A wider audience for the Pianist's Art

"If an Ampico Reproducing Piano could be installed in every American Home which now has a piano, America would soon become the musical centre of the world."

This was one of the comments made after the sensational Godowsky-Ampico recital at the Hotel Biltmore, at which the Ampico astounded a super-critical audience of musicians and music-lovers by encoring three of the pianist's interpretations, reproducing touch, tone color, phrasing—exactly as if Godowsky himself were seated at the piano.

The Ampico has given every great pianist two identities. One is the exclusive property of the metropolitan concert-goer. The other plays to a far wider audience—an audience of thousands of music lovers sitting in their own homes—by means of the master rolls which he prepares for the Ampico.

This remarkable instrument may also be used as the regular piano for playing by hand and as the player piano, using any standard roll.
