.	Unlimited, unless otherwise contracted.	Not a tender.
Receivable....	For all public dues.	For all public dues.	For all public dues.	For all public dues.	For all public dues except customs.
Exchangeable..	For subsidiary and minor coin.	For silver and minor coin.	For subsidiary and minor coin.	For silver and minor coin.	For subsidiary silver and minor coin.
Redeemable...	In gold coin at the Treasury.	In silver dollars at the Treasury.	In gold at the Treasury.	In gold at the Treasury.	In "lawful money" at the Treasury, or at bank of issue.

"Lawful money" includes gold coin, silver dollars, United States notes, and Treasury notes. United States notes are by regulation receivable for customs so long as they continue redeemable in coin. There are still in use small amount of \$1 and \$2 national bank notes; also \$500 and \$1,000 silver certificates. Treasury notes were issued for purchases of silver bullion, which was coined into dollars wherewith the notes are being redeemed as rapidly as practicable. The issue of national bank notes is practically dependent upon the market price of United States bonds; when the premium is high it is not profitable to issue notes. "Emergency" issues based upon other bonds and upon commercial paper are authorized under certain conditions.

The above table was prepared for THE WORLD ALMANAC by Maurice L. Muhleman, former Deputy Assistant United States Treasurer, New York.

COINAGE OF THE MINTS OF THE UNITED STATES FROM THEIR ORGANIZATION, 1792, TO DECEMBER 31, 1908.

The Bankruptcy Law.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898.

SEC. 4. WHO MAY BECOME BANKRUPTS.—(a) Any person who owes debts, except a corporation, shall be entitled to the benefits of this act as a voluntary bankrupt.

(b) Any natural person (except a wage-earner or a person engaged chiefly in farming or the tillage of the soil), any unincorporated company, and any corporation engaged principally in manufacturing, trading, printing, publishing, or mercantile pursuits, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act. Private bankers, but not national banks or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts.

SEC. 7. DUTIES OF BANKRUPTS.—(a) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceedings.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

(a) Unlisted stocks. (b) Report of prices in 1909 is to November 27.

THE WORLD ALMANAC is indebted to "Bradstreet's" for the stock list and prices of stocks.

New York Stock Exchange Seats.

THE following table, prepared by the "Wall Street Journal," shows the high and low prices of New York Stock Exchange seats since 1900:

YEAR.	High.	Low.	YEAR.	High.	Low.	YEAR.	High.	Low.
1900.....	\$35,000	\$30,000	1904.....	\$81,000	\$57,000	1907.....	\$80,000	\$51,500
1901.....	50,000	45,000	1905.....	95,000	70,000	1908.....	72,000	52,000
1902.....	81,000	65,000	1906.....	95,000	78,000	1909.....	85,000	72,000
1903.....	82,000	51,000						

Fluctuations are due to the trend upward and downward of the stock market.

To show how the aggregate value of all the seats on the Stock Exchange has enhanced, the following table is appended. The average number of seats, now approximately 1,100, is used, and the high price each year is taken in computing the table:

YEAR.	High price.	Aggregate value.	YEAR.	High price.	Aggregate value.	YEAR.	High price.	Aggregate value.
1909.....	\$85,000	\$93,500,000	1904.....	\$81,000	\$88,000,000	1879.....	\$20,000	\$22,000,000
1908.....	72,000	79,000,000	1903.....	82,000	96,800,000	1866.....	10,000	11,000,000
1907.....	80,000	88,000,000	1902.....	81,000	88,000,000	1863.....	4,500	4,950,000
1906.....	95,000	104,500,000	1901.....	50,000	55,000,000	1823 (500 seats).	25	12,500
1905.....	95,000	104,500,000	1900.....	35,000	38,500,000			

In 1823 the initiation fee was \$10, while at the present time it is \$2,000. From 1863 to the high-record mark reached in 1906 the total number of seats increased in value \$103,550,000, or 2,233 per cent.

Cost of Membership in Leading Exchanges.

THE "Investment Guide" of Henry Clews & Co., for 1909, gives the following table of cost of membership in the leading exchanges of the world:

Baltimore Stock Exchange.....	\$2,700	New Orleans Cotton Exchange.....	\$3,000
Berlin Bourse (entrance fee, not transferable).....	750	New York Coffee Exchange.....	1,525
Boston Stock Exchange.....	37,000	New York Cotton Exchange.....	12,500
Chicago Stock Exchange.....	1,350	New York Produce Exchange.....	425
Cincinnati Stock Exchange.....	3,100	New York Stock Exchange.....	75,000
Cleveland Stock Exchange.....	3,000	Paris Bourse (appointments made and controlled by French Government).....	7,000
Consolidated Stock and Petroleum Exchange, New York.....	650	Philadelphia Stock Exchange.....	3,800
Liverpool Cotton Exchange.....	4,500	Pittsburgh Stock Exchange.....	4,000
London Stock Exchange (entrance fee, not transferable).....	2,000	St. Louis Stock Exchange.....	20,000
Montreal Stock Exchange.....	23,000	Toronto Stock Exchange.....	5,400
		Washington Stock Exchange.....	5,400

The value of a membership in an exchange depends in a large measure upon the prevailing state of business.

Comparative Prices of Commodities.

QUOTATIONS RULING FOR STANDARD GRADES, 1896 TO 1909.

THE following table from "Bradstreet's Journal" shows average ruling prices for 166 commodities in the United States at various periods from 1896 to 1909:

COMMODITIES.	1896.	1900.	1901.	1907.	1908.	1909.
	July 1.	Feb. 1.	June 1.	Mar. 1.	Nov. 1.	Nov. 1.
BREADSTUFFS.						
Wheat, No. 2, red Winter, in elevator, per bush.	\$0.64375	\$0.75125	\$0.81	\$0.83	\$1.085	\$1.235

Hay, prime (New York), per 100 lbs.....	.95	.85	.90	1.15	.80	.95
Cottonseed (Houston), per ton 2,000 lbs.....	8.00	16.00	14.50	13.50	13.50	26.00

An average of the index numbers yearly since 1892 reveals the following:

Year.	Number.	Year.	Number.	Year.	Number.
1892.....	\$7.7769	1898.....	\$6.5713	1904.....	\$7.9187
1893.....	7.5324	1899.....	7.2100	1905.....	8.0987
1894.....	6.6846	1900.....	7.8839	1906.....	8.4176
1895.....	6.4346	1901.....	7.5746	1907.....	8.9045
1896.....	5.9124	1902.....	7.8759	1908.....	8.0994
1897.....	6.1159	1903.....	7.9364	1909.....	8.4556

The figures for 1909 are based on the index numbers reported for the first eleven months of the year. The foregoing statistical exhibit shows that the average for 1909 was the highest with one exception—1907—that has been recorded within the last eighteen years.

Nutritiveness of Foods.

AVERAGE quantity of nutritive matter in 1,000 parts of varieties of animal and vegetable food.

Cucumber.....	25	Beet-root.....	148	Sole.....	210	Apricots.....	260	Almonds.....	650

272 Mutual.....					

NUMBER OF COMPANIES.	Paid for Losses during Year.	Paid for Dividends during Year.	Expenses other than Losses and Dividends during Year.	Total Disbursements during Year.	Risks Written during Year.
324 Stock*.....	\$167,240,146	\$28,612,870	\$111,524,689	\$307,377,705	†\$32,000,000,000
272 Mutual.....					

* Including 38 Lloyds. † Approximation. These statistics of fire insurance business in the United States are, with the exception of the estimate of risks written during the year, compiled from "The Insurance Year-Book," published by The Spectator Company. They do not include the returns of a few stock companies and some 500 mutual and town and county mutuals, whose transactions are purely local and individually of small volume.

CONDITION OF THE PRINCIPAL JOINT-STOCK COMPANIES DOING BUSINESS IN THE UNITED STATES JANUARY 1, 1909.*

* Annual statements of the fire insurance companies are rendered to the insurance departments during the month of January; therefore the statistics of condition January 1, 1910, were not ready when this publication went to press.

† The New York law requires a deposit of \$200,000 from foreign companies with the insurance department. This is treated by the department as "deposit capital," and the surplus stated in the next column is "surplus beyond deposit capital" and other liabilities.

The Fire Waste in the United States.

The technologic branch of the United States Geological Survey, H. M. Wilson, chief engineer of the branch, in 1909 made a report on the fire losses in the United States in 1907, from which the following are extracts:

The total fire losses in that year were \$215,084,700. The losses on insured property paid by the insurance companies were \$114,164,469.

The fire waste in the last 33 years, according to the National Board of Fire Underwriters, reached the tremendous total of \$4,484,326,831.

The great fire waste in the United States is undoubtedly due to the predominance of frame buildings. In most European cities frame buildings are positively prohibited within the limits of the municipalities, and but a very few are erected in the rural districts, owing to the scarcity and high price of timber. In the United States the conditions have been exactly reversed. Lumber, at least until recently, has been the cheaper material, besides being more easily worked than brick, stone and steel. The result has been that a great majority of the homes of the country and many factory buildings, warehouses, etc., have been made out of lumber.

Of the total losses sustained in the United States in 1907 more than two-thirds were due to frame buildings. The exact losses are \$146,695,442 in frame buildings and \$68,425,267 in brick, stone and steel buildings.

While the prevailing material of construction, lumber, is responsible for the great fire waste of the United States, there is a cause lying back of all this—faulty construction and equipment of buildings. The list of causes of fires is headed by defective chimneys, flues, fireplaces and heating and lighting apparatus, all of them faults of construction and equipment. Matches, sparks and explosions figure prominently in the list, followed by incendiarism, electricity and lightning. Nearly one-fourth of the fires are labelled "Unknown cause," which indicates forcibly the listless attitude, not only of the general public toward this waste, but also the men directly charged with protecting property against fire, the officials of municipalities and others.

PER CAPITA FIRE LOSSES IN THE UNITED STATES AS SHOWN BY GEOGRAPHICAL DIVISIONS.

Geographical Divisions.	Total Population.	Total Fire Loss.	Fire Loss Per Capita.
North Atlantic	23,779,013	\$59,447,532	\$2.50
South Atlantic	11,574,988	25,349,223	2.19
North Central	29,026,645	68,793,148	2.37
South Central	16,368,558	59,908,922	3.66
Pacific Western	4,783,557	12,676,426	2.65

FIRE WASTE IN EUROPEAN CITIES.

Cities of Austria, Belgium, France, Germany, Norway, Russia, Switzerland and the United Kingdom, with a reporting population of 19,913,816, had a loss of but \$9,582,340, a per capita of 48 cents. Russia had the highest loss, \$3,100,825 in a population of 2,673,427, a per capita loss of \$1.16.

If the United States had Europe's per capita of 48 cents in a total population estimated by the Census Bureau for 1907 as 85,532,761 the total fire waste in this country for the year would amount to \$41,055,725, a saving of natural resources to the extent of \$174,028,984.

FIRE LOSSES IN SIX EUROPEAN COUNTRIES.

Country.	Years.	Fire Loss, Annual Average.	Population 1901.	Loss Per Capita.
Austria	1898-1902	\$7,601,389	26,150,597	\$0.29
Denmark	1901	660,924	2,588,919	.26
France	1900-1904	11,699,275	33,595,500	.30
Germany	1902	27,655,600	56,367,178	.49
Italy	1901-1904	4,112,725	32,449,754	.12
Switzerland	1901-1903	999,364	3,325,025	.30

Or an average loss per capita of \$0.33.

ANNUAL COST MAINTENANCE OF FIRE DEPARTMENTS IN EUROPEAN AND AMERICAN CITIES.

City.	Population.	Fire Department Maintenance.	Per Capita.
Kiel and suburbs.....Germany	171,000	179,002 m. =	\$42,602 \$0.25

Cities in the United States having population of 100,000 and over..... 16,883,435 \$25,754,386 \$1.53

Important Tunnels of the World.

Alberg—Under the Alps at the Ari Mountain and extends from Langen to St. Anton, 6¾ miles; opened 1884.

Andes Mountains—5 miles, opened 1900.

Big Bend—Drains the Feather River in California, 2 miles; opened 1886.

Blackwell—Under River Thames, England, 1½ miles; opened 1897.

Gunnison—Southwestern Colorado, 6 miles; opened 1909.

Hoosac—Through Hoosac Mountains, Mass., 4¾ miles; opened 1873.

Khojak Pass—India, from Quetta to Kandahar, 2 miles.

Mont Cenis—Italy to France, under the Col de Frejus, 8 miles; opened 1871.

New Croton—Supplies water to New York City, 33 1-8 miles; opened 1888.

Rothschonberg—Drains the Felberg mines Saxony, 51½ miles; opened 1877.

St. Clair—Under St. Clair River from Sarnia, Ont., to Fort Huron, Mich., 2 miles; opened 1891.

St. Gothard—Through the Alps, connects Goschenen with Airolo, in Switzerland, 9 1-3 miles; opened 1881.

Severn—From Monmouthshire to Gloucestershire, England, 4¼ miles; opened 1886.

Simplon—Through the Alps, 12¼ miles; opened 1905.

Suro—Drains the Comstock Lode in Nevada, 4½ miles; opened 1879.

Wasserluh—In the Alps, between Bunnadern and Lichtensteig, Switzerland, 2 miles; opened 1909.

Woodhead—Between Manchester and Sheffield, England, 3 miles.

TUNNELS IN AND ABOUT NEW YORK CITY.

PENNSYLVANIA RAILROAD SYSTEM—Tunnels under Hudson River connecting Weehawken, N. J., with the Pennsylvania Railroad Station at Sixth Ave., between 51st and 33d Sts., New York. Work started April 1, 1904; will be completed in 1910. Two tubes of cast iron rings, 23 feet outside diameter and 21 feet 2 inches inside diameter; subaqueous portion 6,118 feet long.

Manhattan Cross-Town Tunnels from the Pennsylvania Railroad station, mentioned above, across New York under 32d and 33d Sts. to First Ave. Started July, 1905; will be completed in 1910. There are two tunnels, each with two tracks. The tunnels are built of concrete with the crown about 60 feet below the surface of the street.

East River Tunnels connect with the Cross-Town Tunnels and extend under the East River to Long Island City. Started September, 1904; will be completed in 1910. Four separate tubes with rings 23 feet outside diameter, each tube from the Manhattan shaft to the Long Island City shaft, 3,900 feet long.

HUDSON AND MANHATTAN RAILROAD SYSTEM—North tunnels under the Hudson River from Jersey City to Morton St., New York. Started November, 1874; the first in New York, officially opened February 25, 1908. Two single track tubes, with a minimum inside diameter of 15 feet 3 inches, and approximately 5,700 feet long.

Up-town tunnels connect with north tunnels at Morton St. and extend to Christopher St. thence to Sixth Ave. and up Sixth Ave. to the Pennsylvania Railroad station. Started March, 1904; will be completed in 1910. Section from Morton to 12th Sts. shield construction, remainder cut and cover.

Forty-second Street Subway Extension from Pennsylvania Railroad station to Grand Central on 42d St. Work will be started in 1910.

South tunnels under Hudson River from Jersey City to the Church St. Terminal Buildings (Cortlandt, Church and Fulton Sts.), New York. Started May, 1905; opened for traffic July, 1909. Two tubes about 5,950 feet long with cast iron rings, 16 feet 7 inches outside diameter and 15 feet 3 inches inside diameter.

Tunnels (consisting of two single track tubes now under construction) will extend from the Hoboken terminal of the Lackawanna Railroad to Washington St., Jersey City, with connections to the north tunnel and to the Erie Railroad station. At Washington St. a branch runs to the Pennsylvania Railroad station at Jersey City, where connections are made with the south tunnels. West from Washington St. to a point just east of Summit Ave. will be a double track concrete tunnel with a concrete wall dividing the tracks. Work started March, 1906; will be completed in 1911.

BELMONT TUNNEL under the East River from 42d St., New York, to Long Island City. Subaqueous portion two single track tubes with cast-iron ring 16 feet 10 inches outside diameter, and a clear inside diameter of 15 feet 6 inches. Through rock a horseshoe shaped concrete section is used and in other places a rectangular double track cross section with reinforced concrete lining. Construction started by New York and Long Island Railroad, July 12, 1905; practically completed January 1, 1908.

RAPID TRANSIT TUNNEL under the East River from the Battery, New York, to Joralemon St., Brooklyn, connecting the New York and Brooklyn Subways. Started April, 1903; trains running January 9, 1905. Two tubes, 6,784 feet long, with a finished inside diameter of 15 feet 6 inches.

BERGEN CUT of Erie Railroad through Bergen Hill Jersey City, parallel to the present tunnel, which is 4,700 feet long. The Bergen cut was started March, 1906, and will be completed in 1910. It has five four-track tunnels, with open cuts between the tunnels, making a total length of 4,300 feet. Tunnel sections 58 feet wide at the bottom and 21 feet high.

LACKAWANNA RAILROAD TUNNEL through Bergen Hill, Jersey City. Started February 28, 1906; completed February 14, 1909. Parallel to and 24 feet away from old tunnel and of the same length, viz., 4,283 feet. New tunnel is double tracked, lined with concrete, having inside dimensions 23 feet high by 30 feet wide. Bush track construction used.

Wheat Harvest Calendar.

January—Australia, New Zealand, Chile, Argentine Republic.

February and March—Upper Egypt, India.

April—Lower Egypt, India, Syria, Cyprus, Persia, Asia Minor, Mexico, Cuba.

May—Texas, Algeria, Central Asia, China, Japan, Morocco.

June—California, Oregon, Mississippi, Alabama, Georgia, North Carolina, South Carolina, Tennessee, Virginia, Kentucky, Kansas, Arkansas, Utah, Colorado, Missouri, Turkey, Greece, Italy, Spain, Portugal, South of France.

July—New England, New York, Pennsylvania, Ohio, Indiana, Michigan, Illinois, Iowa, Wisconsin, Southern Minnesota, Nebraska, Upper Canada, Roumania, Bulgaria, Austria, Hungary, South of Russia, Germany, Switzerland, South of England.

August—Central and Northern Minnesota, Dakotas, Manitoba, Lower Canada, British Columbia, Belgium, Holland, Great Britain, Denmark, Poland, Central Russia.

September and October—Scotland, Sweden, Norway, North of Russia.

November—Peru, South Africa.

December—Burmah, New South Wales.

General Offices, Cleveland, O.; New York Office, 195 Broadway.

PASSENGER RAILWAY RATES IN EUROPE.

Passenger rates differ considerably in the different countries. Most of the railroads are owned and operated by the State, but in some countries there are both State and private roads, and in England the railroads are all private corporations. The following are the regular passenger rates, reduced to cents per mile, in the various European countries:

OWNERSHIP.	Class I. Class II. Class III.			OWNERSHIP.	Class I. Class II. Class III.		
	Cents.	Cents.	Cents.		Cents.	Cents.	Cents.
Germany, Government.	2.75	1.75	1.15	Italy, Government.	3.60	2.52	1.62
Belgium, Government.	2.51	1.93	1.17	England—			
France, Government.	3.16	2.25	1.53	Gt. East. Ry., min. . . .	4.02	3.02	2.01
France, private.	3.48	2.34	1.53	Gt. East. Ry., max. . .	6.03	4.02	3.02
Holland, Government.	3.29	2.47	1.65	Southeast'n & Chatham Railway.	4.02	2.51	2.01
Holland, private.	3.29	2.47	1.65

* The Southern Pacific Mallet Compound, particulars of which are given in the first line of the table, is the largest and most powerful locomotive ever built. The engines are intended for operation on a grade of 116 ft. to the mile, and the locomotive will haul 1,212 tons back of the tender. The locomotive itself, exclusive of the tender, is 67 ft. 10 1/2 in. long, measuring from the forward end of the pilot to the rear of the cab. Oil is used as fuel, so that the labor of a fireman is nearly entirely done away with.

Railways of America "Grouped" by Capitalists.

The great railroad systems of the United States have been reduced to a few "groups" by means of consolidation and reconsolidation. The following is a list of these groups, which comprise three-quarters of all the railroad lines of the country:

Groups.	Mileage.	Stocks.	Bonds.
Vanderbilt	24,198	\$615,900,000	\$749,600,000
Pennsylvania	19,172	763,600,000	565,800,000
Harriman	28,112	944,300,000	1,229,500,000
Hill-Morgan	12,519	382,900,000	417,300,000
Morgan	12,618	565,210,000	537,912,000
Gould	20,983	531,206,000	312,600,000
Moore's	27,912	363,700,000	481,200,000
Rockefeller	15,983	250,300,000	307,500,000
Walters	11,143	147,600,000	199,300,000
Independent	27,212	528,200,000	455,600,000
Hawley	8,400	235,387,655	382,578,778
Total	208,252	\$5,328,303,665	\$6,138,890,778

Railroad Traffic of the World.

COUNTRIES.	Miles of Railroad.	Cost of Roads and Equipments.	Passengers Carried.	Tons of Freight Carried.	Receipts.	Expenditures.
Europe	175,000	\$20,100,000,000	2,700,000,000	1,145,000,000	\$1,800,000,000	\$1,040,000,000
America	250,000	15,800,000,000	700,000,000	1,250,000,000	1,800,000,000	1,300,000,000
Africa	12,500	760,000,000	36,000,000	11,000,000	65,000,000	34,000,000
Asia	37,500	1,500,000,000	248,000,000	42,000,000	120,000,000	60,500,000
Australia	15,000	760,000,000	62,000,000	13,500,000	55,000,000	33,000,000
Total	490,000	\$38,920,000,000	3,746,000,000	2,461,500,000	\$3,840,000,000	\$2,427,500,000

These estimates are for 1900. Cost of roads and equipments in 1906 was estimated at \$43,000,000,000, or an average of \$76,000 per mile.

The Railways of the World.

THE Archiv fur Eisenbahnwesen, published by the Prussian Ministry of Public Works, issued its statistics of the railways of the world, covering the year 1907, and the nearest year for which statistics were available for the United States and Canada, the year ending with June, 1907. It found in the grand divisions of the world the following mileages, street railways and some other light railways not being included: Europe, 199,356 miles; Asia, 56,294 miles; Africa, 18,519 miles; North America, 268,058 miles, South America, 34,911 miles; Australasia, 17,700 miles.

* Does not include mileage of companies classed as Switching and Terminal Companies.
† Excludes mileage in Alaska (185.33 miles, unofficial) and Hawaii.

Railway Payments in Damage Suits.

THE Bureau of Railway News and Statistics points out that twenty-one railroads of the United States, doing more than one-half of the business of the country, paid approximately \$56,700,000 for "loss and damage" and "injuries to persons" during the year ending June 30, 1908. In the preceding year these accounts amounted to \$47,258,587, and in 1898 to \$12,182,003. This table shows the amounts paid by the railways of the United States for "loss and damage" and "injuries to persons" during the decade 1897 to 1907, inclusive, and proportion to gross earnings:

	Loss and Damage		Injuries to Persons			Loss and Damage		Injuries to Persons	
	Amount.	Per Cent.	Amount.	Per Cent.		Amount.	Per Cent.	Amount.	Per Cent.
1897..	\$4,793,143	.427	\$6,049,889	.539	1903..	\$13,726,508	.722	\$14,052,123	.779
1898..	5,409,544	.433	6,772,459	.543	1904..	17,002,602	.861	15,838,179	.802
1899..	5,976,032	.455	7,119,212	.541	1905..	19,732,692	.946	16,034,727	.770
1900..	7,055,622	.474	8,405,980	.565	1906..	21,086,219	.907	17,486,864	.751
1901..	8,109,637	.510	9,014,144	.567	1907..	25,796,083	.996	21,462,504	.829
1902..	11,034,686	.639	11,682,756	.676					

From which it appears that where the payments on account of "loss and damage" increased \$21,002,940, or 437.9 per cent. in ten years and of "injuries to persons" \$15,412,615, or 254.7 per cent., the increase relatively to gross earnings was 130.2 per cent. and 54.5 per cent. respectively.—Bradstreet's.

UNITED STATES INTERSTATE COMMERCE COMMISSION.

WASHINGTON, D. C.
 Martin A. Knapp, of New York, Chairman; Judson C. Clements, of Georgia; Charles A. Prouty, of Vermont; Francis M. Cockrell, of Missouri; Franklin K. Lane, of California; Edgar E. Clark, of Iowa; James S. Harlan, of Illinois. Edward A. Moseley, Secretary.

STATE RAILROAD COMMISSIONERS.

Alabama Railroad Commission—Montgomery. Chas. Henderson, President, Troy; W. D. Nesbitt, Birmingham; John A. Lusk, Guntersville; S. P. Kennedy, Secretary, Montgomery.

Arizona Railway Commission—Phoenix. M. O. Bicknell, Chairman; W. P. McNair, Secretary, Tucson.

Arkansas Railroad Commission—Little Rock. J. W. Crockett, Chairman; Wm. A. Falconer, R. P. Allen; Wm. E. Floyd, Secretary.

California Railroad Commission—A. C. Irwin, President, Marysville; H. D. Loveland, San Francisco; Theo. Summerland, Los Angeles; W. D. Wagner, Secretary, San Francisco.

Colorado Railroad Commission—Denver. A. P. Anderson, President; D. H. Staley; W. L. Seely, Secretary.

Connecticut Railroad Commissioners—Hartford. A. F. Gates, Chairman; William O. Seymour, Ridgefield; O. R. Fyler, Torrington; Henry F. Billings, Clerk, Hartford.

Florida Railroad Commissioners—Tallahassee. R. Hudson Burr, Chairman; N. A. Blitch; Royal C. Dunn; S. E. Cobb, Secretary.

Georgia Railroad Commission—Atlanta. Chairman; H. W. Hill, Greenville; O. B. Stevens; George Hillyer; C. M. Candler; Campbell Wallace, Secretary.

Idaho—State Auditor, Boise City. Secretary State Board of Equalization.

Illinois Railroad and Warehouse Commission—B. A. Eckhart, Chicago; J. A. Willoughby, Belleville; O. F. Berry, Wm. Kilpatrick, Secretary, Springfield.

Indiana Railroad Commissioners—Indianapolis. Wm. J. Wood, Chairman; John F. McClure, Henry M. Dowling; Chas. B. Ritey, Secretary.

Iowa Board of Railroad Commissioners—Des Moines. D. J. Palmer, Chairman; W. L. Eaton, N. S. Ketchum; D. N. Lewis, Secretary.

Kansas Railroad Commission—Topeka. G. W. Kanavel, Chairman; C. A. Ryker, F. J. Ryan; E. G. Shiner, Secretary.

Kentucky Railroad Commission—Frankfort. A. T. Siler, Chairman, Williamsburg; John P. Harwell, Jr., Hardinsburg; L. P. Tarlton; D. B. Cornett, Secretary.

Louisiana Railroad Commission—Baton Rouge. C. L. de Fuentes, Chairman, New Orleans; Shelby Taylor, Crowley; J. J. Meredith, W. M. Barrow, Secretary.

Maine Railroad Commissioners—Augusta. Joseph B. Peaks, Chairman, Dover; Parker Spofford, Bucksport; Frank Keizer, Rockland; E. C. Farrington, Clerk, Augusta.

Maryland—State Tax Commissioner, Annapolis.

Massachusetts Board of Railroad Commissioners—Boston. Walter P. Hall, Chairman, Fitchburg; Clinton White, Melrose; George W. Bishop, Newtonville; Charles E. Mann, Clerk, Malden.

Michigan Railroad Commission—Lansing. C. L. Glasgow, Chairman; G. W. Dickinson, James Scully; Samuel H. Kelly, Secretary.

Minnesota Railroad and Warehouse Commission—St. Paul. Ira B. Mills, Chairman; C. E. Thunquist, C. F. Staples; A. C. Clausen, Secretary.

Mississippi Railroad Commission—Jackson. E. M. Lee, President; John A. Webb, W. R. Scott; T. R. Maxwell, Secretary.

Missouri Railroad and Warehouse Commission—Jefferson City. F. A. Wightman, Chairman; John A. Knott, H. R. Oglesby; T. M. Bradbury, Secretary.

Montana Railroad Commission—Helena. E. A. Morley, Chairman; Dan Boyle, B. T. Stanton, R. F. McLaren, Secretary.

Nebraska State Railway Commission—Lincoln. H. T. Clarke, Jr., Chairman; W. H. Cowgill, H. J. Winnett; Clark Perkins, Sec.

Nevada—Carson City. H. F. Bartine, Chairman; Henry Thurtell, J. F. Shaughnessy; E. H. Walker, Secretary.

New Hampshire Railroad Commission—Concord. George E. Bales, Oscar L. Young, Arthur G. Whittemore.

New Jersey Railroad Commission—Frank H. Sommers, President, Newark; Thos. J. Hillery, Boonton; Robert Williams, Paterson; A. N. Barber, Secretary, Trenton.

New York Public Service Commission—First District—(Greater New York) New York City—Wm. R. Willcox, Chairman; Wm. McCarroll, Edward M. Bassett, Milo R. Maltbie, John E. Eustis; T. H. Whitney, Secretary. Second District—(all of State outside Greater New York) Albany, N. Y. Frank W. Stevens, Chairman; John B. Olmsted, Thos. M. Osborne, James E. Sague, Martin S. Decker; J. S. Kennedy, Secretary.

