### BOHN SANITOR Porcelain-Steel Topped Kitchen Table

Kitchen efficiency holds a high place among our national problems. Every day, housewives who now have these splendid tables tell us what a help they are toward kitchen system, how gratifying their snowy-white cleanliness.

The tops of these tables are of the same material with which Bohn Syphon Refrigerators are lined—specially prepared steel, into which genuine porcelain has been fused at intense heat. They bear no resemblance to "porcelain enameled" or painted metal tops. This porcelain-steel will not crack; it will not chip; it will not peel; it will not turn yellow. Its everlasting whiteness is a real inspiration. Actually, it raises the tone of the entire kitchen.

Heavy bolts and wing-nuts hold the legs rigidly in place, but permit detachment, if desired.

Even the drawer is a "super-drawer" compared with that of the ordinary kitchen table. It is broad, deep and roomy. Why should a table be covered and recovered continually with oilcloth, which cuts and tears and turns color? A Bohn Sanitor Table can easily save its cost in oilcloth in a single year.

### Why Not a Refrigerator?

What could be more acceptable than one of the famous Bohn Syphon Refrigerators or an Ideal All-Metal, or a Sanitor Refrigerator? Special holiday prices apply to these as well as to the tables. Come and see them if possible, or phone or write for catalogs.

DANERSK OLD-TIME TRADITIONS

live anew in the lovely reproductions of English and Colonial pieces made in our Shops. For bedrooms in town apartment or country house, good cheer and happiness are assured in the lovely colors of our Old Venetian finishes to go with your selection of block print or wall paper.

A timely question: Am I justified in making purchases for my home now? To-day, more than ever before, we owe it to ourselves and to our families to suppress emotions of undue extravagance. In these days of sober, serious thought it is vital that we maintain our cheerfulness and courage; that we look life and our pocketbooks squarely in the face; and that we make our homes places where courage, poise and calmness of judgment are the rule. Without extravagance and yet without fear we should continue to do that which is only just and reasonable in keeping our houses well furnished and in expressing our own individuality in the color and form of the things that we have about us. Let us plan for the future; let us have joyful thoughts and go forward with that calm determination which has never yet failed us.

Our message for to-day is "the greatest possible individuality for the least possible cost."