North Carolina Corporation Commission—Raleigh. Franklin McNeill, Chairman; Sam. L. Rogers, B. F. Aycock; H. C. Brown, Secretary.

North Dakota Commissioners of Railroads—Bismarck. W. H. Stutsman, President, Mandon; O. P. N. Anderson, Starkweather; W. H. Mann, New Salem; Thomas Hall, Secretary.

Ohio Railroad Commission—Columbus. O. H. Hughes, Chairman; O. P. Gothlin, J. C. Sullivan; C. A. Radcliffe, Secretary.

Oklahoma Corporation Commission—Guthrie. J. E. Love, Chairman; A. P. Watson, J. J. McAlester; W. L. Chapman, Secretary.

Oregon Railroad Commission—Salem. Thos. K. Campbell, Chairman; Oswald West, Clyde B. Aitchison; George O. Goodall, Secretary.

Pennsylvania State Railroad Commission—Harrisburg. Nathaniel Ewing, Chairman; John Y. Boyd, Chas. N. Mann; H. S. Calvert, Secretary.

Rhode Island Railroad Commission—Providence. J. P. Burlingame; D. J. White, Deputy.

South Carolina Railroad Commissioners—J. H. Earle, Chairman, Greenville; B. L. Caughman; J. M. Sullivan, Anderson; T. B. Lumpkin, Secretary, Columbia.

South Dakota Railroad Commissioners—Sioux Falls. W. G. Smith, Sturgis; George Rice, Flandreau; F. C. Robinson, Croton; Wm. H. Stanley, Secretary, Sioux Falls.

Tennessee Railroad Commissioners—Nashville. B. A. Huloe, Chairman; Frank Avent, H. H. Hannah; Chas. H. Love, Secretary.

Texas Railroad Commission—Austin. Allison Mayfield, Chairman; O. B. Colquitt, W. D. Williams; E. R. McLean, Secretary.

Vermont Public Service Commission—J. W. Redmond, Chairman, Newport; Eli H. Porter, Wilmington; S. H. Jackson, Barre; R. W. Spear, Clerk, Newport.

Virginia State Corporation Commission—Richmond. Robert R. Prentiss, Chairman, Richmond; William F. Rhea, J. E. Willard; R. T. Wilson, Clerk.

Washington—Olympia. H. A. Fairchild, Chairman; J. C. Lawrence, J. T. Jones; Frank M. Dallam, Secretary.

West Virginia—State Tax Commissioner, Charleston.

Wisconsin Railroad Commission—Madison. B. H. Meyer, Halford Erickson, J. H. Hoemers; John M. Winterbotham, Secretary.

Wyoming Board of Equalization—Cheyenne. Edward Gillette, President; Wm. R. Schnitger; Le Roy Grant, Secretary.

Oct., 1904.	N. Y. Central & H. R.....	Croton—Ossining.....	3.51	2.00	105

The fastest time on record for a distance of over 440 miles was made by the Lake Shore and Michigan Southern R.R. from Buffalo to Chicago, in June, 1905, noted above. The fastest long-distance run less than 410 miles was on the New York Central R.R. September 11, 1895, from New York to Buffalo, 436 1-2 miles, in 407 minutes actual time. Average speed, 64 1-3 miles an hour, with two stops and 28 slow-ups, and on January 1, 1903, from Albany to Buffalo, 302 miles, in 295 minutes.

Among the fastest regular trains in the United States, for a shorter distance, are believed to be the New York Central "Empire State Express," between New York and Albany, 143 miles in 160 minutes, and the "Congressional Limited," on the Pennsylvania Railroad, which makes the run from Jersey City to Washington in 4 hours, 46 minutes, a distance of 227 miles.

On August 15, 1898, on P. & R. and C. R. R. of N. J., "Royal Blue Line," between Elizabeth, N. J., and Jenkintown, a distance of 69 miles, in 61 minutes, including 2 "slow-ups," some of the miles being traversed in 38 seconds.

The quickest run between Jersey City and Washington, 221 miles, was made on the Central Railroad of New Jersey, March 2, 1897 (by a special train, bearing Vice-President-elect Hobart and party), in 4 hours 8 minutes, making the running time, including "slow-ups" for taking water, changing engines, etc., 60 miles an hour. This beat the time of the "Aunt Jack" train, made by the Madison Square Theatre Company March 10, 1890, which was 4 hours 18 minutes, each way, going and returning.

The fastest long-distance foreign trains, including all stops, are, according to the "Railroad Gazette," as follows:

ROUTE.	Railways.	From	To	Miles.	Time— Hrs. Min.	Stops.	Inclusive Speed in Miles per Hour.
Sud Express.....	Orleans and Midi.....	Paris.....	Bayonne.....	486½	8 59	6	54.13
East Coast.....	Gt. N. and N. E. Railways.....	London.....	Edinburgh.....	393½	7 45	3	50.77
West Coast.....	L. & N. W. and Caledonian Rys.	London.....	Glasgow.....	401½	8 00	3	50.18

Of long-distance runs in France one is made on the Northern Railway of France by the Paris-Calais express, which runs 185 miles in 184½ minutes, or a fraction over a mile a minute, allowing for a stoppage of 2½ minutes at Amiens.

Other notable long-distance fast runs: February 14-15, 1897—Pennsylvania Railroad and C., B. and Q., Jersey City to Denver, 1,367 miles, in 48 hours; average speed, 40.3 miles per hour. August 20-31, 1891—Canadian Pacific, Vancouver to Brockville, 2,302 miles, in 77 hours 9 minutes; average speed, 36.32 miles per hour.

The Jarrett and Palmer special theatrical train, Jersey City to Oakland (San Francisco), 3,311 miles, June, 1876, 83 hours 45 minutes; average speed, 39.53 miles per hour.

In October, 1905, the "Harriman Special" made the run from Oakland to Jersey City (3,239 miles) in 73 hours, 12 minutes, or 41.50 miles per hour. In May, 1906, the "Harriman Special" made the run from Oakland, Cal., to New York City in 71 hours, 27 minutes.

The "Scott Special" left Los Angeles, Cal., July 9, 1905, and arrived in Chicago (2,415.5 miles), July 11, having made the run in 44 hours 54 minutes, maintaining an average speed while in motion of 51 miles an hour.

On November 15, 1907, at Clavton, N. J., in a trial test on Pennsylvania R. R. between steam and electric locomotives, the steam engine made 93.6 miles an hour on a specially built seven mile curved track, while the electric locomotive made but 90 miles an hour.

Regulation of Railroad Rates.

THE following are the clauses of the act approved June 29, 1906, to amend the act of 1887 and other acts amendatory thereof entitled "An Act to Regulate Commerce," which specifically relate to the construction of switches, filing of schedules of rates and fares, prohibition of discriminations and rebates and hearing of complaints and remedial action thereon by the Interstate Commerce Commission.

FURNISHING SWITCHES AND TRANSPORTATION.

Any common carrier subject to the provisions of this act, upon application of any lateral branch line of railroad, or of any shipper tendering interstate traffic for transportation, shall construct, maintain, and operate upon reasonable terms a switch connection with any such lateral branch line of railroad, or private side track which may be constructed to connect with its railroad, where such connection is reasonably practicable and can be put in with safety and will furnish sufficient business to justify the construction and maintenance of the same; and shall furnish cars for the movement of such traffic to the best of its ability, without discrimination in favor of or against any such shipper.

FILING OF SCHEDULES OF RATES.

Every common carrier subject to the provisions of this act shall file with the commission created by this act and print and keep open to public inspection schedules showing all the rates, fares and charges for transportation between different points on its own route and between points on its own route and points on the route of any carrier by railroad, by pipe line, or by water when a through route and joint rate have been established. If no joint rate over the through route has been established, the several carriers in such through route shall file, print and keep open to public inspection as aforesaid, the separately established rates, fares and charges applied to the through transportation. The schedules printed as aforesaid by any such common carrier shall plainly state the places between which property and passengers will be carried, and shall contain the classification of freight in force, and shall also state separately all terminal charges, storage charges, icing charges, and all other charges which the commission may require, all privileges or facilities granted or allowed, and any rules or regulations which in anywise change, affect, or determine any part of the aggregate of such aforesaid rates, fares and charges, or the value of the service rendered to the passenger, shipper, or consignee.

DISCRIMINATION FORBIDDEN.

No carrier, unless otherwise provided by this act, shall engage or participate in the transportation of passengers or property, as defined in this act, unless the rates, fares, and charges upon which the same are transported by said carrier have been filed and published in accordance with the provisions of this act; nor shall any carrier charge or demand or collect or receive a greater or less or different compensation for such transportation of passengers or property, or for any service in connection therewith, between the points named in such tariffs than the rates, fares, and charges which are specified in the tariff filed and in effect at the time; nor shall any carrier refund or remit in any manner or by any device any portion of the rates, fares, and charges so specified, nor extend to any shipper or person any privileges or facilities in the transportation of passengers or property, except such as are specified in such tariffs.

REBATES.

Any person, corporation, or company who shall deliver property for interstate transportation to any common carrier, subject to the provisions of this act, or for whom as consignee or consignee, any such carrier shall transport property from one State, Territory, or the District of Columbia to any other State, Territory, or the District of Columbia or foreign country, who shall knowingly by employé, agent, officer, or otherwise, directly or indirectly, by or through any means or device whatsoever, receive or accept from such common carrier any sum of money or any other valuable consideration as a rebate or offset against the regular charges for transportation of such property, as fixed by the schedules of rate provided for in this act, shall in addition to any penalty provided by this act forfeit to the United States a sum of money three times the amount of money so received or accepted, and three times the value of any other consideration so received or accepted, to be ascertained by the trial court; and the Attorney-General of the United States is authorized and directed, whenever he has reasonable grounds to believe that any such person, corporation, or company has knowingly received or accepted from any such common carrier any sum of money or other valuable consideration as a rebate or offset as aforesaid, to institute in any court of the United States of competent jurisdiction, a civil action to collect the said sum or sums so forfeited as aforesaid; and in the trial of said action all such rebates or other considerations so received or accepted for a period of six years prior to the commencement of the action, may be included therein, and the amount recovered shall be three times the total amount of money, or three times the total value of such consideration, so received or accepted, or both, as the case may be.

HEARING OF COMPLAINTS.

The commission is authorized and empowered, and it shall be its duty, whenever, after full hearing upon a complaint made as provided in section thirteen of this act, or upon complaint of any common carrier, it shall be of the opinion that any of the rates, or charges whatsoever, demanded, charged, or collected by any common carrier or carriers, subject to the provisions of this act, for the transportation of persons or property as defined in the first section of this act, or that any regulations or practices whatsoever of such carrier or carriers affecting such rates, are unjust and unreasonable, or unjustly discriminatory, or unduly preferential or prejudicial, or otherwise in violation of any of the provisions of this act, to determine and prescribe what will be the just and reasonable rate or rates, charge or charges, to be thereafter observed in such case as the maximum to be charged; and what regulation or practice in respect to such transportation is just, fair, and reasonable to be thereafter followed; and to make an order that the carrier shall cease and desist from such violation, to the extent to which the commission find the same to exist, and shall not thereafter publish, demand, or collect any rate or charge for such transportation in excess of the maximum rate or charge so prescribed. All shall conform to the regulation or practice so prescribed.

ESTABLISHMENT OF ROUTES AND RATES.

The commission may also, after hearing on a complaint, establish through routes and joint rates as the maximum to be charged, and prescribe the division of such rates as hereinbefore provided, and the terms and conditions under which such through routes shall be operated, when that may be necessary to give effect to any provision of this act, and the carriers complained of have refused or neglected to voluntarily establish such through routes and joint rates, provided no reasonable or satisfactory through route exists, and this provision shall apply when one of the connecting carriers is a water line.

The Submarine Cables of the World. 301

(From report issued by the Bureau International de l'Union Télégraphique.)

The following table sets forth the entire system of submarine cables of the world, including those along the shores and in the bays, gulfs, and estuaries of rivers, but excepting those in lakes and the interior watercourses of continents. The list includes all cables operated by private companies, and in addition thereto under the name of each nation is given the list of cables operated by the government of that nation.

COMPANIES.	Number of Cables.	Length of Cables in Nautical Miles.	COMPANIES.	Number of Cables.	Length of Cables in Nautical Miles.
<i>Anglo-American Telegraph Co.</i>	14	9,554	<i>Eastern and South African Telegraph Co.</i>	19	10,541

**Welland (ship canal).....	26,080,365	1823	26½	26	14	Connects Lake Ontario and Lake Erie.

†The Erie Canal, Oswego Canal and Champlain Canal are now being enlarged by the State of New York to a depth of 12 feet, and with locks of a capacity to pass barges having a net tonnage capacity of 2,500 tons each. It is anticipated that this entire enlargement will be completed during the year 1913. The cost of enlarging these three canals was not to exceed \$101,000,000 and will be within that figure.

‡The Cayuga and Seneca Canal will be enlarged to pass barges of the same capacity as the improved Erie Canal at a cost estimated at \$7,000,000. (Provided the referendum bill for that purpose submitted to the people at the recent election has received a majority affirmative vote.)

* And improvements. † Navigable depth. ** Welland Canal—An enlargement of this canal has been decided upon. ‡ Cape Cod Canal (Sea Level Ship Canal) about 12 miles long, to connect Massachusetts Bay and Buzzard's Bay, under construction.

Beaufort Canal (Beaufort, N. C., to Neuse River) under construction. The Harlem River Ship Canal, connecting the Hudson River and Long Island Sound, by way of Spuyten Duyvil Creek and Harlem River, was opened for traffic on June 17, 1895, and cost about \$2,700,000.

The Tariff Board.

SECTION 2 of the Tariff Act of 1906 provides that "from and after March 31, 1910, except as otherwise specially provided for in this section, there shall be levied, collected and paid on all articles when imported from any foreign country into the United States or into any of its possessions (except the Philippine Islands, Guam and Tutulla) the rates of duty prescribed by the schedules and paragraphs of the dutiable list of Section 1 of this Act, and in addition thereto 25 per centum ad valorem, which rates shall constitute the maximum tariff of the United States." * * * To secure information to assist the President in the discharge of the duties imposed upon him by this section, and the officers of the Government in the administration of the customs laws, the President is hereby authorized to employ such persons as may be required."

Under this authorization President Taft on September 15 appointed the following persons to be members of the Tariff Board and to perform the duties required by the act:

HENRY CROSBY EMERY, professor of political economy at Yale University, chairman.
JAMES BURTON REYNOLDS, Assistant Secretary of the Treasury.

ALVAH H. SANDERS, editor of the Breeders' Gazette, of Chicago.
The Board met for organization in the office of the Secretary of the Treasury at Washington on September 24, 1909.

Plymouth to New York	Deutschland	Hamburg-Am.	July 7-12, 1900	5	15	46
New York to Naples	Deutschland	Hamburg-Am.	Jan. 20-28, 1904	7	16	44

Approximate Distances: Sandy Hook (Lightship), New York, to Queenstown (Roche's Point), 2,800 miles; to Plymouth (Eddystone), 2,962 miles; to Southampton (The Needles), 3,100 miles; to Havre, 3,170 miles; to Cherbourg (The Mole), 3,184 knots. The fastest day's run was made by the Mauretania, of the Cunard line, June, 1909—673 knots, or 26.55 knots per hour.

1905 record.—Allen Line's turbine Steamer *Virginian* passed Cape Race June 13, 11 A. M., inward bound, having left Mobile on the afternoon of June 9, thus crossing in less than four days.

Steamship development as shown in the relative proportions, speed, etc., of the Great Eastern and Mauretania:

Great Eastern.		Mauretania.	
Length	692 ft.	Length	790 ft.
Breadth	80 ft.	Breadth	88 ft.
Displacement	27,000 tons.	Displacement	45,000 tons.
Paddle, Screw and Sail: Speed	13 to 14 knots.	Quadruple Screws	27½ knots (trial speed).

1908.....	208,477	1,359,430	25,853	*62,371,287	28,582,212.09	25,179,215.33	3,402,996.76
1909.....	211,513	1,382,500	24,321	*68,053,439	30,541,072.55	23,193,965.66	7,347,106.89

* Not including messages sent over leased wires or under railroad contracts.
 The capital stock is \$99,817,100. Funded debt, \$38,645,000.
 The average toll per message in 1888 was 104.7; in 1890 was 32.4; in 1891 was 32.5; in 1892 was 31.6; in 1893 was 31.2; in 1894 was 30.5; in 1895 was 30.7; in 1896 was 30.9; in 1897 was 30.5; in 1898 was 30.1; in 1899 was 30.8; in 1900 was 30.3; in 1901 was 30.9; in 1902 was 31.0; in 1903 was 31.4; in 1904 was 31.7; in 1905-6 was 31.6; in 1907-8 was 33.7; in 1909 was 34.1. The average cost per message to the company in 1868 was 63.4; in 1880 was 22.7; in 1891 was 23.2; in 1892 was 22.3; in 1893 was 22.7; in 1894 was 23.3; in 1895 was 23.3; in 1896 was 24.0; in 1897 was 24.3; in 1898 was 24.7; in 1899 was 25.1; in 1900 was 25.1; in 1901 was 25.1; in 1902 was 25.7; in 1903 was 25.6; in 1904 was 26.1; in 1905 was 27.3; in 1906 was 27.6; in 1907 was 30.2; in 1908 was 34.3; in 1909 was 28.5.
 The Postal Telegraph Cable Company also transacts business in the United States, and in 1909 operated 60,366 miles of poles and 360,555 miles of wire, by means of which it reached 30,156 places.

GROWTH OF THE TELEGRAPH SERVICE IN THE WORLD.

Number of messages, 1870: Norway, 466,700; Sweden, 590,300; Denmark, 513,623; Germany, 3,207,800; Netherlands, 1,837,800; Belgium, 1,998,800; France, 5,683,800; Switzerland, 1,629,255; Spain, 1,050,000; Italy, 2,189,000; Austria, 3,388,249; Hungary, 1,489,000; United States, 9,157,646; Great Britain and Ireland, 9,650,000.
 Number of messages, 1906-08: Norway, 2,519,688; Sweden, 3,472,524; Denmark, 2,728,487; Germany, 52,490,981; Netherlands, 6,262,208; Belgium, 19,193,782; France, 55,794,849; Switzerland, 4,590,876; Spain, 4,947,761; Italy, 15,145,471; Austria, 18,846,187; Hungary, 17,759,447; Russia, 151,419,235; United States (1908), 93,000,000; Great Britain and Ireland, 89,493,000; Japan, 24,142,668; Australia, 12,432,100; New Zealand, 6,336,333; Argentine Republic, 2,121,543; India, 11,335,165; Mexico, 3,383,518; Canada, 5,863,247; Turkey, 6,057,473; Bulgaria, 1,525,112; Egypt, 2,221,046; Roumania, 2,889,073; Cape Colony, 2,949,127; Portugal, 3,596,881; Brazil, 1,638,140; Chile, 4,500,748; Greece, 1,413,325; Serbia, 1,382,194; Guatemala, 1,281,419; Uruguay, 293,943; Colombia, 1,388,388; Persia, 216,171; Peru, 152,806; Paraguay, 103,820.
 Messages, per capita: New Zealand, 5.05; Australia, 2.39; Belgium, 2.15; Great Britain and Ireland, 2.15; France, 1.25; Switzerland, 1.19; United States, 1.08; Netherlands, 1.04; Norway, 1.01; Germany, 0.68; Italy, 0.24; Spain, 0.28.

For statement regarding wireless telegraphy see article on "Electrical Progress in 1909."

MANUFACTURE OF TELEGRAPH AND TELEPHONE APPARATUS.

(From Census Bulletin No. 73 of 1907.)

An apparent falling off in the production of telegraph apparatus from \$1,642,266 in 1900 to \$1,111,194 in 1905 is accounted for in part by the growing custom among the larger telegraph systems of making and repairing their own apparatus. The value of the factory product in 1905 is distributed thus: 76,826 intelligence instruments (key, sounder, etc.), valued at \$187,744; police, fire, district, and miscellaneous, valued at \$592,070; wireless telegraph apparatus, valued at \$114,050, and switchboards and parts and supplies, valued at \$217,330. The most important recent improvements have been the introduction of printing telegraph systems and the development and extension of wireless telegraphy.
 The total value of telephonic apparatus manufactured, as reported at the census of 1905, was \$15,803,693, as compared with \$10,512,412 for the census of 1900. Of this total value, \$824,204 represented the value of 850,815 transmitters; \$696,113, the value of 831,195 receivers; \$6,483,418, the value of 887,447 complete sets of instruments; \$68,826, the value of 4,560 interior systems complete without instruments; \$5,154,447, the value of 4,283 central switchboards; \$564,795, the value of 3,917 private exchange boards; and \$2,071,895, the value of telephone parts and supplies (chiefly the signalling apparatus in magneto-telephone sets and the line protector fuses, etc.).
 Illinois is the great centre of telephonic manufacturing industry in the United States, both as to number of factories and as to output. More than half the total product, or \$8,357,521, was from this State. The output of New York was also large, but not quite half that of Illinois.
 Recent inventions involving the use of telephonic apparatus are: A system of music production and distribution by means of electrical currents over the telephone circuits; the Poulsen telegraph, the object of which is to furnish a record of the speech received over the telephone; a system of submarine signalling based on the use of the telephone; and the "telegraphone," an instrument used in connection with railway telegraph circuits.

Electrical Progress in 1909.

IN GENERAL.

IMPROVEMENT was the element predominating in all lines of electrical activity in 1909. The advent of new devices was not so marked as the perfecting of existing ones and more intelligently and extensively applying them. Largely such advancement was possible through the return of confidence on the part of capital. Before the end of the year the recovery from the slack times that prevailed through the greater part of the preceding year was almost complete. A very great improvement over the business of 1908 was made in all lines and nearly equalled the records of the phenomenal year of 1907. Exports of electrical goods, however, were far below those of the two preceding years. The Panama Canal, in the building of which such a vast sum of money is being expended, has opened a market for an immense amount of machinery, and the electrical interests received their share. All the operations in building the locks are being conducted by electric power, from the receipt of the raw material to the placing of the concrete in the forms. The power plants at Gatun and Miraflores were completed during the year.

The South, which has been rather deficient in electrical development, had an electrical and industrial exposition in Louisville last year, the purpose of which was largely to create interest in electrical applications.

The part that has been taken in recent years by municipal and State regulation of electric transportation, lighting, telephones, etc., and notably through the agency of public service commissions, such as those now provided in the States of New York, Massachusetts, Connecticut and others, is having more and more influence in real progress in electrical industries as measured by their usefulness to the public. New York City, which has suffered so long from inadequate transit facilities, and probably always will, since the provisions cannot keep up to the increasing requirements, nevertheless is much better off than it would be without the interest taken by the State authorities. Many notable propositions were made during the year for the extension of the subway and other lines, involving the expenditure of millions of dollars. One proposition alone, made by the Interborough-Metropolitan Company for a system connecting the boroughs of Manhattan, Bronx and Brooklyn, would cost \$100,000,000. Several companies, amply financed, are bidding for franchises. The interests headed by William G. McAdoe succeeded in getting a franchise to extend the Hudson tunnel system from Twenty-third Street and Sixth Avenue to the Grand Central Station at Forty-second Street and Fourth Avenue.

A contribution to scientific advance is reasonably expected with the completion last year of a magnetic survey yacht almost entirely devoid of magnetic metals. The Carnegie is a wooden vessel with a producer power plant, the machinery of which was constructed entirely of bronze alloys with the exception of cast iron liners in the engine cylinders and steel cams for the valve gear.

Among the newer of the electrically-operated useful miscellaneous devices that have done so much in late years to stimulate the consumption of electric current and thereby increase the revenue of central stations is the vacuum cleaner. In theatres, office buildings, hotels and even many homes it has practically superseded all other forms of cleaning apparatus. As another means of increasing the sale of current, in the periods of slack load, central stations are encouraging the use of electric vehicles, the storage batteries for which can be charged when other power demands are light. Electric automobiles showed improvement in reduction of friction, which, reducing the power required, also reduced weight, in turn requiring less power, and it was amply demonstrated that they have their field as well as gasoline motor cars. The New York Post Office experimented with electric mail wagons, and very successfully, shortening the time to the Bronx by about twenty-five minutes. The central stations are also doing more and more to further the use of electric signs or signs illuminated by electric lights. Electric heating for industrial purposes is one of the youngest branches of electrical service. It is estimated that at least 300,000 kilowatts is the capacity of apparatus at present in use in this work, here and abroad, representing some thousand distinct types of applications. Several large central stations abroad are furnishing current for electric furnaces. Electric cooking devices were somewhat improved, the aim being to overcome the present objections of lack of durability, slowness in heating, and quantity of current required. More attention is being given to the designing of such apparatus. Electric flatirons are now being produced in lots of 100,000 at a time.

The American Institute of Electrical Engineers celebrated last year its twenty-fifth anniversary by a dinner at the Hotel Astor in New York City; the electrical effects in the decorations were appropriate to the occasion and perhaps the most pretentious of the kind ever attempted. The report of the Committee on Progress of the National Electric Light Association, submitted at its convention in June, 1909, stated that there are now 5,111 central stations in this country, supplying 555,921 arc lamps and 41,807,944 incandescent lamps, and a total capacity in stationary motors of 1,649,026 horse-power. In addition there are 1,300 electric railway systems.

TELEGRAPHY AND TELEPHONY.

Since the Republic disaster last January and the saving of all on board by summoning help with the wireless telegraph, one very important value of wireless communication has been established and steamship companies have rushed to adopt it. Congress was so impressed that it passed laws requiring ocean-going steamships carrying passengers to be equipped with the apparatus. Both the Marconi Wireless Telegraph Company and the United Wireless Telegraph Company reported that they were nearly overwhelmed with orders for ship equipment as a consequence. The majority of the larger lake, sound and river boats also installed apparatus. Contracts were let last year for the 3,000-mile wireless telegraph station to be erected at Washington. The Fessenden Wireless Company will install the apparatus and the station will be a reinforced concrete tower, 600 feet high, fifty to sixty feet in diameter at the base and eight to ten feet in diameter at the top. An army transport succeeded in exchanging messages with the Pacific Coast while it was nearing Honolulu; the distance was 3,500 miles. The feat was a result more of especially favorable conditions than any remarkable recent improvements in apparatus. The Lake Shore and Michigan Southern Railroad, experimenting with train wireless telegraphy, succeeded in maintaining communication from Cleveland and Chicago with a train moving at full speed between those stations.

New York City set aside an appropriation of \$100,000 for preparing plans for a new fire alarm system which it so much needs, the present one being not only obsolete, but in bad condition. It will probably cost \$2,000,000 to install the system proposed. Non-interfering

boxes will be used. Concrete telegraph poles have become an important substitute for wooden ones. They are stronger and more lasting and have proved so satisfactory in experimental installations that the Pennsylvania Railroad is now using them for all renewals. Last year the Commercial Cable Company completed the laying of a cable from St. John's, Newfoundland, to New York, 1,307 miles, which tapped one of the old cables across the Atlantic and made it possible to so much increase the speed of transmission that a greatly increased volume of business could be handled.

While there were some patents taken out for improvements in telephone apparatus, they were not of great moment, and progress principally manifested itself in extensions of systems. Edison was reported to be about to bring out a new transmitter remarkable for its sensitiveness. It is of variable pressure type with novel electrodes which the inventor declares will transmit with a clearness and sharpness of enunciation never before attained. Primarily it was developed for the railroads, but will doubtless find extensive use in other service. Many of the railroads are already changing over their telegraph despatch systems to telephone systems and many others are contemplating the transition. Several are reported to be waiting for these new telephones. Telephones have the advantage of speed, but have heretofore been deficient in the certainty of accuracy in the transmission of messages that the telegraph afforded. The Canadian Pacific Railway adopted telephones for train despatching on its lines between Montreal and Newport in June, 1908, and this experimental application proved so successful that they are rapidly being installed on all of this company's other lines. It now has some 500 miles of telephone lines, and these will be extended to 1,000 within a year. The company states that about fifty per cent. more traffic can be handled than formerly with the telegraph. Last September the Norfolk and Western Railway put into circuit two telephone circuits for train despatching, one 102 and the other 107 miles long, both gave excellent service. The Philadelphia and Reading Railway adopted what is known as the composite telephone system for the transmission of routine messages. The system permits the use of the telegraph lines for telephone communications simultaneously. The system has also been adopted on the Pennsylvania, the Erie and other important railroads. The apparatus is not designed for despatching trains, but for handling local routine communications. One wireless telephone record was made off Doulon between a French warship and land stations, and it was reported that conversation was plainly carried on over a distance of sixty miles.

ELECTRIC LIGHTING.

The great progress in the last few years in electric lighting equipment, it appears, will continue indefinitely. Last year an American form of the new regenerative flame arc lamp made abroad was introduced. It has about five times the luminous efficiency of an ordinary enclosed carbon direct-current lamp. The General Electric Company brought out a new line of direct-current arc lamps, known as intensified arcs, having small positive upper carbons and larger negative lower carbons, the latter actuated by the mechanism that regulates the arc.

Municipal authorities are awakening to the need of better street illumination. A notable installation of one of the newer forms of arc light, the magnetite, was made in Boston, Mass., 300 being installed for street illumination. As this type of lamp can be operated in series with tungsten incandescent lamps many attractive and convenient combinations are possible. Like carbon arcs, they burn in the air, but they can be operated only on direct current. They are easily and inexpensively trimmed, as the positive copper electrodes last over two years. It is usually necessary to replace only the negative electrodes, which are composed of iron oxide and titanium.

The trend seems to be to replace arc lamps with the high efficiency incandescent lamps for interior illumination except that of very large areas, as in railroad stations, factories and the like, and to employ flaming or luminous arc lamps for street illumination on account of their high efficiency, excellent light distribution and low maintenance cost. Remarkable progress was made last year by the flaming arc lamp and a number of new types appeared. The luminous arc lamps such as the magnetite and titanium, seem, however, to be holding their own with the flaming arcs because of their more agreeable color and the much lower cost of trimming, the electrodes being only about one-twentieth as expensive.

A notable development in the lighting field was the enormous increase in the use of the tungsten filament lamp. Low-voltage tungsten lamps requiring from thirty to sixty volts were experimented with to some extent. They have the advantage of a thicker filament, which means a greater length of life and makes possible efficient and durable lamps in as small as ten or twelve candle-power sizes. Among the disadvantages are that present current supplies are usually at 110 to 120 volts, so that the low voltage lamps must be either operated in series or on alternating current reduced in voltage by transformers and with some loss of energy in the transformation. For domestic lighting the low-voltage lamps have special value. Practical and lasting 15-watt lamps can be made of the low-voltage type and larger sizes are even less delicate.

The popularity of the tantalum lamp appeared to be waning, probably because the tungsten is proving so satisfactory. The latter and the Gem, or graphitized filament lamp, are being used by a great many companies now in all replacements of carbon filament lamps. This old type, even though improvements were made in the methods of manufacturing so that better service is insured, will soon be obsolete, except for signwork or where first cost counts for more than efficiency. Already the price of tungsten lamps has been reduced, and they can now be had in all reasonable quantities in standard sizes from twenty-five to 250 watts, and in several special sizes. The objections of excessive fragility and early blackening were markedly lessened. Tungsten lamps, as made in this country, were so improved that they are now declared to be equal, if not superior, to those of foreign manufacture, showing greater uniformity and longer life.

Illuminating on an extraordinary scale was indulged in in New York City during the Hudson-Fulton Celebration. Municipal buildings and bridges were outlined with incandescent lamps and many business buildings were similarly lighted. In addition to all of the regular city and private lighting, it was estimated that about 1,500,000 incandescent lamps, 10,000 arc lights and two batteries of search lights, representing an aggregate of 26,200,000 candle-power, were used.

The increasing importance of the lighting industry is suggested by the growth of the National Electric Light Association which last year held the record convention in its history, with an attendance of over 2,000. The association now has considerably over 3,000 members, which is more than double what it had the previous year. Greater interest is being taken in that special branch of electrical work—illuminating engineering. It is an art of itself and is rapidly being placed on a scientific basis. For nearly three years this country has had a society devoting itself to studying distribution, disposition and color to

obtain pleasing effects as well as enough light for specific places and conditions, and early in the past year steps were taken to organize a similar society in Great Britain.

ELECTRO-CHEMISTRY AND ELECTRO-METALLURGY.

In these fields especially extension was more prominent than invention in 1909. The greater use of electricity in chemical and metallurgical processes is largely a consequence of the possibilities of cheaper manufacturing costs with current supplied from water powers. The importance to which electro-chemistry has attained was sounded at the International Congress of Applied Chemistry held last year in London. In one of the papers dealing with a very live subject of the times, "National and International Conservation of Water Power," electro-chemistry was mentioned as an important user of the power which can be and is being turned to useful purposes by the development of water powers. The electro-chemical arts have reached commercial significance only in recent years and marked progress was witnessed last year in the use of electricity in decomposition by wet methods, in chemical manufacture and particularly in electric smelting.

The greatest obstacle now to be overcome in making the electric furnace an entire success is the difficulty of obtaining satisfactory electrodes. It has been found that carbon electrodes of fairly large size are most successful. An interesting pioneer undertaking was the starting of a plant in Sweden for electric smelting of iron ore for pig iron production on a commercial scale. The current will be obtained from a hydro-electric station. The first installation is to consist of three iron ore reduction furnaces of 2,500 horse-power each. The yearly production is calculated at 15,000 metric tons a year, or 7,500 tons from each furnace. The pig iron produced is intended only for foundry purposes and to contain 0.4 to 1 per cent. phosphorus.

ELECTRIC RAILWAYS.

A pamphlet issued at the time of the completion of the single-phase electrification of the St. Clair tunnel stated that there are now twenty-eight lines in this country equipped with this system, aggregating a total length of 966.5 miles. The rolling stock comprises 246 cars and 64 locomotives and the total rated horse-power of motors is 137,320. At the same time the whole of Europe had only 867.5 miles of single-phase electric railways, indicating that although the pioneer work was done abroad, the advance has been more rapid here. The United States now has four interurban railway systems which have adopted 1,200-volt direct-current systems and under contract seven more, as explained by C. D. Eveleth in a paper before the Street Railway Association of the State of New York, and he predicts that in a few years this voltage will be as common as 600. It is a step in the direction of economy, as the transmission loss is reduced the higher the voltage.

Track construction for electric railways showed considerable improvement. Experience is rapidly developing what constitutes best practice and the subject is being studied more intently by engineers. At the last convention of the American Street and Interurban Railway Association the report of a special committee on the subject was rendered and very thoroughly discussed. Overhead construction for electric railways was also a subject of investigation. The association just mentioned recommended a standard form of grooved trolley wire and also approved forms of ears and clips, insulators and hangers, supports, etc. There were no particularly new developments in third rail construction except that impregnated wooden blocks instead of porcelain insulators were tried with excellent results. No very great amount of new catenary line construction was erected and practice appears to remain about as before. One road made the departure of using instead of a steel messenger wire one of copper which was made to serve at the same time as a feeder wire.

Significant of the importance of railroad electrification was the appointment last year by the American Railway Association of a committee of seven to study the subject and report back to the association. The New York, New Haven and Hartford Railroad decided to extend its present electrification from New York to Stamford on to New Haven, and to electrify its Harlem River division. All told it means something over 200 track miles of electrification, will cost about \$20,000,000, and take a year and a half to complete. Freight trains will be operated first and later passenger trains. The electrification of Chicago's railroad terminals was agitated and with prospect of an early decision to effect it. Its advantages both to the railroads and to the public are evident and its success is assured in advance by the experience with the electrification of the New York Terminal of the New York Central Railroad. Important work was done in reconstructing the surface street railway systems of Chicago. The Pennsylvania Railroad, for operation in its New York tunnels, ordered twenty-four electric locomotives, each consisting of two units permanently coupled together. Each complete machine will have sixteen wheels—a truck of four wheels at each end of each unit. They will be the largest and most powerful locomotives ever built, each having a capacity of 4,000 horse-power. The completion of the fourth tunnel under the Hudson River for the Hudson and Manhattan Railroad Company was shortly followed by the placing in operation of the complete system connecting the Pennsylvania, the Erie and the Lackawanna railroad stations with New York City at two points, uptown near Christopher Street and downtown at Cortlandt Street.

POWER AND POWER TRANSMISSION.

The improvements made in gas engines placed them on a par with steam engines in point of reliability and regulation, and since they are fundamentally better in thermal efficiency, they are more than ever regarded as the superior form of prime mover. One of the features of the National Electric Light Association convention mentioned under the head of "Lighting," was the presentation of a very exhaustive report of a committee on gas engines. Briefly its conclusion was that the gas engine is thoroughly reliable when supplied with the proper kind of gas. The producer plant offers the chief source of difficulty at present. Nevertheless the driving of electric generators by gas engines operating on producer gas continued to grow in favor and many such installations were made. Steam reciprocating engines can hardly be said to have more than held their own. Although there will always be a field for them, it is gradually being narrowed in its limits. Steam turbines were also somewhat improved, but while there were a few notable installations of large sizes, the small sizes were those that gained most in extent of use. It has been established that the most efficient type of steam plant is one combining reciprocating engines and low-pressure turbines, the former exhausting their steam into the latter. The addition of low-pressure turbines in non-condensing plants offers a ready means of increasing economy.

Recent improvements in the manufacture of generating, converting and transforming apparatus have been attended by better methods of cooling and higher speeds for rotating machinery. Forced ventilation to keep down the heating and make possible larger outputs from given sizes of machines was a feature particularly of foreign practice. More extensive use was made of commutating or regulating poles, particularly in high speed direct current generators. Controlling and protecting apparatus were improved somewhat in design and contributed in a large degree to progress. The reliability of the aluminum cell lightning

arrester on high tension transmission lines was increased and marked one of the greatest developments that has taken place in the design of protecting apparatus. Improvements were also made in storage batteries and especially those for power plant service. The plates have now been so perfected that for the same space occupied and with only fifteen per cent. increase in weight, an output is obtained which, according to the rate of discharge taken as a basis of comparison, is from two to four times that possible with older plates. A notable installation of storage batteries for caring for fluctuating loads was made in the immense new steel plant of the United States Steel Corporation at Gary, Ind., in connection with the electrically driven rail mill. In this plant is exemplified the most modern and extensive application of electrical power in the steel industry. Particularly of note is the driving of the rolling mills by three 2,000 and three 6,000 horse-power induction motors. It has been declared the most important industrial application of the electric motor in existence. The total capacity in the generating station supplying current to the entire work is 33,000 kilowatts. Of the nineteen generators, seventeen are driven by gas engines supplied by blast furnace gas, the remaining two by steam turbines. This installation marks the real beginning of the adoption of electrical equipment in steel mills. There was considerable development in the installation of moderate size motors and generators in small manufacturing concerns. In general where current is available at reasonable rates electric drive is displacing steam.

The General Electric Company introduced a new single-phase motor capable of speed variation and high starting torque. The field winding is similar to that of an ordinary repulsion motor and the rotor to a direct current armature with the usual commutator. The connections of the windings and the location and connections of the brushes are unusual, making it possible to obtain a starting torque of over 300 per cent. of that of full load torque and a speed variation down to fifty per cent. of synchronism. The motor has remarkably good power factor and efficiency. So far it is built only in small sizes.

Notable hydro-electric developments were begun in Mexico, one on the Conchos River in the State of Chihuahua which will have a capacity initially of 15,000 horse-power and will supply the cities of Parral, Jiminez, Chihuahua and other smaller towns and several mining camps, and another on the Santiago River to supply an electric railway system and light the city of Guadalajara. Altogether there are plans under way in Mexico for hydro-electric undertakings to the amount of about \$18,000,000, to be operated by machinery built in the United States.

More attention than ever was given to details of line construction and especially high-tension transmission lines. Lead covered power cables for distributing Niagara current in Fulton, N. Y., supported overhead and carrying a potential of 6,600 volts were a novelty in power transmission. They consist of three No. 6 stranded copper conductors, insulated and finally covered with lead. They are carried by messenger wires, in many cases from existing telephone poles. A new insulating material, a coal-tar product called bakelite, the invention of Dr. L. H. Baekland, was announced. To some extent it combines the properties of amber, hard rubber and celluloid. Although not as flexible as the last two, it is harder and stronger, resists heat, all solvents and most chemicals, and is cheaper. It is insoluble and infusible, and even at 350 degrees C. does not soften. It is made both transparent and opaque, and can be mixed with asbestos, clay or wood pulp for certain uses. Generator and motor windings impregnated with it and heated under pressure become encased in a hard infusible insulating mass. It is also used for making molded insulators. Soft wood impregnated with it becomes hard and a good insulator said to be rot proof.

The Chicago Drainage Canal Power Transmission system was extended last year and the capacity increased to 24,000 kilowatts.

Police and Fire Alarm Statistics.

(From Census Bulletin 102.)

UNITED STATES Census Bulletin 102, issued in 1909, reported statistics of police and fire alarms in American cities in 1907. The bulletin stated that for sending fire alarms and police patrol signals there were in that year in the United States 1,157 systems, using 70,812 miles of single wire, with 62,504 signalling stations, or boxes, giving 120,719 fire alarms.

Of these 1,157 systems, forty-eight were used interchangeably for fire alarms and police patrol purposes, 931 for fire alarms solely, and 178 for police signalling only. It is observed that most cities, whether large or small, realize the importance of quick communication with the fire department in case of fire, and the equipment reported was found to range from the simplest form in small villages to the most elaborate systems in the larger cities.

ELECTRIC FIRE ALARM SYSTEMS.

Electric fire alarm systems were in use in 1907 in all but two (Kansas City and St. Joseph, Mo.) of the thirty-eight cities with a population of over 100,000 in 1900; in all but one (Kansas City, Kan.) of the forty cities with a population of from 50,000 to 100,000; in all but three (Quincy, Ill., and Chester and Wiltamsport, Pa.) of the eighty-two cities with between 25,000 and 50,000 inhabitants, and in all but thirty-six of the 281 cities with from 10,000 to 25,000 inhabitants, among them being Fort Smith and Pine Bluff, Ark.; Manchester, Ct.; Cairo, Ill.; Jeffersonville, Ind.; Muscatine, Iowa; Atchison, Galena, Leavenworth, and Lawrence, Kan.; Alpena and Ann Arbor, Mich.; Natchez, Miss.; Hannibal and Sedalia, Mo.; Millville, N. J.; Dunkirk, N. Y.; Lorain, Ohio; Beaver Falls, Butler, Columbia, and Mt. Carmel, Pa.; Cranston and Warwick, R. I.; Greenville and Spartansburg, S. C.; Denison, Laredo, and Sherman, Tex.; and Alexandria, Va.

Five cities—Belleville and Galesburg, Ill., Ashtabula, Ohio, Guthrie, Okla., and Austin, Tex.—depended upon the telephone as a means of reporting fires. One system covers Bay City and West Bay City, Mich. Kokomo, Ind., was reported as then installing an up-to-date fire alarm system.

Thus 90.5 per cent. of the cities with a population of at least 10,000 in 1900 were equipped with electric fire alarm systems.

The systems devoted entirely to electric fire alarm signalling had 35,337 miles of single wire, 40,897 boxes or signalling stations, and 2,143 special telephones. During 1907 such systems reported 96,516 fire alarms. The lines used interchangeably for the two purposes had 21,897 miles of single wire and received 24,203 fire alarms.

ELECTRIC POLICE PATROL SYSTEMS.

The mileage reported for police patrol signalling systems alone was 13,578, and the number of signalling stations was 8,694. The reports for 1907 show 41,961,650 police calls, of which 29,946,757 were telephone calls. Of the thirty-eight cities with a population of 100,000 or over in 1900, thirty-five reported electric police patrol systems in 1907, while thirty-three of their forty cities with from 50,000 to 100,000 inhabitants had such systems.

A large proportion of the underground wire employed for fire alarm and police patrol signalling in the different cities was reported for a few cities, the distribution of such mileage for the eight leading cities being as follows: Philadelphia, 4,281; Washington, D. C., 3,091; New York, 2,830; Chicago, 1,904; Boston, 1,844; Cleveland, 1,250; Detroit, 1,105; and Milwaukee, 1,097.

Census Report on Electrical Communications

IN THE UNITED STATES.

The United States Census Bureau issued in August, 1909, a bulletin, giving the statistics for the telegraph industry in 1907. The following is a summary:

Conspicuous among the facts exhibited were the stupendous single wire mileage of the commercial telephone and telegraph systems, the millions of messages annually carried over the wires, the almost incredible growth of the telephone system as compared with the telegraph, the large capitalization of the companies concerned, and the enormous sums expended by them, and the difficult development of the wireless system.

The total number of telegraph systems were given as 1,813, of which twenty-five were commercial land line and ocean cable, six wireless, and 625 railroad telegraph systems, the remainder not being involved in the topics treated of herein. The twenty-five commercial land line and ocean cable systems operated 1,577,961 miles of single wire, employed an average of 28,034 persons, paid \$17,808,249 in salaries and wages, expended \$41,879,613, earned \$51,583,868, and sent 103,794,076 messages. The 625 railroad telegraph systems operated 840,342 miles of single wire, employed an average of 68,197 telegraph operators and dispatchers, expended \$37,242,479 (income not stated, as there is no direct financial income from their own use of the service), sent 264,512,816 messages, of which 5,923,483 were of a commercial nature, the income for which is reported by the commercial systems.

TELEGRAPHS AND TELEPHONES.

There was a grand total of 15,072,220 miles of single wire in the telegraph and telephone service. Of this, the telephone systems controlled 12,999,369 miles, of which there were on pole or roof lines 5,092,223, in overhead cables, 2,917,114, in subways or conduits 4,969,302, and in submarine cables 20,730 miles. Of the grand total stated, the telegraph systems, exclusive of Government telegraph systems, used 2,072,851 miles, of which there were on pole or roof lines 1,958,336 miles, in overhead cables 41,886, in subways or conduits 65,241, and in submarine cables 7,382 miles.

The telephone and commercial telegraph systems, not including railroad lines and the wireless, gave the grand total as 22,996 companies, of which there were 22,971 telephone systems, which include 17,702 independent farmer or rural lines, and twenty-five commercial telegraph systems, not including the wireless. The grand total of single wire mileage was 14,570,142, of which the telephone systems controlled 12,999,369 miles, which included 486,294 miles of wire on independent farmer or rural lines, while the telegraph systems used 1,570,773 miles, exclusive of 7,183 miles of leased wire.

The grand total of ocean cable was 46,301 nautical miles, all controlled by the commercial telegraph systems.

The grand total of salaried officials, clerks, etc., was 29,470, of whom 25,298 were employed by the telephone systems and 4,172 by the commercial telegraph. The telephone officials, etc., received in salaries \$19,298,423 and the telegraph clerks \$2,794,937. The total of 142,733 wage-earners is divided, 118,871 belonging to the telephone systems and receiving in wages \$48,980,704, while the 23,862 telegraph wage-earners were paid \$15,013,512.

The grand total of capital stock and bonds outstanding, par value, was \$1,034,909,579, of which \$814,616,004 were credited to the telephone systems and \$220,293,575 to the telegraph companies.

The grand total income was \$236,045,615, of which the telephone concerns earned \$184,461,747, expending \$140,802,305, and the telegraph system earned \$51,583,868, expending \$41,879,613. Of the whole number of systems in operation, the telephone formed 99.9 per cent.

COMMERCIAL TELEGRAPHS AND CABLES.

In taking up consideration of the joint subject of commercial telegraphs and ocean cable systems, the bulletin pointed out the impossibility of segregating the statistics. A comparative summary was given of the three census periods 1880, 1902, and 1907, and it was explained that in 1880 there were seventy-seven companies reported, but that number decreased later by the consolidations among themselves. In 1902 there were twenty-five companies considered. The same number was found for 1907. Taking the details for the last census period, it was shown that 1,577,961 miles of single wire were operated; 46,301 nautical miles of ocean cable; 103,794,076 messages transmitted, which included 5,869,317 cable messages; 29,110 telegraph offices operated; total income \$51,583,868, of which \$45,255,187 was from telegraph traffic, and \$6,328,681 from all other sources. The total expense was \$41,879,613, including \$34,057,298 for operation and maintenance, salaries, wages, and legal expenses. The capitalization in the form of capital stock was, authorized, par value, \$161,603,900, of which there was outstanding, par value, \$155,089,575. Dividends on stock amounted to \$7,477,083. The average total number of employees is given as 28,034, and salaries and wages \$17,808,249.

The bulletin noted the decrease since 1880 in the number of separate companies and added that, on the other hand, there has been a very large increase in business and equipment. The increase in the number of salaried employees and wage-earners in 1907 as compared with 1902 was but 407, or 1.5 per cent. As compared with 1880, the number was 13,106, or 87.8 per cent. increase. In 1907 the amount paid in salaries and wages was 18.4 per cent. greater than in 1902, and 264.5 per cent. greater than the 1880 figure.

THE NUMBER INCORPORATED.

With but one important exception, the entire commercial telegraph and cable industry of the country is operated as incorporated concerns. Of the total authorized issue of stocks and bonds in 1907, capital stock constituted 66.1 per cent. and bonds 33.9 per cent. At the end of 1907 the total authorized issue of stock, outstanding, was 96 per cent., and 78.6 per cent. of the bonds were outstanding. On the bonds an average rate of 4.1 per cent. was paid in 1907. Of the twenty-four incorporated companies for 1907, only eleven paid dividends on their capital stock. The same number declared dividends for 1902. The total receipts of the telegraph companies for 1907 exceeded those for 1902 by \$10,653,830.

The commercial telegraph systems controlled ocean cables having a length of 46,301 nautical miles in 1907, as compared with 16,677 in 1902, an increase of 29,624 nautical miles,

or 177.6 per cent. This large increase was largely due to the fact that the Pacific cable and the New York-Havana cable were laid during the interval between the two censuses.

THE WIRELESS SERVICE.

There were six commercial wireless telegraph systems, having 122 tower stations in 1907, situated at most of the large ports on the Atlantic and Pacific Oceans, the Gulf of Mexico, the Great Lakes, and in Hawaii. Wireless messages to the number of 103,617 were sent between these ports in 1907. These six companies had an authorized capitalization in the form of stock with a par value of \$39,450,000, of which \$32,726,242 was the value of outstanding stock. The year's income was \$122,154, and the expenses \$169,782, of which \$37,571 was expended in the salaries and wages of 182 employees.

The Federal Government realized the value of wireless telegraphy, and the Bureau of Equipment in the Navy Department, at the end of the fiscal year 1907, had installed wireless telegraph apparatus on seventy-three naval vessels and at forty-four shore stations. During that period the shore stations sent 23,933 messages, containing 541,919 words, and received 34,073 messages, amounting to 675,607 words. Cape Cod, Mass., led all stations in this respect, sending 2,673 messages, and Cavite, in the Philippine Islands, came next, sending 2,025 messages. Of the number of stations receiving messages, Dry Tortugas, Fla., had 2,703; Newport, R. I., 2,701; Mare Island, Cal., 2,334; Cape Cod, Mass., 2,304; Norfolk, Va., 2,171; and Cavite, P. I., 2,013. The shore stations are open to the public for messages, and these are also received from or put on the telephone or telegraph land lines.

RAILROAD TELEGRAPH.

In 1907 the railroad systems in the United States operated 807,824 miles of telegraph wire, 52,518 miles of telephone wire, and employed 68,197 telegraph operators and despatchers, who received \$37,242,479 in salaries and wages. These systems reported 38,441 telegraph offices and 30,115 telephones; transmitted 5,923,485 commercial messages and 258,539,333 messages in connection with the despatching of trains and other railroad business.

Wireless Telegraphy.

- 1842—Professor Morse sent signals across the Susquehanna River without wires.
- 1859—September. James Lindsay, of Dundee, stated the possibility of sending wireless messages from Britain to America.
- 1864—December 8. Clerk Maxwell demonstrated the possibility of wireless telegraphy.
- 1885—Sir William Preece, of London, sent wireless currents a quarter of a mile.
- 1886—Sir William Preece sent signals four and a half miles.
- 1887—Professor Hertz discovered electric ether impulses, now known as Hertzian waves.
- 1889—Sir Oliver Lodge obtained his first successful signalling results by syntononic circuits.
- 1890—November 24. Professor Branly invented the metallic coherer.
- 1892—Sir William Preece established regular communication between Flatholm and Lavernock, on the Welsh coast, three and a third miles distant.
- 1894—Dr. Rathenau and Professor Reubens signalled across Wannesea at Potsdam, a distance of three miles.
- 1897—Mr. Marconi sent signals from Lavernock to Flatholm and introduced the high wire or aerial.
- 1901—December. "S" signals received by Mr. Marconi at Hospital Point, Newfoundland, from Cornwall.
- 1902—February. The Philadelphia remained in communication with the Marconi station at Cornwall for a distance of 1,500 miles. December. Messages sent by Cape Breton to Cornwall, exchanged between King Edward and Lord Minto, Governor-General of Canada.
- 1903—January. Messages sent between Aldershot and channel squadron off Portsmouth, April. Twenty-five stations erected, eight in England. August. International conferences on wireless telegraphy opened in Berlin.
- 1904—De Forest system regularly used in United States. June. First ocean wireless newspaper published on the Campania. August. Wireless telegraphy act controlling stations in time of war.
- 1905—January. Telegrams accepted for wireless station by the general post-office, England.
- 1907—October. Opening of regular service for press messages to cross Atlantic from Clifden, Ireland, to Nova Scotia.
- 1909—January 23. All of the passengers and crew of the steamship Republic saved by wireless.

Statistics of Manufactures in the United States.

(CENSUS OF 1905.)

THE census of manufactures of 1905, which covered the calendar year 1904 and included continental United States and Alaska, was the first in which the canvass was confined to establishments conducted under what is known as the factory system, thus excluding the neighborhood industries and hand trades. The statistics for these mechanical trades have been a confusing element in the census of manufactures, and their omission confines the data to a presentation of the true manufacturing industries of the country. To secure comparable figures for 1900, which included neighboring industries, hand trades, and educational, eleemosynary, and penal institutions, it was therefore necessary to revise the published reports of the Twelfth Census. In comparing the results of the present census with those of former censuses, the different methods should be considered.

The revision of the published statistics for 1900, necessary for purposes of comparison, involved considerable difficulty. Certain industries, such as custom millinery, custom tailoring, dressmaking, taxidermy, cobbling, carpentering, and custom grist and saw mills were wholly omitted. But the only available information on which to base the elimination of nonfactory establishments for industries, which included factories as well as local establishments, was that contained in the original reports from these establishments, and those reports were not collected with such segregation in view. It was found that some establishments, which in 1900 did little real manufacturing, had in the five years developed into true factories. On the other hand, in certain establishments the strictly manufacturing operations conducted in 1900 had later been discontinued, although the establishments were still in business doing custom or repair work only. The latter class, however, was composed mainly of small establishments, and, except as to the number reported, their inclusion or omission has little effect on the statistics.

Reports were not secured from small establishments in which manufacturing was incidental to mercantile or other business; or from establishments in which the value of the products for the year amounted to less than \$500; or from educational, eleemosynary and penal institutions; or from governmental establishments. The census of 1905, however, was not confined to an enumeration of large factories.

The statistics for the manufacturing industries of the country under the revised conditions, for the censuses of 1900 and 1905 are summarized in the following table:

	1905.	1900.	Per ct. of increase.		1905.	1900.	Per ct. of increase.
Number of establishments	216,262	207,562	4.2	Women 16 years and over.....	1,065,884	918,511	16.0

A., Director-General; Brig.-Gen. F. Elbert Davis, M. D., Adjutant-General.

Industrial Districts of the United States.

MANUFACTURES AND POPULATION.

THE Bureau of the Census issued June 30, 1909, Census Bulletin 101 dealing with the manufactures of the principal industrial districts of the United States. The report was prepared by William M. Stewart, Chief Statistician of Manufactures. The following is the statement:

Heretofore census statistics of manufactures have been presented by specified industries only for establishments grouped according to their location in cities of a certain size, counties, States or groups of States. This method, however, does not indicate the importance of industries in the various contiguous localities, since industries are not limited by political divisions. An industrial district may include a number of important cities as well as the intervening and surrounding minor civil divisions, all being politically independent, but closely allied industrially. The statistics have a bearing on the question whether manufactures are leaving the larger cities for places immediately surrounding them.

INDUSTRIES CENTRE AROUND CITIES.

The manufactures carried on in the sections immediately surrounding the principal cities which form the centres of the districts are largely controlled by capital owned by residents of the cities. A considerable proportion of the employees reside within the cities, and frequently the cities are the principal distributing points for the products. In other ways the industries are so closely allied to the cities that they should be credited to the urban rather than to the rural manufactures. Therefore, to convey a true idea of the industrial importance of a district, the data should include statistics for the central cities and those places closely associated with these cities in their industrial development. This bulletin has been prepared to show such data for thirteen industrial districts for the years covered by the censuses of 1900 and 1905.

The inclusion of the territory surrounding the central cities in these districts has added 2,836.4 square miles, or 261.9 per cent., to the area.

In 1904 the incorporated limits of the central cities of the thirteen industrial districts contained manufacturing industries which gave employment to 1,691,553 salaried persons and wage-earners and manufactured products valued at \$4,762,022,170. The parts of these districts immediately outside of the cities around which they centre contained establishments giving employment to 483,597 salaried persons and wage-earners and manufacturing products valued at \$1,421,863,317. Therefore the inclusion of these surrounding regions increased the number of employees by 29.9 per cent., and the value of products by 23 per cent. In addition to these areas included in the industrial districts there are a number of surrounding places closely connected industrially and commercially with the central cities. The manufacturing plants in these places reported 505,424 employees and products valued at \$1,251,482,925 for the year 1904. The industrial districts and these surrounding places together contained a population of 17,307,902 in 1900 and in 1904 had 76,816 factories employing 2,680,574 salaried persons and wage-earners and manufacturing products valued at \$7,435,368,412.

THE DISTRICTS INCLUDED.

The district of Greater New York is the most important industrial district in the United States. It embraces an area of 702 square miles and in 1905 had a population of 5,294,682. There is no district in the United States with which it can be grouped. The districts of Chicago, Philadelphia, and Boston have been classed together, since their population in 1900 ranged between one and two millions and their areas were practically the same, being about 500 square miles. In a third class are the districts of St. Louis, Pittsburgh, Allegheny, Baltimore, Cincinnati, San Francisco, Cleveland, Buffalo, and Minneapolis-St. Paul. They had a population in 1900 ranging from 638,134 for St. Louis to 376,357 for Minneapolis-St. Paul, and areas ranging from 246 square miles for Baltimore to 151 square miles for Cincinnati. The Providence district, with a population of 344,521 in 1905 and an area of 154 square miles, can not be compared with any other district presented in the bulletin.

The statistics show that in twelve of the districts the manufactures increased more rapidly in the area immediately surrounding the central city than in the area within the corporate limits of the city. The only district in which the city had the greater increase was that of Minneapolis-St. Paul.

In relative increase in the value of products in 1904 as compared with 1900 the Buffalo district ranked first, with a gain of 48.2 per cent. The increase for the city itself was 39.5 per cent. and that for the surrounding places, 165.7 per cent. The value of the products manufactured in Pittsburgh and Allegheny decreased 3.2 per cent., but the value for the outside places centring about these cities increased 41.6 per cent.

Industries reporting fewer than three establishments can not be shown separately. Thus it is that a number of important industries in various districts are not given except in the total for all industries. Disclosure of individual return is thus avoided.

PRODUCTS OF MORE THAN TWO BILLION DOLLARS FOR NEW YORK DISTRICT.

Products valued at \$2,144,488,093 were manufactured in the factories of the industrial district of Greater New York during the year 1904. The increase in the value of the output of the entire district in 1904 as compared with 1900 was over half a billion dollars (\$530,220,746, or 32.8 per cent.) The increase in the number of persons engaged in these industries was 140,906, the number of employees in 1904 being 735,460.

The city of Greater New York was credited with products valued at \$1,526,523,006, or 71.2 per cent. of the total value for the district in 1904. In the 376 square miles that were outside of the corporate limits of the city but were so closely allied with it industrially that they were included in the industrial district the manufactured products were valued at \$617,965,087. The increase in value for the city was 30.2 per cent., while for the remainder of the district there was a gain of 40 per cent.

The manufacture of men's and women's clothing was the foremost industry in this district in 1904, the products being valued at nearly one-third of a billion dollars and constituting 14.5 per cent. of the value of products of the entire district. The average

INDUSTRIAL DISTRICTS OF THE UNITED STATES—Continued.

number of wage-earners employed in the industry was over two per cent. of the entire population of the district. The printing and publishing industry ranked second; the refining of sugar and molasses, third; the smelting and refining of copper, lead, and zinc, fourth; and the manufacture of textiles, fifth, with products aggregating over \$465,000,000 in value.

CHICAGO SECOND IN IMPORTANCE.

The industrial district of Chicago comprised an area of 500 square miles and had a population of 1,815,107 in 1900. The city of Chicago is credited with 35.8 per cent. of the area and 93.6 per cent. of the population of the entire district. The value of products for the district in 1904 was \$970,974,280; the number of wage-earners and salaried persons employed, 288,869; and the number of establishments reported, 8,382. The increase in the value of products for the district in 1904 as compared with 1900 was \$164,489,639, or 20.4 per cent. The increase for Chicago alone was \$157,157,136, or 19.7 per cent., while the gain for the surrounding places was \$7,332,503, or 85.6 per cent. Thus the rate of gain for the section outside of the central city was very much greater than that for the city itself.

Among the industries, slaughtering and meat packing was first in value of products, with \$269,581,486, or 27.8 per cent. of the total value of the manufactured products of the Chicago district. The manufacture of clothing, the iron and steel industry, the manufacture of foundry and machine shop products, and the printing and publishing industry were of great importance, with aggregate products valued at \$230,413,923.

PHILADELPHIA IS THIRD.

The area of the industrial district of Philadelphia is 501 square miles, of which the city occupies 130 square miles, or 25.9 per cent. The population of the district in 1900 was 1,537,994. The products of the whole district were valued at \$677,781,117, while those of Philadelphia proper were valued at \$591,388,078. The percentage of increase in the city was 13.7; outside it was 37.1. Employees to the number of 286,914 were engaged in the industries of the district, and the number of establishments was 7,780. The textile industries are the characteristic manufactures of the district, and of these the manufacture of worsted goods was the most important, rated by value of products. In 1904 the 693 textile factories reported an output valued at \$128,543,320. The manufacture of foundry and machine shop products, the refining of sugar and molasses, printing and publishing, and the iron and steel industry were important, with a value of products of over \$152,000,000.

BOSTON IS FOURTH.

The industrial district of Boston includes an area of 502 square miles. The population of the district was 1,249,504 in 1900 and 1,354,653 in 1905, showing an increase of 8.4 per cent. The number of inhabitants per square mile for the district was 2,699 in 1905. The total value of the products of the district in 1904 was \$457,254,300, coming from 4,870 establishments employing 177,146 persons. The increase in the value of products of Boston was 13.3 per cent; outside it was 42.7 per cent.

The leather boot and shoe industry is the leading manufacture of the district, followed by the manufacture of rubber boots and shoes; during 1904 these together produced an output valued at \$100,347,787. Other important industries are slaughtering; printing and publishing; leather, tanned, curried, and finished; foundry and machine shop products; clothing and textiles, with products valued at over \$141,000,000 in the aggregate.

THE IRON AND STEEL REGION.

The area of the Pittsburgh-Allegheny district is 198 square miles and its population in 1900 was 623,342. The number of manufacturing establishments in 1904 was 1,859, and they employed 119,839 persons and put out products valued at \$383,490,468. The iron and steel industries are the predominant ones in the district, and these produced an output valued at \$233,371,972, or 60.9 per cent. of the total value of the manufactures of the district. Foundry and machine shop products came second, with a value of \$24,436,440 in 1904. Over four-fifths of the power of the district was used in the various branches of the iron and steel industry.

In the region surrounding the Pittsburgh-Allegheny district, iron and steel products to the value of \$142,779,114 were manufactured, making a total of \$376,151,086 for both district and surrounding places. The coke and glass industries had aggregate products valued at nearly \$43,000,000.

MEAT PRODUCTS VALUABLE IN ST. LOUIS.

The industrial district of St. Louis covers 206 square miles, sixty-one of which are in the city. The products manufactured in this district in 1904 were valued at \$319,709,859. The percentage of increase in the city was 38; outside it was 52.5. The leading industry shown was wholesale slaughtering and meat packing, the value of the products of which was \$57,618,974, a large part of this being in the National Stock Yards just outside of East St. Louis. The manufacture of tobacco was second in rank, with an output valued at \$29,701,366.

CLOTHING INDUSTRY GIVES EMPLOYMENT TO 10,297 WAGE-EARNERS IN BALTIMORE.

The industrial district of Baltimore covers an area of 246 square miles, and in 1904 contained 2,243 manufacturing establishments, which turned out products valued at \$202,639,272. The increase in the city was 12.2 per cent.; outside it was 22.3 per cent. The manufacture of clothing, with products valued at \$22,630,358, furnished employment for 10,297 wage-earners, the greatest number shown for any industry in the district. The iron and steel industry employed 1,887 wage-earners and manufactured products valued at \$12,695,470. This industry used 24.7 per cent. of the total motive power of the district.

LIQUOR PRODUCT OF CINCINNATI VALUED AT \$21,771,153.

The Cincinnati industrial district includes Covington and Newport in Kentucky and has an area of 151 square miles. The population of the district in 1900 was 473,232, and

INDUSTRIAL DISTRICTS OF THE UNITED STATES—*Continued.*

the total value of its products manufactured during the year 1904 was \$203,095,605. In the city the increase was 17.2 per cent.; outside it was 64.3 per cent. To the total value of manufactures liquors contributed \$21,771,153, or 10.7 per cent. Clothing, foundry and machine shop products and slaughterhouse products are among the leading manufactures, with products valued at \$44,972,136 in the aggregate. The cities and towns in Ohio, Kentucky, and Indiana, surrounding and largely dependent on the district, have an area of 2,750 square miles. In this broader region the paper and wood pulp industry was most prominent in 1904.

INCREASE IN AUTOMOBILE BUILDING AT CLEVELAND.

The population of the Cleveland district in 1900 was 420,508 and its area 200 square miles, the density of population being 2,103 per square mile. The products of the district in 1904 were valued at \$170,184,277. The increase was 23.4 per cent. in the city and 133.5 per cent. outside. The iron and steel industry ranked first in the district, the output of the forty-two plants engaged in this industry being valued at \$46,535,478, and the wage-earners employed numbering 13,199. The manufacture of foundry and machine shop products and of clothing and of meat packing were important industries, with aggregate products valued at over \$40,000,000. The manufacture of automobiles grew nearly thirty-fold in four and one-half years, the value of the products of that industry amounting to \$4,256,979 in 1904.

The number of establishments in the district and the surrounding places in 1904 was 2,443; the average number of wage-earners, 91,426; and the value of products, \$250,955,114. In the area surrounding the district the manufacture of rubber and elastic goods ranked first, followed by the iron and steel industry.

IRON AND STEEL LEAD AT BUFFALO.

The industrial district of Buffalo has an area of 201 square miles and its population in 1905 was 423,390. The total manufactured output of the district in 1904 was valued at \$168,111,658. It was produced by 1,631 establishments employing 54,648 salaried persons and wage-earners. The leading industry in 1904 was iron and steel, with seven establishments manufacturing products valued at \$16,948,746. The slaughtering industry was almost as important, with a product valued at \$16,269,453. The power used in the district amounted to 212,947 horsepower; of this 50.3 per cent. was steam, 27.2 per cent. electric, and 21.3 per cent. gas or gasoline. The iron and steel industry used 136,733 horsepower, or 64.2 per cent. of the total power.

By the inclusion of the surrounding region the area is brought up to 1,831 square miles and the value of products to \$209,024,944, of which \$3,754,371 was contributed by the manufacture of chemicals. Of the power in these surrounding places 51.5 per cent. was water power, more than one-half of which was obtained from the Falls of Niagara.

\$63,146,933 FROM FLOUR AND GRIST MILLS IN MINNEAPOLIS AND ST. PAUL.

The Minneapolis-St. Paul industrial district includes 155 square miles centring around the Falls of St. Anthony, which yield more than 50,000 horsepower, employed in manufactures and in the operation of street railways. The value of the products of this district in 1904 amounted to \$161,303,453, produced by 1,506 establishments employing 42,874 persons. The principal industry was that of flour and grist mills, with products valued at \$63,146,933. The industry next in importance was lumber, with an output valued at \$11,480,713. Printing and publishing, the construction and repair of cars, and the manufacture of the products of foundries and machine shops had products which in the aggregate were valued at \$18,416,838. Of the power used in the district 62.7 per cent. was steam power and 24.7 per cent. water power. Flour and grist mills used 42,267 horsepower, or 45.2 per cent. of the total power, and of this amount 22,867 horsepower, or 54.1 per cent., was water power.

MEAT PACKING IN SAN FRANCISCO.

The San Francisco industrial district had an area of 203 square miles and a population of 453,847 in 1900, the density of population being 2,236 per square mile. The total value of the products manufactured in the district in 1904 was \$159,033,080, the number of establishments 2,621, and the number of persons employed 50,883. The increase in value of products within the city was 23.7 per cent., outside it was 73.9 per cent. The leading industry was slaughtering and meat packing, the output being produced by thirty-five establishments and being valued at \$15,486,299. Printing and publishing came second, with an output valued at \$10,187,664; 381 establishments engaged in this work employed 3,113 wage-earners. Canning and preserving occupied the first place among the industries of the territory surrounding the district.

IN PROVIDENCE 71.3 PER CENT. OF POWER USED BY TEXTILE FACTORIES.

The Providence industrial district covers about 154 square miles and had a population of 344,521 in 1905. The gross value of products for the district for 1904 was \$156,299,965; of this amount 53.8 per cent. was reported by the factories located within the corporate limits of Providence. The increase inside the city was 16.9 per cent.; outside it was 29.5 per cent. Textile manufactures are the most important in the district; such products to the value of \$72,791,040 were made in 1904 by 135 establishments employing 40,503 wage-earners. Jewelry, foundry and machine shop products, and silversmithing and silverware were important industries when measured by value of products, the value of the first two being over \$14,000,000 each and that of the last mentioned being over \$5,000,000. The textile factories used 96,573 horsepower, or 71.3 per cent. of the total power reported. The products of such factories in the places surrounding the Providence district increases the total value of textiles made to \$100,417,659 and the average number of wage-earners employed annually to 54,928; while the manufacture of jewelry for the district and surrounding places was increased to \$22,655,544; of foundry and machine shop products to \$17,505,410; and of silversmithing and silverware to \$7,366,700.

Sugar Production.

MILHALL gives the following estimates of the production of cane and beet sugar in the world in English tons from 1840 to 1898; and Willett & Gray, New York, for the years following:

YEARS.	Cane.	Beet.	Total.	YEARS.	Cane.	Beet.	Total.	YEARS.	Cane.	Beet.	Total.
	Tons.	Tons.	Tons.		Tons.	Tons.	Tons.		Tons.	Tons.	Tons.
1840...	1,100,000	50,000	1,150,000	1898...	2,850,000	4,650,000	7,500,000	1905...	4,906,082	7,237,717	12,143,799
1850...	1,200,000	200,000	1,400,000	1900...	2,839,500	5,608,544	8,448,044	1906...	6,753,626	7,217,866	13,971,492
1860...	1,830,000	400,000	2,230,000	1901...	3,657,416	6,066,939	9,724,355	1907...	6,907,520	7,003,474	13,910,994
1870...	1,850,000	900,000	2,750,000	1902...	4,070,282	6,923,487	10,993,769	1908...	7,564,394	6,901,010	14,465,404

1890...	2,580,000	2,780,000	5,360,000	1904...	4,618,299	4,918,480	9,536,779				

The production of sugar in 1908-1909 by sugar-growing countries, in tons of 2,240 pounds, as reported by Willett & Gray, was:

COUNTRIES.	Cane Sugar.	COUNTRIES.	Beet Sugar.
Louisiana.....	350,000	Java.....	1,241,885
Porto Rico.....	245,000	Hawaii.....	475,000
Cuba.....	1,485,000	Queensland.....	151,554
British West Indies.....	90,000	Mauritius.....	195,000
Hayti and S. Domingo.....	80,000	Demerara.....	117,176
Peru.....	150,000	Argentina.....	162,479
Brazil.....	248,000	Philippines.....	150,000
		United States.....	384,010
		Germany.....	2,080,000
		Austria.....	1,398,000
		France.....	802,000
		Russia.....	1,265,000
		Belgium.....	258,000
		Holland.....	214,000

Beet sugar production in the United States in 1908-09, by States, in tons of 2,240 pounds: Wisconsin, 16,964; Michigan, 79,597; Colorado, 103,159; Utah, 40,828; Idaho, 23,353; California, 88,347; all others, 31,762. Total, 384,010.

CONSUMPTION OF SUGAR.

Licht's estimate of consumption of sugar of all kinds in various countries in 1908 per capita in pounds was: Germany, 42; Austria, 25; France, 36; Spain, 11; England, 92; Switzerland, 55; United States (W&G), 81; Russia, 20; Netherlands, 41; Denmark, 76; Italy, 8; Belgium, 32; Turkey, 13.

The consumption of sugar in the United States in the calendar year 1908, estimated by Willett & Gray, of New York, was:

Imported (including 453,250 tons Hawaiian, 185,085 Porto Rican, and 45,089 Philippine sugar).....	2,284,791	Domestic Maple.....	11,000
Domestic, manufactured from imported molasses.....	5,910	Domestic Beet.....	493,200
Domestic Cane.....	390,888	Domestic Total.....	900,998
		Total product consumed in the U. S.....	3,185,789
			or 81.17 pounds per capita.

Tea, Coffee and Cocoa.

(From Report of the Bureau of Statistics of the Department of Commerce and Labor.)

Exports from coffee-growing countries in pounds.	Exports from coffee-growing countries in pounds.		
Brazil.....	1,600,000,000	Haiti and Santo Domingo.....	71,000,000
Columbia, Venezuela, Ecuador, Peru, and Chile.....	200,000,000	British West Indies.....	58,000,000
Central America.....	165,000,000	Dutch East Indies.....	135,000,000
Mexico.....	35,000,000	Total.....	2,299,000,000
Cuba and Porto Rico.....	18,000,000		

Consumption of leading countries in 1904, in pounds.
 United States..... 960,879,000
 Germany..... 396,205,000
 France..... 167,552,000
 Belgium..... 125,411,000
 Imports of coffee in the United States, year ending June 30, 1909, were: From Brazil, 818,444,714 pounds, value \$57,067,961. Other South America, 116,374,811 pounds; value \$9,904,300. Central America, 40,762,241 pounds; value \$4,178,031. The remainder in smaller quantities from other countries.

Tea.—Sources of supply in 1904: Exports from principal tea-growing countries in pounds.
 British India..... 208,049,000
 China..... 193,467,000
 Ceylon (1903)..... 149,227,000
 Japan..... 63,359,000
 Java..... 23,595,000

Figures of total production in each of these countries exceed total exports, except China, about whose consumption there are no available statistics.
 Consumption of leading countries in 1904, in pounds.
 Great Britain and Ireland..... 256,660,000
 Russia..... 120,829,000
 United States..... 109,623,000
 Australia (1900)..... 29,266,000
 Canada (1903)..... 23,969,000
 Netherlands..... 8,778,000
 Germany..... 6,903,000
 France..... 2,440,000

The number of pounds of tea consumed per capita was: Great Britain and Ireland, 6.09; United States, 1.34; Russia, 0.95; Australia, 6.93; Canada, 5.60; France, 0.06; Germany, 0.12.
 The imports of tea in the United States in the fiscal year 1909 were 114,916,520 pounds, valued at \$18,562,676. Of this 51,910,762 pounds were imported from Japan and 32,219,609 pounds from China.

Cocoa.—World's production of cocoa, 1903, in pounds: Ecuador, 46,500,000; San Thomé (Portuguese Africa), 45,000,000; Brazil, 43,000,000; Trinidad, 29,000,000; Venezuela, 25,000,000; Santo Domingo, 15,000,000; Grenada, 13,000,000; all others, 37,500,000. Total production, 260,000,000.

World's consumption of cocoa, 1903, in pounds: United States, 63,000,000; Germany, 43,000,000; France, 41,000,000; Great Britain, 35,000,000; Netherlands, 33,000,000; Spain, 12,500,000; all others, 33,000,000.

The importation of raw cocoa into the United States in the fiscal year 1909 was 129,854,749 pounds, and of chocolate 1,519,073 pounds. There has been an immense increase in the importation of cocoa in the past ten years.

Building and Loan Associations.

The following statistics of local Building and Loan Associations in the United States were reported at the last annual meeting of the United States League of Local Building and Loan Associations. The returns are for 1908-09:

STATES.	No. of Associations.	Total Membership.	Total Assets.	STATES.	No. of Associations.	Total Membership.	Total Assets.
Pennsylvania.....	1,423	389,446	\$158,510,745	Kansas.....	55	17,660	\$5,779,198
Ohio.....	645	337,662	139,340,424	Iowa.....	48	15,300	4,390,443
New Jersey.....	447	156,306	73,518,234	Wisconsin.....	50	12,515	4,730,694
Illinois.....	517	108,754	54,313,466	West Virginia.....	33	11,230	4,113,854
Massachusetts.....	137	120,575	51,339,303	Maine.....	35	9,422	3,369,142
New York.....	235	108,200	39,162,602	Tennessee.....	15	5,215	2,738,303
Indiana.....	842	120,078	34,131,416	New Hampshire.....	17	7,350	1,978,127
California.....	107	31,142	19,635,667	Connecticut.....	13	2,891	1,898,830
Michigan.....	58	39,182	15,056,493	Minnesota.....	67	11,022	4,559,027
Nebraska.....	68	42,683	13,415,822	North Dakota.....	9	2,600	1,497,822
Louisiana.....	53	27,363	11,523,654	Other States.....	1,010	305,800	123,359,775
Missouri.....	123	21,638	9,300,661				
North Carolina.....	87	26,276	6,021,421	Total.....	5,599	1,920,257	\$784,175,753

The following was the statement of receipts and expenditures by local associations in 1908:
 Receipts: Weekly dues, \$184,666,218; paid-up stock, \$17,110,544; deposits, \$36,124,743; loans repaid, \$139,594,263; interest, \$43,560,220; premium, \$2,681,921; fines, \$492,712; pass books and initiation, \$582,296; borrowed money, \$55,681,273; real estate sold, \$4,557,586; miscellaneous receipts, \$12,736,785; total, \$519,721,576.
 Disbursements: Pass book loans, \$14,070,287; mortgage loans, \$195,046,764; stock withdrawals, \$148,132,743; paid-up stock withdrawals, \$27,888,619; deposit withdrawals, \$34,943,359; expenses, \$5,548,609; borrowed money, \$54,551,057; interest, \$1,433,344; real estate purchased, \$2,603,535; miscellaneous, \$13,504,788; cash on hand, January 1st, 1909, \$21,998,471; total, \$519,721,576.

The officers of the League, elected at the annual meeting of 1909, are as follows: President, Jay W. Sutton, Sault Ste. Marie, Mich.; First Vice-President, James M. McKay, Youngstown, Ohio; Second Vice-President, Addison B. Burk, Philadelphia, Pa.; Third Vice-President, S. Wittkousky, Charlotte, N. C.; Treasurer, Joseph K. Gamble, Philadelphia, Pa.; Secretary, H. F. Cellarius, Cincinnati, Ohio.

In 1893 there were 240 national building and loan associations in the United States, with total assets of \$37,020,366. Since that date this class of associations has greatly decreased in numbers.

Production of Coal.

AREA OF THE WORLD'S COAL-FIELDS, IN SQUARE MILES.

CHINA and Japan, 200,000; United States, 194,000; India, 35,000; Russia, 27,000; Great Britain, 9,000; Germany, 3,600; France, 1,800; Belgium, Spain, and other countries, 1,400. Total, 471,800.

The coal-fields of China, Japan, Great Britain, Germany, Russia, and India contain apparently 303,000,000,000 tons, which is enough for 450 years at present rate of consumption. If to the above be added the coal-fields in the United States, Canada, and other countries, the supply will be found ample for 1,000 years. Improved machinery has greatly increased the yield per miner, and thus produced a fall in price to the advantage of all industries.

The production of the principal countries in 1907, in metric tons of 2,205 pounds was: United States 430,430,183; United Kingdom, 267,823,276; Germany, (a) 205,342,688; Austria-Hungary, (a) 39,876,511; France, 37,022,556; Belgium, 23,824,499; Russia, 17,800,000; Japan, 12,800,000; Australasia, 10,534,000; India, 10,694,891; Canada, 10,510,961; Spain, (a) 3,250,000; Sweden, 305,308; So. Africa, (b) 3,945,043; Italy, (a)(b) 225,000; all other countries, (b) 3,475,780; total, partly estimated, 1,078,155,696 metric tons. (a) Including lignite. (b) Estimated.

COAL PRODUCTION IN THE UNITED STATES, 1907 (TONS OF 2,000 POUNDS).

STATES.	Tons.	VALUE AT MINE.		STATES.	Tons.	VALUE AT MINE.	
		Total.	Per Ton.			Total.	Per Ton.

* Production is for calendar year preceding the fiscal year. † Export statistics for the fiscal years ending June 30. ‡ Residium—tar, pitch, and all other from which the light bodies have been distilled. In 1898 this amounted to 19,973,904 gallons, in 1899 to 30,665,388 gallons, in 1900 to 16,629,186 gallons, in 1901 to 25,696,596 gallons, in 1902 to 30,309,510 gallons, in 1903 to 21,715,790 gallons, in 1904 to 22,560,570 gallons, in 1905 to 48,949,362 gallons, in 1906 to 76,031,324 gallons, in 1907 to 65,228,098 gallons, and in 1908 to 70,581,822 gallons.

The above is compiled from the Report of the Bureau of Statistics of the Treasury Department. Over 265,000,000 barrels (of 42 gallons) of petroleum, according to the office of the Geological Survey, are now produced annually in the world. Of this amount 166,095,835 barrels are produced in the United States, 61,850,734 in Russia, and the remainder is distributed among a dozen countries, Austria producing 3,300,000; Sumatra, Java and Borneo, 3,700,000; Roumania, 8,100,000; Canada, 788,872; Germany, 756,631.

Production of Copper, Tin, and Zinc.

THE production of copper in the world in 1908, stated in metric tons of 2204.6 lbs., was as follows: United States, 430,099; Spain and Portugal, 53,425; Chile, 38,927; Japan, 44,700; Germany, 20,523; Mexico, 38,190; Australasia, 40,123; South Africa, 38,927; Canada, 24,376; other localities, 64,758; total of the world, 762,111.

The copper production of the United States in 1908 was distributed as follows (figures are in tons of 2,000 lbs.): Alaska, 2,197; Arizona, 145,084; California, 18,445.4; Colorado, 6,948; Idaho, 4,375; Michigan, 111,134; Montana, 126,279; New Mexico, 6,087; Utah, 35,489; Wyoming, 1,152; Southern States, 10,411; other States, 2,194; total production, 474,093.

The production of tin in the world in 1908, in long tons, was: England, 4,650; Straits Settlements, 62,653; China, 4,000; Banka and Billiton, 13,900; Australasia, 5,921; Bolivia, 17,000; United States, none; total of the world, 108,124.

The production of zinc in the world in 1908, in metric tons, was as follows: Austria, 14,224; Belgium, 165,013; France, (c) 49,800; Germany, 216,874; Holland, 17,255; Italy, (d); Russia, 9,753; Spain, (c) 6,018; United Kingdom, 54,472; United States, 190,933; total of the world, 724,347.

(c) An approximate separation of the total which is reported for France and Spain. (d) Included in Austria.

The statistics of Production of Coal, Copper, Tin and Zinc, and those of Pig Iron and Steel, which follow, were compiled for THE WORLD ALMANAC by the "Engineering and Mining Journal."

*Not including the value of zinc ore.
(c) Does not include sulphate made from metallic copper. (d) Does not include manganiferous iron ore. (e) Estimated. (f) One "square" covers 100 square feet. (g) Barrels of 265 lbs. (h) Barrels of 380 lbs. (i) Barrels of 42 gallons. (k) Includes salt used in manufacture of alkali; the barrel of salt weighs 280 lbs. (m) Includes a small quantity made from spelter. (o) Flasks of 75 lbs. (p) Includes spiegel Eisen, although the value is given as for ferromanganese. (s) Including zinc from foreign ore. (t) Barrels of 330 lbs. (v) Figures reported by the United States Geological Survey. (w) Recovered from scrap metal. (x) Statistics not collected. (z) Includes only metal produced from domestic ores except in case of zinc.

The foregoing statistics of "Mineral Products of the United States" were compiled by the New York periodical, "The Engineering and Mining Journal."

a Compiled from Commerce and Finance of the United States. The figures are for the years ending August 31. b Includes receipts of Pensacola. c Included in receipts of Mobile. d Not shown separately.

One of the most striking features of the statistics presented in the table is the remarkable increase in the net receipts of cotton at the Gulf ports. For instance, the receipts at Galveston and New Orleans have increased steadily and rapidly since 1875, the increase in the combined receipts of these two ports for 1907 over those for 1875 amounting to 4,840,253 bales. This remarkable development is to be attributed to the large increase in cotton growing in the States of Texas and Oklahoma, which have transportation connections centering in these ports. It may be noted that the cotton crop of Texas in 1879 was only 805,284 commercial bales, compared with 2,267,293 bales in 1907 and 4,066,472 bales in 1908.

Another noteworthy feature of the statistics in the above table is the drift of the cotton trade in certain of the Atlantic ports. Charleston shows 412,931 bales in 1875 and 507,802 bales in 1885, but in 1908 the receipts were only 203,491 bales; on the other hand, Wilmington increased gradually from 76,601 bales in 1875 to 501,483 bales in 1908. The receipts at Norfolk have nearly doubled, while those of Savannah have more than doubled during the period covered by the table. These conditions have been brought about largely by the trend in the development of the interior transportation facilities and by the establishment of ocean transportation routes.

It may be interesting, in this connection, to observe that the average ocean freight rate from the United States to Liverpool, according to statistics published by the Department of Agriculture, is 32 cents per 100 pounds, the average railway rate from the local shipping point to all ports 40 cents, and the average cost of transportation from the farm to the shipping point 16 cents, which gives an estimated total freight charge from the hands of the producer to the cotton merchant in Liverpool, not including terminal charges, of 88 cents for 100 pounds, or \$4.40 per 500-pound bale.

Cotton Production in the United States.

(Extracts from Census Bulletin 100.)

The following are extracts from Census Bulletin 100, issued by the Bureau of the Census June 2, 1909:

The finally revised figures for the crop of 1908, expressed in equivalent 500-pound bales and including linters, show a total production of 13,587,306 bales. This represents an increase over 1907 of 2,211,845 bales, or 19.4 per cent. It is the third largest crop ever produced, being exceeded only by the crops of 1904 and 1906, and is 978,751 bales larger than the average crop for the last five years.

Of the total production in 1908, 6,232,128 bales, or 45.9 per cent., came from the territory west of the Mississippi River, while the States east of the Mississippi contributed 7,355,178 bales, or 54.1 per cent. In 1907 the States west of the river produced 42 per cent. of the crop, and those east 58 per cent., while in 1906 the former reported 53.2 per cent. and the latter 46.8 per cent.

TEXAS SHOWED AN INCREASE OVER 1907.

The production reported for Texas, 3,913,084 bales, was the second largest recorded, being exceeded only by that of 1906, which was 368,740 bales larger. This State showed a falling off in 1907 of 44.9 per cent. as compared with 1906, but increased its crop in 1908 by 65.8 per cent. over 1907. Texas produced 28.8 per cent. of the total for the country in 1908, 20.8 per cent. in 1907, and 31.5 per cent. in 1906.

Other States showing large increases over 1907 were Arkansas with 33.4 per cent., Alabama with 21.3 per cent. and Mississippi with 13.3 per cent. Louisiana again sustained a great loss, reporting this year but 70.1 per cent. of the quantity returned in 1907, and less than one-half of that returned in 1906. Oklahoma also showed a loss, since the crop of 1908 was but 80 per cent. of that of 1907 and 77 per cent. of that of 1906.

During the last two years especially favorable conditions have existed in Georgia, which State ranks next to Texas in production. The production in 1908 was 1,980,077 bales, the largest quantity ever grown in the State, and exceeding that for 1907 by 124,288 bales. Mississippi ranks third with 1,704,972 bales, or 12.5 per cent. of the total production of the country, and was followed by Alabama with 1,374,140 bales, or 10.1 per cent. of the total for the country.

COTTON GINNED TO SPECIFIED DATES.

The percentages of the crop ginned to the respective report dates are as follows: 3.1 to September 1, 19.8 to September 25, 43.1 to October 18, 62.6 to November 1, 73.3 to November 14, 84.1 to December 1, 91 to December 13, 95.3 to January 1 and 96.8 to January 16. The season of 1908-1909 was the earliest since the system of collecting the amount ginned to specified dates was inaugurated in 1902.

ESTIMATED GRADE AND VALUE OF COTTON CROP.

The crop of 1908 is remarkable for its excellent spinning qualities and cleanliness. The grade of this crop is estimated to have averaged strict middling, compared with middling for 1907 and strict low middling for 1906. Measured by its yarn producing qualities, the crop of 1908 is believed to be the most valuable ever grown. The value of the crop to the growers is estimated at \$681,230,956, of which \$588,814,828 represents the value of the lint and \$92,416,128 the value of the seed. Notwithstanding the fact that the crop was 2,211,845 bales larger than the crop of 1907 and that the spinning qualities of this crop were superior, it has been disposed of by the growers at approximately \$20,000,000 less than that of 1907.

COTTONSEED PRODUCTS.

The estimated quantity of cottonseed produced in 1908 is 5,903,838 tons, of which 3,669,747 tons were treated by the oil mills, affording products valued at \$86,092,583, and distributed as to kind and quality as follows: Oil, 146,739,880 gallons; cake and meal, 1,491,752 tons; hulls, 1,330,283 tons, and linters, 165,138,628 pounds.

UNITED STATES PRODUCED TWO-THIRDS OF THE WORLD'S FACTORY SUPPLY OF COTTON.

The world's production of cotton for mill consumption in 1908 is estimated at 19,574,000 bales of 500 pounds net, compared with 16,512,000 in 1907. The production in the United States, expressed in net weight bales, was 13,002,000, and represents 66 per cent. of the total commercial cotton produced. British India, which ranks second, produced 2,914,000 bales, or 15 per cent.; Egypt 1,275,000 bales, or 7 per cent., and Russia 846,000 bales, or 4 per cent. Most of the remainder is produced in China and Brazil, while smaller quantities are contributed by Mexico, Peru, Turkey, Persia and several other countries.

STOCKS OF COTTON IN THE UNITED STATES AT THE CLOSE OF FEBRUARY, 1909.

The success of the census method of collecting statistics of the cotton production has been responsible for the demand on the bureau for information relative to the distribution of the crop, the purpose being to measure the available supply of cotton on given dates and to forecast the possible future needs. In line with this Congress passed a resolution in February, 1905, directing the bureau to prepare an annual report dealing with statistics of exports and consumption of cotton during the year ending August 31, and with stocks at the close of the year. The scope of this inquiry with regard to stocks was enlarged by a joint resolution of Congress, passed in February, 1909, authorizing the preparation of three additional stock reports, relating to November 1, January 1 and March 1.

The total quantity of cotton at the close of February, 1909, amounted to 5,263,349 bales, distributed by holders as follows: Manufacturers, 1,820,053 bales; producers, 367,959 bales; independent warehouses, 2,238,224 bales; transportation companies, 542,543 bales, and other holders, 294,590 bales. The quantity of linters included is 135,000 running bales, and the quantity of foreign cotton, reduced to equivalent 500-pound bales, 54,531 bales.

COTTON SUPPLY AND DISTRIBUTION.

The total supply of cotton in the United States for the six-month period ending with February, 1909, is given as 14,363,960 bales, made up of 1,236,058 bales on hand September 1, 1908, 13,029,902 bales ginned since, and 98,000 bales imported. The exports during this period amounted to 6,566,571 bales, and the stocks on hand on February 28 to 5,263,349 bales, thus indicating a consumption during the six months of 2,534,040 bales.

Cotton Manufacturing Industry in the United States.

(From Census Bulletin 97.)

The rapid development of the cotton manufacturing industry in the United States is one of the most remarkable events in the history of the country. As early as 1640 the general court of Massachusetts made an order for the encouragement by bounties of the manufacture of linen, woollen and cotton cloth. In this it was followed about nine months later by the Assembly of Connecticut, which took measures to encourage the importation of cotton wool from the Barbados. About the same time a company of Yorkshire men who settled at Rowley, Mass., in 1638, engaged in spinning and weaving cotton, flax and wool; later, in 1643, erecting at that place the first fulling mill in America.

As in Great Britain, however, the manufacture in this country properly dates from the introduction of the Arkwright machinery, which took place in 1790, although as early as 1775 a spinning jenny of 24 threads was put in operation by a joint stock company at Philadelphia. Here in 1782 Samuel Wetherell jr., one of the company, advertised for sale what were probably the first factory made "jeans, fustians, everlastings, &c." in this country, but up to 1790 no sheetings, shirtings, checks or gingham had been made here. The warp for the first goods manufactured wholly of cotton was supplied by a water frame cotton mill at Pawtucket, the equipment of which consisted of three carding machines, one drawing and roving machine, and two Arkwright spinning frames of 72 spindles the latter being the first machine of the kind successfully operated in the United States. The product of this mill, small as it was during the first twenty months, far exceeded the demand of the hand weavers and buyers.

FIRST COTTON SEWING THREAD.

In 1794 the first cotton sewing thread ever made is said to have been spun from sea-island cotton, the cultivation of which was just beginning in the South. The introduction of stocking yarn in America was made about this time by Mr. Samuel Slater. The prices of yarn in Rhode Island at this time are recorded as being 88 cents per pound for No. 12, \$1.04 for No. 16 and \$1.21 for No. 20. About 1804 cotton machinery, clandestinely obtained from England, was introduced into a large factory previously run as a woollen mill at Byfield, Mass., and for a time was employed upon warp yarn and wicking for household manufactures. A few years later the manufacture of tickings, coarse gingham, sheetings and similar heavy materials was commenced at this factory, the first, it is said, of that class of goods made in this country. These were all woven on hand looms, as power weaving was not in use at that date. The price of gingham at that time was 75 cents, and of sheetings 50 cents a yard. It was during this year (1804) that the first consignment for sale of American cotton manufactures was made by Almy & Brown, of Providence, to Elijah Warren, of Philadelphia, who became their agent for selling American yarns and threads in great variety, to which were added as business improved stripes, plaids, checks, denims, tickings, &c. In 1808 a company with a capital of \$1,000,000 was incorporated in Maryland to manufacture coarse cotton goods on a large scale, beginning operations at Elliott's Mills, on the Patapsco River, in 1810.

ONE HUNDRED YEARS AGO.

In an official report made by the Secretary of the Treasury to Congress in 1810 the number of cotton mills erected up to the close of the previous year, including 25 then building, was given as 87. Of these 62 were in operation and worked 31,000 spindles, requiring a capital of about \$100 per spindle, of which \$60 was actively employed. The average annual consumption of cotton per spindle was 45 pounds, worth 20 cents per pound, and the product 36 pounds of yarn per spindle worth on an average \$1.125 per pound. These mills employed on an average 5 men and 35 women to every 800 spindles. The mills were distributed as follows: Rhode Island, 25, including 7 under construction; Massachusetts, 15, including 5 under construction; Connecticut, 6; Pennsylvania, 4; New York, 6; Maryland, 5; New Hampshire, 6; Kentucky, 6; Vermont, 4; New Jersey, 2; Delaware, 2, and in Maine, Virginia, South Carolina, Georgia, Tennessee and Ohio, 1 each. Of these 87 mills, all those in Kentucky, South Carolina, Georgia, Tennessee and Ohio, 2 in Pennsylvania, and 1 each in Delaware and Maryland, were operated by animal power.

The first census of manufactures taken by the Government was in 1810, when 269 cotton manufacturing establishments, scattered throughout 18 States and Territories and operating about 87,000 spindles, were reported. These factories were small, producing chiefly yarn and from 1,000 to 8,000 yards of cloth each per annum. The greater part of the domestic cotton then consumed was spun and woven in the homes of the people, and the aggregate quantity returned as so made was 16,581,299 yards, an amount estimated to exceed in measurement all the cloth made that year from flax, hemp, wool and silk combined. Cotton duck, which of late years has been so extensively made and consumed in this country and which has entered so largely into our exports of domestic cotton fabrics, was then a new article, having just been introduced by Mr. Seth Bemis, a manufacturer of Watertown, Mass. During the year 1809 a small quantity of this material, made in Boston from sea-island cotton, was sold at 65 cents per yard for No. 1 and 58 cents for No. 2.

PRINTED COTTON GOODS.

It was in 1810 that cotton goods were first printed in this country upon engraved copper rollers. This took place at a bleachery and print works established near Philadelphia, where calico printing from wooden blocks had been carried on since the year 1788, or even earlier. The first cylinder machine, enabling one man and two boys to print daily 10,000 yards of cloth, was imported from England in 1809 and put in operation by water power near Philadelphia. In 1822 the engraving of metallic rollers for calico printers was commenced in Philadelphia, and this led to the building of a number of plants about this time in Massachusetts, New Hampshire, New York, New Jersey and Maryland. For the successful introduction of the power loom we are indebted to a Boston manufacturing company chartered in February, 1813. This company built a factory of about 1,700 spindles at Waltham, Mass., for the manufacture of cotton products by the aid of the power loom, which was constructed with several improvements upon the basis of the English loom then in use.

In 1840 there were 1,240 mills in the United States with 2,284,651 spindles, in 1880 there were 756 mills with 10,653,455 spindles, while in 1908 there were 1,941 mills with 27,064,387 spindles. The decrease in the number of mills between 1840 and 1880 was due to the concentration of the industry in larger establishments. For instance, in 1840, the average number of spindles per mill was 1,842, in 1880 the number was 14,092, while in 1908 it was 14,407. The number of mills in 1840 and in 1880 includes weaving mills, while in 1908 only mills operating cotton spindles are considered.

WOOL MANUFACTURES.

(From Census Bulletin No. 74.)

The period intervening between the censuses of 1900 and 1905 was an unusually prosperous season for the industries which use wool as chief raw material, namely: Woollen goods, worsted goods, carpets and rugs, other than rag, felt goods, and wool hats. The 1,213 establishments engaged in wool manufacture in 1905 were distributed thus: Woollen goods, 792; worsted goods, 226; carpets and rugs, 139; felt goods, 39, and wool hats, 17. The total capital invested was \$370,861,691. There was an increase in every industry except wool hat manufacture, where there was a decrease of 19.7 per cent. The average number of wage-earners in the several industries was 179,976. Materials used in the wool manufacture cost \$242,561,096.

The total value of products, \$380,934,003, is made up of the output of woollen mills, \$142,196,658; of worsted goods factories, \$165,745,052; of carpet and rug factories, \$61,586,433; of felt goods factories, \$8,948,594, and of wool hat factories, \$2,457,266.

Massachusetts held first rank in the total value of products of all branches, and in value of worsted goods and woollen goods; Pennsylvania was first in the manufacture of carpets and rugs, and New York led in the manufacture of felt goods and wool hats. The cities of Philadelphia, Pa.; Lawrence, Mass., and Providence, R. I., are still the leading centres of wool manufacture.

In 1905 the worsted manufacture exceeded that of woollen goods in capital, cost of materials, and value of products. An indication of the change of fashion from woollen to worsted goods is the decrease in woollen yarn purchased from 38,903,178 pounds in 1900 to 33,141,488 pounds in 1905, coincident with an increase in worsted yarn from 34,377,736 pounds in 1900 to 43,403,705 in 1905. The quantity of scoured wool consumed in the woollen manufacture was 282,194,618 pounds, and the total quantity of yarns purchased was 203,079,791 pounds, costing \$59,904,637. Cotton, either alone or mixed with wool, has largely supplanted wool as the material of a great number of fabrics. There are important increases in the silk yarn used and in the yarn of jute, ramie, and other vegetable fibres.

The principal machinery was 5,968 cards, 1,549 combing machines, 4,021,098 spindles, and 77,985 looms.

Hay Crop of the United States.

The National Meat Inspection Law.

IN the Act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1907, approved June 30, 1906 (confirmed by Act of March 4, 1907), appear the following provisions regulating the inspection of meat foods either in the hoof or carcass or in canning and packing establishments:

"For the purpose of preventing the use in interstate or foreign commerce, as herein-after provided, of meat and meat food products which are unsound, unhealthful, unwholesome or otherwise unfit for human food, the Secretary of Agriculture, at his discretion, may cause to be made, by inspectors appointed for that purpose, an examination and inspection of all cattle, sheep, swine, and goats, before they shall be allowed to enter into any slaughtering, packing, meat-canning, rendering, or similar establishments in which they are to be slaughtered, and the meat and meat food products thereof are to be used in interstate or foreign commerce; and all cattle, swine, sheep, and goats found on such inspection to show symptoms of disease shall be set apart and slaughtered separately from all other cattle, sheep, swine, or goats, and when so slaughtered the carcasses of said cattle, sheep, swine, or goats, shall be subject to a careful examination and inspection, all as provided by the rules and regulations to be prescribed by the Secretary of Agriculture as herein provided for.

"For the purpose hereinbefore set forth the Secretary of Agriculture shall cause to be made by inspectors appointed for that purpose, as hereinafter provided, a post-mortem examination and inspection of the carcasses and parts thereof of all cattle, sheep, swine, and goats to be prepared for human consumption at any slaughtering, meat-canning, salting, packing, rendering, or similar establishment in any State, Territory, or the District of Columbia for transportation or sale as articles of interstate or foreign commerce; and the carcasses and parts thereof of all such animals found to be sound, healthful, wholesome, and fit for human food, shall be marked, stamped, tagged, or labeled as 'inspected and passed'; and said inspectors shall label, mark, stamp, or tag as 'inspected and condemned' all carcasses and parts thereof of animals found to be unsound, unhealthful, unwholesome, or otherwise unfit for human food; and all carcasses or parts thereof thus inspected and condemned shall be destroyed for food purposes by the said establishment in the presence of an inspector, and the Secretary of Agriculture may remove inspectors from any such establishment which fails to so destroy any such condemned carcass or part thereof, and said inspectors, after said first inspection shall, when they deem it necessary, reinspect said carcasses or parts thereof to determine whether since the first inspection the same have become unsound, unhealthful, unwholesome, or in any way unfit for human food, and if any carcass or any part thereof shall, upon examination and inspection subsequent to the first examination and inspection, be found to be unsound, unhealthful, unwholesome, or otherwise unfit for human food, it shall be destroyed for food purposes by the said establishment in the presence of an inspector, and the Secretary of Agriculture may remove inspectors from any establishment which fails to so destroy any such condemned carcass or part thereof.

"The foregoing provisions shall apply to all carcasses or parts of carcasses of cattle, sheep, swine, and goats, or the meat or meat products thereof which may be brought into any slaughtering, meat-canning, salting, packing, rendering, or similar establishment, and such examination and inspection shall be had before the said carcasses or parts thereof shall be allowed to enter into any department wherein the same are to be treated and prepared for meat food products; and the foregoing provisions shall also apply to all such products which, after having been issued from any slaughtering, meat-canning, salting, packing, rendering, or similar establishment, shall be returned to the same or to any similar establishment where such inspection is maintained.

"For the purposes hereinbefore set forth the Secretary of Agriculture shall cause to be made by inspectors appointed for that purpose an examination and inspection of all meat food products prepared for interstate or foreign commerce in any slaughtering, meat-canning, salting, packing, rendering, or similar establishment, and for the purposes of any examination and inspection said inspectors shall have access at all times, by day or night, whether the establishment be operated or not, to every part of said establishment, and said inspectors shall mark, stamp, tag, or label as 'inspected and passed' all such products found to be sound, healthful, and wholesome, and which contain no dyes, chemicals, preservatives, or ingredients which render such meat or meat food products unsound, unhealthful, unwholesome, or unfit for human food; and said inspectors shall label, mark, stamp, or tag as 'inspected and condemned' all such products found unsound, unhealthful, and unwholesome, or which contain dyes, chemicals, preservatives, or ingredients which render such meat or meat food products unsound, unhealthful, unwholesome, or unfit for human food, and all such condemned meat food products shall be destroyed for food purposes, as hereinbefore provided, and the Secretary of Agriculture may remove inspectors from any establishment which fails to so destroy such condemned meat food product."

Other sections of the law provide for the sanitary examination of slaughtering, packing, and canning establishments, and the labelling of all such inspected articles of food.

The provisions of this Act requiring inspection to be made by the Secretary of Agriculture shall not apply to animals slaughtered by any farmer on the farm and sold and transported as interstate or foreign commerce, nor to retail butchers and retail dealers in meat and meat food products, supplying their customers: Provided, That if any person shall sell or offer for sale or transportation for interstate or foreign commerce any meat or meat food products which are diseased, unsound, unhealthful, unwholesome, or otherwise unfit for human food, knowing that such meat food products are intended for human consumption, he shall be guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding \$1,000 or by imprisonment for a period of not exceeding one year, or by both such fine and imprisonment.

Production of Poultry and Eggs.

THE Census of 1900 gave the production of poultry in the United States as 250,623,114. The enumeration covered chickens, guinea fowls, turkeys, geese and ducks three months old and over. The largest production was in Iowa, 20,043,343, and the next largest, Illinois, 17,737,262.

The production of eggs in the Census year 1900 in the United States was 1,293,662,433 dozen. The leading production by States was Iowa, 99,621,920 dozen; Ohio, 91,766,630; Illinois, 86,402,670; Missouri, 85,203,290; Kansas, 73,190,390; Indiana, 70,782,200; Pennsylvania, 67,038,180. New York, 62,096,690; Texas, 58,040,810; Michigan, 54,318,410; all in dozens.

The report of the Census of 1900 showed 3.29 poultry per capita, and 17 dozen eggs per capita per annum for the United States.

Dairy Products.

THE Twelfth Census (Bulletin 189) presented the following condensed analysis of the dairy industry of the United States for the Census year 1900:

Cows kept for milk on farms.....	number..	17,139,674

- Alabama**—Prohibition.
- Alaska**—Local option under acts of Congress. License, \$1,000.
- Arizona**—Local option, quarterly fee, United States license \$35 annually. County and Territorial \$300 annually.
- Arkansas**—Local option, fee \$800.
- California**—Local option, fee by authorities.
- Colorado**—Local option, fee \$500 up.
- Connecticut**—Local option, fee \$150—\$450.
- Delaware**—New Castle County and City of Wilmington, licensed. Kent and Sussex Counties, local option, fee \$300—\$300.
- District of Columbia**—License by excise board on the written consent of the majority of the owners of real estate, and of the residents on the front of the square on which the saloon is to be located, and of the owners of real estate and of the residents of the confronting side of the opposite square, fee \$500.
- Florida**—Local option, fee \$1,000.
- Georgia**—Prohibition.
- Idaho**—Local option by counties, fee \$750.
- Illinois**—Local option license by city council or village or county board, fee not less than \$500.
- Indiana**—County local option. Whenever 20 per cent of the voters of the county petition the county commissioners the latter shall be a "yes" or "no" vote as to prohibiting the sale of intoxicants by saloons within the county.
- Iowa**—License by petition of voters, fee \$600 up.
- Kansas**—Prohibition.
- Kentucky**—County local option, except cities of the first, second and third classes may vote separately; fee \$150.
- Louisiana**—Local option, fee \$200 up.
- Maine**—Prohibition.
- Maryland**—Local option, fee \$18—\$450.
- Massachusetts**—Local option, fee for first-class license not less than \$1,000; number limited, one to one thousand inhabitants; in Boston, one to five hundred.
- Michigan**—Local option, fee \$500—\$800.
- Minnesota**—License fee, \$500—\$1,000.
- Mississippi**—Prohibition.
- Missouri**—The counties may, by majority vote, pass the local option law, and if this is not done the county courts may grant a license and fix a tax of not less than \$200, nor more than \$400 per year, for State and not less than \$500, nor more than \$800 for county purposes.
- Montana**—Semi-annual fee \$150—\$300.
- Nebraska**—Local option, fee \$500—\$1,000.
- Nevada**—State license \$50 per annum; wholesale \$100 per annum; retail drug store \$12 per annum.
- New Hampshire**—License by majority of voters, fees based on population, maximum \$1,200.
- New Jersey**—Local option, fee \$100—\$300.
- New Mexico**—License by county commissioners, fee \$100—\$400.
- New York**—Local option in towns, fee \$150—\$1,200, according to population.
- North Carolina**—Prohibition.
- North Dakota**—Prohibition.
- Ohio**—Local option, fee \$1,000.
- Oklahoma**—Constitutional prohibition.
- Oregon**—Local option, fee \$400.
- Pennsylvania**—License under control of courts, fee \$100—\$1,100.
- Rhode Island**—Local option, fee \$300—\$1,000.
- South Carolina**—Local option, county control or prohibition.
- South Dakota**—License by local authorities, fee \$400—\$600.
- Tennessee**—Prohibition.
- Texas**—License issued by State Comptroller, fee \$750.
- Utah**—License granted by local authorities, fee \$400—\$1,200.
- Vermont**—License local option act was adopted February 13, 1903, and took effect March 3, 1903.
- Virginia**—Control of local courts, fee \$450 (wholesale or retail); local option provided for.
- Washington**—Local option, fee \$300—\$1,000.
- West Virginia**—License by courts and local authorities, fee retail \$1,000; wholesale \$750.
- Wisconsin**—Local option, fee \$100—\$200, with power in voters to increase from \$200—\$500.
- Wyoming**—Wholesale dealer, \$300; retail dealer, \$1,000.

LIQUOR TRAFFIC IN NEW YORK CITY.

Comparative table showing the number of licenses issued and net receipts under excise boards for year ending April 30, 1906 (old law), also number of liquor tax certificates in force, net revenue, State's share net revenue, boroughs' share net revenue, benefit to boroughs by diminished State tax, together with total benefit to each borough comprising the City of New York, for the year ending September 30, 1909 (new law).

 - With Pastry—Madeira; cool.
 - With Cheese—Port; temperature of room.
 - With Fruit—Tokay, Malaga, or Muscat.*
 - With Coffee—Brandy or Cordial.*

The Prohibition Movement.

(Revised to January 1, 1910, by the Associated Prohibition Press.)

SIGNIFICANT gains and steady advance have marked the progress of the Prohibition movement throughout the United States during the past twelve months, the details of which are manifest in the record on file at the Chicago headquarters, and, despite the predictions of the United States Brewers' Association and the liquor interests generally, that the Prohibition wave had reached its highest point January 1, 1909, specific gains of importance for the Prohibition cause have been recorded in not less than thirty different States during the past twelve months.

On December 31, 1908, there were five States under complete Prohibition law—namely, Maine (1854), Kansas (1880), North Dakota (1890), Georgia (1907), Oklahoma (1907). On January 1, 1910, there are nine Prohibition States, including the previous five, and Alabama, Mississippi and North Carolina (in each of which States the new law went into effect January 1, 1909), and Tennessee (which closed its retail liquor traffic July 1, 1909, and abolished liquor manufacture December 31, 1909).

These nine Prohibition States have a total population of 12,393,162, and a total area of 508,807 square miles.

State Prohibition campaigns are now in progress and are expected to reach a decisive result within the next two years in Florida, Iowa, Kentucky, Massachusetts, Michigan, Missouri, Nebraska, New Hampshire, Oregon, South Carolina, Utah, Vermont and West Virginia.

The voters of Florida will vote on State Prohibition in November, 1910, and, if carried, the new law will take effect in 1911.

There are 375 Prohibition cities in the United States, of 5,000 population and over; ninety of 10,000 and over; while fifty-three leading industrial centres in fourteen different States of 20,000 population and over, with an aggregate of 2,000,000 population, are included; fourteen State capitals are now under State or local Prohibition law.

The most conspicuous features of the year in the Prohibition reform have been the twelfth World's Congress against alcoholism, held at London, July 18-24, at which representative reformers of more than fifteen nations organized the First International Prohibition Confederation; the fortieth anniversary celebration of the National Prohibition Party movement, held at Chicago, September 24, followed on September 25 by the most spectacular parade and public demonstration in favor of the temperance cause ever known, led by Maj.-Gen. Frederick Dent Grant, 25,000 participating; a notable series of public debates between national Prohibition leaders and accredited champions of the liquor interests, held in Milwaukee, Chicago, Indianapolis, Peoria and many other cities; and the extraordinary attention given the progress of the reform in the daily and magazine press of the country. Practically every leading magazine in America has contributed one or more important studies of some phase of the Prohibition issue to popular discussion.

The Alabama Legislature, in special session in August, adopted the most complete and comprehensive system of enforcement legislation, supplementary to its State prohibitory law, ever enacted.

The remarkable results of the spread of Prohibition territory throughout the nation are shown in the decreased liquor production in the past two years, aggregating more than \$166,000,000 in value, during which time some 10,000,000 people have adopted Prohibition by legislation or popular vote; and an overwhelming mass of data and statistics, showing greater business prosperity and remarkable decrease in crime and lawlessness, on file, which has come from every section of the country where Prohibition has gone into effect.

STATE.	January 1, 1909.	January 1, 1910.
Alabama.....	State Prohibition in effect December 31, 1908.	Detailed and complete enforcement legislation enacted by Legislature, August, 1909. Popular vote on Constitutional Prohibition, November, 1909.
Arizona.....	2 Prohibition districts.	New county Prohibition law; bare majority substituted for previous two-thirds requirement.
Arkansas.....	5 dry Prohibition counties.	State Prohibition narrowly defeated (1909), certain in next Legislature.
California.....	300 Prohibition towns.	Some local gains. Sentiment rapidly growing for State Prohibition.
Colorado.....	Nearly 100 Prohibition towns. State local option law.	Some local gains. Stricter law enforcement. Prohibition sentiment growing.
Connecticut....	97 Prohibition towns.	Large increase in no license vote. Legislature passed several important restrictive measures.
Delaware.....	2 counties out of 3 Prohibition.	Same. Movement for State Prohibition.
Dist. Columbia.	License regulation. Lax enforcement.	New high license law. Sentiment for Prohibition organizing. Stricter enforcement.
Florida.....	35 Prohibition counties.	Legislature submitted State Prohibition. Popular vote November, 1910.
Georgia.....	State Prohibition January 1, 1908.	State law a success. Supporting sentiment grows.
Idaho.....	No license in scattering towns. Sunday saloon closing by State law (1907).	County option law passed. To vote dry. Other local gains. New law prohibits brewery ownership of saloons.
Illinois.....	36 Prohibition counties. 2,500 Prohibition towns. Only 2 counties wholly license. 23 Prohibition cities.	No special changes. Elections April, 1910. No license campaign under way in Chicago. Prohibition forces very active.
Indiana.....	15 counties dry. County option law 1908. Much of State dry by remonstrance.	70 counties dry. Net Prohibition majority, 67,025. Sentiment for State Prohibition very active; 1,780,839, or 65 per cent. of State population in "dry" territory. 32 "dry" cities (5,000 and over).

THE PROHIBITION MOVEMENT—Continued.

STATE.	January 1, 1909.	January 1, 1910.
Iowa.....	74 counties dry. Law enforcement gaining ground.	Campaign for State Prohibition developing great enthusiasm.
Kansas.....	State Prohibition (1880). Better enforcement. Enforcement a success in Kansas City, Kan.	Legislature passed in 1909 important additions to State law. The sale of alcohol in any form absolutely prohibited. Strict enforcement the rule.
Kentucky.....	92 Prohibition counties. 4 wholly wet.	96 Prohibition counties. 1,541,613, or 66 per cent. of total population in "dry" territory. State Prohibition campaign launched.
Louisiana.....	33 Prohibition parishes. State Prohibition narrowly defeated in first legislative skirmish.	Prohibition sentiment grows. Local Prohibition proves notable success in 33 "dry" parishes.
Maine.....	State Prohibition (1854). More successful enforcement.	Move for re-submission emphatically defeated by State Legislature. Sentiment for law enforcement growing steadily.
Maryland.....	15 Prohibition counties. Sunday closing.	Some local gains. New high license law for Baltimore.
Massachusetts.	260 Prohibition towns and 18 cities. 15,000 State majority against license. Worcester (150,000 population) votes dry twice in succession.	Some local gains. 25,000 State majority against license. Definite campaign for State Prohibition. 261 towns "dry" out of 321. 20 cities "dry" out of 33. 26,897 State majority against license.
Michigan.....	11 Prohibition counties. 700 Prohibition towns. Strict law enforcement.	30 Prohibition counties. Important new restrictive legislation took effect September 1, 1909. State Prohibition campaign on.
Minnesota.....	1,600 Prohibition towns. Strict law enforcement. 3 Party Prohibitionists in Legislature.	Same. County option, defeated, provokes State-wide union of Prohibition forces.
Mississippi.....	State Prohibition (December 31, 1908).	Enforcement of State-wide law strengthened by growing public sentiment.
Missouri.....	75 Prohibition counties. Strict Sunday closing.	Few county changes. State Prohibition campaign definitely under way. Vote Nov., 1910. Prohibition sentiment growing, with notable increase of party vote in several districts.
Montana.....	1 Prohibition county. Local gains.	26 Prohibition counties. Many local gains. State Capital, Lincoln, 50,000 voted "dry." State Prohibition campaign on. 48 "dry" county seats.
Nebraska.....	600 Prohibition towns. 22 Prohibition counties.	Sentiment against liquor selling growing. Same. Movement for repeal of license law in active operation.
Nevada.....	Local gains.	Whole year of 1909 filled with agitation. County option expected.
New Hampshire	144 Prohibition towns (1904).	Prohibition forces very active at Legislative session. Sentiment for Prohibition growing.
New Jersey....	183 Prohibition towns (1908). Sunday closing in most cities. Few dry towns.	Few changes. Concerted State-wide campaign on in 300 local Prohibition contests.
New Mexico....	No Prohibition territory.	Success of State Prohibition shown by official statistics.
New York.....	285 towns "dry." Cities all license by State law.	Conditions same. Sentiment back of Prohibition law overwhelming throughout State. Strong supplementary legislation passed.
North Carolina.	State Prohibition in effect January 1, 1909.	61 counties dry. Campaigns in largest cities, and State Prohibition scheduled for near future. Net Prohibition majority in 70 county contests, 66,132.
North Dakota..	State Prohibition. State-wide enforcement.	Enforcement on State Prohibition law steadily growing. Prohibition Party organized September 27, 1909.
Ohio.....	1,621 Prohibition towns. County Prohibition law. 47 counties voted dry in first sixty days.	Important elections June, 1910. State Prohibition campaign being planned.
Oklahoma.....	State Prohibition (1907).	County option defeated 1909, but sentiment rapidly growing. Confident of advanced legislation at next session.
Oregon.....	County option. 21 Prohibition counties out of 34.	Little change.
Pennsylvania..	600 scattered towns dry.	37 Prohibition counties out of 42. Sweeping Prohibition victories August 17, 1909. State campaign definitely on.
Rhode Island..	About 20 Prohibition towns. New State enforcement law.	Few local changes. Sentiment for State Prohibition campaign developing.
South Carolina.	State dispensary abolished (1907). 18 Prohibition counties.	State Prohibition passed January, 1909; effective July 1, 1909. Liquor manufacture prohibited. Law effective January 1, 1910.
South Dakota..	13 Prohibition counties.	154 Prohibition counties. State Prohibition referendum narrowly defeated by Legislature only increased agitation for that object. Vote expected within two years.
Tennessee.....	4 license counties, including largest cities.	
Texas.....	152 Prohibition counties.	

STATE.	January 1, 1909.	January 1, 1910.
Utah.....	Sentiment for county Prohibition strong.	County Prohibition and State referendum defeated in Legislature; expected at next session.
Vermont.....	138 Prohibition towns out of 240 in 1904. 216 dry towns in 1908.	Few local changes. Demand for resubmission of State Prohibition growing. Prohibition majority of 8,819 in whole State.
Virginia.....	66 Prohibition counties.	71 Prohibition counties. Democratic primary being fought out on Prohibition issue.
Washington....	About 50 Prohibition towns.	Compromise local Prohibition law passed Legislature, 1909. Alaska-Yukon Exposition, Seattle, first big "dry" fair.
West Virginia..	40 out of 54 dry counties.	Some local gains. Charlestown, State capital, dry since July 1. Only 3 counties wholly "wet."
Wisconsin.....	789 Prohibition towns.	State campaign on. County Prohibition law defeated, but sentiment growing rapidly.
Wyoming.....	Few scattering dry towns.	New law effective January 1, 1910, puts whole State under Prohibition outside of incorporated towns.

The Defective Classes.

The Insane.—The total number of insane in the United States on June 1, 1890 (Census of the United States), was 106,435, of whom 74,023 were in hospitals. In the collection of statistics of the insane in 1903 (Census Special Report issued August, 1906), only the insane in hospitals were considered. These had increased to 150,151 on December 31, 1906. The number of hospitals for the insane had increased in thirteen years from 162 in 1890 to 323 in 1903.

In 1903 the number of insane males in hospitals was 78,523, and insane females 71,628. In proportion to population there were more white than negro insane. None of the insane in hospitals were under twelve years of age. The maximum concentration occurred between ages twenty-five and thirty-five years. Female insane live longer than male insane, and white insane than negro insane.

More than one-fourth, 27.8 per cent. of the hospital insane had been inmates less than one year, less than one-sixteenth per cent. had been in hospitals at least twenty years, 41.6 per cent. had been employed as laborers and servants before becoming inmates, 22.5 per cent. had been occupied in agriculture, transportation and other outdoor pursuits, and 16 per cent. in manufacturing and mechanical industries. Of the 323 hospitals for the insane, 226 were public and 102 private in character. The annual cost of maintenance of insane in public hospitals approximated \$21,000,000.

The Feeble-Minded.—The number of feeble-minded in institutions on December 31, 1903, was 14,347. The Census estimate of the number of feeble-minded in the general population is not less than 150,000. Of the feeble-minded in institutions 53 per cent. were under twenty years of age, and 85 per cent. were under thirty years of age. Three-fifths of the inmates were epileptics.

The Deaf and Dumb.—The total number of deaf mutes in the United States on June 1, 1890 (the latest Census returns on the subject), was 40,592—whites, 37,447; negroes, 3,115; others, 30; males, 22,429; females, 18,163; native-born whites, 33,278; foreign-born whites, 4,169.

The number of persons so deaf as to be unable to hear loud conversation on June 1, 1890, was 121,178, of whom 80,611 were able to speak. The latter were 49,278 males, 31,338 females, 77,308 whites, 3,308 negroes.

The Blind.—The total number of blind in the United States on June 1, 1890, was 50,568—whites, 43,351; negroes, 7,060; others, 157; males, 28,080; females, 22,488; native-born whites, 34,205; foreign-born whites, 9,146. The number of blind in one eye only was 93,988.

The number of insane persons in Great Britain and Ireland in 1896, according to Mulhall, was 128,896, or 323 per 100,000 population; Austria (1890), 51,880; Hungary (1890), 28,158. The number of insane in Germany in 1884 was 108,100; France, 93,900; Russia, 80,000.

Suicides.

In European cities the number of suicides per 100,000 inhabitants is as follows: Paris, 42; Lyons, 29; St. Petersburg, 7; Moscow, 11; Berlin, 36; Vienna, 23; London, 23; Rome, 8; Milan, 6; Madrid, 3; Genoa, 31; Brussels, 15; Amsterdam, 14; Lisbon, 2; Christiania, 25; Stockholm, 27; Constantinople, 12; Geneva, 11; Dresden, 51. Madrid and Lisbon show the lowest, Dresden the highest figure.

The average annual suicide rate in countries of the world per 100,000 persons living is given by Barker as follows: Saxony, 31.1; Denmark, 25.8; Schleswig-Holstein, 24.0; Austria, 21.2; Switzerland, 20.2; France, 15.7; German Empire, 14.3; Hanover, 14.0; Queensland, 13.5; Prussia, 13.3; Victoria, 11.5; New South Wales, 9.3; Bavaria, 9.1; New Zealand, 9.0; South Australia, 8.9; Sweden, 8.1; Norway, 7.5; Belgium, 6.9; England and Wales, 6.9; Tasmania, 5.3; Hungary, 5.2; Scotland, 4.0; Italy, 3.7; Netherlands, 3.6; United States, 3.5; Russia, 2.9; Ireland, 1.7; Spain, 1.4. A later enumeration of suicides in France gives 8,926 as the number in 1900, or 23.6 per cent.

The causes of suicide in European countries are reported as follows: Of 100 suicides: Madness, delirium, 13 per cent.; alcoholism, 11; vice, crime, 19; different diseases, 2; moral sufferings, 6; family matters, 4; poverty, want, 4; loss of intellect, 14; consequence of crimes, 3; unknown reasons, 19.

The number of suicides in the United States in the Census year 1900 was 5,498. The number of suicides in States and cities of the United States which have laws requiring the registration of deaths in the five years 1900 to 1904, inclusive, as reported in the Special Mortality Report of the Census Office, published in 1906, was 20,834. The methods of death by suicide in numbers, were: By poison, 6,946; firearms, 4,938; hanging, 3,232; asphyxia, 1,487; cutting, 1,171; drowning, 1,059; jumping from high places, 252; crushing, 87; other methods, 1,662. Insanity is the principal cause of suicide. The largest proportion of deaths by suicide, according to age, is from forty to forty-nine years. Summer appears to be the favorite season.

The number of suicides in fifty American cities in ten years, 1895 to 1905, inclusive, according to Frederick L. Hoffmann statistician of the Prudential Insurance Company of New Jersey, was 26,079. The ten cities having the highest rate per 100,000 of the population were: San Francisco, 52.2; Hoboken, 30.2; St. Louis, 27.4; Oakland, 24.9; Chicago, 22.7; New York (Manhattan and Bronx), 22.2; Milwaukee, 21.8; Newark, 21.6; Cincinnati, 20.6; Indianapolis, 17.6. The average of fifty cities was 17.8. The number of suicides in New York (Manhattan and Bronx) in 1906 was 442 and in Chicago 385.

Statistics of Pauperism.

The Census Office obtained an enumeration of paupers in the United States in 1904 with the following result:

ELEMENTS.	Aggregate.	Men.	Women.
The United States.....	81,764	52,444	29,320
White.....	74,854	48,445	26,409
Native, white.....	42,205	25,187	17,018
Both parents native.....	31,944	18,358	13,606
One parent foreign.....	1,902	1,216	686
Both parents foreign.....	5,777	4,069	1,708
One or both parents unknown.....	2,582	1,564	1,018
Foreign born, white.....	32,136	23,036	9,100
Birthplace unknown, white.....	513	222	291
Colored.....	6,910	3,999	2,911
Negroes.....	6,798	3,912	2,881
Mongolians.....	44	43	1
Indians.....	73	44	29

The above comprises the latest statistics published by the United States Government. Statistics of pauperism apply only to inmates of almshouses. Outdoor paupers are not considered, and there is no way of ascertaining their number in the United States, but it is comparatively small compared with that of European countries.

The number of paupers in almshouses in the United States per 100,000 of population was 116.6. The States having the largest percentages were New Hampshire, 303.6; California, 215.2; Massachusetts, 211.0; Ohio, 201.5; Connecticut, 192.7; New Jersey, 188.1; Delaware, 177.5. The States having the smallest percentages were Arkansas, 19.8; North Dakota, 19.2; South Dakota, 16.2; Louisiana, 10.9; Florida, 6.1; New Mexico, 0.7.

Statistics of pauperism in European countries is difficult to collate on account of the variance in reports. England, for example, counts the number receiving relief on January 1; France the total number of persons succored during the year, the latter being a repetition of people who needed relief. Mulhall makes the following estimates: England, 810,000; Scotland, 96,000; Ireland, 109,000; France, 290,000; Germany, 320,000; Russia, 350,000; Austria, 290,000; Italy, 270,000; Netherlands, 85,000. Booth estimated that 38 per cent. of all persons over sixty-five years of age in England were paupers.

An official report on the number of paupers in England and Wales in 1908 gave the following figures: Number of indoor paupers, 275,242; number of outdoor paupers, 547,620; total, 822,862. Ratio per 1,000 inhabitants: Indoor, 7.9; outdoor, 15.7; total, 23.6. There had been a steady yearly increase in the total number of paupers since 1901, when it was 714,449.

Assassinations

OF RULERS IN RECENT TIMES

Gustavus III., of Sweden, by Alkarstrom, March 16, 1792.
 Paul, Emperor of Russia, by nobles, March 24, 1801.
 Spencer Percival, Prime Minister of Great Britain, by Ballingham, May 11, 1812.
 Ferdinand Charles III., Duke of Parma, March 27, 1854.
 Daniel, Prince of Montenegro, August 13, 1860.
 Abraham Lincoln, President of the United States, by John Wilkes Booth, April 14, 1865.
 Prim, Marshal of Spain, December 28, 1870.
 Earl of Mayo, Governor General of India, by Shere Ali, convict; February 8, 1872.
 Alexander II., Emperor of Russia, by explosion of a bomb, March 3, 1881.
 James A. Garfield, President of the United States, by Charles J. Guiteau, July 2, 1881.
 Lord Frederick Cavendish, Chief Secretary for Ireland, and T. H. Burke, Under Secretary, by four men in Phoenix Park, Dublin, May 6, 1882.
 Canovas de Castillo, Prime Minister of Spain, by Angolillo, August 8, 1897.
 Carnot, President of France, by Cesare Santo, June 24, 1894.
 Barrios, President of Guatemala, February 8, 1898.
 Empress Elizabeth, of Austria, by an anarchist, Geneva; September 10, 1898.
 Heureaux, President of San Domingo, July 26, 1899.
 Humbert, King of Italy, by Bresci, July 30, 1900.
 William McKinley, President of the United States, by Czolgosz, September 6, 1901.
 Alexander, King of Serbia, and Queen Draga, by conspirators, June 11, 1903.
 Sergius, Grand Duke of Russia, February 17, 1905.
 Carlos, King of Portugal, and the Crown Prince, by conspirators, February 1, 1908.
 Prince Ito, of Japan, by Korean conspirators, Manchuria, October 26, 1909.
 Attempts have been made on the lives of Napoleon I., by infernal machine, December 24, 1801. President Andrew Jackson, by Richard Lawrence, February 29, 1835. King George IV., of Great Britain, when regent.
 King Louis Philippe, six attempts. King Frederick William, of Prussia; Emperor Francis Joseph, of Austria; Queen Victoria, four attempts. Queen Isabelle, of Spain, two attempts. Emperor Napoleon III., three attempts. Bismarck, two attempts. King Milan, of Serbia; Emperor Pedro II., of Brazil; King Amadeus, of Spain; Emperor William I., of Germany, three attempts. King Alphonso XII., of Spain, two attempts. Lord Lytton, while Viceroy of India; Edward III., of England, when Prince of Wales, by Spido, at Brussels. Earl of Minto, Governor General of India, and many others of lesser note. The increasing number of assassinations in later years will be remarked.

Mortality Statistics.

THE Census Office published in 1908 a report of Mortality Statistics of States and cities which have laws or ordinances requiring the registration of deaths. It represented a population of 45,023,767 or 51 per cent. of the population of Continental United States. The total number of deaths reported was 691,574, the rate per 1,000 of the population being 15.3. But seventeen States and the District of Columbia with seventy-four cities in non-registration States were included in the Registration Area. The Census enumeration of 1900, which follows, covered the whole United States so far as returns could be obtained.

DEATHS IN THE UNITED STATES IN CENSUS YEAR 1900.

(Compiled from the Report of the Census Office.)

STATES AND TERRITORIES.	Total.	Male.	Female.	White, Total.	White, Native.	White, Foreign.	Colored, Total.
The United States.....	1,039,094	551,611	487,483	892,092	694,736	175,252	147,002

Wyoming.....	767	452	315	651	474	137	116

The Census year ended May 31, 1900.

In the summaries of the results the data are classed as "registration" and "non-registration," according to the source from which the original returns were obtained. The non-registration class includes the areas in which the deaths were reported by the enumerators, and those areas in which registration was too defective to be accepted.

The average age at death in 1890 was 31.1 years; in 1900 it was 35.2 years.

CAUSES OF DEATH IN THE CENSUS YEAR 1900.
NUMBER OF DEATHS FROM CERTAIN CAUSES, WITH PROPORTION FROM EACH CAUSE PER 100,000 FROM ALL CAUSES, IN 1900 AND 1890.

CAUSES OF DEATH.	1900.		1890.		CAUSES OF DEATH.	1900.		1890.

The Census Office announces that with a view to securing uniform and comparable statistics of the causes of death for the world, the International Classification of Causes of Death was prepared in 1900. This classification has been adopted by all of the countries of North America and Australasia, by nearly all of those of South America, by Japan, by France and a number of the other countries of Europe, and by several cities of Austria and Russia. In order to keep abreast of the progress of medical science, it was planned to revise the classification every ten years. The first revision would naturally come in 1910, but in deference to the wishes of the officials of the Census of the United States the International Commission of Revision met in Paris in 1909. This will enable the many countries taking a census in 1910 to prepare mortality statistics that will be in accord with the advanced medical ideas.

The following was the death rate per thousand in various countries in 1900: Austria, 27.4; Belgium, 19.3; Denmark, 16.9; England and Wales, 18.2; France, 21.9; German Empire, 22.1; Hungary, 26.9; Ireland, 19.6; Italy, 23.8; Netherlands, 17.8; Norway, 15.9; Scotland, 18.5; Spain, 23.9; Sweden, 16.8; Switzerland, 19.3; United States (registration area), 17.6.

DEATH RATE OF LARGE CITIES.

The report on Mortality Statistics of 1908 (registration area) contained the following table of percentages of deaths per 1,000 of population in cities of the United States with over 100,000 population:

	Annual Average: 1901 to 1905.			Annual Average: 1901 to 1905.			Annual Average: 1901 to 1905.	
	1901 to 1905.	1908.		1901 to 1905.	1908.		1901 to 1905.	1908.

Detroit, Mich.	15.2	15.6						

Statistics of Homicide.

Josiah Strong's "Social Progress" for 1906 gives the following table of homicides and the annual average:

	Tried.	Con- victed.		Tried.	Con- victed.		Tried.	Con- victed.
Italy	3,606	2,805	England	315	151	Hungary	625
Austria	689	499	Ireland	129	54	Holland	35	28
France	847	580	Scotland	60	21	Germany	567	476
Belgium	132	101	Spain	1,584	1,085			

The average number of murders in the United States annually during the past twenty years, from 1885 to 1904, was 6,597. In 1896 the murders reached high-water mark, 10,662, and in 1895 there were 10,500. In Germany the convictions equalled 95 per cent. and a fraction; in the United States, 1.3 per cent.

In this connection, the nationalities of the homicides in the United States will be of interest. August Drahm gives the following: Native white, 42.94 per cent.; foreign born, 16.50 per cent.; negroes, 37.12 per cent.; Chinese and Japs, 1.25 per cent.; civilized Indians, 1.21 per cent.

Capital Punishment.

In Italy there is no capital punishment, and it has been abolished in the States of Maine, Michigan, Wisconsin, Rhode Island, and Kansas; Colorado and Iowa have both restored it after brief periods of abolition. As to the methods of carrying out death sentences; the guillotine is employed publicly in France, Belgium, Denmark, Hanover and two cantons of Switzerland, and privately in Bavaria, Saxony, and also in two cantons of Switzerland. The gallows is used publicly in Austria, Portugal and Russia; and privately in Great Britain and the United States, except in New York, New Jersey, Massachusetts, Ohio, North Carolina and Virginia, where the electric chair has been substituted. In Utah a condemned murderer may choose shooting instead of hanging. Death by the sword obtains in fifteen cantons in Switzerland, in China and Russia, publicly, and in Prussia privately. Ecuador, Oldenburg and Russia have adopted the musket publicly; while in China they have strangulation by the cord, and in Spain the garrote, both public; and in Brunswick, death by the axe.

Prisoners' Commutation Table.

THE following table shows the time subtracted for uniformly good conduct from the terms to which prisoners are sentenced under the regulations in force in the State prisons of New York:

SENTENCE.	COMMUTATION.			REMAINING SHORT TERM.			SENTENCE.	COMMUTATION.			REMAINING SHORT TERM.

The Hookworm Commission.

ROCKEFELLER COMMISSION FOR THE ERADICATION OF THE HOOKWORM DISEASE.

In October, 1909, John D. Rockefeller addressed a letter to a number of educators, physicians and others asking them to take part in a conference, with the hope that it might lead to the adoption of plans for a co-operative movement of the medical profession, public health officials, boards of trade, churches, the press and other agencies for the cure and prevention of the hookworm disease. They might call on him in the next five years for \$1,000,000 to promote these purposes. It is estimated that by this disease and the anaemia caused by it two million persons in the Southern States are affected. It is confined to no class, but is more common and serious in children of school age. It is estimated that one-eighth of the persons employed in the Southern cotton mills have the disease. In spite of its ravages the worm is quite easy to eradicate. As a result of the conference asked for by Mr. Rockefeller, which was held in New York, the Rockefeller Commission for the Eradication of the Hookworm Disease was organized, and the members of it are as follows:

Dr. William H. Welch, professor of pathology in Johns Hopkins University, president of the American Medical Association; Dr. Simon Flexner, director of Rockefeller Institute

THE HOOKWORM COMMISSION—Continued.

for Medical Research; Dr. Charles W. Stiles, chief of the division of zoology, United States Public Health and Marine Hospital Service, and discoverer of the American species of hookworm and of the prevalence of the disease in America; Dr. Edwin A. Alderman, president of the University of Virginia; Dr. David F. Houston, chancellor of Washington University, St. Louis, Mo.; Professor P. P. Claxton, professor of education in the University of Tennessee; J. Y. Joyner, State superintendent of education in North Carolina and president of the National Educational Association; Walter H. Page, editor of the *World's Work*; Dr. H. B. Frissell, principal Hampton Institute; Frederick T. Gates, one of Mr. Rockefeller's business managers; Starr J. Murphy, Mr. Rockefeller's counsel in benevolent matters; John D. Rockefeller, jr.

Benefactions of 1909.

The benefactions for the year 1909 totaled nearly \$135,000,000, surpassing the year 1908 by about \$75,000,000. This increase is due in part to the generally improved financial conditions, showing that the various givers (many new in the field of philanthropy) desire to share their wealth in a manner which silences criticism or jealousy.

Educational enterprises are beyond doubt the most popular avenue for the distribution of American fortunes—both Mr. Rockefeller and Mr. Carnegie directing their philanthropy in this direction, and as shown by the munificent bequests of John Stewart Kennedy. The care of dependent classes, orphans, sick cripples, blind and the aged attracts the next largest amount, while religious work, church donations and missions follow closely. Of course, practical religion enters into both educational work and the care of dependants, which fact sceptics are apt to overlook when they desire to criticize the church and refer to its decline.

The late John Stewart Kennedy was foremost in the list of the givers for the year, his benefactions amounting to \$30,000,000. Seven bequests of \$2,500,000 each, Columbia University, New York Public Library, Metropolitan Museum of Art, Presbyterian Home Missions, Presbyterian Foreign Missions, the Presbyterian Church Extension Fund, and the Presbyterian Hospital. Then follow four more of \$1,500,000 each, the Presbyterian Board of Aid for Colleges and Academies, the Presbyterian Church Extension, United Charities, and Robert College, Constantinople. Of three of \$750,000 each, one is to the American Bible Society, one to New York University, and one to the Charity Organization Society, and there are gifts of \$100,000 each to nine colleges, of \$50,000 each to ten colleges, and numerous smaller gifts to hospitals and beneficent agencies of various sorts.

Mr. Rockefeller followed in the list, his benefactions totaling \$13,702,000. On the occasion of his seventieth birthday Mr. Rockefeller added \$10,000,000 to the General Education Fund, contributed by him to this single purpose. His gifts to popular education in America now aggregate \$100,000,000, being exceeded only by those of Mr. Carnegie. A detailed account of his benefactions as far as can be learned from published reports of the year 1909 are as follows: General Education Fund, \$10,000,000; University of Chicago, \$1,177,000 (completing \$24,809,656.98 that Mr. Rockefeller has given to this institution); \$1,000,000 to fight the hookworm disease in the South; \$400,000 to the Bureau of Municipal Research; \$350,000 to the Anti-Saloon League; \$200,000 to the University Chicago Memorial Library; \$150,000 to the Sea Breeze Home at Coney Island (this amount was won from Mr. Rockefeller by the pictures of "Smiling Joe," a cheerful inmate whose pictures were widely disseminated); \$100,000 to the Fifth Avenue Baptist Church of New York City (Dr. Aked's Church); Grinnell College, \$100,000; Hamilton College, \$50,000; Brown University, \$25,000, and \$50,000 to construct a one-mile road at Tarrytown, N. Y., that will withstand the wear of automobiles. It is interesting to note in this connection that Mr. Rockefeller was the first person to use oil on roads for the laying of dust.

Andrew Carnegie dropped to the third place in the list of the year's benefactors. His gifts have taken the direction of helping smaller colleges, but the building of libraries has not been forgotten. Mr. Carnegie's generosity for the year just past is represented by the sum of \$6,392,686. The largest single amount was given to erect and equip a school of applied science in the city of Pittsburgh, the cost to be \$2,000,000. Mr. Carnegie's other benefactions were as follows: Leno Fund for France, \$1,000,000; \$380,186 to the City of New York for the Carnegie Library sites and equipments (this makes \$5,800,186.13 that Mr. Carnegie has already contributed for this purpose); \$500,000 to the University of Virginia; \$400,000 for the Bureau of Municipal Research of New York City; \$200,000 for the Industrial School of Shelbyville, Ky.; \$200,000 for Berea, Ky.; \$200,000 for Hamilton College for the "Ellihu Root Trust Fund," in recognition of Mr. Root's services as international peace maker; \$150,000 for Grinnell College; \$150,000 for a library at Honolulu, Hawaii; \$125,000 for Morris Brown College; \$125,000 for a library at Wellesley College; \$65,000 for Coe College, Cedar Rapids, Iowa; \$50,000 for Knox College; \$50,000 for the library at Howard University, \$40,000 for the library at Wells College; \$40,000 to James Fagan, an aged switchman of San Antonio, Tex., who worked for the Pennsylvania Railroad when Carnegie was its division superintendent; \$25,000 to Greensboro College, North Carolina; \$25,000 to Phillips Academy, Andover, Mass., and \$17,500 to Wilberforce University.

By the death of Mrs. Christopher L. Magee, of Pittsburgh, Pa. (widow of the prominent Pittsburgh politician and newspaper publisher), \$5,000,000 reverted to the city of Pittsburgh to found a hospital for women. The Magee mansion in Pittsburgh is to be turned into a home for the hospital nurses, and the hospital erected on the seven acres of ground which surrounds the mansion.

James Milliken, of Decatur, Ill., who died March 25, 1909, left \$2,400,000 to his native city. \$400,000 of this amount is apportioned to the James Milliken University, an institution already greatly indebted to its founder, and \$2,000,000 to hospitals and other institutions supported by the city.

By the will of Michael Valentine, a retired business man who died September 5, 1909, at Westchester, N. Y., his \$2,000,000 estate is left to hospitals, churches, the Peabody Home for Aged and Indigent Women in the Bronx, New York City, and the Hahneman and Presbyterian Hospitals, of the same place.

Miss Mary Rhinelander, of Mineola, L. I., who died August 12, 1909, bequeathed \$2,000,000 to various Episcopal charities. The foreign and domestic missionary societies come in for the greater portion of her estate, the New York Historical Society being well remembered, as well as a score of New York City churches and charities.

William Vilas, formerly United States Senator from Wisconsin, who died in October, 1909, willed the bulk of his estate, amounting to \$2,000,000, to the University of Wisconsin.

Mrs. Russell Sage's gifts for the past year extend to colleges, Young Men's Christian Associations, welfare work and general charities: \$350,000 for the Sailors' Young Men's Christian Association, in Brooklyn; \$300,000 for the Association for the Relief of Respectable Aged Females; \$300,000 to investigate the diseases of age and their prevention among the city poor on Blackwell's Island; \$150,000 for a music hall at Northfield, Mass.; \$125,000 for sociological work in the village of Sag Harbor; \$125,000 to the Pierpont High School; \$180,000 for the Sage Industrial Home at Lawrence, New York; \$50,000 for a Young Men's Christian Association Building at Fort Slocum; \$50,000 to Syracuse University for an endowment fund for its teachers; \$50,000 for a park and playground at Sag Harbor; \$25,000 to the Martha Berry School for Boys, near Rome, Ga.; \$25,000 to the Industrial School for Negroes at Shelbyville, Ky.; \$25,000 to Berea College, and \$10,000 to the Woman's Exchange of New York City and \$175,000 additional in bequests to various charities and institutions, making the year's total \$1,965,000.

Charles M. Pratt, son of the founder of Pratt Institute in Brooklyn, and now its head, in conjunction

BENEFACTIONS OF 1909—Continued.

with his five brothers and sister, has endowed Pratt Institute with \$1,700,000. This sum is the largest gift which has been made to the institution since Charles Pratt, the founder, donated \$2,000,000 twenty-two years ago to found the institute.

Miss Elizabeth Brigham (sister of the late Robert Brigham, of Boston), who died May, 1909, left \$1,500,000 to the Robert Brigham Hospital for Incurables. For the founding and maintenance of this institution, Robert Brigham left his large fortune.

Harry Samuel Henry, of Philadelphia, Pa. (died June, 1909), left his entire estate of \$1,500,000 to be divided among five Philadelphia hospitals.

Mrs. William K. Vanderbilt has shown her sympathy for suffering humanity by donating \$1,500,000 as follows: \$1,000,000 for the erection of sanitary tenements for the use of tubercular families and \$500,000 to further the work of the Home for Child Cripples at Chappaqua, N. Y.

Mrs. Josephine Louise Newcomb, of New York City, bequeathed \$1,500,000 to the Sophie Newcomb Memorial College for the Young Women of New Orleans. This bequest is in memory of her fifteen-year-old daughter.

J. Pierpont Morgan is the largest donor to the art of New York City, his known gifts to this cause during the last year reaching \$1,000,000. There is now an entire wing in the Metropolitan Museum of Art of New York City for the accommodation of the valuable gifts that Mr. Morgan has recently made to it.

Daniel K. Pearson, of Hinsdale, Ill., already noted for his benefactions to small colleges, announces that he will devote the remainder of this year to distribute among the various educational and philanthropic institutions of his city his last million dollars. This will round out the sum that he had always intended for Chicago, leaving him a relatively poor man when he celebrates his ninetieth birthday on April 14, 1910.

Eugene Tompkins, president of the Academy of Music in New York, and part owner of the Boston Theatre, Boston, left an estate of \$1,000,000. On the death of Mrs. Tompkins this money is to be used for charitable purposes in the city of Boston and to the Perkins Institute for the Blind in the same city, the sums to each varying from \$5,000 to \$10,000.

Lewis A. Helsenheimer, of the firm of Kuhn, Loeb & Co, who died in January, 1909, left by will bequests of \$1,000,000 to Hebrew benevolent institutions of New York City. The institutions benefited are Mount Sinai Hospital, the Hebrew Benevolent Orphan Asylum Society, the Montefiore Home for Chronic Invalids, the Educational Alliance, the Home for Aged and Infirm Hebrews and the United Hebrew Charities, and which, by the terms of Mr. Helsenheimer's will, would be compelled to merge. These institutions refused to accede to this request, and for a time it seemed as if the donor's generosity would be unavailable. Alfred Helsenheimer, however, practically donated \$1,000,000 from the fortune he inherited to the charities his father wished to endow, settling any controversies which might arise.

John D. Archbold, of the Standard Oil Company, has presented to Syracuse University, Syracuse, N. Y., \$1,000,000 in various gifts during the last year.

William G. Park, of Pittsburgh, Pa., who died January, 1909, bequeathed \$1,000,000 of his estate to the furtherance of philanthropic work in conjunction with Trinity Church, Pittsburgh, Pa.

By the will of George C. Thomas, former head of Drexel & Co., of Philadelphia, \$1,000,000 is distributed among Episcopal Church institutions, hospitals and charities; \$165,000 is to be devoted to domestic and foreign missions.

An institution along the lines of Girard College is provided for in the will of Charles E. Ellis, the street car millionaire of Philadelphia. \$1,000,000 is to be used for this college to be known as the Charles E. Ellis College, for the education of fatherless girls.

Edward Ginn, the publisher, of Boston, Mass., provided by will that on his death \$1,000,000 shall become available for the cause of Universal Peace. (Mr. Ginn contributes annually to the peace cause \$50,000 additional).

By the death of J. A. Barnett, of McAlester, Okla., his estate, amounting to \$1,000,000, is to be divided among various churches and institutions of McAlester.

By the will of Mrs. Franziska Speyer, widow of George Speyer, banker, between \$8,000,000 and \$10,000,000 were left for benevolent purposes. The gifts include \$1,000,000 to the Frankfort Academy of Social and Commercial Science, and \$1,000,000 for the furtherance of the research into the subject of cancer and lupus. Large sums were left to a long list of institutions, among these being societies for the aid of actors, orchestra musicians, journalists and artists.

The last of the million dollar benefactors is nameless. This amount has been offered by a New Yorker who has asked the advice of the State Board of Charities as to the charity which needs it most. His identity is concealed to protect him from begging letters.

Mrs. Sarah Todd, of Carlisle, Pa., heads the list of benefactors between \$100,000 and \$1,000,000. Mrs. Todd died in October, 1909, bequeathing \$750,000 to her native place, Carlisle, for the erection and maintenance of an old woman's home.

John Wallace, a stock broker of New York (died September 18, 1909), left \$750,000 in trust for the Cathedral of St. John the Divine of that city.

By the will of Levi I. Shoemaker, of Wilkes-Barre, Pa. (died October, 1909), Yale University receives \$500,000 to be used in the Medical Department of this institution.

Senator George T. Oliver, of Pittsburgh, Pa., has given \$500,000 to endow a Pension Fund for Pittsburgh School Teachers. Mr. Oliver was averse to his name being made public, but in some way it was divulged.

Sebastian D. Lawrence, of New Haven, Ct., left by will \$500,000 to support and improve the hospitals and city charities of New Haven.

One of the most gracious gifts of the year is accredited to Miss Helen Frick, daughter of Henry C. Frick, of Pittsburgh. On the occasion of Miss Frick's presentation to society her father told her she could have as a gift whatever her fancy dictated. In place of strings of pearls or diamond tiaras, Miss Frick asked for \$500,000 to purchase a playground for the poor children of Pittsburgh. Her request was granted, and another breathing spot exists in her native city bearing her name.

Ervin Saunders, of Yonkers, N. Y., willed \$525,000 to the Yonkers Hospital and the Maternity Hospital of his native place.

Col. R. M. Thompson, of New York City, expended \$500,000 for the restoration of old Fort Ticonderoga, on the shore of Lake Champlain. His daughter, Mrs. H. P. Pell, was the prime mover in the work, but the money was furnished by her father. It was due to Mr. Thompson's gift that the Champlain Tercentenary was made possible.

Alfred D. Remington, paper manufacturer (died March, 1909), left \$500,000 for the establishment and maintenance of a school in Watertown, Ct., to be known as the Remington Institute.

William G. Proctor enriched Princeton University during the year by a \$500,000 gift.

Mrs. Elizabeth F. Noble, of Mansfield, Mass., bequeathed \$500,000 to various humane and anti-vivisection societies throughout the State.

Susan Francis Hemenway, of Terra Haute, Ind., enriched the Rose Polytechnic Institute of Indiana by a gift of \$500,000. This institution was founded by Mrs. Hemenway's father.

The City of Utica, New York, was presented with two parks by a private citizen, the value of the gift being \$500,000.

George Eastman, head of the Eastman Kodak Co., has given to Rochester hospitals \$500,000, the money to be used for the construction of new buildings.

BENEFACTORS OF 1909—Continued.

Wm. D. Sloane and Henry T. Sloane, of New York City, have jointly contributed \$425,000 for a new laboratory at Yale University. This makes a total of \$750,000 given by the Sloane family to Yale during the last year. Also to Columbia University, \$150,000, by William D. Sloane.

Under the terms of the will of Mrs. Sarah Morris (widow of Nelson Morris, the Chicago Packing House magnate), who was killed by an automobile accident in France, September, 1909, \$400,000 were bequeathed to Chicago charitable institutions. The principal gift of \$300,000 is to be used for the erection of a convalescent home for children in memory of her husband and herself.

Jacob Schiff, the New York banker, has given \$400,000 for various Hebrew institutions during the year. \$200,000 are to be used for the establishment of normal schools for the training of Jewish Sunday School Teachers, one to be located in Cincinnati, the other in New York; \$100,000 for a Technical College at Haifa, Palestine; the Tissot collection of Old Testament Paintings, valued at \$37,000, to the Public Library and \$63,000 in smaller gifts to orphanages, hospitals and synagogues.

Miss Caroline Phelps Stokes, daughter of the late James Stokes, of New York, who died April 26, 1909, at Redlands, Cal., makes specific bequests of \$300,000 to charity and educational institutions. The residue of the estate she directs to be made into what is to be known as the "Phelps-Stokes Fund," to be used for the erection of tenement house dwellings in New York City and for the education of negroes in Africa and the United States, the North American Indians and needy and deserving white students through schools similar to those at Northfield, Mass., or the Peek Industrial School at Asheville, N. C.

Robert M. Bruce, of Greenwich, Ct., bequeathed to his native town \$300,000, a beautiful park of one hundred acres worth \$200,000, a house worth \$50,000, and \$50,000 in money. The house, which was Mr. Bruce's late residence, it is stipulated shall be used as a museum of history, natural history and art.

The late Otto S. A. Sprague, of Chicago, directed the disposal of \$300,000 at his death to the American Sunday School Union and four charitable institutions of Chicago.

Mrs. Eva Smith Cochran, widow of Wm. F. Cochran and sister of Warren B. Smith, the millionaire carpet manufacturer of Yonkers, directed by her will that \$300,000 be distributed among the mill hands of the carpet factory. Mrs. Cochran gave many millions to the philanthropic work of the city of Yonkers.

A quarter of a million dollars was left to charity by the will of Mrs. Margaret J. P. Graves, widow of Henry B. Plant, railroad and steamship man. Hospitals and New York City charities are remembered, a gratifying feature of Mrs. Graves's bequests being that Catholic, Protestant and Hebrew churches and hospitals were equally remembered.

Mrs. Samuel Mather (sister of Mrs. John Hay), who died in Cleveland, Ohio, January, 1909, bequeathed \$250,000 to churches and colleges; \$75,000 to the Western Reserve College for a memorial chapel and the remainder to the College of Women of Western Reserve, Tuskegee Institute, Hampton Institute and the Young Men's Christian Association of Cleveland.

Benjamin N. Duke, the tobacco magnate, has enriched Trinity College at Greensboro, N. C., by \$250,000, to be used for the erection of new buildings and the support of five new teachers.

Joseph Fels, of Philadelphia, an ardent follower of Henry George, has pledged \$250,000 for a spirited campaign of his system of single tax throughout the United States and England.

Gifts aggregating \$250,000 were received by the death of George M. Laughlin, of Pittsburgh, Pa. Of this sum \$100,000 goes to the Washington and Jefferson College and the remaining \$150,000 divided among Pittsburgh hospitals and the Young Men's Christian Association.

By the donation of a plot of land on Washington Heights, New York City, valued at \$250,000, Mrs. Collis P. Huntington has made it possible for New York City to have a handsome new Geographical Society Building (Mrs. Huntington's son has given \$50,000 to the same cause).

The will of Jane Gibson Phelps, widow of Anson G. Phelps, Jr., of Tarrytown, N. Y., disposes of \$250,000 to Tarrytown and New York City churches and hospitals.

Public bequests amounting to \$240,000 are provided in the will of William B. Rice, of Quincy, Mass., a wealthy shoe manufacturer; \$200,000 of this sum is for the establishment of some charitable institution to bear Mr. Rice's name, \$20,000 to the Quincy City Hospital and \$20,000 to the town of Hudson.

Mrs. Hester McGarren, of New York City (died June 28, 1909), directed that \$200,000 should be divided equally between the Society for the Prevention of Cruelty to Children and the Society for the Prevention of Cruelty to Animals, of New York.

Mrs. Edith Rockefeller McCormick has contributed \$200,000 toward the construction of a miniature Venice, in Lake Michigan, off Lake Forest, Ill. The City of Lake Forest is expected to appropriate a certain sum, Mrs. McCormick offering \$1,000,000 if other citizens raise an equal amount.

John W. Gates has donated \$150,000 for the erection of a hospital at Port Arthur, Tex., to be known as the Mary Gates Hospital, in memory of his mother.

By the will of Phoebe Anna Thorne, of New York City, who died August 25, 1909, \$150,000 reverts to various hospitals of New York, the American Museum of Natural History and the New York Zoological Society.

Miss Helen Gould has given \$150,000 to the American College for Girls at Constantinople, Turkey. H. W. Carpenter, of New York City (Columbia University, class of 1848), added \$112,500 to the J. St. Carpenter Fund of this university.

Alfred G. Vanderbilt is erecting as a memorial to his father, Cornelius Vanderbilt, a magnificent new home for the Young Men's Christian Association at Newport, R. I. The amount given for this purpose is \$110,000.

Elizabeth Plankington, of Milwaukee, Wis., has given \$110,000 to that city; \$100,000 is to be used by the Young Women's Christian Association and \$10,000 for a new organ in the Milwaukee Auditorium. William W. Smith, of Poughkeepsie, N. Y., made a gift of \$265,000 to the Young Men's Christian Association.

Mrs. Jothan Conant, of Newark, N. J., left to various institutions of her native city \$105,000. By the will of Alonzo B. Daggett the Central New York Society for the Prevention of Cruelty to Animals is benefited by a bequest of \$101,000.

Frank J. Walgering, of New York City, willed his estate of \$100,000 to various churches and hospitals of that city.

Rev. N. Hickey (Father Hickey), who died October 12, 1909, made his Church at Orange, N. J. (St. John's Roman Catholic Church), beneficiary of his estate of \$100,000.

By the terms of the will of Sigismund Neustadt, father-in-law of Mortimer L. Schiff, \$100,000 is left for benevolent purposes to be distributed by his widow, Mrs. Agnes Neustadt.

James J. Jarvie, the multi-millionaire of Montclair, N. J., celebrated the anniversary of his marriage by gifts of \$100,000 to hospitals, schools and local charities of Montclair.

William H. Ewbanks, an aged philanthropist of Flushing, N. Y., finding the care of his property burdensome, has handed over his realty holdings, amounting to \$100,000, to St. George's Church, Flushing, the church to give Mr. Ewbanks the interest therefrom.

An estate worth \$100,000 passed to Harvard College under the will of Dr. Frank W. Draper, formerly medical examiner of Suffolk County, N. Y.

Princeton University is the beneficiary to the extent of \$100,000 under the will of C. Cuyler, who died in Biarritz, France, July, 1909.

Joseph Wharton, the iron master of Philadelphia, Pa. (died January, 1909), directed that \$100,000 should be given to Swarthmore College, for the completion of a dormitory already endowed by Mr. Wharton.

BENEFACTORS OF 1909.—Continued.

Ex-Secretary of State Henry C. Kelsey has donated \$100,000 to the school of Industrial Arts, of Trenton, N. J., as a memorial to the late Mrs. Kelsey.

Mrs. Morris K. Jesup, of New York, has given \$100,000 to Yale University, to establish a Morris K. Jesup professorship in the Yale Forestry School.

Henry H. Rogers, the Standard Oil magnate, left the city of Fair Haven, Mass., \$100,000.

Judge E. H. Gary, of the United States Steel Corporation, has given \$100,000 to the city of Gary, Indiana, for the erection of a Young Men's Christian Association Building.

Cleveland H. Dodge, of New York, has made Princeton University the recipient of \$100,000, to be used toward the endowment of Guyot Hall.

Gifts ranging from \$10,000 to \$100,000 are as follows:

Ex-Governor Benjamin E. Odell has given \$75,000 for a consumptive home at Newburgh, N. Y.; Emma D. Cummings (deceased) left \$75,000 to New York City charities; Frederick W. Vanderbilt donated \$75,000 to the Sheffield Scientific School at Yale; Mrs. Maria C. Taylor (deceased) bequeathed \$55,000 to various New York City hospitals; Charles R. Gregory of St. Louis, Mo., who died in France, March, 1909, left \$60,000; \$50,000 to the St. Louis Museum of Fine Arts and \$10,000 to the Public School Library; Frank G. Thompson contributed \$50,000 to Harvard University for the Department of History; Wm. H. Vanderbilt subscribed \$50,000 to the New Theatre, New York City; Dr. Huntington, ex-Rector of Grace Church, New York City, left \$50,000 to funds of his church; Welcome G. Hitchcock (deceased) left by will \$41,000 to erect a memorial church at Hartsdale, N. Y.; Mrs. Emily Gere bequeathed \$40,000 to the St. Rose Home, New York City; Peter Quackenbush of Paterson, N. J., gave \$40,000 for a nurses' home in conjunction with the General Hospital of Paterson, and Mrs. Gertrude M. Hubbard left \$50,000 to the Clarke Institute for the Deaf at Northampton, Mass.

William V. Lawrence, of New York, donated \$150,000 to Lawrence Hospital at Bronxville, N. Y.

Philip Lehman gave \$40,000 for a home for poor children at Oakhurst, N. J.; James Patten (the Wheat King) contributed \$40,000 for the Hospital at Evanston, Ill.; Mrs. Keth Spalding, \$40,000 for a sanitarium at Naperville, Ill.; Mrs. David Dowes (deceased) left \$37,500 to New York City charities; Miss Jane Prindell (deceased), \$37,500 for hospitals in Baltimore, New York City and Orange, N. J.; Rutherford Stuyvesant, of New York City, by will left \$30,000 to the Metropolitan Museum of Art and St. Mark's Episcopal Church of New York City.

Mrs. Sophia A. Brown (widow of John Nicholas Brown) enriched Newport, R. I., institutions by a bequest of \$25,000; Mrs. Margaret E. Langdell left \$25,000 for two scholarships in Harvard Law Schools; D. L. Einstein, of New York, (deceased), requested his widow to dispense \$25,000 in charity as she thought best; Ernest Ehrmann willed \$25,000 to four Hebrew charities of New York City; Mrs. Lucy Butters left by will \$25,000 to Oakland, Cal., hospitals; Mrs. Lizzie Campbell (deceased) willed \$25,000 to the New York City Foundling Hospitals; Miss Josephine Wolff, of Walla Walla, Wash., distributed at her death \$25,000 to local institutions; Caleb Camp (deceased), of Winsted, Ct., directed that \$25,000 be given to the needy women of Winsted; Mrs. Henrietta Bausch, of Rochester, N. Y., bequeathed \$25,000 to hospitals in her native city; Charles Mayer (died in New York) left \$25,000 to Jewish charities and his employees; Israel L. Prager also directed \$20,000 to the same cause; Mrs. Harriet McDonough willed \$20,000 to charity distribution; Isabel Fowler (deceased) left \$15,000 to the Pillsbury Hospital of Concord, N.H.; Adolf Schefter, of New York City, at his death willed \$15,000 to Jewish charities of New York; Mrs. Adeline Kent, of Kentfield, Cal., donated \$12,500 to her home town for a club house; Dr. Martin H. Boyer willed \$12,000 to the University of Pennsylvania Hospital; Louis Josephthal left \$11,000 to New York City Hebrew charities; Mrs. Louisa Mulford, of New York, (deceased), willed \$11,000 for a Church at Mulford, New Jersey; Robert Taller offered to Richfield Springs, N. Y., \$10,000 for a local school; and an additional \$50,000 was given in small sums to divers institutions and charities by a score of others.

Emanuel Einstein left \$10,000 to the Home for Aged and Infirm Hebrews; \$10,000 to the United Hebrew Charities; \$5,000 to the Montefiore Home for Chronic Invalids; \$10,000 to the Mount Sinai Hospital, and \$5,000 to the Educational Alliance of New York.

Exclusive of the above amounts, various colleges announce gifts as follows: The University of California, \$1,400,000 from the estate of the late Theodore Kearney; Princeton University, \$1,169,410; Columbia University, \$1,333,962; Washington, \$1,000,000; Johns Hopkins, \$1,000,000; Wesleyan, \$1,000,000; Yale, \$1,400,455; Bowdoin, \$550,000; Worcester College, \$500,000; Ohio Mechanics' Institute of Cincinnati, \$500,000 (Gift of Mrs. Mary M. Emory); Grinnell College, \$500,000; University of Virginia, \$500,000; McAlister College, \$450,000; Western Reserve College, \$375,000; Bryn Mawr, \$300,000; Morningside College, \$250,000; Baptist College (Redlands, Cal.), \$200,000; Lehigh, \$200,000; Western Women's College, \$200,000; Constant College, \$200,000; Howard University, \$162,000; University of Pittsburgh, \$108,000; Andover College, \$100,000; Amherst, \$100,000; Chicago Theological Seminary, \$100,000; Union College, \$100,000; Roanoke College, \$100,000; Greensboro, N. C., \$100,000; Exeter, N. H., \$100,000; Haverford, \$100,000; Middlebury, Vt., \$100,000; University of Minnesota, \$50,000 from Thomas Shevlin; Wells, \$50,000; Canton University, \$50,000; Christian College, \$50,000; Dartmouth, \$50,000 (from Stephen M. Crosby); Wellesley, \$50,000; Berea College, \$50,000; the Telluride Co. (a Western corporation) is erecting a \$50,000 dormitory on Cascadilla Creek, near Cornell University; Eastern College, Va., \$40,000; Illinois Wesleyan, \$30,000; Brown University, \$25,000; Morris Brown University, \$25,000; Northwestern, \$25,000; Kirk Patrick College, \$20,000; the Southern College of Idaho, \$20,000; Eureka College, \$20,000; the Wilberforce College, \$18,000; University of Buffalo, \$15,000; Lombard College, \$12,000; St. Joseph's College, Dubuque, Iowa, \$7,000; Seton Hall, N. J., \$7,000, and the University of Vermont, \$5,000, making a total of \$14,843,827.

The following additional gifts for the year are also reported: The Methodists have raised for the Methodist Episcopal Foundation Fund Association \$2,000,000; the Baptists have contributed \$1,500,000 for missionary work; the Academy of Rome has acquired \$1,000,000 through the generosity of ten American millionaires; \$901,131 was sent to Messina, Italy, by the American people for earthquake relief; the Disciples of Christ raised \$700,000 for the endowment of Bethany College; \$500,000 was contributed by Harvard Alumni as a testimonial gift to Dr. Eliot upon his retirement; \$500,000 has been collected by the International Sunshine Society for a Blind Babies' Home at Summit, N. J.; Johns Hopkins University announces an additional \$500,000 from Henry Phipps for the study of insanity; the Knights of Columbus have endowed the Catholic University at Washington, D. C., with a gift of \$500,000; Young Men's Christian Association, at Oakland, Cal., valued at \$225,000; Presbyterian churches in New York City collected \$166,000 for mission; New Beth Israel Hospital, for New York City, \$160,000; Sea Breeze Home, Coney Island, N. Y., \$150,000; Newark, N. J., Young Men's Christian Association Building, \$125,000; Fifth Avenue Baptist Church, New York City, \$125,000; Young Men's Christian Association of Milwaukee, Wis., \$110,000; Young Men's Christian Association at Birmingham, Alabama, \$100,000; the Montefiore Home of New York City, \$100,000; Neurological Hospital, New York City, \$100,000; Jewish Maternity Hospital, New York, \$80,000; Institution for the Improved Instruction of Deaf Mutes, New York City, \$75,000; Los Angeles Orphan Asylum, \$75,000; Christian Alliance Missions, \$64,000; Free Synagogue for New York City, \$50,000; Brooklyn Central Labor Union for a Home for Consumptives, \$50,000, and gifts in sums ranging from \$100 to \$10,000, aggregating \$250,000.

Marriage and Divorce Laws.

(Revised to December 1, 1909.)

Marriage Licenses.—Required in all the States and Territories except Alaska, New Jersey (if residents, otherwise required), New Mexico and South Carolina. California requires man and woman to appear and be examined under oath.

Marriage, Prohibition of.—Marriages between whites and persons of negro descent are prohibited and punishable in Alabama, Arizona, Arkansas, California, Colorado, Delaware, Florida, Georgia, Idaho, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Virginia, and West Virginia.

Marriages between whites and Indians are void in Arizona, North Carolina, Oregon; and South Carolina; and between whites and Chinese in Arizona, California, Mississippi, Oregon, and Utah.

Marriage between first cousins is forbidden in Alaska, Arizona, Arkansas, Illinois, Indiana, Kansas, Missouri, Nevada, New Hampshire, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Washington, and Wyoming, and in some of them is declared incestuous and void, and marriage with step-relatives is forbidden in all the States except Florida, Hawaiian Islands, Iowa, Kentucky, Minnesota, New York, Tennessee, Wisconsin.

Connecticut and Minnesota prohibit the marriage of an epileptic, imbecile, or feeble-minded woman under 45 years of age, or cohabitation by any male of this description with a woman under 45 years of age, and marriage of lunatics is void in the District of Columbia, Kentucky, Maine, Massachusetts, Nebraska; persons having sexual diseases in Michigan.

STATES.	Residence Required.	Causes for Absolute Divorce. <i>In addition to adultery, which is cause for divorce in all the States.*</i>

West Virginia (cont.)		marriage unknown to other. The marriage may be annulled for the following causes existing at the time of the marriage: Former existing marriage, consanguinity, insanity, physical incapacity, miscegenation, want of age.	
Wisconsin....	1 year.	Felony, desertion one year, cruelty, physical incapacity, habitual drunkenness one year, separation five years. In the discretion of the Court for cruelty or neglect to provide. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age, or understanding, consanguinity, force or fraud inducing marriage, where marriage was contracted with former marriage existing the second marriage is void without any divorce proceedings.	
Wyoming....	1 year.	Felony, desertion one year, habitual drunkenness, cruelty, neglect to provide one year, husband a vagrant, physical incapacity, indignities rendering condition intolerable, pregnancy of wife by other than husband at marriage, either party convicted of felony before marriage unknown to other. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age, force or fraud. The marriage is void without divorce proceedings, consanguinity, insanity, former existing marriage.	

*Exclusive of South Carolina, which has no divorce law.

(From Census Bulletin 96, Department of Commerce and Labor.)

THE Bureau of the Census has just completed a compilation of the statistics of marriage and divorce covering a period of twenty years from 1887 to 1906, inclusive. The total number of marriages recorded during the twenty years from 1887 to 1906, inclusive, was 12,832,044. The number annually reported increased from 483,069 in the year 1887 to 853,290 in the year 1906. The increase year by year was by no means uniform. The marriage rate is quickly responsive to changes in economic conditions. A small increase shown for 1893 and an actual decrease in the succeeding year reflect the influence of the panic of 1892, and normal conditions do not appear to have been restored in the matrimonial market until the year 1899. It is computed that if the average annual increase in marriages during the five years ending with 1892 had continued for the next six years, the aggregate number of marriages contracted during the latter period would have been greater than it was by 259,813. It is to be presumed that a considerable number of persons in this large total never contracted marriage.

The number of divorces reported for each State in each twenty-year period and the divorce rate in 1880 and 1900, based on a five-year average, were as follows:

STATE OR TERRITORY.	Total Divorces Granted.		Divorce Rate Per 100,000 Population.*	STATE OR TERRITORY.	Total Divorces Granted.		Divorce Rate Per 100,000 Population.*
	1887 to 1906.	1867 to 1886.			1887 to 1900.	1867 to 1886.

*Based on the annual average of divorce for the five-year period of which the census year is the median year. †All laws permitting divorce were repealed in 1878.

‡Organized from part of Dakota Territory, November 2, 1889. Divorces granted in the counties then comprising Dakota Territory are distributed between North Dakota and South Dakota, according as the counties are now located in one or the other of these States.

Wills.

A WILL OR TESTAMENT is a final disposition of a person's property to take effect after his death. A **codicil** is an addition or alteration in such disposition. All persons are competent to make a will except idiots, persons of unsound mind, and infants. In many States a will of an unmarried woman is deemed revoked by her subsequent marriage. A nuncupative or unwritten will is one made orally by a soldier in active service, or by a mariner while at sea.

In most of the States a will must be in writing, signed by the testator, or by some person in his presence, and by his direction, and attested by witnesses, who must subscribe their names thereto in the presence of the testator. The form of wording a will is immaterial as long as its intent is clear.

AGE at which persons may make wills is in most of the States 21 years. Males and females are competent to make wills at 18 years in the following States: California, Connecticut, Hawaiian Islands, Idaho, Montana, Nevada, North Dakota, Oklahoma, South Dakota, Utah; and in the following States only females at 18 years: Colorado, District of Columbia, Illinois, Maryland, Missouri, Washington, Wisconsin.

In the following States persons of 18 years may dispose of personal property only: Alabama, Arkansas, Missouri, Oregon, Rhode Island, Virginia, West Virginia; in Georgia any one over 14 years and in Louisiana any one over 16 years is competent to make a will. In Colorado persons of 17 years, and in New York males of 18 and females of 16 years may dispose of personalty. **WITNESSES**—Most of the States require two witnesses, except in Connecticut (3), Maine (3), Massachusetts (3), New Hampshire (3), South Carolina (3), Vermont (3).

Acknowledgment of Deeds.

AN ACKNOWLEDGMENT is the act of declaring the execution of an instrument before an officer authorized to certify to such declaration. The officer certifies to the fact of such declaration, and to his knowledge of the person so declaring. Conveyances or deeds of land to be entitled to be recorded must first be acknowledged before a proper officer. Most of the States have forms of acknowledgments, which should be followed.

Acknowledgments may be taken in general by Notaries Public, Justices of the Peace, Judges or Clerks of Courts of the higher grades, Registers, Masters in Chancery, Court Commissioners, Town Clerks, Mayor and Clerks of incorporated cities, within their respective jurisdictions.

The requisites to a valid deed are the same in general as other contracts, but the appointment of an attorney to execute a deed for another person must in general be executed with the same formalities requisite to the deed itself.

SEALS or their equivalent (or whatever is intended as such) are necessary in Alaska, Connecticut, Delaware, District of Columbia, Florida, Idaho, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, Wyoming. In almost all the States deeds by corporations must be under seal. **FORMS** are prescribed or indicated by the statutes of most of the States except Connecticut, Florida, Louisiana. **SEPARATE ACKNOWLEDGMENT** by wife is required in Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Idaho, Kentucky, Louisiana, Montana, Nevada, New Jersey, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Texas. **ONE WITNESS** to the execution of deeds is required in District of Columbia, Maine (customary), Maryland, Nebraska, New Jersey (usual), Oklahoma, Utah, Wyoming. **TWO WITNESSES** to the execution of deeds are required in Arkansas, Connecticut, Florida, Georgia, Louisiana, Michigan, Minnesota, New Hampshire, Ohio, Oregon, South Carolina, Texas, Vermont, Wisconsin.

Promissory Notes and Checks.

Negotiable instruments, the common forms of which are promissory notes, checks, or other bills of exchange, while having the same general requisites as other contracts, have certain distinct features. The purpose of the law is to facilitate as much as possible their free passing from hand to hand like currency. The assignment of an ordinary contract leaves the assignee in no different position for enforcing his rights than that of his assignor, but one who takes a negotiable instrument from a prior holder, without knowledge of any defences to it, before its maturity, and gives value for it, holds it free of any defences which might have been set up against his predecessors, except those defects that were inherent in the instrument itself.

To be negotiable an instrument must be in writing and signed by the maker (of a note) or drawer (of a bill or check).

It must contain an unconditional promise or order to pay a sum certain in money.

Must be payable on demand, or at a fixed future time.

Must be payable to order or to bearer.

In a bill of exchange (check) the party directed to pay must be reasonably certain.

Every negotiable instrument is presumed to have been issued for a valuable consideration, and want of consideration in the creation of the instrument is not a defence against a bona-fide holder.

An instrument is negotiated, that is completely transferred, so as to vest title in the purchaser, if payable to bearer, or indorsed simply with the name of the last holder, by mere delivery, if payable to order by the indorsement of the party to whom it is payable and delivery.

One who transfers an instrument by indorsement warrants to every subsequent holder that the instrument is genuine, that he has title to it, and that if not paid by the party primarily liable at maturity, he will pay it upon receiving due notice of non-payment.

To hold an indorser liable the holder upon its non-payment at maturity must give prompt notice of such non-payment to the indorser and that the holder looks to the indorser for payment. Such notice should be sent within twenty-four hours.

When an indorser is thus compelled to pay he may hold prior parties through whom he received the instrument liable to him by sending them prompt notice of non-payment upon receiving such notice from the holder.

One who transfers a negotiable instrument by delivery, without indorsing it, simply warrants that the instrument is genuine, that he has title to it, and knows of no defence to it, but does not agree to pay it if unpaid at maturity.

The maker of a note is liable to pay it if unpaid at maturity without any notice from the holder or indorser.

Notice to one of several partners is sufficient notice to all.

When a check is certified by a bank the bank becomes primarily liable to pay it without notice of its non-payment, and when the holder of a check thus obtains its certification by the bank, the

PROMISSORY NOTES AND CHECKS—Continued.

drawer of the check and previous indorsers are released from liability, and the holder looks to the bank for payment.

A **bona-fide holder** of a negotiable instrument, that is, a party who takes an instrument regular on its face, before its maturity, pays value for it and has no knowledge of any defences to it, is entitled to hold the party primarily liable responsible for its payment, despite any defences he may have against the party to whom he gave it, except such as rendered the instrument void in its inception. Thus, if the maker of a note received no value for it, or was induced to issue it through fraud or imposition, they do not defeat the right of a bona-fide holder to compel its payment from him.

The following States have enacted a similar Negotiable Instrument law: Colorado, Connecticut, District of Columbia, Florida, Maryland, Massachusetts, North Carolina, North Dakota, Pennsylvania, Oregon, Rhode Island, Utah, Virginia, Washington, Wisconsin, New York, and Tennessee—and the same general rules apply in all the States.

Distribution of Intestate's Personal Estate.

THE following is a synopsis of the laws of the various States providing for the distribution of the personal estate of a deceased after the payment of funeral expenses and other debts where there is no will:

In many of the States the widow and children are entitled to receive a small portion of the estate, generally varying from \$100 to \$500, before the claims of creditors are paid. Aside from such exempt portion of the estate, the property to be distributed to the widow or relatives is that remaining after all creditors' claims have been satisfied.

The following is the plan of distribution of a male's property. The same rules apply to a female's estate, except in some States, where the rights of a husband in the estate of his deceased wife differ from those of a wife in the estate of her deceased husband, which will be shown in a separate table.

I. In all States where the deceased leaves a child or children, or descendants of any deceased child, and no widow, the children or descendants take the entire estate, to the exclusion of all other relatives. The children take equal shares, and in most States the descendants of a deceased child together take the share of their parent, except where the descendants are all in equal degree to the deceased (all grandchildren, no children surviving), when they share equally and do not take their proportionate share of their parent's interest.

No statement is given in this synopsis of the law of Louisiana, which, being founded on the provisions of the French code and Roman law instead of the English common law, which is the underlying principle in the other States, differs in many respects from the principles followed in the other States, especially on the question of the rights of a husband and wife in each other's property and in the property acquired by the husband and wife during their married life. The provisions of the law of Indiana are also not included, for the reason that for an accurate statement of its provisions a reading of the entire statute is necessary, together with the decisions of the Indiana courts construing its provisions, which would occupy too much space for a statement here.

II. (a) If deceased leaves a widow, and no children or descendants, the widow takes all. This is the rule in Alabama, Arizona, Colorado, Florida, Georgia, Illinois, Kansas, Minnesota, Mississippi, New Mexico, Ohio, Oregon, Tennessee, Texas, Washington, West Virginia, and Wisconsin.

(b) In the following States the widow takes one-half, the residue being taken by the other relatives in the manner and proportion in which they take the entire estate when the deceased leaves neither widow or descendants (given below): Arkansas, California, Delaware, District of Columbia, Idaho, Iowa, Kentucky, Maine, Maryland, Missouri, Montana, Nevada, New Jersey, North Carolina, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, and Virginia.

(c) In Massachusetts, North Dakota, and Utah the widow takes the entire estate up to \$5,000 and one-half of the residue.

(d) In Connecticut and Vermont the widow takes the entire estate up to \$2,000 and one-half the residue.

(e) In New York, in case deceased leaves a father surviving, the widow takes one-half; if no father surviving, the widow takes one-half and \$2,000 in addition.

(f) In New Hampshire the widow takes \$1,500, and, if the estate exceeds \$3,000, one-half of the residue.

(g) In Wyoming the widow takes the entire estate up to \$10,000 and three-fourths of the residue.

(h) In Nebraska the widow takes the use of the entire estate for her life.

(i) In Michigan the widow takes the entire estate up to \$3,000 and one-half of the residue.

III. (a) When the deceased leaves a widow and children, or descendants, the widow takes one-third and the children share equally in the residue in the following States: Arizona, Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Ohio (one-half if less than \$400), Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia, and West Virginia.

(b) In the following States, if there be but one child, the widow takes one-half and the child one-half; if two or more children or their descendants, the widow takes one-third, as above, and the children or their descendants the residue: California, Florida, Idaho, Michigan, Montana, Nevada, North Dakota, Oklahoma, South Dakota, and Utah.

(c) In the following States the widow takes one-half and the children, or descendants, the residue: Colorado, Kansas, Kentucky, Oregon, Washington, and Wyoming.

(d) In the following States the widow takes the same share as each of the children: Mississippi, Missouri, Nebraska, Tennessee, and Wisconsin.

(e) In North Carolina, if there are less than three children, the widow takes one-

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE—Continued.

third and the children the residue; if there are three or more children, the widow takes the same share as each of the children.

(f) In Alabama, if there is but one child, the widow takes one-half and the child one-half; if there are more than one child and less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(g) In Georgia, if there are less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(h) In New Mexico, the widow takes one-half of the estate acquired during marriage, otherwise than by gift (by purchase, for example) and the children or their descendants share equally in the residue; the widow also takes one-fourth of the estate acquired before marriage, or by gift or legacy during marriage, the children or their descendants taking the residue.

IV. (a) When the deceased leaves no widow, children or descendants, the parents take the entire estate in equal shares in the following States: Alabama, Arizona, California, Connecticut, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, New Hampshire, New Mexico, Pennsylvania, Texas, Utah, Vermont, Washington, Wisconsin, and Wyoming.

In all of the States just mentioned, except Alabama, Arizona, Maine, and Texas, if one parent is dead, the surviving parent takes the entire estate, to the exclusion of brothers and sisters. In Alabama, Arizona, Maine, and Texas the surviving parent takes one-half and the brothers and sisters, or their descendants, take the residue.

In all of them, if both parents are dead, the brothers and sisters and their descendants take the entire estate.

(b) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother and brothers and sisters, or their descendants equally; and if both parents are dead, then to the brothers and sisters, or their descendants: Florida, Maryland, Nebraska, New Jersey, New York, Oklahoma, Oregon, Rhode Island, South Dakota, Tennessee, Virginia, and West Virginia.

(c) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother; and if both parents are dead, then to the brothers and sisters, or their descendants: Arkansas, Colorado, District of Columbia, Nevada, North Carolina, and North Dakota.

(d) In the following States the parents, if living, and the brothers and sisters, or their descendants, take the entire estate, sharing equally. Georgia, Illinois, Mississippi, Missouri, and South Carolina.

(e) In Delaware and Ohio the brothers and sisters, or their descendants, take the entire estate in preference to the parents, who only inherit if there are no brothers or sisters or lawful issue of any deceased brothers or sisters.

DISTRIBUTION OF FEMALE'S ESTATE.

In the following States, if the deceased was a married woman, the rights of her surviving husband in her personal estate differ from the rights of a widow in the estate of her deceased husband as shown in the above synopsis.

(a) In Delaware, District of Columbia, New Jersey, North Carolina, Rhode Island, and Virginia the husband takes the entire personal estate, whether there is any issue of the marriage or not.

(b) In New York, if there are no children or descendants of children, the husband takes the entire estate.

(c) In Florida, Georgia, and Pennsylvania, if there are no children or descendants, the husband takes the entire estate; if there are children, the husband takes the same share as each child.

(d) In Ohio the husband takes the entire estate if there are no children or descendants; if there are children or descendants, they take the entire estate.

(e) In Alabama the husband takes one-half of the estate, the children, or descendants, taking the residue.

Law Examinations in New York State.

To entitle an applicant to an examination as an attorney and counsellor he shall pay to the examiners a fee of \$15, and he must prove (15 days in advance) to the satisfaction of the State Board of Law Examiners: 1. That he is a citizen of the State, twenty-one years of age, and that his residence for six months prior to the examination is actual and not constructive, which proof must be made by his own affidavit. 2. That he has studied law in the manner and according to the conditions prescribed for a period of three years, except that if the applicant is a graduate of any college or university his period of study may be two years instead of three; and except also that persons who have been admitted as attorneys in the highest court of original jurisdiction of another State or country, and have remained therein as practicing attorneys for at least one year, may be admitted to such examination after a period of law study of one year within this State. 3. That the applicant has passed the regents' examination or its equivalent must be proved by the production of a certified copy of the regents' certificate filed in the office of the Clerk of the Court of Appeals.

Address communications concerning law examinations to F. M. Danaher, Secretary, Albany, N. Y.

INHERITANCE TAX LAWS.

The following is a synopsis of several of the laws of the various States affecting the administration of the estate of a deceased person:

1. Who to Administer.--(a) If the deceased leaves a will, the duty of administration falls upon the executor. If no executor is named, or in the event of the death or refusal of the executor to act, the Court will grant administration under the will to some suitable person, generally selected from those most largely interested under the provisions of the will, such as the residuary legatees, if any. (b) If the deceased died intestate, letters of administration are granted to the following persons in practically all the States:

First--To the surviving husband or widow.

Second--To one or more of the next of kin entitled to share in the estate.

Third--If none of the above consent to act, to one of the creditors of the estate, except in localities where there is provided by law a Public Administrator, who is preferred to creditors.

In practically all the States an administrator is required to give bond for the faithful performance of his duties in double the value of the estate to be administered.

In most of the States, if so provided by the will, no bond is required of an executor, except that in some States an executor is required to give a bond to cover the probable amount of the debts of the estate, and in practically all the States, in the discretion of the Court, for cause shown, an executor may be required to give a bond.

2. Claims of Creditors.--The procedure in the several States in presenting creditors' claims against the estate varies very considerably. In the majority of the States the executor or administrator is required promptly to give public notice to creditors to present their claims to him, and the creditors are required so to present their claims supported by an affidavit that the same are justly due and owing from the estate, above any offsets or counter claims, within a period limited generally to six months or a year. The law of each State should be consulted for more specific details.

3. The following table contains an analysis of the laws of the several States, covering:

- (1) The time provided for accounting to the Court by executors and administrators on their administration.
- (2) The inheritance or succession tax upon property received either by intestate laws, last will, or by gift or transfer, designed to take effect at death, excepting legacies for religious, charitable or educational purposes, which are tax exempt in most of the States.
- (3) The various classes of estate obligations given priority over other claims in case of the insolvency of the estate.

State	Accounting.	Inheritance Tax.	Preferred Obligations.
Alabama.....	Annual accounts. Final account in one year if condition of estate permits.	None.	1. Funeral expenses. 2. Administration expenses. 3. Expenses of last sickness. 4. Taxes. 5. Wages of servants or employees.
Arizona.....	As directed by the Court.	None.	No statutory provision.
Arkansas.....	Annual accounts. Final accounting in three years.	Five per cent. tax on property passing to collateral relatives (other than lineal descendants or ancestors).	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages of servants. 4. Judgments which are liens on land of deceased.
California.....	Must file account in ten months.	On estates less than \$25,000 in value the tax rate varies from 1% to 5%, governed by the relationship to deceased, the nearer the relationship the smaller the rate of tax. On larger estates the above rate is increased from 1½ to 3 times. The tax exempt inheritances vary from \$10,000 to a widow or minor child to \$500 passing to remote relatives or strangers.	1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws. 4. Wages due within sixty days. 5. Judgments, mortgages and other liens.
Colorado.....	First account in six months, further accounts every six months until estate is closed.	Property passing to parents, husband or wife, child, brother or sister, wife or widow of son, husband of daughter, lineal descendant, or adopted child, or child acknowledged as such for ten years, is taxable at 2%, except estates less than \$10,000 are exempt to above persons. To uncle, aunt, nephew or niece or their descendants tax of 3%, no exemption. To all others above \$500: On \$500 to \$10,000, tax is 3%; \$10,000 to \$20,000, 4%; \$20,000 to \$50,000, 5%; above \$50,000, 6%.	1. Moneys held by deceased as trustee or executor. 2. Expenses of funeral and last sickness. 3. All allowances to widow or orphans.

State.	Accounting.	Inheritance Tax.	Preferred Obligations.
Connecticut...	Account in one year.	All estates exempt up to \$10,000. Tax on excess as follows: To parents, husband or wife, or lineal descendants, $\frac{1}{2}\%$; to others 3%.	1. Funeral and administration expenses. 2. Expenses of last sickness. 3. Taxes. 4. Other preferred claims by State laws.
Delaware.....	Account in one year.	Property passing to parents, wife, children or descendants exempt. To others, tax of 5%; estates exempt up to \$500.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages to servants and laborers. 4. Rent (not over one year). 5. Judgments. 6. Obligations of record. 7. Obligations under seal. 8. Contracts for payment of money or delivery of goods.
District of Columbia....	Account in fifteen months.	None.	1. Judgments or decree of Court. 2. Other debts.
Florida.....	Annual accounts.	None.	1. Administration expenses. 2. Funeral expenses. 3. Expenses of last sickness. 4. Judgments and debts due to State.
Georgia.....	Annual accounts.	None.	1. Year's support of family. 2. Expenses of funeral and last sickness. 3. Administration expenses. 4. Taxes. 5. Fiduciary obligations. 6. Judgments, mortgages and other liens. 7. Rent. 8. Liquidated demands.
Idaho.....	First account in three months. Future accounts as directed by the Court.	Tax on estates less than \$25,000 at following rates: (a) To husband or wife, lineal issue or ancestor, 1%; exempt to widow or minor child, \$10,000; to others of Class A, exempt \$4,000. (b) To brother or sister, or their descendants, or wife or widow of son, or husband of daughter, $1\frac{1}{2}\%$; exempt, \$2,000. (c) To uncles, aunts or descendants, 3%; exempt, \$1,500. (d) To great-uncles, great-aunts or descendants, 4%; exempt, \$1,000. (e) To more distant relatives or strangers in blood, 6%; exempt, \$500. On larger estates than \$25,000 the above rates are multiplied as follows: \$25,000 to \$50,000, $1\frac{1}{2}$ times above; \$50,000 to \$100,000, 2 times above; \$100,000 to \$500,000, $2\frac{1}{2}$ times above; \$500,000 and upward, 3 times above.	1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws. 4. Judgments and mortgages.

All claims presented within one year.

A contract is an agreement of two or more parties, by which reciprocal rights and obligations are created. One party acquires a right, enforceable at law, to some act or forbearance from the other, who is under a corresponding obligation to thus act or forbear.

Generally speaking, all contracts which are made between two competent parties, for a proper consideration, without fraud and for a lawful purpose, are enforceable at law.

To the creation of a valid contract there must be:

1. Precise agreement. The offer of one party must be met by an acceptance by the other, according to the terms offered.

2. There must be a consideration. Something of value must either be received by one party or given up by the other.

3. The parties must have capacity to contract. The contracts of insane persons are not binding upon them. Married women are now generally permitted to contract as though single, and bind their separate property. The contracts of an infant are generally not binding upon him, unless rat. filed after attaining his majority. The contracts of an infant for "necessaries" may be enforced against him to the extent of the reasonable value of the goods furnished. It is incumbent upon one seeking thus to hold an infant to show that the goods furnished were in fact necessary to the infant, and that he was not already supplied by his parents or guardians.

4. The party's consent must not be the result of fraud or imposition, or it may be avoided by the party imposed upon.

5. The purpose of the parties must be lawful. Agreements to defraud others, to violate statutes, or whose aim is against public policy, such as to create monopolies, or for the corrupt procurement of legislative or official action, are void, and cannot be enforced by any party thereto.

Contracts in general are equally valid, whether made orally or in writing, with the exception of certain classes of contracts, which in most of the States are required to be attested by a note or memorandum in writing, signed by the party or his agent sought to be held liable. Some of the provisions, which are adopted from the old **English Statute of Frauds**, vary in some of the States, but the following contracts very generally are required to be thus attested by some writing:

Contracts by their terms not to be performed within a year from the making thereof.

A promise to answer for the debt, default, or miscarriage of another person.

Contracts made in consideration of marriage, except mutual promises to marry.

Promise of an executor, or administrator, to pay debts of deceased out of his own property.

Contracts for the creation of any interest or estate in land, with the exception of leases for a short term, generally one year.

Contracts for the sale of goods above a certain value, unless a portion of the price is paid or part of the goods delivered. The required value of the goods sold varies in different States from \$50 to \$200. In a number of the States no such provision exists.

In many of the States declarations or conveyances of trust estates.

In many States representations as to the character, credit, or responsibility of another person.

Partial performance of the contract is generally held to dispense with the necessity for a writing.

If the damages liable to result from the breaking of a contract are uncertain, the parties may agree upon a sum to which either may be entitled as compensation for a breach, which will be upheld by the courts, but if the sum so fixed is not designed as a fair compensation to the party injured, but as a penalty to be inflicted, it will be disregarded.

A party is generally excused for the failure to perform what he has agreed only by the act of God or the public enemy. Except in cases involving a personal element in the work to be performed, such as the rendition of services, when the death or sickness of the party contracting to perform them is a valid excuse, or contracts for the performance of work upon a specified object, when its destruction without the fault of the party sought to be held liable is a sufficient excuse.

Arrest in Civil Action.

WHILE imprisonment for debt as it formerly existed in English and American law, by which a debtor might be arrested and imprisoned for mere inability to pay his creditor, no longer exists in the United States, the statutes of the majority of the States provide for the arrest of a defendant in a civil action under varying conditions. A large number of States determine the right of arrest by the character of the claim on which suit is brought, allowing it in actions for fraud or the injuries known in the law as "torts," such as an injury to the person or property, conversion or embezzlement, libel, slander or the like. Other States only allow arrest to prevent or punish the escape of a defendant from the State and the concealment or transfer of his property with intent to defraud creditors. Still other States combine these two theories or modify them in different ways.

The following synopsis shows a grouping of the States along lines of approximately similar legislation.

In the following States no civil arrest is allowed: Alabama, Arizona, District of Columbia, Florida, Maryland, Minnesota, Mississippi, Missouri, Nebraska, Tennessee and Texas.

In the following States the right to arrest depends upon the nature of claim in suit: In actions for fraud or torts, Connecticut; for fraud, libel, slander or violent injury to person or property, Delaware; for fraud only, Iowa and Kansas; only after verdict of jury, finding malice, fraud or wilful deceit, Colorado; for torts, breach of promise to marry, misconduct or embezzlement in office or professional capacity, Michigan, Pennsylvania, New York (also for fine or penalty or to recover property concealed from Sheriff); only after judgment for fraud or personal injuries, New Mexico.

In the following States arrest is only allowed against a defendant about to remove from State or about to conceal, transfer or remove his property to avoid plaintiff's claim or defraud creditors, irrespective of the nature of the claim: Indiana, Kentucky, Louisiana, New Hampshire, Utah, Virginia.

In the following States arrest is allowed in contract actions where the defendant is about to depart from the State, or conceal or remove his property, and also in actions for fraud or torts of various kinds, though the provisions are not identical: Arkansas (fraud only), California, Idaho, Illinois, Maine, Massachusetts, Montana, Nevada, New Jersey, North Carolina, North Dakota, Oregon, South Carolina, South Dakota, Vermont, Washington, West Virginia (fraud only), Wisconsin.

In Georgia arrest only allowed against attorneys, sheriffs or other officers of the Court for failure to pay over money collected, and in certain circumstances against defendant who conceals property from Sheriff.

In Wyoming and Ohio (only after judgment) in actions for fraud, or money lost at gambling, or where defendant has removed or concealed property to avoid judgment.

In Rhode Island, allowed in all actions except to recover debt or taxes.

Reciprocity Treaties and Agreements.

361

(List of reciprocity treaties between the United States and foreign countries since 1850.)

COUNTRIES WITH WHICH RECIPROCALITY TREATIES AND AGREEMENTS HAVE BEEN MADE.	Signed.	Took Effect.	Terminated.
British North American Possessions (treaty).....	June 5, 1854.....	March 16, 1855.....	March 17, 1866.
Hawaiian Islands (treaty).....	January 30, 1875.....	September 9, 1876.....	April 30, 1900.
Brazil (agreement).....	January 31, 1891.....	April 1, 1891.....	
Santo Domingo (agreement).....	June 4, 1891.....	September 1, 1891.....	
Great Britain:			
Barbados (agreement).....	February 1, 1892.....	February 1, 1892.....	
Jamaica (agreement).....	February 1, 1892.....	February 1, 1892.....	
Leeward Islands (agreement).....	February 1, 1892.....	February 1, 1892.....	
Trinidad (including Tobago) (agreement).....	February 1, 1892.....	February 1, 1892.....	
Windward Islands (excepting Grenada) (agreement).....	February 1, 1892.....	February 1, 1892.....	
British Guiana (agreement).....	February 1, 1892.....	April 1, 1892.....	August 27, 1894.
Salvador (agreement).....	December 30, 1891.....	February 1, 1892 (provisional).....	
Nicaragua (agreement).....	March 11, 1892.....	March 12, 1892.....	
Honduras (agreement).....	April 29, 1892.....	May 25, 1892 (provisional).....	
Guatemala (agreement).....	December 30, 1891.....	May 30, 1892.....	
Spain, for Cuba and Porto Rico (agreement).....	June 16, 1891.....	September 1, 1891 (provisional).....	
Austria-Hungary (agreement).....	May 25, 1892.....	May 26, 1892.....	
France (agreement).....	May 28, 1898.....	June 1, 1898.....	Still in force.
Germany (agreement).....	January 30, 1892.....	February 1, 1892.....	August 24, 1894.
Portugal and Azores and Madeira Islands (agreement).....	May 22, 1900.....	June 12, 1900.....	Still in force.
Italy (agreement).....	February 8, 1900.....	July 18, 1900.....	Still in force.
Switzerland (treaty of 1850).....	June 1, 1898.....	March 23, 1900.
Switzerland.....	January 1, 1906.....	Still in force.
Cuba (agreement).....	December 17, 1903.....	December 27, 1903.....	Still in force.
Spain (agreement).....	August 27, 1906.....	September 1, 1906.....	Still in force.
Bulgaria (agreement).....	September 15, 1906.....	September 15, 1906.....	Still in force.
Germany (agreement).....	April 22, 1907.....	July 1, 1907.....	Still in force.
Great Britain.....	November 19, 1907.....	December 5, 1907.....	Still in force.
France (additional articles).....	January 28, 1908.....	January 28, 1908.....	Still in force.
Netherlands.....	May 16, 1907.....	August 12, 1908.....	Still in force.

Additional list of Reciprocity treaties—Argentine Republic, took effect April 9, 1855. Bolivia, took effect January 8, 1863. China, took effect January 13, 1904. Costa Rica, took effect May 26, 1852. Hayti, took effect July 6, 1865. Japan, took effect March 21, 1895. Liberia, took effect March 18, 1863. Paraguay, took effect March 12, 1860. Servia, took effect December 27, 1882. All the above treaties are still in force.

The treaty with Cuba, which went into operation December 27, 1903, gives a reduction of 20 per cent. duty on all dutiable articles from Cuba entering the United States, and a reduction ranging from 20 to 40 per cent. on articles from the United States entering Cuba.

Arbitration Treaties.

THE United States Senate, Sixtieth Congress, ratified twelve arbitration Conventions, the countries being Denmark, France, Great Britain, Italy, Japan, Mexico, Netherlands, Norway, Portugal, Spain, Sweden and Switzerland. An arbitration treaty between China and the United States was signed at the State Department, Washington, October 8, 1908, an arbitration treaty between Peru and the United States, December 5, 1908, and an arbitration treaty between Paraguay and the United States was signed at Asuncion, March 15, 1908.

The Senate on January 29, 1905, ratified a treaty with Guatemala, San Salvador, Peru and Honduras providing for the submission to arbitration at the Permanent Court of the Hague of "all claims for pecuniary loss or damage which may be presented by their respective citizens and which cannot be amicably adjusted through diplomatic channels, and when said claims are of sufficient importance to warrant the expenses of arbitration," the treaty to remain in force five years from the date of its ratification by the last signatory government (the United States).

National Waterways Commission.

CREATED BY SECTION 7 OF CHAPTER 264 OF THE ACTS OF THE SECOND SESSION OF THE SIXTIETH CONGRESS, APPROVED MARCH 3, 1909.

SECTION 7. That a commission be, and is hereby, created, to be known as the National Waterways Commission, to be composed of members of the Sixtieth Congress, who shall be members of the Sixty-first Congress as well, as follows: Five members of the Senate, to be appointed by the presiding officer thereof; seven members of the House of Representatives, to be appointed by the Speaker. It shall be the duty of this commission to investigate questions pertaining to water transportation and the improvement of waterways, and to recommend to Congress such action as it may deem best upon these subjects. Said commission shall be, and is hereby, authorized to employ experts to aid in the work of inquiry and examination, also to employ clerks, stenographers, and such other assistants as may be necessary, all such employees to be paid such compensation as the said commission may deem just and reasonable, upon a certificate to be issued by the chairman of the commission. The several departments and bureaus of the Government shall detail from time to time such officials and employees and furnish such information as may be requested by said commission in its investigations. For the purposes of its investigations said commission shall be authorized to pay the necessary travelling expenses of persons summoned before it for the giving of information upon matters pertaining to the subjects under consideration, and the said commission is authorized to sit during the recess of Congress. The members of said commission or of any subcommission, or subcommissions thereof, may make investigations of waterways and harbors in the United States and elsewhere, and shall be allowed actual necessary expenses for the same and the expenses of necessary employees. The term of the commission shall expire on March 4, 1911. The commission shall report from time to time to the Congress of the United States, and shall at the conclusion of its labors submit a final report: Provided, That a preliminary report shall be made not later than January 1, 1910, which report, with all other reports, shall embrace such material and information obtained in the course of the investigation as shall be of value; also the conclusions reached by said commission on the several subjects investigated.

The sum of \$50,000, or so much thereof as may be necessary, is hereby appropriated, out of any money in the treasury not otherwise appropriated, to be immediately available, to pay the necessary expenses of said commission.

Game Laws of the

CLOSE SEASON FOR GAME

The following table shows the close season for all game in the United States, with the exception of mountain sheep and goat and a few unimportant species. Where no dates are given kind of game does not exist, or close season at all times. Local laws, where operative, should be consulted.
